Hamilton, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The determination of lumber manufacturers to prevent prices from going any lower seems to have become more general. Reports from all sections of the province tell of a disposition to keep prices up to their present basis. Only in a few exceptional cases, where peculiar circumstances exist, is stock being offered at what might be called cut prices. Some manufacturers appear to have advanced their prices, and are asking for stock at the mill almost as much as can be obtained wholesale in Toronto. This reflects a tendency towards higher prices. The demand for lumber, on the other hand, is not improving in any perceptible degree, and it is probable that a quiet trade will be experienced until after the elections in Canada and the United States. In Toronto quotations for shingles are $2.65 for XXX and $1.75 for XX, with a light demand at these prices.

By a typographical error in our price list last week, the quotation for siding mill culls was given as $12, whereas it should have read $14.

A backward trade is still reported in hardwoods. The manufacturing industries for some reason are keeping out of the market, and retailers are buying only for immediate requirements.

MANITOBA AND BRITISH COLUMBIA.

Manufacturers and dealers admit that the demand for lumber is slow, largely due to the partial failure of crops in Manitoba and the Territories. Some dealers are reported to be cutting prices, and it has been found difficult to maintain the list. Manufacturers are taking advantage of the present quiet period to stock their yards, which had become depleted by the active trade of last fall and winter. The shingle trade of the Pacific Coast has been somewhat depressed, due to cutting of prices, but it is said that manufacturers are now making quotations which show a slight advance. The export trade is prosperous. The Russian Government is reported to have a representative in the west coast investigating the probabilities for the quick delivery of 30,000,000 feet of lumber at Vladivostock, but the report is not confirmed.

UNITED STATES.

The lumber consumer in the United States is still showing little disposition to buy for the future. While it is not believed that prices will go much, if any, lower, there is a feeling that an advance is not likely to take place. The fact that present orders are almost universally accompanied by a request for quick delivery, shows that retail dealers are carrying light stocks, and that a brisk demand will be witnessed after the Presidential election, if not before that time. In the Buffalo market there is some complaint of price-cutting on cutting-up grades. Mill culls, 1 to 2 inch, are selling in Buffalo at $16.50, while at Albany the quotation is $16. Box lumber is quiet, and it is understood that most of the factories in the Eastern States are well supplied; 1 inch, up to 9 inches in width, is selling at from $17 to $19, with one dollar added for 12 inch stock. The spruce market is improving. Good cargoes of wide lumber are held in New York at $16 to $18. Stocks are said to be exceedingly light in the New England States. Hardwoods have not witnessed an increased demand during the past week. Most of the large consuming concerns have considerable stocks on hand. A meeting of the Wisconsin Hardwood Lumbermen's Association was held last week, at which prices were reduced on nearly all items from one to two dollars per thousand. An improved demand for maple is reported. In Buffalo it is selling at about $20. Brown ash is bringing $38 to $40 in Boston, maple $29 to $30, and basswood $31.

The producers of red cedar shingles have made a slight advance in prices, and the shingle market is a little stronger. Pine shingles are quoted at Saginaw at $2.50 and $2.75 for clear butts, and $3.50 and $3.75 for XXXX stocks.

GREAT BRITAIN.

The Board of Trade returns, recently issued, show the general trade of Great Britain to be in a prosperous condition. The lumber trade, while satisfactory, is suffering from an accumulation of stock on the docks at some of the principal ports, particularly London. This is about the only unfavorable feature of the market. Prices are being kept up by high freight rates, which have practically put a check on chartering. Some offers have been made by shippers for next year's supply, but it is understood that very few transactions have taken place. Spruce deals in wide sizes are wanted. Concerning a cargo of spruce which recently arrived in the Tyne, the Timber Trades Journal says: "The wood is of very excellent quality, and if all consignments were equal to it, objections to the use of spruce would vanish on every hand. This lot is sound, clean, and full of nature, hard and close-grained, and well cut. The spruce trade, since its introduction four years ago, has grown remarkably, and the question would be one very difficult to answer, "What would have happened if Baltic alone had been relied on?" The price would certainly have been several pounds a standard more, and it would have been difficult to get sufficient of, say, 11x2½, and other sizes."

STOCKS AND PRICES.

George Shaw & Son, of Thessalon, Ont., are supplying 400,000 feet of lumber for the construction of smelting works at Bruce Mines.

T. H. DeCew & Son, of Fenelon Falls, Ont., have purchased a timber limit near Coboconk from B. Burchall and will put in a camp there this winter.

The Sarnia Street Railway Company, of Sarnia, Ont., are taking tenders for supply of poles to be used in the construction of a street railway in that city.

The Department of Public Works at Ottawa is calling for tenders, up to October 6th, for supply of poles for a telegraph line from Golden to Windermere, B. C.

The barque Thomas Cary recently cleared from Parrsboro, N. S., for London, with over 1,000,000 feet of deals, shipped by R. W. Kinsman & Company, of Canning.

J. Lawrence & Sons, of Watford, Ont., have finished sawing operations at that place for the season. They cut 7,000,000 staves, 500,000 feet of hardwood lumber, and 2,000 cords of heading.

In the Chicago market cedar shingles are selling at $1.95 to $2, and white pine

shingles at $2.25 to $2.30. The latter are said to be scarce at northern mills. No. 1 white pine lath are held at $2.25 f. o. b. cars Manistee, Mich.

It is understood that Sims Bros., of Little Current, Ont., have purchased the Lippincott timber limit for a sum in the neighborhood of $100,000. According to report, they intend taking out a large quantity of logs this winter.

The German ship Admiral Tegghoff sailed from Chemainus, B. C., last week, for Antofogasta, with 720,000 feet of lumber. The barque Louisiana sailed from the Hastings mill, Vancouver, for Melbourne, Australia, with 1,100,000 feet of lumber.

At a recent sale held by Churchill & Sim, London, Eng., third quality 3 by 9 spruce sold at £10 ex Vera, which is undoubtedly a good price, as the majority of the contracts were closed in the early part of the season at £8 5s c.i.f. Unsorted spruce 3 by 11, ex Tynedale and Portland, sold at £10 15s.

The Beck Manufacturing Company, of Penetanguishene, Ont., had a raft of about 80,000 logs tied up on the opposite side of the bay from Penetang. A boom chain broke and the logs went adrift. Most of them have been recovered, but at considerable expense. The Georgian Bay Lumber Company, of Waubaushene, encountered a similar loss by the recent severe storm of two weeks ago, which caused the logs to jump over the boom. It is said that 72,000 pieces went adrift.

Following is a comparative statement of timber measured and culled at Quebec up to 25th September, as reported by the Supervisor of Cullers :

	1898.	1899.	1900.
Waney White Pine....	1,815,975	1,774,268	1,369,428
White Pine	1,060,634	587,070	507,525

2½-inch and thicker	22.00	14.00

1-in. to 2-in. Ship Cull and Better, $12.00.

SOFT MAPLE.

1-inch to 2-inch Ship Cull and Better, $12.00.
For lumber sold all one length, add $1.00 per M feet.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The lumber business in Ottawa is brisk at present, and shipments are being made to both the English and American markets. J. R. Booth is shipping to the firm of Robt. Cox & Co., Liverpool, and Cox & Long, London, and to different points in New York state. The Hull Lumber Co. is also shipping extensively to Watson & Todd, Liverpool, and Dobell, Beckett & Co. Prices remain firm with no advance. Gilmour & Hughson are shipping more extensively to American points than heretofore, and are also shipping considerable quantities of deals to English firms. The Hull Lumber Co. has arranged to operate the Ritchie mill at Aylmer again next season. As this company has sold its site and water power, it is hardly likely it will rebuild the mill destroyed in April at present. Last season this company cut over 30,000,000 feet in its one large mill. This season's cut will probably amount to 22,000,000 feet. Both Mason's and Bronson & Weston's mills are being operated night and day by the firm, which will soon institute the double shift in Ritchie's mill at Aylmer also.

The prospects for next season are bright in Ottawa lumber circles, and the business promises to be fully recovered from the blow dealt by the fire at the beginning of the season. All the mills will cut late this fall to recover ground lost on account of the fire, and to stock up fully for next season. Large rafts of logs are being handled on the Ottawa and Gatineau daily for the Ottawa mills.

Messrs. Laing and Rochester, foremen for the Hull Lumber Co., were in the city this week. Mr. Laing has charge of the firm's work on the limits bordering the Kippewa river, while Mr. Rochester has charge on the limits about the Ostoboning river, and both gentlemen state that considerable difficulty is being experienced this season with the class of labor engaged for work on the limits. Good men are scarce and wages high, and hence men new to the work are being accepted and sent on to fill the places of men who have had considerable experience and are better suited to the work. Men are being engaged in Hull and Ottawa daily for points as far west as Sault Ste Marie. Many are going to Warren, Sudbury, and other C. P. R. points, while others are going to the Georgian Bay district to work for American firms.

The present is one of the busiest seasons known in the Maclaren mills at Buckingham, on the Ottawa river. The cut for the season will amount to 22,000,000 feet. Shipments are being made to the English and American markets regularly. The English lumber is being supplied Robt. Cox & Co., Liverpool, and the American shipments are being sent to D. L. White & Co., of Albany, N. Y.

Mr. J. R. Booth has about completed the refitting of his lumber yards on the Hull side of the Ottawa river. As the fire made a clean sweep, it was found necessary to rebuild all the platforms and tramways, which extend the entire length of the yard.

The E. B. Eddy Co. expects to be turning out matches from the new factory inside of three weeks. The saw mill will also be running in about the same time. The construction work on the mills has been almost completed, and the paper making machinery is about ready for installation.

All the flumes at the Chaudiere destroyed in the recent fire have been repaired. Mr. J. R. Booth is having different water courses enlarged to enable him to secure better water power for his mills. He has not yet decided whether he will build a pulp mill on the site of the McKay flour mills or not.

Ottawa, Sept. 22nd, 1900.

OAK DIMENSION.

Mill men who are in a position to cut oak into dimension for export are asked to correspond with the publishers of the CANADA LUMBERMAN.

FIRES.

About 400,000 feet of cedar logs, the property of Mr. Morrison, were destroyed by fire at Fredericton, N. B., recently. The loss is about $5,000.

Fire destroyed the saw mill and 4,000,000 feet of spruce lumber at St. Cecile, Que., the property of Chas. McCaffrey. The lumber consisted principally of three inch deals, intended for the British market. The loss is estimated at $75,000, about half of which is covered by insurance.

FOR SALE: Timber Limits on the Following Rivers :—
Du Lievre, Rouge, St. Maurice, Temiscouata, Cascapedia (Great and Little), and the Escumenac Rivers and Georgian Bay.
Mills and Water Powers also for sale.
Asbestos, Chrome and Copper Mines for sale.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., OCTOBER 3, 1900 No 37.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

SALES AGENT WANTED.

WE WISH TO CORRESPOND WITH SOMEONE having a good connection with the lumber trade with a view to their acting as salesman for us in the East. THE CANADIAN PACIFIC LUMBER COMPANY, LIMITED, Port Moody, B. C.

CURRENT TRADE CONDITIONS.

ONTARIO.

A light demand and firm prices continue to characterize the lumber market of Ontario. That prices hold strong under rather adverse influences is regarded as an argument in favor of higher prices eventually, and with a more active demand it is believed that pine prices at least will be advanced. Manufacturers on this side of the line feel encouraged by the decision of the lumbermen's associations in the United States to adhere to present prices. For some time prices of pine lumber in Ontario have been stronger than in the United States, and it has been feared that a break there would cause prices on this side to respond sympathetically, but this danger has now been removed. A firm stand has been taken in respect to lumber values, and the trade will patiently await the expected improvement in demand. Manufacturers and dealers are carrying fair-sized stocks, but this cannot be said of retailers and consumers, who, with few exceptions, must very soon replenish their supply. No change in Ottawa and Toronto quotations have been made this week. Some sales of lath are said to have been made at a figure slightly below our quotations, but we believe that the average prices are $2.75 for No. 1 and $2.25 for No. 2.

Attention is now turning towards logging operations. The difficulty in engaging woodsmen has not been relieved, and the cut of pine logs will likely be less, both in the Ottawa and the Georgian Bay districts, than last winter. Fewer hardwood logs also will be placed on the market, as the prices are not likely to be so tempting as last season, when the competition among buyers of logs was so keen that excessive prices were paid. During the past summer the mill owners have realized the folly of paying more for logs than they were really worth, and it may serve as a lesson for future operations.

QUEBEC AND NEW BRUNSWICK.

In some respects the spruce situation has improved within the last week. There has been a better demand from the Eastern States, and prices there are firmer on the indication of a more active fall trade. Retail dealers are now beginning to replenish their depleted stocks. A moderate trade is doing in cedar shingles at unchanged quotations.

Export business from the St. Lawrence has been given another blow by a sharp advance in insurance rates. The steamship companies at Montreal have just been advised that the rates have been advanced to 3 shillings 4 pence on steamers sailing from New York, and 17 shillings on steamers from Montreal. This discrimination is likely to prevent any further chartering of lumber vessels this fall. Some chartering for next year from the St. Lawrence has been done, two boats having been fixed from Quebec at 52s. 6d., but we understand that there are boats in the market on offer at 50s. Present rates from St. John, N. B., to west coast of England are about 67 shillings.

UNITED STATES.

A light trade in lumber continues throughout the United States. What improvement has taken place has been in the east, where some disposition is show, to stock up for fall and winter trade. The main strength of the market is in respect to prices, as at almost every point the authorized lists are being maintained. Following the meeting of Wisconsin manufacturers reported last week, the Mississippi Valley Lumbermen's Association held a meeting in Minneapolis, at which it was decided to make no reduction in lumber prices. This decision was reached after making a careful study of the situation, which showed that stocks in the hands of manufacturers were somewhat depleted, and that the outlook for business during the next year was promising. The only change was in the price of lath, which was reduced 50 cents, making the price f. o. b. Minneapolis $3 for white pine and $2.50 for mixed white pine and Norway. In the Saginaw valley it is reported that common stock is a little lower, but that good white pine is scarce and held at firm prices. Log run stocks are worth $16 and upwards. At Buffalo box grades are firmer. The factories are working overtime, and there is a good demand for box lumber at $16.50, while some dealers are holding this grade at $17. There is a scarcity of 5x4, which sells at $17.50. The only change in our quotations this week is in the Albany list, barn boards being marked down about one dollar per thousand.

The outlook for spruce is regarded as decidedly favorable. In New York prices have stiffened somewhat, from $18.50 to $19.50 being an average quotation for wide lumber, with special orders at $15 to $17. Hardwoods are showing a degree of strength, although, as with pine, the demand is light. Weakness in white ash is reported, inch firsts and seconds selling in the Buffalo market at $38. Birch is strong at $28.

Dealers in the Eastern States report a good movement of red cedar shingles, which are selling at 50 cents less than XXXX 18-inch pine. The latter are quiet.

GREAT BRITAIN.

In London pine deals of first quality are selling at £32 per standard, second quality at £24 10s, third quality at £14 10s, and fourth quality at £11 10s. These prices are the highest that have been reached for some years. Notwithstanding, the position of the market is such that an advance of from £1 to 30s is predicted before next spring. At auction sales first pine deals have averaged about £29 per standard. Spruce is equally firm, selling at £11 5s for 3x11 second quality, £10 2s6d for third, quality, and £9 10s for fourth quality delivered at London. There is considerably less stock of some classes in first hands than last year, and holders of such sizes as 3x9 and 3x11 inch in good qualities are said to command the situation. At Liverpool waney pine and elm are wanted, and enquiries are also in the market for oak and square pine. Some good sales of red pine are reported.

No business of any consequence has been closed for next year, although importers are feeling the freight market, and if reasonable rates can be secured, considerable early business is expected.

FOREIGN.

Reports from South Africa state that prices of timber have recently advanced sharply. At Port Elizabeth the rise is from 8 to 12 cents per cubic foot. It is said that British dealers have sold about 50,000 standards to that market. This, we understand, has been chiefly Baltic stock.

The Sayre & Holley Lumber Company, St. John, N. B., is applying for incorporation.

It is reported that negotiations are abou completed for the purchase by a company o the extensive lumbering business of Geo Moffatt at Dalhousie, N. B.

STOCKS AND PRICES.

The base price for hemlock lumber in New York city is $15.

Johnson & Beveridge, of Parry Sound, Ont., have again put in logging camps in the township of McKenzie.

The Dickson Company, of Peterborough, Ont., will make a large cut of logs in East Harvey township this winter.

For the week ending September 26th, 9,548,000 feet of lumber and 3,525,000 shingles were received by lake at Buffalo.

Haley & Son, of St. Stephen, N.B., have been given a contract by a Glasgow firm to supply 60,000 boxes per month for a year.

The Allen Spool & Printing Company, of Mystic, Conn., wants 100,000 feet of good white birch spool wood, 1⅛, 1 3-16, or 1¼ inch square.

On September 22nd and 23rd twenty-one lumber-laden vessels arrived at Tonawanda, N.Y., whose cargo aggregated 15,000,000 feet. This is the largest quantity of lumber received at that port during any similar period of this season. Most of the lumber went into the yards for winter stock.

At a recent auction sale held by Foy, Morgan & Company, London, England, pine deals of the Hawkesbury shipment, first quality, sold at the following prices: 12 ft. 3x12-28in., £28 15s; 13 ft. 3x11-26in., £29; 13 ft. 3x11-23 in., £29 10s. Spruce deals, unassorted, from Wolfe River, N.S., brought £9 5s for 9-21 ft. 2½x6 in., £8 5s for 10-21 ft. ¾ 7-11 in., and £8 5s for 10-20 ft. ¾x5 in.

Following is a comparative statement of timber measured and culled at Quebec up to 29th September, as reported by the Supervisor of Cullers:

	1898.	1899.	1900.
Waney White Pine	1,8 5,975	1,778,584	1,449,003
White Pine	1,060,634	591,324	564,444
Red Pine	239,349	159,937	63,780
Oak	948,c44	522,178	458,948
Elm	474,154	456,841	676,163
Ash	34,735	56,646	91,701
Basswood	955		242
Butternut		60	142
Tamarac		415	71
Birch and Maple	112,500	244,530	459,333

The ship Linfield has completed loading lumber at the Hastings mill, Vancouver, B. C., and will sail for London and Southampton. The cargo consists of over one and one-quarter million feet of lumber. The large timbers make up the deck load and are consigned to the British Admiralty to be used to replace the iron spars in the Queen's Royal Yacht Victoria and Albert. Two of the spars are 32 inches square and 105 feet long, and two others 28 inches square and 90 feet long.

BRITISH MARKET FOR DOWELS.

There is a large market in Great Britain for dowels. We are in receipt of a communication from a large importing firm in London, in which they state that they are prepared to place orders for large quantities of these goods, and are anxious to learn of Canadian manufacturers who would be willing to take up the matter. The following specifications of their requirements at the present time will give manufacturers an idea of the quantity, size and price:

GOODS TO BE CONSIGNED C.I.F. MANCHESTER DOCKS.

Quantity	Size	Price Per Gross
1,000 gross	30 in. long, 6/16 in. dia.	2s 4d

The specifications provide for maple dowels, to be clean, sound, smooth and free from knots. The firm in question give some of the leading banks in England as references.

Any manufacturer wishing to open up correspondence with the firm will be furnished with their name and address by communicating with this office.

DEMAND FROM THE EASTERN STATES.

At the present time, says the American Lumberman, the eastern part of the country seems to be producing the best results as far as the lumber trade is concerned. Inquiry and actual shipments in the west are but moderate in volume, although fully up to and perhaps ahead of the ordinary season, but the contrast is so marked with the trade of last year that lumbermen are inclined to call it dull. The result is an easy condition of prices and a hand-to-mouth sort of business which is not particularly stimulating.

The east, however, shows a decided improvement. The demand is good and increasing. There is some disposition to stock up for the late fall and winter trade and prices are firmer. Not in many lines is there a quotable advance; but the lists are for the most part being maintained and there is a hardening tone to values which is gratifying to all holders of lumber, and which is not objected to by buyers, inasmuch as it is caused by an improvement in conditions which beneficially affects all alike. There is less heard in the east about concessions in prices or anything of that sort than in the west, and this is true even in respect to white pine, though the white pine situation generally is a strong one.

The eastern improvement is not confined to to any particular line. It seems to affect all sorts of lumber, whether for building or for manufacturing use. It would not be strange to find the east the leader in lumber values for some months to come, for that locality has a faculty of developing strength when least expected, or on the other hand, of showing weakness when strength and activity characterizes the central and western part of the country.

THE BARBADOS MARKET.

CLAIRMONTE, MAN & Co., in their circular of September 15th, say: There is still a fair demand for spruce and white pine lumber, as our yards are moderately stocked. We note one arrival for the fortnight, sold for Demerara, at $26 for merchantable, and $22 for second quality. Latest local sales are: White pine, $23.37 for first quality, and $17.37 for second quality; spruce, $20.10 for first and $16.10 for second quality.

SHINGLES—Gaspe cedar are in full supply; we placed 187 M large ex Success, at $5.07 per M; other sales ex same vessel were made at $4.56 for large, and $3.03 for small. The cargo ex Blenheim, in store from last season, has since been sold at $3 per M. Cedar laying, $2.03 for a cargo of 485 M ex New Dominion, spruce laying $2.

The brigt. "Boston Marine," arrived from Jordan River, N.S., on September 5th, with 43 M feet white pine, sold at $26; 84 M second quality $22, deliverable at Demerara.

FOR SALE: Timber Limits on the Following Rivers:—
Du Lievre, Rouge, St. Maurice, Temiscouata, Cascapedia (Great and Little), and the Escumenac Rivers and Georgian Bay.
Mills and Water Powers also for sale.
Asbestos, Chrome and Copper Mines for sale.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., OCTOBER 10, 1900 No 38.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

A small mill at Orillia, Ont., operated by the Orillia Export Lumber Company, was destroyed by fire last week. The company will rebuild.

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week has brought about no material change in the lumber situation in Ontario. Pine lumber is firm, with hardwoods comparatively weaker. More activity in shipping circles is observable, due to a desire to move stock before the close of navigation. In the Ottawa valley red and white pine deals for the British market are in good demand, and in no grades are heavy stocks held. The tendency of prices generally is strong, with a slight weakness noticeable in the lower grades. From the Georgian Bay district considerable shipments have been made to Michigan, where, on account of the inability to obtain Canadian logs, very little lumber has been manufactured this year. The position of the pine market seems to be improving. Stocks are by no means large, and the cut of logs during the coming winter will likely be less than last season, as the high cost of labor and supplies will prevent a certain number of small operators from going into the woods.

That hardwood prices are showing weakness cannot be disputed. Some of the smaller manufacturers have felt the necessity of realizing, and consequently have offered buyers concessions in the matter of price. The large dealers, on the other hand, are giving evidence of their faith in the ultimate strength of the market by refusing to lower their asking prices. Should they adhere to this position, it is possible that the market may be sustained after temporary weakness. The largest holders of stock in the Owen Sound and Wiarton district are asking $13 to $14 for common and better maple, $13 for inch common and better birch, and $15 for common and better basswood. A heavy stock of maple in this district is reported. Hemlock lumber is showing more life than any other class. The demand is so brisk that sufficient stock cannot be obtained to supply orders, and the tendency of prices on this lumber is upwards. Shingles are inactive, while there has been an increase in the number of enquiries for lath.

MANITOBA AND BRITISH COLUMBIA.

The weather in Manitoba and the Territories has been unfavorable for the lumber trade. Buildings commenced in the summer are nearing completion, and few new undertakings are heard of. The grain movement is light, and it seems doubtful that the farmers will this year undertake more than needed improvements to their buildings. In the face of a light demand, lumber prices are generally firm, but in Winnipeg some cutting by one or two retail dealers is reported. The export trade from British Columbia is still hampered by chartering difficulties. Freight rates have reached the highest point attained for years without bringing into the market any number of vessels.

UNITED STATES.

The Presidential campaign is exerting an influence on the lumber business of the United States. Orders are being held back until after the election. There is not, however, the stagnation which usually characterizes Presidential years, as the outcome of the election is regarded as reasonably certain. On this account lumber is being held at firm prices. Some manufacturers in the Lake Superior district have been offering a concession in price equal to about one dollar per thousand rather than carry the stock over the winter. In the Duluth district the supply of unsold lumber of the lower grades is small, but the total stock is perhaps a little above an average. At Buffalo the lower grades of pine are stronger, No. 3 boards selling at $16.50 and box lumber at $17. Box stock is said to be in short supply throughout the Eastern States, although box makers are fairly well supplied. A contrary condition seems to exist in the Saginaw valley, where box stock has weakened as a result of the falling off in demand. Mill culls are selling in Ashland, Wis., at $10.50 to $11. There is a strong demand there for Norway pine, which has recently advanced about fifty cents per thousand. The outlook for spruce is good, and firmness is noticeable in all grades. In New York city wide timber is quoted at $19.

Hardwoods are moving satisfactorily. White birch brings $28 at Buffalo, and red birch $45 for inch firsts and seconds. Increased enquiries are reported for maple and basswood, while ash and elm are quiet.

GREAT BRITAIN.

The prospects for next season's business are now being discussed in timber trade circles in Great Britain. The present high freight rates have thus far interfered with new business, and no contracts of importance are believed to have been placed. That prices are now comparatively high is also a factor which has caused importers to exercise precaution, as the effects of a declining market next year would be disastrous to purchasers of stock at the present basis. The opinion seems to prevail that prices next year will be no higher than those ruling throughout the season now drawing to a close, while a slight reduction in some lines is not improbable.

Pine and spruce deals are holding firm, although the latter are not as strong as they were a month ago. The results of recent auction sales, when 3x11 inch, 9 feet and up in length, brought £9 10s per standard, shows that the wider sizes are scarce and much in demand. At a recent sale in Liverpool St. John spruce sold on an average of £7 14s and 2d per standard, which is a fair price for the stock, which was not of the best quality. Birch timber sold at from 16d per cubic foot for 15 inch to 21d for 19 inch.

PINE LATH.

An improved demand has arisen during the past fortnight for pine lath. At the head of Lake Superior No. 1 lath is selling at from $2 to $2.25 per thousand, and No. 2 from $1.50 to $1.75, in cargo lots. On the lower lakes No. 1 is selling at from $3 to $3.25. There has recently developed a scarcity in No. 1 lath. Not only is there a lighter stock than was expected, but it is actually so limited as to threaten a scarcity before next spring. The scarcity prevails on Lake Huron, Lake Michigan and to some extent on Lake Superior. The increased output of the past season was largely in No. 2 lath, which is now about fifty cents lower than No. 1. In the Chicago market No. 1 is selling in the neighborhood of $2.75, in Tonawanda $2.90, while in Toronto the quotation is $2.75 for No. 1 and $2.25 for No. 2 lath, with Norway selling midway between these figures.

STOCKS AND PRICES.

Cedar shingles are selling at from $2 to $2.10 for extras in the Chicago markets.

The ship Monrovia sailed last week from Halifax, N.S., for River Mersey, with a cargo of 1,300,000 feet of deals, shipped by W. M. Mackay.

The Red Cliff Lumber Company, of Ashland, Wis., recently sold to Vanderbeek & Sons, of Jersey City, 1,500,000 feet of No. 3 boards at $13 per thousand.

The C.P.R. have given a contract to G. H. Strevel, of Winnipeg, to supply 250,000 ties. A similar contract for 150,000 ties has been given to J. J. Egan, of Winnipeg.

At Duluth lumber prices rule as follows: No. 4 boards, $9.50 to $10.50; No. 3, $11.50 to $12.50; log run, No. 3 and better, $13.50 to $15; log run, No. 2 and better, $14 to $17.

At Buffalo first-class dry elm flour barrel staves are selling at $8 to $8.50; six foot coiled hoops at $9 to $9.50; hickory hoops at $5 to $6; and basswood heading at 6¼ to 6½ cents.

The receipts at Buffalo this season up to October 1st have been 112,003,000 feet of lumber, 98,326,000 shingles, and 3,017,000 lath. The amount to same period last year was 134,294,000 feet of lumber and 99,126,000 shingles.

During September there was shipped from the Saginaw river only 2,065,000 feet of lumber. The shipments from the opening of navigation to October 1 were 7,242,000, while the receipts during the same period were 52,350,507 feet.

The Fredericton Boom Co. has rafted thus far this season 51,073 joints of timber, containing 123,477,179 feet. This included 107,833,259 feet of spruce, 3,418,880 feet of pine, 12,163,810 feet of cedar, 51,230 feet of hemlock, and 35 tons of timber.

The demand for Norway pine is said never to have been better in the Ashland market than at present. Only three or four operators have any quantity in stock. Prices sagged off about fifty cents two months ago, but they are now back at their old figures.

G. T. McNutt, of Lower Stewiacke, N.S., has purchased the timber on the Aspotogan Mountain. Much of this timber was damaged by fire last spring, and it is Mr. McNutt's intention to cut it immediately. He expects to get about 3,000,000 feet.

Following are current quotations for shingles in the Tonawanda market: 16 in. pine clear, $2.50; 16 in. pine clear butts, $2.15; 16 in. pine No. 2, $1.15; 18 in. pine XXXX, $4.50; 18 in. pine C.B., $3.30; 16 in. cedar clear, $2.55; 16 in. cedar *A, $2.20; 16 in. cedar clear butt, $1.65; 16 in. cedar No. 2, $1.

Messrs. Robinsons, Limited, held an auction sale of deals at Dublin, Ireland, on Sept. 25th, at which spruce sold as follows: Cape Tormentine spruce—4 and 5x3, £13 5s.; 6x3, £14; 7x2½ £12 10s. and £12 17s. 6d.; 7x3, 12 ft. £12 15s, 13ft. £13 5s., 18 ft. £13 10s., 19 ft. to 23 ft. £15; 8x3, 14 ft., £14; 9x3, 10 ft. to 15 ft., £14 10s., 16 ft. £14 12s. 6d. to £15 2s. 6d., 17 ft. £14 12s. 6d., 18 ft. £15 10s., 19 ft. to 21 ft. £16; 11x3, 14 ft. £14 15s., 15 ft. and 16 ft. £15; 12x3, £13; 13x3, £14 5s.; 14x3, £14; 15x3, £14 5s.; 16x3, £14 10s.; 3 to 5x1, £11 to £11 5s.; 6x1, £13. Quebec spruce—7x3, £13 17s. 6d.; 12 ft. 9x3, £14 5s.

Spruce continues firm at Boston, with the tendency upward. Spruce boards are scarce and higher, matched 12 foot boards No. 2 being quoted at $17. Full agreement prices are being maintained throughout the list, which has now been in existence three months. Ten and 12 in. dimensions are worth $17; 9 in. and under, $15; 10 and 12 in. random lengths, 10 feet and up, $16.50, and merchantable boards, $15 and $16. Hemlock continues scarce and firm at $13 to $15 for Canadian. Shingles are quiet and easy at $2.60 to $2.70 for extra cedar and $2.25 to $2.35 for clear. Laths are firm and in very good demand at $2.60 to $2.75 for 1 5-8 in. and $2.25 to $2.30 for 1½ in.

SALE OF CANADIAN DEALS.

Messrs. Churchill & Sim, London wood brokers, England, held an important auction sale of wood goods on September 27th, at which Canadian deals comprised the chief offerings. Following is the result in detail:

PINE.—Ex. Bardsey, from Quebec—9 ft. 3x5 in. first quality, £15 10s. per standard; 9 ft. 2x5-12 in., £12; 6-8 ft., 3x5-6 in., £14; 6-8 ft., 2x5-11 in., £10 10s. Ex. Turret Age, from Saguenay—9-13 ft., 3x12-17 in. third quality, £11 15s.; 12-14 ft. 3x11 in., £13; 9-11 ft. 3x11 in., £12; 12-16 ft., 3x9 in., £10 5s.; 12-16 ft. 3x8 in., £10; 12-17 ft., 3x7 in., £9 13s.; 9-11 ft. 3x9 in., £9 15s.; 9-12 ft., 3x11-17 in. fourth quality, £10; 9-15 ft., 3x7-10, £9 10s.; 9-15 ft. 3x8-12 in. unassorted, £10; 6-16 ft. 3x7, £9 5s. Ex. Simonside, from Quebec—12-16 ft. 1x8-14 in., second quality, £13 5s.; 12-13 ft. 1 1/2x9 in. unassorted, £10. Ex. Oceano, from Montreal—12-14 ft. 3x8-23 in. first quality, £27; 9-13 ft. 3x4-13 in., £15; 5-8 ft. 3x5-11, £13 10s. Ex. Arnage, from Montreal—15-16 ft. 2x8 in., second quality, £10; 12-16 ft. 2x7, £9 10s.; 12-16 ft. 1 1/2x11 in., £14; 12-16 ft. 1 1/2x9, £10 15s. Ex. Oceano, from Quebec—10-13 ft. 3x5 in. second quality, £12 10s.; 6-8 ft. 3x5-11 in., £11 10s.; 6-9 ft. 3x11 in. third quality, £11 5s.; 12 ft. 3x6, £10 10s.; 12-14 ft. 3x5, £9 15s.; 8-11 ft. 3x6, £9 15s.; 8-11 ft. 3x5, £9 15s.; 6-9 ft. 3x5-11 in. second quality, £8 10s.; 9-13 ft. 3x10, third quality, £9 10s.; 9-13 ft. 3x4-6, £7 15s.; 6-8 ft. 3x4-11, £7 15s.; 10-13 ft. 3x11 in. fourth quality, £9; 10-13 ft., 3x10 in., £9.

SPRUCE.—Ex. Simonside, from Quebec—13 ft. 3x9 in. second quality, £10 5s. Ex. Huelda, from Quebec—9-16 ft. 3x7 in. second quality, £8 10s.; 9-14 ft. 3x6-8 in. third quality, £8 5s.; 12-13 ft. 3x8 in., £8 10s.; 12-13 ft. 3x7 in., £8 5s.; 9-11 ft. 3x7 in., £8; 12 ft. 3x7 in. unassorted, £8 5s. Ex. Bardsey, from Quebec—8-13 ft. 3x7-12 in. third quality, £10 15s.; 6-13 ft. 3x9-12 in., £9 15s.; 6-13 ft. 3x8 in., £8 10s.; 6-16 ft. 3x6, £8; 6-13 ft. 3x9-11 in. fourth quality, £9 5s.; 9-14 ft. 3x8, £8 5s.; 10-16 ft. 3x6-7 in., £8; 6-13 ft. 3x7-11 in. fifth quality, £7 10s.; 10-14 ft. 3x9-12 in. unassorted, £9 15s.; 10-17 ft. 3x8, £8 10s.; 10-12 ft. 3x7, £8 5s.; 10-17 ft. 3x5-6, £7 15s. Ex. Turret Age, from Saguenay—5-11 ft. 5/8x7 in. unassorted, £7 15s.; 5-17 ft. 5/8x6 in., £8 10s.; 6-16 ft. 5/8x5 in;, £8; 5-16 ft. 5/8x4 in., £7 5s. and £7 10s.; 5-17 ft. 5/8x3 in., £7 10s.; 3-8 ft. 3x7-9, unassorted, £8; 4-8 ft. 3x9, £8 15s. CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., OCTOBER 17, 1900 No 39

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—50,000 feet 1¼ inch winter sawn Basswood. THOS. MYLES' SONS, Hamilton, Ont.

Will sell cheap for cash or exchange for a 35 h.p. portable boiler and 30 h.p. engine if as good as new. For further particulars apply to JOHN R. MCKAY, Lansdowne, Pictou Co., N. S.

BUSINESS NOTES.

F. Larouche, lumber dealer, Taillon, Que., is said to be offering to compromise at 50 cents on the dollar.

The Boston Lumber and Brick Company has been incorporated, with capital of $40,000 and head office at Sault Ste. Marie, Ont.

On October 1st the Keewatin Lumber & Manufacturing Company, of Keewatin, Ont., took over the retail lumber business of Dick, Banning & Company in Winnipeg. The new business will be under the management of Mr. Geo. A. Lister.

CURRENT TRADE CONDITIONS.

ONTARIO.

If the Ottawa valley can be taken as the barometer of the lumber industry of the province, the outlook for pine lumber is decidedly promising. From that district an active movement of stock is reported, at prices slightly in advance of those ruling one month ago. One manufacturer reports the sale last week of one million feet of lumber at the highest price of the season. Almost every grade of pine is moving, with a heavy demand for box stock and for dimension 10 inches and up in width. The only weakness pertains to the lower grades, and this is far from approaching depression. Stocks in the hands of manufacturers are believed to be fully 25 per cent. less than at same period last year. In the Georgian Bay district there is a larger accumulation of stock in proportion to the production, but it cannot be said that the stock in any locality is excessive, and with a revival in demand, prices would be likely to advance. In Western Ontario the fall trade has been backward. Some members of the trade do not expect much improvement until after the turn of the year. The statistical position of pine lumber, however, is strong, and manufacturers have decided to take full advantage of the situation and keep up prices even in the face of a slow demand. The stocks of retailers and consumers are known to be light, and sooner or later they must replenish their supplies.

The hardwood market is in a somewhat uncertain position. The stock of hardwoods at the mills is larger than last year, while very little buying is being done. Perhaps the only exception to this is basswood, which is in light supply. The larger manufacturers have not receded from their position and are holding out for full prices.

QUEBEC AND NEW BRUNSWICK.

Recent rains in New Brunswick have interfered with the lumber business. Some of the railroads have been tied up, making it impossible to ship lumber. The spruce market, although not active, is showing a little more strength, due to an improved demand and firmer prices in the Eastern States. Most of the mills have disposed of their export stock, but much of it has not yet been moved owing to the difficulty which shippers have encountered in effecting vessel charters at reasonable rates. As this stock is likely to be held over until the spring, there is considerable uncertainty as to the prices which will rule next season. It may be said, however, that spruce lumber is each year gaining a stronger foothold in foreign markets, and that if manufacturers guard against an over-production, there is little doubt but that the product of the spruce mills will always find a market at fair prices. White cedar shingles are selling at $2.75 on Boston rate of freight. Some large orders have been placed, as there is a likelihood that this price will be advanced in the near future.

UNITED STATES.

The lumber transactions of the past week would seem to indicate that the result of the Presidential election is being discounted. There has been a noticeable revival in trade, and consuming industries which until recently kept out of the market are now buying with some liberality. For the first week in October the sales of lumber in the Duluth market reached 10,000,000 feet. A certain portion of lumber dealers and consumers will probably not enter the market to buy stock until after the election, but other buyers believe that lumber can be obtained cheaper at the present time than after the election, and are acting accordingly. Pine prices are firm, with the better grades inclined to advance slightly. Some weakness is reported in certain low grades. No. 1 barn boards, for instance, are selling one dollar lower in the Albany market. At Buffalo they are also in large supply and weak, while the stock of the better grades of lumber is not particularly large. In the Chicago market the greatest weakness pertains to low grade inch. It is said that some common inch has been sold in that market as low as $14.50, but about $15.50 is the average quotation. Reports from the Eastern States tell of firmness in the spruce market. In New York northern spruce has advanced one dollar per thousand, firsts and seconds selling at $20, while eastern spruce is about $2 higher. Hardwoods are firm as the result of a better inquiry, but as yet there is no noticeable improvement in demand. Plain oak and birch have been more enquired for.

The position of the lath market is improving. No. 1 white pine is selling in Buffalo at $3, mixed at $2.75, and No. 2 at $2.50. In Chicago No. 1 is quoted at $2.75 and mixed from $2.40 to $2.50. An improvement is reported in the demand for shingles. A scarcity of red cedar shingles has developed, which has had an effect on the other grades. Some buyers are said to have been unable to find a sufficient quantity to meet their requirements.

GREAT BRITAIN.

Statistics are to hand showing the stocks of timber in the public docks at the leading British ports on September 30th of this year as compared with the same period one year ago. Taken as a whole, the figures do not reflect a very satisfactory condition of the trade, inasmuch as the stocks generally are larger than last year. The receipts of North of Europe timber have been very heavy. From Canada, however, there has been a light import, and the figures of this trade are more promising. In the London docks there is a heavier stock this year of spruce deals and battens, oak, birch, elm, ash and pine timber, but pine deals and battens show a decrease of nearly 500,000 pieces. At Liverpool the stock of pine and spruce deals is about the same as last year, but oak, elm, ash, and waney and square pine timber are in smaller supply. The Glasgow showing is more favorable. Quebec deals are about half the stock of last year, while waney pine, red pine, oak and elm timber are considerably less. The market is firm, and prices quoted by the leading brokers are almost without change. In timber, oak seems to lead in point of firmness, selling at about three shillings per cubic foot for first-class stock. Spruce prices, which receded slightly towards the end of September, have now recovered lost ground. Little new business for next season has been done, and it is difficult to forecast what the opening prices will be. The selling season is likely to open later than last year.

STOCKS AND PRICES.

Hurd Bros., of Buffalo, last week purchased two cargoes of lumber at Marinette, Wis.

The str. Scottish King sailed from Montreal for London last week with a cargo of lumber.

C. H. Witthun & Co., of Wiarton, Ont., last week received a raft of 2,800,000 feet of logs from Little Current.

Among recent sales of lumber at Duluth were the following: 500,000 feet of eastern No. 1 box at $13.50; 1,000,000 feet of No. 2 and better at $20; a lot of No. 3 4-inch strips at $10.35. Prices have ruled at about $12.50 for No. 3 except for special lots.

The str. Ameland sailed from Quebec last week for a United Kingdom port, with 3,200 loads of timber and 150 standards of deals, shipped by W. & J. Sharples. The bark Saga loaded timber and deals at Sil-

ery Cove, Que., and left for sea on the ame day.

Over 90,000 cords of pulpwood will be cut during the coming winter in the Ottawa valley for the Riordan Pulp Company's mills of Hawkesbury, Ont.

The Central Lumber Co., of Saginaw, Mich., expect to carry over this winter about 5,000,000 feet of lumber. This firm are having considerable stock manufactured by Georgian Bay mills.

Stetson, Cutler & Co., of St.John, have purchased the cargo of lumber taken on board the ship Lennie Burrill at St John for Buenos Ayres some months ago. The steamer went ashore on the Nova Scotia coast and was taken back to St. John.

Lumbering, says an exchange, will be actively carried on this coming winter at Bonny River and St. George, N. B. The Bonny River Lumber Co. will place a portable mill at Red Rock lake for the purpose of sawing birch plank. They expect to get out about 1,000,000 feet.

The Australasian gives the following prices for timber at Melbourne, Australia: Red, 6x1⅛, 11s 6d ; 6x⅞, 9s 6d ; 6x¾, 7s ; 6x½, 5s 3d ; 4-out, 5s 9d ; white, 6x1⅛, 9s ; 6x⅞, 7s 9d ; 6x¾, 7s ; 6x½, 4s 9d ; 4-out, 5s per 100 ft. lineal. Oregon has had business on a basis of £7 for an average specification ex wharf, and also at the same figure to arrive. Shelving has had small sales at £12. Laths are quoted at 32s 6d, and pickets at £8 to £8 5s per thousand pieces.

Following is a comparative statement of timber measured and culled at Quebec up to 16th October, as reported by the Supervisor of Cullers :

	1898.	1899.	1900.
Waney White Pine....	1,880,746	1,780,485	1,504,625
White Pine	1,062,123	592,088	568,967

N.B. and N.S. pine deals.....	79,360	97,313

THE GLASGOW MARKET.

Messrs. Wright, Graham & Co. in their timber market review of 30th September, review the Glasgow market as follows :

Since our last report trade here has been in a somewhat peculiar condition. The general impression has been that prices would fall during the summer, and we think this certainly would have been the case had not freight room been so difficult to obtain, and rates so high, which have prevented many consigment shipments from being forwarded. As it is, prices for most descriptions of pine and spruce continue firm, imports having been only sufficient to cover early requirements. The demand is very limited on account of building trades being very dull. The high price of material and high wages have curtailed housebuilding to such an extent that practically no speculative building is now being undertaken. Although there is a fair amount of work on hand in the shipbuilding yards, it is chiefly of the "tramp" steamer type, in the construction of which very little timber is used. The shipbuilders who build passenger boats and undertake Government work are very bare of orders ; therefore the timber trade is not likely to benefit much in the near future by shipbuilder's orders.

Hardwoods are also very slow of sale, the cabinetmaking trade being very dull indeed ; so that we may say that although prices for most descriptions of woods keep fairly firm, the trade as a whole is in an unsatisfactory condition, as the volume of business doing is on a very limited scale in comparison to what was done during the last few years. It is therefore very probable that should many heavy consignments be made they would occasion an unusually severe fall in values.

WANEY BOARDWOOD.—The stock on hand is being held for high prices, and the demand is limited. Prime large wood is quoted at from 2s 9d to 3s; second-class wood at from 1s 9d to 2s 2d per cubic foot.

RED PINE.—There is not much demand. First-class wood is quoted at 1s 10d to 2s 2d; second-class from 1s 6d to 1s 8d per cubic foot.

OAK.—There is a good stock on hand, and demand is quiet. Price—2s 10d to 3s 3d per cubic foot for large prime wood; smaller and second quality at from 2s to 2s 4d per cubic foot.

ELM.—The stock is light and firmly held, prime wood of large average being offered at 3s 3d to 3s 6d per cubic foot.

ASH.—The demand has been good, and consignments have met with ready sale on arrival. Price—2s 2d to 2s 4d per cubic foot.

BIRCH.—The import has been overdone, and in consequence prices have fallen. Several parcels of 300 to 600 logs 15 to 16 inch average have sold at 1s 3½d to 1s 4d per cubic foot, and quite a number of consignments have had to be stored. Sales are only possible at low prices, and shipments should be kept back.

QUEBEC WHITE PINE DEALS.—Prices keep firm, but the extent of business is limited. 1st quality, broad, £27 10s to £30 5s per St. Pet. Std.; 11 in., £24 15s to £26 2s 6d; 7 in. to 10 in. and ends, £19 5s to £22 13s 9d. 2nd quality, broad, £21 to £22 13s 9d per St. Pet. Std.; 11 in., £18 4s 4d to £20 12s 6d ; 7 in. to 10 in., £15 2s 6d to £17 3s 9d. 3rd quality broad, £14 18s 9d to £16 10s per St. Pet. Std.; 11 in., £13 1s to £13 8s 1d; narrows, £10 13s 4d to £11. 4th quality broad, £11 to £11 6s 10d per St. Pet. Std.; 11 in., £9 12s to £11 ; narrows, £8 5s to £8 18s 9d.

RED PINE DEALS.—Parcels have met with ready sale. Prices quoted are about—9 and 11 in. by 3 in. and 4 in., £13 15s to £15 2s 6d per St. Pet. Std.; narrows, £11 to £12.

QUEBEC WHITE PINE SIDINGS.—The demand for first quality has been good, but the high prices asked has restricted business to a great extent. First quality.—2 in. thick, averaging 12 in. to 13 in. wide, £22 to £23 7s 6d per St. Pet. Std.; 1½ in., 12 to 13 in. wide, £22 to £23; 1¼ in., 11 in. to 12 in. wide, £21 6s 3d to £22; 1 in., 10 in. to 12 in. wide, £16 10s to £18 11s 3d; 1½ and 2 in. strips, 4 in. to 7 in. wide, £17 3s 9d to £19 5s.

SPRUCE DEALS.—The demand keeps good, and prices are well maintained. Prices quoted—£7 11s 3d to £10 per St. Pet. Std.

ST. JOHN PINE DEALS.—Consignments have sold readily, and prices are firm.

ST. JOHN SPRUCE DEALS.—(2nd quality average).—Consignments have been chiefly sold on arrival. Price—£7 11s 3d to £10 per St. Pet. Std.

BIRCH LOGS are only saleable at very low prices.

BIRCH PLANKS.—The import has been small, and parcels arriving have met with ready sale. Price—£8 to £8 18s 9d per St. Pet. Std.

M. Watson, general store and saw mill, Kinmount, Ont., is reported to have assigned to J. H. Sootheran.

The lumber yard of Alex. McLaren on Papineau avenue, Montreal, was damaged by fire last week to the extent of $4,000.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., OCTOBER 24, 1900 No 40.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year. $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at he rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—50,000 feet 1¼ inch winter sawn Basswood. THOS. MYLES' SONS, Hamilton, Ont.

COWAN & CO., GALT; WHEELS 34 IN. DIA. Fast and loose pulleys, 14 in. dia., 4½ in. face; run two months. Cost $150, will sell cheap. Box 313, Thamesville, Ont.

FOR SALE

200,000 FEET INCH MILL RUN BLACK Ash; 50,000 feet inch mill run Soft Elm. For further particulars apply to H. L. MERRITT, Blenheim, Ont.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Bouleau and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

FOR SALE.

A LARGE QUANTITY OF GOOD SOUND Tamarac umber in standard sizes, 2 x 4, 2 x 6, 2 x 8, etc.; Dimension timber, 16 ft. long, 4 x 4, 4 x 6, 6 x 8, 8 x 8, etc. Also other sizes cut to order. Apply to EDWARD LLOYD, Limited, Sturgeon Falls, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week has witnessed no material change in the situation in respect to white pine lumber. An active movement of stock from the leading pine centres is reported. In some instances a shortage of cars to move the stock has been met with, but this drawback has not been felt nearly so keenly as it was last fall. The weak feature of the market is the lower grades. The daily press of the city of Ottawa announce that prices of some classes of lumber have declined $3 per thousand during the past month. Information received at this office from the Ottawa valley seems to disprove this statement. The classes of lumber which have shown weakness have been pine strips, shorts and mill culls. These grades are selling about one dollar per thousand lower than they were towards the end of October. Good strips are quoted at from $26 to $28, shorts at $22 to $30, and mill culls at $11 to $13.50. Lath were also marked down last week to $2 to $2.50 for No. 1 and $1.50 to $1.75 for No. 2, but at these figures there is a good demand and no further tendency towards weakness. Shingles are firm.

The hardwood manufacturers are still maintaining their views as to prices, although the demand has not improved perceptibly. It is now so near the Presidential election that there is a disposition to adhere firmly to prices in the hope that a policy of stocking up will be generally adopted by dealers and consumers within the next month.

QUEBEC AND NEW BRUNSWICK.

A healthier tone to the spruce market is reported. Prices of spruce deals at Quebec range about $50 per standard for first quality, $35 for second quality, $32 for third quality, and $28 for fourth quality. Hemlock lumber is also firm, selling at $13 to $15 on Boston rate of freight. Cedar shingles are selling as low as $2.65 to $2.75 for extra, $2.30 to $2.40 for clear, and $2 to $2.10 for second clear. Lath are worth $2.65 to $2.75 for 1⅝inch, and $2.35 to $2.50 for 1½ inch, on Boston freight rate.

UNITED STATES.

The sales of lumber thus far in October have been heavier than in the previous month, but it is still apparent that a policy of precaution will be exercised by lumber buyers until after the Presidential election. While white pine prices are comparatively steady, some cutting has been indulged in on low grade stock. In the Chicago market cull lumber is showing weakness; the demand has been quiet, while the production this season was quite equal to, if not above the average. Cull inch is being offered in cargo lots in that market at $12.50. Eastern wholesale dealers report that hand-to-mouth buying is being followed by retail dealers and consumers in the New England and New York States. At Buffalo there is a fair quantity of the higher grades of pine in the hands of dealers, but box stock is mostly held by the factories. Spruce lumber is firm, and at Boston, spruce boards planed one side, are said to be selling from fifty cents to one dollar above the regular list. There is a comparatively light demand for the hardwoods. Sales of elm are being made in Buffalo at $26, with a slight tendency to cut below this figure. Basswood is scarce and steady. In Boston elm is quoted at $31, and maple at $28 for 1 inch and $30 for 1¼, 1½ and 2 inch. Basswood sells at about the same figures as maple.

GREAT BRITAIN.

The import of wood goods into London this season has been abnormally large. Based on this condition, peedictions have been made that the fall would witness considerably lower prices. This, however, has not been the case, and as the import season is now practically over, there is litttle reason to expect any fall in prices, and particularly of pine and spruce deals. It is now predicted that higher prices will be realized before next year's shipments commence to arrive. The strength of the spruce market is well illustrated by the following, taken from the Timber Trades Journal: "Spruce deals, which went down in August owing to the heavy import, have recovered. We know of contracts being made from various New Brunswick and Nova Scotian ports at a good advance. Very little possibility exists, as far as can be seen, for any other position than an increase in values until the opening of next season. The small quantity of 3x11 inch spruce to be had now is making the price of this dimension such as has not been known for many years." At Manchester, Liverpool and other ports there is a scarcity of 3x11 inch and 4x9 inch spruce, for which high prices are being offered. There is much uncertainty as to the prices which will rule for early shipment next season, and it is not probable that much buying will be done until after the turn of the year.

STOCKS AND PRICES.

Thompson & Avery, of Sharbot Lake, Ont., have been shipping large quantities of lumber to the United States market.

The German bark Silo, which took a large cargo of lumber from Chemainus, B.C., for Liverpool, England, arrived at her destination on October 6th.

Lumber shipments from Montreal last week included 219 standards of deals by the steamer Bray Head, 80 standards by the Bengor Head, and 500 standards by the Manchester City.

At Birmingham, Eng., St. John spruce deals are quoted at £9 for 3x7, £9 5s for 3x9, and £11 5s for 3x11 in. First quality pine deals bring £30 per standard, and second quality from £15 to £23, the latter for wide sizes.

At Ashland, Wis., No. 3 pine boards are selling at $13, No. 2 at $15, and No. 1 at $17. Norway piece stuff brings $10.50 to $13. Star shingles are held at $2.25, pine lath at $2.25, norway lath at $2, and mixed at $1.75.

It is stated that $5 per thousand feet is being paid for hemlock logs at the mills in the western part of the northern peninsula of Michigan. This is a sharp advance over the prices paid for hemlock logs a few years ago, and is indicative of the growing popularity of that timber.

In Chicago 12-inch No. 1 and 2 stock boards are scarce and firm in price, while low grade boards are weaker. Piece stuff is off $2 to $2.50 from the highest point, but there are no present indications of its going any lower. Lath are a little firmer in price and a scarcity seems to be developing.

Five blocks of timber limits in the township of Dana, Nipissing district, have just been disposed of by the Ontario Government for the sum of $61,275. The lots comprise two and one-half square miles, of which one lot, or about one-half square mile, has been burnt over. The price obtained for the limits is regarded as very satisfactory.

Concerning an auction sale held by Hodson, Mabbs & Company, London, England, the Timber Trades Journal says: The unsorted spruce planks at £11, considering ends were prominent, was a remarkably good sale; but these were exceptions to the general result, which, taken altogether, was far from satisfactory to sellers. The prepared stuff seemed to be in better demand than the other sorts, flooring sizes realizing comparatively strong prices, 1½x11 making 22s. per square, and others in proportion. Narrow matching, however, is still the weak place in the brokers' specifications.

Paul Stein, saw mill, Denbigh, Ont., is reported to have assigned.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

There is a feeling of expectancy in the local lumber market, consequent upon the approaching American elections. The presidential election interferes seriously with the export lumber trade from Ottawa, but not to the same extent this year as in former campaigns. Considerable lumber is being shipped by barge, and the railroads are also getting a share of the business. The selection of a president is looked forward to with interest by local shippers, for when this point is settled, business interests will regain the proper attention, and the work of stocking up the American yards for the winter trade will be taken up again with vigor. The prospects are good and shipments by rail will increase.

There has been a slight decline in the prices of one or two grades of lumber. A number of American buyers were chary about stocking up at the prices that ruled all summer, and this, combined with the slack movement caused by the elections, has brought prices down a notch. However, the local shippers are confident that an upward movement will set in again. Pine strips, shorts and mill culls have declined in price, and lath is also easier. No change, however, has been experienced in the better grades.

All the Ottawa mills will cut late this fall to satisfy the shortage caused by the April fire. Mr. J. R. Booth is piling on all his available ground, which includes the extensive yards refitted since the fire.

Ex-Mayor Bingham, who controls the entire drive on the Gatineau, has got his logs down to the Ottawa without a hitch. Few of the logs were stranded, but trouble was caused early in the season by the high water. The drive of logs this season was the largest for some years back.

There is no change in the labor market as affected by the lumber industry. Men are being sent from Ottawa to Brule Lake for the Shepherd Lumber Co., to Trout Creek and South River for the South River Lumber Co., and to the Georgian Bay district for the Saginaw Lumber Company.

Mr. E. C. Grant, manager of the Ottawa Lumber Co., has returned from a business trip to Scotland and England. He reports prospects good for the Canadian trade. This company is also shipping to Germany.

Report has it that Mr. J. Carling Kelly, the well-known company promoter of Ottawa, is about to float another scheme, this one affecting the lumber interests. It is proposed to erect new saw works in Ottawa, where Swedish steel will be used exclusively.

Mr. John Ferguson, M. P., of Renfrew, the well-known lumberman, has again been nominated to contest South Renfrew in the Liberal-Conservative interests in the coming election. Mr. Ferguson has already represented the riding for several terms.

Mr. A. E. Dyment, M. P., has again been nominated to contest Algoma as the representative of the Liberal party. Mr. Dyment is a son of Mr. N. Dyment, the well-known lumber man of Barrie, Ont.

Machinery is arriving daily at the Chaudiere from American foundries for the E. B. Eddy Company. The paper and match making machinery is being installed with all speed, and it is expected that the works will be running full time before the end of the year.

A large gang of men has been placed at work clearing up the site of the McKay Milling Co.'s mill at the Chaudiere. It is stated that Mr. J. R. Booth will build a planing or pulp mill on the site, work on the building to be proceeded with this fall.

Mr. George H. Perley, the well-known lumberman of Ottawa, has been nominated by the Liberal-Conservatives of Russell county, to contest the riding at the approaching election. His opponent is Mr. W. C. Edwards, M. P., another of the Ottawa lumber kings.

Ottawa, October 20th, 1900.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Company say of the Barbados market :

There is still a good demand for both spruce and white pine lumber, as our yards are moderately stocked. Latest local sales, made over a month ago, were, white pine, $23.37 for first quality, and $17.37 for second quality; spruce, $20.10 for first and $16.10 for second quality. The cargo ex Boston Marine, arrived 5th inst., was sold for Demerara, at $26 for merchantable, and $22 for second quality, and the cargo per Harry has gone to Demerara.

Gaspe cedar shingles are in full supply ; we placed 187 M large, ex Success, at $5.07 per M. Other sales ex same vessel were made at $4.56 for large, and $3.03 for small. The cargo, ex Blenheim, in store from last season, has since been sold at $3 per M. Cedar laying, $2.03 for a cargo of 485 M ex New Dominion. Spruce laying $2.00.

September 27th : Brigt. "Harry," from Yarmouth N. S., with 67 M feet white pine and spruce, 27 M shingles.

LONDON IMPORTS AND STOCKS.

Up to September 30th of this year London imported from the St. Lawrence 927,000 pieces of pine deals, against 1,840,000 pieces in 1899 ; 3,034,000 pieces of spruce deals, against 2,731,000 pieces in 1899. From New Brunswick the import of spruce deals has been 970,000 pieces, against 160,000 pieces last year. Of birch plank the import has been 178,000 pieces, against 294,000 pieces last year. The stocks in the public docks were :

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., OCTOBER 31, 1900 No 41.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber producrs at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

Limits and Saw Mills
FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Bouleau and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

Wanted—100,000 Feet Mill Cull Basswood

Write, stating price, HURDMAN & ELMITT, Ottawa, Ont.

FOR SALE.

A LARGE QUANTITY OF GOOD SOUND Tamarac Lumber in standard sizes, 2 x 4, 2 x 6, 2 x 8, etc.; Dimension timber, 16 ft. long, 4 x 4, 4 x 6, 6 x 8, 8 x 8, etc. Also other sizes cut to order. Apply to EDWARD LLOYD, Limited, Sturgeon Falls, Ont.

FOR SALE

THE SAW AND PLANING MILLS KNOWN as "Malloch's Mills," conveniently situated on the Ottawa, between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C. P. R. For particulars, address GEO. MALLOCH, Arnprior.

CURRENT TRADE CONDITIONS.

ONTARIO.

The pine lumber market embodies features both of weakness and strength. The fall demand has been quite backward, and some of the smaller holders are showing anxiety to reduce their stocks. They are willing to give concessions in the matter of price rather than carry the lumber over the winter. The larger manufacturers, on the other hand, have not receded in the slightest degree from their decision, arrived at earlier in the season, to hold their lumber for fair prices. If, after the elections in the United States and Canada, the demand should not expand so as to absorb the greater portion of the stock on the market, it is the avowed policy of the manufacturers to pile their cut and carry it over the winter. It is yet too early to speak definitely regarding the log cut of the coming winter, but the indications are that it will be smaller than last season. There is a strong demand for hemlock lumber, and the cut of this timber will likely be increased this winter.

From point of demand hardwoods have not improved within the past week. The movement of stock is slow. A meeting of the hardwood manufacturers of Wiarton and vicinity was held at Palmerston last week, the object of which was to size up the situation in respect to the quantity of unsold stock at the mills. We are informed that the decision of the meeting was that the stock of hardwood lumber is by no means excessive, and that a few weeks of active demand would take care of the entire supply. The heaviest stocks held are of maple and elm, prices of which are somewhat irregular. The opinion of the meeting was in favor of holding firmly to present asking prices.

QUEBEC AND NEW BRUNSWICK.

The shipping season from St. Lawrence will soon be over. Lumber intended to have been shipped this fall has already been purchased, and there is therefore little demand at the present time. Manufacturers who have any stocks of spruce dealsare holding out for high prices; in fact, some disparity exists between the asking price of the manufacturer and the figure which the shipper claims to be able to pay. It has been pointed out that the prices of spruce deals at Quebec, published in last issue, are higher than can be obtained for an average specification. Our best information is that first quality spruce deals are worth about $44 to $46 per standard, second quality $30 to $32, third quality $28 to $30, and fourth quality $24 to 26. Sales were made earlier in the season at higher prices, but the enormous rise in ocean freights during the latter part of the season has had a tendency to weaken the price of deals. Spruce lumber, on the whole, is reasonably firm throughout the eastern provinces, although the demand is not active. Cedar shingles are moving slowly at $2.75 per thousand for extra clear, on Boston rate of freight.

UNITED STATES.

Within one week of the Presidential election in the United States a large movement of lumber could not be expected. The business of the past week, under the circumstances, may be regarded as satisfactory. In some classes of pine lumber, particularly low grade stock, the tendency of prices has been towards weakness, while on the other hand, piece stuff and the higher grades of pine have shown strength. Some quite important sales have lately been made at Duluth, 800,000 feet of No. 3 and better at $14, and 1,000,000 feet of No. 4 at $10.50. Pine lath have been sold in that market at from $1.75 to $2.25, according to grade. In the Saginaw valley a few million feet in log run lots changed hands within the past two weeks. Box lumber there is reported as dull. This is in contrast to the Buffalo market, where the box makers are said to be picking up everything suitable for their needs. The eastern markets are improving, and after election a brisk trade is expected. From Pittsburg comes the report that 4x6 No. 2 common lumber is scarce, and 2x12 and large timbers in white pine are difficult to find. White pine lath in that market is 30 cents per thousand higher than one month ago, with a brisk demand for No. 2.

The hardwood situation is practically unchanged. In Buffalo some price-cutting by dealers is reported, but it has been confined chiefly to the smaller operators. First and second white ash is said to be selling at $38 to $40, maple at $22, beech at $20, and plain oak at $36 to $37. Basswood seems to be in shorter supply than most of the hardwoods, but the demand for this lumber is limited. Ash is firm, with stocks generally light.

GREAT BRITAIN.

The British lumber market is inclined to be a little heavy, due to the fact that the high prices, brought about largely by excessive freight rates, are causing consumers to buy only for immediate requirements. Recent auction sales have been characterized by weakness in prices, but in most instances the low values can be partly accounted for by the inferior quality of the lumber. As yet very few contracts have been made for next season's shipments. In view of the heavy stocks at Liverpool, and the uncertainty as to freight rates, importers are not anxious to contract. There is a feeling, however, that deals will sell at about the same figure as this year, although battens are likely to go at lower prices. It is now thought that the trade with South Africa next year will be considerably less than has been reckoned on.

STOCKS AND PRICES.

The bark Paul Rickmers is loading a cargo of 2,800,000 feet at the Hastings mill, Vancouver, B.C., for a foreign port.

The Harbor Commissioners of Montreal want tenders by November 5th for the supply of timber and planks for the year 1901.

An advance of ten cents a thousand has been made at Buffalo on clears and stars in red cedar shingles, and a decline of 3 or 4 cents on perfections.

Messrs. C. C. Witthun & Company, of Wiarton, Ont., have just secured a contract to saw 2,800,000 feet of pine logs, and have commenced operations.

The Victoria Harbor Lumber Company, of Toronto, were the purchasers of the timber limits in the township of Dana sold by the Ontario Government recently and referred to in last issue. The price was $61,275.

The milling property of the late Chas. F. Woodman, at Pleasant Point, N. B., together with the supply of lumber on hand, has been sold to Chas. Miller, of St. John. The consideration is said to have been $100,000.

The Department of Trade and Commerce at Ottawa has received a communication from the Nickels Explosives

Company, an English firm, in which they state that they are desirous of purchasing box shooks in Canada.

We understand that J. R. Booth, of Ottawa, will not operate this winter to any extent on the Mississippi branch of the Madawaska river.

The probable cut of logs in the Algoma district during the coming winter will be about 100,000,000 feet. There is more activity in this district than last year.

A raft of timber from the Georgian Bay arrived at Saginaw last week for the Saginaw Lumber & Salt Company. It is the largest ever taken from Canada, containing 120,000 pieces, and scaling 6,360,000 feet. The logs were cut on Indian reserve lands on Whitefish river.

Hemlock has lately been selling in the Chicago market between $8.50 and $9. Railroad ties are bringing from 35 to 40 cents in carload lots. Eight foot posts, 4 inches in diameter, are quoted at 12 cents, 5 inch at 14 cents, 6 inch at 17 cents, 7 inch at 20 cents, and 8 inch at 35 to 40 cents.

The superintendent of the Prince Edward Island Railway at Charlottetown, P.E.I., has invited tenders for the supply of 46,000 ties, 272 pieces of sawn hemlock, 5,000 cedar posts, 200 hemlock ties, 45,000 feet perlines, and about 225,000 feet of spruce and hemlock boards and planks.

The Rat Portage Lumber Co., of Rat Portage, Ont., have 4,000,000 feet of logs in the Rainy River which they purpose shipping to Winnipeg upon the completion of the South Eastern railway to that city. Daniel Hyland, of Rainy River, who has a timber limit at Willow Creek, Minnesota, will get out 3,000,000 feet of logs this winter, which will also be shipped to Winnipeg via the South Eastern railway.

Three timber berths were sold by the New Brunswick Government last week at the upset price of $8 per mile, as follows: Prosser Brook, branch of Coverdale River and Sherman Settlement, two miles, to A. L. Wright; between Coverdale River and Turtle Creek on Albert railway, two miles, to A. L. Wright; head of Cain's River, 4½ miles, to Wm. Richards & Co., Ltd.

Following is a comparative statement of timber measured and culled at Quebec up to 30th October, as reported by the Supervisor of Cullers:

	1898.	1899.	1900.
Waney White Pine....	1,903,148	1,780,485	1,504,625
White Pine	1,062,157	592,088	570,818
Red Pine.....	239,512	159,937	63,780
Oak.....	1,072,588	600,882	488,100
Elm.....	474,194	456,841	712,468
Ash	35,164	56,646	91,745
Basswood.....			241
Buttternut.....	955	60	142
Tamarac		415	71
Birch and Maple.....	112,500	244,530	459,361

At a recent sale held by Foy, Morgan & Company, London, England, Ottawa red pine sold at the following prices: 12-18 ft. 4 x 9 in. first quality, $19 per standard; 12-13 ft. 3 x 11, £20 15s; 13-18 ft. 4 x 9 second quality, £16 10s; 12-18 ft. 3 x 9, £15 5s; 15-18 ft. 4 x 9 third quality, £14 10s; 15-18 ft. 3 x 11, £14 5s; 12-18 ft. 3 x 11, £14; 15-18 ft. 3 x 9, £13 5s; 12-18 ft. 3 x 9, £13 5s. Spruce deals from Dalhousie, N.B., brought £9 for 12 ft. 3 x 9, and £9 5s for 15-17 ft. 3 x 9. Some first quality pine deals from Quebec sold as follows: 13 ft. 3 x 12-25 in., £20 5s; 12-13 ft. 3x11, £19 10s; 7-16 ft. 3 x 11-25, £20 5s.

MONTREAL LUMBER SHIPMENTS.

The shipments of lumber from the port of Montreal for foreign countries for the week ending October 27th were as follows:

Shippers.	Quantity and Description.	Value.

Watson & Todd.	61½ standards boards	.....
J. Burstall & Co..	16½ stds. deals and boards	.....
R. Cox & Co.....	15 stds. boards	.....
Watson & Todd..	60 stds. boards	.....
R. Cox & Co.....	100 stds. deals and boards	.....
Grand Trunk Ry..	515 pcs. lumber	74, 00
C. P. R..... ..	1,743 pcs. hardwood lumber	78,300

THE BOSTON MARKET.

There is a fair demand at Boston for spruce lumber, with the supply limited. The market is strong, and there is nothing to hinder prices being advanced except that the trade had enough of advancing prices a year ago, which resulted in nearly killing the demand. Now the principal spruce men seem to be satisfied to accept of a good trade at fair prices. In some instances, however, prominent lumber concerns are actually getting $2 per thousand above quotations for certain grades of spruce lumber. Boards continue especially firm: Ten and 12 inch, dimensions, $17; 9 inch and under, $15; 10 and 12 inch, random lengths, 10 feet and up, $16.50; 2x3, 2x4, 2x5, 2x6 2x7, and 3x4, 10 feet and up, $13.50; all other randoms, 9 inch and under, 10 feet and up, $15.60; 5 inch and up merchantable boards, $15; matched boards, $17 to $17.50; out spruce boards, $12; bundle furring, $12.50.

Hemlock lumber continues firm, with offerings small. Boards are very firm: Canadian and eastern, $13 to $15; Pennsylvania, $16 to $17; boards, rough, $12 to $12.50; planed, $13 to $14.

White pine is firm, with the request fairly good: Uppers, 1 inch, $56 to $58; 1¾ to 2 inch, $58 to $60; 3 and 4 inch, $68 to $72; selects, 1 to 4 inch, $52 to $64; fine common, 1 to 3 inch, $45 to $60; sheathings, $38 to $54; barn boards, $28 to $30; coffin boards, $24 to $26.

Hardwoods are steady in prices, with a fair trade. Whitewood is firmer and is selling better: 1 inch, whitewood, $36 to $38; thicker, $38 to $42; ⅝ inch, $30 to $33; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $65 to $75; fancy, $85 to $95; plain oak, $35 to $45; ash, $38 to $45; cherry, $90 to $130; maple, $30 to $40; sycamore, quartered inch, $40 to $50; walnut, $100 to $130.

Shingles are dull, and the supply coming forward has been increased of late: Extra cedar, $2.65 to $2.75; clear, $2.30 to $2.40; second clear, $2 to $2.10; clear white, $1.75 to $2; extra, No. 1, $1.50; Oregon, 16 inch, five butts to the inch, strictly clear, $3.15; California red wood, $3 to $3.50.

Clapboards are unchanged because they are scarce. The demand is also small: Extra spruce, $28 to $30; clear, $26, to $28; second clear, $24 to $25; pine, extra, $36 to $38; clear, $33 to $37; second clear, $28 to $30; California redwood, clear, $42.50 to $45; second grade, $40 to $42.

Laths are doing better, with the market well sustained: One and five-eighths, $2.65 to $2.75; 1½ inch, $2.35 to $2.50.

The steamer Crewe has been chartered to load deals at St. John, N.B., for w.c. England.

E. D. Brownell, lumber dealer, Amherst, N.S., is announced to have assigned to A. T. Etter.

FOR SALE: Timber Limits on the Following Rivers:—
Du Lievre, Rouge, St. Maurice, Temiscouata, Cascapedia (Great and Little), and the Escumenac River, and Georgian Bay.

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., NOVEMBER 7, 1900 No 42.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

Limits and Saw Mills
FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equioped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulean and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

AUCTION SALE

— OF —

Valuable Timber Limits, Saw Logs, Timber Lumber and Lumbering Appliances

Pursuant to the powers contained in two certain agreements each made by Joseph Turner and Spencer O. Fisher, of Bay City, Michigan, trading in co-partnership under the name of Turner & Fisher, and the Bank of Toronto, and to certain securities given under Section 74 of "The Bank Act," and pursuant to all other rights and powers of the said Bank of Toronto thereunto them enabling, there will be offered for sale by public auction, at the auction rooms of C. J. Townsend, No. 28 King street west, in the city of Toronto, on SATURDAY, THE EIGHTH DAY OF DECEMBER, 1900, at the hour of 12 o'clock noon, all those certain timber berths or limits following:

The entire Township of Wilson and Concessions Nine (9), Ten (10), Eleven (11) Twelve (12) Thirteen and Fourteen (14), in the Township of Ferrie, in the Province of Ontario, being the berths covered by License No. 46, of the season of 1896-1897, and License No. 89, for the season of 1895-1896, and being covered by Crown Timber Licenses Numbers 44 and 45 of the season of 1900-1901. And also the timber limit known as Berth No. 53, on the north shore of Lake Huron, in the said Province of Ontario, which was covered by Crown Timber License No. 145, for the season of 1895-1896, and being covered by License No. 46 for the season of 1900-1901, together with all rights of the said the Bank of Toronto in and to the said licenses.

Also all the saw logs and timber marked B. T., T. N. R., and J. O.E., or any one or more of the said marks, and all wood and wood products, including lumber, lath, shingles, the product of such logs, in, upon or near the land and waters and premises known as timber berths Township of Wilson and Township of Ferrie, on the north shore of Lake Huron, in the Province of Ontario, and in, upon or near lands and waters adjacent to the said timber berths and in transit in, upon and near any lands and waters between the said timber berths or either of them and the lands and waters at the mouths of the French River and of the Magnetewan River, or of either of said rivers, and in, upon or near the lands and waters at the mouths of the French and Magnetewan Rivers, an in either of said rivers, in said Province of Ontario, and in transit in, upon or near the waters and shore of Georgian Bay and Lake Huron, between the said mouths of the said French River and of the Magnetewan River, and of either of the said rivers, and the saw mills situate at or near the town of Midland, in the County of Simcoe and Province of Ontario, known as "Chew Bros. Saw Mills," "James L. Playfair & Company Sawmill," "Cameron & Playfair Sawmill," and George Chew and Son Sawmill," or any of the said sawmills, and in, upon or near the lands and waters connected with or adjacent to the said sawmills or any of them, including the booming grounds, mill ponds, mill yards, piling grounds at or near the Town of Midland aforesaid, together with all the plant and appliances and camp equipage used upon and in connection with the lumbering of said limits in the Townships of Wilson and Ferrie, including all camp equipage, horses, wagons, sleighs, chains, lumbering tools and appliances of all kinds on said limits of Wilson and Ferrie, and on the Forsythe Farm, in the Township of McConkey, all store supplies and tools of all kinds at Turner's store house at Trout Creek, all booms, boom chains, boats, rafts, and outfit for taking logs down the Pickerel and French Rivers, and all chains, boats, tools, horses, wagons and lumbering outfits the property of the said Turner & Fisher, or of the Bank of Toronto, used in connection with the lumbering operations of the said limits at the Town of Midland, or in transit from the said limits, and upon the waters and shores lying between the said limits and the Town of Midland, in the County of Simcoe, a schedule of which logs, lumber, lath, equipage, supplies, etc., so far as known to the Vendors, can be seen at the office of Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington street east, Toronto, Ont.

The said timber limits, hereinbefore referred to, will be sold subject to the claim or lien (if any) of Merrill, Ring & Company, and Green, Ring & Company against same.

The entire property will be sold "en block."

The property will be sold subject to reserve bid.

Terms of payment: 25 per cent. cash on day of sale to the Vendors or their solicitors, the balance within thirty days thereafter with interest at the rate of 6 per cent. per annum.

Further terms and conditions will be made known on day of sale, or may be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, Vendors' Solicitors, 58 Wellington street east, Toronto.

Dated at Toronto this 2nd day of November, A.D., 1900.

I am prepared to contract for Dimension Stock of Hard Maple, Birch, Balm, Tamarack and Spruce, for delivery summer 1901. Good dock and safe harbor for loading. Send specifications and prices to JOHN SALE, Windsor, Ont., or to E. BEDFORD, Duck Island, via Wiarton.

CURRENT TRADE CONDITIONS.

ONTARIO.

Immediately preceding a political election business is usually quiet, and lumber has been no exception to the rule during the past week. This branch of industry has been affected by the campaign in the United States as well as in Canada. Shipments to the Eastern States have fallen off, although there are enquiries in the market for lumber to be supplied conditional upon the return of the Republican President. These orders will now be filled, and should give a much improved tone to the market. The mill men are as firm as ever in their asking prices, being prepared to carry their stock over the winter if need be. Logging operations are now in progress, but so far the season has been unfavorable in some districts. In the Algoma district, we understand, excessive rains have interfered with road making, and the work is far behind what it was at same time last season. A scarcity of men for the woods is still reported.

QUEBEC AND NEW BRUNSWICK.

From a continental standpoint spruce lumber is strengthening. More encouraging reports are to hand from the Eastern States, where the demand is reviving and prices showing improvement. Spruce lath has advanced in the New York market. New Brunswick shingles are also firmer, selling at $2.85 for extras on Boston rate of freight. The outlook for export trade in spruce is not so good. Advices from abroad are that prices are weakening, and there is uncertainty as to next season's business. The fact that considerable stocks of deals are believed to be held on this side is having a weakening tendency.

UNITED STATES.

General business has been so disturbed during the past week by the Presidential election that an active movement of lumber was out of the question. There has been sufficient stock moved, however, to show beyond a doubt that dealers and consumers are carrying light stocks. Now that the financial policy of the Government is to undergo no change, an improved demand for lumber may be looked for. The season is perhaps too far advanced to expect a large volume of business, but it is certain that orders which have been held back will now be placed, and that the tendency of prices will be upwards. The position of white pine lumber is favorable, stocks at the mills not being excessive. Eastern spruce is showing considerable strength, notwithstanding that recent rains have brought down large supplies of logs to the Maine mills. Hardwoods are unchanged. A dealer quotes the following prices f.o.b. Buffalo: Maple, $23; black ash, $36; basswood, $27, for inch firsts and seconds. In Boston brown ash, 1½ and 2 inches thick, is reported scarce and selling at $42. A better movement of red cedar shingles is reported, while spruce lath has advanced 25 cents a thousand in New York city.

GREAT BRITAIN.

The British timber market is, to say the least, surrounded by much uncertainty. Some of the docks are crowded with wood goods, while the consumption is still limited on account of high prices. Recent auction sales have shown a weakening in the price of New Brunswick and Nova Scotia spruce deals, a lot of 3x11 first, second and third quality selling as low as £9 per standard. Quebec spruce deals have shown more strength, although not as firm as they were one month ago. The prices for the better quality of pine deals are unchanged. It seems to be the general opinion that lower prices must rule for next season's shipments, as some incentive will be necessary to encourage consumption. As far as can be learned, no transactions of any importance for next season's production have taken place, and the indications are that business will be much later than usual.

STOCKS AND PRICES.

J. & B. Grier and the Shearer & Brown Company are supplying the piles required in connection with the Connors elevator in Montreal.

In Buffalo flour barrels are selling from 37 cents down, and fruit barrels at 30 cents; elm staves, $8.50 by the car-load; basswood heading, 6½ cents; 6-foot coiled hoops, $8.75.

The ship Bent Rickmers, which sailed from Chemainus, B.C., on May 7th last, for Hull, with 1,820,956 feet of lumber valued at $17,000, arrived at her destination on October 21st.

Albert Newcomb, of Hopewell Hill, N.B., has sold a timber limit to Downey Bros. Stiles Bros., of Riverside, N.B., have sold some timber to W. Carnath, the consideration being $5,000.

The Royal City Mills Company, of New Westminster, B.C., have secured the contract for the supply of lumber for the new Fraser river dredge now under construction by the Dominion Government.

It has been estimated that the cut of logs on the St. Croix river, in New Brunswick and Maine, will be 25 per cent. less than last winter. H. F. Eaton & Sons, of Calais, will cut about 8,000,000 feet, James Murchie & Sons about 6,000,000 feet, and F. H. Todd & Sons a like amount.

The steamer Giacomo P is loading a cargo of timber and deals at Montreal for London, England, consigned by McLean, Kennedy & Company. The Rydal Holme sailed from Montreal last week for Hull, England, with 700 standards of deals, completing her cargo at Quebec.

Three vessels sailed from British Columbia last week, lumber laden, for foreign destinations, as follows: Schooner Wilhelmina, with 1,400,000 feet of lumber, for South Africa; ship Ivy with a cargo for China; ship Nixie from the Moodyville mills with a cargo for British port

The shipments of lumber from the port of Montreal last week were as follows: Per str. Glen Head, 78 standards of deals, by W. & J. Sharples, 18½ standards by Watson & Todd; per str. Rydal Holme, 381 standards of deals, by W. & J. Sharples; per str. Hong Haaken, 62 standards of deals, etc., by W. & J. Sharples, 10 standards by Dobell, Beckett & Co.

The Barbados lumber market is thus spoken of by Messrs. S. P. Musson, Son & Company, in their report of October 27th: In our last report we noted the arrival of the "Priscilla" from Liverpool, N.S. Her cargo of 115 M feet of white pine boards was sold at $24 shippers, $18 $16 2nd quality. She had also a small lot of 12 M feet spruce boards, which were placed at $22 for shippers. The "Trader" has since arrived from Jordan River, N.S., with 95 M feet of white pine, 27 M feet of spruce—sold delivered at Trinidad at $22 round.

THE BOSTON MARKET.

The spruce lumber market at Boston is stronger. It is suggested that frames could scarcely be placed at agreement prices, and would bring at least 50 cents more. The mills are shutting down and getting ready to shut down, and dealers here are daily being notified by leading millmen not to take any more orders. Prominent houses here are out of the market as to spruce frames. Boards continue scarce and firm. Agreement prices are better than fully sustained: 10 and 12 inch dimensions, $17; 9 inch and under, $15; 10 and 12 inch random lengths, 10 feet and up, $16.50; 2x3. 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $13.50; all other randoms, 9 inch and under, 10 feet and up, $14.50; 5 inch and up, merchantable boards, $15; matched boards, $17 to $17.50; out spruce boards, $12; bundle furring, $12.50.

Eastern hemlock is particularly firm, with Pennsylvania steady; eastern stock boards, $14 to $15; random, $13 to $14; Pennsylvania, $16 to $17; boards, rough, $12 to $13; planed, $13.50 to $14.50.

Western pine is in fair demand, and the market reported firm: Uppers, 1 inch, $56 to $58; 1¼ to 2 inch, $58 to $60; 3 and 4 inch, $68 to $72; selects, 1 to 4 inch, $52 to $64; fine common, 1 to 3 inch, $45 to $60: sheathings, $38 to $54; barn boards, $28 to $30; coffin boards, $24 to $26.

Shingles are doing rather better with higher prices claimed: Extra cedar, $2.75 to $2.90; clear, $2.40 to $2.50; second clear, $2.10 to $2.25; clear white, $1.75 to $2.

Clapboards are firmer. The trade seems to have become aware that the supply is a very small one, and better prices have been realized: Extra spruce, $29 to $30; clear, $27 to $28; second clear, $24 to $25; pine, extra, $36 to $38; clear, $33 to $37; second clear, $28 to $30.

Laths have continued to sell better, with the market in good shape: 1⅝ inch, $2.65 to $2.75; 1½ inch, $2.35 to $2.50.

MEETING OF HARDWOOD LUMBERMEN.

A large and representative gathering of saw millmen met at Palmerston on October 23rd and formed an association, to be called The Huron, Bruce, Grey and Wellington Hardwood Lumbermen's Association. Mr. J. P. Newman, of Wiarton, was elected president. The object of the Association is to promote the interests of the mill men by keeping members of the Association informed as to stocks on hand and general information as to the trade. The Association find from reliable information that the stocks of hardwood lumber at the mills are not large, especially at this season of the year, and the trade believe that prices have reached bottom and are sure to advance. We also learn that the stocks of hardwood lumber held by the manufacturers are not as large as represented. The Association believes it would be to the advantage of every mill man to become a member of this new organization. Any information desired can be obtained by addressing Mr. Robert Watt, secretary and treasurer, Wiarton, Ont.

AUCTION SALE AT DUBLIN.

Mr. Wm. Graham, of Dublin, Ireland, held an auction sale on October 18th, at which the following prices were obtained for Canadian deals. The quotations are per Irish standard of 3,240 ft. Quebec spruce deals, 2nd quality, 10 ft. 9x3, £14 17s 6d; 11 ft. 9x3, £14 10s; 12 ft. 9x3, £15 5s to £15 7s 6d; 13 ft. 9x3, £15; 14 ft. 9x3, £15 12s 6d; 12 ft. 9x2, £15; 12 ft. 9x2, £13 17s 6d; 12 ft. 11x2, £15; 13x2 and 14x2, £14 10s. CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., NOVEMBER 14, 1900 No 43

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE

150,000 FEET CLEAR DRY BRITISH Columbia White Spruce Siding, 1⅜ in. x 8 in. and up 12 to 20 feet long. BRUNETTE SAW MILL COMPANY, LIMITED, New Westminster, B. C.

FOR SALE

SAW AND SHINGLE MILL. PLENTY OF timber in locality; will be sold cheap. For particulars apply to proprietor at the mill, or by mail. ED. SYKES, Lady Bank, Ont.

Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulean and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

AUCTION SALE

— OF —

Valuable Timber Limits, Saw Logs, Timber Lumber and Lumbering Appliances

Pursuant to the powers contained in two certain agreements each made by Joseph Turner and Spencer O. Fisher, of Bay City, Michigan, trading in co-partnership under the name of Turner & Fisher, and the Bank of Toronto, and to certain securities given under Section 74 of "The Bank Act," and pursuant to all other rights and powers of the said Bank of Toronto thereunto them enabling, there will be offered for sale by public auction, at the auction rooms of C. J. Townsend, No. 28 King street west, in the city of Toronto, on SATURDAY, THE EIGHTH DAY OF DECEMBER, 1900, at the hour of 12 o'clock noon, all those certain timber berths or limits following:

The entire Township of Wilson and Concessions Nine (9), Ten (10), Eleven (11) Twelve (12) Thirteen and Fourteen (14), in the Township of Ferrie, in the Province of Ontario, being the berths covered by License No. 46, of the season of 1896-1897, and License No. 89, for the season of 1895-1896, and being covered by Crown Timber Licenses Numbers 44 and 45 of the season of 1900-1901. And also the timber limit known as Berth No. 53, on the north shore of Lake Huron, in the said Province of Ontario, which was covered by Crown Timber License No. 145, for the season of 1895-1896, and being covered by License No. 46 for the season of 1900-1901, together with all rights of the said the Bank of Toronto in and to the said licenses.

Also all the saw logs and timber marked B. T., T. N. R., and J. O.E., or any one or more of the said marks, and all wood and wood products, including lumber, lath, shingles, the product of such logs, in, upon or near the land and waters and premises known as timber berths Township of Wilson and Township of Ferrie, on the north shore of Lake Huron, in the Province of Ontario, and in, upon or near lands and waters adjacent to the said timber berths and in transit in, upon and near any lands and waters between the said timber berths or either of them and the lands and waters at the mouths of the French River and of the Magnetewan River, or of either of said rivers, and in, upon or near the lands and waters at the mouths of the French and Magnetewan Rivers, and in either of said rivers, in said Province of Ontario, and in transit in, upon or near the waters and shore of Georgian Bay and Lake Huron, between the said mouths of the said French River and of the Magnetewan River, and of either of the said rivers, and the saw mills situate at or near the town of Midland, in the County of Simcoe and Province of Ontario, known as "Chew Bros. Saw Mills," "James L. Playfair & Company Sawmill," "Cameron & Playfair Sawmill," and George Chew and Son Sawmill," or any of the said sawmills, and in, upon or near the lands and waters connected with or adjacent to the said sawmills or any of them, including the booming grounds, mill ponds, mill yards, piling grounds at or near the Town of Midland aforesaid, together with all the plant and appliances and camp equipage used upon and in connection with the lumbering of said limits in the Townships of Wilson and Ferrie, including all camp equipage, horses, wagons, sleighs, chains, lumbering tools and appliances of all kinds on said limits of Wilson and Ferrie, and on the Forsythe Farm, in the Township of McConkey, all store supplies and tools of all kinds at Turner's store house at Trout Creek, all booms, boom chains, boats, rafts, and outfit for taking logs down the Pickerel and French Rivers, and all chains, boats, tools, horses, wagons and lumbering outfits the property of the said Turner & Fisher, or of the Bank of Toronto, used in connection with the lumbering operations of the said limits at the Town of Midland, or in transit from the said limits, and upon the waters and shores lying between the said limits and the Town of Midland, in the County of Simcoe, a schedule of which logs, lumber, lath, equipage, supplies, etc., so far as known to the Vendors, can be seen at the office of Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington street east, Toronto, Ont.

The said timber limits, hereinbefore referred to, will be sold subject to the claim or lien (if any) of Merrill, Ring & Company, and Green, Ring & Company against same.

The entire property will be sold "en bloc."

The property will be sold subject to reserve bid.

Terms of payment: 25 per cent. cash on day of sale to the Vendors or their solicitors, the balance within thirty days thereafter with interest at the rate of 6 per cent. per annum.

Further terms and conditions will be made known on day of sale, or may be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, Vendors' Solicitors, 58 Wellington street east, Toronto.

Dated at Toronto this 2nd day of November, A.D., 1900.

THE SAW AND PLANING MILLS KNOWN as "Malloch's Mills," conveniently situated on the Ottawa, between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C. P. R. For particulars, address GEO. MALLOCH, Arnprior.

TO MILL MEN.

Do you wish to be less dependent upon the Canadian and United States markets? If so, this may be accomplished by cutting some of your stock to the specifications required by the British market. Any of the brokers and importers advertising in THE LUMBERMAN will be pleased to furnish to mill men specifications and price lists, and will advance 75 per cent. of the value of the stock shipped.

The British & North American Timber Company, Limited, 57 Gracechurch Street, London, E.C., England, whose advertisement appears on fourth page of this issue, are agents for white and red pine, and are open for correspondence with parties in Canada selling Canadian hardwoods, also manufactured stock, such as chair seats and legs. They make advances to shippers against documents.

CURRENT TRADE CONDITIONS.

ONTARIO.

A most hopeful feeling regarding the outlook for lumber has been exhibited on all sides since the elections. The governments both in the United States and Canada being sustained, assuring no change of policy, has infused new life into the commercial interests. Business will expand, and in the course of expansion will consume an increased quantity of lumber. Orders placed with manufacturers and dealers during the past week give promise of considerable trade for the next few weeks. This will come from retailers and furniture, implement and other manufacturers. The building season is now nearly over, and the demand from that quarter will be confined largely to finishing lumber. The most encouraging prospects are in respect to next season's trade. A heavy demand next spring is almost certain. Some of the Ottawa valley manufacturers have already contracted for their 1901 cut of English deals, at prices similar to those ruling this season. This in itself is a most hopeful indication.

Prices in the Ottawa valley are firm, the lower grades having recovered some of the ground lost earlier in the season. Lath is a little easier. Hardwood lumber is showing an increased movement. Black ash and basswood are in specially good demand, with a very light supply. Manufacturers are showing little pressure to sell, feeling certain that the demand will consume the entire supply.

QUEBEC AND NEW BRUNSWICK.

Vessels are still loading lumber at St. Lawrence ports for trans-Atlantic destinations. The shipments this year are believed to have been considerably lighter than last season. Manufacturers of spruce lumber are carrying in their yards more stock than at same time last year, and this may result in reducing the volume of operations in the woods this winter. The outlook for trade next year is somewhat uncertain. It is expected that the Eastern States will take a considerable quantity of Canadian lumber. The most concern at the present time is in respect to British trade, the course of which is not very clear to shippers.

UNITED STATES.

Only one week since the presidential election, yet the lumber business of the United States has within that time shown an improvement. Buying orders came into the market immediately. A short period at least of active trade is now assured, but whether it will extend well through the winter months is a question in doubt. The tendency of prices is to advance, but the trade seems to be cautious about taking any step in that direction lest it should check consumption. It is improbable that prices will be marked up except in a few lines which are thought to be abnormally low. At Buffalo the stock of box lumber and the lower grades, except barn boards, is short of the average, while at Albany 1¼-inch box is particularly scarce. The position of spruce lumber is steadily im-

proving. At Buffalo some sales have been made at $23 for 12-inch boards, $22 for 10-inch, and $19 for 6-inch saps. Spruce and pine lath are advancing in price. No. 1 lath is quoted at Buffalo at $3.25, and No 2 at $2.75. There is a good movement of shingles, but prices are generally low.

GREAT BRITAIN.

Indications point to a late beginning of business for next season. The opinion of British importers as to prices is divided. With a stock at the London docks valued at over £1,000,000, some authorities predict that prices will break perhaps as much as £2 a standard. The results of recent sales seem to support this view, as prices of deals showed further weakness. At Liverpool there is a moderate stock of pine deals. According to Messrs. Farnworth & Jardine's circular, the prices of pine deals declined during the month of October about £1 per standard, first quality now selling at from £22 to £28, second quality at £18 to £21, and third quality at £12 to £13 10s. No change in the prices of spruce deals is reported. Waney pine is firm, but there is little demand for square pine timber. There have been large receipts of birch planks at Liverpool, and prices are slightly easier. At Glasgow, however, birch planks are said to be scarce and in good demand at £8 10s to £9 10s per standard. A cargo of Halifax spruce has just been sold at Liverpool at £7 10s.

STOCKS AND PRICES.

J. G. Hayes, of Sundridge, Ont., is in the market for 10,000 cedar and tamarac railway ties.

Following are the shipments of lumber from the port of Montreal for the week ending November 10th: Per str. "Mexican," 51 standards deals, etc., by Watson & Todd; per "Dominion"—150½ standards deals and ends by J. Burstall & Company; 270 standards deals, boards and ends by Robert Cox & Company. Per "Mennom"—77 standards by Watson & Todd; 71 standards by Dobell, Beckett & Co.; 101 standards by W. & J. Sharples; 62 standards by McArthur Bros.; 5 standards by Montreal Lumber Company. Per "Andoni"—100 standards of deals by McArthur Bros; 88½ standards by J. Burstall & Company; 198 standards by Chan. Lumber Company; 28 standards by Dobell, Beckett & Company; 236 standards be Cox, Long & Company.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Now that both the Presidential and Federal elections have been made matters of history, the future has been made clear to the local lumbermen and shippers. The export trade promises to take on a brisk movement, and rail shipments will show a decided increase over those of past summers. Business promises to be brisk for some months to come, as the supply at American points for winter consumption is short of the demand.

A letter was received by a local lumberman to-day from a New York gentleman extensively interested in the same business, in which the latter stated that 1901 would be one of the best years the American lumbermen have enjoyed. For some time past the American dealers have been resting on their oars, awaiting the result of the Presidential election, but orders from the United States will now be sent in quick succession to Ottawa dealers and mill owners. The local men have already felt the revival as predicted, and enquiries are being received about stocks in goodly numbers. Continued prosperity will naturally have a buoyant effect on the Ottawa market, and business promises to continue brisk. Prices will rule themselves accordingly, and unless an unexpected feature intervenes they will stiffen rather than weaken.

The present season's cut at the St. Anthony Lumber Company's mill at Whitney will be fully 12 per cent. less than last year's cut. The reason given by Mr. Whitney, the local manager, is the delay in receiving logs in the early part of the season. On this account the mill did not open as early as last year.

As the close of navigation is near at hand, it may be in place to review the season's shipments by boat. Owing to the fire which at the very outstart of the season wiped out a large portion of the standing stock, there was but a fair movement by barge. It improved, however, as the cut of the mills increased the stock. The season's shipments, it is learned on reliable authority, will be fully 30 per cent. less than in the previous year. The dearth of ocean bottoms and the increase in ocean freights also had their effect on the river shipments.

There has been scarcely any change in prices in the Ottawa market during the past fortnight. Lath is somewhat easier, but all other lines remain firm. There is a growing demand for mill culls and other cheap lines, in fact, the supply falls short. Prices may reasonably be expected to advance in all the cheaper grades before long. The demand has come from both local builders and outside points, and promises to be permanent. There is no increased demand for higher grades, the market remaining firm at former prices.

Operations on the limits controlled by both Ottawa and outside firms, including American companies, promise to be equally as brisk this coming winter as they were last. On a conservative estimate it is agreed that fully 2,800 men have been sent to the woods from Ottawa and Hull. Large gangs are being sent to their respective limits by Gilmour & Hughson, J. R. Booth, Hull Lumber Company and W. C. Edwards. Gillies Brothers have sent men during the past fortnight to their limits on the Coulonge. The E. B. Eddy Company have had gangs forwarded to the Dumoine. Eddy & Jordan hired men through Johnson & Chitty for Blind River. The same firm supplied men for the Hardy Lumber Company at Trout Creek, and gangs were also forwarded for the South River Lumber Company. Wages continue high. Many men are going to the limits from the farms, while others who have been engaged for the summer in Ottawa and Hull building operations are also applying for work on the limits. The close of the Ottawa mills this month will also release many men and teams for the work on the limits, so that the supply of labor is increasing.

Mr. Alex. Lumsden, M. L. A., who has charge of the extensive log drives on the Upper Ottawa, is in the city. Mr. Lumsden states that the present season's drive was fully 25 per cent. greater than last year's. As yet the number of logs brought down has not been computed. Mr. Lumsden brought down logs from the Dumoine, Mattawa, and other Upper Ottawa tributaries for all the Ottawa firms. He employed during the season 300 men. The prospects for the winter's work on the limits, according to Mr. Lumsden, are excellent.

The Ottawa mills will close this month after a busy season's work. The fire interfered with the early operations in Mr. J. R. Booth's mill, and owing to the destruction of the Hull Lumber Company's mill that concern had to cut in other smaller mills, with a reduced output. The Ritchie mill at Aylmer was also destroyed by fire, and this will tend to reduce the total cut of the combined mills. Next season two new mills will likely be established at the Chaudiere. Mr. J. R. Booth, according to rumor, proposes to erect a large planing mill, while a pulp mill will be erected on the site of the Hull Lumber Company's mill.

Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulean and Birch. These latter have exceptionable quality, and by judges considered the best in the province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City

AUCTION SALE

— OF —

Valuable Timber Limits, Saw Logs, Timber Lumber and Lumbering Appliances

Pursuant to the powers contained in two certain agreements each made by Joseph Turner and Spencer O. Fisher, of Bay City, Michigan, trading in co-partnership under the name of Turner & Fisher, and the Bank of Toronto, and to certain securities given under Section 74 of "The Bank Act," and pursuant to all other rights and powers of the said Bank of Toronto thereun o them enabling, there will be offered for sale by public auction, at the auction rooms of C. J. Townsend, No. 28 King street west, in the city of Toronto, on SATURDAY, THE EIGHTH DAY OF DECEMBER, 1900, at the hour of 12 o'clock noon, all those certain timber berths or limits following:

The entire Township of Wilson and Concessions Nine (9), Ten (10), Eleven (11) Twelve (12) Thirteen and Fourteen (14), in the Township of Ferrie, in the Province of Ontario, being the berths covered by License No. 46, of the season of 1896-1897, and License No. 89, for the season of 1895-1896, and being covered by Crown Timber Licenses Numbers 44 and 45 of the season of 1900-1901. And also the timber limit known as Berth No. 53, on the north shore of Lake Huron, in the said Province of Ontario, which was covered by Crown Timber License No. 145, for the season of 1895-1896, and being covered by License No. 46 for the season of 1900-1901, together with all rights of the said the Bank of Toronto in and to the said licenses.

Also all the saw logs and timber marked B. T., T. N. R., and J. O.E., or any one or more of the said marks, and all wood and wood products, including lumber, lath, shingles, the product of such logs, in, upon or near the land and waters and premises known as timber berths Township of Wilson and Township of Ferrie, on the north shore of Lake Huron, in the Province of Ontario, and in, upon or near lands and waters adjacent to the said timber berths and in transit in, upon and near any lands and waters between the said timber berths or either of them and the lands and waters at the mouths of the French River and of the Magnetewan River, or of either of said rivers, and in, upon or near the lands and waters at the mouths of the French and Magnetewan Rivers, an in either of said rivers, in said Province of Ontario, and in transit in, upon or near the waters and shore of Georgian Bay and Lake Huron, between the said mouths of the said French River and of the Magnetewan River, and of either of the said rivers, and the saw mills situate at or near the town of Midland, in the County of Simcoe and Province of Ontario, known as "Chew Bros. Saw Mills," "James L. Playfair & Company Sawmill," "Cameron & Playfair Sawmill," and George Chew and Son Sawmill," or any of the said sawmills, and in, upon or near the lands and waters connected with or adjacent to the said sawmills or any of them, including the booming grounds, mill ponds, mill yards, piling grounds at or near the Town of Midland aforesaid, together with all the plant and appliances and camp equipage used upon and in connection with the lumbering of said limits in the Townships of Wilson and Ferrie, including all camp equipage, horses, wagons, sleighs, chains, lumbering tools and appliances of all kinds on said limits of Wilson and Ferrie, and on the Forsythe Farm, in the Township of McConkey, all store supplies and tools of all kinds at Turner's store house at Trout Creek, all booms, boom chains, boats, rafts, and outfit for taking logs down the Pickerel and French Rivers, and all chains, boats, tools, horses, wagons and lumbering outfits the property of the said Turner & Fisher, or of the Bank of Toronto, used in connection with the lumbering operations of the said limits at the Town of Midland, or in transit from the said limits, and upon the waters and shores lying between the said limits and the Town of Midland, in the County of Simcoe, a schedule of which logs, lumber, lath, equipage, supplies, etc., so far as known to the Vendors, can be seen at the office of Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington street east, Toronto, Ont.

The said timber limits, hereinbefore referred to, will be sold subject to the claim or lien (if any) of Merrill, Ring & Company, and Green, Ring & Company against same.

The entire property will be sold "en block."

The property will be sold subject to reserve bid.

Terms of payment: 25 per cent. cash on day of sale to the Vendors or their solicitors, the balance within thirty days thereafter with interest at the rate of 6 per cent. per annum.

Further terms and conditions will be made known on day of sale, or may be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, Vendors' Solicitors, 58 Wellington street east, Toronto.

Dated at Toronto this 2nd day of November, A.D., 1900.

HARDWOOD LUMBER

300,000 FEET HARD MAPLE, 20,000 FEET Beech, 50,000 feet Black Birch, various sizes, now ready for shipment, at Duck Island Dock, Lake Huron. I am prepared to contract for Dimension Stock of Hard Maple, Birch, Balm, Tamarack and Spruce, for delivery summer 1901. Good dock and safe harbor for loading. Send specifications and prices to JOHN SALE, Windsor, Ont., or to E. BEDFORD, Duck Island, via Wiarton.

This is the time of the year to investigate the requirements of British lumber merchants, so that during the winter suitable logs may be taken out. Drop a line to any of the brokers or importers whose announcements appear on on page IV and they will gladly furnish you with particulars as to sizes, prices, etc.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber shipments during the past week have been of considerable volume, although not approaching anything in the nature of a boom. The season is too far advanced to expect a large movement of stock this year, but the conditions are favorable to an active demand in the early spring. The extensive manufacturing works contemplated at Sault Ste. Marie, and the new railways to be built in north-western Ontario, will call for a very large quantity of constructive material, of which timber will comprise the greater portion. The improvements to Toronto harbor are in progress, and it is understood that the contractors are in the market for a quantity of hemlock and other timber required for the work.

The changes in the Toronto price list this week consist of a slight advance in the price of 2x4, 6 and 8 inch common lumber, for which an increased demand is reported; 2x4 inch selling at $14.50, and 2x6 inch and 8 inch at $15.50. Cull scantling are also marked up 50 cents. The quotations on laths and shingles have not been altered. We believe that some sales have been made at prices slightly above those quoted, although orders are still being accepted at the figures of $2.75 for No. 1 and $2.25 for No. 2 lath.

A marked difference exists in the prices asked by manufacturers for lath, making it difficult to arrive at an average price. The lath market, however, is showing strength, and prices are likely to advance, to be followed, probably, by shingles.

QUEBEC AND NEW BRUNSWICK.

As navigation on the St. Lawrence is drawing to a close, considerable interest is shown in the stocks wintering on this side. Although the figures are not yet available, it is believed that the quantity of British deals to be carried over at the leading ports along the St. Lawrence will not be exceptionally large. In New Brunswick and Nova Scotia the stock is perhaps a little heavier than last year. Owing to the increased cost of production and the present somewhat unfavorable outlook for spruce in Great Britain, it is believed that the quantity of logs taken out this winter will be curtailed; in fact, advices from several districts confirm this opinion. The United States demand has become more active since the Presidential election. Extra cedar shingles are selling, on Boston rate of freight, from $2.75 to $3.00, clear at $2.50 and second clears at $2.25. Laths are selling well at $2.40 to $2.50 for 1½ inch, and $2.75 to $2.80 for 1⅝ inch.

UNITED STATES.

A number of large orders for lumber have been placed with United States dealers during the past week. Accordingly, the market has strengthened, although only in a few instances have prices been advanced. White pine is selling at former figures, the trade apparently believing that it would be unwise to advance prices at this season of the year. What

alterations have been made are in the direction of making the list more uniform and bringing manufacturers and dealers together. From Buffalo comes the report of a shortage in the cutting-up grades of pine, while at Boston there is a scarcity of upper grades in 2-inch. Eastern spruce manufacturers are said to have advanced their quotations one dollar per thousand. The larger sizes of spruce are particularly scarce. The hardwoods have shared in the improvement. The consumption is increasing, and the stock on hand is not likely to be found more than sufficient for the winter and early spring trade. Maple, black ash, and basswood lead in point of strength.

The lath market is just now engaging considerable attention. It is reported that eastern dealers have purchased all the stocks of lath at the mills in Duluth, in some instances paying an advance of 25 cents a thousand. Prices at Duluth are now $2.50, and at Chicago $2.85. Shingles are likewise firmer and in better demand.

GREAT BRITAIN.

We have before us the Board of Trade returns showing the imports of wood goods into the United Kingdom for the ten months ending October 31st, 1899 and 1900. The total import of hewn and sawn timber and lumber in 1899 was 8,025,285 loads, and in 1900 8,396,180 loads. From Canada, however, the imports of sawn lumber have been slightly less this year than in 1899. Owing to the high prices having limited consumption, stocks are generally heavier than at same period last year. There are predictions of lower prices, but the importers who purchased early in the season at high prices are making a strong effort to prevent a break. No buying of any account for next season is reported. The shippers claim that in view of the increased cost of production and transportation, they cannot afford to lower their asking prices, which the importers are not disposed to pay in the face of present conditions. Some third quality Quebec spruce was recently sold at auction in London at £9 10s per standard. Battens have recently declined about ten shillings per standard. From Liverpool comes the report that the Mersey Docks and Harbor Boards through their agents, Messrs. Duncan, Ewing & Company, are in the market for 7,000 cubic feet of rock elm, 1,000 cubic feet of Quebec birch timber, and 26 standards of spruce deals and flooring boards.

STOCKS AND PRICES.

Dickie and McGrath, of Tusket, N. S., have purchased large tracts of timber lands, in Digby county.

During the month of October there was shipped from Chemainus, B. C., to Australia lumber totallying 5,480 tons measurement.

Francis Murtagh, of Campbell's Bay, Que., has purchased a 200 acre timber limit at Farrelton, together with saw mill attached, from John Rice.

J. A. Ellis, of Lindsay, Ont., has purchased from the English Land Company the timber on 400 acres in Guilford township, Haliburton county.

S. H. White & Company have placed a portable mill at Bonny River, Charlotte county, N. B., where they will cut about 1,500,000 feet of lumber during the coming winter.

Up to October 9th of this year the trans-Atlantic shipments from the port of Miramichi, N.B., were 110,000,000 feet, as against 122,000,000 feet in same period last year.

F. McGibbon & Sons, of Penetanguishene, Ont., are shipping a large quantity of four inch deals to Cardiff, Wales. The C. Beck Manufacturing Company have also supplied considerable lumber this season for the British market.

The Gilbert Blasting & Dredging Company, of Iroquois, Ont., is in the market for 50,000 cubic feet of crib timber, 12 x 12 inches, 16 to 30 feet lengths, also 50 feet run, flatted, 10 inches thick, 15 to 35 feet lengths, to be delivered at the Morrisburg canal.

Mr. D. M. Rennie, commercial agent for Canada in the Argentine Republic and Uruguay, writes under date of July 14th that during the six months 106 cargoes of lumber were imported, of which 15 were spruce, 18 white pine and 73 pitch pine. The market then was depressed.

At the Crown Lands office, Fredericton, N.B., a two-mile timber berth on Cain's river, above Ten Mille Brook, was sold to Wm. Russell, at $50.50 per mile, and a ten mile berth on Gounamity river, near the head of Little Forks, to W. T. Whitehead, at $8 per mile.

An estimate of the Ottawa Valley lumber cut for the present season places it at 500,000,000 feet, of which about 100,000,000 was the product of the mills of J. R. Booth. This is a decrease of about 50,000,000 feet as compared with last year, due to the fact that several saw mills were destroyed by fire last spring.

The Fredericton Boom Company has finished rafting operations for the season, having rafted the following quantities of lumber: 120,044,270 feet of spruce, 13,816,107 feet of cedar, 4,181,830 feet of pine, 106,490 feet of hemlock, and 57,406 joints, a total of 138,192,900 feet. This is an increase of nearly 67,000,000 feet over the season of 1899.

The Harbor Commissioners of Montreal last week opened tenders for the annual supply of timber for next year. There were three tenderers, all local firms, as follows: Shearer & Brown Company, $59.235.81; J. & B. Grier, $57,875.46; W. H. Kelly Lumber Company, $42,066.74. For the supply of hemlock alone there was one tenderer, Mr. Owens, whose figure was $11,971.62. The contract for the entire supply was given to the W. H. Kelly Lumber Company.

During the coming winter Williamson & Crombie, of Kingsbury, Que., will take out on Brompton Lake 50,000 pine, spruce and hemlock logs. The Pierreville Mills Company will take out between 20,000 and 30,000 logs on Salmon Creek, which is less than half their usual quantity. The Eastman Lumber Co. will get out their usual supply for the Eastman mills.

Following are the trans-Atlantic lumber shipments from the port of Montreal for week ending November 17th: Per "Cambroman,"—Grand Trunk Railway, 238 pieces maple planks and 528 pieces oak timber; R. Cox & Company, 221 standards deals, boards and ends. Per "Manchester"—Charlemagne Lumber Company, 30½ standards deals. Per "Tremona"—Watson & Todd, 130 standards deals; Charlemagne Lumber Company, 110 standards deals. Per "Bellona"—J. Burstall & Company, 15 standards deals; McArthur Bros. & Company, 17 standards deals and 676 pieces oak timber; Watson & Todd, 337 standards deals, etc., and 47 standards lumber. Per "Sarmatian"—D. Cream & Company, 25 standards deals; W. & J. Sharples, 110 standards deals; Dobell, Beckett & Company, 22 standards deals. Per "Lord Charlemont"—Dobell, Beckett & Company, 184 standards deals, W. & J. Sharples, 60 standards deals; McArthur Bros. & Company, 162 standards deals; Charlemagne Lumber Company, 69 standards deals.

Limits and Saw Mills

FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulean and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City

AUCTION SALE

— OF —

Valuable Timber Limits, Saw Logs, Timber Lumber and Lumbering Appliances

Pursuant to the powers contained in two certain agreements each made by Joseph Turner and Spencer O. Fisher, of Bay City, Michigan, trading in co-partnership under the name of Turner & Fisher, and the Bank of Toronto, and to certain securities given under Section 74 of "The Bank Act," and pursuant to all other rights and powers of the said Bank of Toronto thereun o them enabling, there will be offered for sale by public auction, at the auction rooms of C. J. Townsend, No. 28 King street west, in the city of Toronto, on SATURDAY, THE EIGHTH DAY OF DECEMBER, 1900, at the hour of 12 o'clock noon, all those certain timber berths or limits following:

The entire Township of Wilson and Concessions Nine (9), Ten (10), Eleven (11) Twelve (12) Thirteen and Fourteen (14), in the Township of Ferrie, in the Province of Ontario, being the berths covered by License No. 46, of the season of 1896-1897, and License No. 89, for the season of 1895-1896, and being covered by Crown Timber Licenses Numbers 44 and 45 of the season of 1900-1901. And also the timber limit known as Berth No. 53, on the north shore of Lake Huron, in the said Province of Ontario, which was covered by Crown Timber License No. 145, for the season of 1895-1896, and being covered by License No. 46 for the season of 1900-1901, together with all rights of the said the Bank of Toronto in and to the said licenses.

Also all the saw logs and timber marked B. T., T. N. R., and J. O.E., or any one or more of the said marks, and all wood and wood products, including lumber, lath, shingles, the product of such logs, in, upon or near the land and waters and premises known as timber berths, Township of Wilson and Township of Ferrie, on the north shore of Lake Huron, in the Province of Ontario, and in, upon or near lands and waters adjacent to the said timber berths and in transit in, upon and near any lands and waters between the said timber berths or either of them and the lands and waters at the mouths of the French River and of the Magnetewan River, or of either of said rivers, and in, upon or near the lands and waters at the mouths of the French and Magnetewan Rivers, an in either of said rivers, in said Province of Ontario, and in transit in, upon or near the waters and shore of Georgian Bay and Lake Huron, between the said mouths of the said French River and of the Magnetewan River, and of either of the said rivers, and the saw mills situate at or near the town of Midland, in the County of Simcoe and Province of Ontario, known as "Chew Bros. Saw Mills," "James L. Playfair & Company Sawmill," "Cameron & Playfair Sawmill," and George Chew and Son Sawmill," or any of the said sawmills, and in, upon or near the lands and waters connected with or adjacent to the said sawmills or any of them, including the booming grounds, mill ponds, mill yards, piling grounds at or near the Town of Midland aforesaid, together with all the plant and appliances and camp equipage used upon and in connection with the lumbering of said limits in the Townships of Wilson and Ferrie, including all camp equipage, horses, wagons, sleighs, chains, lumbering tools and appliances of all kinds on said limits of Wilson and Ferrie, and on the Forsythe Farm, in the Township of McConkey, all store supplies and tools of all kinds at Turner's store house at Trout Creek, all booms, boom chains, boats, rafts, and outfit for taking logs down the Pickerel and French Rivers, and all chains, boats, tools, horses, wagons and lumbering outfits the property of the said Turner & Fisher, or of the Bank of Toronto, used in connection with the lumbering operations of the said limits at the Town of Midland, or in transit from the said limits, and upon the waters and shores lying between the said limits and the Town of Midland, in the County of Simcoe, a schedule of which logs, lumber, lath, equipage, supplies, etc., so far as known to the Vendors, can be seen at the office of Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington street east, Toronto, Ont.

The said timber limits, hereinbefore referred to, will be sold subject to the claim or lien (if any) of Merrill, Ring & Company, and Green, Ring & Company against same.

The entire property will be sold "en block."

The property will be sold subject to reserve bid.

Terms of payment: 25 per cent. cash on day of sale to the Vendors or their solicitors, the balance within thirty days thereafter with interest at the rate of 6 per cent. per annum.

Further terms and conditions will be made known on day of sale, or may be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, Vendors' Solicitors, 58 Wellington street east, Toronto.

Dated at Toronto this 2nd day of November, A.D., 1900.

250 M. feet 1 to 4 inch Birch, also 4 to 8 inch squares.
Write for prices, etc.

LONDON LUMBER CO.,
London, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The transactions in lumber during the past week have borne out the prediction made in our last issue that there would be no great volume of trade during the closing weeks of the year. A goodly number of enquiries are being made, and some sales have been effected, but indications are not lacking that the trade is settling down to a winter basis. Large purchases for spring delivery are not likely to be made until January or February. The probability is that the spring demand will present itself earlier than is usual. There is an unconfirmed rumor that large contracts have been placed with the Ottawa valley mills for their next season's production of British deals. Pine mill culls are showing strength, and we would not be surprised if considerably higher prices for these would rule next season. Pine lath also give evidence of selling at higher figures. There is a scarcity of the better grades of basswood lumber. Other lines of hardwoods remain unchanged, with the demand showing a slight improvement.

A factor in the white pine market which should not be disregarded is the almost certainty of a decreased production of logs this winter. In view of the high cost of labor and supplies, logging operations in nearly every district are on a limited scale. There is much difficulty in obtaining the necessary number of woodsmen, and should weather conditions throughout the winter prove unfavorable, the production of logs may be even less than operators are reckoning upon. The prospects, therefore, are that less lumber will be manufactured next year than in the season now closing.

QUEBEC AND NEW BRUNSWICK.

Shipping from the St. Lawrence being practically over for the season, the spruce lumber market is consequently quiet. Shippers on this side are waiting events in Great Britain before contracting with manufacturers for next season's cut, and it must be said that the outlook for British trade is none too promising. The United States market has shown more life and shipments have increased. Spruce clap-boards are selling, on Boston rate of freight, at $29 to $30 for extra, and $27 to $28 for clear, while the corresponding figures for pine are $36 to $38 and $33 to $37. Extra cedar shingles are stronger at $2.75 to $2,90, clears bringing $2.40 to $3.50.

MANITOBA AND BRITISH COLUMBIA.

Throughout Manitoba and the Territories the movement of lumber is light. The retail dealers have sufficient stocks to carry them through the winter, and will not purchase for spring delivery until after the turn of the year. In British Columbia the local consumption of lumber continues to be of large value, and the shingle market is particularly firm. Vessels are now loading lumber at Chemainus for South Africa, and an increased export trade may be expected as a result.

UNITED STATES.

The lumber market of the United States has gained strength during the past week, with indications of slight weakness in respect to one or two classes of stock. The favorable features are a heavy movement of stock to the east, an increased number of enquiries for spring delivery, and higher prices for certain grades. The Boston market has developed unexpected strength, dealers there reporting a marked increase in demand. Buffalo dealers also tell of an improvement in demand, with a light supply of all grades above barn boards. Low grade inch seems to be slightly weaker and in larger supply, although at Tonawanda there is said to be a scarcity of 1x12 inch, the price of which has been advanced by one dollar per thousand. The manufacturers of spruce are advancing prices. At Bangor, Maine, narrow spruce is quoted at $16 to $17, wide at $17.50 to $20, scantlings at $15 to $16, and spruce boards, 10 to 16 feet long, at $13 to $14. Basswood leads the hardwoods in point of demand. A large eastern consuming firm is said to have made heavy purchases of 1¼ inch basswood in the Chicago market. Black ash is scarce, while maple is quite plentiful, with inch firsts and seconds selling the in Buffalo market at $22.

Lath prices have been advanced 25 cents per thousand in Cleveland, Bangor, and several other markets. At Ashland, Wis., No 1 white pine lath is held at $2.50.

GREAT BRITAIN.

The reports from Great Britain tell of an unsatisfactory condition of the timber market. London seems to be the centre

of the weakness, as stocks there are larger accordingly than at the other ports. A decided tendency towards lower prices has exhibited itself during the past fortnight. This is clearly shown by the result of the auction sale held by Churchill & Sim on the 14th inst., when nearly all classes of deals sold from ten shillings to one pound per standard lower than at the previous sale. St. John spruce deals sold 20 shillings lower, and battens 10 shillings lower, but it is said that this can be partly accounted for by the quality of the lumber. In contrast to other lines planed boards and flooring are showing strength.

We are yet unable to report any purchases of next season's goods. The market is in such a position that shippers are holding back their quotations in the hope that the consumption and demand may pick up, and that they may be able to effect sales at higher prices by waiting a few weeks. In our opinion the conditions are not favorable to high prices for early spring shipments.

STOCKS AND RICES.

Thos. Wilcox, of Parry Sound, Ont., has transferred his logging contract at Henvey Inlet for Burton Bros. to John Kennedy, of Barrie.

A report comes from Great Britain that large contracts for deals have been closed with importers in Spain at prices in advance of thoee paid last season.

The Skillings, Whitney & Barnes Lumber Company, of Boston, Mass., are reported to have purchased the entire cut of mill run lumber sawn by the Conger Lumber Company, of Parry Sound, during the past season.

The Hawkesbury Lumber Company, of Hawkesbury, Ont., had about 40,000 logs hung up this season in the Black river. They are now building a canal from a small lake into Black lake to permit of bringing the logs down.

The Dominion government invites tenders up to noon of December 1st for supply of timber and lumber required for the Quebec canals during 1901. Information may be obtained from Ernest Marceau, superintending engineer, 1709 Notre Dame street, Montreal.

The steamship Forest Holme sailed from Quebec last week for London, with a cargo of timber and deals. The steamer Norden sailed from St. John, N. B., for Velencia and Barcelona, with a cargo of lumber, shipped by A. Cushing & Co.

F. E. Neale, of Chatham, N. B., has made his last shipment of lumber for the season. The total quantity shipped was 33,000,000 feet, of which 22,000,000 feet was shipped from Miramichi and 11,000,000 feet from Campbellton. Mr. Neale is the largest shipper of spruce deals on the north shore of New Brunswick.

Six timber berths were sold by the New Brunswick Government last week at high prices, as follows: Rockwell Stream, three miles, to Alex. Burnette, at $4 per mile. North Branch Shikitobank river, two miles to C. E. Gallagher, at $8 per mile; West Branch of South Branch of the Nepisiguit river, 57.9 miles, to W. T. Whitehead, at $101 per mile; West Branch of South Branch of Nepisiguit river, 57.9 miles, to W. T. Whitehead, at $101 per mile; Big Tracadie river, at mouth of Lord and Foy's brook, six miles, to Sumner & Co., at $52 per mile; Big Tracadie river, at mouth of Little South Branch, six miles, to Sumner & Co., at $51 per mile.

The McCaskill steam saw mill at Little Narrows, N. S., was destroyed by fires last week. The loss is $2,000, and no insurance.

A saw mill at Marysville, N. B., owned by Alex. Gibson & Sons, was destroyed by fire on November 26th. The mill contained gang and rotary saws, and cut about 35,000 feet of lumber per day.

The schooner Annie A. Booth has just been chartered to carry laths from St. John, N. B., to New York at 70 cents per thousand.

The Keewatin Lumber and Manufacturing Company have taken over the planing mill of J. M. Taylor and the lumber business of Wm. Armstrong & Company at Portage la Prairie, Manitoba.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., DECEMBER 5, 1900 No. 46

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

250 M. feet 1 to 4 inch Birch, also 4 to 8 inch squares.
Write for prices, etc.

LONDON LUMBER CO.,
London, Ont.

TO MILL MEN.

Do you wish to be less dependent upon the Canadian and United States markets? If so, this may be accomplished by cutting some of your stock to the specifications required by the British market. Any of the brokers and importers advertising in THE LUMBERMAN will be pleased to furnish to mill men specifications and price lists, and will advance 75 per cent. of the value of the stock shipped.

Roy & Frere, saw mill, St. Jude, Que., have dissolved partnership.

A saw and shingle mill at Kilworthy, Ont., owned by Jas. Hart, of Orillia, was destroyed by fire last week.

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week has brought about no material change in the lumber situation in Ontario. Generally speaking, trade is about normal for this season of the year, with prices firm and a decidedly hopeful feeling in respect to the early spring demand. No confirmation has been received of the report that certain Ottawa valley manufacturers have disposed of their 1901 production of British deals, but there is reason to believe that contracts will be closed in the near future. The weather conditions in the Georgian Bay district have been unfavorable for logging operations, being mild and rainy. As we go to press it is learned that there has been a fall of snow which will greatly faciliate work in the woods. Additional reports are to hand telling of the limited quantity of logs to be taken out this winter, the scarcity of men and high wages being the principal reasons. Besides, there was hung up in the northern pine districts of the province probably 200,000,000 feet of pine logs, which will likely be available for next season's sawing.

The expected advance in the price of lath has not yet taken place, but judging from the firm position of holders of this stock, higher prices seem to be assured.

QUEBEC AND NEW BRUNSWICK.

That the past season has not been altogether satisfactory to the lumbermen of the eastern provinces is shown by a comparison of the shipments of lumber from the port of Montreal to the United Kingdom. The figures show a decrease, as compared with the previous year, of nearly 60,000,000 feet. Taking the exports of four of the leading shippers, we find a decrease of nearly 50,000,000 feet. This decrease, of course, may be accounted for in part by the fire in the Ottawa lumber district last spring. Statistics of the eastern ports are not to hand, but we believe they also will show a falling off in shipments. At the present time business in lumber circles is quiet, and manufacturers are looking into the future with some eagerness. There has been a slight improvement in the United States trade, with a tendency towards higher prices. It is expected that an advance of ten cents will be made in the price of cedar shingles, which are now selling, on Boston rate of freight, at $2.75 to $2.90 for extras, $2.40 to $2.50 for clears, and $2.10 to $2.25 for second clears. Lath are bringing $2.75 to $2.80 for 1⅝ inch, and $2.50 to $2.60 for 1½ inch.

GREAT BRITAIN.

The position of the British timber market at the present time contrasts very strongly with the course of the market twelve months ago, when importers were eager to place orders at current quotations. Now no contracts for spring shipments are being placed, and it is said that some of the agents have not been supplied with their shipper's stock sheets. There seems to be a feeling on behalf of the shippers that it is advisable to wait until after the new year, when some of the surplus stocks will be worked off. The results of recent sales have not added strength to the market. The Timber Trades Journal, usually a reliable authority, remarks that "there is no escaping from the fact that there is a general sinking of prices from the high level they lately occupied, and nobody can forsee when the bottom will be reached." Shippers are being advised to lower their prices on deals about one pound per standard, and on battens ten to fifteen shillings, but we are inclined to the opinion, so far as Canadian lumber is concerned, that when the knowledge of the decreased production becomes more generally known, the market will pick up again.

UNITED STATES.

The late tendency to cut prices of pine lumber is no longer reported. The market has strengthened, and dealers and consumers alike appear convinced that the stock of pine lumber will be inadequate for the demands of the winter and spring. Sales have not been numerous, but there has been an active enquiry for spring delivery. At Buffalo it is feared that a serious shortage in box lumber and certain other grades will be experienced. Eastern spruce is firm, and higher prices are being asked. Hemlock is also selling in the Eastern States at good value. The most noticeable improvement, perhaps, has been in the hardwoods. The demand is decidedly stronger, while the position of the consuming industries is such as to forecast a heavy movement of stock in the spring. The piano manufacturers are purchasing considerable quantities of elm.

In the Chicago market low grade inch pine is very dull, as is also cull stock, but No. 1 and No. 2 boards are exceedingly scarce and bring full prices. On the Pacific coast conditions have not changed. There is a disposition to curtail the production of red cedar shingles during the winter.

STOCKS AND RICES.

Over 30,000,000 feet of lumber have been shipped this season from the port of Parrsboro, N.S.

The Niebergall Lumber Company, of Staples, Ont., are said to have 3,000,000 feet of lumber ready for shipment.

The Saginaw Lumber & Salt Company, of Saginaw, Mich., has purchased 7,000,000 feet of Ontario logs to be manufactured in the spring at Parry Sound.

The London Electric Company, of London, Ont., recently imported two carloads of red cedar electric light poles from Idaho, supplied by Firkins & Company, of Minneapolis.

The ship St. David sailed from Chemainus, B.C., last week for Australia, with a cargo of British Columbia timber. The schooner Defender and the ship Great Admiral are loading at the same port.

O. W. Sanders, of Duluth, Minnesota, has taken a contract from the Rat Portage Lumber Co., of Rat Portage, Ont., for getting out about 30,000,000 feet of logs on Sturgeon river. He will cut about 5,000,000 feet this winter. The Keewatin Lumber Co., of Keewatin, Ont., will get out about 4,000,000 feet during the winter.

Rhodes, Curry & Company, of Amherst, N. S., have just been given a contract to build 600 tenement houses at Sydney, C. B., for the Dominion Coal Company. These will require about 4,000,000 feet of lumber in their construction.

The Department of Indian Affairs at Ottawa invites tenders up to Wednesday, 12th inst., for supply of the following: 33,000 cedar railwas ties; 10,000 cedar posts, 8 inches and over and under 8 inches in diameter; 500 cedar sawlogs; 200 cords of spruce and popular pulpwood.

The following shipments of lumber were made from the port of Montreal for trans-Atlantic destinations during the week ending December 1st: Per str. "Greenlands"—62 pieces lumber by G A. Grier. Per "Etolia"—174 standards deals by Watson & Todd; 6½ standards deals, etc., by Montreal Lumber Co.; 41 standards lumber by Dobell, Becket & Co.; 102 standards by McArthur Bros. Per "Lake Champlain"—30 standards lumber by McArthur Bros.; 200 standards lumber by R. Cox & Co.; 186 standards lumber by Watson & Todd; 87 standards lumber by Dobell, Beckett & Co.; 1062 pieces oak lumber by C. P. Railway. Per "Benfore Head"—22 standards deals by Dobell, Beckett & Co.; 11½ standards boards by Watson & Todd; 15 standards boards by R. Cox & Co.; 4 standards oak boards by McArthur Bros.

OTTAWA VALLEY TRANSACTIONS.

Two transactions of much interest to the lumber trade have recently taken place at Ottawa. The interest of A. A. Buell in the Hull Lumber Company has been purchased by Geo. H. Perley, the amount involved being given as $150,000. It is said that as a result of this change the Hull Company will not rebuild their saw mills destroyed in the recent fire, but will float their logs down the Ottawa river to the mills of the Geo. H. Perley Company at the mouth of the Rouge river.

The second deal comprised the transfer of Demour's saw mills in the township of Wakefield to Poupore & Malone, contractors for the Montreal harbor improvements. The timber for the improvements will be manufactured at the above mills. During the winter it is proposed to cut 300,000 feet of square hemlock timber 12 inches and up in diameter and averaging 30 feet in length, as well as 1,000,000 hemlock railway ties. In addition to this purchase the contractors have acquired an extensive area of timber limits on the Gatineau river from Gilmour & Hughson, of Hull. The limit contains large quantities of spruce and hemlock timber.

BRITISH TIMBER SALE.

The following prices were realized for Canadian deals at an auction sale held by Foy, Morgan & Co., London, on November 21st.

PINE.—Ex. Florida—12 ft., 3 x 9 in. third quality, £11 5s; 10-13 ft., 3x7-8, £10; 9-15 ft., 3x7 in. unassorted, £9; 6-13 ft., 3x7, £8 15s. CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., DECEMBER 12, 1900 No. 47

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

green or dry; will pay a good price for high grade stock.—S. I. WILSON LUMBER CO., Toronto.

Limits and Saw Mills

FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Bouleau and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City

FOR SALE—2,000 arpents Boardwood Limits near St. Hilaire Station, only 22 miles from Montreal—Red Oak, Maple, Beech. B. F. CAMPBELL, St. Hilaire Station, Que.

FOR SALE.

40,000 FEET RED AND WHITE OAK LUMber, 1, 2, 3 and 4 inches thick, also 60,000 feet of Pine, 1, 1½ and 2 inch. For particulars address CHAS. ASHLEY. Foxboro, Ont.

WANTED.

WANTED AFTER JAN. 1ST., POSITION AS Manager or General Superintendent of Saw Mill, or to take charge of Construction of New Mill, or saw by the M, by man who can furnish unexceptional reference as to experience and ability. Address "P.O. Box 497, Ottawa Post Office, Ottawa, Ont."

FOR SALE.—36 in. Wickes Gang, cutting 14 in deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

WANTED

GREEN HARD MAPLE SQUARES, 6½x6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address Box 40, CANADA LUMBERMAN.

FOR SALE

THE SAW AND PLANING MILLS KNOWN as "Malloch's Mills," conveniently situated on the Ottawa, between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C. P. R. For particulars, address GEO. MALLOCH, Arnprior.

CURRENT TRADE CONDITIONS.

ONTARIO.

That the close of navigation on the upper lakes is drawing to a close is evidenced by the rush of lumber shipments. Several vessels have loaded during the past week at Georgian Bay ports for Saginaw, Bay City, Buffalo, Tonawanda, and other distributing points. When the season's shipments are over, the stock wintering at the mills will not be unusually large; in fact, some grades of pine are in light supply. Most of the mills in the northern districts have closed operations for the season, but a few are still running. By means of an unexceptional freshet logs that were supposedly hung up until next spring have now reached the mills.

Our Ottawa correspondent is authority for the statement that one at least of the Ottawa Valley manufacturers has sold his 1901 cut of British deals, while we understand that negotiations are under way looking to other purchases. The market is likely to remain quiet until after the turn of the year, when more activity and higher prices in some grades are looked for.

Hardwood dealers report no rush of orders, but a satisfactory number of inquiries. Soft elm lumber is weak owing to reported cutting of prices by one or two dealers. Hemlock is in a strong position, as the production of hemlock logs during the present winter promises to be unusually light.

QUEBEC AND NEW BRUNSWICK.

The season of navigation from the St. Lawrence is now closed, the last vessels having sailed a few days ago. As will be seen by the figures published in another column, the total shipments of lumber from St. Lawrence ports to Europe was approximately 227,000,000 feet, being a decrease of about 60,000,000 feet as compared with the previous year. The shippers are now laying out their plans for next season, when they hope to be able to maintain the prices of the past year. The spruce market is quiet. New Brunswick cedar shingles continue to show strength, and sales have been made during the past week at $2.85 to $2.90 for extras, and $2.50 to $2.60 for clears, on Boston rate of freight. For 1⅝ inch lath $3 has been asked, and for 1½ inch $2.85.

UNITED STATES.

Building lumber in the Eastern States is in greater demand, while the movement of stock to manufacturers has lessened. This latter condition is no doubt due to the desire to reduce stock to make inventories easier and to show a better cash balance. The number of enquiries in the market show that generally light stocks are held by retail dealers and consumers. There is a most hopeful feeling in regard to the prospective consumption of building lumber, as it is predicted on all sides that the building season of 1901 will be unusually brisk. Saginaw dealers report the movement of 15,000,000 feet of pine lumber since the election, and although quotations have not changed, the market is conceded to be stronger. Log run lumber of good quality is worth $18, box lumber from $12 to $16, mill culls from $12 to $13, and Norway $16. At Buffalo some fear of a shortage in the cutting-up grades of pine is reported, while at Philadelphia the middle grades are weak, and the lower grades, especially 6 inch strips and 12 inch boards, fairly active. The demand for spruce is strong, the quotations at Bangor, Me., being $16 to $17 for 6 to 8 inch, and $18 to $20 for 12 inch. Spruce lath is held there at $3 per thonsand.

The improvement in the hardwood trade is confined to an increased number of inquiries and greater confidence in the outlook. At Buffalo maple is firmer at $22 for inch, while basswood is selling at $27 for firsts and seconds.

Shingles are gaining ground, nearly all varieties being held at higher prices, with a somewhat meagre supply.

GREAT BRITAIN.

The British timber market is in a confused state, with conflicting views heard on all sides. The decreased consumption is one of the most unfavorable factors, as until the demand from the consumers shall become more active little improvement in the position of the market can be expected. Selling for next year has not yet commenced, although in the face of the prediction that prices for next year's shipments will be lower than those ruling last spring, we hear that some sales of Swedish goods have been made on a basis ten shillings higher than one year ago. The specifications, it is said, have been exceptional, but nevertheless, these sales cannot but have a strengthening effect upon the market. That the market has declined sharply during the past two months cannot be disputed. In battens the decline has averaged about 25 shillings per standard, while north of Europe deals have been marked down from one to two pounds. Canadian deals have mostly been in strong hands, and consequently have not declined so sharply. At a recent auction sale 3x9 Quebec spruce of second quality sold at £9 10s per standard.

STOCKS AND PRICES.

J. W. Munro, of Pembroke, has already made 200,000 cubic feet of square and waney pine timber this fall on his Mattawa limits. It is said that he expects to take out about 450,000 feet on this river, and 75,000 feet on the Vermillion river, as well as 17,000,000 feet of logs in the township of Capreol.

At a recent sale held by Churchill & Sim, London, England, 48 logs of oak timber from Quebec sold at from 110 shillings to 117s 6d per load of 50 cubic feet, and 58 logs of elm timber at from 100s to 120s per load, the latter price being obtained for 8 logs 28-43 ft. x 12-15 in. A small quantity of birch from Montreal, 10-18 ft. 3x6-18 in., sold at 1s 4d per cubic foot.

For the week ending December 1st the following trans-Atlantic shipments of lumber were made from the port of Montreal: Per steamer "Date"—208 standards of white and red pine deals and boards, and elm and birch lumber, by Dobell, Beckett & Company. Per steamer "Leafield"—277 standards white and red pine deals, spruce deals, pine boards and elm and birch lumber by Dobell, Beckett & Company. Per steamer "Brayhead"—30 standards deals by Watson & Todd, 25 standards deals by Dobell, Beckett & Company. Per steamer "Palaki"—152 standards deals and boards by Watson & Todd, 187 standards deals and boards by McArthur Bros. & Company. The steamer "Theano" and "Monkshaven" with steel from Newport and Coneaut, Ohio, respectively, filled up at Montreal and Quebec with timber and deals supplied by Dobell, Beckett & Company.

BUSINESS NOTES.

Mr. A. F. Bury Austin, the well known lumber merchant, Board of Trade building, Montreal, has been appointed sole eastern selling agent for the North Pacific Lumber Company, Limited, of Barnet, near Vancouver, B.C., and would be most pleased to quote prices on all kinds of B.C. Douglas fir, cedar and spruce, in the rough or dressed. The North Pacific Lumber Company's mills are located at Burrard Inlet, and on the C.P.R., nine miles from Vancouver city, and have the best facilities for shipping either by rail or by vessel. All the lumber and timber is exclusively band sawn, their products including car sills, decking, siding and roofing, ship decking, timbers and spars, shingles, laths, pickets, box shooks, house flooring, siding and finish of all kinds, doors, sash and blinds, and moulding stock cut to sizes, also bridge timber of all kinds. They are also prepared to dress dimension timber, as their planers face up to 24 inch x 30 inch, and the mills cut dimension timber up to 120 feet long. They have dry kilns of large capacity and are in position to furnish material promptly.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

There is practically no change in the prices ruling in the Ottawa market, though inquiries from American points are being received in increasing numbers. Winter shipments by rail to American points promise to be brisk after the new year, but at present they are steady.

To give direct correction to his large lumber yards at the Chaudiere, Mr. J. R. Booth has had his railway line extended across Bridge street. Cars can now be loaded direct from the piles, while formerly the lumber had to be transferred on wagons. Mr. Booth will operate the Perley mill all winter and will ship extensively from his yards, all of which have been refitted since the fire. Part of the log supply will be brought in over the C. A. railway from points between Ottawa and Parry Sound.

Winter ocean freights have gone into force, and no further shipments will be made till next spring. Gilmour & Hughson have contracted to supply deals to American and British dealers at last year's quotations, but no further business in this line can be learned of. All the mills along the Ottawa have closed after a steady season's cut.

Mr. David Gillies, of Carleton Place, member of the well known lumbering firm of Gillies Bros., Braeside, has been re-elected representative for Pontiac county in the Quebec House. Mr. Gillies operates on large limits in the northern part of the county.

All the machinery has been placed in position in the E. B. Eddy Co.'s paper mills, and it is expected that the manufacture of paper will be started within ten days. The machinery has a greater capacity and is of a more modern type than that destroyed in the fire.

Allan Gilmour, one of Mr. John Gilmour's two sons who enlisted for service in South Africa a year ago, has returned to Ottawa after undergoing the hardships of a trying campaign.

The Ottawa Transportation Company, which handles nearly all the lumber shipped from Ottawa by barge, purposes adding several more barges to its fleet next season. Already it has 75 in commission. Owing to the fire there was a falling off in this season's business.

Word was received in the city to-day of the death of Mr. John Dickinson, foreman for Gilmour & Hughson on their limits at the Desert, up the Gatineau district. The deceased gentleman was well known and possessed of deep knowledge of the lumber business.

Two pairs of new gates are being built for he Rideau canal locks at Ottawa. For the t construction work fir timber was brought from British Columbia.

Ottawa, December 10th, 1900.

LOGGING OPERATIONS ON THE RAINY RIVER.

A correspondent at Rat Portage Ont., writes to the CANADA LUMBERMAN as follows:

There will be between thirty and forty millionfeet of pine timber cut in the District of Rainy River, upwards of one million railway ties for the Canadian Pacific Railway Co., and about the usual quantity of other timber, such as cedar posts, telegraph poles and and piles. This exceeds former years. There will likewise be a large quantity of timber and ties used in the construction of the Rainy River railway during the season, which will open up a large portion of territory which has not heretofore been accessible on account of the distance the timber would have to be driven to the Canadian Pacific railway. It will also open up the market for timber that has not been merchantable timber. There has been no spruce cut in the district of Rainy River, not but what there are very large quantities of it, but it was not accessible heretofore, but w are looking forward to a very much larger business being done after the construction of the railway. It is not only going to provide ways and means for the transportation of the timber, but there is a great deal of good agricultural land to be opened up also.

VALUABLE TIMBER LIMITS SOLD.

There was sold at public auction at the rooms of C. J. Townsend & Company, Toronto, on Saturday, December 8th, under an agreement made between Joseph Turner and Spencer O. Fisher, of Bay City, Michigan, with the Bank of Toronto, the timber berth No. 53, the entire township of Wilson, and the north half of the township of Ferrie, with all the logs cut from these limits, also logs and lumber and other products manufactured at the mills at Midland, Ont., camp equipage and all other assets growing out of the lumber operations from these limits.

The property was purchased by The Turner Lumber Co., of Midland, Ont., or $441,000.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., DECEMBER 19, 1900 No. 48

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions for one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED—20,000 feet B. M. Birch Chairwood sawn to sizes for export. For specifications, etc., apply CANADA LUMBERMAN.

175 M. feet quartered 1 to 2 inch White and Red Oak.
250 M. feet 1 to 4 inch Birch, also 4 to 8 inch squares.
Write for prices, etc.

LONDON LUMBER CO.,
London, Ont.

TRADE ENQUIRIES.

The following were among the enquiries relating to Canadian trade received at the High Commissioner's office in London during the week ending Nov. 30th:

Application has been received for the addresses of some of the most important wood pulp mills in Canada.

A firm in the Midlands who are likely to be considerable buyers of casks made of beechwood desire to be placed in communication with Canadian makers able to meet their requirements.

The names and addresses of the parties above referred to may be obtained at the office of the CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Considerable strength has been given to the white pine market by the intelligence that the deal production of the Ottawa Valley mills for 1901 has been contracted for by the shippers. The Hawkesbury cut, we understand, has been secured by W. & J. Sharples, McLaren's cut by R. Cox & Company, The Hull Lumber Company's and W. C. Edwards & Company's cuts by Watson & Todd, J. R. Booth's cut by R. Cox & Company and J. Burstall in equal proportions, while smaller cuts have been secured by R. Cox & Company. The basis of prices is believed to be practically the same as last year, which, in view of the lower values now ruling in Great Britain, and the uncertainty as to the future, should be very satisfactory to Canadian manufacturers. Now that these purchases have been made, it is probable that it will inspire confidence and lead to other transactions. Holiday quietness prevails throughout the lumber trade, salesman being mostly off the road. Prices for both pine and hardwoods are firm, and it is predicted that there will be slight advances on some grades towards the spring. Lath and shingles are particularly strong, although it has been thought inadvisable to make changes in quotations until the advance now asked by some dealers becomes more general.

QUEBEC AND NEW BRUNSWICK.

The past week has brought about no change in the spruce situation. Montreal dealers are interested in the reported embarrassment of a Liverpool house known to have been dealers in Canadian lumber. The report from the Maritime Provinces is that very little lumber is moving. Clapboards are firm, but in light demand, selling at $29 to $30 for extra spruce and $27 to $28 for second clear, on Boston freight rates.

Operations in the woods are now well under way, and estimates will soon be forthcoming of the probable cut. On the St. Croix river it is expected that about 25,000,000 feet will be taken out. This is 10,000,000 feet less than last winter, and probably reflects the volume of operations on other streams.

MANITOBA AND BRITISH COLUMBIA.

Retail dealers report a light demand for lumber, with no expectation of an improvement until the early spring stock shall commence to move. Prices are not altogether satisfactory, but it is hoped that recent changes which have taken place will result in remedying the evil. In British Columbia lumber circles considerable activity is shown at the present time. The manufacturers are taking steps looking to the removal of the discrimination made by American ship owners against Canadian ports, also to secure the continuance of the rebate on exported timber. It is understood that some large orders have been placed with British Columbia manufacturers for timber for shipment to foreign countries, one being by the German government for deck planking.

Owing to the production of shingles being considerably greater than the demand, an arrangement has been effected by which one of the largest mills will be closed down and the owner thereof will act in the capacity of a broker for the other manufacturers. Should the arrangement work out satisfactorily, it will improve the condition of the red cedar shingle industry.

UNITED STATES.

Reports from the head of Lake Superior show that the Duluth and Superior mills manufactured this year approximately 416,000,000 feet of lumber. Of this quantity 168,000,000 feet is still held by manufacturers, 129,000,000 feet of which is unsold. In 1899 the cut was 423,000,000 feet, the stock on hand 114,000,000 feet, and the stock unsold 22,000,000 feet. These figures make an unfavorable showing for this year, and reflect the lessened demand for lumber which existed during the year as compared with the previous season. It is only fair, however, to point out that while one year ago wholesalers and retailers were heavily stocked, the reverse condition exists at the present time, and the prospect is that they will have an inadequate supply for the winter trade. While little business is doing, the market shows considerable strength. In the Chicago market sales of inch mill run have been made at prices $1 higher than before the election, while at Tonawanda there has been an advance of from fifty cents to two dollars per thousand on some of the coarser grades of 12-inch boards and No. 1, 2 and 3 cuts. Boston reports a scarcity of good stocks of white pine. Spruce is steadily advancing, and within the last fortnight quotations in New York have been brought up to $16 to $17 for narrow, and $18 to $20 for wide. There is very little buying of harwoods, with no material fluctuations in price. Shingles and lath are both firm, and as the season advances the certainty of a shortage in the supply becomes more apparent. In the east there is a strong demand for all kinds of lath. Extra cedar shingles are quoted at Boston at $2.80, clears at $2.50, and second clears at $2.10.

GREAT BRITAIN.

It is unfortunate that just at this time, when efforts are being made to prevent the British timber market from declining further, the failure of a large Liverpool lumber firm should occur. This failure, to which reference is made elsewhere, is understood to have greatly unsettled the market. In the face of the present conditions, it is not expected that there will be any immediate relief from the present depression; on the other hand, it would not be surprising if still lower prices should rule before the next two months are past. At most of the ports there is a heavy stock of boards and sidings, while the stock of other classes of timber is a little above the average. The firm of A. Dobell & Company, Liverpool, quote first quality pine deals at from £22 to £28 per standard, second quality £18 to £21, third quality £12 to £12 10s, and New Brunswick spruce £7 7s 6d to £8. Quebec square

pine is selling in Liverpool at 1s 3d to 2s 9d per cubic foot, waney pine at 2s 3d to 2s 10d, Quebec oak, first quality, at 2s 8d to 3s, and Quebec birch at 1s 5d to 2s. Birch planks bring from 11d to 1s 1d.

STOCKS AND PRICES.

It is said that the Central Lumber Company, of Saginaw, Mich., will not operate this winter in the Georgian Bay district owing to their inability to export the logs to Michigan.

H. H. Acorn, of Souris East, P.E.I., has been awarded a contract to supply about three-quarters of a million feet of timber for the Hillsborough bridge near Charlottetown, P.E.I.

The Lachine Rapids Hydraulic & Land Company, of Montreal, want tenders for the supply of 300 cedar poles, from 45 to 55 feet long, 8 inches at smaller end, to be delivered by April next.

F. M. Sumner, of Moncton, and J. M. Barnes, M.P.P., of Buctouche, who have secured the contract for the building of a telephone line from St. John to St. Stephen, N.B., are letting contracts for poles and other materials.

The Schooner Gypson Emperor sailed from Digby, N. S., last week for Buenos Ayres, with a cargo of lumber. The brigatine Harry Stewart and the schooner Helen Sheffner are loading lumber at Bear River, N. S., for the West Indies.

At the Crown Lands office, Fredericton, N. B., two timber berths were sold last week, as follows: A 2½ mile berth on western side of Bartibog river, to James Russell, of Lower Newcastle, at $65.75 per mile; and 2 miles on first Eel River Lake to E. Loudon, at the upset price of $8 per mile.

The lumber shipments from the port of Dalhousie, N.B., for the season just closed totalled 24,090,224 superficial feet, and those of the outports of Campbellton 20,968,145, making a total of 45,028,369 feet. There were 71 vessels in all, one of which went to Italy, one to Australia, four to Spain, two to Barbadoes, two to St. Pierre, and the balance, 61 vessels, to Great Britain.

It is stated that McLeod & Irwin, of Bracebridge, who have the contract from the Algoma Central Railway to cut the bill stuff off lots 6, 7, 8 and 9, concession 1, Township of Dana, have sold out their plant and contract to the Victoria Harbor Lumber Company, who purchased the adjoining five lots at the last government sale of timber. A large drive, probably some ten or twelve million feet, will come down the Sturgeon river in the spring from that locality.

The lumber cut on the St. Croix river, in New Brunswick, this year will be about 25,000,000 feet. The Murchies will cut about 8,000,000 feet, the Eatons about 10,000,000 feet, the Todds 4,000,000 feet, and Granville Chase 1,500,000 feet. Late advices from the St. Croix state that there is an over-abundance of snow.

There is a strong demand at Barbadoes for spruce and white pine lumber. Recent sales have been made at the following prices: White pine, $25.02 for merchantable and $21.02 for second quality; spruce, $22.60 for merchantable, but a sale of stock to arrive is said to have been made at $22.80. The supply of Gaspe cedar shingles is ample. Cedar laying have been sold at $2.30 and spruce laying at $2.09.

THE GLASGOW MARKET.

Concerning the Glasgow timber market, Messrs. Allison, Cousland & Co., in their last report, say:

WANEY WHITE PINE.—Business during the past month has been brisker, and several large lines of mostly second class wood have changed hands. Quotations—Prime wood, 19 to 20 inch average, 2s 10d to 3s 1d. Second class wood, 20d to 2s 2d per c. ft. In square pine there is no business to report.

OAK.—Stocks are light and there has been a fair enquiry.

ELM.—Prices are very firm, but the demand is only moderate; 45 feet average is quoted at 3s to 3s 3d per c. ft.

BIRCH.—Considerable lines continue to be placed at low figures, 16 inch wood at 16d to 17d, 17 inch at 18d to 19d per c. ft.

ASH.—The stock is small and is chiefly in second hands. Quotations.—2s 2d to 2s 6d for 13½ to 14½ inch average.

PINE.—Firsts.—There is no doubt that prices are decidedly easier. Broad deals have arrived lately in fairly large parcels. Undersized, if good, are in fair request. Sidings and boards have accumulated and are difficult to dispose of. Quotations.—Broad, £27 10s to £30 5s. Undersized, £20 12s 6d to £22 13s 9d. Sidings, £18 11s 3d to £22 per St. Pet Std. Seconds.—The stock is a small one and there is little demand. Thirds.—The stock, although not heavy, is ample, and prices are little changed. Quotations.—£13 1s 3d to £15 2s 6d for Regulars. Undersized, £11 to £11 13s 9d per St. Pet. Std. Fourths are low in stock and getting scarcer. Regulars are quoted at £11. Undersized, £8 18s 9d to £9 5s 7d per St. Pet Std.

SPRUCE.—Stocks are small. Quotations.—£7 18s 1d to £9 5s 7d per St. Pet. Std.

RED PINE.—There is little demand. Quotations—£13 15s to £15 2s 6d per St. Pet. Std.

N. B. BIRCH.—There is no stock of logs in first hands. Planks are in good request at 12½d to 13½d per c. ft.

N. B. DEALS, BATTENS AND BOARDS.—Business is fair and prices are well maintained. Quotations.—£7 4s 4d to £10 13s 1d per St. Pet. Std.

This is the time of the year to investigate the requirements of British lumber merchants, so that during the winter suitable logs may be taken out. Drop a line to any of the brokers or importers whose announcements appear on on page IV and they will gladly furnish you with particulars as to sizes, prices, etc.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., DECEMBER 26, 1900 No. 49

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED.

1 car 1½ in. Common and Better Rock Elm,
1 " 3 in. " " " Rock Elm,
green or dry; will pay a good price for high grade stock.—S. I. WILSON LUMBER CO., Toronto.

FOR SALE

THE SAW AND PLANING MILLS KNOWN as "Malloch's Mills," conveniently situated on the Ottawa, between Arnprior and Braeside. One Circular, Steam Rope Feed, Edgers, Trimmers, Live Carriers, Lath Machine, &c. Connected with C. P. R. For particulars, address GEO. MALLOCH, Arnprior.

Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boule and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

FOR SALE.—36 in. Wickes Gang, cutting 14 in deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

HAVE YOU ANY STOCK WHICH YOU WISH to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

FOR SALE.

40,000 FEET RED AND WHITE OAK LUMber, 1, 2, 3 and 4 inches thick, also 60,000 feet of Pine, 1, 1½ and 2 inch. For particulars address CHAS. ASHLEY, Foxboro, Ont.

WANTED

GREEN HARD MAPLE SQUARES, 6½x6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address Box 40, CANADA LUMBERMAN.

WANTED

(THIS IS A PROFITABLE INVESTMENT.)

IMMEDIATELY, A PARTY ABLE TO FINance the operations of a large spruce limit producing four million feet a year of fully manufactured stock. Operations are now active. Capacity of plant is three thousand feet per hour. There are seven hundred thousand feet of seasoned lumber and one million feet of logs now on hand. Apply, stating terms and interest, to MANAGER, Box 911, Makinak, Manitoba.

FOR SALE

DRY HARDWOOD LUMBER

150 M. feet plain cut 1 inch Sycamore, wide stock.
200 M. feet choice 1 inch Soft Elm.

200 M. feet plain cut 1 inch Red Oak.
175 M. feet quartered 1 to 2 inch White and Red Oak.
250 M. feet 1 to 4 inch Birch, also 4 to 8 inch squares.
Write for prices, etc.

LONDON LUMBER CO.,
London, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Being within one week of the end of the year, and with navigation closed, not more than a limited movement of lumber could reasonably be looked for. Salesmen have been taken off the road, and lumbermen are devoting themselves to balancing up the business of the year. That orders continue to be placed in fair volume, notwithstanding these circumstances, shows that lumber is wanted, and we think augurs well for an early spring trade. While stocks at the mills are no doubt heavier than at the same time last year, it may be said with equal accuracy that the stocks of consumers and retail dealers are unusually light. The course of the spring trade would seem to be indicated by the fact that Saginaw dealers have already bought heavily of Ontario lumber for spring delivery. It is estimated that Mershon & Company have purchased nearly 20,000,000 feet, and Schuette & Company about 16,000,000 feet, while other buyers have contracted for smaller quantities. From every section of the province encouraging reports are to hand of the prospects for spring trade, and under such conditions it is only reasonable to expect that the present prices will be maintained, if they are not advanced.

Late information confirms the report that the production of logs this winter in the Georgian Bay district will be smaller that last year.

QUEBEC AND NEW BRUNSWICK.

Lumber matters in the eastern provinces are somewhat unsettled on account of the weakness of the British market and the consequent uncertainty as to next season's business. The shippers have contracted with the mill men for a small portion of the 1901 cut, but it is understood that few, if any, sales have been made to British importers. Negotiations, however, are now under way, and early in the year contracts will no doubt be closed. It transpires that several Quebec and Montreal merchants are affected by the recent Liverpool failure, although they are not heavily involved. Locally, trade is fair for this season of the year. A contract has just been awarded for building a wharf at Sorel, Que., in which considerable timber will be consumed. Some enquiries for stock are reported from the United States, where the market is improving. New Brunswick cedar shingles are steady at slightly higher prices.

UNITED STATES.

There has been more buying of lumber during the past week than is usual at this season of the year. This disposition to buy is due in part to the belief that it will not b possible to obtain lumber at lower price than at present during the next few months, as the situation seems to favor an advance. A meeting of the manufacturers of pine lumber in the Mississippi valley is announced to be held this week, at which the list will be re-adjusted so as to advance the price of certain grades which are now scarce. In the Mississippi and Wisconsin valleys the stocks of pine lumber show a heavy shortage as compared with the average season, and a slight shortage as compared with the low stocks of one year ago. There is a scarcity of No. 2 and No. 3 boards. Already sales of stock have been made at Duluth for shipment eastward next spring; the prices obtained have been very satisfactory. At Marinette, Wis., a sale of stock is reported at an advance of 15 per cent. over last year's figures. Eastern spruce continues to gain in strength. In the New York market wide random spruce is selling at about $19. What this price means will be understood when it is stated that the low water mark of last summer was $12. There has been a marked revival in the east in all branches of industry, and the outlook for lumber is regarded as good. A feature of the present month has been the almost unprecedented demand for sash and doors. Wholesalers report that the volume of orders has been fully 50 per cent. grerter than in any corresponding month in their history.

While the future for hardwood lumber is regarded as satisfactory, the present movement of stock is light. Consumers do not wish to pile up stock until after the turn of the year. From different sections a scarcity of lath and shingles is reported. New Brunswick cedar shingles are selling a little higher.

GREAT BRITAIN.

Favorable weather during the past fortnight has stimulated the lumber business in Great Britain. There has, however, been no improvement in prices, nor is this looked for at this season of the year. At recent auction sales dressed boards showed weakness. Some lines of spruce, especially 7 and 8 inch unsorted battens, sold at lower prices. Little advancement has been made towards making purchases for next year. The importers are still pursuing a waiting policy, as with plenty of lumber on the spot to meet requirements, the urgency of early contracting is removed. In some districts the feeling seems to be gaining ground that next year's prices will be lower than those of 1900, this opinion being based, to some extent, upon the decline in coal and iron. It seems to be considered that the higher grades of pine and spruce deals will, under almost any circumstances, bring fair prices, and that if depression should prevail the lower grades will suffer the most. It is reported that a number of contracts have been closed with France for next year's shipments and that the sale of 8,000 standards has been made to South Africa.

STOCKS AND PRICES.

Sutherland & Baillie have cut 500,000 feet of lumber near McMullen's dam, on Salmon river, N.S.

The Dominion Government wants tenders for the supply of timber for the Welland canal, at St. Catharines, during the year 1901.

A quantity of timber, consisting chiefly of basswood and ash, recently blown down by a storm in the Rondeau provincial park, has been sold by tender to J. B. Coates, of Ridgetown, Ont., for $5.50.

Sims Bros., of Little Current, Ont., have purchased the Lippincott timber limit on Whitefish river, which they are operating this winter with two camps of about 150 men. We understand that they have not yet made arrangements for the sawing of the logs.

A correspondent at Day Mills, Ont., writes that logging operations in Algoma are in full swing. Owing to heavy rains in the early fall the conditions were unfavorable for cutting and skidding logs. The Doherty Organ Company have fifty men in the woods getting out pine logs. They are operating on the Day limit purchased last season from James I. Harris, and will have their logs sawn at Day Mills. The C.P.R. are taking out a large quantity of cordwood along their road between Blind River and Thessalon and are also buying from farmers. Hemlock logs are worth $5 to $7 per thousand feet at local mills, birch $7, red oak $10, and pine $10.

This is the time of the year to investigate the requirements of British lumber merchants, so that during the winter suitable logs may be taken out. Drop a line to any of the brokers or importers whose announcements appear on on page IV and they will gladly furnish you with particulars as to sizes, prices, etc.

MONTREAL LUMBER SHIPMENTS.

The Custom House returns at Montreal show that the statements of lumber from that port during the past season totalled 227,460,622 feet, divided among the shippers as follows :

	Feet.
Watson & Todd	56,993 035

A quantity of first-class waney pine timber, ex. Assyrian, from Quebec, sold at 77s. 6d per load.

TO LUMBER MANUFACTURERS

Blank forms have been sent to lumber manufacturers requesting certain information regarding the lumber trade of 1900, to be used as a guide in the preparation of our annual review to appear in the February LUMBERMAN. It is hoped that every manufacturer will furnish the information asked for. If you have not received a form, please advise us, so that you may be supplied.

A schooner has been chartered to load lumber at St. John, N.B., for New York at $4. This is the highest rate that has been paid for years.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JANUARY 2, 1901 No. 49

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

WANTED

GREEN HARD MAPLE SQUARES, 6½x6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address Box 40, CANADA LUMBERMAN.

WANTED

(THIS IS A PROFITABLE INVESTMENT.)

IMMEDIATELY, A PARTY ABLE TO FINance the operations of a large spruce limit producing four million feet a year of fully manufactured stock. Operations are now active. Capacity of plant is three thousand feet per hour. There are seven hundred thousand feet of seasoned lumber and one million feet of logs now on hand. Apply, stating terms and interest, to MANAGER, Box 911, Makinak, Manitoba.

Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is St am Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulea u and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

CURRENT TRADE CONDITIONS.

ONTARIO.

"Inquiries for bills for next season are already coming in, and prospects for the season of 1901 are considered very bright." This is the manner in which a manufacturer in western Ontario refers to the outlook for the lumber trade, and his views are endorsed by other manufacturers from whom information has been received the past week. Some Georgian Bay mills have already sold their coming season's cut of British deals, while an increased inquiry for the lower grades is reported from all sections of the province. Without being too optimistic, it can be safely said that an active trade in lumber will characterize the early spring, and there is reasonable hope of higher prices at least for certain grades. Michigan consumers of lumber will, in all probability, obtain a greater portion of their supply in Canada this year than ever before, as the production of pine lumber in that State is now of no account.

There are considerable stocks of hardwood lumber in some districts, but it is not anticipated that there will be any general reductions in price, as this is scarcely possible unless sales are made at a loss, owing to the high prices paid for logs. It is expected that there will be a small production of hardwoods the coming season.

QUEBEC AND NEW BRUNSWICK.

The outlook for the lumber trade of the eastern provinces is brightening, although sales for immediate deliverv are few. For spring delivery, however, many enenquiries are being made. During the past few months there has been little demand for spruce clapboards, the price of which has remained low. Enquiry has now become more active, dry stocks are getting cleared out, and prices are showing a tendency to advance. British trade is quiet. Shippers are still unable to close contracts on account of the uncertainty of the European marker. New Brunswick cedar shingles are again a little weaker, selling as low as $2.80 for extras, $2.40 to $2.50 for clears, and $1.75 to $2 for second clears.

UNITED STATES.

While there was a falling off in trade towards the end of the year, all kinds of lumber give evidence of continued stability. An encouraging feature is the continued volume of enquiry and the placing of many orders for early spring delivery. The end of the year found stocks at many manufacturing points badly broken. On the upper lakes there is said to be a shortage of 12-inch No. 1, 2 and 3 boards, 10 inch No. 1 and 2 boards, and 2x12 piece stuff in 12, 14 and 16 foot lengths. Laths are also in short supply. A few sales of the cut of 1901 have been made at a slight advance on last season's prices. In the saginaw valley manufacturers, with few exceptions, have little stock in their yards. Log run is quoted at $16 to $18, box lumber at $12 to $16, Norway bill stuff at $16 and upwards, and mill culls at $12 and $14. At Buffalo the stock of pine lumber is not heavy, and a general scarcity of the higher grades is reported. Some efforts have been made by dealers to add to their supply from Ontario, but it is said that prices generally have been found too high. Spruce continues to gain in strength and advances are looked for early in the year. Although hardwoods are quiet, no weakness is shown. More than the usual number of enquiries are reported, and there has been some good buying for January delivery. Plain oak has gone up another $1.50 in New York, now selling at $46 and better.

The tendency of shingles is strong. Buffalo dealers are finding more enquiries for red cedar shingles than for pine, the difference in price being 50 cents. On the Pacific coast cedar shingles have been advanced another 5 cents.

GREAT BRITAIN.

Advices from Great Britain tell of an unchanged condition of the lumber market. Importers are declining all overtures, and few sales of importance have been made. One report states that London importers have not yet purchased any deals and battens for next year, but several contracts for special goods, such as slating battens and weather boards, have been closed. There is yet much uncertainty as to the prices whcih will rule for spring shipments. Some Baltic manufacturers are said to have sold 11 and 9 inch deals at the same prices as ruled last season, and 7 inch battens 5 shillings lower. Prices for goods on spot are not improving. Notwithstanding the drop in spruce prices, there is little movement in the sale of deals and planks, and it would seem that consumers are expecting a further decline in prices. A few sales of third pine deals have been made at £11 12s 6d per standard for 3x9 in, 12 to 13 ft. in length. At an auction sale held by Hodson, Mabbs & Company, 3x11 Quebec spruce brought only £9 5s, which is considered a little below market value.

STOCKS AND PRICES.

D. L. Mather, of Rat Portage, Ont., intends taking out 275,000 railroads ties this winter.

The unsold stocks of lumber at Duluth and Superior at the close of the year amounted to 129,000,000 feet.

The South River Lumber Company, of South River, Ont., have sold their 1901 cut of deals at prices about the same as last year.

The bark St. James sailed from Chemainus B. C., last week for Melbourne, Australia, with 1,200 000 feet of lumber, valued at $12,000.

John Carew, of Lindsay, Ont., is getting out a large stock of logs and railway ties in North Victoria and Peterborough county this season.

The Goderich Lumber Company, of Goderich, Ont., are taking out this winter only hemlock and cedar timber, for which they find a ready market.

The Saginaw Lumber & Salt Company, of Saginaw, Mich., will, it is said, have 15,000,000 feet of logs for rafting to Michigan next season, these being cut on Indiana reserve lands.

Seaman & Company, of Port Arthur., Ont., contracting lumbermen for the New Ontario and Rainy River railway, have let contracts for 250,000 ties to be taken out this winter between Port Arthur and Steep Rock Lake. They will employ 400 men. Several small saw mills along the line east of Sturgeon Falls will be moved to Seine river and Little Turtle lake, and several million feet of piling and bridge timber will be taken out. Sub-contracts have been let to the following: Bartley & Mosher, 5,000,000 feet of logs; Tierney & Fraser, 5,000,000 feet of logs, 25,000 ties, and a large quantity of piling; Brownlea & Campbell, 30,000 ties, and about 50,000 feet of piling. The building of the road will involve the construction of two bridges across the Rainy River, one near Baudette and the other at Fort Frances.

The failure is announced of the Alexander Timber Company. Limited, of Cardiff, England. Among the creditors are: Bunstall & Co., Quebec; R. R. Dobell, Quebec; R. R. Dobell & Co., Quebec; W. & J. Sharples, Quebec; Farnworth & Jardine, Liverpool; A. F. & D. McKay, Liverpool; Pierce & Pierce, Liverpool.

The tendency of the freight market is downwards. Several steamers have been fixed from Miramichi to w.c. England at 52s 6d for first-open-water shipment and one of 1,500 standards at 52s 6d to Liverpool or Manchester. Four small sailers have been chartered, Bay of Chaleur to w.c. England, at 52s 6d, and two from Halifax to west coast at 50s 6d and 50s. From the river St. Lawrence charters have been effected at 51 3d to 51s 6d.

THE BOSTON MARKET.

The spruce lumber market is steady and featureless. It is possible that the tone is just a shade easier, since one or two small mills have gone to sawing, but values are not changed, with even more than agreement prices paid for frames, if wanted at once or within a few weeks: Ten and 12 inch dimensions, $18; 9 inch and under, $16; 10 and 12 inch random lengths, ten feet and up, $17; 2 x 3, 2 x 4, 2 x 5, 2 x 6, 2 x 7 and 3 x 4. 10 feet and up, $14.50; all other randoms, 9 inches and under, 10 feet and up, $15.50; 5 inch and up, merchantable boards, $15; matched boards, $17 to $17.50; out spruce boards, $12.50; bundle furring, $14.

Hemlock is very steady, with offerings limited: Eastern stock boards, $14.50 to $15.50; random, $13.50 to $14.50; Pennsylvania, $16 to $17; boards, rough, $12.50 to $13.50; planed, $14 to $14.50.

Western pine is firmer, with shippers claiming a stronger market: Uppers, 1 in. $58 to $62; 1¼ to 2 inch, $63 to $64; 3 and 4 in. $68 to $72; selects, 1 to 4 in. $52 to $64; fine common, 1 to 3 in. $45 to $60; sheathings, $38 to $54; barn boards, $28 to $30; coffin boards, $24 to $26.

Hardwoods continue in quiet request with little change. Whitewood is in fair demand: One inch whitewood, $36 to $38; thicker, $38 to $42; ⅝ inch, $30 to $33; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $65 to $75; fancy, $85 to $95; plain oak, $35 to $45; ash, $38 to $45; cherry $90 to $130; maple, $30 to $40; sycamore, quartered inch, $40 to $50; walnut, $100 to $130.

Shingles are considerably irregular. British Columbia shingles are in good request, with dealers behind with orders. Eastern orders are irregular. Dealers say that they are offering a good many New Brunswick shingles at $2.75 for extras, without buyers. Other dealers say that the market is better cleaned up at $2.85. It is certain that the present demand is light, and that building will have to be better than last year to take care of even a small cut: Extra cedar, $2.75 to $2.85; clear, $2.45 to $2.50, second clear, $1.75 to $2.10; clear white, $1.65 to $1.85; extra No. 1, $1.85; British Columbia, 16-inch, five butts to 2 in. $3.10 to $3.15.

Clapboards continue in small supply, with a dull market: Extra spruce, $29 to $30; clear, $27 to $28; second clear, $24 to $25; pine, extra, $36 to $38; clear, $33 to $37; second clear, $28 to $30; California redwood, clear, $42.50 to $45; second grade, $40 to $42.

Laths are fairly firm, but trade is quiet: 1⅝-inch, $2.80 to $2.85; 1½-inch, $2.60 to $2.70.

Boston, Dec. 31st, 1900.

The output of hemlock in Michigan this winter will be much less in quantity than last season, owing to the unsatisfactory condition of the hemlock market. Hemlock logs are said to be offering at $3.50 and $4.00.

TO LUMBER MANUFACTURERS

Blank forms have been sent to lumber manufacturers requesting certain information regarding the lumber trade of 1900, to be used as a guide in the preparation of our annual review to appear in the February LUMBERMAN. It is hoped that every manufacturer will furnish the information asked for. If you have not received a form, please advise us, so that you may be supplied.

A CORRECTION.

Robert Cox & Company, of Montreal, send us corrected figures of the lumber shipments in 1900 from that port in which they are interested. Those of Robert Cox & Company were 26 826,629 feet, and of Cox, Long & Company 6,643,901 feet.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JANUARY 9, 1901 No 50

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

I am prepared to contract for Dimension Stock of Hard Maple, Birch, Balm Tamarack and Spruce, for delivery summer 1901. Good dock and safe harbor for loading. Send specifications and prices to JOHN SALE, Windsor, Ont., or to E. BEDFORD, Duck Island, via Wiarton.

WANTED

(THIS IS A PROFITABLE INVESTMENT.)

IMMEDIATELY, A PARTY ABLE TO FINance the operations of a large spruce limit producing four million feet a year of fully manufactured stock. Operations are now active. Capacity of plant is three thousand feet per hour. There are seven hundred thousand feet of seasoned lumber and one million feet of logs now on hand. Apply, stating terms and interest, to MANAGER, Box 911, Makinak, Manitoba.

Limits and Saw Mills

FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equioped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulé and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

BUSINESS NOTES.

The Victoria Yukon Trading Company have sold their saw mill to the Upper Yukon Consolidated Company, Limited.

The McArthur Export Company, lumber merchants, are applying for incorporation, with head office in Quebec city.

It has been decided by the creditors of Pierce, Watts & Co., of Liverpool, England, that the estate shall go into bankruptcy.

It is reported on reliable authority that the extensive lumber business and property owned by George Moffatt & Company, of Dalhousie, N. B., has been sold to a Boston syndicate. The transfer includes limits, saw mill, boom privileges, scows and steam tug, and the consideration is believed to be in the vicinity of $200,000

The barque Mermaid has been chartered to load lumber at a British Columbia port for Chili.

CURRENT TRADE CONDITIONS.

ONTARIO.

The first few days of the new year brought more business to the lumbermen of Ontario than could reasonably be expected. The open weather permitted of building operations being continued almost incessantly, while numerous inquiries for stock have been received from United States dealers. The indications are that considerable lumber will be shipped from Ontario to the Eastern States during the winter months, as the rail rate from the Georgian Bay district to Buffalo and Tonawanda is about $2.50, which is a fair comparison with the average rate by vessel during the season of 1900. As dealers generally hold light stocks, they will no doubt keep adding moderately to their supply during the winter, so as to be in a position to handle the increased volume of trade which is expected early in the spring. Further reports of light stocks have reached us. A large manufacturer states that in his opinion there is less pine lumber in the hands of manufacturers than has been the case for fifteen years. While this may be an extreme view, it is in line with the reports of light stocks received from nearly every section of the province. Hardwoods are selling slowly, without losing any strength.

QUEBEC AND NEW BRUNSWICK.

The complete statistics of lumber shipments from the St. Lawrence for the year 1900 are not yet to hand, but those covering the Maritime provinces are compiled in Snowball's annual circular. It is shown that the trans-Atlantic shipments from nearly all the ports of New Brunswick and Nova Scotia were larger than in the previous year. From Miramichi the shipments were 122,000,000 feet, and from St. John 236,000,000 feet, the latter showing an increase of 50,000,000 feet. The stock of merchantable spruce and pine wintering on the Miramichi is 33,000,000 feet, as compared with 32,000,000 feet one year ago and 40,000,000 feet in 1898. With the exception of 4,500,000 feet, the stock wintering is spruce. The course of the coming season's trade is still uncertain. High prices are being asked for 11 x 3 inch deals, but generally the market is quiet. Cedar shingles have declined and are selling in the Boston market at $2 75 for extras.

UNITED STATES.

The price list committee of the Mississippi Valley Lumbermen's Association, at a meeting held on January 3rd, adopted a new list, based on the statistical condition of the pine market. No general advance in prices was made, the changes being for the purpose of evening up, according to the volume of stock held at the mills. The reports submitted showed that in many grades light stocks are held. It is conceded that consumers of both pine and hardwoods are carrying lighter stocks than usual, this condition applying particularly to the Eastern States. From reliable information it is believed that higher prices will be demanded in the near future, as there seems to be a disposition on the part of buyers to accept whatever prices are asked at the present time. Saginaw dealers who have been looking over the Duluth market report that holders of lumber are asking an advance of fifty cents and one dollar per thousand. A lull in trade is reported from Buffalo and Tonawanda, where there is a shortage of the better grades and also 12 inch boards in all grades. The call for spruce seems to be stronger than that for pine, and prices are stiffening. In New York city northern spruce is selling at $19 to $20. The demand for hardwoods is fair, but a much better trade is expected after midwinter. Sales of shingles are light, as is also the supply, and an expansion in the demand would likely bring about higher prices.

GREAT BRITAIN.

So far very little has been done by British importers towards contracting for their regular supplies. The business transacted has been confined chiefly to the eastern and north-eastern coast. There appears to be a slightly better feeling in the trade, especially in respect to Canadian lumber. Messrs. Edmiston & Mitchells, of Glasgow, in their annual circular just issued, point out that the year witnessed an advance in the price of Canadian stock, with the exception of red pine and birch logs, the demand for which was less active. Waney pine timber is quoted at 2s 8d for 17 inch, and 2s 9d for 18 inch of first quality. Red pine, 40 to 45 feet average, is selling at 21½d to 22d per cubic foot, and 30 feet average about 19d. Quebec birch is worth 18d for 15 inch, and 21d for 17 in. Broad first pine deals from Quebec are selling at £26 15s to £30 per standard; 11 inch at £24 to £26. Second pine deals are held at £20 to £22, third quality at £13 to £14, and fourth quality at £10 5s to £10 15s for 11 inch and up. Quebec spruce is worth £9 to £10, and New Brunswick spruce £7 5s to £8 5s for 7 and 8 inch, and £8 10s to £9 10s for 9 to 11 inch.

STOCKS AND PRICES.

The season thus far has been an excellent one for lumbering on the Spanish river.

The cooperage market continues quiet. At Chicago hoops are quoted at from $10 to $12.

John Patterson has a portable mill at Goshen, N. B., where he expects to cut 500,000 feet of lumber.

The quantity of logs exported from Ontario to Michigan during the season of 1900 was 45,850,485 feet.

Ferguson & McFadden, of Ottawa, are operating quite extensively this winter on their limits on the Spanish river.

Henry Epps, of Canard, N.S., has purchased timber property at Elmsdale, Colchester county, where he is operating this winter.

Seaman & Company, of Port Arthur, Ont., have a large quantity of sidings taken from bridge timber which they

will be prepared to dispose of during the coming summer.

G. R. Jones, of Moncton, N. B., is lumbering on the Irishtown road, cutting spruce, hemlock and hardwood, which he is sawing with a portable mill. He expects to get out 1,500,000 feet.

The secretary of the Canadian Manufacturers' Association, Toronto, has received a communication asking for quotations on 500,000 feet of lumber and on a quantity of box shooks for shipment to South Africa.

Mershon & Company, of Saginaw, Mich., are announced to have purchased the entire stock of logs which the Arthur Hill Company are taking out this winter in the Georgian Bay district. The quantity is estimated at 20,000,000 feet. The logs will be manufactured at Midland, Ont., and the lumber shipped to Saginaw.

At Buffalo dealers are taking orders for hemlock lumber at $13 and $13.50 as the base price. There is a good demand there for all cuts of cedar. Jobbers are selling 8 foot post with 3 to 4½ inch tops at 12 cents; 4½ to 5½ inch, 13 cents; 6 inch, 16 cents; 10 ft. with 5 inch tops, 21 cents; 6 inch tops, 24 cents. Cedar posts sell at 45 cents for firsts and 32 cents for seconds. Best 18 inch shingles are scarce at $3.25; 16 inch at $2.50; culls at $1 for 16 inch and $1.25 for 18 inch.

Many things of interest to buyers and sellers of lumber will be found each week in the announcements of our advertisers. Note the changes from week to week and take advantage of the offers.

THE BOSTON MARKET.

On spruce lumber the market is very firm. The unusually mild weather without snow here has made a demand for spruce and spruce frames, although it may be small, that it is not easy to supply. Certain buyers are reported to be ready to pay almost any price for such an amount of dimension spruce as they want at once. But this is by no means a general demand. Quotations, although nominally as follows, would have to be raised considerably to cover some small business done and bid for. Ten and 12 inch dimensions, $18; 9 inch and under, $16; 10 and 12 inch random lengths, 10 feet and up, $17; 2x3, 2x4, 2x5, 2x6, 2x7 and 3 x 4, 10 feet and up, $14.50; all other randoms, 9 inch and under, 10 feet and up, $15.50; 5 inch and up, merchantable boards, $15; matched boards, $17 to $17.50; out spruce boards, $12.50; bundle furring, $14.

Hemlock holds steady, with a small demand and small offerings: Eastern stock boards, $14.50 to $15.50; random, $13.50 to 14.50; Pennsylvania, $16 to $17; boards, rough, $12.50 to $13.50, planed, $14 to $14.50.

Western pine is firm and higher prices are asked both by shippers and on the market here: Uppers, 1 in., $58 to $62; 1¼ to 2 in., $63 to $64; and 4 inch, $68 to $72; selects, 1 to 4 inch, $52 to $64; fine common, 1 to 3 inch, $45 to $60; sheathings, $38 to $54; barn boards, $28 to $30; coffin boards, $24 to $26.

Shingles are easy with most sellers, though some holders still claim a fairly firm market: Extra cedar, $2.75 to $2.80; clear, $2.45 to $2.50; second clear, $1.75 to $2.10; clear white, $1.65 to $1.85; extra No. 1, $1.85; British Columbia, 16-inch, five butts to 2 inches, $3.10 to $3.15; California redwoods, $3 to $3.50.

Laths are quiet: 1⅝-inch, $2.80 to $2.85; 1½-inch, $2.60 to $2.70.

BOSTON, Jan. 7th, 1901.

TO LUMBER MANUFACTURERS.

Blank forms have been sent to lumber manufacturers requesting certain information regarding the lumber trade of 1900, to be used as a guide in the preparation of our annual review to appear in the February LUMBERMAN. It is hoped that every manufacturer will furnish the information asked for. If you have not received a form, please advise us, so that you may be supplied.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JANUARY 16, 1901 No. 51

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

Limits and Saw Mills FOR SALE

The proprietors having decided to retire from this business, offer their Valuable Limits and Mills for sale. The concern is well equipped in every respect and is in operation. The cost of operation is very moderate, having about 30 miles of railway (Lake St. John) running through it. The Mill at Lake Edward is Circular Saw; that at Pearl Lake is Steam Feed Circular and Gang.

The Limits, about 280 miles, have considerable Spruce and Pulp Wood, also Boulean and Birch. These latter have exceptionable quality, and by judges considered the best in the Province of Quebec. For terms, etc., apply to

WHITEHEAD & TURNER,
Quebec City.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

SALE OF SPRUCE LUMBER.

Messrs. Foy, Morgan & Company, London, Eng., held an auction sale of wood goods on January 3rd, at which the following prices were realized for spruce:

Ex Klara, from Dalhousie, N.B.—6-8 ft. 3x9 in. first second and third quality, £8 5s per standard; 6-8 ft. 3x7, £7 15s. Ex Hovding, from Riviere du Loup, Que.—9-22 ft. 2½x7-8 in. unassorted, £7; 9-22 ft. 2½x6, £6 15s; 9-20 ft. 2x8-11, £8 10s; 9-22x7, £7 10s and £7 15s; 9-22 ft. 3x6, £7 5s; 3-8 ft. 3x10-11, £8 15s; 3-4 ft. 3x9, £6 7s 6d; 3-4 ft. 3x8, £6 12s 6d; 3-4 ft. 3x7, £6 2s 6d; 3-8 ft. 2½x6-10, £6 5s; 9-20 ft. 1x9-11, £7 10s; 9-22 ft. 1x8, £7; 12-16 ft. 1x7, £7; 9-24 ft. 1x7, £7; 12-16 ft. 1x6, £6 17s 6d; 9-23 ft. 1x6, £7; 9-24 ft. 1x5, £6; 9-21 ft. 1x4, £6. Ex Forest Holme, from Quebec—9-11 ft. 3x7 in., £5 17s 6d.

Noah Skidmore, lumber dealer, Canaan, N.S., is advertising his property for sale.

CURRENT TRADE CONDITIONS.

ONTARIO.

Recent lumber transactions have been of considerable significance to the trade, as showing that, notwithstanding the slight depression in the British market, Canadian lumber is not likely to be affected. A Montreal shipper has purchased the cut of McLachlan Bros., of Arnprior, most of the stock being intended for the British and United States trade. The stock of pine lumber at Collingwood owned by J. & T. Charlton has been sold to a Tonawanda house, while Pitts & Charlton, whose logs were sawn last season at Victoria Harbor, have sold the entire cut to the Victoria Harbor Lumber Co. for their local trade, at what is reported to be a very satisfactory price. These transactions may be taken as an indication of the course of trade, and in view of the light stocks held at producing points, the feeling is naturally one of confidence. There are, of course, some stocks of moderate size in the Georgian Bay district, but these will mostly be shipped out before the new cut is available for the market. There is quite a boom in red pine, and dealers are showing a desire to make contracts for the coming season.

Comparatively speaking, hardwood stocks are heavier than those of pine, but the feeling in the trade is equally confident. It is believed that the inquiries which are now being received will result in a heavy movement of stock early in the spring, and that prices will be maintained. The fact that the production of hardwood logs this winter will be from 25 to 40 per cent. lighter than last season will be a strong factor in sustaining prices. There is a good demand for hemlock, which is selling around $9 per thousand.

QUEBEC AND NEW BRUNSWICK.

The statement showing the stocks wintering at the port of Quebec always has an effect upon the market. This year the report is favorable, as it is shown that the stocks of both timber and lumber are lighter than one year ago. The comparative figures appear in another column. The decline of the square white pine trade is noticeable. There is now at Quebec only about 1,500,000 cubic feet of square and waney pine, as against 2,200,000 one year ago. Red pine, oak, elm, and ash timber are in lighter supply, while birch shows an increase of about 8,000 cubic feet. The stock of pine deals is nominal, but the quantity of spruce wintering is nearly twice as great as in the fall of 1899, although smaller than in the two previous years. With a little caution on the part of shippers it should be possible to maintain current prices of British stock. The mild weather has improved the demand on local account and from the Eastern States, where business is better than usual at this season of the year.

MANITOBA AND BRITISH COLUMBIA.

Retail dealers in Manitoba and the Territories report a very light demand for lumber. Some finishing material is being called for. Winnipeg architects, however, anticipate a lively building season in the spring, plans for a number of important buildings being already under way. British Columbia lumber manufacturers are finding the market rather quiet. The trade is still in need of vessels, and it is reported that the Italian consul at Vancouver has gone to Italy to arrange for a fleet of Italian ships for use in connection with the British Columbia lumber industry. Several vessels are loading at the Chemainus mills for foreign destinations.

UNITED STATES.

There is a healthy tone to the United States market. The movement, of course, is not heavy, but the number of inquiries for future delivery is almost unprecedented at this season of the year. Prices are firm, especially in the east, where the chief demand is for the better grades of pine suitable for cutting-up purposes. Inch boards of all widths are in demand at Buffalo and Tonawanda, with the supply almost inadequate. Box lumber for the most part is in the hands of the box-makers, who have an average stock of box and mill culls. The condition of trade in the east causes dealers to believe that there will be no difficulty in maintaining present prices and in advancing certain grades which are in light supply. The spruce market is stiffening. Dealers at Tonawanda are getting from $1 to $2 more per thousand than one month ago. The immediate conditions surrounding the hardwood trade are not quite as favorable as in pine, but the outlook is promising. It is expected that higher prices will rule in the near future for black ash, elm and maple, and as a result dealers are endeavoring to increase their whenever possible. There is not much life to the shingle trade. The stock on hand at North Tonawanda is reported to be from 40 to 50 per cent. greater than that held over last winter, but a scarcity of 18 inch white pine is reported.

GREAT BRITAIN.

The British market remains about the same as before the holidays. The consumption of lumber has shown no improvement, and as the course of the market is a question of supply and demand, higher prices are not looked for unless there should be a more active consumption. Very few contracts for first-open-water shipments have been entered into. Canadian stock appears to be holding more firmly than the Baltic production. Pine deals in London are in fair demand on account of the knowledge that stocks are light. In spruce deals the reverse is the case in respect to stocks, but notwithstanding this feature, there has been some recovery in prices of spruce deals and planks; 3 x 9 third spruce is now held at £9 15s and £10 per standard, as against £9 5s a few weeks ago. There is a large supply of 3 x 11 in. in first, second and third quality, and particularly of the New Brunswick production. The importers contend that Canadian shippers will be unable to obtain the high prices which are being asked in some instances.

STOCKS AND PRICES.

W. C. Irvin, of Dundalk, Ont., is putting in a stock of 1,000,000 feet of hardwood and cedar logs this winter.

Kelsey & Gillespie, of Tonawanda, N. Y., are announced to have purchased the season's cut of the J. &. T. Charlton Lumber Company at Collingwood.

An important lumber deal has just been completed by which E. H. Lemay, of Montreal, secures the 1901 cut of white pine of McLachlin Bros., of Arnprior. The bulk of this lumber will be exported to Great Britain and the United States.

Following is a statement of the stocks wintering at the port of Quebec on December 31st for the past two years :

	1899.	1900.	
Square pine	1,147,817	804,417	cub. ft.
Waney pine	1,014,344	506.001	"
Red pine	142,078	85,280	"
Oak	615,520	303,413	"
Elm	100,373	65,311	"
Ash	2,950	2,211	"
Birch	3,331	11,486	"
Pine deals	66,003	15,720	standards
Spruce deals	516,160	504,863	"

THE GLASGOW MARKET.

Messrs. Cant & Kemp, in their last circular, give the following particulars of the Glasgow market :

QUEBEC WHITE PINE WANEY BOARDWOOD.—The import has been very light this year, and has been almost wholly on contract. There has been a moderate demand with firm prices, and old stocks have been almost wholly cleared out, while the stock on hand is only about half as compared with last year. Quotations—Prime wood, 19 to 20 inches average, 2s 10d to 3s second class wood, 1s 10d to 2s 2d per c. ft.

QUEBEC SQUARE WHITE PINE. — The import has been rather heavy, with a very limited demand, with the result that stocks have accumulated. Quotations are, first class, large average, 2s 4d to 2s 7d. Second class, 1s 6d to 1s 11d per c. ft.

QUEBEC RED PINE.—There has been a small import with little demand. First class wood, 50 cube average, is quoted at 1s 10d to 2s. Fair average wood, 1s 5d to 1s 7d per cubic foot.

QUEBEC ELM.— The import has been heavy, and stocks shows a considerable increase on last year's figures. There has been a very fair demand with firm prices. Quotations—3s to 3s 3d per c. ft. for 50 feet average.

QUEBEC OAK.— The import has been light, and excepting the demand from the railroad companies, which has been moderate, little other business has been done. Quotations—2s 9d to 3s 2d for first class parcels, and from 1s 9d to 2s 1d for second class.

BIRCH.—There has been a fair demand during the year, and the stock is light. Present quotations are, 16 in. wood, 1s 5½d to 1s 6d per cubic foot. 14 in. wood, 1s 3½d to 1s 4d.

ASH.—There has been a considerable import during the year, which has consisted chiefly of United States wood. The demand has been very good, and prices have been firm. Quotations are from 2s 3d to 2s 6d per cubic foot for from 13½ to 15 inch average.

QUEBEC WHITE PINE DEALS.— In the early months of the year broad firsts were scarce, but consignments have arrived recently in large quantities. The stock of regulars and undersized has been limited, and they are in good demand. Quotations for broads are from 3s 4d to 3s 8d per cubic foot. Regulars, 3s 2d. Undersized, 2s 6d to 2s 9d. Seconds.— Owing to the small import, little business has been done in this class of goods. Prices are firm and may be quoted at from 2s 6d to 2s 8d per cubic foot for regulars and broads, and from 2s to 2s 2d for undersized. Thirds.— The stock is moderate and prices are firm. Quotations are, regulars and broads, 1s 7d to 1s 10d per cubic foot, and for undersized, 1s 3d to 1s 5d. Fourths.— There is little or no stock of this class, and prices have advanced gradually throughout the year, and they are now firmly held at 1s 4d per cubic foot for regulars and broads.

RED PINE DEALS.—The stock is large, with little business being done, and prices are very firm.

WHITE PINE SIDINGS.— The stock of these is considerable and prices are easier. There has been too many parcels sent forward on consignment.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VI. TORONTO, ONT., JANUARY 23, 1901 No. 52

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The movement of pine lumber is quite as large as could be expected in the month of January. The open winter has made it possible to continue building operations, and the demand thus created has made heavy inroads on the stocks of retailers. It is expected that retail dealers may find it necessary to replennish broken stocks almost immediately, and that they will enter the market for liberal buying early in the spring. Considerable rail shipments are being made to the Eastern States, where wholesale stocks are light. Some sales of deals have been made by Georgian Bay manufacturers, and the usual quantity is likely to find a market in Great Britain this year. The cuts of the Ottawa Valley mills have mostly been contracted for, and we are advised of the sale of a large cut of spruce at an advance of $1.25 per thousand over the figures paid for similar stock last year. The hardwood demand is still a little backward, although manufacturers are not weakening, but believe that all the available stock will find a market during the year at good prices. There is practically no movement of 16 inch pine shingle, and it is understood that some manufacturers have a considerable stock of these on hand.

The production of logs this winter is almost certain to be lighter than last season, owing to unfavorable logging weather in some districts and the scarcity of men early in the season.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber has improved during the past week. A more hopeful feeling prevails in respect to the British trade, and it is thought that in the near future shippers will be able to close their usual contracts at about the same figures as last year. The demand from the United States is showing more activity. Spruce dimension, 10 and 12 inch is quoted at $18 on Boston rate of freight and 9 inch and under at $16. Shingles are firmer at $2.75 for extra cedar, $2.50 for clear, $2.00 to $2.10 for second clear, $2.00 for clear white, and $1.85 for No. 1 extra. Laths are quoted at $2.80 to $2.85 for 1⅝ inch, and $2.60 to $2.70 for 1½ inch.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber throughout Manitoba and the Territories is quiet, with prices unchanged, but the trade are looking forward to an active demand as soon as spring opens. In some districts logging operations have been retarded by lack of snow, but the situation is now more favorable. A moderate demand for lumber is reported by British Columbia manufacturers. The statistics of the export trade show that the year 1900 was a very satisfactory one, the shipments exceeding the previous year.

UNITED STATES.

Important statistics have been compiled of the lumber production in the Michigan, Wisconsin and Minnesota districts. Last year the total cut of pine in these districts was 5,485,261,000 feet, as against 6,056,000,000 feet in 1899. The stock on hand at the mills on December 31st last was 2,839,705,000 feet, as against 2,728,271,000 at the same date in 1899. The output of hemlock last year was 1,166,284,000 feet, showing an increase of 297,874,000 feet. The stock of hemlock on hand, however, increased in still greater proportion, being 287,920,000 feet on December 1, 1899, and 622,312,000 on December 1 last. From a statistical standpoint, therefore, the lumber market cannot be said to be particularly strong, but there are other features, such as the light stocks held by dealers and the promising outlook for building operations, which it is thought offset this condition. During the past week the railroads have placed orders freely, and there has been a demand for building lumber much in excess of what is usual at this season of the year. Action has been taken in some instances towards higher prices. A 50 cent advance on hemlock boards has been made, and a new yellow pine list adopted by manufacturers making an average advance of about one dollar per thousand. At Pittsburg a new price list on pine went into effect on January 15th, advancing prices from 50 cents to $1.50.

Some improvement in hardwood prices is reported. At Boston 1 inch maple is quoted at $27 to $28 and 1¼ to 2 inch at $29 to $31. Basswood is in good demand and brings $31 for 1 inch No. 1 and 2. An element in the hardwood situation is the restricted operations in Wisconsin, where practically no oak is being put in. This is apparently the cause of the slump in hemlock values, as a large proportion of the Wisconsin hardwood log crop comes out with the hemlock, and consequently the restriction of the one means restriction of the other. Hemlock logs are selling there at $3.25, while one year ago as high as $6.50 was paid.

GREAT BRITAIN.

The reports from the British market are of a more cheerful tone. Market values, although practicaliy unchanged, seem to have reached bottom, and the prices realized at recent auction sales indicate that higher prices will rule. At a sale held by Churchill & Sim last week nearly 100,000 pieces of spruce deals and battens were disposed of at very fair figures. The 3-inch spruce from Dalhouse, N.B., sold at £8 per standard, an advance of 5 shillings over previous sales. Second quality 3 x 11 Quebec spruce brought £10 15s, and third quality £9 12s 6d. For a line of 2½ x 7 inch first, second and third quality St. John spruce, only £7 5s was realized. The Quebec pine sold well, first quality 3 x 11 bringing £27 and 3 x 9 £20 10s. Quebec red pine battens were rather weak, but on the whole the result of the sale was considered most satisfactory. In another column particulars of the Glasgow market are given. It is understood that some sales of pine have been made at high prices, and that the stock of these in first hands is low. Importers have not yet commenced to buy with any freedom.

STOCKS AND PRICES.

Michigan lumbermen are paying $6 per thousand feet for maple logs.

The Ottawa Lumber Company recently sold 100,000 feet of hemlock lumber for local delivery.

Sutherland & Bailie have moved their mill to Westchester, N.S., where they will cut 1,000,000 feet of lumber.

According to report the lumber cut this winter on the Sissiboo river in Nova Scotia will be the largest known for several years.

The city of St. John, N.B., is about to invite tenders for the supply of 1,600 tons of hemlock timber for wharf construction.

A. B. Calhoun, of Calhoun's Mills, Westmoreland county, N.B., will get out about 2,000,000 feet of logs at Beaver Brock, Albert county.

The steamer Truna is loading lumber at St. John, N. B., for the Canary Islands and Ireland, the shippers being A. Cushing & Company.

Henry Boone, of Rowena, Victoria county, N.B., has been given a contract to supply a Sydney building firm with 5,000,000 feet of lumber, to be delivered in two years.

A. L. Wright & Co., of Salisbury, N. B., are getting out several million feet of logs on the Little River for their Coverdale mills. Humphrey & Trites, of Petitcodiac, are logging extensively on the North river.

It has been estimated that the stock of lumber in wholesale yards at Albany, N. Y., is 60,000,000 feet, composed of 45,000,000 feet of pine and 15,000,000 feet of spruce. One year ago the stock was 70,000,000 feet.

W. J. Trenouth & Bro., of Powassan, Ont., have two logging camps in operation this season, but their cut is likely to be about 5,000 pieces less than last winter, owing to the scarcity of men in the early fall and too much snow.

The steamer Caithness was loading 3,000,000 feet of lumber at Everett, Wash.,

when the wharf collapsed, and 700,000 feet of lumber was launched into the water. She is now loading 1,000,000 feet at the Moodyville mills, Vancouver, B. C., to complete her cargo.

The Bonfield Lumber Company, of Bonfield, Ont., whose announcement appears in this issue, expect to have their mill in operation next month, when they will be open to contract to cut bills of hemlock on short notice. There is a large quantity of hemlock in the vicinity.

A British firm of timber merchants write us that they are desirous of securing importations of spruce and red and white pine from Canada, and are anxious to negotiate with reliable shippers who are willing to quote c.i.f. Newcastle-on-Tyne. The name and address of the firm may be obtained at this office.

The Ottawa Lumber Co., of Ottawa, closed a contract last week for the sale of all the spruce to be cut this year at their Rouge mill, the greater portion of which will be shipped to the British market. The purchasers were the firm who secured their cut last year, and it is said that the price was $1.25 per thousand in advance. The quantity will be from four to six million feet, which will be cut largely into three inch deals.

THE GLASGOW TRADE.

Reviewing the timber trade of 1900, F. A. Lightbody & Company, of Glasgow, say: In making our annual report of the timber trade for 1900 we have to chronicle a very satisfactory year's trading both with regard to the volume of business done and the maintenance of high values.

At the close of 1899 the stocks were considerably below the average, and the activity of all branches of trade helped to keep up the advance in prices which had been established all-round. This applies to all Canadian wood goods with perhaps the exception of birch logs. This advance in prices has been maintained throughout the whole year, which closes with stocks firmly held. The stocks of Canadian pine of both timber and deals are in a position which warrants holders taking up a firm attitude in regard to value.

The shipbuilders' out-turn for 1900 is a record for Scotland, amounting to 541,031 tons, as compared with 536,872 tons in 1899. The new work secured by Scotch builders amounts to about half a million tons, and this ensures activity in this important industry for the whole of the coming year. The house building trade the past year has been very brisk and the outlook for 1901 is good.

Railway, carriage and wagon builders have also been very busy and have accounted for a large quantity of American oak being used.

The imports from Montreal and Quebec during the season in pine and spruce have been very much less than for the last number of years, and consequently prices have been very firmly maintained.

The outlook for 1901 in all branches of trade—shipbuilders, house builders and all branches where wood goods are used—is extremely bright, and prices are sure to rule about the present high rates all through the year.

Following are the current prices at Glasgow:—

WHITE PINE DEALS, 3 INCHES THICK.

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JANUARY 30, 1901 No. 1

ANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade for the month of January has been of satisfactory volume. While it could not be called active, the demand has been sufficient to call for a considerable quantity of lumber, and to indicate that the stocks of retail dealers and consumers have become somewhat depleted. The prospect is that there will be a liberal spring trade. The figures regarding the production and stock of pine lumber submitted at the annual meeting of the Ontario Lumbermen's Association, and published in the report thereof, are of peculiar interest to the trade. The total production in the Georgian Bay district last year was 476,000,000 feet, an increase of 125,000,000 feet over the previous year. The stock on hand December 31st last was 216,000,000 feet, as against 120,000,000 feet one year ago. Of this stock 92,000,000 feet had already been contracted for, leaving but 124,000,000 feet of unsold lumber at the mills. This is less than the increased production of 1900, and indicates the extent of the demand during last year. When it is considered that at the close of 1896 the stock of lumber at Georgian Bay mills was over 400,000,000 feet, it will readily be seen that the present supply is not large. The decreased production in Michigan is also a factor to be reckoned with. The estimated production of pine lumber in the Georgian Bay district this year is 500,000,000 feet, but in the Ottawa valley a decreased cut is looked for. Operations in hardwoods are on a very limited scale. The statement was made at the meeting in Toronto that the output this season would not exceed one-half that of last year. Some manufacturers are taking out no hardwood logs this winter. The production of hemlock will also be curtailed. The above facts lead to the conclusion that the lumber market is in a healthy condition, and that the demand is likely to be sufficient to consume the entire supply.

QUEBEC AND NEW BRUNSWICK.

The situation in respect to export trad has not changed, and as far as can be learned the shippers on this side have purchased a much smaller quantity of stock than usual, as they have been unable to close contracts with British importers. The local demand is a little more active, as dealers are commencing to stock up for the spring trade. The reconstruction of burned buildings in Montreal will call for a considerable quantity of lumber. Cedar shingles are firm, but the demand is light. Stocks are small, and with a more active demand prices would be likely to advance. Extra cedars are quoted, on Boston rate of freight, at $2.75 to $2.80, clear at $2.50 to $2.60, and second clear at $2.00 to $2.10.

GREAT BRITAIN.

The position of the British market is practically unchanged. Importers are still holding off, and the opinion seems to be that the prices which shippers are asking are higher than the conditions of trade will warrant. The consumption of lumber is of average volume, and the outlook for the year is on a satisfactory character, but the tendency of prices seems to be downward, particularly for the smaller sizes. Spruce deals in 11-inch widths are in good demand, but this is not the case with the narrow widths. One report states that within the next two months the price of battens, of which there is a large stock, is likely to decline from ten to twenty shillings per standard. At a recent London sale third quality Quebec spruce, 3 x 9-11 inch, sold at £9 15s per standard, and 2 x 9-12 inch at £12 6s.

UNITED STATES.

The developments in the United States lumber market during the past week have been of a decidedly favorable character. Eastern dealers visited producing points and made considerable purchases of lumber for shipment when navigation opens. The opinion is that while lumber prices may not advance to any extent, there is not likely to be any weakening. The stocks of pine lumber at Tonawanda show a decrease of 20 per cent. as compared with those of one year ago. The eastern trade seems to be quite promising, a heavy demand for building material being looked for. At Buffalo there is a scarcity of the higher grades of pine and of 10 and 12 inch boards in almost all grades. The demand for hardwoods is more encouraging. White ash is being purchased by agricultural implement manufacturers, there is a better condition in the maple trade, and basswood appears to be gaining strength. It is expected that with a larger demand prices will stiffen. Shingles and lath are strong, with a fair demand. It has been predicted that lath prices will be very much higher within the next ninety days.

Water Power for Sale.

The Falls of St. Anne, within 24 miles of City of Quebec, and within a very short distance of the railway there and the famous shrine of Ste. Anne de Beaupre.

Height of fall 194 feet, and estimated to give a minimum of 3,000 horse power.

For particulars apply to

H. M. PRICE & CO.,
Quebec, Canada.

The ship Alsterthal sailed from Moodyville last week for Valparaiso, Chili, with 1,467,071 feet of rough lumber, valued at $14,000.

The bark Brookside sailed from Digby, N. S., on January 31st for Buenus Ayres, with 700,000 feet of lumber, shipped by Harry Crowe, of Bridgetown. The bark Ethel Clarke sailed from same port for Cuba, with lumber shipped by Clarke Bros.

At an auction sale held by Foy, Morgan & Company, London, England, on January 16th, birch timber from Montreal sold at the following prices: 8 logs, 18 to 23 inch, 10 to 15 feet long, 80s per load of 50 cubic feet; 60 logs, 18 to 23 inch, 10 to 17 feet, 80s; 7 logs, 19 to 28 in., 10 to 15 ft. long, 87s 6d; 16 logs, 15¼-19 in., 9 to 15 ft., 70s; 16 logs, 15½-20½ in., 10-16 ft., 72s 6d; 16 logs, 15½-23 in., 11 to 14 ft., 72s 6d.

FOR SALE! FREEHOLD PULP WOOD LANDS AND TIMBER LIMITS

About 85,000 acres of Freehold Lands, all within 50 miles and west of the City of Quebec, along the lines of the Grand Trunk and Intercolonial Railways.

All pulp wood can also be delivered by rail or driven by water to the River St. Lawrence and shipped thence by boat.

These lands are most favorably situated as regards low rates or railway freight to all points reached by above mentioned railways and their connections.

Also 217 square miles of limits on the North Shore of the River St. Lawrence, below Quebec, and 155 square miles, the logs on which latter limits would go to the Bay des Chaleurs by the Restigouche River.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., FEBRUARY 6, 1901 No. 2

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions or one year, $1.00.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

BOX SHOOKS AND HANDLE STOCK WANTED.

A British firm desire to communicate with reliable Canadian manufacturers of pine and spruce box shooks and handle stock for brooms, axes, and like tools. The name of the firm may be obtained by communicating with this office.

TIMBER BERTHS FOR SALE.

The Department of Crown Lands of Ontario is calliug for tenders up to March 15th for some timber berths in Northern Ontario. The property offered includes three forfeited berths, situated in the Townships of Digby, Sherbourne, and Utterworth, and a berth on the Ottawa river, containing 24 miles. There will also be offered timber in a part of the Township of Graham, and all of Cartier, Hart and Levack.

Water Power for Sale.

The Falls of St. Anne, within 24 miles of City of Quebec, and within a very short distance of the railway there and the famous shrine of Ste. Anne de Beaupre.

Height of fall 194 feet, and estimated to give a minimum of 3,000 horse power.

For particulars apply to

H. M. PRICE & CO.,
Quebec, Canada.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade has shown more activity during the past week. Manufacturers are being urged to ship stock that was contracted for some time ago, but which has remained in their yards awaiting shipping orders. Retail dealers are stocking up to some extent, evidently in anticipation of a good local demand for building material as soon as weather conditions become favorable for outside work. Bridge timber is also more enquired for. While from point of demand the pine market is not particularly strong, manufacturers are so united in favor of maintaining prices that buyers have little hope of being able to effect purchases at lower figures; consequently orders for spring delivery are expected to be placed earlier than usual. An increased number of enquiries for basswood lumber is the only change in the hardwood situation. Orders are still light, while manufacturers are holding their stock firmly.

The reports from the woods are generally favorable. In some sections where deep snow and changeable weather had interferred with operations, the conditions are now more favorable, and an average input of logs is expected.

QUEBEC AND NEW BRUNSWICK.

The comparatively small stock of spruce deals wintering at the port of Quebec has been of much assistance in effecting sales for the 1901 production. It is understood that the Quebec shippers have made considerable purchases, and that the prices realized by the manufacturers have been very satisfactory, in some instances a substantial advance over those of one year ago. It seems to be the opinion that the production of deals in the province of Quebec will be somewhat curtailed this year, owing to the increased output of spruce logs for pulp wood and the possibility of a greater production of lumber for the United States market. In New Brunswick and Nova Scotia the weather has been favorable for logging operations, and operators expect to be able to get out their estimated cut. The demand from the United States is quiet, but the number of inquiries for stock is increasing. Cedar shingles are selling at the following prices on Boston rate of freight: Extra cedar, $2.75 to $2.80; clears, $2.50 to $2.60; second clears, $2.00 to $2.10; clear white, $2.00; extra No. 1, $1.85.

MANITOBA AND BRITISH COLUMBIA.

The winter has been very favorable for logging operations in the Rainy River district, and the manufacturers there who supply the Manitoba market are anticipating a good demand for lumber in the spring. At the present time trade is quiet, and the chief interest is centred in the forthcoming meeting of the Western Retail Lumbermen's Association. The shingle manufacturers of British Columbia expect by the recent arrangement to be able to better regulate the supply according to the requirements of the market, and thus prevent cutting of prices. Export business is quite active.

UNITED STATES.

There have been indications during the past week that spring trade is beginning. Manufacturers on the upper lakes report a number of sales to eastern dealers, the stock to be shipped immediately upon the opening of navigation. Prices in the Duluth market are especially firm on No. 1, 2, and 3 common boards, but No. 4 and 5 boards are slightly weaker. Piece stuff is strong. Inch Norway is not showing the strength which characterizes the rest of the market. Buffalo and Tonawanda reports a fair movement of pine, although there has been some cutting of prices on the coarser grades, especially box and No. 2 and 3 barn. The higher grades are firm and showing an upward tendency. Hardwoods have not yet commenced to move actively. Some of the southern woods seem to be called for to a greater extent than birch, maple, elm and other northern woods. The exception to this is basswood, which is showing much strength and which promises to be in excellent demand this year. Rock elm is also showing a degree of strength, and white ash is being held by some dealers for higher prices. Lath and shingles are firm. The best quality of white pine shingles is selling in the Albany market at $4.25 to $4.50, and clear butts at $3.25 to $3 50.

GREAT BRITAIN.

The British lumber market is showing signs of improvement. Sales have been made of third quality Quebec spruce deals at £8 5s, delivered at London. This is an advance of three shillings over the price of one year ago, and indicates the strong position which Canadian deals occupy in the British market. Now that the long spell of delay in purchasing has been broken, it is expected that a much greater disposition to contract will be shown. Prices at recent sales have been satisfactory, 3x11 spruce making £10 15s per standard. The consumption in London is improving, and there is a fairly active demand for the larger sizes of pine deals.

STOCKS AND PRICES.

The bark Swansea sailed last week from St. John, N. B., with lumber for Buenos Ayres.

The Murphy Lumber Co., of Marinette, Wis., recently sold 4,000,000 feet of lumber to Buffalo parties.

The town council of Port Hope, Ont., will receive tenders up to March 1st for the supply of 60,000 feet of pine and cedar scantling and plank.

Pine deals brought the following prices at an auction sale held by Churchill & Sim, London, Eng., on January 23rd: 13 ft. 3x9 in. second quality, £14 15s and £15; 12-14 ft. 3x10, £16; 13 ft. 3x8, £12 15s and £13; 12 ft. 3x8, £13; 13 ft. 3x7, £12 15s; 12-14 ft. 3x7, £13; 12-14 ft. 3x6, £11 15s; 12-14 ft. 3x5, £11 10s; 10-11 ft. 3x9, £14 15s; 10-11 ft. 3x8, £11 10s; 10-11 ft. 3x7, £11 10s; 9-11 ft. 3x5-11, £10 10s; 6-13 ft. 2x5-7, £10 5s.

The following prices were obtained for spruce deals from Bic, Que., at a recent auction sale held in London, Eng.: 10-16

ft. 3x10-11 in. first quality, £13 15s; 9-17 ft. 3x9 in., £12 5s; 9-16 ft. 3x6 in., £10 15s; 10-17 ft. 3x7, £10 10s; 11-17 ft. 3x11 in. second quality, £10 5s; 9-16 ft. 3x10 in., £10; 15-17 ft. 3x9 in., £9 15s; 14 ft. 3x9 in., £10; 12 ft. 3x9, £10; 9-11 ft. 3x9, £9 15s; 12-14 ft. 3x8 in., £10 and £8 15s; 12-14 ft. 3x7, £8 10s; 9-17 ft. 3x7, £8 5s; 12-16 ft. 3x11 in. third quality, £9 10s; 6-14 ft. 3x7-9 in., £8 5s; 6-8 ft. 3x9-11 in., fifth quality, £7 5s. Some ash timber from Quebec sold at 67s 6d per load of 50 cubic feet.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

FOR SALE! FREEHOLD PULP WOOD LANDS AND TIMBER LIMITS

About 85,000 acres of Freehold Lands, all within 50 miles and west of the City of Quebec, along the lines of the Grand Trunk and Intercolonial Railways.

All pulp wood can also be delivered by rail or driven by water to the River St. Lawrence and shipped thence by boat.

These lands are most favorably situated as regards low rates or railway freight to all points reached by above mentioned railways and their connections.

Also 217 square miles of limits on the North Shore of the River St. Lawrence, below Quebec, and 155 square miles, the logs on which latter limits would go to the Bay des Chaleurs by the Restigouche River.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPE REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., FEBRUARY 13, 1901 3

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

WANTED AND FOR SALE

WANTED—HEAD SAWYER, IMMEDIATELY, to take full charge of Sawmill. To competent man 6 months engagement. State wages expected. M. M. SUNDY, Winger, Ont.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FRASER RIVER LUMBER COMPANY.

The Fraser River Lumber Company have just completed their extensive shingle mills at New Westminster, B. C., the capacity of which is 150,000 shingles per day of ten hours. They are now in a position to supply all dealers who may require British Columbia red cedar shingles. The president of this company is Mr. James Sharpe, of Burk's Falls, Ont., who has been connected with the lumber, shingle and mercantile business for a number of years, and who is well known throughout Ontario, having sat in Parliament with Sir Oliver Mowat. The manager, Mr. Thomas B. Tait, has had twenty-five years' experience as a manufacturer of and dealer in shingles in eastern Canada, doing a large business in both the Canadian and United States markets. The direction of the business of this company being in the hands of these gentlemen should be a sufficient guarantee to dealers that they will at all times be supplied with a first-class quality of shingles, and that they will receive fair treatment. The announcement of the company will be found on another page.

Water Power for Sale.

The Falls of St. Anne, within 24 miles of City of Quebec, and within a very short distance of the railway there and the famous shrine of Ste. Anne de Beaupre.

Height of fall 194 feet, and estimated to give a minimum of 3,000 horse power.

For particulars apply to

H. M. PRICE & CO.,
Quebec, Canada.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is almost impossible to find a manufacturer who has not implicit confidence in the future of white pine prices. It is this confidence, rather than any exceptional demand, which is giving the present firm tone to the market. There is an average volume of stock moving, but the quantity is not abnormal. Reports from the Ottawa valley state that stocks at mill points are practically all sold, and that prices cannot be otherwise than steady. There is a marked scarcity of the smaller dimensions, such as 2x4 and 2x6, which have advanced in price from 50 cents to one dollar per thousand; 3x12 common is also strong. Hardwoods are moving more freely, with an urgent demand for basswood and black ash. The stock of both these varieties has become almost exhausted, and higher prices are likely to rule before the new cut is ready for the market. A light stock of hardwood logs is being taken out this winter, and the quantity manufactured this season is certain to be much less than last year.

The lath market has been steadily gaining strength, until now $2.75 is being asked at the mills for No. 1. The bulk of the supply has passed out of the hands of manufacturers, and is likely to be so controlled as to bring still higher prices before spring. Shingles are also showing a tendency to advance in price, with quotations somewhat varied.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is showing some improvement. Random lengths are not as firm as the regular sizes, but there has been no material decline in price. On the other hand, deals of wide sizes are particularly strong and meet with ready sale. The hemlock market is firm and stocks light.

New Brunswick cedar shingles are experiencing a fair demand for midwinter, and stocks in the hands of manufacturers are not large. The winter production this year has not been nearly as large as last season, and stocks, especially of the better grades, instead of accumulating since last fall, have been steadily decreasing, the winter demand having exceeded the output. The result, it is thought, will be seen when spring trade opens in a marked advance in prices. This opinion is so general as to establish a remarkably firm market for this season of the year. On Boston rate of freight the quotations are: Extras, $2 85 to $3; clears, $2.60 to $2 65; second clears, $2.-2.10 to $2.25; extra No. 1, $1.60 to $1.85; clear whites, $2 to $2.25. There is no doubt but that an occasional commission house is shading these figures about ten cents per thousand, their action being the result of the ignorance of some small shipper as to actual conditions. The larger producers are firm in their convictions that shingles will bring more money before May, $3 15 to $3 25 for extras being predicted.

UNITED STATES.

The white pine lumber market of the United States is showing evidences of spring buying. A large number of dealers from the east and Chicago visited Duluth last week and effected considerable purchases. Notwithstanding the opinion previously expressed, that white pine prices would not be advanced, it is said to be the purpose of the Mississippi Valley Lumbermen's Association to revise the entire list at its meeting to be held next week. In the east there is an improved demand for box lumber. Ten-inch pine box is selling in Buffalo at $18. A scarcity of all cutting-up grades is reported from Buffalo and Tonawanda, while in the latter market numerous orders have been placed for pine for shipment to Great Britain. Spruce lumber is strong and dry stock getting scarcer. The demand for hardwoods is still light, but as the stock on hand is not heavy there is a disposition to stock up for a marked revival in trade early in the spring. Basswood and ash are particularly firm. There is an unusually good demand for shingles and lath. A fair supply of red cedars has prevented a famine in shingles which it is thought would otherwise have occurred. Red cedars are selling in Buffalo at from 25 to 50 cents less than the corresponding grades of white pine. A Detroit firm is said to have cornered the lath market at the upper lake mills, and it is believed that a decided advance in lath will be witnessed in the near future.

GREAT BRITAIN.

A representative of a British timber journal is now in Sweden, and reports that the lumber market there is, contrary to expectations, very firm. Deals are particularly strong, and sales are being made at an advance over last year's prices, while almost all the large shippers have sold more than one-third of their estimated production this year. This information has given strength to the British market and courage to buyers, and the outlook is more favorable than it was one month ago. Pine deals are quoted at £26 to £30 for first quality, and £20 to £22 pounds for second quality. Quebec spruce ranges from £8 to £10. Contracts have been entered into for 3x9 second quality at £8 15s; 3x11, £10 5s; and 3x11 thirds at £9 10s, c.i.f. London. At a recent auction sale 3x11 first quality pine brought £23 10s to £25, seconds selling at £16 10s. These prices, however, are lower than ruling quotations for good specifications. The timber market is a little more active. Waney pine is selling at 2s 10d to 3s 1d per cubic foot for 19 to 20 inch average; red pine, 21s to 21s 3d for 45 to 50 feet average; elm, 2s 11d to 3s 3d for 45 to 50 feet average; ash, 2s 4d to 2s 7d for 13 to 15 inch. Sales of birch have recently been made at 1s 6d to 1s 7d for an average of 16 inch, while birch planks from St. John have sold at £9 per standard.

It is learned that Mr. George Halley Thomson and Mr. Alfred W. Dunn have been assumed as partners in the old established firm of Singleton, Dunn & Co., timber brokers, Glasgow, Scotland. It is over 20 years since Mr. Thomson entered the service of the firm, and Mr. A. W. Dunn, who is a son of the senior, has been connected with the business for over eight years.

The Tracadie Lumber Company, of Tracadie, N. B., expect to get out this winter 11,000,000 feet of logs, mostly pine, with a little spruce and hemlock.

It is estimated that in the Pembroke district there will be taken out this winter 109,000,000 ft. b.m. of logs and dimension timber, chiefly pine. There will also be taken out a large quantity of ties and telegraph poles, about 900,000, lineal feet of cedar, and about 725,000 cubic feet of square and waney timber.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPE REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., FEBRUARY 20, 1901 No. 4

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

☞ Subscription price for the two editions or one year, $1.00.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

WANTED

GREEN HARD MAPLE SQUARES, 6½x6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address Box 40, CANADA LUMBERMAN.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

WANTED.

A MARKET FOR A FEW CARS OF SPRUCE Pulp Wood. Address Box 10, CANADA LUMBERMAN, Toronto.

WANTED—Position as Manager or Superintendent of Construction of new mill. Highest reference as to experience and ability. Address "LUMBERMAN," P. O. Box 497, Ottawa, Canada.

WANTED—HEAD SAWYER, IMMEDIATELY, to take full charge of Sawmill. To competent man 6 months engagement. State wages expected. M. M. SUNDY, Winger, Ont.

WANTED FOR BRITISH COLUMBIA

A MAN WHO UNDERSTANDS BUILDING and Carpenter Work. One who can run Sash and Door Factory preferred. Address, stating terms, experience, &c., LEQUIME & POWERS, Midway, B.C.

CURRENT TRADE CONDITIONS.

ONTARIO.

The quantity of lumber which has been sold since the closing down of the mills has made large inroads upon the stocks in pile, and has brightened the outlook for spring trade. At the Georgian Bay mills the stock of unsold lumber is comparatively small, and with an active spring demand the entire supply would soon be cleaned up. Some manufacturers report an increased demand for mill culls, and sales are reported to have been made at $12 at the mill. The position of the pine market generally is regarded as firm, with the prospect of an advance in certain grades which are in light supply. A good car trade is being done from some of the mills. A strong demand has arisen for hemlock, which is expected to sell at higher prices this year. The supply of dry stock is practically exhausted, and a shortage in the log output is expected. Hardwoods are fairly active, although consumers are not purchasing with much liberality, apparently believing that prices will not advance. Nevertheless, the bulk of the hardwood lumber is in the hands of parties who will strongly oppose any decline in values, particularly as present prices do not represent more than a fair margin of profit. An increased number of inquiries is reported for shingles and lath. A Detroit party is announced to have purchased 35,000,000 lath in Detroit, Ashland, Duluth, Midland, Ont., and other lake ports, with the object of securing a corner in that product. In Toronto No. 1 lath is selling at $3.25 wholesale, and No. 2 at $2.50.

QUEBEC AND NEW BRUNSWICK.

Although the demand for lumber from builders is small, the outlook is somewhat encouraging. Shippers on this side have received more hopeful news from their representatives in England regarding the condition of the British market, and it seems probable that there will be an average consumption of Canadian spruce. The Quebec spruce is expected to bring prices equally as high as one year ago, but on the Maritime province production some shading is being done, equal, perhaps, to one dollar per thousand. Although the freight market has not declined to the extent that was expected, chartering is quite active. A number of vessels have already been engaged to load lumber at St. John, while it is announced that twenty-three vessels are under charter to load at Halifax for the United Kingdom in May. There is a particularly good demand at the present time for South American specifications, which command high prices. The United States market is steadily improving and prices are firmer. The best quality of cedar shingles are selling in small lots at $2.85, but sales are reported slightly below this figure.

The estimates which have been made indicate that the cut of logs this year in New Brunswick will be considerably less than last year. The St. John river will produce about the same quantity, but on the Miramichi and Restigouche rivers it is estimated that the quantity will be little more than one-half that of last year.

UNITED STATES.

Recent snow storms have somewhat checked the demand for lumber in certain sections of the United States, but the purchases by dealers have been sufficiently numerous to add to the confidence which has been exhibited by the trade for some time past. At Duluth and Ashland a number of important sales have been made at top prices, Chicago and eastern dealers being the principal buyers. At Chicago and Minneapolis there is a shortage of No. 1, 2, and 3 boards, as well as some lines of dimension stuff, while the stocks there generally are by no means large. Advice has been received that some manufacturers have marked up their stock fully one dollar per thousand. In the east, particularly Buffalo and Tonawanda, higher prices are being asked for No. 1 cuts and better and barn boards, while 10 inch pine box is selling at $18, 8 inch at $17, and 6 inch at $16.50. Mill culls are held at $15.

Maple and basswood are the strong features of the hardwood trade, which is not showing an improvement corresponding to that of pine and spruce. Inch maple is selling in Buffalo at $22, and seems to be much scarcer than the thick sizes. The opinion there is that the supply of hardwood by lake this season will be less than in late years. Rock elm is a little stronger, selling at $21 to $23, and some dealers are asking an advance of one dollar over our quotations on white ash, but we do not think that the bulk of sales are being made above $34 for 1¼ to 2 inch and $36 for 2½ to 4 inch.

GREAT BRITAIN.

Representatives of Canadian shippers are now canvassing the British market, and are reported to have been successful in effecting considerable sales. The uncertainty which existed among buyers as to the future stability of the market has given place to more general confidence. Considerable sales of spruce are announced to have been made to Spain. The chief buying in Great Britain up to present time has been by London houses, and transactions have usually been for deal specifications, the narrower widths being somewhat neglected. At a recent sale held by Churchill & Sim, London, 3x11 first quality pine bought £28 5s per standard, second quality £19 15s, and third quality £11 15s. Spruce brought £12 5s to £12 15s 3x9 for firsts, £10 5s for seconds, £9 10s for thirds, and £8 5s for fourths. Birch timber sold well, showing an upward tendency. Quebec rock elm also made fair prices. In Glasgow some sales of Quebec ash have recently been made at high prices, and the stock of that timber is becoming small.

THE WHITE PINE SITUATION.

A careful review of the conditions surrounding the white pine lumber market leads to the conclusion that the situation as a whole is particularly strong and singularly free from any disturbing elements. The building outlook throughout Canada and the United States is promising, the agricultural community is enjoying a fair measure of prosperity, the steel and iron industry is in a prosperous condition, and manufacturing industries generally are operating to their full capacity. These conditions are favorable to an active consumption of white pine lumber.

From a statistical standpoint the pine market is strong. There is but a small stock of unsold lumber at the Ottawa valley mills, while the bulk of the production of the coming season has already been contracted for. In the Georgian Bay district the stock is equally light and much less than at the corresponding period for the past few years. A gentleman who towards the close of the sawing season visited all

the lake mills, is authority for the statement that the stock of merchantable lumber at Cutler, Blind River, John's Island, Little Current, French River, Midland, Collingwood, and including the Parry Sound Lumber Company's stock at Parry Sound, did not exceed 40,000,000 feet, and since that time about 20,000,000 feet of this stock has been sold, 'eaving but 20,000,000 feet of the stock then on hand still unsold. Late sawing operations would, of course, increase the quantity of unsold lumber to some extent, but would still leave the total quantity comparatively small. This estimate, it should be stated, did not include certain stocks at Victoria Harbor and Waubaushene, which are almost wholly shipped by rail.

On December 31st last the stock of white pine lumber at the mills in Michigan, Wisconsin aud Minnesota was 2,850,000,000 feet, which is slightly heavier than last year but much less than in the years 1894, 1895, 1896 and 1897, when the stock was about 4,000,000,000 feet. It is estimated that there will be required for consumption this year in the United States five and one-half billion feet of white pine, with a stock at the beginning of the year of one-half that amount.

Another factor which must be considered is the annual decrease in the quantity of white pine lumber manufactured in the United States. From over 8,500,000,000 feet in 1890, the product has declined to less than 5,500,000,000 feet last year. The Chicago district, including both shores of Lake Michigan and the upper peninsula of Michigan, has decreased from a maximum of nearly 2,500,000,000 feet to a little over 1,000,000,000 feet.

Although the winter thus has been favorable for logging in Ontario, the output of white pine is not likely to be excessive. An estimate made a short time ago placed the output of the Georgian Bay and northern districts at 500,000,000 feet, but this quantity seems likely to be reduced on account of the prevalence of smallpox in some of the lumbering camps. Orders have been issued directing that all the men in camps in certain districts shall be vaccinated. This may bring about a cessation of work for a time and a consequent falling off in the production of logs.

The stocks of lumber at Buffalo, Tonawanda, Albany and other eastern markets are not large, while retail dealers are carrying light stocks. British enquiries are coming in more freely, and altogether, there seems reason to expect that the white pine market will gain in strength as the active building season approaches, with prospects for a year characterized by a large demand and satisfactory conditions.

STOCKS AND PRICES.

Reid & Co., of Toronto, are in the market for 4x4 cedar scantling.

The city of Brockville, Ont., is about to invite tenders for supply of lumber.

The steamer Briardene is loading deals at Halifax, N. S., for the United Kingdom.

Tenders for the supply of lumber for the city of Kingston will be asked for immediately.

F. Carter, of Paisley, Ont., is paying $13 per thousand for maple logs delivered at his mill.

The contract for building a breakwater at Summerside, P.E.I., to cost $55,000, has been given to McDonald & Moffatt.

The Dominion government is calling for tenders for the construction of a large wharf at Cole's Point, N. B., which will require a large quantity of timber.

The Huntsville Lumber Company are reported to have purchased timber berth No. 1, in the township of Sinclair, containing 17 square miles, from the Robert Thomson estate.

A. F. Fawcett is under contract to supply 2,000,000 feet of spruce logs for Donald Fraser & Co., of Cabano, Que. He is logging on the Horton branch of the Tamiscouata river, and expects to complete his contract about the end of March.

D. E. Sprague, of Winnipeg, expects to float 8,000,000 feet of logs down the Roseau and Red rivers this spring. Last year a considerable quantity of the cut was hung up owing to dry weather.

During last year Charles J. Willis & Company, of Sackville, N. B., shipped for Curwen & Company, of Liverpool, England, 16,998,431 feet of lumber, employing fifteen barques and five steamers.

A Montreal firm are desirous of corresponding with parties capable of contracting for the manufacture and delivery of a large quantity of round, flatted and squared timber, either hewn or sawn, in the vicinity of Parry Sound. Their name and address may be obtained at this office.

John Kilburn last week returned to Fredericton, N.B., from the scene of his lumbering operations on the Upper St. John river. He states that thus far the season has been favorable for logging. He estimates the total cut on the St. John river this winter at between 90,000,000 and 95,000,000 feet. His operations will represent about 10,000,000 feet, which will include 2,000,000 feet hung up last season. The cost of getting out logs has been much greater than for several years past.

The estimated lumber cut on the Miramichi river, in New Brunswick, this season will be fifty million feet, about one-half of the Miramichi cut of last year. The Restigouche cut of this season will be little over half last season's, which was 47,000,000 feet, cut almost wholly in Quebec and on lands of the N. B. Railway Co. Practically no cedar will be cut on the Restigouche this season, as the shingle business was so very unsatisfactory last spring that the operators did not arrange to get out any considerable quantities of cedar.

The importations of sawed lumber from Canada into the United States for the eleven months ending November 30, 1900, amounted to 501,490,000 feet, of an estimated value of $6,003,460. This was against a total importation during the same period of 1899 of 626,316,000 feet, valued at $6,459,290. During the eleven months of 1900 there were 440,239,000 shingles imported, against 512,348,000 during the corresponding period of 1899.

LIVERPOOL TIMBER MARKET REPORT.

During the month of January there was a fair consumption of both timber and deals at Liverpool, Eng., and with one or two exceptions prices kept fairly steady, but the stocks on hand, according to Alfred Dobell & Co., are ample for the requirements of the trade.

WANEY BOARD AND SQUARE PINE.—Stocks are within moderate compass and prices firm. For square pine, values have an upward tendency.

OAK.—There has been a fair demand without material change in quotations.

ELM.—Values are unchanged.

BIRCH LOGS.—There has been a small import, with a moderate consumption at firm figures. The stock of planks continues heavy and values are unchanged.

PINE DEALS AND BOARDS.—The arrivals have been very small, with a fair cousumption at firm prices.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE DEALS.—The arrivals have been moderate, with a fair demand.

——CORRESPONDENCE SOLICITED——

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Business is almost at a standstill in local lumber circles, and comparatively little shipping is being done. Prices have remained steady for the past month, and it is not likely that they will undergo any change till the opening of the spring export trade. A prominent shipper stated to-day that the prospects for the spring shipping to the European and American markets are exceedingly bright. Freight rates promise to be reduced on ocean bottoms, as greater facilities will be afforded by the increased number of vessels which will be available for the lumber trade. The export trade promises to open early this season, and set in with a rush at that.

There is now standing in Ottawa yards a good supply of seasoned stocks suitable for the English market, and these will be required just as soon as they can be shipped. The Ottawa lumber business has now practically recovered the standing it lost by reason of the fire, and the coming season's shipping promises to be strong and steady.

In the local planing mills there is a fair run of work on stock stuff, doors, sashes, etc. As soon as building operations are resumed in the spring on a large scale, as they undoubtedly will be, greater demands will be made on the output of these mills, and work will increase accordingly.

Mr. J. R. Booth is hauling considerable lumber from his limits by railway. A branch road tapping these limits connects with the Parry Sound branch of the Canada Atlantic Railway, over which the logs are hauled direct from the limits to the Ottawa mill. At the mill they are manufactured into lumber direct from the cars and are thus ready for shipping and piling in short time. If these logs were transferred by the waterway, they would not arrive at the mill before August next, many of them only in time for the following summer's cutting. Mr. Booth's mill is partly employed cutting the supply of logs brought by rail, and thus work is supplied in the mill and yards to a large number the year round.

The Hull Pulp Co., which was recently incorporated with large capital, has applied to the Hull city council for exemption from taxation. The company proposes to erect a large pulp mill on the site of the Hull Lumber Co.'s mill which was destroyed in the April fire. Amongst other capitalists interested in the project are H. K. Egan, W. C. Edwards, M. P., and Hiram Robinson.

The E. B. Eddy Co's new establishments have been fitted throughout with automatic sprinklers, furnishing a safe-guard against the spread of fire. Water pressure is furnished from a large tank placed on an elevated platform near the mills.

Early in the spring building operations will commence on fibre ware and tub and pail factories, and the large paper mill will also be erected. The match factory and paper mills erected during the last summer and fall are running full time.

Mr. W. H. Rowley, secretary treasurer of the E. B. Eddy Co., is one of a nu ber of capitalists who have organized a company with the purpose in view of developing the pulpwood industry of Quebec Province. Mills will be erected at a suitable point.

Reports received in Ottawa from the woods go to show that the lumbering operations are progressing favorably. Early in the season a lack of frost was complained of, but this condition has been remedied by the weather king. A considerable quantity of pulp wood will be taken out where posible this winter.

Mr. J. R. Booth has a large gang of men at work making extensive rock excavations on and near the site of the McKay Milling Co.'s mill which was destroyed in the April fire. Mr. Booth purposes erecting a large mill on the site, but whether it will be a pulp or grist mill he will not say. The water courses are also being deepened and widened to improve the water power.

Mrs. J. M. Carrier, relict of the well known lumberman of that name, died last week at the family residence, Ottawa, at a ripe old age. Deceased was widely known in and about Ottawa.

It is rumoured that Bailey Bros., of Aylmer, purpose rebuilding their saw mill which was burned down last summer. Before the fire the firm was cutting lumber for Mr. A. Fraser, of Ottawa.

OTTAWA, Feb. 14th, 1901.

The Timber Trades Journal reports the following charters: Str. Vimiera, Miramichi, N.B., to Ayr, Belfast to Londonderry, 51s 3d; steamer of 600 tons, Bay Chaleur to east coast Ireland, 50s; two steamers, Quebec to Spain, 62s 6d.

Up to February 1st the trans-Atlantic shipments of lumber from the port of St. John, N.B., by the winter liners were 12,094,824 feet, valued at $128,722, as compared with 11,108,006 feet, valued at $156,040, for same period one year ago.

TIMBER LIMIT SALE.

An important timber berth sale took place at the Crown Lands office, Fredericton, N.B., on February 13th, when sixteen berths, all but one of which are located along the Nepisiguit river, were disposed of. The great interest taken in the sale was shown by the many prominent lumbermen in attendance, among whom were F. W. Sumner, of Moncton; Henry Hilyard, of St. John; P. J. Burns, Geo. Robertson, Frank Curran and O. F. Stacey, of Bathurst; A. J. H. Stewart and C. A. C. Bruce, of Chatham; E. Sinclair, of Newcastle; George Moffatt, of Dalhousie; W. P. Lowell and Wm. Engel, of Bangor, Me.; Frank Todd, St. Stephen, and J. R. McConnell, of Marysville.

The first berth offered, two miles on Powlogan river, north of St. John road, was bid in by Frank Todd, St. Stephen, at $11 per mile.

Fifteen berths on the Nepisiguit, aggregating 120 square miles, were each bid in by J. H. Barry, of Fredericton, at the nominal price of $8.50 per mile.

The sale netted the crown lands department $1,042, whereas it was expected that the receipts would be several thousand dollars.

ST. JOHN LUMBER SHIPMENTS.

Following are the lumber shipments from the port of St. John, N. B., for the week ending February 16th: Per steamer Manchester Importer, for Manchester—1,532 pieces poplar lumber, 687 bundles maple flooring. Per Lake Champlain, for Liverpool— 1,013,009 feet deals, 45,931 ft. scantling, 54,070 feet ends, 765 feet boards, by W. A. Mackay; 7,176 bundles box shooks by A. Cushing & Co. Per Loyalist, for London—122,529 feet deals, 52 pieces elm logs, 19 pieces ash logs. Per schooner C. R. Flint, for City Island—17,084 feet boards, 51,997 feet scantlings, 72,197 feet plank, 145,346 feet deals, by Stetson, Cutler & Co. Per Bengore Head, for Belfast—380 pieces deals, 300 standards deals, two carloads maple blocks, 40 loads timber.

The new shingle mill of John Collins at Honora, Ont., was burned last week.

Boliver's saw mill at Baker's Settlement, Lunenburg County, N.S., was destroyed by fire recently.

ARTHUR BEACHAM
(Manager to the late firm of Messrs. King Bros.)
WOOD BROKER
Surveyor, Arbitrator and Valuer.
OFFICES: 73 Queen Square, Bristol. * Avonmouth Dock and Bristol.

FOR SALE! FREEHOLD PULP WOOD LANDS AND TIMBER LIMITS
About 85,000 acres of Freehold Lands, all within 50 miles and west of the City of Quebec, along the lines of the Grand Trunk and Intercolonial Railways.
All pulp wood can also be delivered by rail or driven by water to the River St. Lawrence and shipped thence by boat.
These lands are most favorably situated as regards low rates or railway freight to all points reached by above mentioned railways and their connections.
Also 217 square miles of limits on the North Shore of the River St. Lawrence, below Quebec, and 155 square miles, the logs on which latter limits would go to the Bay des Chaleurs by the Restigouche River.

28,352 ft. 2 in. dry Hard Maple, mill run, culls out.
27,784 ft. 3 in, dry Hard Maple, mill run, culls out.
Prices on application. W. DOHERTY & CO., Clinton, Ont.

WANTED—Position as Manager, Superintendent or Foreman of saw mill. Unexceptiona reference furnished as to experience and ability. Address P. O. Box 497, Ottawa, Canada.

FOR SALE ONE CAR OF INCH DRY, 1ST and 2nds Hickory. WILSON LUMBER CO., LTD., Toronto.

WANTED.

A MARKET FOR A FEW CARS OF SPRUCE Pulp Wood. Address Box 10, CANADA LUMBERMAN, Toronto.

WANTED — SOUND, CLEAR, WHITE Spruce, ¾ inch thick, in 10 or 16 foot lengths. Dry stock preferred. Address MASON & RISCH PIANO CO., LTD., 642 King street west, Toronto.

WANTED—A FEW CARS OF DRY PINE lath, No. 1 or Good No. 2; also hemlock lumber —for spot cash—on C.P.R. points preferred. Box 17, LUMBERMAN.

SITUATION WANTED - YOUNG MAN FROM Glasgow, Scotland, six years experience in the timber trade, wishes situation in the lumber business. First-class book-keeper and practical measurer. H. HOWAT, 82 McGill street, Toronto.

FOR SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE.—36 in. Wickes Gang, cutting 14 in. deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

WANTED FOR IMMEDIATE SHIPMENT, 1 to 3 cars 4 ft. cull lath, also basswood and hemlock lath. Address with price, Box 21, North Tonawanda, N.Y.

WANTED.

ONE CAR OF PUMP LOGS, TAMARACK. Shipment in March or April. Correspond with R. J. DOUGALL, Hallville, Ont.

SALESMAN WANTED—AN EXPERIENCED Salesman to sell Hardwood Lumber in Toronto and Western Ontario; must understand the inspection of hardwoods, and have the best of references. State age and salary expected. Box 114, CANADA LUMBERMAN.

WANTED FOR BRITISH COLUMBIA

A MAN WHO UNDERSTANDS BUILDING and Carpenter Work. One who can run Sash and Door Factory preferred. Address, stating terms, experience, &c., LEQUIME & POWERS, Midway, B.C.

WANTED

GREEN HARD MAPLE SQUARES, 6¼x6¼ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address Box 40, CANADA LUMBERMAN.

FOR SALE

30,000 ft. 1½ in. soft and hard elm, cut last June.
7,000 ft. 1½ in. soft elm, cut last June.
6,000 ft. 4 in. elm " "
10,000 ft. 1½ and 2 in soft maple, cut last June.
20,000 ft. 1 in. soft maple, cut last June.
4 000 ft. 1½ in. red oak, " "
30,000 ft. hardwood, mill cull mostly, 1 in. and 1½ in., cut last June.
50,000 ft. dry 1 inch pine, mill run and dressing and better, cut last June.
Also a large quantity of dry cordwood and hardwood slabs.
Address STEELE & GIBSON, Humberstone, Ont.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.
Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.
Lot. 3.—The North-West Quarter of the Township, 9 square miles, more or less.
Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annuall.

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

A correspondent, writing from Ottawa, states that the unsold stock of lumber in the Ottawa valley is almost nothing, and that he does not believe that there is any dry stock in first hands. This opinion bears out the statement made in our last issue that the stock of white pine is much less than at the corresponding periods of previous years. Manufacturers are constantly receiving orders for immediate and spring shipment, but the number of requests for early shipment indicate that retail dealers and consumers are carrying light stocks. Within the next few weeks this demand is certain to be increased, as bills for buildings, bridge work, wharves, corporation supplies, etc., will call for no small quantity of stock.

The building season is opening up in a most satisfactory manner, and seems to augur well for the consumption of a large quantity of lumber. The hardwood demand is still comparatively light, but manufacturers are holding prices firmly. A large number of inquiries for stock has been received from British importers, but as far as can be learned few transactions have taken place. The reason for this, we understand, is that manufacturers have refused to dispose of their better grades suitable for the English market at the prices offered. Shingles and lath are gaining in strength. Some dealers in Toronto are asking $2.75 for the best quality of pine shingles.

QUEBEC AND NEW BRUNSWICK.

The outlook for British trade from the St. Lawrence is more hopeful than last year, owing to the expectation of lower freight rates. The excessive rates which ruled last season were a great handicap to the shipment of lumber, and made it difficult for shippers to fulfill contracts without loss. The charters effected for early spring sailing have been on more reasonable terms. An average quantity of spruce and pine deals has been placed with British importers, and it is understood that the prices compare favorably with those received for last year's production. The spruce of the lower provinces has not been taken as freely as might be wished for, but buyers are now showing a greater desire to close contracts. Operations in the woods have progressed very satisfactorily, but just now some of the firms have been compelled to cease work on account of the deep snow.

NEW BRUNSWICK CEDAR SHINGLES.—There is not much change to report regarding market prices for New Brunswick cedar shingles. About the usual volume of trade for midwinter is reported, and prices if anything are hardening, in response to the demand of many of the producers that they be paid $3 or better for Extras and corresponding prices for lower grades. Upper grade shingles are certainly in very short supply, and quantity in makers' hands is depleting instead of increasing. The bulk of actual sales are made on the basis of Boston freights at the following: Extras, $2.85 to $2.90; Clears, $2.55 to $2.60; 2nd Clear and Clear Whites, $2.10 to $2.25. As stated above, the tendency of the market is towards higher prices, especially for Extras and Clears. The outlook would certainly indicate that manufacturers who are strong enough to hold their stock of these grades for six weeks would then easily realize their ideas of values.

MANITOBA AND BRITISH COLUMBIA.

Retail dealers in Winnipeg have given little attention to business during the past week, interest being centered in the annual meeting of the Western Retail Lumbermen's Association. The reports submitted at this meeting show that cutting of prices by dealers has been quite prevalent, but negotiations are now under way which it is hoped will result in establishing a more uniform price list. Wholesale prices are steady, and there is a good prospect for a large demand for lumber in the spring. British Columbia manufacturers report an average volume of trade. Shippers to foreign countries find it difficult to obtain suitable vessels for early loading. Two charters were made during January, one to Cork and the other to Callao, Burrard Inlet being the loading point. The freight rate to the United Kingdom is 85 shillings, Melbourne or Adelaide 60 shillings, Freemantle 70 shillings, Tientsin 75 shillings, and Shanghai 65 shillings.

UNITED STATES.

The lumber trade of the United States is developing very satisfactorily. Apart from the districts that have suffered from severe winter weather, there has been an expansion in demand and a hardening tendency in prices. Large purchases have been made at upper lake mill points. In white pine there is reported a light supply of No. 2 dimension boards and piece stuff. The unsold stock on the docks is being rapidly cleaned up, and the new cut is being contracted for quite freely. The logging season, however, has been unusually favorable, and a heavy cut of pine

lumber is likely to be made this year. Were it not for this feature, it is believed that there would be a general advance in prices, as there is every prospect of a large consumption of lumber this year for building and other purposes. In the Saginaw valley Canadian stock is held at $15 to $18, and box lumber at $15. Light receipts of spruce at Boston and New York have strengthened that lumber. For 13-foot stock in firsts and seconds $19.50 to $21 is being asked in New York. Spruce lath is in excellent demand. Quotations at Bangor, Me., are $2.50 to $2.75.

Dealers are booking orders more liberally for hardwoods. Basswood is much enquired for, and soft elm is moving moderately. The former is strong, and is expected to sell at higher prices before long. Box culls are selling in the Chicago market at $12.50, which represents an advance of 50 cents over recent quotations. Hemlock is being purchased steadily in Buffalo and Tonawanda, chiefly for the Pan-American buildings. The base price is $13.

GREAT BRITAIN.

Considerable business has been closed recently in pine and spruce for the British market. Agents of Canadian houses have made sales of spruce at the following prices, delivered on vessel at London: 3 x 11 second quality, £10 5s; 3 x 9 second quality, £8 15s; thirds, £9 10s and £8 5s; fourths, £8 5s and £7 15s; 3 x 7 third quality, £7 15s. Such sales as have been made show a tendency towards higher prices, but owing to the somewhat unsettled condition of the timber market buyers are not disposed to contract very heavily. A report from London states that pine and spruce are being placed quite freely, but it seems that the buying has been largely confined to London, as at Liverpool and other ports trade is quiet. At Glasgow there are occasional enquiries for fourth quality pine deals, which are scarce and strong on the belief that a very limited quantity will be imported this year. The freight market is fairly active, but there is every prospect that rates will be considerably lower than last year. The fixtures already made show a decline of about five shillings.

STOCKS AND PRICES.

The total receipts of lumber at the port of New York during 1900 was 1,246,014,604 feet.

W. J. Kemp expects to ship 3,000,000 feet of lumber from Belmont, N. S., this season.

There have been sold from mills around the Duluth bay 55,000,000 feet of the coming season's cut of pine lumber.

The city of Toronto is asking for tenders up to March 6th for the supply of cedar scantlings and Norway pine scantlings.

Smith, Fassett & Company, of North Tonawanda, N.Y., have just made a purchase of 7,000,000 feet of white pine lumber from the Red Cliff Lumber Company, of Duluth.

Tenders are asked by the city of Kingston, Ont., up to March 12th for the supply of 200,000 feet B. M. of 1½, 2 and 3 inch pine plank, and 40,000 lineal feet of 5x4 inch cedar sleepers.

A two mile timber berth on the north branch of the Yoho stream was sold last week by the New Brunswick Government to A. H. Hilyard & Company, at the upset price of $8 per mile.

Cameron & Co., of Ottawa, are offering for sale a considerable quantity of white pine mill run boards, shipping cull shorts and dressing sidings, also some brown ash, soft elm, and basswood.

The St. Anthony Lumber Co., of Whitney, Ont., will handle its own cut during the coming season, instead of selling the output to the Export Lumber Company, as was done for several years previous to 1900.

A British firm are desirous of arranging with Canadian manufacturers for the shipment to England of large quantities of sash and doors and unfinished moulding stock. Persons interested are requested to communicate with this office.

A large timber deal was consummated at Halifax, N. S., on February 22nd last, when a syndicate, including W. D. Beardmore, of Toronto, Henry Patton, of Albany, N. Y., and H. R. Wells, of Canton, N. Y., purchased the extensive lumber property of the Young Bros.' Company at St. Margaret's Bay and Ingraham River, thirty miles from Halifax. The property includes timber limits on the Indian, Ingraham, East and Hubbard's rivers, and the large mills at Ingraham River, and is one of the most valuable in the province. The consideration is said to have been $250,000. The new company propose to carry on the business as at present, but will likely increase the output and establish other industries.

The following statement was presented to the Dominion Parliament showing the quantity of saw logs exported from Ontario to the United States during the season of navigation of 1900:

Quantity	Value
Cedar, 15 cords	$ 105
Elm, 10,875,000 feet	86,070
Hemlock, 2,638,000 feet	12,985
Oak, 142,000 feet	3,401
Pine, 30,672,000 feet	270,360
Others, 4,835,000 feet	27,000

The tenders for timber limits in Algoma district, covering 112 square miles, will be received by the Ontario Crown Lands Department up to March 15th next. Offers will be received at the same time for some lots in the county of Victoria and the district of Nipissing.

LUMBER TRADE ENQUIRIES.

The following were among the enquiries relating to Canadian trade received at the High Commissioner's office in London, Eng., during the week ending February 8th., 1901:

Enquiry is made for the names of one or two reliable firms in Canada who are in a position to ship cut wood for fruit crates to the Canary Islands

A manufacturer's agent in South Africa is desirous of taking up the representation of Canadian hardware, furniture, lumber, rubber and other goods.

—CORRESPONDENCE SOLICITED—

LUMBER TRADE CONDITIONS.

The tenth annual meeting of the Mississippi Valley Lumbermen's Association was held in Minneapolis on February 19th. An exhaustive report was submitted by the secretary, from which we extract the following bearing upon the condition of the white pine lumber market :

The three conditions most strongly conducing to a season of heavy demand for lumber, making the maintenance of a firm and uniform price possible, exist to-day. They are, first, the general shortage of stock ; second, the general prosperity and purchasing power of the country ; third, the unquestioned building activity of the coming season

Stocks in the hands of the dealers throughout our distributing territory are much less than normal. This is but natural when the uncertain state of the market for the past year is taken into consideration. The dealers bought stock only as they needed it for immediate sale, as there was nothing to be gained by piling up lumber. As a result retail stocks are generally inadequate to take care of the consumption which will begin as soon as weather conditions are favorable for spring work.

The indications point to a large amount of building during the year. The settlement of the strike in Chicago again brings that city into the market with last year's loss of time to be made up. It is predicted that Chicago will consume a larger amount of lumber this year than at any time in its history except the World's Fair year.

The building of the St. Louis exposition is now assured, and for the next twenty-four months that city will absorb a very large amount of yellow pine. This will materially relieve our competition with the southern manufacturers in the southwest territory and will exercise a very strengthening influence upon the whole yellow pine market.

White pine has held, and during the coming year will continue to hold, its place at the head of the principal timber products of the country as the strongest factor in the market and to a very large extent influencing the price of all other forest products.

The day will never come when northern pine will sell at the prices which it did three years ago. The present price represents the actual value of the product. The days of cheap lumber are past. The rapid and sure consumption of our standing timber assures us of this, not to take into consideration the increased cost of manufacture in the past two years. The margin of profit between the price list and the cost of production is not sufficient to permit the reduction to the selling price of former years. We must not be deceived by the comparatively high average selling prices of the past two years. They by no means represent a proportionate gain in profits, for the increase in the cost of everything entering into the business of manufacturing lumber has increased in greater ratio than has the selling price of lumber. While it is not likely that there will be any material advances unless unforeseen conditions develop, there is no likelihood of any reduction of the general range of prices.

The annual inventories of the manufacturers of the Mississippi and Wisconsin valleys, covering stocks on hand January 1, 1901, which have been compiled under the auspices of the bureau of grades, show more lumber in pile than there was on January 1, 1900. Great care has been exercised to get these statistics correctly, and we believe them to show very nearly the actual amount of lumber on hand. They include the inventories of eighty-two firms in the two territories mentioned, besides careful estimates of lumber, lath and shingles of thirty-one firms. They show a total of 1,772,003,626 feet, as compared with 1,661,084,827 feet a year ago.

Last year there was a shortage over the stocks of January, 1899, of 376,479,409 feet, and the shortage of 1899 over 1898 amounts to 105,719,507. Hence the total shortage this year over stocks of January 1, 1898, is 371,280,117. It is therefore hardly to be expected that a very great shortage could develop this year.

The apparent shortage of stocks does not exist in actual lumber in pile so much as it does in lumber dry enough to ship. Many mills produced heavily late last season, being closed down the fore part of the year on account of the scarcity of logs, and the weather conditions of the late fall and early winter were not such as to dry lumber very rapidly. Nearly every firm reports a shortage of certain items of lumber in shipping condition.

ST. JOHN LUMBER SHIPMENTS.

Following are the lumber shipments from the port of St. John, N. B., for the week ending February 23rd : Per str. Dagame, for Liverpool : 300 standards of deals, 300 loads of timber, 40 stds. of poles. Per Lake Superior, for Liverpool : 150 stds. of deals, 200 tons of timber, 20 stds. of poles, 25 stds. of box shooks, 550 bales of pulp. Per Manchester Trader, for Manchester : 50,316 feet deals, 42,378 feet deals and battens, 44,745 feet ends, 39,875 feet boards. Per Dahome, for London : 39,551 feet deals, and a quantity of ends and scantlings. Per Amarynthia, for Glasgow : 1,538 pieces pine deals, 548 pieces elm lumber, 271,664 feet deals and battens, 28,377 feet ends, by W. M. Mackay. Per Rosa Muller, for City Island : 286,358 feet deals, by N. H. Murchie. Per Abbie Ingalls, for Vineyard Haven : 1,005,600 feet lumber, by N. H. Murchie. Per Onward, for Fall River : 121,508 feet boards, by A. Cushing & Company. Per Clifford C., for City Island : 125,519 feet deals, by Stetson, Cutler & Co. Per E. Merriman, for City Island : 1,584,000 laths, by Charles Miller. Per Walter Miller, for City Island : 1172,022 feet deals, by Stetson, Cutler & Co. Per Evolution, for St. Georges, Grenada : 178,358 feet pine boards, 140,500 cedar shingles, by A. Cushing & Co. Per J. D. VanHusen, for New York : 186,464 feet plank, 30,301 feet scantling, by A. Cushing & Co. Per Tric, for City Island : 173,939 feet deals, by Stetson, Cutler & Co.

BRITISH TIMBER SALE.

Large Tract of Timber

THE PRORERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited).

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Beech, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and are looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE.—36 in. Wickes Gang, cutting 14 in. deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

WANTED.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.

Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.

Lot 3.—The North-West Quarter of the Township, 9 square miles, more or less.

Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annually.

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

Three-quarters of a Million feet of Birch to be cut to order. This Birch must be sold log run culls out. Apply at

H. LAPOINTE & CIE,
Montreal.

TIMBER LIMITS SALE.

Persons in the market for timber limits will be given an opportunity of purchasing valuable berths on Tuesday, April 18th, when Mr. Peter Ryan will offer for sale by public auction virgin limits in the township of Ermatinger, on the north shore of Lake Huron. These comprise four lots of nine square miles each, being one of the best properties in the province. The sale will take place at the Board of Trade rooms, Toronto, at 2 p.m. on the date named, and should bring together a large gathering of lumbermen. The advertisement of the sale appears in another column.

CURRENT TRADE CONDITIONS.

ONTARIO.

The severe weather has not been conducive to a heavy demand for lumber, and such buying of small lots as has taken place has been chiefly for filling up purposes. Retail dealers are apparently keeping out of the market until they are better able to estimate the volume of the year's building operations. The fact is generally admitted, however, that both retailers and consumers are carrying light stocks, and that sooner or later they must add materially to their stocks. From a wholesale standpoint the volume of business is quite encouraging. Sales are being made freely for shipment by vessel upon the opening of navigation. One transaction reported involves ten million feet of lumber, but, while generally credited, the details have not been learned. Logging conditions in the pine districts are most favorable, and the outlook is that nearly all operators will succeed in getting out their contemplated cut. The hardwood situation is but a repetition of past weeks. The consuming industries are operating to their full extent, but are evidently deferring the purchase of their lumber supply in the hope of getting some concession in price. Whether or not they will be succesful in this depends entirely upon the hardwood manufacturers, who up to the present time have positively refused to yield. Lath and shingles are strong. At Georgian Bay points as high as $2.75 is being asked for No. 1 lath and $2 for No. 2.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber seems to be improving as the season advances. Representatives of Quebec houses are meeting with considerable success in effecting sales in Great Britain, and there now seems to be reason to believe that about the usual quantity will be marketed there. There is a greater number of enquiries for stock from the Eastern States, especially for clapboards and shingles. Cedar shingles, on Boston rate of freight, are generally held at $2.85 to $2.95 for extras, and $2.60 for clears, although as might be expected, sales are being made below these figures by dealers who are anxious to realize immediately. Logging operations are proceeding satisfactorily, although in some parts of Nova Scotia deep snow is interfering with successful work.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in Manitoba and the Territories is showing more ac-

tivity, due to the improved outlook for building operations. In Winnipeg a number of quite important buildings are projected, and in smaller towns and villages the volume of building promises to be greater than last year. British Columbia shingle manufacturers report that the consumption of red cedar shingles in the east is on the increase and that orders are coming in freely for spring and summer delivery. The demand from Manitoba is quiet and will be inactive until good crops are assured.

Current quotations for red cedar shingles delivered in Ontario are as follows: No. 1, 6 butts to 2 inches, $2.75 per M; No. 2, $2.25; No. 1, 6 butts to 2 3/16 inches, $2.90.

UNITED STATES.

The volume of trade in white pine lumber has shown a decided improvement during the past week. Heavy sales have been made at Duluth, Ashland and other points, the buyers being from Chicago and eastern wholesale distributing points. It is estimated that by the opening of navigation there will be practically no dry lumber at Duluth, while the recent sales have included much of the coming season's cut. The demand for building materials for immediate consumption has been confined largely to the coarser grades. The supply of box lumber seems to be comparatively heavy, but a scarcity of cutting up stock is still reported from Buffalo. The secretary of the Buffalo Lumber Exchange has compiled statistics which, in comparison with one year ago, show a shortage of 14,000,000 feet in white pine and 6,000,000 feet in Norway. Shingles and lath are both firm and high in price, with a tendency towards higher values, especially for white pine lath.

There is an apparent improvement in the hardwood trade, although prices are not altogether uniform. Red birch is scarce, and commands $30 to $32 on cars at Buffalo. Quotations on Albany rate of freight are $40. Brown and white ash are also firmer, the former selling at $26 to $28 for No. 1 and 2, and the latter at $30 to $32 for inch firsts and seconds.

GREAT BRITAIN.

Business in the timber trade in Great Britain is less active than at the corresponding period one year ago. Negotiations are under way, but shippers are finding some difficulty in closing contracts. This applies particularly to pine, as importers apparently believe that, considering the stocks on hand, the prices asked are too high. Nevertheless, shippers seem to be a unit in holding out for their present asking prices, even if such a course should restrict the volume of business. Spruce is selling now more liberally at good prices. Sales of 3x9 third regulars have been made at £8 10 shillings per standard c. i. f. London, and 3x7/8 inch battens at £8. The consumption of lumber at the leading ports is about normal for this season of the year. Large quantities have been sold by auction and have brought fair prices; 3x11 first pine sold at £22 to £23; thirds at £13 10s; and a parcel of Quebec pine boards at £25. First quality Quebec spruce, 3x9 brought £11 10s; second quality £9 15s to £10, and 3x11 thirds £9 5s.

STOCKS AND PRICES.

Kent & Campbell, of Duluth, last week sold 7,000,000 shingles to the Arthur Gourley Company, of Chicago.

The schooner Prohibition has just sailed from Sydney, N. S. for Demerara with a cargo of 156,000 feet of lumber.

The steamer Alatina is loading lumber at Hastings, B. C. for the Orient. She will carry about three million feet.

The base price for Hemlock in New York continues at $14.50. For 10 and 12 inch boards $15 can be obtained.

A two mile timber berth on Young's Brook Gloucester county N. B., was sold by the New Brunswick Government last week to J. J. Riordon at $85 per mile.

With the old logs being carried over, the Holland & Emory Lumber Company, of Bying Inlet, Ont., expect to have 50,000,000 feet of logs for the coming season's operations.

The Saginaw Lumber & Salt Company expect to have 20,000,000 feet of logs to take over from the Georgian Bay to Saginaw this season. These were cut in Indian reserve lands.

No. 1 pine piece stuff is selling in the Chicago market at from $14 to $16, 6 inch No. 1 strips at $20, 4 inch at $17.50, and No. 1 Norway strips at $18. There is a scarcity of all grades of good lumber.

The Eastern Lumber Company, of Tonawanda recently purchased 2,000,000 feet of C selects and better from the Bay Shore Lumber Company, of Marionette, Wis., and 1,500,000 feet of same stock from the Sawyer—Goodman Company. These two deals involve a consideration of $140,000.

In the Barbadoes market according to Clairmonte, Mann & Company, there is a good demand for both spruce and white pine lumber. Latest sales have been made at $24 for merchantable pine, and $18 for second quality; $21.50 for merchantable spruce, $17.50 for second quality. The

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., MARCH 13, 1901 No. 7

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount o. 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.

Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.

Lot 3.—The North-West Quarter of the Township, 9 square miles, more or less.

Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annually.

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

FOR SALE—ONE MILLION FEET GOOD White Pine Mill Culls, Dry. Address "OTTAWA," office CANADA LUMBERMAN.

WANTED—THREE OR FIVE PLY VENEER (glued up), size 1 x 15 x 30, Birch top and bottom, filled up with any kind of sound hardwood. Quote lowest price car lots. THE BRITISH-CANADIAN TIMBER & MANUFACTURING CO., LIMITED, Kearney, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Buying of lumber by dealers to replenish broken stocks, and by consumers for immediate requirements, has represented a considerable volume of trade during the past week. Business in white pine lumber has progressed very satisfactorily, and has strengthened the opinion that the advent of spring weather will bring about an active demand for lumber. The quantity of dry stock unsold at the mills is being gradually lessened, while no small proportion of the coming season's cut has been contracted for. While all grades are moving moderately, there seems to be a special call for 10 and 12 inch boards, particularly for export. Dimensions suitable for bridge work are also enquired for quite freely. Hardwoods, although still quiet, are showing signs of recovery, and it is anticipated that consumers will shortly be compelled to enter the market. Nearly all the dry hardwood lumber is in strong hands; otherwise it would not have been possible to obtain the present market price. This does not apply to basswood, which is very scarce and growing stronger daily.

QUEBEC AND NEW BRUNSWICK.

Although few changes have taken place, the prices of square and waney timber at Quebec are hardening. There has been an advance in elm, which is now quoted at 45 to 50 cents per cubic foot for 45 to 50 feet average. Spruce lumber of good quality is firm, with a moderate demand. On Boston rate of freight clapboards have been sold at $31 for extra, $29 for clear, and $26 for second clear. New Brunswick cedar shingles are becoming scarce, and a few special lots have been sold as high as $3 for extras. Average quotations, however, are about as follows: Extra, $2.90 to $3.00; clear, $2.60 to $2.70; second clear, $2.15 to $2.25; clear white, $2; extra No. 1, $1.85.

MANITOBA AND BRITISH COLUMBIA.

The retail lumber dealers of Winnipeg have just adopted a new price list, which shows a considerable reduction in prices. White and red pine and spruce have undergone a number of changes. The most important items are quoted in the new list as follows: No. 1 pine, dimension, 2x4 to 2x12, 12, 14 and 16 ft. long, $19.50 per thousand, reduction from old list $2.50; cull plank, $14, reduction $2; No. 1 pinr timber, 3x6 to 6x8, up to 16 ft., $21 reduction $2.50; third common red and white pine boards, $19.50, reduction $1; spruce boards, $18.50, reduction $2; No. 1 cull pine or spruce boards, $17, reduction $2.50; No. 1 box boards, 14 inches and upwards, $26, reduction $2; second white pine siding, flooring and ceiling, 4, 5 and 6 inch, $41, reduction $2; 8 and 10 inch pine shiplap, $22, reduction $2; 6 inch pine shiplap, $21, reduction $1.50 8; and 10 inch spruce shiplap, $21, reduction $2; 8 and 10 inch cull pine or spruce, $18, reduction $2; white pine finishing, $65, reduction $1; white pine shop finishing, $40.50, reduction 50 cents; clear red pine, $42, reduction $4; 1 inch white pine finishing, first and second clear, $64, reduction $2; inch quarter sawn oak, $95, reduction $5. British Columbia lumber remains unchanged.

UNITED STATES.

A marked degree of strength characterizes the United States lumber market, and particularly the white pine trade. There are less than 40,000,000 feet of lumber unsold at Duluth and Superior, and much more than that amount of the coming season's cut has been contracted for. The general conditions affecting white pine are so favorable that a higher range of prices is talked of. All grades seem to be in demand. A report from Tonawanda states that poorer grades between and including box and dressing are disposed of more readily than the better grades, while at Albany good lumber is showing the most strength. Uppers have been advanced about three dollars per thousand, quotations now ranging from $58 to $70, the latter figure for 4 inch. Selects and fine common are about $2 higher, and 1 x 10 and 12 common $1 higher. Lath in the Albany market has also advanced to $3 for both pine and spruce. In the Saginaw valley log run lumber is held at $16 to $21 and box at $15. Spruce is strong as the result of light stocks. In New York No. 2 is quoted at $20 to $21.50 and better, and merchantable at $19.50 to $21.

There is a slight improvement in the hardwood market. Consumers are beginning to replenish their stocks, although there is still a disposition to buy as moderately as possible. It is believed that the present season will witness a very large demand for maple and oak flooring and interior finish.

GREAT BRITAIN.

Business with British importers is not progressing as satisfactorily as might be wished for. A fair volume of trade is reported in spruce, but as far as can be learned, there is much hesitancy on the part of buyers to close contracts for pine. The buying for early shipment has been light, importers apparently being disinclined to pay the prices asked by shippers. Some contracts, however, have been closed at £12 15s to £13 per standard for third quality, and £10 10s for fourth quality c.i.f. London and Liverpool. At Glasgow the bulk of business is in spruce, although some transactions have taken place in third pine deals. The small amount of buying for early shipment is reflected in easier freight rates, and it is a question if importers would not find it to their advantage to close contracts immediately for their timber supply and thus place themselves in a position to effect charters at current rates. The experience of late years shows that summer and early fall freight rates are usually higher than those of the spring freights, and the present situation in the timber trade seems to favor such a condition this year, as there will doubtless be shown greater eagerness to buy as the season advances.

STOCKS AND PRICES.

No. 1 cedar lath is being sold in Tonawanda at $3.25 and No. 2 at $2.75.

The city of London, Ont., is inviting tenders up to 18th inst. for annual supply of lumber.

The Cowichan Lumber Company, of Duncan, B. C., expect to cut 10,000,000 feet of lumber this season.

The Murray limits and saw mill in the vicinity of North Bay, Ontario, are announced to have been sold to George Gordon & Company, of Pembroke, Ont.

B. & R. Mitton are lumbering near Hopewell Hill, N. B. They have already 700,000 feet of deals hauled to the saw mill creek, and expect to make a cut of 2,000,000.

The New Brunswick Government will sell by auction on March 20th, at the Crown Lands office, Fredericton, timber berths on Little and Big Tracadie rivers, comprising 9½ and 4½ square miles.

Quotations on slack cooperage stock are lower at Buffalo, owing to the prospect of an increased output. There is no surplus, however, of dry stock. Dry elm flour barrel staves are sold by jobbers at $8 to $8.25 for No. 1 ; basswood heading at 6 and 6½ cents ; coiled hoops at $8 and $8.50 for 6 foot.

ST. JOHN LUMBER SHIPMENTS.

Following were the lumber shipments from the port of St. John, N. B., for the week ending March 9th : Per Manchester City, for Manchester—806,091 feet deals, 70,115 feet deals, 37,047 feet scantling, 14,883 feet boards, 26,448 feet ends, 685 bundles maple flooring. Per Lusitania, for Liverpool—150 standards of deals. Per Selacia, for Glasgow—25,330 feet deals, 1,058 feet ends, 1,680 bundles shooks, 454,047 feet deals, 187 pieces birch timber, 154,089 deals. Per William Elkins, for City Island—25,120 feet deals, by Stetson, Cutler & Co. Per William Jones, for City Island—324,887 feet deals, by Chas. Miller. Per Tay, for City Island — 41,307 feet boards, 65,411 feet deals, 4,120 feet scantling, by A. Cushing & Co. Per Lake Ontario, for Liverpool—164,651 feet deals, 614 feet ends, 200 tons birch, 1,081 bundles shooks. Per Oruro, for Bermuda—14,000 onion crate shooks.

SALE OF TIMBER LIMITS.

Nineteen timber berths, aggregating 135 square miles, were sold at the Crown Lands office, Fredericton, N.B., on March 6th. All the berths, excepting one of two miles on North-west Nackawick, are situated on the Nipisiguit river, Gloucester county. There was a large attendance of lumbermen of the north shore, and good prices were realized, the proceeds of the sale being $12,480.50. Sumner & Co. bought the first six at $129, 115, $133, $112, $116 and $100 per mile, the largest amount paid by them or any other purchaser for a single berth being $1,096.50 for eight and a half miles, and their total purchases aggregating $5,191.50. Wm. Engel, of Bangor, got seven berths, 1 seven and a half mile and 6 nine mile berths, at $73, $77, $82, $86, $86, $90 and $86 respectively, the highest price paid by him for a single berth being $810, and his total purchases aggregating $5,110.50. The six and a half mile block was knocked down to the Maritime Sulphite Fibre Co. at $100 per mile. John Robertson took the five and a half mile berth at $85 per mile ; J. D. Buckley, of Rogersville, a six mile block at $108 per mile, and T. W. Winslow another six mile berth at $64 per mile. The Nackawich lot went to Charles Palmer at the upset price, $8 per mile.

FOR SALE! FREEHOLD PULP WOOD LANDS AND TIMBER LIMITS

About 85,000 acres of Freehold Lands, all within 50 miles and west of the City of Quebec, along the lines of the Grand Trunk and Intercolonial Railways.

All pulp wood can also be delivered by rail or driven by water to the River St. Lawrence and shipped thence by boat.

These lands are most favorably situated as regards low rates or railway freight to all points reached by above mentioned railways and their connections.

Also 217 square miles of limits on the North Shore of the River St. Lawrence, below Quebec, and 155 square miles, the logs on which latter limits would go to the Bay des Chaleurs by the Restigouche River.

—CORRESPONDENCE SOLICITED—

THE GLASGOW MARKET.

The Glasgow timber market is reviewed as follows by Messrs. Edmiston & Mitchells in their monthly timber circular of 28th February:

As was the case last month, a fair amount of business has been done during February, not so much in large lines as in numerous purchases of a retail nature, which in the aggregate form quite a respectable total. Prices continue to be very firm, but buyers are still more or less inclined to operate cautiously, fearing, apparently, the possible contingency of a break in values, of which, however, there is no evidence in the meantime. The amount of business done in Quebec goods for forward delivery has so far been on a smaller scale than last year, and, with the possible exception of spruce, buyers are very slowly responding to the high prices quoted by shippers.

The Clyde shipbuilding returns for the month of February show that 15 vessels, aggregating about 60,000 tons, were launched, as compared with 23 vessels of 29,516 tons last February. While this is so far gratifying, it is unfortunately the case that very little new work is being placed on the Clyde, which, we presume, is to be accounted for by the drop in the freight market, apart from other predisposing causes. The housebuilding trade is quite, but it is satisfactory that the dispute between masters and joiners has now been settled, and this should help to revive business in this important industry.

WANEY BOARDWOOD. — First-class.— Business during the month has been quiet, and there have been no transactions of any importance. We hear that a line of small wood, 13-inch average square, has been sold at 2s. 1d. in ponds. Second-class.— There has been rather more enquiry for this class, and a parcel or two have changed hands at 1s. 10d. to 2s. per cubic foot, according to size.

RED PINE.—There is still no movement in this class of timber to report. The railway company's enquiry mentioned last month has not yet resulted in business.

OAK.—There have been one or two small retail sales, and some enquiries for long logs 50 feet and up, though no business has yet resulted. Stocks being comparatively light, prices are firm.

ELM.—There have been a number of enquiries during the month, especially for large-sized timber, and there have been several transactions on the basis of 3s. 1d. to 3s. 2d. per cubic foot for 45-feet average cube. Small timber, 30 to 35 feet average cube, is difficult to move.

BIRCH.—Quebec.—A few sales have been made during the month at prices ranging from 18½d. to 19d. on a basis of 16-inch average. The stock on hand is now considerably reduced, and with anything like a fair demand, prices would be inclined to harden. The prospects for next season's delivery are fair.

N. B. BIRCH.—There have been no arrivals and no sales to report. Nominal value, 1s. 6d. for 16-inch average. There has been one import of planks during February, consisting of about 150 standards St. John, which were sold at £9 per standard, c.i.f. Glasgow.

ASH.—A few small sales have been made during the month at from 2s. 1d. to 2s. 2d. for 13½ to 14 inch average. The stock on hand is trifling, and mostly of small size.

DEALS, ETC.—There has been a good volume of business during the month, and the public stores are being rapidly emptied. Prices are unaltered, with the exception of sidings, which are rather easier, the stock of these being still heavy. The current values are as under :

Broad first pine deals.—£26 15s. to £29 ; 11-inch, £24 to £26 ; ends and non-dimensions, £18 to £22. Second pine deals.—11-inch and up, £20 to £22 ; non-dimensions, £14 to £16. Third pine deals.—11-inch and up, £13 to £14 ; ends and narrows, £8 10s. to £10 10s. Fourth pine deals.—11-inch and up, £10 10s. to £11 ; narrows, £9 to £9 10s. Red pine deals.—9 and 11 inch, £12 10s. to £13 ; narrows, £9 10s. to £10 10. First pine sidings and strips.—£16 to £22, according to specification. Spruce deals.—9-inch and up, £8 10s. to £9 15s.; narrows, £7 10s. to £8 5s. N. B. spruce.—7 to 8 inch, £7 5s. to £8 ; 9 to 11 inch, £8 10s. to £9.

About $45,000 worth of lumber, the property of Alger, Smith & Company, was destroyed in their yards at Detroit recently.

The str. Dunmore is about to load deals at St. John, N. B., for west coast of England.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.

Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.

Lot 3.—The North-West Quarter of the Township, 9 square miles, more or less.

Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annuall .

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

WANTED—POSITION AS LUMBER INspector, either in yard or on the road. References as to experience and ability. Address Box 77 CANADA LUMBERMAN, Toronto.

SAW FILER WANTED

A FILER WANTED, ACCUSTOMED TO CIRcular Saws. Apply by letter to JAS. H. SANDERSON, Prince Albert, Saskatchewan.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber of all kinds is being called for to an extent that is regarded by the trade as satisfactory, particularly when consideration is given to the unfavorable weather conditions. There has been a steady movement of stock from the mills by rail, chiefly for local purposes, although some shipments have been made to the Eastern States. It seems, however, that there is still an impression on the part of consumers that prices are too high, and that by waiting they are likely to be able to effect purchases at lower figures. This opinion presents a striking contrast to that held by the lumber trade generally. The position of white pine particularly is in favor of a continuance of present prices, with a possible advance in certain sizes which are none too plentiful. Two inch common lumber is now quoted by some dealers from fifty cents to one dollar higher than a fortnight ago. Ten and twelve inch widths are also scarce and very firm. Hardwoods are moving only in small lots. Birch, elm and maple are very dull of sale, with a better demand for basswood and oak. These woods are scarce and almost certain to sell at higher prices before midsummer. There is a scarcity of dry hemlock, for which $9 is asked at the mill. Lath is strong, with indications of higher values. At the mill $2.75 is being asked for No. 1 pine, and $2.25 for No. 1 hemlock and spruce, and $1.50 for No. 2. Shingles are quiet but steady, $2.20 for XXX at mill being the average quotation.

QUEBEC AND NEW BRUNSWICK.

No important change in the spruce market has taken place since last issue. As might be expected at this season of the year, the volume of orders is increasing, which is reflected in firmer prices. Clapboards are quoted at $30 to $31 for extra spruce and $28 to $29 for clear, on Boston rate of freight. New Brunswick cedar shingles are selling on the basis of $2.90 to $3.00 for extras. Laths are in good request. Logging operations are now nearing an end, after a satisfactory season. The cut of logs on the St. John river has been about 95,000,000 feet, which is about equal to last year's production, but on the Miramichi the output has been smaller. Lumbermen are somewhat apprehensive regarding driving operations. There is only about two feet of snow in the woods of the upper St. John and the Miramichi rivers, as compared with an average of five feet in other years. Unless there are unusual heavy rains this spring, it is feared that many logs will be hung up.

UNITED STATES.

From a wholesale point of view the lumber market of the United States is showing more strength. Some large purchases at upper lake points have been made, and it is estimated that about one-third of the cut of the Duluth-Superior mills has been sold, while there is not more than 25,000,000 feet of dry lumber remaining on the docks at the head of the lakes that is still unsold. No. 3 boards are held at $12.75 and No. 2 and better log run at about $17. The Buffalo and Tonawanda markets appear to be somewhat unsettled, cutting of prices having been resorted to by one or two dealers. Without exception, however, all agree that the outlook for the season's trade is quite promising, and that with more favorable weather orders will be placed quite liberally. It is generally admitted that there will be a large volume of building during the year. Statistics of building operations for February in twenty-one of the principal cities show an expenditure of $20,000,000, as compared with less than $10,000,000 for the corresponding month one year ago. The outlook has already caused an advance in the price of spruce randoms. In Boston 10 and 12-inch dimensions are selling at $18 to $19, 9 inch and under at $17, 10 and 12 inch random lengths at $18, and 2 x 3 to 2 x 7, 10 feet and up, at $15.

There has been a slight revival in the consumptive demand for hardwoods, but the volume of trade is still small. Basswood and oak lead, with ash, elm, maple, and birch following in the order named. Figures presented at the meeting of the Wisconsin Hardwood Lumber Association held on the 12th inst. showed that the stock of hardwood lumber at the mills in Wisconsin was about 130,000,000 feet, as against 125,000,000 feet one year ago.

GREAT BRITAIN.

The news from the United Kingdom are not of an encouraging nature. The high price of lumber and other materials is retarding building operations, and until the consumption improves the lumber market is not likely to show a materially stronger tone. Importers seem to be afraid to venture upon forward buying until the stocks on hand have become further reduced. On March 1st of this year the stock of deals, boards, battens, etc., in the Surrey Commercial Docks, London, were 37,000 standards, or about 70,000,000 feet, greater than at the corresponding period one year ago. In Liverpool there is an excessive stock of pitch pine, and a supply of birch timber much larger than the requirements demand. The stock is 114,000 cubic feet, as compared with 52,000 feet last year and 43,000 feet in 1899. Birch planks are also plentiful, 178,000 feet, as against 13,000 feet one year ago. Elm and ash timber have improved slightly during the past month. Ash is quoted at 1s. 8d to 3s. 3d. per cubic foot, and elm at 2s. 9d. to 3s. 3d.

Sales of spruce deals for summer shipment are being made on the basis of £8 15s. per standard c.i.f. for 3 x 9 second quality. A quantity of Oregon pine plank was recently sold by auction at £9, but it

was a consignment cargo of inferior quality. Quebec pine at the same sale made fair prices, and spruce showed a little more strength. There appears to be a large demand in London for manufactured stuff, such as doors and mouldings.

STOCKS AND PRICES.

In Michigan $10 is being paid for elm logs and $10.50 for basswood.

Mr. Brown, of Barrie, has over 18,000 cubic feet of square timber lying at the Bradford Station for shipment to Liverpool, via Quebec.

Log run pine is a little stronger in the Saginaw Valley, being quoted at $17 to $21. Box lumber is held at $15 and mill culls at $12 to $13.

J. P. Newman, of Wiarton, has purchased from the Hepworth Hunting Club the timber on 1,600 acres of hunting reserve at Murray Harbor, Lake Huron.

At Saginaw River points hemlock boards are held at $10, piece stuff at $9 and mill culls at $7 and $8. In New York City No. 1 hemlock boards are quoted at $17.

The contract for supplying the city of Toronto with cedar and norway pine scantling has been let to Reid & Company, of the Esplanade, at $14.97 per thousand.

The Rathbun Company have secured the contract for supplying lumber for the Board of Works, Kingston, the price being $17.70 for boards and 2⅝ cents for cedar scantlings.

J. A. Gregory, of St. John, N. B., has secured a contract to supply 30,000 pieces of birch props, for shipment to Bristol, England, to be used in making brush backs.

It is reported that the Quebec Government has decided to offer for sale on June 4 next 7,000 square miles of timber limits in the Upper Ottawa, St. Maurice, Rimouski, Lake St. John, and other districts.

Messrs. S. P. Musson, Son & Company report the arrival at Barbadoes of the "Herbert Rice," with 16,000 feet white pine and 10,000 feet spruce, which were sold at $22 and $19.50 respectively. The market for white pine shippers is in good position, and second quality would also bring fair rates. A small lot of spruce laying shingles has been sold at $2.05, and hemlock shingles at $1 50.

HARDWOOD PRICE LIST.

Following is the official price list on hardwoods as adopted by the Wisconsin Hardwood Lumber Association, effective March 12 last. Prices are given only for firsts and seconds and common, and are f. o. b. Wausau, Wis.:

ASH.

CONCERNING MAPLE LUMBER.

The largest body of maple to be found in the United States is in the northern part of the lower peninsula of Michigan. This district contains the largest amount of standing timber of good quality, and consequently is the chief source of supply for dealers in and consumers of maple. Canadian lumbermen will therefore be interested in some figures regarding maple presented at a recent meeting of the Michigan Hardwood Lumber Association, which represents about 70 per cent. of the mills manufacturing Michigan maple for the market.

The president expressed the belief that log run maple ought to be worth $16 at the mill. The secretary reported the following sales of lumber since the previous meeting: 3,650,000 feet of maple at $7,12 and $17; 50,000 feet of long run maple at $13; 100,000 feet of maple, 1½ and 2 inch, at $14.50 delivered at Milwaukee; 100,000 feet of hemlock at $8.50 for short and $9 for the 18 and 20-foot, f.o.b. mills; 100,000 feet long run black ash at $18 at the mill; 3,500,000 feet of hemlock at $8.50 and $9.50 f.o.b. mill; 1,500,000 feet of hemlock at $8 and $9 f.o.b. mill; inch mill culls at $5.50, and 2 inch mill culls at $5. A sale was reported of shipping cull and common maple at $6 and $11, respectively, the buyer not wishing firsts and seconds. One of the members stated that he could have sold all of his cut of 1901 of common and firsts and seconds at $12 and $17 respectively. Another member stated that he had refused an offer to sell his entire cut of shipping culls, common and firsts and seconds at $7, $13 and $17.

Inquiry was made as to how much of this season's cut had been sold. Several members announced that they had sold over half of their cut. A canvass of conditions revealed the fact that something like 50 per cent. of the 1901 cut of maple had been already sold.

As to the quantity of maple that would be reduced this year, it was concluded that there would be a reduction of about 40 per cent. as compared with last year. The output of the association last year was 70,000,000 feet, and the total of the district about 100,000,000 feet. With a reduction of 40 per cent. the total northern Michigan cut this year would be 60,000,000 feet. Of last year's cut 20,000,000 feet is still on hand, which with 30,000,000 feet of the coming season's cut still unsold, leaves 50,000,000 feet of Michigan maple yet available for purchase. It developed that at Traverse City maple manufacturers were paying about $7 per thousand for logs delivered at their mills by farmers, but a member from Boyne City stated that he was paying $8. The feeling of the meeting seemed to be that there would be an advance in the price of maple this spring.

TIMBER BERTH SOLD.

Only one berth was sold as a result of the offer by the Ontario Department of Crown Lands of several limits in Victoria and Haliburton countie, on the Ottawa River, which had been forfeited or abandoned. This was the abandoned berth on the Ottawa River. The highest bidder was the Hawkesbury Lumber Co., of Ottawa, which got it for $30,195, or $1,220 per mile. In the cases of the forfeited berths in Digby, Lutterworth and Sherbourne townships, no tender was high enough to be accepted.

The Barbadoes market, according to S. P. Musson, Son & Company, is fairly well supplied with second quality white pine, but there is no shipping quality in dealers' hands. First quality spruce has been sold at $21.50, and second quality at $17.50. There have been no late arrivals of shingles, for which the demand is light.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.

Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.

Lot 3.—The North-West Quarter of the Township, 9 square miles, more or less.

Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annuall .

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

FOR SALE.

WATER POWER SAW MILL, CAPACITY 20 to 25 M per day, together with Horses, Waggons, Sleighs, Cart, Harness and whole outfit, fully equipped, with or without stock of logs; would give purchaser contract to cut logs. Price very reasonable. Address Box 255, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber manufacturers and dealers are apparently satisfied with the volume of business they are doing; it is quite up to the average for this season of the year, with indications of much more activity in a week or two as a result of the commencement of spring building operations. The quantity of lumber required for building purposes is expected to be greater than last year, and with an average consumption by manufacturing industries, a good season's trade at satisfactory prices is looked for. In Ottawa the buildings commenced and under contemplation are chiefly of the cheaper class, calling for the lower grades of lumber. As a result of a by-law passed in Ottawa some time ago preventing the use of wooden shingles on houses, the local demand for shingles is extremely quiet, but a good enquiry is reported from outside points. In the Georgian Bay district sales of pine mill culls are being made at $10.50 and $11 at the mill. Michigan dealers are looking to Georgian Bay points to supply a considerable quantity of the stock required for the coming season.

There is some irregularity in hardwood prices, and the market is not as firm as might be wished for. In Toronto some dealers are asking $24 for first and second black ash, 1 and 1½ inch, which others are quoting at $22. Mill run is selling at $18, with $20 asked in exceptional cases. There is practically no basswood offering in firsts and seconds, but from $20 to $22 could be realized for good stock. Mill run basswood is selling at $17.

QUEBEC AND NEW BRUNSWICK.

Influenced by favorable reports from the Eastern States, the spruce lumber market is showing more strength. Manufacturers are looking forward to an active demand from the United States and to a considerable consumption of lumber for local purposes, paticularly of the cheaper grades. While the price of clapboards is nominally unchanged, the supply is so small that if there should arise even a moderate demand, it would be reflected in higher prices. The supply of New Brunswick cedar shingles is likewise small. Sellers are asking $3 for extras, $2.65 for clears, and $2.20 for second clears, Boston rate of freight, although sales are being made by small manufacturers about five cents less.

UNITED STATES.

A most satisfactory volume of business for the past week is reported from the white pine producing points. In the Ashland and Duluth districts the buying by wholesale dealers has been quite active, and most of the stock is now held $1 to $1.50 higher than last fall. Sales of No. 3 boards are being made at $12.75, and some manufacturers are holding out for $13 for the coming season's cut of that grade. This is about $1 in advance of the price at which this grade was sold last summer, and shows the steady appreciation in the value of pine lumber. The feeling in the Lake Superior district is that the spring will bring forth a sharp demand for lumber, and that the year will be one of general prosperity for the lumber trade. Indications are that the cut of logs for the mills of Duluth-Superior will be not more than 390.000,000 feet, as compared with 425,000,000 feet last winter. Buyers in the east are apparently convinced that there will be no break in prices, and are therefore placing contracts for their supply of lumber. In the Chicago market there is a scarcity of No. 1 and No. 2 12-inch boards, and piece stuff is none too plentiful. Both white and Norway pine piece stuff is selling at $14.50 to $15 for short lengths f.o.b. cars Chicago. Tonawanda trade is more settled, with less cutting of prices on the coarser grades. Good lumber seems to be most wanted in the east, although some demand has developed for box lumber.

There is no perceptible improvement in the call for hardwoods. The better grades are selling more freely than cheap lumber, but the large consumers are apparently keeping out of the market as long as possible. Maple is showing more strength, while birch and elm are weak. Basswood still leads both in point of demand and scarcity of supply.

GREAT BRITAIN.

The British timber market continues to be somewhat unsettled. Swedish shippers are firm in their prices for deals, but the White Sea exporters are said to be offering to accept a reduction of ten shillings per standard from late asking prices. This has led importers to look for a general decline in prices, and consequently buying is at a standstill. So far as Canadian deals are concerned, however, the market seems to be steady, al-

though the reports are rather contradictory. From one source of information it is learned that pine and spruce deals have been sold heavily at high prices, while another report states that contracting in pine goods for the coming season has been on an unusually restricted scale. The most reliable advice is to the effect that the quantity of pine and spruce placed with importers is slightly less than last season. Concerning spruce deals at Liverpool, a correspondent says: "The stock in this market is heavy, and the large shipments that have been coming forward have upset the calculation of a good many with regard to this class of timber. It would be an advantage to the trade generally if the import could be restricted, as sales are being made at low prices, and a weakening effect is the result."

STOCKS AND PRICES.

J. E. Moore & Company have completed sawing operations at Bonny River, N.B., having cut 1,200,000 feet of lumber.

Gibson Bros., of Wroxeter, Ont., are cutting a large quantity of maple rollers and 1½ inch square chair leg stock.

The W. & A. McArthur Company have put in 30,000,000 feet of logs during the past winter, and expect to operate their mill at Little Current, Ont., day and night this season.

Two tenders were received last week for the supply of lumber for the Board of Works, Hamilton. Brennan & Company tenderd at 17.51 per thousand, and W. J. McAllister at 17.15, the latter being accepted.

At Cleveland there is a scarcity of lath. No. 1 white pine is selling at $4, No. 2 white pine at $3.50, and hemlock at $3. The demand from country yards is fully one-third greater than at the same time last year.

The sale of the timber on Grand Island, in Haliburton county, is reported. Seven hundred acres are included in the deal, by which the Standard Chemical Company, of Fenelon Falls, get the maple, birch and beech, the Rathbun Company the cedar, pine, hemlock, and T. H. DeCew & Sons, Fenelon Falls, the elm, ash and basswood.

Fears are expressed for the British barque Elizabeth Nicholson, which sailed from New Westminster on November 26th last for Shanghai with 638,652 feet of lumber valued at $6,678.

The Georgian Bay Lumber Company, of Waubaushene, Ont., have closed a successful season's logging in the Blind River district. They have taken out upwards of 100,000 pieces, which will yield in the neighborhood of 11,000,000 feet.

The steamer Dundee last week completed loading 1,713,000 feet of lumber at Chemainus, B.C., for a foreign port. The German Barque Antuco is now loading lumber at Hastings mill, Vancouver, and the ship Anna is under charter to load at same point.

The Calhoun Lumber Company expect to cut during the coming season about 5,000,000 feet of spruce at their mills at Gaspe Basin, Que., about the same quantity at Calhoun, N.B., and about 3,000,000 feet at Albert, N. B. Practically all the stock will be for the British market.

A quantity of spruce deals, ex Grecian from Halifax, N.S., was sold by auction at Liverpool last week by Alfred Dobell & Company. The deals were 9 feet and up, and brought the following prices: 4 x 7, £7 5s per standard; 4 x 5, £7; 3 x 12 and up, £7 17s 6d; 3 x 10 and 11, £9; 3 x 9, £7 7s 6d; 3 x 8, £7 2s 6d; 3 x 7, £6 15s; 2½ x 7, £6 7s 6d; 3 and 2½ x 6, £6 15s; deal ends at £6.

A correspondent at Fort Frances, Ont., writes that Seaman & Company are finishing up their cut in the woods near that place. The cut of their different contractors will be about as follows: Tierney & Fraser, two camps, 5,000,000 feet logs, 25,000 ties, and a considerable quantity of piling 45 to 80 feet long; Bartley & Mosher, two camps, 300,000 feet logs, balance tamarac piling, 20 to 80 feet long; G. Franson, one camp, 200,000 feet logs and considerable piling. Seaman & Co. have moved one of their mills from Lake Shebandowan to Little Turtle Lake, and are taking 250,000 feet of lumber of last season's cut from their mill at Gash Point to stock their new lumber yard at Fort Frances, to supply the local trade. At Gash Point they have a stock of about 1,750,000 feet of lumber and timber.

The Shuswap Milling Company's saw mill at Kamloops, B. C., was destroyed by fire recently, at a loss of $30,000.

WINNIPEG LUMBER PRICES.

Following is the new retail price list for Winnipeg which went into effect March 1st, 1901:

DIMENSION NO. 1 PINE.

2x4 to 2x12, 6 and 8 ft., $16; 2x4, 10 ft., $22.50; 2x6, 10 ft., $19.50; 2x8 to 2x12, 10 ft., $19.50; 2x4 to 2x12, 12, 14 and 16 ft., $19.50; 18 ft., $21; 20 ft., $22.50; 22 ft., $23.50; 24 ft., $25; 26 ft., $26; 28 ft., $27,-50; 30 ft., $28.50; cull plank, all widths, $14.

FOR SALE.—36 in. Wickes Gang, cutting 14 in deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

PERSONS HAVING GOOD BEECH TIMBER Lands for sale are requested to send particulars of quantity, price and situation to the undersigned.
GORDON & SAMPSON, 157 Bay St., Toronto.

In the County Court of the County of Victoria and of the Provisional County of Haliburton.

In the matter of the tolls on South Creek, in the Provisional County of Haliburton, and in the matter of the Act for protecting the public interest in rivers, streams and creeks.

Upon the application of the Rathbun Company and upon reading the affidavit of William Barclay McMurrick filed, and upon hearing what was alleged by Council for the said Rathbun Company,

I do appoint **Friday, the twelfth day of April, A. D. 1901,** at the hour of eleven o'clock in the forenoon, at my chambers in the Court House in the Town of Lindsay, as the time and place to consider such application of the Rathbun Company to be allowed tolls for the use of and improvements alleged to have been done by them upon the said creek, and fix the amount thereof.

And I do direct that a copy of this Order and Appointment be served upon the Longford Lumber Company on or before the fifth day of April, A. D. 1901, and I do further direct that a copy of this Order and Appointment be published once in the CANADA LUMBERMAN, a newspaper published in the city of Toronto.

Dated at Lindsay this 27th day of March, A.D. 1901.

(Signed) JNO. E. HARDING,
Junior Judge County of Victoria.

The above Order is published by McMurrich, Hodgins & McMurrich, of Number 5 Melinda street, in the city of Toronto, Solicitors for the Rathbun Company, from whom all information in reference to the above application may be obtained.

McMURRICH, HODGINS & McMURRICH.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.

Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.

Lot 3.—The North-West Quarter of the Township, 9 square miles, more or less.

Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annually.

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

FOR SALE—ONE MILLION FEET GOOD White Pine Mill Culls, Dry. Address "OTTAWA," office CANADA LUMBERMAN.

FOR SALE.

15,000 feet dry firsts and seconds 2 in. maple. H. F. MILNE, Brown's Corners, Ont.

FOR SALE.

THIRTY-TWO INCH RUN OF STONE'S Swing Shingle Machine, Wheel Jointer, Lath Machine. Will exchange for lumber. R. J. DOUGALL, Hallville, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

With April at hand, the lumber trade may be expected to show signs of the activity resulting from the beginning of outdoor operations. This has been the case during the past week in a slight degree only, as in the northern sections of the province winter is still hanging on. The advent of warm spring weather will stimulate building. Architects have plans under way for numerous buildings to be erected in the cities, while in rural districts the usual volume of building is contemplated. The stock of lumber held by retail dealers is not large, and as their resources are drawn upon, they will be compelled to replenish their supply. Locally, the outlook is satisfactory, and judging from inquiries now coming in from the Eastern States, considerable stock will find an outlet there. The firmness which has characterized shingles and lath has been maintained, with prospects of higher prices before the new stock is available. Hardwoods are still dull. Ottawa dealers are paying $14 for mill run maple and birch, and $14.50 for basswood f.o.b. cars. Hemlock is worth from $8.50 to $10, the latter for 2 inch merchantable.

QUEBEC AND NEW BRUNSWICK.

The timber market at Quebec is quiet and prices unchanged. The local demand for timber at Montreal is being stimulated by the harbor improvements, while if the proposed elevators are proceeded with a considerable quantity of timber will be required. Quebec spruce is held at firm prices, but there is a weaker tone in respect to the Maritime Province production. Mr. R. A. Estey, of Fredericton, recently sold 3,000,000 feet of deals at $10.75 per thousand, while one year ago $11 was obtained for specifications of poorer quality. The situation is regarded as very uncertain. Operations in the woods have practically closed, and interest is now centred in the drives, which will commence very shortly.

MANITOBA AND BRITISH COLUMBIA.

Building operations in Winnipeg and throughout Manitoba and the Territories have commenced on a more active scale, and consequently dealers report an improvement in the demand for lumber. Manufacturers and wholesale dealers are receiving enquiries from retailers to an extent that indicates that the stocks of the latter are badly in need of being replenished. The city of Winnipeg is inviting tenders up to April 18th for the annual supply of lumber. British Columbia manufacturers are shipping quite largely to eastern points, and report a satisfactory volume of business.

UNITED STATES.

A feature of the United States lumber market is the extraordinary demand in some districts for doors and mill work. At Chicago several advances in the price of this class of stock have recently been made, but without having any appreciable influence in reducing the volume of trade. At North Tonawanda and Buffalo the sash, door and blind business is in a healthier condition than it has been for some time, and dealers report that they have been asked to figure on material for a large number of buildings to be built this year. The buying of lumber during the past week has been of moderate volume. Sales made by manufacturers have been at high prices, and a slight stiffening in the upper grades is reported. At Buffalo and other wholesale points there is a good demand for the better grades, but the poorer qualities are somewhat inactive, and prices are being cut in some instances about one dollar per thousand. No. 1 barn boards in 12 inch widths are selling in Saginaw at $23, and No. 2, 10 inches wide, at $18, as against $24 and $19 one month ago. Box lumber is also quoted a little lower.

Hemlock lumber is particularly strong. In New York the base price is $15, and in Buffalo $13, but it is expected that higher prices will rule before many weeks. In hardwoods the movement is not heavy. Basswood, which has been very strong for some time, is reported to be a little weaker on account of an unexpected supply of low grade stock offering, which has induced box-makers to experiment with the use of shipping and mill culls for their purposes. Less hardwood is expected to be shipped east from Michigan this year than usual. Lath are not offered freely. No. 1 white pine are held at $3 at Menominee, and the prospects are for a strong market on lath throughout the season.

GREAT BRITAIN.

The unsettled condition of the British timber market has been further intensified by the failure of a firm of merchants in London, by which a large number of brokers and agents were affected. It is now extremely difficult to effect sales, and the prediction is heard that the market is on the verge of a serious break. This is not the general opinion, however. That more business has not taken place is due to the firm position taken by shippers, who refuse to concede anything in the way of lower prices. Canadian goods have, under the circumstances, continued remarkably strong, and sales in pine and spruce are being made at high prices. The predicted fall in spruce, as a result of the large stock at some of the leading ports, has not taken place. Quebec spruce has maintained its value at about the opening prices of last year. There is no apprehension entertained by holders of these deals, except perhaps as regards 2 inch and 2½ inch stocks, which are moving rather slowly. The freight market is easier, with much less demand for vessels than was the case twelve months ago.

STOCKS AND PRICES.

At Minneapolis No. 1 white pine lath is quoted at $3.50 and mixed at $3.

R. J. Wilson has purchased the stock of lumber from T. A. Patrick, of Elgin, Man.

The barque Passeportout is loading lumber at Barnet, B. C., for Southern California.

Hemlock lath is selling in Pittsburg at $2.75 per thousand, a sharp advance over usual quotations.

The Rat Portage Lumber Company, of Rat Portage, Ont., are said to have taken out 50,000,000 feet of logs this season.

The Newville Lumber Company, of Newville, N. S., have taken out 72,000 logs during the past winter, as well as a quantity of spars, piling, and pit timber.

S. P. Benjamin, of Wolfville, N. S., has secured a large cut of logs this winter. He had nine camps on the headwaters of the Avon river, the total cut being 12,000,000 feet.

George E. Jackson, of Buffalo, has secured a contract to deliver a stock of about 1,500,000 feet of hemlock to parties in Montreal as soon as the lakes shall open. The stock is mostly 12 x 12 stuff, and comes from Alpena and other Lake Huron ports of Michigan.

The American Lumberman reports the sale by a Wisconsin mill of five car loads of Nos. 1 and 2 Norway piece stuff, to be delivered via the Canadian Pacific in Northern Ontario.

Elm timber, ex Florida, from Quebec, was recently sold by auction in London at the following prices: 34 pcs. 14-25 ft. 10-13 in., 50s per load of 50 cubic feet; 10 pcs. 13-20 ft. 13-22 in., 60s; 31 pcs. 11-24 ft. 10-20 in., 52s 6d.

Poupore & Malone have purchased 12,000,000 feet of hemlock, spruce and pine timber for the construction of the new pier to be erected ot Maisonneuve. In addition, they have on hand 1,000,000 feet of oak which will also be used for the work.

ST. JOHN LUMBER SHIPMENTS.

The following shipments of lumber by vessel were made from the port of St. John, N.B., for the week ending March 30th: Per schooner Frank W., for Boston—114,000 feet spruce boards, by Stetson, Cutler & Co. Per schooner G. Walter Scott, for Boston—98,183 feet spruce boards, by Andre Cushing & Co. —Per schooner Dunmore, for Cardiff, Eng.—1,196,892 feet deals, 117,464 feet scantling, 77,485 feet ends, by W. M. Mackay. Per str. Loyalist, for London—260 stds. of deals, 2,000 pieces elm lumber and 294 bundles hardwood lumber. Per Teelin Head, for Dublin—351,874 feet deals, by W. M. Mackay. Per str. Lake Champlain, for Liverpool—1,500 pieces maple blocks, by Mitchell Bros., 1,954 bales pulp, by Maritime Sulphite Fibre Co., 796,920 feet deals and battens, 9,207 feet scantling, 3,535 feet ends, 33,760 feet boards, 372 tons birch timber, by W. M. Mackay; 6,000 bundles box shooks, by A. Cushing & Co.; 10,660 maple blocks, by Troop & Son. Per sch. Annie Laura, for City Island, 132,222 deals, by Chas. Miller. Per sch. D.W.B., for Boston, 23,000 deals, 114,717 plank, 3,135 scantling, by A. Cushing & Co. Per sch. Jennie C., for Vineyard Haven, 135,643 plank, by Stetson, Cutler & Co. Per sch. Abbie and Eva Hooper, for City Island, 59,823 plank, 157,066 deals, 459,000 laths, by Stetson, Cutler & Co. Per sch. W. H. Waters, for Beverley, 79,406 pine boards, 24,053 do plank, 3,340 pickets, 20,256 spruce plank, 30,269 do scantling, by A. Cushing & Co. Per sch. Progress, for Boston, 103,262 boards, by Chas. Miller. Per sch. Veletta, for Boston, 141,611 boards, by Stetson, Cutler & Co. Per sch. Annie Harper, for Boston, 121,259 planks, 946 deals, 1,328 scantling, by A. Cushing & Co. Per sch. Swallow, for Salem f o, 561,000 laths, by Stetson, Cutler & Co. Per sch. Fanny, for Boston, 123,379 plank, 6,279 scantling, by A. Cushing & Co. Per sch. Pansy, for Boston, 111,706 boards, by Stetson, Culter & Co.

Jasper Martin's saw mill at Hillsdale, Ont., was destroyed by fire recently.

TIMBER SALE AT DUBLIN.

At an auction sale of wood goods held by Locke & Woods, Dublin, Ireland, on March 14th, Canadian deals, etc., bronght the following prices, per Irish standard:

QUEBEC SPRUCE DEALS.—12 ft. 9 x 3 in., £14 10s to £15; 11-12 ft. 10 x 3, £14 2s 6d; 13-16 ft. 8x3, £13 5s; 12 ft. 11x3, £14; 12-16 ft. 13x3, £13 10s; 12-15 ft. 14x3, £13 12s 6d; 12-16 ft. 14-18x3, £13 10s; 8-12 ft. 6-7x1½, £14 12s 6d; 12 ft. 5x2, £13; 12-16 ft. 5x2, £13 7s 6d; 16-23 ft. 5x2, £13 15s; 10-14 ft. 7x2, £23 12s 6d; 15-17 ft. 7x2, £13 7s 6d; 18-23 ft. 7 x 2, £14 5s.

DALHOUSIE AND ST. JOHN SPRUCE—10-22 ft. 9x2, £14 2s 6d to £14 15s; 15-22 ft. 7x4, £14 2s 6d; 15-17 ft. 8x4, £13 10s; 10-17 ft. 11x4, £14; 12-15 ft. 7x3, £13 2s 6d.

BAY VERTE SPRUCE—12 ft. 9x3 in., £13 7s 6d; 13-17 ft. 11x3, £13 2s 6d.

QUEBEC WHITE PINE BOARDS—12-16 ft. 10x1, 2½d per cubic ft.; 10-11x¾, 3d; 13 x ¾, 2¾d; 17-19x¾, 3d.

QUEBEC RED PINE DEALS— 14 ft. 9x3, £21; 9-16 ft. 7x3, £17; 18 ft. 7x3, £17 5s; 11-23 ft. 8x3, £17 10s.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE—14 ft. 8x3, £7 15s; 12 ft. 9x3, £13 15s.

THE BARBADOES MARKET.

Concerning the Barbadoes lumber market Messrs. Clairmonte, Man & Company say: "There is still a good demand for both spruce and white pine lumber. Latest local sales have been at $24 for merchantable white pine, $18 for second quality, $21.50 for merchantable spruce and $17.50 for second quality. Gaspe cedar shingles are in supply. The last arrival was 220 M, which we valued at $3.50. Last sales of cedar laying have been at $2.16, and spruce laying at $2.08."

The R. Laidlaw Lumber Company are reported to have made a charter of a vessel to carry lumber from Ashland to Buffalo at $2.25. A rate of $2.50 for first cargoes is being asked.

The suspension is announced of the Cheap Wood Company, Limited, of 72 Bishopsgate street, Within, London, E. C. The company handled all kinds of house building material, interior fittings, etc., and among the creditors are a number of lumber importers. The liabilities are stated to be £50,000, and the assets about £40,000. The firm of Thornham, Reynoldson & Company, of Hull, are also said to have made an assignment, with assets exceeding liabilities by about £10,000.

SHIPPING MATTERS.

The steamer Mavisbrock has been chartered to carry deals from Halifax, N.S., to w.c. England, at 43s 6d.

The schooner D. J. Melanson is loading lumber at Annapolis, N.S., for Porto Rico. The bark Frederica is loading at the same port for Havana.

The Trade Bulletin of Montreal reports the charter of a steamer to carry deals at 50s from that port to the United Kingdom, and several engagements by the regular liners at 46s 3d to 47s 6d.

The New Brunswick Government will offer for sale on April 10th a 2½ mile timber berth on the river George, a branch on the Nerepis river. The applicant is W.H. Woods.

Mr. R. Wells, saw mill, North Arm, B. C., has been succeeded by the South Vancouver Lumber Manufacturing Company, Limited.

—CORRESPONDENCE SOLICITED—

THR OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

The mill owners and jobbers in and about Ottawa are making preparations for a busy season. Navigation will be open on the Ottawa within three weeks, and on the Rideau canal by May 1st. Shipping will commence early on these waters, the English market especially requiring attention.

The past winter was a quiet one in local lumber circles. There has been little or no change in prices, which are firm and promise to continue so. Much of the stock to be cut in the mills in the Ottawa Valley and along the river during the coming season, has already been placed, part of it on the English market. In only one line is an over-production likely, viz., in spruce. During the long season on the limits, a greater amount of spruce than usual was cut. If this is all taken out a slump in prices would not be unlooked for. White and red pine, on the contrary, promise an advance in price, if change there must be. The foreign and local demand, small during the winter season, must necessarily strengthen as soon as building operations become general. Compared with the same period a year before, the past winter's business in hardwoods was small. The railway men and dealers, in fact all report a falling off in general shipments, but an improvement is imminent.

As mentioned before, there has scarcely been any change in manufactured lines. No. 1 lath are scarce, quoted at $2.50 to $3.00 per M, with No. 2 at $1.50 to $2.00. Pine mill culls are quoted at $11.50 to $12.50, with box culls at $12.50 to $14.50. Other lines of pine are unchanged.

The Hull Lumber Company will operate both the Ritchie mill at Aylmer and the Mason mill in Hintonburg during the coming summer. The former mill has been enlarged and refitted. New machinery has also been placed in the Mason mill. These improvements will provide for a larger output.

Last summer it was reported that a large saw mill would be erected at Deschenes, replacing the Conroy mill destroyed by fire in 1899. Mr. J. B. Fraser, it was stated, had the affair in hand. It is just possible that the mill may not be erected owing to a reported difficulty over the lease of the necessary water power.

Although the winter'soperations on many of the limits were brisk, on others the cut was smaller than usual. The St. Anthony Lumber Company only cut about 75 per cent. of its usual supply on the limits at Whitney. No logs were cut by the Allan Gilmour Company at Canoe Lake. All the Ottawa firms carried on extensive operations, however. Gangs of men are being sent up to work on the drives, which will start early.

J. R. Booth had a constant supply of logs for his mill all winter. These were brought by rail over the Parry Sound branch of the Canada Atlantic Railway from a spur line running to the limits. The mill was operated all winter. Part of the supply of logs was unloaded on the river ice ready for the saw.

Ex-Mayor Bingham has returned from the Gatineau district, where he was engaged superintending preparations for the Gatineau drive. He states it will be a large one this year. All the tributaries will carry large quantities of logs to the main drive.

The Hull Pulp Company, in which Hiram Robinson, H. K. Egan, W. C. Edwards and other lumbermen are interested, has commenced operations for the building of a large mill on the site of the Hull Lumber Company's mill. The ruins of the old mill are being cleared away and a cofferdam is being built. When the latter is completed the foundation work of the new mill will be started.

The will of the late Mrs. J. M. Currier, widow of the well known lumberman of that name, was recently entered for probate. The estate is valued at $108,000 and is divided amongst members of the family.

Work is well advanced on the third of the E.B. Eddy Co.'s paper mills. A large store room is also being erected near the mill. Work will shortly be commenced on the tub and pail and fibre ware factories. New offices are also to be erected on the site of the temporary ones east of Bridge Street.

McLaren & McLaurin, the mill owners of Templeton, are erecting five piers in the Ottawa River in a line from the north side of Kettle Island to the shore at the mill. These piers are being constructed for the purpose of holding the booms containing the logs. The cut at the mill will be a heavy one this season.

OTTAWA, April 1, 1901.

TOOL HANDLES WANTED.

The CANADA LUMBERMAN wishes to obtain for British importere, names and addresses of manufacturers and exporters of wrought hardwood and soft wood handles for tools, and such like Canadian goods ready for use. Persons engaged in this line will confer a favor by communicating with this office.

The assignment is reported of Mohr & Ryan, lumber manufacturers and general store keepers, Killaloe Station, Ont.

Jasper Martin's saw mill at Hillsdale, Ont., was destroyed by fire recently. There was no insurance.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., APRIL 10, 1901 No. 11

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

GEORGE & McGREGOR,
Killaloe Station, Ont.

Virgin Timber Berths

BY AUCTION

TOWNSHIP OF "ERMATINGER"

(North Shore of Lake Huron)

The Timber Licenses for the above Township will be offered for sale by Public Auction, on

Thursday, April 18th, 1901, at 2 p.m.

At the Board of Trade Rooms, Toronto,

subject to the terms and conditions which will be announced at the time of sale.

Lot 1.—The South-East Quarter of the Township, 9 square miles, more or less.

Lot 2.—The South-West Quarter of the Township, 9 square miles, more or less.

Lot 3.—The North-West Quarter of the Township, 9 square miles, more or less.

Lot 4.—The North-East Quarter of the Township, 9 square miles, more or less.

The Township of Ermatinger is one of the best berths in the province and can be cheaply lumbered. It has been recently examined for the owners by James Barclay, Cheboygan, and the estimates will be furnished to lumbermen who wish to examine the berths.

Terms of payment.—One fourth in cash at the time of sale, and the balance in one, two and three years with interest at 6 per cent. per annum, payable annually.

For further particulars and maps, apply to E. R. C. Clarkson, Ontario Bank Chambers, or to

PETER RYAN,
Toronto.

E. P. White has retired from the lumber firm of White, Rider & Frost, of North Tonawanda, N. Y., but the business will be continued as heretofore under the same name. Mr. White has formed the firm of White, Gratwick & Company, who have taken over the yard at North Tonawanda formerly occupied by Gratwick, Smith & Fryer.

The Timber Trades Journal announces the following late charters: Armenia, River du Loup, Que., to Hull, June or July, 48s 3d; Mavisbrook, Halifax to Glasgow, April, 42s 6d; two boats, Price's Mills to Cork, Dublin, etc., 47s 6d, June and July loading; Quebec or Montreal to West Hartlepool, 47s 6d deals, timber 70s; Quebec or Montreal to Hull, 48s 9d, 1,000 stds, June; West Bay to West Britain, early, 42s 6d; Halifax to Cardiff, Newport or Swansea, 45s.

CURRENT TRADE CONDITIONS.

ONTARIO.

Open weather has helped the lumber market during the past week, and from present appearances there will be an active spring demand for lumber for building and industrial purposes. White pine prices are being held very firm, with no probability of any weakening. Neither is it likely that a material advance in prices will be made, as such action might have the effect of curtailing the demand, and as the production during the coming season promises to be quite up to the average in quantity, it is thought a large consumption should be encouraged. Crop prospects at the present time are promising, and the agricultural community are likely to require considerable lumber for buildings and improvements. This prospective demand is evidently being anticipated by retail dealers, who are showing a disposition to replenish their stocks. Reports from the Ottawa valley tell of increased life in the lumber trade, with the prospect of an active season. The mills will shortly resume operations, although dry stock of the new cut will not be available for a couple of months. Lath and shingles have shown increased strength of late; offerings are quickly taken at current quotations, which would seem to indicate the probability of higher prices.

QUEBEC AND NEW BRUNSWICK.

There is still much uncertainty regarding the future of spruce deal prices. The shippers have not sold as much stock as in former seasons, and consequently have not contracted with manufacturers to the same extent. It is said that as a result some operators in New Brunswick will not drive their logs this spring, but will leave them on the landings. While the British market is unsettled, the usual quantity of lumber is likely to be marketed in South America, a number of vessels having been chartered for that trade, while a vessel has been engaged to take a lumber cargo from St. John to South Africa. Freight rates are easier, charters having been effected as low as 42 shillings from St. John to the United Kingdom. New Brunswick cedar shingles are steady, although not active, quotations being about $3 for extras, on Boston rate of freight.

A strike of surveyors at St. John has somewhat unsettled trade at that port. The surveyors asked for an increase from 5 to 7 cents a thousand on spruce, and from 8 to 10 cents on birch. Some of the shippers have acceded to the demands, while others have engaged non-union surveyors.

MANITOBA AND BRITISH COLUMBIA.

Within the last fortnight there has been a marked improvement throughout Manitoba and the Territories in the demand for lumber. The spring has opened out better than was anticipated, and building operations are in active progress. In Winnipeg a strike of carpenters is threatened, which would, of course, seriously affect the lumber trade, but if disturbances of this character are avoided, the season is likely to be one of considerable activity. Sash and doors are moving freely. In British Columbia the volume of lumber moving is satisfactory. A number of vessels are loading at the various ports for foreign destinations.

UNITED STATES.

The lumber trade is feeling the benefit of the active commencement of building operations, and during the past week there has been an exceptionally good demand for lumber for that purpose. Timber for railroad construction has also been purchased quite liberally. At Duluth and Minneapolis white pine prices are showing continued firmness; dry stocks are badly broken, and before the new cut is available will be almost completely exhausted. The only weakness pertains to the lower grades, and yet within the past fortnight an advance of one dollar per thousand has been made at Albany in the price of 1 x 10 and 12 barn stock. At Saginaw nearly all the dry stock has passed out of first hands. Spruce shows a degree of firmness quite equal to that of pine. The narrow widths are not as strong as the larger sizes, but unless there is an unusually large quantity placed upon the market present prices are likely to hold. Improvement in the hardwood trade is reported from the west, but the activity is not so pronounced in the east. No changes in prices have taken place, nor are any looked for in the immediate future. There is a good demand at Buffalo for birch, one dealer quoting $45 for red and $26 for white. There is an excellent demand in New York and some other eastern cities for hemlock, at the base price of $15. In Chicago dry hemlock is being offered at from $10.50 to $11.

The demand for shingles and lath is keeping in advance of the supply. Extra white pine shingles are held at $2.40, and white cedar shingles at $2.30, Chicago delivery. The best grades have within the past week been marked up 25

cents at Albany, making the quotations $4.50 to $4.75 for extra XXXX, and $3.50 to $3.75 for clear butts. In New York there has been a recovery in lath prices, which were weak during February and March as a result of large receipts. Few shipments are now being received, and a price from $3.50 to $4.00 is predicted.

GREAT BRITAIN.

It is difficult, from the varying reports which come to hand, to arrive at an understanding regarding the actual condition of the British timber market. One correspondent states that there is no evidence of a break in prices, while from other sources it is learned that little forward buying is being done by importers, and that the difficulty in closing contracts, except for the most favored stocks, is causing considerable anxiety to agents as to the disposal of goods for later shipment. Deal sizes seem to have maintained their position fairly well, but the narrow widths are difficult of sale. Scantlings have declined to £7 10s, a sharp reduction from quotations of a few months ago. Such buying as has taken place has been largely at the public sales, the prices of which merchants are unable to compete with. At a recent sale two lots of 3 x 11 inch s cond quality white pine sold at £20 5s and £20 10s per standard. At Liverpool and Glasgow spruce deals are very quiet, and are being sold at prices considerably under those that have prevailed for some time past. Sales of waney boardwood have been made at satisfactory prices.

The financial aspect is occasioning some uneasiness in Great Britain, and is exerting a depressing influence for the time being on the timber trade. It is not thought, however, that any serious money stringency will be experienced.

STOCKS AND PRICES.

At Bangor, Me., $2.75 is being asked for spruce lath in cargo lots.

The city of Winnipeg is inviting tenders up to the 18th inst. for annual supply of lumber.

No. 1 white pine lath are being sold at $3.40 to $3.50, Chicago delivery. No. 2 which are in very active demand, are quoted at $1.85 to $2.25.

Angus Robertson, superintendent of Mather's tie camps at Vermillion Bay, Ont., reports that 290,000 ties were taken out during the past winter.

The St. John Sulphite Fibre Company, of St. John, N. B., have purchased about 2,000,000 feet of spruce logs for pulp purposes in the vicinity of Loch Lomond.

Dobell & Company, of Quebec, have been awarded the contract for supplying the Imperial Government with the Canadian timber required during the year.

The city council of St. John, N.B., have accepted the tenders of J. R. Warner, Murray & Gregory and J. A. Gregory for supplying spruce paving blocks, at 50 cents per yard.

In the Wanted and For Sale Department of this issue Messrs. George & McGregor, of Killaloe Station, Ont., offer for sale 5,000 cedar telephone poles, from 25 to 45 feet in length.

The ship Admiral Tegetthoff sailed last week from Moodyville, B.C., for Antofagasta, Chili. She was loaded by Robert Ward & Company with 800,000 feet of lumber, valued at $6,857.09.

The Algoma Central Railway Company, of Sault Ste. Marie, Ont., are prepared to let contracts for taking out and manufacturing into lumber the pine and hardwood timber along the railway.

Word has been received at New Westminster, B.C., that the barque Elizabeth Nicholson, which loaded lumber at the Royal City Mills and sailed for Shanghai on November 16th, has arrived, being long overdue.

Concerning the Barbadoes lumber market Messrs. S. P. Musson, Son & Company say: The only arrival is the Emma E. Potter, with 33 M white pine and 84 M spruce. The former was sold at $18. Two small cargoes are reported on the way.

The barque Frederica loaded lumber last week at Annapolis, N. S., for Cuba. The schr. J. D. Melanchon sailed from Digby with lumber for Porto Rico. The schr. Ida M. Shaffner is loading lumber at Bear River, N.S., for Cuba, on account of Clark Bros.

First-class elm flour barrel staves and coiled hoops are quoted in Buffalo at $8 to $8.25, and basswood heading at 6 to 6¼ cents. In Philadelphia 12 inch No. 2 and 3 pine and 6 inch No. 2 pine have been marked up 50 cents. There is a scarcity of 12 inch boards.

At the annual meeting of the St. John Log Driving Company held at Fredericton, N.B., on April 3rd, it was stated that the season's lumber cut on the St. John River and tributaries was estimated at 140,000,000 feet. Of this quantity 90,000,000 feet was cut above Grand Falls, 10,000,000 feet on the Aroostook, and the remainder on the Tobique and other points below the Falls.

The Department of Interior at Ottawa invites tenders up to May 6th for licenses to cut timber on a 32 square mile berth commencing at the junction of the Carrot river with the North Saskatchewan river, a twenty-five mile berth in the vicinity of Muskeg Lake, and a fifty mile berth bounded on the west by Crooked river and on the south by Red Deer river, in the North-West Territories.

BRITISH TIMBER SALE.

The following prices were realized for Canadian deals, etc., at an auction sale held by Churchill & Sim, London, England, on March 21st:

PINE.—Ex. Nenedes, from Montreal—14-16 ft. 2x12 in., second quality, £13 to £13 10s per standard; 13-16 ft. 1x12, £11; 12-15 ft. 1x12, £11 5s; 12 ft. 3x11 in., third quality, £12 15s; 13 ft. 3x11, £13; 12 ft. 3x7-10, £11; 10-11 ft. 3x10, £11; 10-11 ft. 3x9, £10 15s; 10-11 ft. 3x7, £10 15s; 15-23 ft. 4x11, first quality red, £16 15s; 14-18 ft. 3x11, £15; 12-24 ft. 3x9, £16 15s; 12-18 ft. 3x7, £11 15s; 13-24 ft. 4x11 in., second quality red, £13 5s; 12-25 ft. 4x11, £13 15s; 12-18 ft. 3x9-11, £11; 17-24 ft. 3x9, £7 5s; 16-21 ft. 3x9, £11 10s; 12-18 ft. 3x7, £9 5s. Ex Montreal, from Montreal—13 ft. 3x11 in. second quality, £19 5s; 13 ft. 3x11 in. third quality, £12 15s to £13 5s. Ex. Hiso, from Montreal—14-18 ft. 4x11 in. third quality red, £11; 12-18 ft. 4x9, £11 5s; 13-18 ft. 3x11, £9 15s; 12-18 ft. 3x9, £9 10s; 13-18 ft. 3x9, £9 15s; 12-18 ft. 3x7, £8 15s.

SPRUCE—Ex. Thomas Perry, from West Bay, N.S.—13-22 ft. 3x11 in. unassorted, £8; 13-24 ft. 3x10, £8 5s; 15-25 ft. 3x9, £7 15s; 13-21 ft. 3x8, £7 5s; 13-23 ft. 3x7, £7. Ex Oceano, from Quebec—13-14 ft. 2x7 in. third quality, £8 5s; 12-13 ft. 2 x 6, £7 15s; 12-13 ft. 2 x 5, £6 15s; 9-11 ft. 2x8, £8; 9-11 ft. 2x7, £7 15; 10-11 ft. 2x6, £7 5s; 10-11 ft. 2x5, £6 15s.

THE BOSTON MARKET.

The request for spruce lumber is good and continues to improve. The mills that are sawing are few, and that makes a strong market for those that are able to saw. Here the demand is really good for the season, and likely to improve. Frames are yet quoted at $17, but quick deliveries cost more. The advance on randoms is still held: Ten and 12 inch dimensions, $18 to $19; 9-inch and under, $17 to $17.50; 10 and 12 inch random lengths, 10 feet and up, $17.50 to $18; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, ten feet and up, $15 to $16; all other randoms, 9-inch and under, 10 feet and up, $15.50 to $17; 5-inch and up, merchantable boards, $15 to $16; matched boards, $17 to $18; out spruce boards, $12.50; bundle furring, $14.

A small amount of hemlock lumber is still coming forward, with the demand better: Pennsylvania, No. 1, $16 to $16.25; No. 2, $14 to $14.50; eastern Pennsylvania boards, $14.50 to $15; random, $13.

Western pine is firm, with a fair request: Uppers, 1 inch, $58 to $62; 1¾ to 2 in., $63 to $64; 3 and 4 in., $68 to $72; selects, 1 to 4 in., $52 to $64; fine common, 1 to 3 in., $45 to $60; sheathings, $38 to $54; barn boards, $25 to $30; coffin boards, $23 to $25.

Clapboards are steady in prices, with a limited supply. The demand is still moderate: Extra spruce, $30 to $31; clear, $28 to $29; second clear, $25 to $26; pine, extra, $36 to $38; clear, $33 to $37; second clear, $28 to $30.

Shingles are very firm, with prices considerably irregular, especially on second clears. The supply is limited, and high prices are obtained for just such lots as are wanted: Extra cedar, $2.85 to $3; clear, $2.60 to $2.70; second clear, $2.05 to $2.25; clear white, $2; extra No. 1, $1.90; Washington and British Columbia, 16-inch, 5 butts to 2 inches, $3.15 to $3.20.

Laths have made another upward turn in New York, and have sold at very full prices. Here the market is firmer: Here, 1⅝-inch, $2.90 to $3; 1½-inch, $2.65 to $2.75.

Boston, April 6th, 1901.

The Sheppard & Morse Lumber Company, of Boston, will establish a lumber yard in New York.

—CORRESPONDENCE SOLICITED—

THE GLASGOW MARKET.

Messrs. F. A. Lightbody & Company send us the following review of the Glasgow timber market for March :

A fair amount of business was done during the month, though buyers were not inclined to purchase large quantities at a time, preferring rather to buy for immediate requirements. Prices remain firm, but buyers are still cautious, apparently fearing the possibility of a break in values, of which there is not the slightest evidence.

Up to date a much smaller amount of business has been done in goods for forward delivery than was the case last year, owing to the high prices asked by the shippers. The Clyde shipbuilders are still busy, and the housebuilding trade shows signs of greater activity.

WANEY BOARDWOOD.--For first-class wood the prices are high, and prospects look bright.

WHITE PINE DEALS, 3 AND 4 INCHES AND UP.—A good demand for all grades of deals keeps up prices, and parcels arriving are being sold from the ship's side. The following are the prices :

1st quality,	12 in and up....	$65.00 to $71.00	per M.
"	"	11 in.....	56.00 to 61.50	"
"	"	10 in. and under	47.00 to 55.50	"
2nd	"	12 in. and up..	50.00 to 55 00	"
"	"	11 in.....	43.00 to 49.50	"
"	"	10 in. and under	37.00 to 40.00	"
3rd	"	12 in. and up..	37.00 to 40.00	"
"	"	11 in.....	31.50 to 33.50	"
"	"	10 in. and under	25.50 to 27.00	"

WHITE PINE SIDINGS.—The demand for prime first-class quality is good and prices remain high.

2 in. thick,	average 12 in. wide...	$52.00 to $55.00
1½ in.	"	"	"	"	... 50.00 to 52.50
1¼ in.	"	"	"	"	... 41.50 to 43.50

1¼ in. is a size which moves slowly in this market.

RED PINE DEALS. (Norway pine.)—Prime deals have met with a ready sale and prices are high for really first-class lumber.

SPRUCE DEALS.—The demand is good and arrivals just now meet with a ready sale at good prices.

QUEBEC BIRCH LOGS.—A few sales have been made at 18d. to 19d. per cubic ft. for 16 in. average wood.

Do not neglect to read the advertisements in each issue of the WEEKLY LUMBERMAN. They contain much of interest.

ST. JOHN LUMBER SHIPMENTS.

The following shipments of lumber, etc., by vessel were made from the port of St. John, N. B., for the week ending April 6th :

Per str. Norden, for London—By A. Cushing & Co., 489,408 ft. deals, 86,779 ft. scantling, 56,887 ft. boards, 37,965 ft ends ; by George McKean, 98,724 ft. pine deals, 26,959 ft. scantling, 2,675 ft. ends, 66,166 ft. red pine deals ; by Jarvis Wilson, 157 tons birth timber ; by Cushing Sulphite Fibre Co., 612 tons wood pulp. Per str. Manchester Importer, for Manchester—814,541 ft. deals, 7,363 ft. scantling, 55,454 ft. ends, 78,226 ft. boards. Per Laka Megantic, for Liverpool—By W. M. Mackay, 356,588 ft. deals and battens, 663 ft ends ; by Mitchell Bros., 3,000 maple blocks ; by Troop & Son, 201 birch poles, 3,684 bundles box shooks, 17,218 maple blocks. Per str. Manchester Commerce, for Manchester—By George McKean, 927,890 ft. deals, 45,257 ft. ends, 52,044 ft. scantling, 8,460 ft. boards; by Furness, Withy & Co., 20,000 ft. maple flooring. Per Alcides, for Glasgow—By A. Cushing & Co., 1,680 bundles box shooks ; by W. M. Mackay, 124,869 ft. deals and battens, 467 ft. scantling, 17,853 ft. ends ; by Schofield & Co., 2 bundles box shooks, 268,945 feet deals. Per sch. Pardon G. Thomson, for New York—By John E. Moore, 968,100 laths. Per sch. Morancy, for New York—By A. Cushing & Co., 133,607 ft. plank, 42,787 ft. deals, 35,156 ft. scantling. Per sch. Ayr, for City Island—By Stetson, Cutler & Co., 159,916 ft. deals. Per sch. Carrie C. Ware, for Bridgetown—By A. Cushing & Co., 113,547 ft. deals, 87,468 ft. plank. Per sch. Mystery, for St. Vincent, Cape de Verde Islands—By Stetson, Cutler & Co., 46,088 ft. spruce boards, 60,228 ft. spruce scantling, 20,761 ft. plank, 250,000 laths. Per sch. Genesta, for Vineyard Haven—By Stetson, Cutler & Co., 586,000 laths ; by Chas. Miller, 85,000 laths. Per sch. Ettie, for New Haven—By A. CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., APRIL 17, 1901 NO. 12

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount o. 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

About 3½ million feet of White Pine, mill run. ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

WANTED—HORIZONTAL ENGINE, 14 to 16 cylinder, for saw mill. Also Boiler, head block, modern type; 50 inch. Replyto L 24, P. O. Vancouver.

FOR SALE—ONE GERLACH CYLINDER Stave Saw (2nd hand); one Crossley Double Wheel Stave Jointer (2nd hand). Both for tight work. E. C. BRADFORD, 71 Buhl Blk., Detroit, Mich.

HEAVY PLANER, MATCHER AND MOULDer, in good order; cheap for cash. J. S. FINDLAY, Owen Sound.

FOR SALE—LARGE INTERIOR FINISH Plant. Adjacent to New York. Immense trade, best railroad facilities, modern equipments. Will sell, or assist competent man with capital to form company. Want to close Estate. Address L. M. HEWIT, Trustee, 597 Ellicott Square, Buffalo, N. Y.

CURRENT TRADE CONDITIONS.

ONTARIO.

As the mills throughout the province will shortly resume operations for the season, and piling room will be required, it might be expected that lumber prices would show a tendency to weaken. Up to the present there have been no indications of weakness either on the part of manufacturers or dealers. It seems to be the general opinion that all the lumber now in stock, as well as that to be manufactured, will be required for local consumption and export, and that there is no necessity of lowering prices in order to encourage the demand. The increased cost of producing lumber is also a factor in the situation. The outlook at the present time is for a prosperous season. There is exhibited in the trade a more marked degree of confidence than has been the case for some time. Building is opening up very satisfactorily. In Toronto the new palace hotel on King street, which is to cost nearly $1,000,000, and the residence of Mr. A. E. Kemp, M.P., in Rosedale, to cost upwards of $50,000, are the most important undertakings so far contemplated this season. The lumber required for these buildings will be chiefly for interior finish.

In hardwoods the demand is showing a slight improvement, and considerable shipments are being made to the Eastern States. There is a fair stock of maple, birch, and elm at the mills and in dealers, hands, but in a few weeks of good trade this would soon be worked off. As has been previously stated, black ash and basswood are scarce and meet with ready sale. For mill run basswood $13 is being asked at the mill. Hemlock is also moving quite freely.

The lath and shingle situation has not changed. It is still characterized by an unusual degree of strength, with prospects of higher prices in the near future. At the mills No. 1 lath is quoted at from $2.50 to $2.75.

UNITED STATES.

For the week ending April 6th the number of permits issued in Greater New York was 470, representing an investment of nearly seventeen million dollars. These figures surpass anything in the history of the city, and are looked upon as an indication that building operations this year will be exceptionally heavy. The lumber market has gained in strength during the past week. A shortage in certain stocks has developed at Buffalo and Tonawanda, and at the mills in the Lake Superior district and in the Southern States dry stocks are badly broken. There is a shortage of practically everything in white pine but No. 4 boards and some sizes of dimensions. Much of the pine to be cut this season has already been contracted for, and it is now almost certain that there will be no decline in prices. In the Saginaw valley there is a scarcity of good lumber, and until navigation is open such stock will bring almost any price that is asked; consequently quotations vary very widely. For inch uppers as high as $56 has been asked, but sales have been made below this figure. Barn boards also are strong, some dealers quoting as high as $27 for 12 inch No. 1. The movement in hardwoods has not increased materially, although prices are a little stiffer. It is said that all the basswood and elm lumber to be manufactured this year on Menominee river has already been contracted for. Birch and maple, on the other hand, are inclined to be waak, the former being somewhat of a drug upon the market. Spruce is selling well, but without resulting in advanced prices. Spruce clapboards are not showing the same degree of strength as other lumber, prices being about what they were two years ago. Shingles of all kinds are strong. White pine, 18 inch, are selling at Saginaw at $3.75. The cut of last year has been exhausted for some time. For 16 inch pine, XXXX, $3 is asked, and for best quality cedar, 18 inch, $3.25, and for clear butts $2.25.

QUEBEC AND NEW BRUNSWICK.

Several representatives of Quebec shippers have reached home, after having closed as many contracts as possible with British importers for the coming season's shipments. It is understood that about the average quantity of timber has been placed, but the quantity of deals shows a decrease from last year. Third and fourth quality pine have been taken more freely than the better qualities, the reason for this, according to the Timber Trades Journal, being that the system of grading recently adopted in the Ottawa Valley is not approved of by British importers. This opinion, however, is not accepted by the trade on this side. Fourth quality pine is said to have been placed at $20 per thousand f.o.b. vessel. Waney pine has been disposed of at about 50 cents per cubic foot for 19 inch. Sales of Quebec oak have also been made at high prices. New Brunswick spruce is inclined towards weakness. It is the general opinion that unless manufacturers hold their stock, prices are likely to decline. The cut of spruce on the St. John River is about as heavy as last year, and on the north shore the output is less. Clapboards, laths, and shingles are selling in moderate quantities to the Eastern States. For best cedar shingles $3 is asked, but sales are still being made by small dealers at $2.90.

GREAT BRITAIN.

At this season of the year, when new goods are about to arrive, considerable interest attaches to the stocks of lumber on the public docks at the leading ports. Taken as a whole, the figures are not very encouraging, as at London, for instance, the stock is over 19,000,000 pieces, compared with 14,000,000 pieces one year ago. Canadian timber, however, makes a more satisfactory showing, although in most cases the stocks are in excess or last year. At London the stock of pine deals and battens is 892,000 pieces, against 904,000 pieces one year ago. Of spruce deals the quantity is 1,100,000 pieces, exactly double that of last year. At Liverpool Quebec pine deals are about 2,000 standards heavier than last year, bu spruce deals are slightly less. This does not apply to the Maritime spruce, which is 16,700 standards, or twice that of last year. Glasgow has a stock of 12,668 standards of pine and spruce, compared with 15,193 standards on April 1st, 1900. The decrease is in pine deals. London has a larger stock of oak, birch, elm, ash and pine timber; while at Liverpool elm, birch, and red and square pine are in heavier stock. waney pine, oak, and ash being slightly less. In view of the condition of stocks, it has been found very difficult to effect sales from the coming season's imports. The price of Canadian lumber is being kept up by the strong position taken by shippers, who are holding their stocks rather than sacrifice them. First quality Quebec spruce is selling at an advance of last year's prices, but for second quality there is little demand. In timber, birch and ash have declined slightly in price.

The barque Senator has just loaded lumber at Chemainus, B. C., for the United Kingdom.

STOCKS AND PRICES.

For box lumber about $15 is asked at Chicago. There is little Norway stock in first hands and it is held at $14 and higher.

The barque Frederica sailed from Digby, N. S., for Havana, Cuba, last week, with 450,000 feet of lumber, shipped by Pickels & Mills.

The Gravel Lumber Company, of Etchemin, Que., have chartered the brigantine Bahama to carry box shooks to the Canary Islands.

The quantity of logs cut on the Tobique river, in New Brunswick, during the past winter was 15,000,000 feet, compared with 22,000,000 feet one year ago.

Hemlock piece stuff is quoted in Chicago in cargo lots at $9.25 to $9.50 for short and $10.50 to $11 for long; white pine piece stuff carrying 8 per cent. of 12 inch at $13.

It is understood that the Parry Sound Lumber Company will operate their mill at Parry Sound day and night during the coming season, and that 35,000,000 feet is the anticipated cut.

The Rat Portage Lumber Company, of Rat Portage, Ont., have over 50,000,000 feet of logs for the coming season's sawing operations. Of this quantity 25,000,000 feet were cut on the American side.

White pine lath are scarce and firm in Chicago, the quotation being $3.40 to $3.50 for No. 1, and $2 to $2.25 for No. 2, delivered. White cedar shingles are selling in cargo lots at $2.30, f.o.b. Chicago.

The barques Antuco and Falls of Garry and the ship Prince Albert are loading lumber at the Hastings mill, Vancouver, B. C., for foreign destinations. The ship Anna is loading at Moodyville, and the barque Passe Partout at Barnet, B. C.

The Pigeon River Lumber Company, of Port Arthur, Ont., have purchased from the American Realty Company, of Milwaukee, $17,000 worth of pine timber limits on the Pigeon River north-east of Duluth. The timber will be sawn at their mill at Port Arthur.

Wholesale quotations for shingles in the Saginaw valley are as follows: Pine, 18 inch, $3.50 to $3.75 for xxxx grade, $2.50 for clear butts; 16 inch, xxxx grade $3.00, extra A, $2.15; clear butts, $1.75; 16 inch cedar, $2.35; extra A, $2.10; 16 inch clear butts, $1.50.

The H. A. Clemens Company, of Guelph, Ont., have recently contracted with mills on the Georgian Bay for over 1,000,000 feet of dry white pine lumber and several thousand feet of hemlock. The Clemens Company are given greater attention to the wholesale trade.

F. H. Todd & Sons, of St. Stephen, N. B., lost a large number of logs by the breaking of a boom last week, when the St. Croix Valley experienced one of the greatest floods known for years. Some of the logs were recovered, while others were carried out to sea.

Simms Bros., of Little Current, Ont., took out a considerable quantity of white and red pine during the past season from the R. C. Lippincott limit which they purchased last fall. They have arranged to have the white pine sawn by J. & T. Conlon and the red pine by A. A. Ryley.

At an auction sale held by Churchill & & Sim, London, Eng., on April 3rd Canadian spruce brought the following prices: Quebec spruce—10-13 ft. 3x7-11 in. unassorted, £7 10s per std; 10-14 ft. 2x7, £8 5s: 12-14 ft. 3x9 third quality, £9 5s. St. John spruce—9-23 ft. 3x7 in. unassorted, £7 15s.

Canadian lumber manufacturers who are in a position to cut stock for the British market are asked to communicate with the importers and brokers whose announcements appear in the weekly edition of the CANADA LUMBERMAN. Many importers and brokers are desirous of importing direct from the manufacturers.

Concerning the demand for Canadian timber, Messrs. Denny, Mott & Dickson, of London, England, say: The demand for the first three months of the year has been quiet, but prices of waney pine, oak and elm have all markedly advanced, owing to the small stocks in Canada having enabled shippers to command their own terms for the inadequate quantity which can be spared for this year's shipment to Europe. Merchants here have no alternative but to submit, or step aside from trading in Canadian woods. It is, however, fairly certain that if Canada and America require these for their home consumption, Europe will have to be contented with cheaper substitutes.

The importation of oak planks into Liverpool, Eng., during March was 203,000 feet, and the consumption 191,000 feet, leaving a stock of 150,000 ft., compared with 91,000 ft. on March 31st of former two years. Elm is held on a very much larger scale than usual, and there has been only a moderate call for it. The consumption of birch logs exceeded the importation by 5,000 ft., but the stock is too large, viz., 109,000 ft., seeing that 58,000 ft. and 75,000 ft. were the last two years' holdings in that market. The stock of birch planks is 167,000 feet.

SHIPPING MATTERS.

The Williams Line, of Albany, has announced its opening rate on lumber at $2.50 from Ottawa to New York, which is a reduction of 50 cents from the closing rate last fall.

The following charters are reported: Barque Africa, Bear River, N. S., to Buenos Ayres, lumber, $11; Rosaria, $12; barque Lillian, Tusket Wedge, N.S., same destination and terms.

The Timber Trades Journal reports the following charters: Mavisbrook, Campbellton, N. B., to Tyne, Sunderland or West Hartlepool, deals, 48s 9d, June loading; 1,700 stds, Miramichi, N. B., to Liverpool or Manchester, 48s 9d; 1,850 stds, Quebec or Montreal to e. c. England, deals, 47s 6d, timber 70s; 600 tons, Pugwash, N. S., to U. K., 50s; 307 tons, Cape Tormentine to w. c. England, 47s 6d, or e. c. Ireland 50s.

FIRES.

The large saw mill of the Conger Lumber Company at Parry Sound, Ont., was destroyed by fire on April 10th. The brick boiler house and some of the tramways were saved. The loss is $50,000, partially covered by insurance.

WHITE PINE PRICES.

While there has been on the whole a steady market in cargo lots of white pine at great lake manufacturing points, the last two or three weeks, says the American Lumberman, have been the first to demonstrate a positive and marked advance in the price of lumber. Now it is stated that in the Ashland and Duluth districts actual selling prices are from $1 to $1.50 higher than last fall, thereby justifying the owners of these stocks in the policy they adopted of holding their lumber rather than sacrifice anything in price. This $1 or $1.50 amply repays them for their investment and risk and carrying charges.

This actual advance in values comes as a result of a long period of steady though rather quiet buying which has pretty nearly cleaned out the available [illegible] Lake Superior and at other points, and has made great inroads on the product of the coming sawing season. Buyers have awakened to the fact that dry lumber is practically out of the market and that the field for buying operations hereafter has been decidedly narrowed by the heavy purchases and contracts that have been made. Within the last two or three weeks a number of complete cuts have been contracted for, the most part by people who want the lumber and will not put it on the market in round lots, except possibly as to certain portions which they may not need. In this advance the lower grades have been the chief gainers and even mill culls have steadily gained in value.

The interior mills of Wisconsin and Minnesota are showing the effect of the good winter's trade. This is particularly true of Wisconsin, where it is said piece stuff is getting decidedly scarce, so much so that isolated manufacturers find it almost impossible to fill some of the orders they get, while those at recognized milling points are able to do so only by piecing out with their neighbors. But even so it is going to be difficult to buy assorted carloads of piece stuff.

Under these conditions it seems likely that the anticipations of the manufacturers of a further increase in price before the new cut shall be ready for the market will be realized, yet a conservative policy will be pursued, and in white pine as in yellow pine probably the official lists will not more than keep pace with the natural movement, and there will be no radical advances to frighten buyers and check consumption.

Better grades of hardwoods, says the American Lumberman, are selling more freely at North Tonawanda than the inferior items, the latter of which are reported somewhat short owing to unusually good sales earlier in the season. Sales of quartered oak, which had been small for a month or more, are picking up again. Prices are holding firm along the line with a rising tendency.

Do not neglect to read the advertisements in each issue of the WEEKLY LUMBERMAN. They contain much of interest.

WANTED

Hardwood Lands in Ontario and Quebec.

Freehold Lands suitable for Pulp Manufacture in Quebec or the Maritime Provinces.

As I give special attention to

—CORRESPONDENCE SOLICITED—

CONDITIONS AT LIVERPOOL.

Messrs. Farnworth & Jardine, in their wood circular of 1st April, review the Liverpool market as follows :

The arrivals from British North America during the past month have been 4,878 tons register, against 6,180 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1899, 1900 and 1901 has been 50,896, 55,847, and 49,997 tons respectively. The dullness in our market reported in recent circulars still continues ; the arrivals have been in excess of the requirements of the trade, and the deliveries, generally, have been unsatisfactory. There is not much change in values to report, but great difficulty is experienced in maintaining prices.

CANADIAN WOODS. — Waney pine.—A fair number of contracts have been arranged for next season's delivery, and prices have been well maintained. Square pine is little enquired for and the present stock is quite sufficient. OAK.— The deliveries have been on a very moderate scale ; values are unchanged and the stock is sufficient. Elm has been in dull demand; prices, however, continue firm, but the stock is heavy. ASH.—The import has been on a large scale, entirely from the United States ; the demand has been good, during the past month have again been too heavy, and all by the liners, viz., 2410 standards. The demand is quiet and the stock too heavy ; contracting for next season still continues very difficult.

BIRCH.—Logs have been imported much too freely, and although the deliveries have been fair, prices have given way very considerably. The stock is too heavy. Planks have come forward more moderately than at this time last season. There is a fair enquiry, but prices have again slightly given way ; the stock is much too heavy.

OREGON AND BRITISH COLUMBIAN PINE. —Oregon pine has not been imported ; there is rather more enquiry, and the stock is now reduced to a moderate compass.

Following are current quotations : Quebec square pine, 1s 3d to 2s 9d per cubic foot ; waney pine, 2s 2d to 2s 10d; St. John pine, 18 in. average, 1s 6d to 2s 2d ; Dalhousie, &c., 2s 3d to 1s 8d. Red pine, 1s 5d to 1s 10d. Oak, 1st quality, 2s 9d to 3s; 2nd quality, 1s 6d to 2s. Elm, 2s 9d to 3s. Ash, 1s 8d to 2s 3d. St. John birch, 1s 4d to 1s 8d ; Quebec birch, 1s 4d to 2s ; Nova Scotia birch, &c., 1s 2d to 1s 6d. Birch planks, 11d to 1s. Spruce spars, 10d to 1s. Quebec pine deals, 1st quality, £22 to £28 per standard ; 2nd quallty, £18 to £21 ; 3rd quality, £12 to £13 10s.

The following figures show the comparative import, consumption and stock :

	IMPORT from 1st Jan. to 31st Mar.		CONSUMPTION from 1st Jan. to 31st Mar.		STOCK on 31st Mar.	
	1900	1901	1900	1901	1900	1901
Quebec Square Pine..... cubic feet	Nil.	Nil.	67,000	61,000	52,000	68,000

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., APRIL 24, 1901 No 13

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount o. 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

FOR SALE.

About 3½ million feet of White Pine, mill run. ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

FOR SALE.—36 in. Wickes Gang, cutting 14 in deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

FOR SALE—ONE MILLION FEET GOOD White Pine Mill Culls, Dry. Address "OTTAWA," office CANADA LUMBERMAN.

WANTED.

THE OLIVER LUMBER COMPANY, OF Toronto, Limited, want to purchase Elm, Ash and Basswood. Send quantity and price to 34 Canada Life Building, Toronto.

FOR SALE.

A LARGE QUANTITY OF GOOD SOUND Tamarac lumber in standard sizes, 2x4, 2x6, 2x8, etc.; Dimension timber, 16 ft. long, 4x4, 4x6, 6x8, 8x8, etc. Also other sizes cut to order. Apply to EDWARD LLOYD, Limited, Sturgeon Falls, Ont

WANTED

GREEN HARD MAPLE SQUARES, 6½ x 6½ in., 12 feet and up. Cash on delivery at any station in Ontario or Quebec. Address Box 40, CANADA LUMBERMAN.

White Pine for Export.

Correspondence with reliable saw-mill concerns with large steady stocks—specially good shelving grade.
"EXPORTER,"
10 Wall Street, New York City.

Telephone Poles for Sale.

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths from 25 to 45 feet. Quotations given by mail or wire on application.
GEORGE & McGREGOR,
Killaloe Station, Ont

CURRENT TRADE CONDITIONS.

ONTARIO.

In the outlook for building operations throughout the province is found one of the strongest indications that there will be a heavy consumption of lumber this year. Not for many years have Toronto architects been as busy at this season of the year in the preparation of plans for buildings. While in the cities there is likely to be an average volume of building, it is noteworthy that much of the work now in the hands of architects is for buildings in the towns and villages. This, it might be said, is an advantage to the lumber trade, inasmuch as most of the buildings will be of the cheaper class, and in their construction the common grades of lumber mostly will be used. Although stocks of white pine are by no means heavy, the bulk of the supply is of the lower grades which will be benefitted by this cheaper class of construction. One or two reports have been received of a slight weakness in the lower grades, but this condition does not seem to be borne out by the statement of our Ottawa Valley correspondent that $13 has been offered within the past fortnight at Ottawa for mill culls. In the Georgian Bay district inch mill culls sidings range from $11 to $11.50 at the mill, and 1 x 10 and 12 mill culls from $12 to $12.50. The hardwood trade is featureless. Buying is still limited, but mauufacturers are holding to their level of prices, which they believe to be warranted by the cost of production. Some dealers report fewer enquiries for basswood, the reason for which may be that on account of the scarcity of that lumber, consumers are using substitutes as far as possible. Although there is a considerable supply of elm, some difficulty is reported in obtaining the grades and sizes wanted.

UNITED STATES.

Returns from about twenty of the leading cities in the United States show the volume of building permits issued for the first three months of this year to be largely in excess of the corresponding period of 1900, some of the cities showing a gain of over 200 per cent. This seems to promise well for building this season and for a large consumption of lumber in that way. The exceptionally good demand for doors and mill work is also an indication that much building is under way. While the volume of lumber moving is not as large as might be wished for, there is exhibited a degree of strength which is likely to prevent any material slump in prices, as might be looked for upon the resumption of sawing operations. The outlook continues as promising as ever. There is a scarcity in the eastern markets of grades above common, which are showing a tendency to advance. As the opening of lake trade is likely to be late, eastern dealers fear that their stocks will be badly broken before new supplies are received. At Buffalo little is to be had in selects and uppers. In the Saginaw valley prices have stiffened materially on account of the great scarcity of stock, and corresponding changes have been made in our price list, but upon the opening of navagation it is only reasonable to expect that prices will not be as firm. At Saginaw the best brand of white pine shingles is selling at from $3.25 to $3.50 in car lots, while at Buffalo $4.00 is quoted by jobbers for best 18 inch pine, and $3.25 for clear butts.

Dealers report an improved demand for some kinds of hardwoods. Basswood is showing some sluggishness, but as the supply is small, this has had no effect upon prices. Maple is moving more freely, but is in large supply. There is a good demand for birch and ash, and a scarcity of the latter.

QUEBEC AND NEW BRUNSWICK.

Navigation on the St. Lawrence is now practically open, and the first vessels to carry lumber will shortly commence loading. There is not likely to be as much activity in lumber shipping circles as last year, fewer vessels having been chartered for early loading. Shippers are still making sales, but have not met with as much success as usual, owing to the heavier stocks carried in Great Britain. Vessels are being chartered for full lumber cargoes at 47s 6d to 50s from Montreal, while engagements for deals for regular liners have been made at 45s to 47s 6d to United Kingdom ports. For New Brunswick and Nova Scotia lumber the outlook is not regarded as very bright, and prices of British deals are fully one dollar lower than last year. Manufacturers are holding for higher prices, while buyers are demanding concessions. Spruce boards and South American specifications are in fairly good demand. Sales of spruce boards for shipment to the West Indies are being made at $11.50, and South American stock at $12. A good demand for shingles and lath is reported.

Reports from the logging districts are of a satisfactory character. There is plenty of water in the rivers for driving the logs, and considerable snow in the woods in the northern sections, which is likely to overcome any emergency caused by dry weather.

GREAT BRITAIN.

There is now exhibited a more hopeful feeling in respect to the British timber trade. The opinion seems to prevail that the bottom has at last been reached, and that from this time forward buying will be conducted with more liberality. If the early imports should be considerably below an average quantity, there is reason to expect that values would quickly recover most of the lost ground. The decline in the price of Canadian timber has been confined chiefly to stock on hand, as the contracts that have been closed for the 1901 cut have almost invariably been purchased at high prices. The strength of Canadian timber, in view of the sharp declines in timber from other countries, is somewhat remarkable. Referring to the situation at London the Timber Trades Journal says: "The consumption of spruce goods has been little short of marvellous during March, and has reduced the heavy winter stock to below the normal spring level. Of pine deals the stock is a satisfactory one to those who hold the best part of it. Had it not been for the moderate quantity of stock prices would have had to go down with the rest. As it is, Colonial goods appear to be safely lifted out of the turmoil of the market, and whitewood appears likely to get back some of its strength." A good deal of Quebec spruce has been sold for delivery to Bristol, where it is being used largely for box making.

STOCKS AND PRICES.

Spruce lath is held in New York at $3, and $3.50 is expected to be the price before the middle of May.

Lantz & Co., of Milford, N.S., took out about 2,000,000 feet of logs during the past winter from Grand Lake.

In Boston the cedar shingle market shows a hardening tendency, with quotations from $2.90 to $3 for extras.

J. W. Munro & Son, of Pembroke, Ont., have taken out 500,000 cubic feet of good square pine timber, which will be taken to Quebec in three rafts.

It is understood that the Conger Lumber Company, whose mill at Parry Sound, Ont., was recently destroyed by fire, had a sawing contract with the Saginaw Lumber & Salt Company for the season's run.

According to report, M. W. Darr, of Tonawanda, has closed a deal with the McArthur Company, of Little Current, Ont., for $40,000 worth of lumber which was manufactured at Little Current last season.

At Saginaw, Mich., log run pine is held at $18 to $22 for Michigan stock; $17 to $20 for Canadian; box lumber, $15 to $16; mill culls, $12 to $13. One firm has contracted its entire season's cut of mill culls at over $12 a thousand. A sale of 1,500,000 feet of dry hemlock at $8.50 and $9.50 is reported.

Of the 100,000,000 feet of logs taken out in the Rainy River and Thunder Bay district during the past winter, the Rat Portage Lumber Company cut more than half, Siemon & Company's contractors 20,000,000 feet, Alger, Smith & Company and the Pigion River Lumber Company 10,000,000 feet each, and smaller firms the ballance.

Short piece stuff is selling in the Chicago market at $14.50 to $15 from the yards, while long stock, from 2x4 to 2x8 inclusive, brings from $15.50 to $18. Twelve inch No. 1 common boards are quoted at $22, but are difficult to obtain at any reasonable price, No. 2 12-inch selling at $19, and No. 3 12-inch at $16.50. Dry hemlock is in fair enquiry in cargo lots, being held at from $9.25 to $9.50 for shorts, and $10.50 to $11 for long stock.

Concerning the Barbadoes lumber market Messrs. Clairmonte, Mann & Company say: "There is still a good demand for both spruce and white pine lumber, with no arrivals during the last two weeks of March. Latest sales have been at $24 for merchantable white pine and $18 for second quality; $21.50 for merchantable spruce and $17.50 for second quality. Gaspe cedar shingles are in supply. Dimension shingles have sold at $8.03, $7.03, $6.03, $5.03, and $4.03 for 8, 7, 6, 5, and 4 inch respectively. Last sales of cedar laying have been at $2.16, and spruce lay- at $2.09.

ST. JONH LUMBER SHIPMENTS.

The following shipments of lumber, etc., were made from the port of St. John, N.B., for the week ending April 20th: Per str. Salacia, for Glasgow, 350 pieces birch timber, 827,875 feet deals and battens, 5,477 feet scantling, 37,973 feet ends. Per schooner Priscilla, for Pawtucket, by A. Cushing & Company, 131,824 feet plank, 13,638 feet deals, 10,109 feet scantling, 1,722 feet boards. Per sch. James Hay, for City Island, by Stetson, Cutler & Co., 124,404 feet deals, 60,943 feet scantling, 64,406 feet plank. Per str. Leuctra, for River Mersey, by W.M. Mackay, 2,505,817 feet deals and battens, 149,619 feet scantling, 57,604 feet ends, 202,514 feet boards. Per barktn. Antilla, for Bantry, by W. M. Mackay, 508,211 feet deals and battens, 178 feet ends. Per sch. Hazelwood, for City Island, by Stetson, Cutler & Co., 194,851 feet deals. Per sch. Harry W. Lewis, for Havana, by A. Cushing & Co., 87,394 feet plank, 277,802 feet boards. Per sch. Avalon, for Fall River, by Stetson, Cutler & Co., 34,395 ft. scantling, 91,026 ft. plank, 21,209 ft. boards. Per Manchester City, for Manchester, 624 standards spruce deals, 165 bundles maple flooring. Per str. Evangeline, for London, 63 standards birch timber, 20 standards spruce deals.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

In local lumber circles extensive preparations are being made for the opening of the mill season. Everything points to a large cut. There is a shortage in several lines, and the extensive building operations promise to establish a strong local market for other lines. Prices are firmer, and in nearly every instance meet the higher figures quoted during the past month.

Pine mill and box culls are scarce; $13 was recently offered for small quantities of the former. This shortage, of course, will be supplied when the new cut is ready, but prices on account of demand show no prospect of weakening. The season in short opens on a firm market, with an upward tendency.

The stock from the hardwood mills, which have been running since February, will soon be on the market. The supply of basswood is sold out. Hemlock, maple and birch remain at prices previously quoted. With the near approach of the opening of navigation mill owners and shippers are making preparations for the American and European trades.

Reports from the limits promise a satisfactory movement on the early runs. Ald. R. J. Davidson, of the firm of Davidson & Thackeray, state that their drive on the Quyon, comsisting of 35,000 logs, has been brought down. This firm will move its mill this summer from Coulonge village to the junction of the Coulonge and Ottawa rivers. Lumber is to be cut for a large mill which will be erected next year.

Building operations in Hull are exceptionally active. Over 75 houses and business blocks have been started already this spring. In all, over 400 structures have been built in Hull since the fire a year ago. Two large planing mills are in operation there, D. Amour's on Brewery street, and Morin & Ouellette, on Lake street. In Ottawa building operations, according to conservative reports, promise to continue brisk for at least two years. Prospective builders who held off expecting a downward movement in the lumber market, waited in vain, and have decided to go ahead with their structures.

The first building material sent from Ottawa to South Africa since the war was started eighteen months ago, was forwarded last week. It consisted of a car load of sashes and doors sent from Davidson & Thackeray's factory to their Cape Town head-quarters. A revival and boom in this business is expected to follow, now that trade relations have been restored.

On April 24th many of the lumbermen of Ottawa, including Mr. J. R. Booth and the members of the Hull Lumber Co. and E. B. Eddy Co., will be strongly reminded of the losses sustained, a twelve-month before, in the fire that swept parts of Hull and Ottawa. The district has been in a great part restored. Many of the mill yards are piled high once more, but the Quebec side of the Ottawa river, south of Main street, Hull, is still a barren waste of ashes. This, however, will likely be piled high during the coming season.

The Eddy Company has rebuilt its mill, and two new pulp mills are to be erected at the Chaudiere. The paper and pulp mills of the Eddy Company will all be rebuilt before the end of the year. Work in the match and paper factories, already completed, is booming.

An important lumber case is now being tried in the Superior Court, Hull. About $400,000 is involved in the action, which was instituted by Mrs. Dezouche against Alexander Fraser, the well-known lumberman. Plaintiff's first husband, Mr. McCoshan, was foreman for and afterwards partner of Mr. Fraser in the ownership of an extensive and valuable limit in the Ottawa district. Shortly after McCoshan's death in 1885, the limit was sold, presumably at the instigation of Mr. Fraser. Mrs. Dezouche now claims that the interest of herself and children, the heirs of McCoshan, were not protected in the deal, in short, that the limit was sold below its value. Defendants, on the other hand, claim that the partnership affairs were wound up on the most advantageous terms to all concerned. Legal advice was taken and the limit properly advertised and sold by public auction. In the case, evidence was given by J. R. Booth, W. J. Poupore, ex-M. P., Hiram Robinson and other well-known lumbermen regarding the value of the limit, the terms of the sale and the business relations between Mr. Fraser and Mr. McCoshan. The action has produced an interesting and keen legal battle. Judgment will not be given for several months, as there is a large array of witnesses yet to be heard.

Mr. William Bowden, for many years book-keeper with the Hull Lumber Company, has resigned that position. Hereafter he will travel in the interests of the Sanitaris' Mineral Water Company, with headquarters at Toronto. Mr. Bowden was one of Ottawa's most progressive citizens, and very popular. He was a leading member of several fraternal societies. In the lumber business there were few better posted than Mr. Bowden, who carries hearty wishes for his future success.

Ottawa, April 22nd, 1901.

DRIVING PROSPECTS IN NEW BRUNSWICK.

A dispatch from Fredericton, N.B., on April 18th, stated that the reports from the logging regions were very favorable. The river had risen a couple of inches the previous night, and a further rise was expected. There is considerable snow on the head waters of the St. John and Miramichi.

William Richards & Company have their drive of 4,000,000 feet on Burnt Land Brook out into the main river. On Cain's river and Taxis they have the logs well along, but the Dungarven is yet full of ice.

Lynch has now about one hundred and seventy-five men at work on the Clearwater and South-west rivers and at the head of the Miramichi. The prospects on the St. John are quite encouraging. R. A. Estey is ready to turn his logs into the main Tobique, only waiting for the booms to be put in readiness. Hale & Murchie state that the prospects in their vicinity are good, and they anticipate no trouble in getting their logs out. The situation on the Nashwaak is also bright. Logs are running freely in all the tributaries, but particularly in Cross creek.

Word was received at Fredericton last week that the Seven Island's cut above Grand Falls had broken loose. There are are about 7,000,000 feet in this stock.

SUCCESSFUL TIMBER LIMIT SALE.

As announced, the timber limits in the township of Ermatinger, onthe north shore of Lake Huron, jointly owned by Messrs. Peter Ryan and E. R. C. Clarkson, were offered for sale in the rotunda of the Board of Trade, Toronto, on Thurday, April 18th. The township comprises thirty-six square miles, and was divided into four lots of 9 square miles each. Mr. Ryan was auctioneer. The attendance of lumbermen was large and the bidding at times quite spirited, particularly for the north-east quarter. The limits were disposed of a follows :

South-east quarter, $42,000, to J. W. Munro, M.P.P., of Pembroke.

North-east quarter, $96,000, to Ferguson McFadden, Renfrew.

South-west quarter, $63,000, to J. W. Munro, Pembroke.

North-west quarter, $55,000, J.W. Munro, Pembroke.

The net proceeds of the sale were $256,000, or over $7,000 per square mile, which is regarded as an exceptionally good price. When the same limits were offered for sale a short time ago the reserve bid of $125,000 was not reached, and the l mits were withdrawn. The wisdom of this course has now been demonstrated

STOCKS ON LONDON DOCKS.

The following figures show the stock of timber, deals, etc., on the public docks at London on March 1st for two years:

			1900.	1901.
FOREIGN	Deals	in Pieces	996,000	1,977,000
	Battens	"	2,044,000	3,361,000
	Boards	"	9,578,000	12,188,000
	Wainscot Logs	"	658	759
	Oak Timber	in Loads	1,882	2,025
	Fir Timber	"	732	1,938
COLONIAL	Pine Deals	in Pieces	904,000	892,000
	Spruce ditto	"	550,000	1,100,000

	Red Pine "	"	—	—
	Pitch Pine Timber	"	10,511	11,033
	" " Deals	in Pieces	77,000	116,000
EAST INDIA	Teak	in Loads	10,094	13,993

Messrs. Churchill & Sim, of London, say regarding London trade: The pine deal market has suffered less than any other from the general fall in volumes, but prices have eased off a little and the volume of consumption has been checked. Spruce deals, on the other hand, have dropped considerably in the month of March; Quebec 2nd and 3rd being now 10s to 15s per standard lower than in February, and St. John deals having been sold at very unreasonable rates, from which recovery should be rapid. Birch timber and planks have been in better demand, and elm and ash timber also in a retail way. In white pine there is no change to record. Oak has continued difficult to sell favourably.

DOORS AND MILL WORK.

The condition of the sash and door industry, according to the American Lumberman, is most satisfactory. That journal says:

A practically unanimous report comes from all sections of the country regarding the unusual strength of demand and general satisfaction existing in the door and mill work industry. Building operations everywhere show an enormous increase over the corresponding period of a year ago, being variously reported at from 50 to 200 per cent. augmentation in volume,and the sash and door people are already obtaining a considerably increased percentage of this big demand for building material. Jobbers here state that they are simply overwhelmed with orders and some would no doubt be glad of a short respite in order to catch up.

It was feared by many of the manufacturers and jobbers that the establishment of the new price list on April 3 would be followed by some deflection in trade, but such has not appeared to be the case, the demand being so strong that no disturbance of the excellent movement is reported in any locality. In some sections the new list has not been as yet extensively circulated, but wherever it has been received it is meeting with favor. The placing of list prices at a figure close to the actual selling price is believed by most dealers to have been a good move, one great advantage being derived from the fact that the retai trade is also receiving no small benefit, which it will not be slow to appreciate.

Among other strengthening features of the door market is the scarcity of shop and better lumber. Prices on all grades of stock above common have advanced $1 a thousand since the first of the year and will average over $2 a thousand higher than they were a year ago, quotations on some items of stock, as shown by recent sales, being from $3 to $5 higher now than last spring. This is caused by scarcity alone. Users of factory lumber are no longer timid about paying the better prices asked by manufacturers and wholesalers, their chief solicitude being to obtain the kinds of stock they need, the price, if within reasonable bounds,cutting a small figure.

TRADE ENQUIRIES.

A British firm are open to represent on commission a responsible Canadian manufacturer of maple flooring and maple wood blocks who is in a position to quote delivered prices. In such a case the firm would remit 75 per cent. of the invoice upon shipment of the goods. Particulars may be obtained by communicating with the publishers of the CANADA LUMBERMAN.

The High Commissioner for Canada has received an application through the Canadian Government Agent in Dublin for the addresses of firms importing from Canada small boards suitable for making butter boxes.

A merchant in Amsterdam is open to take up agencies for Canadian firms.

A correspondent in Nova Scotia states that he is in a position to supply hardwood, such as birch, beech and maple manufactured into squares, also maple rollers and paving blocks.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., MAY 1, 1901 No. 14

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder, on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will immediately be re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are open for inspection in the Department of Lands, Forests and Fisheries, in this city, and at the offices of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Commissioner of Lands,
Forests and Fisheries.

CURRENT TRADE CONDITIONS.

ONTARIO.

The month of April, although not characterized by unusual activity, witnessed the movement of considerable lumber by rail, chiefly to local points and the Eastern States. If the predictions of the trade are to be realized, a much larger volume of business will be done during May. Everybody seems hopeful of a prosperous season, and this confidence alone will serve as an inspiration towards the placing of orders. The hopeful feeling which pervades the trade is based on a solid foundation; enquiries for stock are becoming more numerous, building is brisk, and manufacturers are fully employed. There is also a better inquiry for export stock. Before the new cut is in shipping condition, the stocks that were carried over will have become greatly depleted; in fact, it is now difficult to purchase any large quantity of certain grades of pine. The fact that early shipment of lumber purchased in the winter and spring is being urged, shows that stocks are low and that buyers are in need of the lumber. Several large lots are about to be shipped from the Georgian Bay to Michigan points. There seems to be more call for mill culls than for the lower grades generally. Hemlock is getting very scarce and higher prices are being asked. In hardwoods there has been only a slight improvement. Mills are planning to reduce the output this season, so that there is not likely to be any difficulty in maintaining the present prices. The statement that lath will advance has been further evidenced by the transactions of the past week.

QUEBEC AND NEW BRUNSWICK.

Vessels are now loading lumber at Quebec for the United Kingdom, and a number of charters have been effected for loading at St. Lawrence ports during May and June. Spruce deals seem to be a little firmer and in somewhat better demand. In square and waney timber the only change to note is a slight advance in Michigan waney pine, which is now quoted at from 48 to 52 cents per cubic foot.

The reports from the drives in Quebec and New Brunswick are very favorable, although all the logs will not be in safe waters for some time yet.

MANITOBA AND BRITISH COLUMBIA.

The weather throughout Manitoba and the Territories has not been favorable for outdoor work. The farmers are in the midst of seeding, and the lumber trade, consequently, is rather quiet. Large building operations, however, are comtemplated, and an early improvement in the demand for lumber is looked for. Railway and bridge timber is in good enquiry. A better demand for shingles is reported by British Columbia dealers, particularly for shipment to the east. Band sawn shingles are quoted at $3.35 in Victoria, dimensions at $2.85, No. 1 at $2.35, and No. 2 at $2.10. Lath is quoted at $4 for 3-8 x 1 3-8 in. x 4 feet.

UNITED STATES.

The past week has not witnessed a large movement of lumber, but transactions have taken place which show that the tendency of the market is upwards. Sales of mill culls have been made at $12.50 at the mill, and it is generally conceded that the lower grades of lumber are not as strong as the better qualities. At Buffalo and Tonawanda stocks of white pine are badly broken, and buying among dealers for assortment purposes is quite common. There is a scarcity of the best grades. The call for building lumber is improving, and it seems likely that this year will be a banner one in building construction. Spruce is showing exceptional strength. An anticipated shortage in the eastern log crop has advanced the price of logs to $15 per thousand. The present selling price of spruce lumber is, therefore, much too low, and an advance must be made if the manufacturers are to make a living profit. The hardwood trade is rather disappointing. Consumers, for some reason not easily explained, are pursuing a hand-to-mouth policy, and are purchasing, it would seem, only for immediate requirements. As the general condition of manufacturing industries is prosperous, it is believed that this policy will shortly give way to one of more liberality, particularly as hardwood prices are not likely to decline. Lath continues to be scarce, and higher prices are almost certain to rule in the near future. In our Buffalo price list the price of black ash has

GREAT BRITAIN.

Business in British timber circles is proceeding very slowly. Buyers are exercising what seems to be unnecessary caution, as there are many indications that prices have reached the bottom. Notwithstanding, the recovery is likely to be very gradual. At recent auction sales prices generally have declined, but it is significant that the best classes of deals have held their position with a marked degree of firmness. The spruce trade is showing more life. Dealers who have purposely delayed buying in the expectation that shippers would accept reductions from the fixed first-open-water prices, are now offering £8 10s and £8 per standard c.i.f. London for 3x9 second and third quality. At these figures they have been unable to effect purchases, an advance of 5s on these prices being asked by shippers, while £8 10s c.i.f. is predicted for third quality within a short time. Charters effected in Great Britain show a lower tendency of freights, 41s being the average for large vessels from the Maritime provinces, 42s 6d from the St. Lawrence to west coast of Great Britain, and 46s 3d to east coast.

STOCKS AND PRICES.

The str. Heighington is about to load a cargo of deals at Quebec for London.

The barque Bahama is loading box shooks at Hall's booms, Quebec, for the Canary Islands.

The tender of D. E. Sprague has been accepted for the annual supply of lumber to the city of Winnipeg.

The ship Roland sailed last week from Chemainus, B. C., for Greenock, with 834,560 feet of lumber.

Short hemlock is selling in the Chicago market at from $9.25 to $9.50, and long hemlock about $1 higher.

At Buffalo staves and coiled hoops for slack barrels are selling at $8 to $8.25, and first-class basswood heading at 6 to 6¼ cents.

Purcell & Kelly, of Port Arthur, Ont., have purchased from Seaman & Company all the lumber cut by them at Shebandowan during the past winter.

Michigan white pine is quoted in Saginaw at $20 to $24 for log run, Canadian at $17 to $21 ; box lumber at $14 to $14.50, and special bills from $14 upwards.

At the Crown Lands office, Fredericton, N.B., two timber berths were sold last week as follows : Head of Young's Brook, branch of Caraquet River, two miles, to W. T. Whitehead, at $9 per mile ; Big Sevogle River, 3 miles, to E. Sinclair, at $133.50 per mile.

Tenders are invited for the Department of Interior at Ottawa up to May 13th for licenses to cut timber on Berth No. 971, situated on the south side of the Saskatchewan river, and Berth No. 972, containing one and nine square miles respectively, both in the district of Alberta.

The Central Lumber Company, of Saginaw, Mich., have sold all their mill culls of the coming season's run, estimated at about 3,500,000 feet, to local dealers at $12.50 a thousand. A few years ago mill culls were a drug at $6. E. Nelson has sold 3,500,000 feet of Michigan white pine stock, cut at Cheboygan, to eastern parties, at between $22 and $25 per thousand for log run.

The following export shipments of lumber from Vancouver, B.C., were made during the week ending April 20th : Barque Anna, for Valparaiso, Chili, with 1,332,873 feet rough lumber, by Robert Ward & Company ; barque Passepartout, for Sydney, Australia, with 401,801 feet rough lumber and 35,090 pickets, by North Pacific Lumber Company ; barque Antuco, for Callao, Peru, with 1,225,458 feet lumber by B.C. Mills, Timber & Trading Company.

Do not neglect to read the advertisements in each issue of the WEEKLY LUMBERMAN. They contain much of interest.

THE LOG DRIVES.

FREDERICTON, N. B., April 25th.—The news from the Upper St. John log drives is encouraging. W. H. Cuniff & Sons, who operate on the Allegash, have all their logs out of the small streams. They will take out about 14,000,000 feet for W.H. Murray and Andre Cushing & Sons. Charles E. Jones is out of Little Black river and into the main St. John with 3,000,000 feet for W. H. Murray. Neil McLean, who operated on Big Brook for W.H. Murray, is into the main river with 2,000,000 feet. John Sweany has 2,500,000 feet out of Brown Brook and into the main river. He operates for Andre Cushing & Son. R. A. Estey is through with driving on the Tobique after only eleven days' work. This is the quickest driving ever known on the Tobique for the amount of lumber which Mr. Estey brought out, three million feet.

McCollum, who operates on the Tobique for Hilyard Bros., is also out with his drive. Hale & Murchie's drive at the headwaters of the Tobique is coming along well.

Gilman Bros. and Burden, who operate on the Upper St. John, have their lumber all in the main river except about 1,000,000 feet, which is coming along nicely.

On the Nashwaak the drives are getting along better than for many years, the conditions being exceptionably favorable.

James Hallet, who operates on the Grand River for Randolph & Baker, has his cut of 2,000,000 into safe waters. Jacob Hazleton, who has 3,000,000 on the Restigouche, expects to finish stream driving about the middle of next week. Daniel Nixon, who cuts about 1,500,000 for the William Richards Company, will be out next week with all his cut.

Jas. Burgess & Sons, who cut 2,000,000 for their mill on Little River, already have their logs in boom limits ; and the same is true of J. A. Patterson, who has a cut of 4,000,000 on Salmon River.

Bank logs are now coming freely to Springhill, four rafts having arrived down to-day. The lumber is being purchased chiefly by John Campbell and Wilmott Guion. Good spruce logs are selling at $9.50 per thousand feet.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder, on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will immediately be re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are open for inspection in the Department of Lands, Forests and Fisheries, in this city, and at the offices of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Commissioner of Lands,
Forests and Fisheries.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade of the past week has not been particularly active, when consideration is given to the fine building weather. In some quarters disappointment with the volume of business is expressed, while on the other hand some manufacturers and dealers state that they are experiencing a brisk demand for lumber for immediate shipment. Several blocks of pine in the Georgian Bay district have recently changed hands for shipment to the east principally. Most of the mills on the Georgian bay are in operation, some of them with day and night crews, so that within a few weeks there will be considerable of the new cut ready for the market. The water in the streams is favorable for driving operations, and most of the logs are likely to reach the mills. While pine prices are being held firmly, this is not equally true of hardwoods. A tendency is shown by a few manufacturers to cut prices, in the hope of disposing of their old stock. This, however, is not the general disposition, as there doubtless exists a strong sentiment against any reduction from the prices which have been established for some time past. It is believed that the small number who are compelled to realize will not have any appreciable effect on the market. Lath continues to gain in strength. As high as $2.60 for No. 1 at the mill is occasionally asked, although the average price is about ten cents below this figure. Retail yards in Toronto are asking $3.75.

QUEBEC AND NEW BRUNSWICK.

Chartering of vessels to carry lumber has been more active during the past week, and it is probable that considerable shipments will be made this year to South America and the West Indies. France will also take a larger quantity than last year, as between 10,000,000 and 15,000,000 feet has already been sold to that market. Shippers to Great Britain are still holding back in the hope that prices will improve. Although prices are not likely to be as high as last year, shippers will receive an advantage on account of lower freight rates. New Brunswick cedar shingles are slightly easier, from the fact that most mills have resumed operations. Prices are in the neighborhood of $2.95 for extras, $2.25 for clears, and $2.25 for second clears.

UNITED STATES.

Some incidents looking towards higher prices for lumber in the United States have taken place within the last week. In Chicago sales of white pine piece stuff are reported at from $13 to $13.50 for short, while at Ashland common inch pine is held at $15. There is a scarcity of certain grades at most of the mills on Lake Superior, and at a meeting of the price list committee of the association representing that district, to be held this week, it is expected that an advance of 50 cents will be made on these grades. This advance is not intended to represent a general marking up of prices, as the market is almost certain to be affected by the new cut which will be ready for the market in about one month. Then it would be strange if prices did not become a little easier. The demand for sash and doors continues, and on account of the scarcity of shop lumber, substitutes for white pine are being used as far as possible. Eastern spruce is very firm, as is also hemlock. At Menominee the price is $8.25 on the dock for short hemlock, and $9.25 to $9.50 for long. A slight improvement in hardwoods is reported. Maple has been selling freely at lower prices, although it is understood that in Buffalo an effort is being made to prevent the cutting of prices. Eastern yards are showing a disposition to stock up.

Lath and shingles are in short supply and below the requirements. For New Brunswick cedar shingles of first quality, $2.95 to $3 is asked in Boston. Buffalo dealers have no supply of white pine shingles, and are giving most of their attention to red cedars.

GREAT BRITAIN.

As yet there have been few signs that the British market is recovering from its lethargy. Perhaps the only relief is found in the increased consumption in London, where stocks are heavy and badly in need of being reduced to a lower level. Importers are prepared to buy at a speculative price, but show little willingness to meet the prices asked by shippers. There seems to be a disposition on the part of manufacturers in exporting countries to curtail the production, a movement in this direction being now under way in Sweden. Pine and spruce deals are selling from stock quite freely, but some reaction in the price of the latter is reported. At a recent auction sale in London 3x11 third quality spruce averaged £8 2s 6d per standard, and 3x9 third quality £9. Square timber has also sold lower. Ash logs have been received in large quantities from the United States, and are not meeting with ready sale. A parcel of Quebec oak logs was sold at a recent sale at 15½d per cubic foot, birch planks at 1s 3d, oak planks at 1¾d to 2½d, and quartered oak boards at an average of 2½d per foot.

FIRES.

Owen's saw and planing mills at Ridgetown, Ont., were destroyed by fire last week, at a loss of $4,000.

The saw mill of the Trout Creek Lumber Co., at Nipissing, Ont., was burned last Sunday. The loss is $6,000 with no insurance

—CORRESPONDENCE SOLICITED—

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The chief topic in local lnmber circles is the announcement by Mr. J. R. Booth of his intention to move his sawmill from Ottawa. Since the fire a year ago, there has been a strong agitation to prohibit, or at least restrict, lumber piling in the residential sections. It was contended that the long avenues of lumber fed the flame and indirectly caused the destruction of other valuable property. No action was taken in the matter further than the amendment of the fire by-law, which requires that the lumber shall be piled at a safe distance from residences and other structures. This does not satisfy the extremists, who are still clamoring for the removal of the piles. There is also a scheme under way having for its object the imposition of a tax on lumber piled within the city limits.

The avoidance of these threatened restrictions furnishes one reason for Mr. Booth's desire to locate elsewhere. He stated that a site would be chosen on the Ottawa below the city, where advantage can be taken of the river for the transportation of logs and lumber.

Many believe, however, that Mr. Booth will reconsider his proposal, and continue his lumber business here. The removal of it would mean a serious blow to both Hull and Ottawa.

As soon as the water in the Ottawa recedes sufficiently, blasting operations will be commenced on thr site of the new mill at the Chaudiere, to be erected by the Hull and Ottawa Pulp, Power and Paper Company. The ruins of the Hull Lumber Company's mill have all been cleared away, ready for the blasting. The new company has just acquired possession of a portion of the Table Rock from the Quebec Government, situated alongside the property secured from the Hull Lumber Company. These, along with the adjoining area secured from Mr. Alexander Fraser, gives the new company control of the Table Rock and adjoining water power. Mr. Wm. Kennedy, of Montreal, consulting engineer of the company, is now preparing plans for the new building. A power house will also be erected for the generation and distribution of power for manufacturing pnrposes.

All the mills in and about Ottawa are now running full time. The Hull Lumber Company is operating Mason's mill at Hintonburg and will also operate Ritchie Brothers' mill at Aylmer as soon as the new machinery of larger capacity is installed. Mr. J. R. Booth's, Gilmour & Hughson's and W. C. Edward's mills are all in full swing. There should be no scarcity of logs this season, as the drives are all being well handled on account of the high water. During the past week the logs have been coming down the Gatineau in large numbers. There are at present over 70,000 at the boom. Several large rafts of logs have also been handled on Lake Deschenes for local mill owners. These logs came from the tributaries of the Upper Ottawa.

There is no change in prices in the Ottawa lumber market, which holds firm. No break is looked for; indeed, a further advance is conceded, as several lines are sold out. Although the present mill operations will relieve the stringency, a heavy demand will sustain prices.

Navigation is now open on the Ottawa river and Rideau canal, and lumber shippers have taken early advantage of the fact. Several barges belonging to the Ottawa Transportation Company's fleet have been loaded at the Chaudiere docks for American points. Shipments by rail are also brisk. A new spur line has been laid, connecting with the Export Lumber Co.'s yards and those of Mr. J. R. Booth.

The E. B. Eddy Company is carrying out extensive plans for the improvement of its fire protection. A second large water tower has been erected. The first was built near the match factory and paper mills in the west end of Hull. The second one is being erected in the east end, near the sulphite mill. These towers have a capacity of several thousand gallons of water, thus furnishing increased pressure for the water mains. The buildings have also been supplied with automatic sprinklers. Work on the new paper mills is being rushed ahead and building operations on the Eddy Co.'s premises promise to be even brisker than they were last year.

Ottawa, May 6th, 1901.

TIMBER LIMIT PURCHASE.

It is reported that the Ross timber limits and mica mines in the province of Quebec have been purchased by McLaren & Co., of Buckingham and Ottawa. The limits are extensive and the consideration is said to have been in the neighborhood of $500,000.

Prouty & Miller have a large drive of logs in Cherry river, Que., en route to their mill.

STOCKS AND PRICES.

Logan & Sutherland, of Musquodoboit Harbor, N. S., expect to cut 11,000,000 feet of lumber this year.

Montgomery Bros. & Co., of Buffalo, have just received a cargo of mill culls from Deseronto, Ont., purchased through Rathbun & Company, of Oswego.

John Hanbury, of Brandon, Man., has a drive of 125,000 logs on its way from the Riding Mountains to his mill. He expects to cut 8,000,000 feet this year.

Further advances have been made in the price of spruce logs. T. H. Lawler, of Bangor, Me., has 4,000,000 feet for sale for which he is asking $16.50 per thousand. He is reported to have refused an offer of $15.75.

TO CANADIAN MILL MEN.

A responsible London firm of agent-brokers are anxious to extend their connection in Canada, and desire to open up correspondence with Canadian lumber manufacturers and shippers. They will agree to advance 75 per cent. of the value of the lumber upon shipment thereof. Mill men who are desirous of opening up a trade in Great Britain, or extending their present business, are asked to write to this office for the name and address of the above firm, who will be pleased to quote prices and give all assistance possible.

THE BARBADOES MARKET.

Clairmonte, Man & Company, under date of April 13th, say: There is still a good demand for both spruce and white pine lumber, especially the latter, with one arrival of white pine during the fortnight. Latest local sales have been $25 for merchantable white pine, and $21 for second quality; $21.50 for merchantable spruce, and $17.50 for second quality. Gaspe cedar shingles are in supply. A small lot has recently been sold at $3.20 per M, also 47 M at quotations given in our last report. Cedar laying shingles are selling at $2.16, and spruce laying at $2.09.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., MAY 15, 1901 No. 16

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder, on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will immediately be re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are open for inspection in the Department of Lands, Forests and Fisheries, in this city, and at the offices of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Commissioner of Lands,
Forests and Fisheries.

CURRENT TRADE CONDITIONS.

ONTARIO.

The retail demand for lumber has shown a very considerable expansion within the past week. Travellers from wholesale yards have sent in more orders than for some time past, and mostly for quick delivery, showing that the lumber is needed to replenish broken stocks. The call for building lumber is quite brisk, and if labor troubles in the larger cities are avoided, as now seems probable, a prosperous building season may reasonably be expected. Good lumber appears to lead in point of strenth, and while mill culls are selling at high prices, this class of lumber is not as strong as it was one year ago. Lower prices for culls when the new cut is marketable are spoken of, but this will depend mainly upon the large manufacturers, who, up to the present, have held together with remarkable unanimity. The course of the hardwood market is somewhat uncertain. The demand, although improving, is still light, and some irregularity exists in mill men's prices. The largest producers, however, are not weakening, as they realize that if the demand in the Eastern States should become active, all the Canadian stock would be wanted in a short time. There will probably be more liberal buying of hardwoods for the next two months, and as the production is likely to be below normal, the uncertainty may soon pass away.

QUEBEC AND NEW BRUNSWICK.

Nothing has transpired during the past week to improve the position of the spruce market. There is a feeling that as the season advances there will be an improvement in the demand for British deals, but the outlook at the present time is not very promising. Dry spruce boards and No. 2 pine boards 1 and 1½ inch in thickness are inquired for quite freely. Spruce clapboards are firm on account of the small supply. Cedar shingles are unchanged in price, with offerings more liberal. On Boston rate of freight extras are quoted at $2.95, clears at $2.65, and second clears at $2.15. Prospects for the log drives are not as bright as they were a fortnight ago. It is feared that a considerable quantity of the cut on the Upper St. John river will be hung up. One operator who took out 40,000,000 feet does not expect to get over 10,000,000 feet into safe waters. Should there be a heavy tie-up of logs, it would greatly curtail the lumber production of the coming season, and naturally strengthen the market.

UNITED STATES.

The scarcity of dry lumber is responsible for the strength of the United States lumber market. The question of advancing prices has been discussed, but the opinion of the more conservative manufacturers has ruled. The price list committee of the Mississippi and Wisconsin Valley Associations held its meeting last week, when it was decided to make only a few minor changes. These were to advance slightly the price of finishing lumber and lath. Mill culls of the new cut are offered by Wisconsin mills at $10. In the eastern distributing centres there is a scarcity of 10 and 12 inch boards. Orders for the east have increased of late, due largely to building operations. In Chicago advances have been made on certain items, such as 12 inch boards and 2x12 joists. Norway pine is a scarce article and likely to sell at higher prices this spring. The situation in respect to spruce continues as bright as ever. The consumption promises to be above normal, while the available supply of logs for manufacturing into lumber will not be large. Spruce deals are wanted for shipment to South America, for which $16 per thousand is offered. Hardwoods are not sharing to any extent in the strength of the lumber market. Both consumers and dealers are still purchasing in a very moderate way, but as their stocks are becoming reduced they will be compelled very shortly to pursue a more liberal policy in respect to purchases.

GREAT BRITAIN.

Of the British timber market a London correspondent says:—"The markets in England are extremely dull. Shippers of all kinds of goods are offering at very low figures, and buyers are not disposed to purchase, fearing that to-morrow or next week may see a further drop in prices. We cannot say that we know of a market for any class of timber, whether spruce, pine or hardwood, or whether from Canada, the United States or the Baltic. Such a state of things, however, cannot last indefinitely, as the importers here must needs purchase some stock, and sooner or later there will be buying." That the condition of the market is about as above outlined is borne out by information from other sources. Pine prices have kept up remarkably well, but the high prices are curtailing the demand, and in some cases substitutes in the form of cheaper woods are being used. Spruce is decidedly weaker, having declined to what is thought to be an unreasonable extent. At a sale held by Foy, Morgan & Company, London, England, second quality 3 x 11 spruce brought £10 5s per std, and third quality £9 5s. Elm timber is rather heavy, the stock at Liverpool and London being above the average quantity for this season of the year, and consisting chiefly of small sizes. For 45 feet average the price is about 3s per cubic foot. Ash is also quiet and inclined towards weakness.

The liner Belgian left Quebec last week for London, with 400 standards of deals.

STOCKS AND PRICES.

Gibson & Company, of Wroxeter, Ont., have shipped eight cars of maple rollers to England this season.

P. G. Mahoney expects to ship about 5,000,000 feet of deals from Cape Tormentine, N. B., this season, and about 2,000,000 feet from Bathurst.

The New Brunswick Government will offer for sale on May 22nd 10 timber berths on the Upsalquitch and Nepisiguit rivers, ranging in extent from 5 to 9 square miles each.

The sale of the property of Ross Bros., of Buckingham, Que., to the James McLaren Lumber Company, has been confirmed. The property includes limits, logs, saw-mill, etc.

The barque Africa is loading lumber at Bear River N. S., for Buenos Ayres, on account of Clarke Bros. The Golden Rod will load at Digby for South America, Clarke Bros. being the shippers.

It is reported that W. N. Drader has purchased 1,000,000 ft. of logs belonging to Steinhoff & Gordon, of Wallaceburg, Ont., and that the latter will not rebuild their mill. Mr. Drader has also purchased from them 600 cords of bolts.

The srt. Heighington is loading deals and lumber at Hochelaga, Montreal, for the United Kingdom, for W. & J. Sharples. The Montenegro, which sailed from Montreal last week for London, carried 70,150 pieces of deals, 1,282 elm strips, 1,840 pcs. walnut boards, and considerable wood pulp. The str. Alcides, which sailed for Glasgow, carried 22,259 pcs. deals.

Concerning the Barbadoes lumber market Messrs. S. P. Musson, Son & Company say: The only arrival with white pine has been the Boston Marine, from St. John, N. B., with 58 M shipping and 36 M second quality, which was readily taken by the dealers at $25 and $19.60 respectively. The Minto, from Lunenburg, N.S., arrived on the 24th ultimo with 120 M ft. spruce. This market is amply supplied with spruce, and dealers are only willing to buy at a considerable decline on previous rates, particularly as several cargoes are on the way. A lot of 329 M spruce laying shingles have been sold at $2.10.

The contract for the suppy of lumber to be used by the city of Winnipeg this season was let on the 22nd April to D. E. Sprague, at the following prices: Dimensions and timber from $19.75 to $20.50, according to size; siding, No. 3, white pine, $31; ceiling, No. 3, white pine, $31; ceiling, B. C. spruce, $36; shiplap pine, $21.50; boards, 2nd common, white pine, $21.25; 2nd common red pine, $21.25; culls, $16.75; lath, pine, No. 1, $4; No. 2, $3.75; finishing, white pine, B select, $39; C. select, $35; B. C. cedar, $50; No. 2, B. C. fir, $48; window stool, 6x1½, $5.50 per 100 lin. feet; window and door stop, $1.75 per 100 lin. feet; casings, 4-in., $3; 6-in., $3.25; base, 8-in., $5; 10-in., $5.50; shingles, No, 1, cedar, $3.10 per 1,000; oak, 1st and 2nd, $25 per 1,000 feet; quartered, $95; common, $55.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber from Canadian ports are reported since last issue:

From Montreal: Charlemagne Lumber Company, 212 stds. deals and boards; W. & J. Sharples, 441 stds. deals, 2,135 cub. ft. square timber; Robt. Cox & Company, 439 stds. deals and boards; Watson & Todd, 837 stds. deals and boards; Elder Dempster Company, 215,000 ft. boards; Canadian Pacific Railway, 1,471 pcs. boards; E. H. Lemay, 55 stds. deals and boards; Dobell, Becket & Company, 112 stds. deals; McArthur Bros., 227 stds. deals; J. Burstall & Company, 148 stds. deals.

From St. John: Per str. Loyalist, for London, 32,153 feet elm lumber, by Mitchell Bros.; 42,320 ft. spruce deals, 50,120 ft. birch plank, 6,188 ft. birch ends, 254 tons birch timber, by W. M. Mackay; 59,172 ft. deals, 3,214 ft. scantling, 4,667 ft. boards, 5,409 ft. ends, by George McKean. For Salem, 100,000 ft. pine boards, 89,000 ft. spruce lumber, 290,000 cedar shingles, by J. L. B. Knight. Per Stella Maud, for Fall River, by A. Cushing & Co., 108,128 ft. plank, 30,471 ft. scantling. Per str. Tantallon, for Barrow, by A. Gibson Ry. and Mfg. Co., 2,840,973 ft. deals and battens, 401,783 ft. scantling, 114,635 ft. ends, 97,793 ft. boards. Per sch. Thos. B. Reed, for New York, by A. Cushing & Co., 82,091 ft. plank, 40,128 ft. deals. Per sch. J. L. Colwell, for Boston, by A. Cushing & Co., 107,038 ft. plank, 29,763 ft. deals, 27,532 ft. scantling. Per sch. Centennial, for Boston, by A. Cushing & Co., 91,891 ft. plank, 22,438 ft. deals, 40,407 ft. scantling. Per sch. Pandora, 98 tons, for Boston, by Stetson, Cutler & Co., 81,166 ft. plank, 600,000 cedar shingles. Per sch. Maggie Miller, for Boston, by A. Cushing & Co., 98,481 ft. plank, 7,358 ft. deals, 6,972 ft. scantling. Per sch. Elizabeth M. Cook, for City Island, by N. H. Murchie, 212,404 ft. deals, 55,662 ft. scantlings, 41,900 ft. plank.

From Vancouver: British Columbia Mills, Timber and Trading Co., 39,518 ft. T. & G. lumber, for Sydney, Aus.

FIRES.

The mill of the Ashland Mfg. Company at Ashland, Me., was burned last week. The loss is in the neighborhood of $100,000. This mill sawed largely on New Brunswick lofts.

The saw mill of the Whaley Lumber Co. at Huntsville, Ont., was totally destroyed by fire on the 10th inst. The mill had been running only a few days and had a large stock of logs on hand. It will probably be rebuilt.

SHIPPING MATTERS.

The following charters are reported: Ship Astracona, 1,572 tons, St. John, N.B., to Melbourne, Aus., deals, 77s 6d. Steamer Polycarp, St. John, N. B., to Liverpool, deals, 40s. Str. Zanzibar, Montreal to w. c. England, deals, 50s.

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., MAY 22, 1901 No. 17

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

FOR SALE.—36 in. Wickes Gang, cutting 14 in deep; located in Canada; price low. WICKES BROS., Saginaw, Mich.

FOR SALE—ONE MILLION FEET GOOD White Pine Mill Culls, Dry. Address "OTTAWA," office CANADA LUMBERMAN.

FOR SALE—25,000 FEET OF ONE INCH Basswood 1st and 2nd; also small quantity Cherry one inch. M. M. SUNDY, Winger, Ont.

FOR SALE—1,000,000 FEET OF STANDing Pine and Mixed Timber, close to railway. Apply to E. TODD, 131 Brant St., Brantford, Ont.

FOR SALE—20,000 FEET DRY ASH, 15,000 feet 1" Elm log run, culls out. Last season's cut. Apply to JOHN DONALDSON, Almonte, Ont.

WANTED.

A QUANTITY OF GOOD ONE INCH CEDAR, any length, delivered at once
PETERBORO' CANOE CO., Limited,
Peterboro', Ont.

FOR SALE.

SAW AND WOOLLEN MILL, BLOOMFIELD. A snap, as executors must sell. Yearly profits should make payments required.
WM. BOWERMAN,
26 Adelaide W., Toronto.

Telephone Poles for Sale.

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths from 25 to 45 feet. Quotations given by mail or wire on application.
GEORGE & McGREGOR,
Killaloe Station, Ont.

FOR SALE.

One good Saw Mill Engine, right hand, 16" x 20" cylinder, slide valve, 100 h. p.; price $415.00.
One Buckeye, automatic, 11" x 22" cylinder, 50 h. p.; $350.00.
Boiler, 24" x 8 ft., half front, 15 h. p., 40 ft. smoke stack, all fittings; $175.00.
Boiler, 48" x 10½ ft. tubes, 100 tubes 2 inch, Low-moor iron, used 7 months; $210.00.
All above are in first-class order.
MACPHERSON & SCHELL,
Alexandria, Ont.

FOR SALE.

A LARGE QUANTITY OF GOOD SOUND Tamarac lumber in standard sizes, 2x4, 2x6, 2x8, etc.; Dimension timber, 16 ft. long, 4x4, 4x6, 6x8, 8x8, etc.. Also other sizes cut to order. Apply to EDWARD LLOYD, Limited, Sturgeon Falls, Ont

FOR SALE.

ABOUT ONE HUNDRED THOUSAND FEET of White Oak timber, within three miles of two railroad stations. Will sell timber standing or cut same. Also a quantity of white oak piles from 6 to 10 inches at top end. Address—Box 78, Dresden, Ont.

FOR SALE.

A stock of White Pine Lumber, consisting of about 4 million feet, to be manufactured this season at Cache Bay.
Logs could be sawn to order of purchaser. Apply,
THE NIPISSING LUMBER CO., LIMITED
Hamilton.

Province of Quebec.

DEPARTMENT OF LANDS, FORESTS AND FISHERIES.

WOODS AND FORESTS.

Quebec, 23rd February, 1901.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder, on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will immediately be re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are pen for inspection in the Department of Lands, Forests and Fisheries, in this city, and at the offices of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Commissioner of Lands,
Forests and Fisheries.

For a large bridge to be built at Charlottetown, P.E.I., 1,000,000 feet of timber will be furnished by H. H. Acorn, of Souris, and 3,000,000 feet of hemlock by Rhodes, Curry & Company, of Amherst, N.S.

CURRENT TRADE CONDITIONS.

ONTARIO.

If any change in lumber during the past week, it has been in the direction of a hardening of prices. That all the stock manufactured this season will find a market within a reasonable time is the opinion held by the trade generally. Already large shipments of pine are being made to Michigan points and the Eastern States. Last week several million feet went from the Georgian Bay district to Tonawanda and Saginaw, also a large quantity of lath, which is in good demand. Nearly all the mills are operating day and night, and much of the output is already contracted for. In the event of all the logs reaching the mills, the cut this year will be large. There is some apprehension that a portion of the log production may be hung up, although late rains have improved the outlook. The trade in hardwoods is still quiet. Some dealers report a good demand for elm, others for maple, with the total volume of business below what it should be. Shingles continue scarce, but this will soon be relieved by the new cut.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is showing a little more strength. The number of vessels loading at the various ports indicates that the quantity of lumber purchased for foreign shipment is larger than was generally supposed. Two vessels have been chartered to load at St. John for Australia, and one for France. The West Indies is also likely to provide a market for a greater quantity of lumber than last year. Clapboards are higher, selling at $30 to $31 for extra spruce, and $28 to $29 for clear, on Boston rate of freight. The supply of cedar shingles is not large, and quotations are unchanged at $2.90 to $3.00 for extras. The outlook for the log drives is still uncertain. On the Upper St. John about 70,000,000 feet is in danger of being hung up. Should this be the case, the cut of lumber in New Brunswick this year will be unusually light.

UNITED STATES.

The shipments of pine lumber from the Mississippi and Wisconsin producing districts since the first of the year have been over 20 per cent. in excess of the shipments for the same months in 1900. This increase is due to an expansion in building operations, as is forcibly illustrated by the volume of building permits issued. In twenty one of the principal cities of the United States the permits for April show a gain of over 200 per cent. as compared with April, 1900. The lumber situation is therefore very strong, and it is predicted that prices will be maintained with great uniformity throughout the season. Buffalo and Tonawanda are shipping by water to the east, where the demand is increasing for both building and manufacturing purposes. Stocks at Tonawanda are badly broken, but cargoes now arriving will help out in this respect. The first cargo was received on May 10th, from the Georgian Bay district, and consisted of 2,000,000 feet of pine. A peculiar circumstance has risen in respect to box lumber. At the mills it has been advanced, while in the eastern market prices have fallen off from fifty cents to one dollar per thousand. In the Saginaw valley there are no large stocks of pine in first hands. Log run ranges from $16 to $25, box from $12 to $16, and mill culls from $12 to $13. An improvement in the demand for quartered oak is about the only change in the hardwoods, which exhibit much less life than pine and spruce. Shingles and lath continue scarce and strong. In Chicago No. 1. mixed pine lath brings $2.75 by cargo, and No. 1. white pine $3.25.

GREAT BRITAIN.

The import of sawn and hewn timber into the United Kingdom during the four months ended April 30th was 637,854 loads, compared with 571,906 loads in the corresponding period of last year. This increase is not healthy, in view of the large stock and the general uncertainty of the market. Trade is exceedingly quiet, and buying is being done in a hand-to-mouth manner. The agents of shippers are not forcing sales, believing that such a course would result in depressing the market. One or two Swedish shippers are said to have made low offers and to have closed contracts at £8 10s to £8 15s for battens c.i.f. London. Spruce deals have exhibited further weakness, but it is said that large quantities have been purchased to arrive, and this stock is likely to be held at firm prices. Pine prices have been sustained, but with difficulty, as there is a large stock on the London and Liverpool markets. The stock of square and waney pine at Liverpool is about 2,500 cubic feet larger than one year ago.

J. W. Munro, of Pembroke, Ont., expects to saw 9,000,000 feet of pine lumber this season. Last winter he took out 16,000,000 feet of logs in addition. He is also shipping 500,000 feet of square timber to Great Britain.

ENQUIRIES FOR WOOD PRODUCTS.

Enquiries have been made at the office of the High Commissioner, London, England, for the following:

A manufacturer of church, schoo and other kinds of furniture asks for names of Canadian exporters of orham wood in planks; also of shippers of sawn and turned chair and seat material, etc.

The names of Canadian wood pulp exporters are asked for.

The name of the parties making the above enquiries may be obtained at the office of the CANADA LUMBERMAN.

STOCKS AND PRICES.

The bark Suitelma is loading lumber at Vancouver, B.C., for the west coast of South America.

Vigars & Company, of Port Arthur, Ont., have a contract to supply the C.P.R. with a considerable quantity of timber.

B. Stackhouse, operating for Robert Moore, has succeeded in getting a drive of 1,500,000 feet of pulp logs in safe waters. The logs are for the St. John Sulphite Fibre Co., of St. John, N.B.

The first raft of square timber for the season passed through the Calumet slides last week. It comprised 145 cribs, and was taken out by Hurdman & Company, of Ottawa, from the old Brouson limits on the Antoine creek, near Des Joachims.

Willam J. Noble, who is operating on the Upper St. John for A. Cushing & Co., has his drive of 10,000,000 feet of logs in corporation limits. Cunliffe Bros., who have 12,000,000 feet for Murray and Cushing, of St. John, consider that they are likely to get out safely. Everett Parker has a drive of 3,000,000 feet on the Dungarvon, and is reported in safe waters. The South-west Miramichi drive is getting along satisfactorily.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, in their last circular, review the Glasgow market as follows:

WANEY BOARDWOOD. — First-Class. — The stock of large average wood is now much reduced, and buyers are so much opposed to buying small wood, which they think unprofitable, that transactions have been few and far between. There are some enquiries in the market, however, but consumers are anxious to await fresh arrivals. 19-inch Waney has been sold at 2s. 11d. A parcel of square 40 cubic feet brought 2s. 7d. Second-Class.—This wood is very scarce. 17-inch of good quality is worth 2s., and 18-inch 2s. 2d.

RED PINE.—There is no enquiry. The nominal value of 45 cubic feet average wood is 1s. 9d.

OAK.—A few small sales have taken place during the month, and 65 cubic feet average wood is worth 2s. 11d.

ELM.—Continues to be enquired for, and further sales have taken place, 45 cubic feet average at 3s. to 3s. 3d. Soft elm is hard to sell, and meets with little enquiry.

BIRCH.—Quebec.—There is practically no stock of wood in the market. Lower Port.—We hear of a sale of 300 logs 15-inch average at 1⅞d. "ex-quay." Nearly 1,300 loads of birch planks have come to hand by St. John's steamers, all of which have been taken delivery of "ex-quay." The value of same is £9 to £9 10s. c.i.f.

ASH.—The stock on hand is trifling, and consists mostly of small wood. Prices range from 2s. 1d. to 2s. 2d. for 13½ to 14-inch average.

DEALS, &C.—Business during the month has been quiet, though the consumption from public yards has been fairly well maintained. Prices are unaltered, though a few lines of pine deals and sidings have been cleared at easier prices to close consignments. Current values are: Broad First Pine Deals—£26 to £29; 11-inch, £24 to £26; ends and non-dimensions, £18 to £22. Second Pine Deals—11-inch and up, £20 to £22; non-dimensions, £13 to £16. Third Pine Deals—11-inch and up, £12 7s 6d to £13 10s; ends and narrows, £8 10s to £10 10s. Fourth Pine Deals—11-inch and up, £10 10s to £11; narrows, £9 to £10. Red Pine Deals—9 and 11 inch, £12 to £12 10s.; narrows, £9 to £10. First Pine Sidings and Strips—£15 to £21, according to specification. Spruce Deals—9 inch and up, £8 5s. to £9 5s.; 7 and 8 inch, £7 5s. to £8. N.B. Pine and Spruce—7 and 8 inch, £7 to £7 10s.; 9 to 11 inch, £8 to £8 15s.

TENDERS FOR PULP MILL MACHINERY.

Mr. Joseph H. Wallace, C. E., Temple Court Building, New York, is taking tenders up to Saturday, June 1st, on the following machinery for the ground wood pulp mill of the Spanish River Pulp & Paper Co., at Webbwood, Ont.: Horizontal tubular boilers, steam engines, mechanical drafts, diaphragm screens, wet machines, triplex stuff pumps, sawing and log hauling machinery, barkers, conveyors, splitters, overhead cranes, electrical equipment, fire pumps (rotary and steam). Mr. Wallace is purchasing agent for the company, as well as the architect and engineer, and will be pleased to give further particulars to those wishing to tender.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber from Canadian ports are reported since last issue:

From Vancouver: Ship Falls of Garry, to Sydney, Aus., 1,542,409 feet rough lumber, 340,200 laths, 20,000 staves, by British Columbia Mills, Timber & Trading Co. Empress of China, to Japan, 967 cedar bolts, by Jin & Tamura. Bark Prince Albert, to England, 1,207,790 feet rough lumber, by British Colnmbia Mills, Timber & Trading Co.

From Montreal: Str. Ontarian, for Glasgow, 111 stds. deals and boards by Dobell, Beckett & Co., 95 stds. by D. Cream & Co., 120 stds. by W. & J. Sharples; 60,000 ft. lumber, by Grand Trunk Railway. Per Heighington, for London, 438 stds. deals, by W. & J. Sharples. Per Eunora, for London, 2,365 pcs. deals, by Dobell, Beckett & Co.; 15,774 pcs., by Charlemagne Lumber Co. Per Bellona, for Leith, 82 stds. deals, etc., by McArthur Export Co., 147 stds. by J. Burstall & Co., 486 stds. by R. Reford Co. Per Kastalia, for Glasgow, 194 logs, by McArthur Export Co.; 344 stds. deals, by Watson & Todd.

From Halifax: Per Celurca, for Wales, 318,544 ft. spruce deals, 11,381 ft. spruce ends. Per str. Daphne, for Jamaica, 1,514 pcs. spruce lumber.

From Chatham, N.B.: Str. Prima, for Rochefort, France, 1,065,513 ft. lumber, by J. B. Snowball Co.; Pandosea, for Manchester, England, 3,219,600 ft. deals, etc., by F. E. Neale.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., MAY 29, 1901 No 18

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber producrs at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

FOR SALE.

About 3½ million feet of White Pine, mill run. ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

FOR SALE.

A stock of White Pine Lumber, consisting of about 4 million feet, to be manufactured this season at Cache Bay.
Logs could be sawn to order of purchaser. Apply,
THE NIPISSING LUMBER CO., LIMITED
Hamilton.

CURRENT TRADE CONDITIONS.

ONTARIO.

Outdoor operations have been much interrupted during the past week by rain, causing a temporary falling off in the consumption of lumber. Enquiries have not been less numerous, nor has the tone of the general market weakened in the slightest degree. Pine and hemlock are stronger than the hardwoods, there being quite a heavy demand from the United States for Canadian pine and a good local call for hemlock. The scarcity of certain sizes of hemlock is having an influence towards higher prices, and it is believed that the timber will gradually become more valuable. The new cut of pine has resulted in a slight readjustment of prices where they have been abnormal. Mill culls, for instance, which sold as high as $12 at the mill, are now quoted from $10.50 to $11. The quietness of hardwoods is a peculiar feature of the trade, and it is a question how long prices can withstand such dullness. In no branch is there any particular activity. The lath and shingle situation is much the same as last week, scarcity of stock and firm prices being the characteristic features.

QUEBEC AND NEW BRUNSWICK.

Although lumber shipments to the United Kingdom this season are almost certain to show a falling off, it is hoped that this may be offset by increased exports to other countries. Vessels have already loaded at eastern ports for France, Australia and South America, and other charters have been made. It appears that prices of spruce deals have about reached the bottom, and if there should be no advance the large manufacturers at least will carry their stock over rather than sell it at a sacrifice. Some manufacturers are preparing to cut a larger quantity than intended for the United States market. The log drives are still uncertain. At last report several million feet were said to be hung up on different streams.

New Brunswick cedar shingles are firm, the best quality being held at $3.00, on Boston rate of freight.

UNITED STATES.

An improvement in the lumber trade of the past week is reported from nearly every section of the United States. Inability to fill orders owing to scarcity of dry stock has curtailed the volume of business in some markets, notably Tonawanda and Buffalo, which have experienced a lively demand from the east. Higher prices are being asked for selects and uppers, while No. 2 cuts and better are scarcer than for some time. Buyers in the east are willing to pay slightly advanced prices, a condition which has greatly improved the outlook, as for some time past it has been almost impossible for dealers to place lumber there at a reasonable profit. In Wisconsin special activity is noted in Norway, which has recently undergone an advance. In the Saginaw valley log run pine is quoted at $18 to $22, but some choice lots have been sold at $24. Box lumber sells at $15, and mill culls at $12 to $12.50. Spruce lumber continues strong, with no indication that the starting up of mills will bring about any decline in price. Frames range from $17 to $20 at Boston. There has been been an increased consumption of hardwoods within the past fortnight, although trade is still more backward than the conditions warrant. Basswood is improving on account of a large demand for manufacturing purposes. In Chicago the range of price is from $20 to $22 for firsts and seconds, $16 to $17 for common, and $11.50 to $13 for culls in carload lots. Maple sells well, but continues low in price. An advance of ten cents per thousand is being asked by several holders of pine shingles.

GREAT BRITAIN.

The timber market of Great Britain does not seem to improve. The dullness of trade is remarkable for this time of the year, while the opinions of importers in respect to the future vary very widely, some contending that a further decline of from two to three dollars per standard will be witnessed. The Timber Trades Journal takes a gloomy view of the situation, and points out that in London at May time it is usual to have in the docks about four months' consumption of timber, while the present stock would supply the wants of the trade for about eight months. The situation at London is a reflection of what exists at all the large importing centres. It is further pointed out that this overstock represents goods purchased at very high f.o.b. prices, and that they must be handled in the face of a general decline in f.o.b. values. Under such conditions importers all over the country are declining new business until the heavy stock on hand becomes reduced. Spruce deals particularly are seeking a lower level, the first-open water arrivals being altogether too heavy considering the ample stock on hand. Recent sales have been made at lower prices, and unless the agents offer concessions in this respect it will be impossible to effect sales. The situation would be greatly relieved by a light import this season, which now seems probable. Birch planks are somewhat scarce at Glasgow, and are finding buyers at slightly better figures than those which ruled one month ago.

MANITOBA AND BRITISH COLUMBIA.

Dealers throughout Manitoba and the Territories report a very satisfactory volume of trade. The most activity is in Winnipeg and the larger towns, where building operations are quite brisk. The permits issued in the city of Winnipeg up to May 25th of this year numbered 244, representing an aggregate value of $753,500, as against 151, of a value of $454,959, for the same period last year. Lumber prices show a tendency to improve. In British Columbia the lumber trade is not particularly active, the foreign demand being rather dull. It is thought that buyers may be waiting for further declines in the freight market, but this is scarcely probable, on account of the anticipated large grain export this year. There is a strong demand for British Columbia shingles, the price of which has remained unchanged, notwithstanding the advance that has taken place on Puget Sound.

STOCKS AND PRICES.

Thomas Mackie, M.P., is reported to have sold his Indian river and Petawawa log drives to J. R. Booth, of Ottawa.

The str. Mab and Werneth Hall are loading lumber at Matane and Metis, Que., for the United Kingdom, on account of Clarke Bros.

The str. Georgia is loading lumber at Digby, N.S., for the West Indies, the shippers being Clarke Bros. Three other vessels have also been chartered by Clarke Bros. to load at same port.

The steamer Cresyl is loading a cargo of deals at Montreal for Hull, England.

The schr. Sarah C. Ropes is loading deals, etc., at St. John, N.B., for an Irish port, Donald Fraser & Sons, of Fredericton, furnishing the cargo.

The Dominion Government has invited tenders up to June 24th for licenses to cut timber on berth No. 978 on the Saskatchewan river in the North-West Territories.

The Antionetta is loading lumber at Chemainus, B.C., for [illegible]. The Hawaii will take a cargo from same port to Chili, and the Sonoma will load at Chemainus for Australia.

Licenses to cut timber on ten berths rivers, aggregating 76 miles, were on the Nipisquit and Upsalquich sold by the New Brunswick Government last week to the applicant, W. T. Whitehead.

Concerning the Barbadoes lumber market Messrs. S. P. Musson, Son & Co., in their circular of May 11th, say: There have been no arrivals of white pine during the fortnight. A small lot from Yarmouth was sold at $22.10. We could place a small cargo or two at about $25 for shipping and $19.50 for second quality. The "Dixon Rice" arrived on 27th ultimo with 210,000 feet spruce, which was sold for Trinidad at $19; and we had the "Mercedese" from Belleveau Cove, N.S., next day, with 155,000 feet spruce, which we sold by wire to Demerara at $22. On the 10th inst. we placed 55,000 feet ex. "Harry," locally, at $18, a very fair rate. The only receipt of shingles is a small lot of 39,000 spruce laying, which we sold at $2.09.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber from Canadian ports are reported since last issue:

From Sheet Harbor, N.S.: Str. Heim, to Bristol, England, 932,917 ft. deals and ends, by Sheet Harbor Lumber Co.

From Ship Harbor, N.S.—Barque Royal, to Penarth Road, for orders, spruce deals, value $6,000, by Alfred Dickie. Barque Erling, to Meni Bridge, cargo spruce and pine deals and boards, value $3,600, by Alfred Dickie.

From Vancouver, B.C.: One boom of logs, containing 100,000 feet fir and 150,000 feet cedar, to United States, by T. Larkin.

From Montreal, Que.—Str. Rathlin Head, for Belfast, 87 stds. boards, by Robert Cox & Co.; 90 stds., by J. Burstall & Co.; 130 stds. by W. & J. Sharples; 180 stds. by Watson & Todd; 1076 maple blocks by Grand Trunk Railway. Str. Trintonia, for Glasgow, 132 stds. deals by Robert Cox & Co.; 33 stds. by McLaurin Bros.; 25 stds. by Watson & Todd. Sarmatian, for Glasgow, 27 stds. deals, by D. Cream & Co.; 109 stds. by Dobell, Becket & Co.; 116 stds. by W. & J. Sharples. Str. Kiplingham, for Hull, England, 1,400, stds. deals, by McLean, Kennedy &Co.; Lake Ontario, for Liverpool, 279 pcs. oak timber, 2,497 maple blocks, 23,203 pcs. deals, 1,888 doors.

From St. John, N.B.: Schr. William Jones, for City Island, 555,000 spruce lath, by Stetson, Cutler & Co; 211,181 feet spruce deals by Charles Miller. Schr. Annie A. Booth, for City Island, 229,904 feet spruce deals, by Stetson, Cutler & Co. Schr. Ina, for Vineyard Haven, 112,013 feet spruce palnk; 26,550 feet spruce scantling by Stetson, Cutler & Co. Schr. Nimrod, for New York, 339,290 feet spruce deals, by Dunn Bros.; Schr. Frank, for Scuituate, 1,425,000 cedar shingles, by Stetson, Cutler & Co. Schr. Myra, for Boston, 94,500 feet hemlock boards, 25,500 spruce boards, by J. E. Moore. Schr. Ida May, for New Haven, 165,411 feet deal ends, by Stetson, Cutler & Co. Schr. Priscilla, for Boston, 106,072 feet pine boards, 23,626 feet spruce boards, by A. Cushing & Co. Schr. Sea Bird, for Eastport, 100,184 feet deals, by Stetson, Cutler &Co. Schr. Hattie E. King, for New York, 1,071,500 laths, by Stetson, Cutler & Co. Schr. Prudent, for City Island, 180,668 feet deals, by Stetson, Cutler & Co. Schr. C. B. Clark, for City Island, f.o, 82,900 laths, by Stetson, Cutler & Co.; 902,200 laths by A. Gibson Ry. and Mfg. Co.

From Parsboro, N.S.: Barque P.G. Blanchard, to Liverpool, England, 1,031,817 feet deals and ends, value $9,947, by Nova Scotia Lumber Co.

From Chatham, N.S.: Str. Sementha, for Dublin, Ireland, 2,910,000 feet deals, etc., value $34,250, by F. E. Neale. Str. Nether Holme, to London, England, 630,220 feet deals, etc., value $5,585, by F. Dyke and J. B. Snowball Co.; 9,965 bales wood pulp, value $39,646, by Maritime Sulphite Pulp Co. and Dominion Pulp Co.; 495 casks tanning extract, value $495, by Miller Tanning Extract Co.

The W. & A. McArthur Company, of Little Current, Ont., have 30,000,000 feet of logs in sight for this season's sawing.

The str. Wilhelm cleared recently from Ashland, Wis., with 142,000 feet of lumber for Port Colborne, Ont., and 600,000 feet for Buffalo and Tonawanda.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Business is brisk in local lumber circles and considerable lumber is being shipped by water and rail. Prices for common stock promise to continue on a firm basis, as the great bulk of the local stock has been bought up by an American dealer. This gentleman, Mr. Emerick, represented the Oswego Manufacturing Co. of Oswego, N.Y. This concern is a branch of the Standard Oil Company.

In all about 30,000,000 feet of common box lumber was secured. From the W. C. Edwards Co. alone, 10,000,000 feet was secured, from Watson & Todd 5,000,000 feet, from J. R. Booth about the same quantity, and from the Rideau Lumber Company and other concerns smaller quantities. The price is said to have been $14 a thousand. This move will clear out ground for higher grades of lumber. Local labor troubles, present and fending, have affected the lumber market in a degree that is felt by the jobbers and factory men. This latest setback has interfered with what promised to be a busy season's building operations. The wood workers are now applying for better wages and hours and threaten to strike unless their demands are complied with. If they do so an entire suspension of work may be looked for.

The trade with England and the United States continues brisk, but no comparison can be made, as the fire blocked these avenues of business last year. Good pine siblings are quoted at $30 to $40 per M., the one inch stuff at $30 to $33, the 1 and a quarter and 1 and one-half inch at $33 to $35 and the 2 inch at $36 to $40. Pine shorts range from $11 to $14 per M. In no single instance do prices show a tendency to weaken, though the demand has undergone a temporary decline.

A prominent English buyer at present in the city, states that the outlook for Canadian lumber on the English market is a poor one. Large shipments made from the Baltic ports have been disposed of at low prices, and within the past six months' quotations have gone down from $5 to $8. This gentleman states that the Ottawa mill owners will have to revert to their former standard if they are to retain the good will and custom of the English manufacturers and buyers. The classification adopted two years ago, he states, is altogether too low and not suitable to the English market. The standard rejected, upon the formation of the Deal Cullers Association, he continued, was much more acceptable and satisfactory to the English buyer and manufacturer, and hence must be returned to if satisfaction is to be given.

A few days ago 147 cribs of first class square timber were passed through the Calumet slides on the Ottawa river near Pembroke. The timber was cut by Mr. Robert Hurdman, and it was brought from Des Joachins, Que. Such a movement of timber would have occasioned but slight interest 10 years ago, but things have changed since. The production has dropped steadily, and square timber is now a rarity.

Reports from the districts about Ottawa show that the drives are moving freely, recent rains having made transportation easy on the streams possible.

Ottawa, May 25th, 1901.

Do not neglect to read the advertisements in each issue of the Weekly Lumberman. They contain much of interest.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

SHIPPING MATTERS.

The Timber Trades Journal states that very few orders are in the freight market, but that freights are steady. Owners are finding more remunerative employment in other trades. Late fixtures include the following: 1,700 reg. on time, Canadian trade, £1,000 per month; "Tudor Prince," Miramichi, N.B., to La Rochelle or Brest, 68fcs.; "Wilderoft," Batiscan or St. Thomas, Que., to U.K., 43s 9d, London, 45s; "Tantallon," Bay of Fundy to W.C. England, 41s 3d, May-June; 1,600 stds, St. John to Mersey, 40s; 700 reg. Miramichi to Marseilles, 68fcs., August; 600 reg. Shediac to Mersey, 51s 3d; several small sailers from lower ports at 47s 6d to 51s 3d, according to ports of discharge.

The following charters are reported: Str. Indianapolis, St. John, N.B., to w.c. England or e.c. Ireland, private terms; schr. Frank T. Stinson, St. John, N.B., to Limerick, deals and box shooks; a steamer, Halifax, N.S., to w.c. England, deals, 40s; barque Melba, Weymouth, N.S., to South America, lumber; str. Hamond, St. John, N.B., to w.c. England, deals, 40s; barque Lily, St. John, N.B., to w.c. England, deals, 50s; barque Sigrit, St. John, N.B., to Ayr, deals, 50s; schr. of 600,000 feet capacity, Yarmouth, N.S., to Rosaria, $11.

BRITISH TIMBER IMPORTS.

The following imports of timber into the United Kingdom from Canadian ports for the week ending May 18th, are reported:

Liverpool—Per Parisian, from Montreal, 2,890 boards, 5,653 deals, for R. Cox & Company; 7,523 boards, 7,104 deals, to order. Per Lake Champlain from Montreal, 31,628 pcs. deals, 4,748 pcs. ends, 32,809 boards, for Watson & Todd; 5,054 doors, 164 bundles shooks, to order; 1,224 pcs. oak lumber, for J. Kennedy & Co.; 247 oak scantlings, for McArthur Bros. & Co.

To London—Per Malabar from St. John, N.B., 700 stds. spruce deals, scantlings, etc, 100 stds. birch planks to J. H. Holme & Co.

To Glasgow—Per Briardene, from Halifax, 28,874 pcs. birch deals and ends, 36 birch logs, 45,281 pcs. spruce deals and ends, for Singleton, Dunn & Co. Per Concordia, from St. John, N.B., 1,479 pcs. deals, for Singleton, Dunn & Co.; 19,978 pcs. deals, 8,976 pcs. ends, for Calder, Henderson & Livingston; 2,232 bundles box shooks, 83 pcs. birch, to order.

FIRES.

The shingle mill of the Spicer Shingle Mill Co. at Vancouver, B.C., was almost totally destroyed by fire last week. The loss, about $15,000, is fully covered by insurance.

The saw mill at Fraserville, Que., owned by W. Lachance, was burned recently. The loss is about $17,000, and insurance small.

A fire near St. Martins, N.B., a few days ago destroyed 300,000 feet of lumber owned by the O'Neill Lumber Co.

BRITISH COLUMBIA PINE.

The Timber News, of London, Eng., thus refers to the market in London for British Columbia pine: "The market is again overstocked with British Columbian pine, plank and deals, and unless the unexpected happens, the season 1897-1898 will be repeated, when plank and deals sold at £9 (and under) per std.—which practically involves a dead loss of £5 per std. for the luckless shipper of consignment."

TIMBER LIMITS FOR SALE.

The Ontario Crown Lands Department has decided to dispose of certain timber limits in north western Ontario. They will be offered for sale by public auction at the Parliament buildings, Toronto, on September 17. The limits comprise a block of six townships, Jarvis, Anderson, Chesley, Whitman, Carter and Gilmour, situated north east of Sault Ste. Marie, Ont., and forfeited or abandoned berths situated in the townships of Digby, Sherbourne, Lutterworth, Graham, Cartier, Levack, Hart, and on Lake Temiscaming. The sale of the townships north east of Sault Ste. Marie has been decided upon in consequence of the construction of the Algoma Central Railway.

The Empire Lumber Comoany, of Buffalo, recently shipped forty-two cars of 12x12 and 12x18—22 ft. oak timbers, amounting altogether to 355,000 feet, to Montreal, to be used in the construction of grain elevators there.

At a meeting of the Michigan Hemlock Association held last week it was stated that the cut this year in the lower peninsula of Michigan would be about 50,000,000 feet less than last year. It was decided that prices at such points as Ann Arbor and Detroit should not be less than $12 for 2x4 to 2x10-12, $13 to $14 for merchantable boards, and $10.50 to $11.50 for culls or No. 2.

Stock list may be seen upon application to the assignee or his solicitor.
Terms of sale and full particulars may be had upon application to them.

HERBERT D. SMITH, Solicitor for Assignee, Ridgetown, Ont.
WM. A. GOSNELL, Assignee, Ridgetown, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The strength which is shown by the lumber market is very encouraging to holders of stock. Information from manufacturers and dealers in pine is decidedly optimistic, and the outlook for building operations is improving as the season advances. There is a heavy local demand, and a liberal distribution to the Eastern States. The new cut apparently is having no influence upon prices; consequently investors who have delayed carrying out proposed undertakings are now proceeding with the work. The statement of the manager of the Bank of Montreal that the lumber markets were congested and prices ruling low has elicited much unfavorable comment. So far as the markets of Canada and the United States are concerned, his statements are widely at variance with the facts, as it is many years since the market has been in a more healthy condition. With mill culls, for instance, selling at $11 at the mill, surely the market is not depressed. On the other hand, the outlook is that there will be no material decline in the price of pine lumber this year. This might be said of hardwoods also, although this class of lumber is not as active or firm as pine. The British market is doubtless rather heavy, but Canadian manufacturers are not likely to be seriously affected thereby, on account of the increased demand at home and in the United States.

QUEBEC AND NEW BRUNSWICK.

Shipping of lumber during the past week from the eastern provinces has been quite active. Heavy shipments have been made to Great Britain, and vessels have loaded for South America and Antwerp. The shipment to Antwerp is the first that has taken place for several years. The number of vessels under charter seems to indicate that the export of spruce lumber this season will be heavier than was anticipated earlier in the year. The market for square and waney timber is showing strength, pine timber having advanced from one to three cents per cubic foot. Most of the log drives in Quebec are likely to reach the mills, but in New Brunswick several drives have already been hung.

UNITED STATES.

The past week has been one of unusual activity in lumber circles. The buying has been on a comparatively large scale, and sales made in the Lake Superior district have been at the top prices of the year. Although some of the new cut is almost in shipping condition, the sawing season having been in progress for six weeks, white pine lumber is exhibiting increased strength. There seems to be a large present and prospective demand, and a strong belief that there will be no material decline in prices during the summer. From Duluth the sale is reported of several million feet of No. 3 and better at $18, which is a remarkable price. The east is buying quite liberally, and although receipts of lumber at Buffalo and Tonawanda have been quite heavy, the grades are still somewhat broken. In view of the attitude of the western producers the dealers at eastern distributing points may be forced to advance prices. Such a possibility at this season of the year is unusual. The manufacturers of spruce are showing great confidence in the future of prices, the present asking price at Boston being fifty cents above the list. The improvement in hardwoods is slow. Sales of basswood are on the increase, but elm and maple are quiet. Brown and black ash are meeting with better enquiry.

GREAT BRITAIN.

About the only encouraging news from Great Britain is the announcement that at recent sales the buying has shown more animation. Other conditions remain unchanged. The import of timber so far this season has been little less than for the corresponding period of last year, and it is feared that even lower prices may be witnessed before the season closes. A large quantity of the North of Europe production is still unsold. White sea shippers have lately closed some contracts, but the quotations are believed to be fifty shillings lower than the price quoted at the opening of the season. The building trade is inactive, even in the face of the compatatively low price of lumber. While pine deals are reasonably firm, the market for spruce is quite heavy. It is reported that Canadian shippers are accepting lower prices. For instance, 3x9 third spruce has sold at £8 2s 6d c.i.f. London, and 3x7-8ths at £7 5s, the latter being a reduction of 10s per standard on battens. There is a fair demand for 11-inch spruce, but the quantity of this width available is not large.

MANITOBA AND BRITISH COLUMBIA.

There has been a decided improvement in the lumber demand in Winnipeg, and a slightly better trade throughout the province. Building operations are quite active, and higher prices for lumber are looked for in the near future. Conditions in British Columbia are reasonably satisfactory, although foreign shipments have not been heavy. The Provincial Government has prohibited the export of cedar logs, which has affected a number of loggers. A considerable quantity of such logs has been exported to the coast sections of Washington State, where the cedar limits are of little account.

The Whaley Lumber Company, whose mill at Huntsville, Ont., was burned recently, are reported to have sold their stock of logs to a Hamilton firm.

STOCKS AND PRICES.

The steamer Ridal Holme is loading lumber at Chicoutimi, Que., for the United Kingdom, on account of Price Bros. & Co.

The cooperage market is not active, flour barrels beingg especially slow. Michigan staves are quoted in Minneapolis at $8.50.

The steamer Monhegan has sailed from Ship Island for Montreal, with 775,000 feet of pitch pine, consigned to Shearer & Brown.

The steamer Lovstaken is loading a cargo of deals at Riviere du Loup, Que., for the U.K., and the steamer Varax is about to load at Montreal.

The steamer Magda is loading 2,000,000 feet of lumber at Montreal for Antwerp, the shippers being Watson & Todd. This is the first shipment of lumber made from Montreal to Antwerp for many years past.

Eastern spruce is held in New York at $18 to $20. In Portland, Maine, prices are $21 for 12-inch, $15.50 for 1x3 to 1x11, and $16 for scantling. Spruce clapboards are quoted at $32 for extras, $30 for clears, and $26 for second clears. Dry spruce covering boards bring $15.50 to $16.

The steamer Georgia sailed last week from Digby, N.S., for Cienfuegos, with lumber. The barque Lillian is loading lumber at Tusket Bridge, N.S., for Buenos Ayres. The brig. James Daly, is loading at Liverpool, N.S., for the Barbadoes, and the sch. Frances A. Rice will load again at Weymouth, N.S., for the West Indies.

The steamers Daventry and Gladstrey are loading lumber cargoes at Sillery Cove, Que., for the United Kingdom. The steamer Dunmoore Head is loading a cargo of deals at Batiscan, Que., for Cork, Ireland. The Loughrigg Holme is about to load a cargo of lumber at Montreal for Barrow, Eng., the shippers being Watson & Todd.

C. H. McMichael, of Beaverstone, Ont., states that they expect to have their drive of logs out in about two weeks. On one of the creeks the water is low, and about 25,000 pieces are in danger of being hung up.

A shipment of square timber, comprising four cribs of 135 pieces, was made from Lindsay last week for England. It was cut in Cartwright township, and consisted chiefly of elm and birch.

The shingle market at Saginaw, Mich., is active, stocks being taken about as fast as they come from the saw. There is as yet very little stock accumulating, and as the product is not so large in eastern Michigan as years ago, it is not expected that there will be any shingles piled up for any length of time. The market is firm, with quotations there at $2.50 and $3.50 for 18-inch white pine; $1.75 to $3 for 16-inch white pine; cedar shingles, $2 and $3, for 18-inch and $1.50 for 16-inch cedar.

A correspondent thus refers to the Michigan lumber market: The market never manifested healthier conditions. There is a demand for all kinds of stock. Good lumber is particularly firm. Michigan white pine is worth from $17 to $25, and Canada stock from $16 to $21 for log run. Box lumber has not been so strong as some other grades, but is quoted at $12.50 to $15. Norway is in demand, but only two or three firms are cutting it, and the old stock is practically exhausted. It is worth $11 and up, according to dimension. Mill culls are worth $12 to $13.

At an auction sale at Dublin, Irelabd, on May 25th, held by Richard Martin & Co., Canadian timber brought the following prices per Irish standard: 3rd Quebec spruce, 11ft. 9x3, £12; 12ft. 9x3, £13 5s.; 11ft. to 13ft. 7x3, £12 2s 6d. to £12 7s. 6d. to £12 7s. 6d.; 13ft., £12 10s; 7s. 6d.; 13ft., £12 10s.; 16ft John spruce, 14ft. to 18ft. 11x3, £ 7s. 6d.; 19ft. 11x3, £13 10s.; 14ft 9x3, £13 10s.; 15ft. to 18ft. 9x3, £13 10s.; 19ft., £13 17s. 6d.; 20ft. and 21ft. 9x3, £14 7s. 6d. 2nd Quebec spruce, 11ft. 9x3, £12 15s.; 12ft. 9x3, £13 12s. 6d. to £13 15s.; 12ft. 11x3 £12 12s. 6d. to £13 17s. 6d. Bay Verte spruce, (10 5s. to £10 17s. 6d.

THE BOSTON MARKET.

There continues to be a very firm market for spruce lumber, with the demand active and the supply not fully up to requirements. It is claimed the scarcity of logs on the St. John will be even more serious than at first reported. Not much cargo spruce is coming forward, and the car mills are delaying orders.

The quotations on spruce in this market are firmly held: Ten and 12-inch dimensions, $18@19.50; 9-inch and under, $17@$18; 10 and 12 inch random lengths, 10 feet and up, $17.50@18.50; 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $15@16; all other randoms, 9-inch and under, 10 feet and up, $15.50@17; 5-inch and up, merchantable boards, $15@$16; matched boards, $17 to $18; out spruce boards $12.50; bundle furring, $14.

There is a firm market for hemlock lumber, with the supply small: Pennsylvania, No. 1, $16 to $17; No. 2, $14 to $15; eastern Pennsylvania boards, $15 to $16; random, $13 to $14.

Western white pine is steady and unchanged: Uppers, 1 inch, $58 to $62; 1¼ to 2 inch; $63 to $64; 3 and 4 inch $68 to $72; selects, 1 to 4 inch, $52 to $64: fine common, 1 to 3 inch, $45 to $60; sheathings, $38 to $54; barn boards, $25 to $30; coffin boards, $23 to $25.

There is a quiet demand for finishing hardwoods, but whitewood is firm, owing to the scarcity in the South: One inch, whitewood, $37 to $39: thicker, $39 to $42; ⅝ inch, $30 to $33; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $65 to $75; fancy, $85 to $90; plain oak, $35 to $45; ash, $38 to $45; cherry, $90 to $130; maple, $30 to $40; sycamore, quartered inch, $40 to $50; walnut, $100 to $130.

There is a steady market for shingles, with prices firm: Extra cedar, $2.85 to $2.95; clear, $2.60 to $2.65; second clear, $2.15 to $2.25; clear white, $2; extra No. 1, $1.90; Washington and British Columbia, 16-inch, five butts to 2 inches, $3.15 to $3.25.

Clapboards are firm and unchanged: Extra spruce, $30 to $31; clear, $28 to $29; second clear, $25 to $26; pine extra, $36 to $38; clear, $36 to $37; second clear, $28 to $30.

Laths are easier with a fair demand. The quotations here are: 1¾ inch, $2.85 to $2.90; 1 1/2 inch, $2.70, to $2.85.

Boston, Mass., June 3rd, 1901.

INQUIRIES FOR WOOD PRODUCTS

Enquiry has been made from the Canada Lumberman for names of Canadian shippers of pine, spruce and hardwoods who wish to secure a responsible firm of London brokers to handle their shipments and advise them regarding the market. The name and address will be furnished upon request.

QUEBEC TIMBER LIMIT SALE.

The sale of timber limits advertised by the Quebec Government took place in the Parliament Buildings, Quebec, on June 5th. There was an unusually large attendance of lumbermen and others interested. Mr. Blouin, of the Crown Lands Department, acted as auctioneer. Although the bidding was not particularly spirited, the result was satisfactory. In all about 2,700 square miles were disposed of, at an aggregate price of $402,300. At 4 o'clock the sale was adjourned until the 26th inst., when the unsold limits in Saguenay district will be put up. The largest purchases, with quantity and price, were as follows:

	Sq. Miles.	Price.
W. H. Davis	2,297¾	$193,790
St. Maurice L. Co.	544	51,721
Hon. R. Turner	226	29,306
B. A. Scott	136½	22,265
W. Power	193½	21,201

A. McPHERSON & CO.
Longford Mills, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

It might be regarded as misleading to state that the lumber trade of Ontario is experiencing a boom, yet the movement of lumber during the past week has been of such volume as to cause manufacturers and dealers to feel well satisfied. The most activity, of course, is confined to the pine trade, in which branch heavy shipments are being made to the United States, while the local consumption has been quite large. In many of the towns extensive building operations are under way; for instance, in Sault Ste. Marie the Lake Superior Power Company are about to commence the construction of fifty double houses. The shipment of lumber from Georgian Bay mill points is very active, and a fair summer and good fall trade is looked for. The stock lists sent out by manufacturers on the 1st of June show no decline in prices, but on the other hand a slight advance in some grades. The possibility that the carpenters of Ottawa may continue their strike has somewhat unsettled the trade in that district, but it is thought that matters will be amicably arranged before there has been much interference to building operations. Nothing new can be said of hardwoods, which continue to be purchased in a hand-to-mouth manner.

QUEBEC AND NEW BRUNSWICK.

Notwithstanding the backward demand from Great Britain, the spruce lumber market is reasonably active, as the shipments to the United States, France, Australia, and the West Indies have been rather above the average in quantity. A number of vessels are under charter to load for South America. Reports from Quebec tell of a stronger market for square and waney pine timber. There is still some uncertainty as to the outcome of the log drives in New Brunswick, information received a few days ago going to show that about 50,000,000 feet may be hung up in the head-waters of the St. John. Logs are changing hands at $9 per thousand feet. Clapboards are firmer, from $31 to $32 being asked for extra quality on Boston rate of freight.

UNITED STATES.

The white pine situation in the United States is decidedly strong. The total shipments of lumber from Minneapolis up to June 1 of this yearwas 172,000,000 feet, a gain of 16,000,000 feet over the same period one year ago. There are rumors that the interior mill men in Wisconsin and Minnesota will shortly make a further advance in the prices of some grades, which continue scarce in spite of the heavy production. A feature of strength has been the action of the Chicago lumber trade in marking up prices. Common stock boards, 8, 10 and 12 in., were advanced 50 cents; No. 2 13 in. box boards one dollar; No. 2 A cedar shingles from $2.60 to $2.65; and No. 1 and mixed lath 10 cents. At Saginaw dry stock in large blocks is scarce and dealers are anxious to purchase. Fine common is about $1 higher per thousand than one month ago. Buffalo and Tonawanda dealers report an exceptionally good trade. There is a tendency to advance prices on the lower grades, including 12 inch boards and No. 3 barn, of which the stock is very light. In the east building is progressing favorably, with a strengthening effect on spruce. There is little possibility that prices of this lumber will be materially lower this season. The continued good crop reports has created an improved demand for hardwoods from the implement manufacturers, but the movement is still light. Ash is showing an improvement, with maple and elm steady. Basswood is being bought quite liberally.

Receipts of laths at eastern distributing points have been on a larger scale of late, but owing to its being almost entirely out of the market, it will be some time before it is plentiful again. Prices, however, are not expected to further advance. Shingles are strong and meet with ready sale.

GREAT BRITAIN.

The quantity of timber which has arrived in Great Britain since the opening of the snipping season has been a surprise to the trade. It was thought that the first-open-water shipments would be very light, but the quantity has been almost equal to last year. Predictions are now made that the summer receipts will show a marked falling off, and it remains to be seen whether this condition will be experienced. It is quite certain that the market is not in a position to receive heavy consignments of lumber, but if shipments are limited it is probable that the market will soon recover lost ground, and the foundation would be laid for a large trade next year. Lumber now arriving has mostly been purchased at such a price as to make it almost impossible to dispose of it at a reasonable profit. Importers in a position to do so will no doubt hold the stock until there is an improvement in the market. While at London and Liverpool the stock of Quebec lumber is heavy, the supply at Glasgow and at some other ports is not excessive nor more than is usual at this season of the year. Spruce deals have shown no improvement, sales being difficult to make.

STOCKS AND PRICES.

In the Saginaw Valley log run pine is quoted at $18 to $24, box lumber at $16, and mill culls at $12 and $12.50.

The Skillings, Whitney & Barnes Company, of Ogdensburg, N. Y., are reported to have made heavy purchases of lumber in the Georgian Bay district.

On May 25th the first cargo of lumber was shipped from Ashland, Wis., to England. It consisted of 500,000 feet of Norway deals. This is the fifth consignment of lumber from Ashland to Canada this year, and the first to be consigned directly to England.

About 4[illegible],000 000 feet of logs is expected to be rafted from Ontario to Michigan this season, the timber being cut on Indian reserve lands.

The Eddy-Sheldon Company, of Bay City, Mich., recently received two cargoes of lumber, totalling about 1,000,000 feet, from Algoma Mills, Ont.

The steamer Berax is loading a cargo of deals at Montreal for the United Kingdom, shipped by J. Burstall Company.

The steamer Feronia is loading deals at Montreal for the United Kingdom for Dobell, Bickitt & Company, and the str. Andoni is expected in Montreal shortly to load a cargo of deals for London.

The schooner Frank Stinson is loading deals at St. John, N. B., for the United Kingdom.

The steamer Dunmore Head is loading

a cargo of deals at Batiscan, Que., for Cork, Ireland.

N. & A. Dyment, of Thessalon, Ont., are supplying a quantity of pine timber for bridges along the line of the Algoma Central Railway.

The barque Seguin has taken two cargoes of lumber from Parry Sound to Buffalo since the season opened, the shippers being the Parry Sound Lumber Company.

Last week Robert Aiken had 10,000,000 feet of logs out of the Aroostook river into the corporation limits above Grand Falls, N. B., but the water was low and the logs are in danger of being hung up.

The drives owned by S. H. DeCew and J. A Lindsay, of Fenelon Falls, Ont., which were hung up on Union Creek, a tributary of the Burnt river, are now moving, recent rains having been of great benefit.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec, up to June 11th, as reported by the Supervisor of Cullers :

	1899.	1900.	1901.
Waney white pine	620,148	90,202	257,924
White pine.....	60,005	89,642	57,948
Red pine	73,752	6,926	861
Oak.....	110,985	196,408	144,481
Elm	236,973	204,441	169,837
Ash	40,085	27,601	52,331
Butternut.....	60	92	462
Birch and Maple.	223,409	247,154	251,218

Of the Barbadoes lumber market Messrs. S.P. Musson, Son & Company say: The arrivals of white pine and spruce have been the "Bravo", from Lunenburg, N.S., with 140,000 feet spruce; Jessie L. Smith, from Bridgewater, N.S., with 15,000 feet shipping and 16,000 feet second quality white pine, 47,000 feet shipping spruce, 8,000 feet dressed boards, and 21,000 feet scantling ; and the Arctic, from Bridgewater, N.S., with 7,000 feet shipping and 20,000 feet second quality white pine, 20,000 feet shipping and 8,000 feet second quality spruce, and 48,000 feet scantling. The cargo of the Bravo was placed at $17.50, and that of the Arctic at $25.75 for shipping and $20 for second quality white pine, $17.05 for shipping and $13 second quality spruce, and $13 for shipping and $11 for second quality scantling. White pine is wanted and would bring fair prices, but there is an ample supply of spruce.

THE BOSTON MARKET.

The spruce lumber market in Boston is very firm. Orders are reported that cannot be filled from yard stock, and few mills are sawing. It is understood that at Bangor, Me., some of the mills have run out of logs, a feature alone which is sufficient to keep the market strong. The demand for lumber is light, but the supply is unusually small. The quotations are : 10 and 12 inch dimensions, $18 to $19.50 ; 9 inch and under, $17 to $18 ; 10 and 12 inch random lengths, 10 ft. and up, $17.50 to $18.50; 2x3 to 2x7, and 3x4, 10 feet and up, $15 to $16; all other randoms, 9 inch and under, 10 feet and up, $15.50 to $17 ; 5 inch and up merchantable boards, $15 to $16; matched boards, $17 to $18 ; out spruce boards, $12.50 ; bundle furring, $14.

The market for hemlock lumber holds firm, with extremely small offerings, and western pine is very strong. One inch uppers are quoted at $58 to $62 ; 1¾ to 2 inch, $63 to $64 : fine common, 1 to 3 inch, $45 to $60 ; sheathings, $38 to $54 ; barn boards, $25 to $30 ; coffin boards, $23 to $25.

Shingles are very firm; while the demand is not active, some sellers find difficulty in filling orders. Considerable trouble has been experienced with the New Brunswick manufacturers in securing their logs, and the supply is likely to be small : Extra cedar, $2.85 to $2.90 ; clear, $2.60 ; second clear, $2 to $2.25 ; clear sap, $2 to $2.25 ; extra, No. 1, $1.60 to $1.75 ; Washington and British Columbia, 16-inch, five butts to two inches, $3.15 to $3.25.

Clapboards hold firm, with some sellers asking as high as $32 for extra : Extra spruce, $30 to $32 ; clear $28 to $29 ; second clear, $25 to $26 ; pine, extra, $36 to $38 ; clear, $36 to $37 ; second clear, $28 to $30 ; California redwood, clear, $42.50 to $45 ; second grade, $40 to $42.

Laths show a little more firmness. The quotations are : 1⅝ inch, $2.85 to $2.90 ; 1½ inch, $2.70 to $285.

A fire broke out in the lumber yard of the Conger Lumber Company at Parry Sonnd, on June 6th, destroying the docks, tramways and several million feet of lumber. The greater part of the lumber was owned by the Skillings, Whitney & Barnes Company, of Ogdensburg, N. Y. The loss is estimated at $80,000.

ST. JOHN WINTER SHIPMENTS.

According to a statement compiled by the St. John Board of Trade, the deal and timber shipments by the winter port steamers in the season of 1900-1901 were 14½ per cent. greater than in the previous season. The total shipments were 16,649 standards of deals and 2,904 loads of timber, made up as follows.

Elder-Dempster line to Liverpool—6,250 stds. deals and 3,037 loads timber.

Manchester line to Manchester—5,022 stds. deals and no timber.

Furness line to London—824 stds., deals and 303 loads timber.

Donaldson line to Glasgow—2,226 stds. deals and 563 loads timber.

Head line to Belfast and Dublin—3,327 stds. deals and 101 loads timber.

Deals and timber made up the following proportion of the cargoes of the several lines :

Elder-Dempster.....	about	16 p. c.
Manchester.....	"	23 p. c.
Furness	"	16 p. c.
Donaldson	"	16 p. c.
Head.....	"	34 p. c.
Average for all lines of.....	"	20 p. c.

Compared with the figures for the preceding winter, there was an increase of 2,123 standards of deals and 803 loads of of timber.

The schooner Corsicande recently arrived at Sarnia from the Algoma district, with 300,000 feet of lumber for F. McGibbon & Sons.

The saw mill and planing mill of James Brown, at Acton, Ont., were burned last week. The loss is $6,000, and the insurance $2,000.

The Timber Trades Journal reports the charter of a steamer from the St. Lawrence to Aberdeen, deals, 51s, 3d, timber 75s, and one from St. John, N.S., to Limerick, 42s, 6d, June sailing.

The brig. James Daly, has been chartered by Harlow & Kempton, to load lumber at Liverpool, N.S., for the West Indies. The brig. Blenheim will load a cargo of lumber at Quebec, for Malta, Mediterranean.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JUNE 19, 1901 No. 21

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

FOR SALE.

About 3½ million feet of White Pine, mill run. ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

All Persons are Hereby Warned

against using the same; otherwise they will be prosecuted according to law.
THE RATHBUN COMPANY,
Deseronto, Ont.

FOR SALE

Timber Lands in the County of Norfolk

To Portable Mill Men.

200 acres of heavily timbered land, being lot 6 in the 8th concession of the township of Charlotteville. Timber chiefly second growth pine, suitable for sawing, besides a large quantity of white and black oak and maple. The land would make a good farm. Price $25 per acre.

100 acres well timbered land, being the southwest part lot 6 in the 6th concession of the township of Charlotteville. Timb r chiefly maple, ashand elm. Will cut a large amount of lumber, heading bolts and cordwood. The land will make a good farm. Price $20 per acre.

These lands are four miles north of Forestville Station on the Grand Trunk Railway, on a good level road. This is the best lot of timbered lands on the market, and well worth investigating. For further information apply to

ALEX. McCALL,
Simcoe, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Orders for white pine lumber show no falling off, dealers and consumers apparently having entered the market with a determination to fully replenish broken stocks. Although some of the new cut is in shipping condition, this has had no preceptible effect upon prices, which continue firm, while one or two of the higher grades exhibit indications of an early advance. There is little probability that lower prices will rule for pine lumber for some months to come, and if the present favorable conditions continue, lower prices need not be expected this year. Georgian Bay manufacturers report many inquiries for stock for shipment to Michigan. The disastrous fire at French river has taken out of the market about 15,000,000 feet of pine, a circumstance which cannot be ignored. In the city of Ottawa the strike of carpenters has given a set-back to the lumber trade, but negotiations are now under way which are likely to result in an early settlement of the difficulties. The lath market continues strong. The present prices, although not as high as those which ruled two years ago, should stimulate production this year, and the supply will doubtless become greater as the season advances.

QUEBEC AND NEW BRUNSWICK.

Considering that the foreign demand for lumber is exceptionally dull, the shipments so far this season from Quebec have made a favorable showing. During the past month one firm has shipped from Montreal 30,000,000 feet of lumber. The best grades of pine and spruce deals are in demand, but the production of the Maritime Provinces, which is of a lower grade, is moving slowly. An average quantity of clapboards, laths and cedar shingles are being shipped to the Eastern States. Some of the small manufacturers are still cutting the price of shingles, and sales have been made at $2.80 for extras on Boston rate of freight, but the average quotation is about $2.90, and $2.60 for clears. Recent rains have improved the outlook for the drives, but all the danger is not yet past.

MANITOBA AND BRITISH COLUMBIA.

Recent rains throughout Manitoba and the Territories have improved the crop outlook and the lumber trade in sympathy. Building is particularly brisk in Winnipeg, the amount of work under way being much greater than at the same time last year. Indications point to a good demand for lumber throughout the summer and fall. British Columbia manufacturers report a moderate demand for lumber and shingles, although so far this spring the quantity of shingles disposed of in Manitoba and the Territories has been below the average. The demand from Ontario has been fairly good. Recent lumber charters would seem to indicate an improvement in the export trade.

UNITED STATES.

The crop reports issued by the United States Government have been of the most encouraging nature, and have assisted in maintaining the strength of the lumber market. The developments of the past week have been along the line of further improvement; the demand is increasing; lumber of last year's cut is decidedly scarce. Statistics compiled by the secretary of the Mississippi Valley Lumbermen's Association show that the shipments of northern pine lumber during the month of May were 21 per cent. greater than the shipments of the corresponding month one year ago. Buffalo, Tonawanda and other distributing centres report heavy shipments to the Eastern States. Some of the lower grades of pine were recently advanced in price, which advance is being maintained and likely to prevail for some time. The Ashland Lumber Company, of Ashland, Wis., recently sold 1,500,000 feet of white pine to eastern parties, for immediate shipment, and it is said that part of the lumber brought a higher price than the company had ever received for the same grade heretofore. The new list of the Chicago lumber dealers went into effect on June 3rd. It makes an advance of 50 cents on stock boards and siding, and one dollar on box boards. These facts clearly indicate the trend of the white pine market. In spruce the position seems equally strong, one of the main factors of strength being the hanging up of the east branch drive on the Penobscot river and the consequent shutting down of a number of mills at Bangor. Hardwoods are selling a little more freely. A scarcity of dry basswood is announced in many directions, as very little of the new cut is yet in shipping condition. The manufacturers of Michigan maple are endeavoring to unify their interests and prices of this lumber may be benefitted thereby. At present culls are selling at from $5 to $7 at the mill, common at $10 to $12, and firsts and seconds at $15 to $17. Stocks of shingles and lath do not seem to accumulate, and the market is firm.

GREAT BRITAIN.

In giving a correct impression of the position of the British timber market, it cannot be stated that there has been any visible improvement; in fact, the likelihood of an improvement seems more remote than ever. Timber brokers and merchaats are advising shippers to exèrcise the utmost precaution in making consignments, so as to give the market an opportunity to recover. The chief reason of the depression is the large stock held at most of the leading ports. The returns of the Surrey Commercial Docks, London, show that the stock of deals is 1,000,000 pieces greater than at the corresponding date one year ago; in other words, the present supply is sufficient for nearly four months, whereas the average supply is about two months. Elsewhere are given figures showing the stock of foreign and Colonial deals at the public docks in London on May 31st for two years, which tell their own story. While prices of pine deals have held firm, the buying has been limited. Spruce prices have continued to decline, excepting first quality 3x9 and 11 inch, 12 feet and up, the supply of which is light. Quebec pine deals of first quality are quoted at $24 5s to £29 15s per std, a decline of 10s as compared with one month ago. There has been

a similar decline in other grades and a drop of 15s in third quality New Brunswick spruce. Quebec square and waney timber is inquired for, and prices show a tendency to stiffen. Ash has been imported quite largely from the United States.

STOCKS AND PRICES.

Warren Copp has cut 800,000 feet of lumber in Pictou county for Rood & McGregor, of New Glasgow, N.S.

Saginaw valley manufacturers have advanced the price of shingles 10 and 15 cents per thousand. At Minneapolis white and red cedars have been advanced about 5 cents.

Quotations of cooperage stock at Buffalo are as follows: No. 1 dry elm flour barrel staves, $7.50 to $7.75; No. 2, $4.75 to $5; basswood heading, 5 3-4 to 6 cents; No. 2, 4 to 4 1-4 cents; coiled hoops, 6 ft., $7.50 to $7.75; 5 1-2 ft., $4 to $4.50.

The following are the quotations adopted by the Chicago lumber dealers for shingles and laths in carload lots: Extra pine shingles, $2.75; standard pine, $2.25; clear pine, $3; clear cedar, $7.85; extra cedar, $2.65; standard cedar, $2.10; white pine lath, $2.60; mixed dry, $3.10; No. 2, $2.75. In the Lake Superior district green or partially dry lath is selling at $3.25 to $3.35 or No.1 white pine.

Of the London market for Canadian timber Messrs. Denny, Mott & Dickson say: There has been little feature in this market. Waney pine, oak and elm have all been little enquired for; but the small supplies on hand and largely increased cost of next season's supplies cause prices to continue to stiffen, as it seems indisputable that a vert modest demand for the the rest of the year would more than exhaust the possible supply.

Messrs. Churchill & Sim furnish the following statement of timber, deals, etc., at the public docks in London, on May 31st:

Foreign deals . .	1,904,000	684,000	pcs.
" battens .	3,674,000	1,532,000	"
" boards	14,085,000	8,481,000	"
" wainscot logs	574	373	"
" oak tim.	1,907	1,437	lds.
" fir timber	2,014	1,473	"
Colonial pine d'ls	724,000	600,000	pcs.
" spruce do	733,000	491,000	"
" oak timber	1,287	1,532	lds.
" birch "	3,476	1,736	"
" elm & ash	1,872	287	"
" white pine	1,006	223	"

Messrs. S. P. Musson, Son & Company, in their market report of June 8th, refer to the Barbadoes lumber market as follows: Since the "Trader," from Shelburne, N.S., with white pine, which was placed at $25.75 and $20.07 for shipping and second quality respectively, there has been no arrival of consequence. A small lot of 10,000 feet has been sold at $23.65 as it run. The market is virtually bare, and first receipts will do well, although one or two cargoes have been contracted for at $24 and $19 customary delivery. In spruce the "F. B. Wade" arrived on the 29th ultimo, from West Dublin, with a lot of 22,000 feet, which was sent in vessel to Trinidad, and on the 30th the "J. K. Dawson" arrived from same port to our address with 250,000 feet. The crop being so nearly over, and dealers being unwilling in the present position to carry much stock, the most we could obtain was $17.05 and $13.05 for shipping and second quality respectively; and we doubt if next receipts will bring these prices.

By the recent fire in the Conger Lumber Company's yard at Parry Sound, Ont., Haines & Company, of Buffalo, lost 1,000,000 lath, and the Saginaw Lumber & Salt Company about $2,000 worth of lumber. The heaviest losers were the Skillings, Whitneys & Barnes Company.

FIRES

The saw mill situated at Port Arthur, Ont., owned by Seaman & Company, was last week destroyed by fire.

The saw mill of R. M. Sully at Venosta, Ont., was burned a few days ago.

Fire was discovered in the lumber yard of the Sumner Company at Bathurst, N.B., on the 16th inst. The mills were saved, but lumber to the value of nearly $60,000 was destroyed.

Practically all the lumber in the yards of the Ontario Lumber Company at French river, Ont., was destroyed by fire on the 16th inst. The lumber, about 15,000,000 ft., was owned by the Ontario Lumber Co., and represented nearly an entire season's cut. It is understood that the loss is largely covered by insurance. The saw mill and other buildings were saved.

THE LIVERPOOL MARKET.

The following review of the Liverpool market is given by Farnworth & Jardine: The business of the past month has been unsatisfactory. The arrivals have not been unduly large, and the deliveries have been fair, but buyers lack confidence, and a serious decline in some of the leading articles has taken place. Stocks generally for the season of the year are on the heavy side, and shippers should act with caution by consigning moderately.

CANADIAN WOODS.—Waney Pine.—Of Waney there have been no arrivals, the stock is reduced to a moderate compass, and values are firm. For square there has been only a limited demand, and the stock is sufficient. Red Pine.—The demand is slow; stocks are ample. Oak.—There has been no import; the demand is quiet, but the stock of 1st quality wood is fairly moderate. Elm.—The demand has been disappointing, and the stock for the season of the year is too heavy. Ash.—The import chiefly consists of shipments from the United States, which have been on a large scale; there has been a fair demand, but sales are difficult to effect, and stocks are increasing. Pine Deals.—The arrivals have been considerably in excess of the corresponding month last year; the deliveries have been unsatisfactory, but there is little change in value to report; the stock is too large. Red Pine Deals continue in fair demand, but prices are easier.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals during the past month have been large, viz., 4,280 standards, against 1,520 standards during the the corresponding month last year. The deliveries have been fairly satisfactory, but the stock is much too heavy; sales are difficult to effect, and there has been a sharp decline in value; it is very desirable that shippers should act with caution in consigning moderately until our markets are more settled. Pine deals continue in fair demand; prices are steady; stocks are light.

BIRCH.—Of logs, chiefly from Quebec, the arrivals have been small; there has been a fair consumption, but the stock is sufficient; there is little change in value to report. Planks have again come forward too freely, and although the deliveries have been fairly satisfactory, the stock is much too heavy, and recent sales have only been effected at very low prices.

SHIPPING MATTERS

The following charters are reported: Barque Prosperino, St. John, N.B., to Buenos Ayres, lumber, $10.50, if Rosaria $11.50; str. Atbara, Riviere du Loup, Que., to Glasgow, dials, 45s; str., 1845 tons, Riviere du Loup, Que., to the Clyde, deals, 45s; str., St. John, N.B., to w.c. England, deals, 41s 3d; str. Maritime, West Bay, N. S., to Barrow or Manchester, deals, 42s 6d; Bernard, St. John, N.B., to w.c. England, 40s; str. 1,200 stds., Price's Mills, Que., to London, 46s 6d; str. 900 stds., Bathurst, N.B., to Leith, 50s.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

Amaryanthia, for Glasgow, 36 stds., deals, by McLaurin Bros.; 80 stds., by R. Cox & Co.; 70 stds., by Watson & Todd; 84 stds., by J. Burstall & Co.; 25 stds., by Playfair & White. Str. Cervona, for London, 18 stds. deals and ends, by Dobell, Beckett & Co.

A timber deal involving $400,000 was consummated at Alpena, Mich., last week when the Cleveland-Sarnia Saw Mill & Lumber Company purchased from F. W. Gilchrist, H. D. Churchill and others, the Foster timber limit in Ontario, comprising three-quarters of Foster township, on the Spanish river, in the Algoma district. It was formerly owned by A. W. and W. B. Comstock of Alpena, Mich., and one estimate places the quantity of standing timber thereon at 100,000,000 feet.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JUNE 26, 1901 No 22

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

FOR SALE.

About 3½ million feet of White Pine, mill run. ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

FOR SALE — 600,000 FEET GOOD WHITE Pine Mill Culls, Dry. Address "OTTAWA," office CANADA LUMBERMAN.

Situation Wanted.

An experienced lumberman in almost all branches of the business, especially bush work. Can keep books. BOX 66, LUMBERMAN.

FOR SALE.

About 4½ millin ft. lumber to be manufactured this season at Midland. 90% White Pine Logs, 10% Red Pine Logs. For further particulars apply to
MISSISSAGA LUMBER COMPANY, Limited,
82 King William St,
Hamilton, Ont.

FOR SALE.

A stock of White Pine Lumber, consisting of about 4 million feet, to be manufactured this season at Cache Bay.
Logs could be sawn to order of purchaser. Apply,
THE NIPISSING LUMBER CO., LIMITED
Hamilton.

FOR SALE

Timber Lands in the County of Norfolk

To Portable Mill Men.

200 acres of heavily timbered land, being lot 6 in the 8th concession of the township of Cha lotteville. Timber chiefly second growth pine, suitable for sawing, besides a large quantity of white and black oak and maple. The land would make a good farm. Price $25 per acre.

100 acres well timbered land, being the southwest part lot 6 in the 6th concession of the township of Charlotteville. Timb r chiefly maple, ashand elm. Will cut a large amount of lumber, heading bolts and cordwood. The land will make a good farm. Price $20 per acre.

These lands are four miles north of Forestville Station on the Grand Trunk Railway, on a good level road. This is the best lot of timbered lands on the market, and well worth investigating. For further information apply to

ALEX. McCALL,
Simcoe, Ont.

OPENING

An excellent location for manufacturing charcoal and bye products, with the hardwood mills attached; also for a lime burning industry.

Write
COLONIZATION DEPARTMENT,
Canadian Pacific Railway,
Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

While the rush of spring shipments from the pine mills is about over, and orders are placed with less urgency for immediate attention, the market has lost none of the strength which has been characteristic of this season's trade. Dry pine lumber is bringing as much money as two months ago, and the best grades are, if anything, a shade higher. The chief source of strength is, of course, the healthy condition of the United States market, which seems to be absorbing lumber in a remarkable manner. Locally, the demand is about what was expected, although a little disappointing in some respects. Building in Toronto has not kept up to the expectations of the spring. Shingles have shown an improvement within the past fortnight, while laths are not as strong as they were. With the exception of basswood, hard woods are selling rather slowly, but with a firm undertone.

QUEBEC AND NEW BRUNSWICK.

The spruce situation in the eastern provinces is practically unchanged. British deals are in little demand and low in price, while specifications suitable for South America, West Indies and France command a correspondingly higher figure. Another vessel has been chartered to take a cargo of lumber from St. John to Australia. Shipments to the United States show activity, particularly in laths and shingles. Clapboards are scarce and firm. There is still uncertainty as to the outcome of the log drives, a recent dispatch stating that there is no probability of getting the logs down the Aroostook river, in New Brunswick, while on the St. John and other streams some drives have not yet reached safe waters. If the ordinary rains prevail during the next week or two, it is probable that very few logs will be hung up on the St. John and tributaries.

MANITOBA AND BRITISH COLUMBIA.

An encouraging report comes to hand regarding the lumber trade of Manitoba. The crop outlook being of the brightest character, farmers are buying lumber quite freely in order to build barns, and after the grain has been marketed and money becomes easier, other improvements are certain to be carried out. Building operations in Winnipeg continue to expand, and throughout the country considerable railway construction is in progress. The next few months are likely to witness an active demand for lumber. British Columbia trade is said to be rather quiet, the export demand being below the mark. Freight rates are lower, with a greater number of vessels offering than has been the case for some time.

UNITED STATES.

There is a heavy trade doing in white pine lumber, and dry stocks are exceptionally low for this season of the year. Manufacturers in the Lake Superior district are talking of an advance in the price of good lumber and piece stuff, the demand for which is in excess of the supply. The opinion is gaining ground that there will be no break in prices this summer. The only classes of stock which is unsteady are box lumber and No. 4 boards, and if an adjustment of prices should take place in the near future, it is probable that these grades will be marked down slightly, while the general list is likely to be advanced. Good lumber is scarce. The white pine dealers of Buffalo and Tonawanda held a meeting last week, at which the opinion was expressed that prices on all grades that are scarce should be advanced materially, but no rate was decided upon. In Chicago, first and second clear pine, 1 to 2 inches in width, is selling at $61, and third clear at $58. Dimension is based on $14.50 for 12, 15 and 16 feet piece stuff, with $15 for 2x8 and 2x10, and $17 to $18 for 2x12. No. 1 white pine lath is selling at $3.60 wholesale, and No. 2 at $2.75.

An increase in the demand for the lower grades of hardwoods represents the only change in that market. Dealers are not forcing sales, believing that all the hardwood lumber manufactured should find a market at prices equal to and above those now ruling. The agricultural factories are not buying much ash, but are replacing it to some extent by basswood. At Buffalo higher prices are being asked for shingles, red cedars leading. It is worthy of note that the red cedar people not long ago sold their shingles very low, apparently to encourages a market; now they are asking prices higher than those of pine shingles.

GREAT BRITAIN.

The British timber market is in a demoralized condition. The first-open-water shipments have now been landed, and importers refuse to contract for further supplies. The stock of wood goods is exceptionally large, and in the absence of more than a moderate consumption, prices have further declined within the past fortnight. The prices of scantlings and flooring are very irregular, one sale varying from another by as much as £1 5s per standard. At the late auction sales the weakness of the market has been further emphasized. Spruce battens, 2x7 second quality, did not exceed £7 10s, and 2x5 £6. For the regular deal sizes from Quebec the market in both pine and spruce is holding up well, considering the sharp break in the prices of north of Europe timber. The poorer qualities from the provinces are very weak and in little demand. Concerning spruce the Timber News says: "Without any wish to take a pessimistic view, we are of the opinion that when the consignment goods begin to arrive, the prices of second and third quality spruce 3x9, and certainly those for 3x7, will come down somewhat. The prices for sawn plasterer's laths, likewise birch putlogs, are, we think, nearly at their lowest ebb." Whether prices will revive towards the fall is an uncertain question, but if the summer shipments should be light, an improvement in the market seems likely. The Board of Trade returns show that the imports into the United Kingdom up to May 31st of this year were 1,019,285 loads of hewn timber, and 2,142,656 loads of sawn timber, as against 944,590 loads and 1,842,126 loads respectively for the corresponding period last year.

STOCKS AND PRICES.

An advance in the price of red cedar shingles is reported from Tacoma, Wash.

The steamer Ardoni is loading a cargo of deals at Hochelaga, Montreal, for England.

The steamer Heslesside has been chartered to load lumber at Montreal for the United Kingdom.

A quality of logs belonging to the G. & J. Flewelling Company is hung up in the creek near Bloomfield, N.B.

The steamer Verbena is on her way to Montreal to load a cargo of deals for the U.K., consigned by Dobell, Beckett & Co.

The H. M. Loud & Sons Lumber Company, of Buffalo, are supplying hemlock timber for the harbor improvements at Port Colborne, Ont.

Word has been received that the barque Iris, from Chatham, N.B., for Ayr, Scotland, with a cargo of deals, has returned to Pictou, N.S., in a leaky condition.

Prices of hemlock in the Saginaw Valley range from $7 to $11. There is a better inquiry than earlier in the season, and dry stocks have been worked off to a considerable extent.

A quantity of Oregon pine from Chemainus, B. C., was put under the hammer at a sale held by Churchill & Sim, London, Eng., on June 12th. The stock was all 3x11 inch, and from 16 to 42 feet in length. The first parcel sold at £12 5s per standard, but the balance only averaged £9 5s.

Alfred Dickie, of Lower Stewiacke, N.S., expects that his lumber shipments this year will exceed those of any previous season. He will ship 20,000,000 feet from Halifax, 20,000,000 feet from Tusket, 8,000,000 from Ship Harbor, 8,000,000 feet from Musquodoboit Harbor, and 6,000,000 feet from Liscombe, a total of 62,000,000 feet.

A raft containing 600,000 feet of long timber left Black River, Lake Huron, last week for Sarnia, consigned to the Cleveland Saw Mill & Lumber Company. There is one more raft to make up, and that will wind up long timber rafting at Black River, a business that was inaugurated by Alger, Smith & Company in 1882.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to June 25th, as reported by the Supervisor of Cullers :

	Cu. ft. 1899	Cu. ft. 1900	Cu. ft. 1901
Waney white pine	869,767	457,074	278,537
White pine	263,971	165,312	58,153
Red pine	87,429	6,926	261
Oak	288,083	210,181	179,421
Elm	313,925	340,458	321,412
Ash	42,790	55,749	77,923
Basswood			332
Butternut	60	92	462
Tamarac			22
Birch and maple	229,867	284,065	285,322

The remainder of Thornham, Reynoldson & Company's stock of deals, etc., was sold at Hull, Eng., on the 13th inst., Canadian pine bringing the following prices : 2 by 4 unsorted Quebec red pine, £6 2s 6d per standard ; 2 by 6 ditto, £6 7s 6d to £7 2s 6d ; 2 by 8 ditto, £6 17s 6d to £7 5s ; 2 by 10 ditto, £7 5s to £7 10s ; 2 by 12 ditto, £7 10s to £7 15s ; 2 by 13 ditto, £9 15s ; 3 by 11 1st Quebec white pine, £25 5s; 3 by 7 to 10 ditto, £23 ; 3 by 10 2nd ditto, £15 ; 3 by 9 ditto, £14 15s ; 3 by 8 unsorted red Quebec pine, £6 17s 6d to £7 ; 3 by 7 ditto, £7 ; 3 by 12 3rd white pine, £9 ; 3 by 13 ditto, £9 to £9 5s ; 3 by 14 ditto, £9 5s. ; 3 by 15 to 17 ditto, £8 5s ; 3 by 9 to 17 ditto, £8 ; 3 by 6 to 8 ditto, £5 12s 6d ; 3 by 7 to 12 unsorted 2nd ditto, £9 15s.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Three Rivers, Que. : Str. Durham, for the U.K., deals and boards, by Dobell, Beckett & Co.

From Shediac, N.B. : Barque Johanne, for Preston, Eng., lumber, value $3,931, by C. J. Willis & Co.

From Hillsboro, N.B. : Barque Enterprise, for Preston, Eng., spruce deals, scantlings and ends, value $5,000, by John L. Peck.

From Yarmouth, N.S. : Barque Alice Reed, for Montivideo, 682,000 feet of lumber and scantling, value $8,158, by Parker, Eakins & Co.

From Vancouver, B.C. : Tug Bermuda, for Whatcom, U.S., 285,000 cedar logs, value $2,000, by Hamilton Logging Co. Str. City of Tubela, for San Francisco, Ca;. 10,000 cedar floats by H. Doyle & Co.

From Chatham, N.B. : Barque Chas. Bal, for Plymouth, Eng., 607,708 feet lumber, value $6,449, by Fred Dyke. Barque Heffi, for Londonderry, 780,112 feet lumber, value $8,989, by F. E. Neale. Barque Iris, for Ayr, 614,400 feet lumber, value $7,103, by F. E. Neale. Barque Nemento, for Newcastle, 426,820 feet lumber, value $4,368, by F. E. Neale.

From Halifax, N.S. : Barque Bella, for France, 507,413 feet of lumber, value $5,008. Barque Nellie Moodie, for Glasgow, 502,126 feet lumber, value $6,392. Schr. Britannia, for Granada, West Indies, 69,613 feet lumber, value $690. Schr. Checkdale, for France, 2,121,200 feet lumber, value $20,565. Schr. Sierra, for St. Pierre, 131,185 feet lumber, value $1,902.

From Montreal : Str. Megantic, for Liverpool, 31 stds. deals, by McArthur Export Co. : 396 stds., by Watson & Todd; 5 stds. by E. H. Leamy; 26,140 ft. lumber, by C.P.R. ; 48,600 ft. oak, by G.T.R. ; Str. Altherian, for Antwerp, 5 stds. deals, by Watson & Todd; 5 stds. by E. H. Lemay; ett & Co. Str. Durham, for London, 39 stds. spruce deals and ends, 243 stds. pine deals and ends, 109 stds. pine boards, 86 stds. ash boards, 5 stds. birch boards, by Dobell, Beckett & Co. Str. Degama, for Bristol, Eng., 11 stds. lumber, by R. Cox & Co; 25 stds. by McArthur Bros; 4 stds. 25 stds. by McArthur Bros. ; 4 stds. by J. Burstall & Co.; 76 stds. by Dobell, Beckett & Co. Str. Kastalia, for Glasgow, 44 stds. deals, by McLaurin Bros. ; 125 stds. by R. Cox & Co., 151 stds., by J. Burstall & Co.; 19 stds. timber, by Dobell, Beckett & Co. ; 25 stds. by McArthur Export Co. Str. Romsdalen, for Newcastle, Eng., 1,121 stds. deals and boards, by Watson & Todd. Str. Vera, for London, Eng., 996 stds. deals and boards by Watson Todd. Str. Ontarian, for Glasgow, 40 stds. timber, by Dobell, Beckett & Co. ; 2,163 cubic ft., by W. & J. Sharples ; 63 stds. deals and boards, by W. & J. Sharples ; 59 stds. & Todd ; 14 stds., by D. Cream & Co. ; 52 stds., by W. & A. Allen. Str. Glitra, for Newcastle, Eng., 67 stds. deals, by Watson & Todd ; 5 stds., by W. & J. Sharples ; 247 pcs. timber, by Dobell, Beckett & Co.

From St. John, N.B. : Schr. Morancy, for New York, 209,409 ft. deals, by Dunn Bros. Schr. Rivola, for New York, 931,600 ft. laths, by Stetson, Cutler & Co. Schr. Nimrod, for City Island, 346,99 deals, by Dunn Bros. Schr. Glide, for Neponset, 70,165 ft. boards, 50,000 ft. laths, 213,250 cedar shingles, by L. M. Jewett. Schr. Alice Maud, for Boston, 198,509 ft. boards, by Stetson, Cutler & Co. Schr. W. H. Waters, for Fall river, 86,370 ft. plank, 29,750 feet deals, 5,363 feet scantling, by A. Cushing & Co. Schr. Has for sale a quantity of Maple, Beech, Birch, Basswood and Soft Elm in good shipping condition. Cedar Shingles and Bill Stuff a Specialty

—CORRESPONDENCE SOLICITED—

NEW BRUNSWICK CEDAR SHINGLES.

The first of July is a very unusual time for a radical advance in the price of shingles, but the trade conditions are such that an advance, and a good stiff one at that, is confidenty looked for by the well posted people in the trade.

New Brunswick cedar, as a shingle wood, has to-day practically no competitor in New England but red cedar, white pine and Michigan cedar having been forced out of the trade so far as any considerable volume is concerned. Cedar shingles have been steadily stiffening in price under the influence of a large demand, and the supply has been inadequate to keep pace with orders, even in the face of stiff advances. The consumers and retailers there uponturned their attention more to N.B. cedar, with the result of filling up about every mill in this line with a large number of advance orders. Consequently, these mills that are sold ahead for a month are quoting stiff advanced figures, and just as soon as all the manufacturers get awakened to the situation, N.B. cedars ought to work up to the level of red cedar prices, say about $3.15 to $3.20 for extras. The best brands cannot be bought to-day in any quantity at less than following prices, f.o.b. Boston rates: Extras, 3.00; clears, $2.70 2nd clear, $2.25; saps, $2.25, extra No. 1, $1.75. Retail stocks, we understand, are low, the wet weather having created a heavy demand, and dealers are in a position where they must replentish their supplies soon. The outlook is encouraging to the manufacturers..

NEW BRUNSWICK TIMBER LIMIT SALE.

A sale of timber berths took place at the Crown Lands office, Fredericton, N.B., on June 19th. In all ten berths aggregating 75 square miles were disposed of, at prices ranging from $100 to $250 per mile. The berths are located on the Nepisguit and Upsalquich rivers, and are those which were sold at auction a few weeks and bid in by the applicants at the upset price. The sale was cancelled by the Government on the ground that a combine had been entered into by certain lumbermen in order that they might obtain control of the berths at a less figure than they could be bought for under competition. James Robinson M. P., got 45 square miles for $6,760, and Wm. Engel, of Bangor, Me., 30 miles for $6,222. Following is the result in detail :

South East Upsalquitch, near mouth, 7 1/2 miles, to James Robinson, at $100 a mile.

South-east Upsalquitch below Ramsey brook, nine miles, to James Robinson, at $100 a mile.

Ramsey brook, at mouth, six miles, to James Robinson, at $100 a mile.

Between 40 and 44 Mile brooks, Nepisiguit river, 5 1/2 miles, to Wm. Engel, at $201 a mile.

Between 40 and 44 Mile brooks, Nepisguit river, six miles, to James Robinson, at $250 a mile.

44 Mile brook, Nepisiguit river, nine miles, to James Robinson, at $250 a mile.

44 Mile brook, Nepisiguit river, nine miles, to Wm. Engel, at $201 a mile.

40 and 44 Mile brooks, near mouth, 7 1/2 miles, to Wm. Engel, at $201 a mile.

40 Mile brook, nine miles, to Wm. Engel at $200 a mile.

ADJOURNED TIMBER SALE.

The adjourned sale of Quebec timber limits was continued at the Parliament buildings, Quebec, on June 26th, but the attendance was not so large as on the previous occasion. The lots offered were in the St. Maurice, Bonaventure, Rimouski, Grandville, Lake St. John, St. Charles and Saguenay agencies. For the St. Maurice lots no bids could be obtained at the Government's upset price of $60 per mile. The same thing happened in the case of the Bonaventure and Rimouski lots, and it seemed as if there was a combination among the lumbermen to buy nothing at the Government's upset prices. However, when the Grandville agency was reached, 39½ miles in the township of Bungay was sold to Mr. Rewington, of Watertown, N. Y., at $200 per mile, and another limit of 32 miles on the Jacques Cartier River, St. Charles agency, went to Mr. Wm. Power, at $81 per per mile. After going through the list, which was mostly of lots held over from the last sale, or not paid for then, a fifty-mile limit on the River Nouvelle, in the West Bonaventure agency, was sold to W. J. McKeen, at $31 per mile. The sale in all realized about $50,000.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JULY 3, 1901 No. 23

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

FOR SALE.

About 3½ million feet of White Pine, mill run ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

FOR SALE — 600,000 FEET GOOD WHITE Pine Mill Culls, Dry. Address "OTTAWA," office. CANADA LUMBERMAN.

FOR SALE—10,000 EXPORTABLE SAWLOGS, 80% White Pine, balance orway.
Address, Box 165,
Little Current, Ont.

Situation Wanted.

An experienced lumberman in almost all branches of the business, especially bush work. Can keep books. Box 66, LUMBERMAN.

FOR SALE.

About 4½ million ft. lumber to be manufactured this season at Midland. 90% White Pine Logs, 10% Red Pine Logs. For further particulars apply to
MISSISSAGA LUMBER COMPANY, Limited,
82 King William St,
Hamilton, Ont.

WANTED.

MAN 38 YEARS OLD, HAVING TWELVE years' experience in timber and timber lands in Southern States and California, desires position with good concern who contemplate investing in south or west. Has best of recommendations and a good investment now in view. Address
H. E. FULLER, Toronto, Canada.

Telephone Poles For Sale

THE UNDERSIGNED HAVE FOR SALE 5,000 Cedar Telephone Poles, all lengths from 25 to 40 feet. Quotations given by mail or wire on application.
GEORGE & McGREGOR,
Killaloe Station, Ont.

OPENING

An excellent location for manufacturing charcoal and bye products, with the hardwood mills attached; also for a lime burning industry.

Write
COLONIZATION DEPARTMENT,
Canadian Pacific Railway,
Montreal.

SAWYER WANTED

SAWYER FOR CIRCULAR MILL; STEAM feed; apply giving experience, references, wages.
THE KNIGHT BROTHERS CO.,
Burks Falls, Ont.

WANTED.

EXPERIENCED MAN WITH CAPITAL TO take junior partnership and assist in management of large building and retail lumber business, small city Splendid chance for young practical man. Box 99. LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber transactions of the past week have borne evidences of summer quietude. Buying has been done by consumers only where the stock was urgently needed. Yet in the face of unfavorable conditions, the market for pine is keeping up in a remarkable way. While lower prices are talked of by dealers, and might reasonably be expected at this season of the year, manufacturers refuse to yield to any demand in this direction. A few of the small manufacturers are no doubt offering stock at prices under the spring quotations, but this is the exception rather than the rule, and their action is disregarded by the largest manufacturers who make and rule the market. One of the factors of strength is that many American buyers are in Ontario ready to close contracts for large quantities of lumber. The fact is that the prices asked by Canadian pine manufacturers are lower than is quoted at the mills in the Northern States, and consequently buyers have turned their attention to this side. In Toronto trade is rather quiet and prices a little irregular. A dealer who recently gave a quotation of $18 for a quantity of 2x12 was advised by the prospective customer that he was $1.50 higher than some of his competitors. The average price is from $17 to $17.50. The strike of carpenters in Ottawa has caused a temporary falling off in the demand for lumber and in supplies generally.

It is not possible to give a favorable report of the hardwood market. The demand continues dull, with stocks at many of the mills comparatively heavy. Maple 1 to 2 inch in thickness is in fair demand, but heavier stocks, such as 3 and 4 inch, are little enquired for. Basswood and birch are firm and moving moderately, while soft elm is meeting with slow sale. It can hardly be expected that the demand will improve during July and August, but a better demand is expected in the fall. In the meantime there is the danger that manufacturers will be compelled to realize.

Lath prices are quite irregular. While some mills are asking $2.50 for No. 1 white pine lath, purchases have been made as low as $2. The tendency of the market, however, is upwards, in sympathy with the higher prices that are being asked in the United States.

QUEBEC AND NEW BRUNSWICK.

There have been no fluctuations of consequence in the Quebec lumber market, our information being that prices are practically unchanged on square and waney timber, while spruce deals are slightly weaker. Some of the shippers are understood to be sending timber to the British market on consignment. The reports regarding New Brunswick cedar shingles are somewhat contradictory. While $3 is being named by certain manufacturers as the price of extras on Boston rate of freight, other manufacturers are willing to sell at $2.90. The weak holders, however, have no large quantity to offer, and the market may be said to be in good condition. A few of the log drives have been abandoned owing to low water in the streams, and the cut of spruce is likely to be curtailed as a result thereof.

UNITED STATES.

The general lumber market of the United States is strong, with white pine leading. Dry stock is taken as fast as offered, and in some instances the sales of the past week have been made at an advance over the late ruling quotations. White pine dimension is in short supply in the Lake Superior district, and a meeting of the price list committee of the Mississippi and Wisconsin Valley Associations will be held early this month for the purpose of revising the prices of dimension and heavy timber. The manufacturers of the Wisconsin valley are already asking an advance of fifty cents a thousand on dimensions and twenty-five cents on large timber. In the Saginaw valley trade is good and prices firm. In our Bay City and Saginaw list the price of pine common has been marked up $2 per thousand, as the stocks are badly broken and receipts not sufficient to meet the demand. Norway lumber is particularly strong. At Buffalo Norway is scarcer than white pine, and the supply at the mills is understood to be light. It is probable that the season will be an exceptionally good one for Norway pine. The higher grades of pine are scarce in the Buffalo and Tonawanda markets, but the demand from the east has fallen off slightly; in fact, the eastern trade has been spasmodic all season. The spruce market is less active than it has been, but the condition of the supply is not such as is likely to cause any slump. Of the hardwoods basswood and ash are probably in most demand, the latter having come into prominence of late. Elm and thick maple sell fairly well, but there is no snap to the market. An advance in the price of lath is talked of. The price at the mill is from $2.50 to $2.75 for No. 1 white pine, and $1.75 for No. 2. In Chicago No. 1 mixed lath is quoted at $2.75 and No. 2 at $2.25. In Philadelphia lath are particularly scarce, three cargoes of New Brunswick manufacture which arrived there recently being soon disposed of. The supply of white pine shingles is so small that hemlock and other substitutes are being used.

GREAT BRITAIN.

The outlook for the timber trade in Great Britain has not improved during the past fortnight. While the consumption by some branches has increased, there has been no recovery of prices, the recent sales representing new figures for this season. Importers who contracted at the higher prices ruling in the early spring are holding their stock, and as no buying of cargoes to arrive is being done, business is practically at a stand still. The prices of Canadian deals and timber are holding up better than those of the north of Europe production. The price of second quality Quebec spruce landed in the docks at London is £10 per standards, whilst third quality is selling at £9 5s. Cargoes of St. John spruce, with an ordinary specification, say 10 per cent. of 3x11, can be bought at £6 6s c.i.f. Liverpool, while twelve months ago similar cargoes were sold at £7 15s. The market for square and waney timber is stronger than for deals and boards, although by no means buoyant. We believe it will be found in the interest of exporters on this side to curtail shipments as much as possible, and give the market an opportunity to recover.

STOCKS AND PRICES.

Thomas Mackie, of Pembroke, Ont., has recently purchased fine timber limits in the vicinity of Saskatchewan, N.W.T.

Sales of hemlock piece stuff are being made in Chicago around $9.25, although a few transactions are reported at slightly lower figures.

The steamer Lycia, which is loading a general cargo at Montreal for Bristol, Eng., took on 250 standards of deals at Three Rivers, Que.

Moore & MacDonald, of Blind River, Ont., have all their logs boomed. The mill at John's Island will cut 4,000,000 feet, and a like quantity will be cut at Cutler.

A recent despatch from Whitefish River states that of the 240,000 logs cut on berth 82, the greater quantity are through the slides. In all about 35,000,000 feet of pine

logs will come out of the Whitefish River and tributaries this season.

In New York city $58 to $62 is being asked for quartered oak, $36 to $40 for plain oak, and $37 to $41 for ash. There is an improvement in that city in the demand for hemlock, at the base price of $14.50. In Tonawanda the base price is $13.50.

Owing to a flood on the St. Francis river, a large boom of logs belonging to the Royal Paper Mills Company, of East Angus, Que., was carried over the dam. It is estimated that 12,000,000 feet got away, but most of the logs have been secured at Pierreville, where the company have arranged to have them sawn.

The John O'Brien Lumber Company, of Ashland, Wis., last week sold 6,000,000 feet of Noway pine to Cleveland parties for a price in the neighborhood of $72,000, and 1,000,000 feet of white pine to a North Tonawanda concern at $15 a thousand. W. H. Gilbert sold 1,000,000 feet of No. 5 boards to Buffalo parties at $5 a thousand, and 700,000 feet of 4 boards at $10.50.

Concerning the shingle market at Buffalo the American Lumberman says: "Old dealers are often without any stock of account, and are not looking for a supply, for they do not know what to do. They say that the price of red cedars has gone up so that they do not see how consumers will buy them, and still there is not much yet to take their place. This market has of late come to depend on them more, and now, when it appears that something else is needed to substitute for them, nobody knows which way to turn. It is not thought that cypress could be sold cheap enough and nobody wants hemlock. Still if pine shingles do not come in faster something will have to be done."

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to July 2nd, as reported by the Supervisor of Cullers:

	Cu. ft. 1899	Cu. ft. 1900	Cu. ft. 1901
Waney white pine	872,132	506,999	348,640
White pine	263,971	185,173	149,192
Red pine	87,429	7,014	4,356
Oak	334,661	266,268	203,278
Elm	332,680	357,197	416,028
Ash	43,533	60,240	86,610
Basswood	.....	.....	332
Butternut	60	92	462
Tamarac	415	71	22
Birch and maple	229,867	287,119	295,641

CANDIAN LUMBER SHIPMENTS.

The following shipment of lumber, etc., from Canadian ports are reported since last issue:

From Pictou, N.S.: For Glasson Docks, Eng., 15,500 pcs. spruce deals, etc., by W. M. Mackay.

From Parrsboro, N. S.: Str. Maritime, for Manchester, Eng., 2,566,162 ft. spruce deals, ends, etc., value $25,218, by M. L. Tucker.

From Sheet Harbor, N.S.: Barque Hermanoes, for Ayr, Scotland, 420,000 ft. deals, scantlings and ends, value $4,266, by Sheet Harbor Lumber Co.

From Vancouver, B.C.: Barque Palatina, for Taku, China, 882,225 ft. rough fir, value $19,240, by British Columbia Mills, Timber & Trading Co.

From Hillsboro, N.B.: Barque Carry L. Smith, for Birkenhead, Eng., 534,212 ft. spruce deals, 84,722 ft. spruce scantlings, 31,659 ft. spruce ends, 14,572 ft. spruce boards, value $5,592, by J. Nelson Smith.

From Yarmouth, N. S.: Schr. Prohibition, for Norwalk, U. S., lumber, lath, etc., value $1,252, by Dickie & McGrath. Barque Lillian, for Buenos Ayres, lumber, value $5,256, by Dickie & McGrath. Barque Harry, for Barbadoes, lumber, value $818, by H. & N. B. Lewis. Barque Vallord, for Bristol, Eng., deals and palings, value $7,772, by Dickie & McGrath.

From Chatham, N. B.; Barque Ragwa, for Plymouth, Eng., 459,934 ft. lumber, by F. E. Neale. Str. Eberingham, for London, Eng., 3,458, 696 ft. deals, etc., by J. B. Snowball & Co. Barque Gumo, for London, 703,760 ft. lumber, by F. E. Neale. Barque Lennok, for England, 450,385 ft. lumber, by Fred Dyke. Str. Probus, for Rochefort, France, 1,146,000 ft. lumber, by J. B. Snowball & Co. Str. Londonderry, for Glasgow, 2,070,563 ft. lumber, by F. E. Neale.

From Sackville, N.B.: Barque Flora, for Runcorn, Eng., 408,019 ft. deals, ends, etc., value $3,484, by George McKean. Barque Agat, for Runcorn, Eng., 393,113 ft. deals and battens, 143,484 ft. scantling, 24,475 ft. ends, value $4,179, by Geo. McKean. Barque Gamma, for Cardiff, Eng., 414,479 ft. deals, 25,162 ft. battens, 64,638 ft. scantling, 3,520 ft. boards, 18,260 ft. end, value $4,000, by M. Woods & Sons. Str. Dara, for Manchester, Eng., 1,158,202 ft. deals, 240,280 ft. scantling, 48,347 ft. ends, 60,238 ft. boards, value $16,000, by P. G. Mahoney, Barque Inga, for Preston, Eng., 375,298 ft. deals and battens, 39,098 ft. scantling, 9,856 ft. deal ends, value $3,700, by George McKean.

From Montreal, Que.: Str. Lorne, for Cardiff, Wales, 525 stds. deals, 2,970 cub. ft. timber, by Dobell, Beckett & Co. Str. Fremona, for London, Eng., 7 stds. boards, by Gillies Bros; 150 pcs. timber, by Dobell, Beckett & Co. Str. Samatian, for Glasgow, 62 stds. deals, etc., by D. Cream & Co.; 106 pcs. timber, by W. & J. Sharples. Str. Gacoma, for Leith, Eng., 11 stds. boards, by McArthur Export Co.; 39 stds. deals, by W. & J. Sharples; 52 stds., by J. Burstall & Co. Str. Tritonia, for Glasgow, 162 stds. deals, by Watson & Todd; 49 stds. by McLaurin Bros.; 7 stds. boards by Robert Cox & Co.; 6,631 pcs. deals, by Dobell, Beckett & Co.; 11 stds. deals by Playfair & White. Str. Sheppy Allison, for United Kingdom, 1,200 stds. deals and boards by W. & J. Sharples.

From St. John, N. B.: Sch. Myra B., for Bristol, 87,344 ft. plank, 15,980 ft scantling, by Stetson, Cutler & Co. Sch. Valetta, for Boston, 132,117 ft. plank, by Stetson, Cutler & Co. Sch. Eric, for Boston, 194,800 cedar shingles, by Chas. Miller. Sch. Walter Miller, for Boston, 167,502 ft. plank, 6,176 ft. scantling, by Stetson, Cutler & Co. Sch. Tay, for New York, 30,100 ft. plank, 140,338 ft. deals, by A. Cushing & Co. Sch. Lucy Hammond, for City Island, 147,000 ft. boards, by Stetson, Cutler & Co. Sch. Frank S. Stinson, for Limerick, 532,582 ft. deals and battens, 8,529 ft. ends, 41,668 bdls. boxshooks, by J. M. Driscoll. Sch. Alma, for Boston, 427,300 laths, by Stetson, Cutler & Co. Sch. Hattie Muriel, for Boston, 78,392 ft. hemlock boards, 650,000 cedar shingles, by Charles Miller. Sch. Reporter, for Boston, 100,850 ft. plank, 20,867 ft. deals, 16,335 ft. scantling, by A. SHIPPING MATTERS.

Freight rates on lumber by canal and lake are very strong. Some barges are getting $2 from the Georgian Bay to Buffalo, while the regular rate from Green Bay is $1.87½, and from Duluth $2.50. The prevailing rate from North Tonawanda to New York is $1.75, and to Albany $1.35.

Freight rates on lumber from British Columbia points rule as follows: To Sydney, 42s 6d; Melbourne to Adelaide, 50s; Port Pirie, 48s 9d; Fremantle, 65s; Shanghai, 50s; Kiao-Chau, 50s; Taku, 55s; Vladivostock, 50s; w.c. South Africa, 52s 6d to 55s; South Africa, 65s to 67s 6d; U.K. or Continent, 75s.

The Timber Trades Journal reports that very few fixtures have been concluded from Canada except re-arrangements on previous contracts. The following are reported: Cape Hopewell to W. C. B., 1,200 stds, 41s; River du Loup to London, 1,200 stds, 45s, July; St. John to U. K., 1,200 stds, 40s, July-August; "Ashmore," St. Lawrence to U. K., 46s 3d, August; two boats, Quebec or Montreal to London, about 1,200 stds each, 46s 3d, re-lets.

The following charters are reported: Str. Dumarec, Montreal to Sharpness, deals, 55s; str. Raithwaite, St. John, N. B., to w.c. England, deals, 41s 3d, July; str. 2024 tons, St. John, N.B., to w.c. England, deals, 40s; barque 845 tons, St. John, N.B., to Santa Cruise, deals, 53s 9d; schr. 252 tons, St. Thomas, Que., to the U.K., deals, £675; schr. John B. Thomas, St. John, N.B., to Bristol Channel, deals, 45s; barque F. D. Lovitt, St. John, N.B., to Irish port, deals, 46s 3d; barque Loreto, St. John, N.B., to Buenos Ayres, lumber, $9.50; ships, Gregorio Bradie and Orient, St. John, N.B., to Melbourne, Aus., deals, 75s and 77s 6d respectively.

THE BOSTON MARKET.

The spruce lumber position is still very firm, with logs generally scarce. A good many mills are stopped for want of logs, and some must remain so for some time, or till some rise of water brings down the logs. Meantime, the market shows little change, with prices firm. The demand is in the midst of the hot weather quiet: Ten and 12-inch dimensions, $18 to $19.50; 9 in. and under, $17 to $18; 10 and 12 in. random lengths, 10 ft. and up, $17.50 to $18.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 ft. and up, $15 to $16; all other randoms, 9 in. and under, 10 ft. and up, $15.50 to $17; 5 in. and up, merchantable boards, $15 to $17; matched boards, $17 to $18; out spruce boards, $12.50; bundle furring, $14.

Hemlock remains scarce and, firmwith very little change: Eastern boards, $15 to $16; random, $13 to $14.

Western pine shippers still talk of high prices, and say that the position is very strong. Here the market is quiet, with prices firm: Uppers, 1 in., $58 to $62; 1¾ to 2 in., $63 to $64; 3 and 4 in., $68 to $72; selects, 1 to 4 in., $52 to $64; fine common, 1 to 3 in. $45 to $60; sheathings, $38 to $54; barn boards, $25 to 30; coffin boards, $23 to $25.

Hardwoods continue in moderate request. House finishing is not active, and the call for finishing hardwoods is limited. Still prices are well held: Quartered oak, $65 to $75; fancy, $85 to $90; plain oak, $35 to $45; ash, $38 to $45; cherry, $90 to $130; maple, $30 to $40.

Shingles are a little firmer. The sellers of cheap shingles are pretty well sold out, and the trade is in the hands of better holders. Still the demand is rather limited: Extra, $2.85 to $2.90; clear, $2.60 to $2.65; second clear, $2 to $2.25; sap, $2 to $2.25; extra No. 1, $1.60 to $1.75; British Columbia, 16 in., five butts to 2 ins., $3.15 to $3.35.

Clapboards continue firm, because scarce. The demand is small, but buyers have to pay full prices: Extra spruce, $30 to $32; clear, $28 to $30; second clear, $26 to $28; extra No. 1, $18 to $20; pine, extra, $36 to $38; clear, $36 to $37; second clear, $28 to $30.

Laths are in steady moderate demand, with prices unchanged; 1⅝ inch, $2.85 to $2.90; 1½ inch, $2.70 to $2.85.

FIRES.

The lumber yard of William Rutherford & Company at St. Cunegonde, a suburb of Montreal, was partially destroyed by fire on June 30th. Nearly a million feet of lumber was burned.

The planing mill and sash and door factory of McCredie & Hodgins at Shawville, Que., together with a stock of lumber, were destroyed by fire last week. It is understood that there is no insurance.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., JULY 10, 1901 No. 24

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

WANTED AND FOR SALE

FOR SALE.

About 3½ million feet of White Pine, mill run ½ million feet dry; cut last August. Address,
W. G. DOHERTY, Day Mills, Algoma, Ont.
or
W. DOHERTY & CO., Clinton, Ont.

WANTED—MAN TO GRADE AND MEASure Lumber. Apply BOAKE MANUFACTURING COMPANY, Hiland Avenue, Toronto.

FOR SALE — 600,000 FEET GOOD WHITE Pine Mill Culls, Dry. Address "OTTAWA," office. CANADA LUMBERMAN.

WANTED—75,000 FEET B. M. PINE OR Spruce, 2x4 or 2x8 in., 10 or 0 ft. long. Cash price to Box 14, CANADA LUMBERMAN.

FOR SALE—10,000 EXPORTABLE SAWLOGS, 80% White Pine, balance Norway.
Address, Box 165,
Little Current, Ont.

Situation Wanted.

An experienced lumberman in almost all branches of the business, especially bush work. Can keep books. Box 66, LUMBERMAN.

WANTED.

A good second hand ordinary gang for ripping slabbed or stocked logs. Give full particulars, size and lowest price to
LEWIS MILLER,
Millertown, Newfoundland.

WANTED.

Foreman, capable of taking sole management of band and circular saw mill. Must be sober, and competent to handle machinery of all descriptions in connection with same. Address
Box 206,
Waubaushene, Ont.

FOR SALE.

About 100 M Red Oak cut 1, 1½ and 2 inch
100 M Chestnut cut 1, 1½ and 2 inch
30 M Black Ash cut 1 inch
30 M Soft Maple cut 1 and 3 inch

Prices and particulars on application.
THE LEISHMAN, MAUNDRELL CO., Limited,
Box 329, Woodstock, Ont.

OPENING

An excellent location for manufacturing charcoal and bye products, with the hardwood mills attached; also for a lime burning industry.
Write
COLONIZATION DEPARTMENT,
Canadian Pacific Railway,
Montreal.

An Opportunity

For Practical Planing Mill Man

To lease or purchase a well equipped Planing Mill with established business, in a large city. A rare chance for the right man. Address
BOX 36, CANADA LUMBERMAN.

Auction Sale of Timber Berths

PUBLIC NOTICE is hereby given that pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships in the DISTRICT OF ALGOMA, namely:—The Townships of GRAHAM (part), HART, CARTIER, LEVACK, JARVIS, ANDERSON, CHESLEY, GILLMOR, WHITMAN, CURTIS and RUTHERFORD (part), and certain areas between the PIGEON RIVER and the ARROW RIVER waters in the District of THUNDER BAY, will be offered for sale by Public Auction at the Parliament Buildings, in the City of Toronto, on TUESDAY, THE SEVENTEENTH DAY OF SEPTEMBER NEXT, at the hour of one o'clock in the afternoon.

At the same time and place certain forfeited and abandoned Berths in the Townships of DIGBY, SHERBORNE and LUTTERWORTH, in the District of HALIBURTON and County of VICTORIA, will be offered for sale, the purchasers of these latter Berths to have the right to cut all kinds of timber.

Sheets containing terms and conditions of sale and information as to Areas and Lots and Concessions comprised in each Berth will be furnished on application, either personal or by letter, to the Department of Crown Lands, Toronto, or the Crown Timber Agencies at OTTAWA, SAULT STE. MARIE and PORT ARTHUR.

E. J. DAVIS,
Commissioner Crown Lands.

Department of Crown Lands, Toronto, June 1, 1901.

N. B.—No unauthorized publication of this advertisement will be paid for.

CURRENT TRADE CONDITIONS

ONTARIO.

The demand for lumber is keeping up well. One of the largest manufacturers in the Ottawa valley reports that shipments so far this season have been fifty per cent. greater than for the corresponding period of 1900. Local trade has not been altogether satisfactory, owing to the strike of carpenters, but this, it is thought, is now nearing an end, and building is now likely to be quite brisk for the balance of the season. The better grades of white pine have been much inquired for and are firm in price, most of the mills being completely sold out of these grades. The mills in the Georgian Bay district are busy with shipments to Michigan and the eastern states, and are doing a very satisfactory home trade. The new cut that has been placed upon the market has had no material effect as yet upon prices, and it is doubtful whether any recession of consequence will take place this year, as the unsold stock seems to be in strong hands. The large manufacturers seem to be a unit as to the desirability of keeping up prices. In hardwoods the situation is different, and there is not the unanimity which characterizes the pine trade. In the absence of an improvement in the demand, manufacturers have become a little discourged, and some are willing to reduce their asking price in order to effect sales. Basswood leads, with the thinner grades of maple following. There has been an active demand for hemlock and pine and cedar shingles. The supply of pine shingles is light and the quantity manufactured this season is not likely to be as large as usual.

QUEBEC AND NEW BRUNSWICK.

Nothwithstanding the depression in the British lumber market, shipments from the St. Lawrence continue quite heavy, partly on consignment. It is much to be desired that shippers on this side reduce their shipments as much as possible, thus giving the British market an opportunity to recover. Manufacturers of spruce deals in the eastern provinces report very few sales of British specifications, and it is probable that a large proportion of this season's cut will be carried over until next spring. This will have the effect of restricting the operations in the woods during the coming winter, a condition much to be desired. Clapboards and spruce lumber generally s meeting with a moderate demand for shipment to the United States. The white cedar shingle market is easier and irregular. Sales of extras have been made at $2.95 on Boston rate of freight, while some of the smaller manufacturers are making quotations as low as $2.85. It is probable, however, that white cedar shingles will stiffen in price in sympathy with the higher prices ruling for red cedars.

UNITED STATES.

Further features of strength in the lumber market of the United States have developed. The expected action of the Mississippi and Wisconsin Valley Lumber Associations was taken last week, when advances in the price of certain grades were made, to take effect July 5th. Ten and 12 inch No. 1 and 2 boards were advanced 50 cents a thousand, piece stuff and timber 50 cents, and finishing lumber $1. The resolution in favor o these advances was passed unanimously. The statement of shipments of lumber from Minneapolis shows that the first six months of this year there was an increase of ten per cent. over the same period in 1900, and that they are close to the record year of 1899. The market in the Lake Superior district is unusually strong, and seems likely to continue so throughout the season. Building operations in the leading cities are on the increase, and the demand for doors and mill work is almost unprecedented for this season of the year. The lower grades of pine, known as No. 4 and 5 boards, do not exhibit as much strength as the higher grades and piece stuff, which are in short supply generally, and particularly in the eastern states. The Albany price list this week shows an advance of about two dollars per thousand on uppers, selects, and fine common. At Buffalo and Tonawanda prices are reported to be firm, and in a position to be easily advanced as soon as prices are marked up at the western mills. The spruce situation has not changed, excepting that log drives thought to be hung up have come out, and most of the mills are likely to have a full supply for the season. The association price list is being maintained. Holders of hardwood lumber are anxious to dispose of their stocks, and as the demand is quiet, the market exhibits a slight degree of weakness. Quite heavy shipments of basswood and maple have been made from Tonawanda, where there is a feeling that a change for the better has taken place in the hardwood trade. This view, however, is not borne out by reports from other points, and a quiet trade for the next month or six weeks at least is looked for. Shingles of every variety are firm, with light offerings.

GREAT BRITAIN.

The British market as yet shows no sign of improvement; indeed fears are expressed that the decline in prices has not yet reached the lowest limit. A "scare" seems to have taken possession of everybody, and the prevailing uncertainty as to what direction prices may take has naturally induced a feeling of extreme caution on the part of buyers. The stocks on hand are considerable and the demand light. Shipments from this side should therefore be curtailed as far as possible, thus relieving the depression in the British market, by allowing time for stocks now on hand to pass into consumption, and prices to stiffen. A combination of west of England timber firms to restrict competition in buying is being talked of. As yet the decline in values has not affected credits in Great Britain. It is hoped that importers will be able to hold out until the recovery of the market which will probably take place at the latest next spring.

The spruce market is reported to be in a wavering condition, but prices for flooring are well maintained. There is said to be a revival of demand from Germany, which, if sufficiently strong, will attract shipments which would otherwise go to Great Britain and thereby assist in restoring values in the latter market.

STOCKS AND PRICES

No. 1 white pine lath is bringing $3.25 in Chicago, and mixed $2.75.

Receipts of lumber at the Tonawanda for June of this year were 75,086,118 feet, which exceeds the corresponding month of last year by 30,000,000 feet.

In the Saginaw valley 18 inch XXXX pine shingles are held at $3.50 and $3.60; clear butts at $2.50 and $2.60; 16-inch pine, $3 for XXXX, and clear butts at $1.75.

At Buffalo first-class elm staves and 6-foot coiled hoops are selling at $7.50 to $7.75, and basswood heading at 5¾ and 6 cents. A limited quantity is being received from Canada.

At a meeting in Vancouver on June 27th, of the United States and British Columbia firms, comprising the Pacific Coast Lumber Association, an agreement is said to have been reached that there should be a uniform price for lumber and shingles in the eastern states markets.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to July 9th, as reported by the Supervisor of Cullers:

	Cu. ft. 1899	Cu. ft. 1 00	Cu. ft. 1901
Waney white pine	950,798	506,999	537,254
White pine	266,664	185,173	224,918
Red pine	87,429	7,014	24,007
Oak	352,058	266,268	206,323
Elm	396,879	357,197	488,327
Ash	52,740	60,240	91,649
Basswood			332
Butternut	60	92	642
Tamarac		71	22
Birch and maple	231,575	287,119	295,641

FOREIGN MARKETS.

Messrs. S. P. Musson & Co., of Barbadoes, in their trade circular of June 22nd, say regarding lumber: The only arrivals to note in this line are, the "Herbert Rice" from Meteghan, with 148,000 ft. spruce, which was placed at $16.87 shipping, $12.87 2nd quality. Next receipts will, we fear, have to accept lower prices, season being over. In White Pine, the "Harry Troop" has arrived from Jordan River with 218,000 ft. This is one of the cargoes referred to in our last as sold to arrive at $24 and $19 for first and second quality respectively. Pitch Pine—Nothing new to report. Shingles—We can only confirm our last advices, and mention that two or three cargoes are reported on the way. Staves — Nothing to advise. Shooks—The S. S. "Navigator" brought 600 bdls. for importers account. Hoops—Lotting rates unchanged—season over.

The announcement is made that if the Bristol Docks Bill, now before the British Parliament, is approved, a large enterprise looking to the development of trade between Bristol, Canada, Jamaica and the United States will be established.

Messrs. Foy, Morgan & Co. will sell by auction at Hull, Eng., on the 16th inst., a parcel of Canadian doors.

THE BOSTON MARKET.

There is a very good demand for spruce lumber, and the market is fully as firm as previously noted. The only weak spot is on matched spruce boards, which are somewhat weaker owing to an oversupply. Prices are firmly held at: Ten and 12 in. dimensions, $18 to 19.50; 9-in. and under, $17 to 18; 10 and 12 inch random lengths, 10 feet and up, $17.50 to 18.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $15 to 16; all other randoms, 9-in. and under, 10 feet and up, $15.50 to 17; 5-in. and up, merchantable boards, $15 to 17; matched boards, $16 to 17; out spruce boards, $12.50; bundle furring, $14.

Hemlock remains firm and unchanged: Pennsylvania, No. 1, $16 to 17; No. 2, $14 to 15; eastern Pennsylvania boards, $15 to 16; random, $13 to $14.

The situation in western pine is unchanged, shippers being very firm. Here the market is quiet, with prices firm: Uppers, 1 in., $58 to 62; 1¼ to 2 in., $63 to 64; 3 and 4 in., $68 to 72; selects, 1 to 4 in., $52 to 64; fine common, 1 to 3 in., $45 to 60; sheathings, $38 to 54; barn boards, $25 to 30; coffin boards, $23 to 25.

Shingles are easy. The demand is rather limited: Extra, $2.80 to 2.90; clear, $2.60 to 2.65; second clear, $2 to 2.30; sap, $2.10 to 2.25; extra No. 1, $1.65 to $1.75; British Columbia, 16-in., five butts to 2 in., $3.15 to $3.35.

Clapboards continue firm and scarce. Quotations are fully sustained: Extra spruce, $30 to 32; clear, $28 to 30; second clear, $26 to 28; extra No. 1, $18 to 20; pine, extra, $36 to 38; clear, $36 to 37; second clear, $28 to 30.

Laths are in steady demand, with prices lower: 1⅝ inch, $2.80 to $2.85; 1½ inch, $2.60 to $2.70.

SHIPPING MATTERS.

The steamer Ella Sayer is loading deals at St. Thomas, Que., for Glasgow.

The steamer Frederick King has been chartered to load deals at St. John, N.B., for w. c. of England, at 41s 3d.

Bark Carrie L. Smith has been chartered to load lumber in the Bay of Fundy, including Bridgewater, for Buenos Ayres, at $10, if Rosario, $11.

Among recent imports at Bristol was a cargo of spruce from Quebec, the bulk of which was for Fry, the well-known cocoa firm, with a small parcel of ends for Taylor & Low Bros.

Miramichi lumber shipments to June 15th totalled 41,428,156 feet, against 27,610,109 feet to the same date last year. F. E. Neale is the largest shipper, being credited to date with 19,543,900 s. f. He has chartered for about 15,000,000 more.

St. John, N.B., advices report that schooner Mabel Hall is loading laths for Philadelphia at 65 cents; steamer Bernard is on her way to Liverpool with a cargo of deals, and the barque Ashlow is loading for Buenos Ayres; steamer Pawnee has been chartered to load deals for Liverpool, at 40s.

The following charters are reported: Bathurst to Glasgow and Greenock, steamer, 1,000 stds., 46s 3d, July; Campbellton to Bowling, steamer, 750 stds., 47s 6d, July; Miramichi to Garston, Jonatau, sailer, 52s 6d, all boards; Miramichi to Las Palmas, a vessel, 615 reg., $6.75; Riviere du Loup to Sharpness, Ramleh, 43s 9d, end July; Pugwash, Pictou, or Dalhousie to West Britain or East Ireland, ship, 320 stds., 47s 6d; Ship Harbour to Irvine, ship, 220 stds., 56s 3d; St. Lawrence to two ports e. c. U.K., steamer, 1,200 stds., 46s 3d, July; From Bay of Fundy to W.C.B., 40s to 41s 3d is obtainable, and from Miramichi, &c., 42s 6d to 45s. From the full St. Lawrence to London or W.C.B. 45s is offering for handy July, August, or September boats.

The National Lumber Exporter's Association of the United States has brought an action against the Atlantic Transport Steamship Line for having refused to give a clean bill of lading on a shipment of hardwood lumber consigned by Samuel A. Bennett to Messrs. Leary & Co., of London. This action is brought to secure an interpretation by the Courts of the Act of Congress, known as the "Harter Act," which provides as follows:—"Section 4: That it shall be the duty of the owner . . to issue to shippers . . a bill of lading or shipping document stating, among other things, the marks necessary for identification, number of packages or quantity; stating whether it be carrier's or shipper's receipt . . and such document shall be prima facie, evidence of the receipt of the merchandise therein described." "Section 5: That for a violation of any of the provisions of this Act the . . owner who refuses to issue, on demand, the bill of lading herein provided for shall be liable to a fine not exceeding Two Thousand Dollars."

GOVERNMENT TIMBER SALE.

It will be seen by obr advertising columns that the Government of Ontario proposes holding a timber sale by public auction on the 17th September next. Some of the berths are those which were intended to be sold on the 15th March last, but were withdrawn as the prevalence of smallpox prevented prospective buyers from examning and estimating. Several townships in the vicinity of Sault Ste. Marie are also offered. These townships have been surveyed for a great many years, but being inaccessible were not required for settlement. Now owing to the good land in the vicinity of Sault Ste. Marie being all taken up and the construction of the Algoma Central Railway giving miners and settlers easy access to these townships a number are going in and the timber is exposed to danger from fire. It is therefore considered expedient to dispose of the pine timber, so that the townships can be thrown open for sale or settlement and that the province may get the benefit of the value of the timber.

Box 177, South River, Ont.

An Opportunity

For Practical Planing Mill Man

To lease or purchase a well equipped Planing Mill with established business, in a large city. A rare chance for the right man. Address

Box 36, CANADA LUMBERMAN.

Auction Sale of Timber Berths

PUBLIC NOTICE is hereby given that pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships in the DISTRICT OF ALGOMA, namely:—The Townships of GRAHAM (part), HART, CARTIER, LEVACK, JARVIS, ANDERSON, CHESLEY, GILLMOR, WHITMAN, CURTIS and RUTHERFORD (part), and certain areas between the PIGEON RIVER and the ARROW RIVER waters in the District of THUNDER BAY, will be offered for sale by Public Auction at the Parliament Buildings, in the City of Toronto, on TUESDAY, THE SEVENTEENTH DAY OF SEPTEMBER NEXT, at the hour of one o'clock in the afternoon.

At the same time and place certain forfeited and abandoned Berths in the Townships of DIGBY, SHERBORNE and LUTTERWORTH, in the District of HALIBURTON and County of VICTORIA, will be offered for sale, the purchasers of these latter Berths to have the right to cut all kinds of timber.

Sheets containing terms and conditions of sale and information as to Areas and Lots and Concessions comprised in each Berth will be furnished on application, either personal or by letter, to the Department of Crown Lands, Toronto, or the Crown Timber Agencies at OTTAWA, SAULT STE MARIE and PORT ARTHUR.

E. J. DAVIS,
Commissioner Crown Lands.

Department of Crown Lands, Toronto, June 1, 1901.

N. B.—No unauthorized publication of this advertisement will be paid for.

CURRENT TRADE CONDITIONS

ONTARIO.

Toronto retailers are said to be buying only for immediate requirements in anticipation of a decline in prices, especially in lower grades. Stocks on the Georgian Bay are believed to be pretty well cleaned out, but it is thought there is still a considerable amount of lumber in the mill yards in the interior. Mill men have enjoyed a couple of years of unexampled prosperity, and if the demand should slacken they should be in a position to hold their stocks until there comes a revival, rather than by accepting reduced prices, assist to bring about a demoralization of the market. Building operations in Toronto especially are proceeding on an extensive scale — principally house building—which is the class which consumes the most lumber. Notwithstanding Toronto retailers and planing mill owners are said to be complaining that the demand is not equal to last season. Complaints are heard of poor quality of manufacture of hemlock joisting recently shipped to the Toronto market by northern mills. The stock is so very irregular that in some instances heavy discounts have had to be granted by wholesalers to their customers. Instead of being cut 2x4, most of the material measures 2 1-8 x 4 1-4. Not only is it unsuited to builders' requirements, but the wholesaler is charged a heavy item as freight on the extra weight. As regards hard woods, prices for ash, basswood and oak continue firm. Maple flooring has been purchased in Toronto within the past few days at a reduction of one dollar per M, as compared with prices previously paid. Elm and birch are reported to be in slow demand. Red oak is said to be coming into favor in the United States for furniture, and is displacing birch for this purpose.

QUEBEC AND NEW BRUNSWICK.

The prevailing depression in the British market appears to affect but little the volume of shipments from Quebec and New Brunswick, which continue to go forward week by week. The greater part of these shipments no doubt are to fill contracts entered into early in the year. The exceptionally favorable tonnage rates now procurable, offer an incentive to shippers to fill contracts as speedily as possible. The half-yearly report of the tonnage of the Port of Montreal shows that there was an increase of 81,000 tons above the record of last year, although the relative proportions as regards timber products is not given. The revenue of the Crown Lands Department of Quebec for the fiscal year ending June 30th, was $16,465,000, a considerable advance on previous years. This in a measure reflects the activity in timber operations. The season's lumber cut in New Brunswick is estimated at 150,000,000 feet. The greatest quantity of lumber cut on the River St John and its tributaries in one year was 190,000,000 feet. Some of the largest drives from the head waters of the St. John have already reached Fredericton, but probably one-third are hung up. Quebec and New Brunswick shingle manufacturers may be interested to learn from the United States Consul at Cape Town, South Africa, that the De Beers Explosive Co., of Somerset West, Cape Colony, require a considerable quantity of shingles. Messrs. John Fenderson & Co., of Springfield, Mass., who operate shingle mills on the borders of Quebec and New Brunswick, have addressed a circular letter to the shingle manufacturers in these provinces, urging them in view of the activity of demand and shortage of supply of red cedar shingles to advance their prices to $3.00. The situation would seem to justify such an advance. Vast damage is being done by forest fires to the timber along the southern side of the Mirimachi, where an area fifteen miles long and five miles wide is on fire.

UNITED STATES.

A Government crop report just issued shows an adverse condition with regard to the corn crop in the South-West. The average is 400,000 or .05 per cent. less than last year, and the average condition of the growing crop 81.3, which is the lowest for many years. This with the depletion in bank reserves, and the great strikes of workingmen, naturally tends to unsettle somewhat the exceptionally favorable conditions which have lately prevailed. On the other side, however, is the fact that the harvest of wheat and other agricultural products promises to be more than ordinarily abundant. Already a shortage of cars is being felt, and there is in consequence an active demand for car material, prices of which are firm. The report comes from Minneapolis that the recent advance in prices of white pine by the price list committee has resulted in unusual activity in that market, due to broken assortments and contract demand. Another meeting of the Committee is to be held in a few days, when a further advance may be considered advisable. There is a shortage on Nos. 1 and 2 doors due to the difficulty experienced by manufaceurers of securing the proper

quality of raw material. The supply of hardwood is still rather in excess of the demand, notwithstanding that the consumption is large, and prices are therefore unsatisfactory, and the only hope of improvement so far lies in the possibility of stocks giving out. A brisk demand for hemlock is reported from Buffalo and New York, with prices firm at $13 for base. Buffalo reports state that hemlock bark has advanced to $7.75 on cars at shipping station. Shingles of all kinds are in exceedingly good demand, and a further advance in prices may be looked for.

GREAT BRITAIN.

There is nothing cheering in the latest reports from Great Britain. Stocks are unusually heavy and demand unusually light. Consequently prices are difficult to maintain, and should shipments from abroad not be restricted, a collapse in prices, followed by heavy losses to all concerned would seem to be unavoidable. Canadian shippers are therefore strongly advised to curtail shipments to as great an extent as possible, at least for a time. The condition of things existing in London will be understood when it is stated that stocks of Baltic and spruce deals, battens, ends and prepared boards exceed by 8,517,851 pieces those of the same date last year. Buyers at London and Glasgow express dissatisfaction with the culling under the new Ottawa Association rules. The statement is made that the higher grade stuff is scarcely up to what the market has been accustomed to receive. In Glasgow importers are said to be holding back from purchasing in the hope that these rules will be amended.

A considerable quantity of timber in London warehouses was destroyed by a fire which took place at the West India dock on the 12th inst.

Lord Strathcona has forwarded to the Department of Trade and Commerce at Ottawa a copy of correspondence with the War Office on the matter of utilization of Canadian timber in the construction of the new barracks on Salisbury Plain, showing that maple has been specified for the floors of two of the eight barracks. With reference to the timber to be used in the other barracks, Mr. Brodrick regrets that, as the bills of qualities are already in the hands of contractors, he does not see his way to now make any alteration in the specification, but in the preparation of specifications for future war departmental buildings at Salisbury and elsewhere the claims of Canadian timber will not be lost sight of.

STOCKS AND PRICES

The Conger Lumber Co's new mill at Parry Sound is expected to go into operation on the 10th of August.

The Parry Sound Lumber Company is engaged in cutting timber under contract for the Saginaw Salt & Lumber Company.

A report received by the Ontario Crown Lands Department places the season's output of timber from the Whitefish River district at 35,000,000 feet.

A well-known Puget Sound log driver prophesies that within five years cedar stumpage will be worth $4 per thousand feet. The prediction is based upon the enormous consumption of timber in the shingle industry..

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to July 9th, as reported by the Supervisor of Cullers:

	Cu. ft. 1899	Cu ft. 1900	Cu. ft. 1901
Waney white pine	951,674	627,842	655,214
White pine	267,004	190,794	241,580
Red pine	87,429	7,23[illegible]	39,419
Oak	377,582	311,425	227,734
Elm	396,879	438,916	540,205
Ash	52,740	69,435	91,649
Basswood	....	....	332
Butternut	60	92	642
Tamarac		71	22
Birch and Maple	231,575	292,551	295,641

FOREIGN MARKETS.

Messrs. Clairmonte, Man & Co., in their Barbadoès market report of date June 22nd, say with reference to timber products: There is still a fair enquiry for white pine lumber, but the demand for spruce has fallen off. There has been one arrival each of white pine and spruce during the fortnight. Latest sales for local use are—White pine, to arrive, $24 for merchantable and $19 for second quality, and another cargo has been sold to arrive, at same rates—the previous spot sale was made at $25.77 for merchantable; spruce, last sale $16.87 for merchantable, and $12.87 for second quality. Pitch pine, no recent arrival, a well assorted cargo would now find ready sale. Gaspe cedar shingles are in supply; we note the sale of about 150 M ex store, at $2.90 per M. Cedar laying, last sale $2.10, since then 1500 M have been offered to arrive, but we have not heard of any sale; spruce laying, last sale $1.74. June 13th: Schr. "Herbert Rice," from Meteghan, N.S., with 148 M spruce, sold at $16.87 for merchantable, and $12.87 for second quality. Planters are now putting a very large proportion of their sugar into bags, thus lessening the demand for staves and shooks.

Messrs. Calder, Henderson & Co., of Glasgow, in their Quarterly Report, dated July 1st, say regarding the prevailing hand-to-mouth rule of buying: Several factors have been at work to account for this, chief among them being the drop in price of pitch pine and spruce, and the new standard of culling of Ottawa pine deals. The new standard of culling of Ottawa pine deals has occasioned much discussion, and meantime buyers are standing still, with the result that the bulk of this season's import has had to be stored. Until all are convinced that nothing better is to be had, and a mutual basis of values arrived at, little business will be done. With the exception of sawn pitch pine stocks are in a healthy condition. General trade is good and important contracts have been fixed by our shipbuilders, so that, barring an excessive import, the outlook may be considered satisfactory.

Regarding Canadian woods, Messrs. Dobell, Beckett & Co.'s trade circular, dated Liverpool, July 1st, says: The arrivals during the past month have been too heavy for the demand, and prices of most articles have weakened. Waney board pine.—There is a fair demand for first-class mood, and prices of such continue firm. The bulk of the import of square pine has gone direct into consumption at steady prices. The demand for oak, first-class wood, is good, but the inferior grades continue neglected. Elm, if of good sizes, is in fair request, but small wood is over-stocked. For birch logs there has been fair inquiry at steady prices. Planks have arrived much too freely, the stock has increased and values rule low. Of pine deals and boards there has been a moderate import, but the demand is slow and prices are barely steady. The stock of New Brunswick and Nova Scotia spruce deals is too heavy and sales are difficult.

BUSINESS NOTES.

The death is announced of S. Willard, saw mill owner, Dudswell Centre, Quebec.

The Nova Scotia Lumber Company, of Sherbrooke, N.S., has recently been sold to New York parties.

Messrs. Smith & Lariviere, lumber manufacturers, St. Anne du Sau t, Que., are reported to have assigned.

The assets of V. E. Traversey & Co., lumber merchants, of Montreal, are announced to be sold on the 22nd inst.

Smith & Lariviere, lumbermen, Riviere Sawage, Que., lately reported in trouble, show liabilities of $18,000 with apparent assets of $8,000.

Joseph Morneau, saw mill owner, Notre Dame du Lac, Que., is reported to be offering to compromise with his creditors at 40 cents on the dollar.

The Cassiar Power & Industrial Company, Limited, of Cassiar, B.C., has been incorporated with a capital of $25,000 to manufacture pulp and paper.

The British Columbia Timber & Trading Company are closing out their retail business in Winnipeg and will hereafter devote themselves exclusively to the wholesale trade.

To lease or purchase a well equipped Planing Mill with established business, in a large city. A rare chance for the right man. Address

Box 36, CANADA LUMBERMAN.

Auction Sale of Timber Berths

PUBLIC NOTICE is hereby given that pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships in the DISTRICT OF ALGOMA, namely:—The Townships of GRAHAM (part), HART, CARTIER, LEVACK, JARVIS, ANDERSON, CHESLEY, GILLMOR, WHITMAN, CURTIS and RUTHERFORD (part), and certain areas between the PIGEON RIVER and the ARROW RIVER waters in the District of THUNDER BAY, will be offered for sale by Public Auction at the Parliament Buildings, in the City of Toronto, on TUESDAY, THE SEVENTEENTH DAY OF SEPTEMBER NEXT, at the hour of one o'clock in the afternoon.

At the same time and place certain forfeited and abandoned Berths in the Townships of DIGBY, SHERBORNE and LUTTERWORTH, in the District of HALIBURTON and County of VICTORIA, will be offered for sale, the purchasers of these latter Berths to have the right to cut all kinds of timber.

Sheets containing terms and conditions of sale and information as to Areas and Lots and Concessions comprised in each Berth will be furnished on application, either personal or by letter, to the Department of Crown Lands, Toronto, or the Crown Timber Agencies at OTTAWA, SAULT STE. MARIE and PORT ARTHUR.

E. J. DAVIS,
Commissioner Crown Lands.

Department of Crown Lands, Toronto, June 1, 1901.

N. B.—No unauthorized publication of this advertisement will be paid for.

CURRENT TRADE CONDITIONS

ONTARIO.

The unanimity of manufacturers is doing much to keep the white pine lumber market firm. Here and there weak spots are to be found, but the action of the large manufacturers in refusing to yield to any demand for lower prices has made it almost impossible for the market generally to weaken. Purchases of lumber have been made in exceptional cases at reduced prices, the reason for which has been the necessity of the holder to realize rather than a fear that a higher price could not be obtained if he were to hold on until later in the season. By comparison, it seems that prices of white pine lumber are higher in Ontario than in the producing districts of the United States. For instance, 2x12 in 16-foot lengths is selling at Duluth for $14, whereas some manufacturers on the Georgian Bay are asking $15 for this class of stock. Inch mill culls range from $11 to $12 at the mills, according to the standard of grading adopted by the manufacturer. Good lumber and mill culls are more enquired for than the common grades. A Georgian Bay manufacturer reports that sales this year have been 35 per cent. more than for the same period of last year, and that better prices have been obtained. The mills in that district are finding a market for their stock in the United States. Hemlock lumber is in exceptionally good demand, and is stronger than it has been for years, bringing from $12 to $14 per thousand. Reports regarding the hardwood demand are rather contradictory, but the opinion seems to be that the demand is expanding. Basswood is much sought after, and orders for maple are being placed more freely. We would not be surprised if the fall months should witness a brisk demand for hardwood lumber, as the stocks of consumers will by that time have been greatly reduced. Further, the hardwood manufacturers are likely to take out a still smaller quantity of logs during the coming winter than was taken out last season.

QUEBEC AND NEW BRUNSWICK.

Several manufacturers in the eastern provinces report an active demand for pine boards and spruce and pine box shooks, but European specifications are dull and prices comparatively weak. White pine and spruce suitable for the West Indies, South American and other tropical countries, are being purchased quite freely, and the bulk of the stock to be cut for these markets this season has already been contracted for, while buyers are still in the market. A steady trade is doing for local account and for shipment to the Eastern States, where boards and frames are scarce. Cedar shingles are firmer and are referred to at greater length in another column. The latest news from the Upper St. John river is more satisfactory with respect to the lumber drives. Most of the logs that were hung up have reached corporation limits, but the driving this year has been expensive and will compel manufacturers to get pretty high prices for their lumber in order to avoid a loss.

UNITED STATES.

The white pine market in the Lake Superior district seems to be getting stronger each day. A statement has been compiled by the Mississippi Valley Lumbermen's Association showing that the shipments by seventy-four of the leading white pine concerns of Wisconsin and Minnesota for the first six months of this year were 1,104,205,911 feet, an increase of 200,000,000 feet over the corresponding period last year. This large trade has naturally been conducive of higher prices, and at the present there is every indication of a strong market throughout the season. At Lake Superior buyers are now offering $14 for 2x12, in lengths from 12 to 16 feet. The only weakness pertains to No. 4 and No. 5 boards, the stock of which is heavier than of the other grades. At eastern distributing centres the volume of business has been restricted by hot weather, but inquiry continues as brisk as at any time within the past two months. Prices are firm all along the line. In the Saginaw valley log run is held at $18 to $22, box lumber at $15 to $16, and mill culls at $12. Very little Norway is offering, quotations being $13 and upwards. The hardwood market shows little improvement. Some lumber is being purchased, but there is no activity. The lower grades of white oak are weaker, as is also thick maple. A scarcity of shingles and lath is reported from Buffalo.

GREAT BRITAIN.

The year 1901, up to the present, has been one of dullness in the timber trade of Great Britain, and the situation now is somewhat perplexing;

yet we find that the imports of both timber and sawn lumber exceed in quantity those for the corresponding period of 1900. The quantity of sawn lumber imported has been 1,951,522 loads, as compared with 1,565,898 loads for the similar period of last year. The result is that an unusually heavy stock is on the market at the leading importing centres. In London the stock of Baltic and White Sea deals and battens on hand is more than three times as great as it was at this period last year, the increase being 4,841,340 pieces. It may clearly be seen why prices have been depressed and the difficulty of closing contracts at a price which would show a reasonable margin of profit to the shipper on this side. The consumption has been about up to the average, but the import has largely exceeded the demand. The better grades have sold fairly well, but the common grades have been very heavy and may sink to even a lower level. Considering the decline in the price of Baltic lumber, Canadian pine has remained firm. The stocks of regular sizes in London are moderate, and providing that imports are not too heavy, a better tone may be expected later in the season. The tendency of spruce prices has been towards further weakness, and doubt is expressed whether the bottom has yet been reached. Square and waney timber are slow of sale, but there is a good demand for special stock for tool handles, chairs, and wood-working purposes. In the Wanted and For Sale Department of this issue there appears an announcement of a timber merchant who desires to import chair bottoms of birch or other suitable wood.

STOCKS AND PRICES

The Str. Sahara left Quebec last week for Greenock, with 2,600 loads of hardwood timber.

The Harris Tie & Timber Co., of Sault Ste. Marie, Ont., have a three years' contract with the C.P.R. for the supply of ties.

Lumber property at Sheet Harbor, N.S., belonging to the Estate of Hon. Thalassa took from the Hastings mill, Montreal recently for $54,200.

The str. Guernsey, from Portland, is loading a cargo of 2,000,000 feet of bridge timber at the Hastings mill, Vancouver, to be transported to Vladiostock, to be used in building bridges on the trans-Siberian railway.

Maitland, Rixon & Company recently received a raft of timber from the north shore containing 25,000 pieces, entirely cedar and pine. They are cutting large quantities of cedar timber and have contracts with the Grand Trunk Railway and for harbor improvements.

What is believed to be the last shipment of native-grown walnut was made from Dutton, Ont., a few days ago, when a car of walnut was shipped to England. The timber is said to have been almost equal in size and quality to that grown in the locality many years ago.

At a recent sale held by Churchill & Sim, London, Eng., a small quantity of fourth-quality pine deals from Montreal sold at £9 10 to £10 per standard, and first-quality pine deals, from Quebec, at a range between £11 10s and £15 10s. Spruce deals from St. John, N.B., ranged from £6 10s to £7 5s for mixed specifications. Birch planks brought from 10d to 1s 3d per cubic foot, the latter price for 3" x 12 to 15 ft.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to July 23rd, as reported by the Supervisor of Cullers:

	Cu ft. 1899	Cu ft. 1900	Cu. ft. 1901
W'n'y white pine	1,168,534	747,764	850,753
White pine	276,935	317,073	337,500
Red pine	88,351	20,937	45,961
Oak	429,559	317,217	247,737
Elm	405,824	439,017	656,342
Ash	54,146	70,741	98,621
Basswood	....	241	332
Butternut	60	92	740
Tamarac	415	71	22
Birch and Maple	231,575	333,231	296,412

Messrs. Clairmonte, Man & Company, in their Barbadoes market report of July 6th, say: There is still a fair inquiry for white pine lumber, but the demand for spruce has fallen off. There have been three arrivals of white pine during the fortnight, the "Anora" from Annapolis, N.S.; the "Boston Marine," from St. John, N.B.; and the "William S. Green," from Calais. The latest sales for local use have been at the following prices: White pine, merchantable, $24; second quality, $19; and a spot sale of a small lot at $24.05 for boards and $23.30 for plank. Spruce has sold at $16.87 for merchantable, $12.87 for second quality, and $13 for scantling. Gaspe cedar shingles are in supply and sell at $3.75 per M, and cedar laying at $2.27, although the sale is reported of 1,500,000 from Calais at $1.80.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Hillsboro, N.B.: Barque Alert, for Whitehaven, Eng., spruce deals, scantling, etc., value $5,700, by J. Nelson Smith.

From Sackville, N.B.: Barque Falkong, for Conway, 572,465 ft. deals, scantling, etc., value $5,249, by M. Wood & Sons. Barque Marland, for Runcorn, Eng., 545,145 ft. deals, etc., value $4,620, by George McKean.

From Buctouche, N.B.: Schr. Alice, Edward Grover, Ethel Aggie, Henry G. Ives, A. H. Horday, and Larn, with cargoes of lumber, for Prince Edward Island, shipped by J. D. Irv- produced by the Vancouver mills, hart.

From Vancouver, B. C.: Tug St. Clair, for United States, 235,000 ft. logs, value $1,787, by Malvy & Larkin. Barque Khorasan, for London, Eng., 774,637 ft. rough fir, value $10,845, by B. C. Mills Timber & Trading Co.

From Shediac, N.B.: Barque Anitra, for River Mersey, cargo lumber, value $4,560, by J. L. Black & Sons. Barque Bernica, for Bristol, Eng., lumber, etc., value $4,096, by J. L. Black & Sons. Barque Victor, for Sharpness, Eng., lumber, value $4,830, by J. L. Black & Sons.

From Halifax, N.S.: Barque Veza, for Wales, 556,525 ft. lumber, value $5,513. Schr. Francis Roberts, for St. Pierre, 78,872 ft. lumber, value $779. Schr. Briardene, for Bordeaux, France, 1,915,000 ft. deals, etc., value $21,000. Barque Gler, for Great Britain, 604,569 ft. deals, etc., value $6,449.

From Pictou, N.S.: Barque Ilmater, for Garston, Eng., spruce deals, by Primrose Bros. Barque Waimea, for Preston Docks, Eng., 385 stds. spruce deals, by Rood & McGregor.

From Yarmouth, N.S.: Schr. Nellie Major Pickands, for Buenos Ayres, 972,000 ft. lumber, value $11,500, by Blackadars & Co. Barque, for Rosaria, 538,000 ft. lumber, value $6,362, by Dickie & McGrath.

From St. John, N.B.: Schr. Winnie Lawry, for New London, 1,188,000 laths, by Stetson, Cutler & Co. Schr. Sea Bird, for Rockport, 15,000 ft. deals, 5,000 ft. scantling, 15,000 ft. plank, 10,000 laths, 50,000 cedar shingles, 5,000 ft. boards. Schr. Mabel Hall, for Philadelphia, 802, 000 laths, by J. R. Warner & Co. Str. Evangeline, for London, 8,570 ft. deals, 2,036 ft. ends, by W. Malcolm Mackay; quantity deals, scantling and boards, by George McKean; 2,000 bales dry pulp, by St. John Sulphite Fibre Company. Ship Trojan, for Cork, 1,494,465 ft. deals and battens, 51,066 ft. ends, by Alex. Watson. Schr. E. H. Foster, for Vineyard Haven, 134,843 ft. plank, by Stetson, Cutler & Co. Barque Alliance, for Cardiff, 327,210 ft. deals and battens, 33,359 ends, by W. M. Mackay.

FIRES.

A quantity of lumber in the yard of Messrs. Wm. Rutherford & Sons, Limited, St. Cunegonde, was recently burned. Insured.

The saw mill of Neilson Bros., of Proton Station, Ont., together with a quantity of lumber, ties and shingles, was burned last week. The loss is about $4,000.

The office of the G. H. Perley Lumber Company, at Calumet, Que., was burned on the 3th inst. The company's books were saved; loss covered by insurance.

A fire which is supposed to have started in the engine room destroyed Dyer & Howard's planing mill at Exeter, Ont., on the 3rd inst.; loss $6,000, no insurance.

For the fourth time in ten years fire has completely destroyed Alfred Dickie's mill at Stewiacke, N.S. The last fire occurred on the afternoon of the 4th inst.

NEW BRUNSWICK CEDAR SHINGLES.

Cedar shingles are higher, there can be no doubt about that. It is no longer possible to buy from the smaller mills at less than $2.85 for extras, on basis of Boston freight, and $2.85 shingles, we believe, are in short supply at that; in other words, the market is now stiff, with $2.85 as bottom, when three weeks ago it was weak at $2.75. It is known that there are but very few shingles at points of manufacture, and that all mills have orders booked for as many or more shingles than they have on hand. All reports from consuming centres indicate light stocks in retail hands, with an extremely good demand for midsummer. Retailers have been waiting for August weather, thinking that prices would then sag off and that they could replenish their broken stocks at their own figures. They are now obliged to admit that shingles are higher instead of lower, and that they may be compelled to pay the manufacturers' price instead of adjusting it to their own ideas. They will be obliged to buy largely inside of six weeks, and if prices continue to stiffen as indications warrant, so that no extras are offered at less than $3.00, practically the entire retail trade of New England would hasten to place their orders at once for fear of being obliged to pay $3.25 in the fall. There is nothing that will induce buyers to place large orders like a radical advance in the market. Prices have stiffened enough already to induce a feeling that shingles at present prices may be a good purchase. Another 10 cent advance would insure to a certainty the fact that shingles should be bought now, as present prices are believed to be lower than later quotations will be.

Those manufacturers who are refusing to accept any orders at less than $3.00 basis, would seem to be showing good sense. It is also believed that if Washington red cedars continue to be as scarce and as high as at present, and there seems no reason for anything else, by October 15th New Brunswick extras will command $3.15. The attention of manufacturers is called to the fact that three weeks ago we predicted higher prices than were then ruling, and this in the face of the fact that shingles usually weaken in midsummer. We are just as certain now that prices will shortly rule still higher than at present. The present market may be quoted as stiff at following prices, f.o.b. Boston rate of freight: Extras, $2.85 to $3.00; clears, $2.60 to $2.70; 2nd clears, $2.20 to $2.30; saps, $2.00 to $2.25; extra No. 1, $1.70 to $1.80.

FOREIGN MARKETS.

Messrs. Edmiston & Mitchell, of Glasgow, in their monthly report dated June 29th, state:—One of the noticeable features is the shrinkage in stock of waney pine, which is only 2,500 loads, or a half of what it was at 31st March, and considerably less than a third of the stock as at 31st December last. Square pine is also very much reduced, and red pine logs are a third less than at 31st March. Oak logs are less than a half of the stock at that date, while elm is about 450 loads less. The only item in which there has been a very noticeable increase is pitch pine, the stock having doubled itself during the past three months, and now amounts to over two million cubic feet, which is sufficient to supply all probable requirements of the market for a considerable period. In pine deals, 1st, 2nd, and 3rd quality are all somewhat heavier than at this time last year, while 4ths are 75 per cent. less. Spruce and red pine deals are much about the same as last year, and the only noticeable exception is pine sidings, which are double what they were a year ago. Business during the last month or two has been on rather a restricted scale, while the tendency of prices has been on the whole a downward one. There has been a considerable import of deals, etc., into Glasgow from Montreal, etc., and the bulk of these shipments has found its way into store. Ruling prices for various kinds of woods imported from Canada are given as follows: Oak (logs)—Really prime large logs are wanted, and for such a good price would be obtainable; for usual class of logs current prices are about 2s. to 2s. 1d. per cubic foot. Planks—Consigned parcels; current prices have been about 1s. 9d. to 1s. 10d. per foot. Quartered oak boards—The current value of 6 inches and up by inch is about 3s. to 3s. 3d., and for 10 inches and up 4s. per foot. In half-inch boards there have been a few sales at from 2d. to 2 1-4 d., and in 5-8 inch from 2 1-2 d. to 3d. per superficial foot. Above quotations are based upon 1's and 2's white oak, there being very little enquiry for red oak.

C. F. McKendrick, lumberman, of Fredericton, N.B., is reported to have assigned.

Joseph Morneau, saw miller, Notre Dame du Lac, Que., has arranged with his creditors to pay 40 cents on the dollar.

The assignment is reported of Charles LeBreton, of Tracadie, N.B., who has conducted a general store and lumber business.

Auction Sale of Timber Berths

PUBLIC NOTICE is hereby given that pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships in the DISTRICT OF ALGOMA, namely:—The Townships of GRAHAM (part), HART, CARTIER, LEVACK, JARVIS, ANDERSON, CHESLEY, GILLMOR, WHITMAN, CURTIS and RUTHERFORD (part), and certain areas between the PIGEON RIVER and the ARROW RIVER waters in the District of THUNDER BAY, will be offered for sale by Public Auction at the Parliament Buildings, in the City of Toronto, on TUESDAY, THE SEVENTEENTH DAY OF SEPTEMBER NEXT, at the hour of one o'clock in the afternoon.

At the same time and place certain forfeited and abandoned Berths in the Townships of DIGBY, SHERBORNE and LUTTERWORTH, in the District of HALIBURTON and County of VICTORIA, will be offered for sale, the purchasers of these latter Berths to have the right to cut all kinds of timber.

Sheets containing terms and conditions of sale and information as to Areas and Lots and Concessions comprised in each Berth will be furnished on application, either personal or by letter, to the Department of Crown Lands, Toronto, or the Crown Timber Agencies at OTTAWA, SAULT STE. MARIE and PORT ARTHUR.

E. J. DAVIS,
Commissioner Crown Lands.

Department of Crown Lands, Toronto, June 1, 1901.

N. B.—No unauthorized publication of this advertisement will be paid for.

FIRES

The stave mill at Castleford, Ont., owned by the Sutherland-Innes Company, of Chatham, Ont., was burned a few days ago.

A portable saw mill and about 500,000 feet of lumber belonging to J. L. Black & Sons, of Sackville, N.B., were burned at Aboushagan recently. The loss is about $5,000.

CURRENT TRADE CONDITIONS

ONTARIO.

Reports from the Ottawa valley and Georgian Bay districts state that there has not been the usual mid-summer falling off in the demand for white pine, but that orders have continued to be placed in goodly volume. The activity in building in Ottawa and vicinity is chiefly accountable for the increased demand in that section, while the Georgian Bay mills are shipping largely to Michigan. There has been some scurrying around for dry cutting-up grades, which are in short supply. Sales of this stock are being made at Georgian Bay points at $25, and stock boards at $14 to $16. Hemlock is very strong and brings from $12 to $14 at the mill, while there is good buying of all kinds of shingles. No. 1 cedars are held by manufacturers at $2.50, and No. 1 cedar lath at $2.00. No. 1 pine lath ranges from $2.25 to $2.50 at the mill. Hardwoods are held firmly, but have not materially improved in demand. Basswood is the exception and finds a buyer very readily. One manufacturer reports the sale of 50,000 feet, log run, at $15.50. In Toronto trade is quiet. Some dealers state that prices are weaker and that purchases of lumber can be made at a reduction from the spring quotations. British Columbia red cedar shingles were recently advanced in price in Toronto, which advance has been sustained.

QUEBEC AND NEW BRUNSWICK.

The volume of building in Montreal this year has been small, and the retail demand for lumber necessarily limited. Export trade is also dull compared with this time last year, especially in spruce, and the opinion is expressed that the price of this lumber is likely to decline somewhat. Hardwood prices in Montreal are holding their own, but the demand is limited. Manufacturers of spruce in New Brunswick hope that the worst has now been passed, and that the market will improve in the fall. They recognize the necessity, however, of limiting their operations in the woods next winter. New Brunswick cedar shingles are very steady at $2.90 for extras, on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Dealers announce an encouraging improvement in the demand for lumber. Trade in Winnipeg has been brisk all season as a result of large building operations. Permits have been issued this year for buildings aggregating in value nearly $1,200,000. The immense grain crop is also a strong factor in the situation, and a very heavy demand for lumber is looked for in the fall. In British Columbia trade is fair and will be assisted by the improvement in Manitoba and the Territories.

The dealers in Winnipeg last week advanced the price of shingles 15 cents per thousand, and there is a prospect of another advance of 10 cents. They are scarce and in good demand.

UNITED STATES

There have been no signs during the past week that the white pine market of the United States was weakening The demand from retailers throughout the corn belt where the drouth has damaged the crops has fallen off, but this has been offset by an increased trade in the Eastern States. In the Lake Superior district the conditions are very favorable. There is activity in the demand for No. 4 boards, which have been sluggish for some time. Norway pine is likewise strong, with some grades bringing higher prices. Heavy shipments are being made to the east. Of twenty-three steamers which left Duluth last week loaded with lumber, sixteen were destined for Buffalo and Tonawanda. In the Saginaw valley white pine continues remarkably strong for this time of year, while hemlock is moving better than could be expected. From Cleveland comes the report that little Norway lumber has been received in the past two weeks, and there is a noticeable shortage of this in many sizes and lengths. There is still a shortage in the supply of good lumber held at Buffalo and Tonawanda, where prices have advanced slightly in sympathy with the strong position at the head of the lakes. Our Bay City and Saginaw price list this week shows a slight advance in the price of the thinner sizes of uppers, common, and shaky clear. The price of ash and birch at Buffalo has also been advanced about one dollar per thousand. Hardwoods generally are quiet, but steady. It is reported that elm is a trifle weaker. Eastern spruce is firm owing to the exceedingly limited supply rather than any buoyancy in demand. Clapboards are selling in Boston at $30 to $32 for extra spruce and $28 to $30 for clear. Shingles of all grades are strong. The supply of

white pine at Buflalo is so small that red cedars are getting the call.

GREAT BRITAIN.

The conditions in the British market are tending to confine operations to buying from stocks on hand. The importer is afraid to buy free-on-board at shipping points, fearing that prices may not yet have reached bottom. Russian shippers have made sharp reductions in their asking prices, but Swedish shippers have offered but slight reductions, while the Canadian exporter has refused almost emphatically to yield to the demands of importers for lower prices. It is generally believed that the time has now come when confidence will be restored to the timber trade, and that it is in the interest of shippers to hold their stocks for a while. It is significant that during the past year of depression very few financial embarrassments have occurred. The docks at London are now blocked with timber cargoes, but, as practically no midsummer buying was done, this situation will soon be relieved. Reports tell of a more hopeful outlook for pine than for spruce, which is showing weakness. A cargo of spruce deals and boards, from St. John, N.B., was sold at Liverpool, on July 12th, the deals realizing £5 10s per standard for fourth quality, unassorted ends £5 12s 6d, and inch boards £5 2s 6d. While at London and Liverpool spruce is weak, we hear that 3x9 and 11 inch spruce is stiffening in price at Manchester. In another column will be found the prices obtained for pine and spruce deals at a sale held in Hull.

STOCKS AND PRICES

The steamer Daventry is loading a cargo of timber and deals at Quebec for W. & J. Sharples.

The str. Wanderer is loading lumber at the Hastings Mill, Vancouver, B.C., for Sydney, Aus.

The steamer Dunmoor Head is loading a cargo of lumber at Montreal for Cork, and will sail this week.

The biggest raft of logs ever towed on Lake Superior reached Duluth last week. It contained about 8,000,000 feet and was towed 180 miles, making an average of one mile per hour.

The steamer Tectonia is loading grain, asbestos and lumber at Montreal, for Hamburg. The barque Bellas is loading deals at Chicoutimi, Que., for Lisbon, the cargo being supplied by Price Bros. & Co.

A dispatch from Bangor, Me., states that the past two weeks have been the dullest on record in any shipping season. The spruce mills are shut down, the old log supply having become exhausted and the new logs not having arrived on account of delays to drives.

It is announced that F. H. Clergue, of Sault Ste. Marie, Ont., has signed a contract with H. R. McLellan, of St. John, N.B., by which the latter has undertaken to cut and skid 300 cords of wood per day for two years. The wood is to be used for the purpose of making charcoal for the steel plant at Sault Ste. Marie.

In Chicago Norway piece stuff is scarce, with holders asking $13, although some sales have been made at $12.50. For 2x12, $14.50 is asked. Good hemlock sells at $9.25 to $9.50. Cedar shingles have sold in cargoes at $2.50 for 8-inch, and $2.60 and up for 10-inch. The new list adopted by the Chicago dealers fixes the following quotations for lath in carload lots: White pine, $3.75; mixed dry, $3.25; No. 2, $2.75.

Messrs. Foy, Morgan & Company held an auction sale of wood goods at Hull, England, on July 12th, when the following prices were realized for Canadian lumber: 3 by 11 unsorted spruce (Riviere du Loup), £7. 15s. to £8.; 3 by 10 ditto, £7. 7s. 6d.; 3 by 9 ditto, £7. 7s. 6d. to £7. 10s.; 3 by 7 ditto, £6. 2s. 6d. to £6. 5s.; 3 by 14 ditto, £7. 17s. 6d. to £8. 10s; 3 by 11 10ft. 2nd Quebec pine, £15; 3 by 9 10ft. to 16ft. ditto, £12. 5s.; 3 by 8 ditto, £10. 15s.; 3 by 7 ditto, £10.; 3 by 11 to 18in. 6ft. to 9ft. 1st ditto, £20; 3 x 10 and 11 12ft. to 16ft. 2nd ditto, £12. 15s.; 3 by 9 7ft. to 16ft. 2nd ditto, £11. 5s; 3 by 8 ditto ditto, £11; 3 by 7 ditto ditto, £10; 3 by 10 and 11 8ft. to 16ft. 3rd ditto, £9. 10s.; 3 by 9 ditto ditto, £9; 3 by 8 ditto ditto, £8. 10s; 3 by 7 ditto ditto, £8; first quality square white pine (Montreal), 2s. 2d. to 2s. 3d.; 3 by 11 9ft. to 22ft, 3rd Miramichi 3rd pine, £9. 15s.; 3 by 10 ditto, £8. 15s.

We give below an extract from a communication received by a Montreal lumber dealer from a Chicago firm, describing the market in the Western States: "As regards the demand for timber, it is something beyond past history. Even during the World's Fair year the demand did not seem nearly as great, because it was then simply locally, but now it is all over the country; there is certainly a great era of prosperity in the United States at the present time; prices are weekly advancing and we do not know where it is going to end. We sold considerable stock from our mills to go direct east, which is leaving us short here—so much so, that what stock we cannot get out ourselves, it seems impossible to buy."

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Parrsboro, N.S.: Barque R. Morrow, for Barrow, Eng., deals, value $9,672, by George McKean.

From Halifax, N.S.: Str. Belfast, for Kensale, Eng., 2,390,423 ft. lumber, value $20,223. Str. Ocamo, for Demerara, British Guiana, 69,547 ft. lumber, value $850.

From Chatham, N.B.: Str. Montè Allegro, for Cette, France, 578,554 ft. deals, etc., by J. B. Snowball & Co. Schr. Arthur M. Gibson, for Philadelphia, 1,850,000 laths, by A. F. Bentley.

From Hopewell Cape, N.B.: Schr. Hornerice, for Manchester, Eng., 2,532,664 ft. deals, scantling, etc., value $22,168.32, by W. Malcolm Mackay. Str. Tantallon, for Sharpness, Eng., 3,132,827 ft. deals, plank, boards, etc., value $28,452, by George McKean.

From Chatham, N. B.: Barque Kalos, for Brest, France, 805,000 ft. deals, etc., value $7,920, by J. B. Snowball & Co. Str. Riplingham, for London, Eng., 2,659,527 ft. deals, etc., value $29,705, by F. E. Neale. Str. Rydna, for Liverpool, 2,828,000 ft. deals, etc., value $31,165, by F. E. Neale.

From Buctouche, N.B.: Schrs. Albert P. and Jessen, for Glace Bay, N.S., cargoes valued at $560 and $344 respectively, by M. McLaughlan. Schrs. L. P. Churchill, Ethel Aggie, and Ocean Bride, for Sumerside, P.E.I., cargoes valued at $600, $400, and $300, by W. D. Deacon. Schrs. Jaques and Divino, for Sydney, N.S., cargoes valued at $480 and $500, by H. R. Lockhart and J. D. Irving. Schr. Ocean Bell, for Guysboro, N.S., value $500, by J. D. Irving. Schr. Julia Woods, for Murray Harbor, N. S., value $400, by J. D. Irving.

From St. John, N.B.: Schr. Bessie Parker, for Philadelphia, 1,525,000 laths, by Stetson, Cutler & Co. Schr. Ayr, for New York, 100,206 ft. deals, 7,013 ft. scantling. Schr. Lottie B. Russell, for Wilmington, 1,587,000 laths, by Stetson, Cutler & Co. Schr. Abbie Verne, for Portland, 93,000 ft. boards, by John E. Moore. Schr. Anna, for Velencia Island, 215,385 ft. deals, 7,758 ft. ends, by W. M. Mackay. Barque Spind, for Cardiff, 384,513 ft. deals and battens, 110 ft. scantling, 30,340 ft. ends, by W. M. Mackay. Schr. Endicott, for Vineyard Haven, 151,663 ft. plank and scantling, 710,000 laths, by N. H. Murchie. Schr. Ettie Stimpson, for City Island, 373,152 lt. deals, by Stetson, Cutler & Co. Schr. Priscilla, for Boston, 12,292 ft. plank, 86,768 ft. boards, by A. Cushing & Co.; 676 bales pulp, by Cushing Sulphite Fibre Co. Schr. Lena Maud, for Boston, 110,966 ft. plank, 25,271 ft. scantling, by A. Cushing & Co. Schr. Progress, for Boston, 110,742 ft. plank, by Stetson, Cutler & Co. Schr. Druid, for Stoningham, 69,789 ft. spruce plank, 30,691 ft. deals, 17,636 ft. scantling, by A. Cushing & Co. Schr. Mura B, for Boston, 114,077 ft. plank and deals, by A. Cushing & Co. Schr. Clifford C., for Vineyard Haven, 114,628 ft. planks, by Stetson, Cutler & Co. Schr. G. H. Perry, for Boseon, 2,902 ft. planks, 27,688 ft. deals, 47,133 ft. scantling, by A. Cushing & Co.; 652 bales wood pulp, by Cushing Sulphite Fibre Co. Schr. Eva Hooper, for City Island, 272,630 ft. deals, 55,183 ft. planks, 125,623 ft. scant-

SHIPPING MATTERS.

A barque of 891 tons has been chartered to carry lumber from St. John, N.B., to Buenos Ayres, at $9; or Rosaria, at $10.

The rates on lumber from Duluth, Menominee and the Georgian Bay district to Buffalo remain at $1.50, $1.87 and $1.75 respectively.

The tonnage offering from Canadian ports is in excess of requirements, and lower rates are anticipated. Among recent fixtures are the following: "Chatfield," Quebec to Sunderland, 66s 6d, timber, 800 stds, Halifax to W.C.B., 42s 6d; 690 stds, Nouville to Mersey, 46s 3d; 770 reg, Dalhousie district to W.C.B. or E.C.I., 45s; 1,000 reg, Gaspé to W.C.B. or E.C.I., 42s 6d; 800 reg, Halifax to W.C. England, 42s 6d; 900 reg, Dalhousie to W.C. England, 40s; 900 reg, Dalhousie to W.C.B. or E.C.I., 52s 6d.

THE BARBADOES MARKET.

Of the Barbadoes lumber market, Messrs. S. P. Musson, Son & Company, say: The arrivals of white pine have been the "Jas. Daly," from Liverpool, N.S., on 11th, with 80 M shipping, 85 M second quality, which we placed by wire for Demerara at $23 round. The "Alice" arrived from same port on 13th with 133 M shipping and 100 M second quality, which we sold by wire for Berbice at $28 1-2 and $23; and the "Minerva" from Jordan River, with 34 M shipping and 42 M second quality, which has been placed locally at $24 and $18. The market was strengthened considerably by the two previous cargoes being sent away, and the purchaser being entirely bare, but as all the dealers now have some supply, a continuance of these prices cannot be looked for. In spruce there have been only two small receipts, 16 M by the "Leopold" from Paspebiac, Que., very nice quality, which we placed at $17.56; and 54 M by the "Harry," which we sold at $17.26 shipping, $13.26 second quality—market is amply stocked for present requirements. Shingles — There have been several arrivals, all to our address. The "New Dominion," on 11th, from Campbellton, had 1,128 M laying cedar, and 50 M long Gaspé, which we sold at $1.75 and $3.60 respectively; The "Advance," from Paspebiac, Que., on 12th with 130 M split dimension, which we have sold at from $3.80 to $7.36 as to width; and 172 M sawn dimension, which fetched $4.00 to $3.60, and 34 M long Gaspé, which we placed at $3.70. On following day the "Leopold" arrived from same port, with 400 M cedar laying, for which we obtained $1.75; 31 M long Gaspé, $3.40, and 129 M split dimension, which we sold at $3.20 to $7.40, as to width. In spruce laying, the "Harry" brought 24 M to our address, sold at $1.60.

TRADE INQUIRIES.

Among recent trade enquiries received at the office of the Canadian High Commissioner, in London, are the following: —From a German firm, having experience of the trade, wishing to represent Canadian wood pulp manufacturers. From a British firm desirous of obtaining the names of Canadian shippers of boxwood, shipped in the flat, ready to be put together by the purchaser.

The names of the persons making the above enquiries may be obtained on application to the Canada Lumberman.

EXCELLENT RESULTS.

Mr. Alex. McCall, of Simcoe, Ont., placed an advertisement in the Wanted and For Sale Department of the Weekly Lumberman, offering timber lands for sale. This is what he says of the results: "The advertisement produced excellent results. It was inserted in one of the Toronto dailies, and resulted in one inquiry, while the advertisement in the Lumberman brought correspondence from all over the country, from just the class of men I wished to hear from."

CHAIR STOCK WANTED

Wanted for export in car load lots, Sawn Chair Bottoms 14 to 15 inches square by 1¼ inches thick; birch or other suitable wood. Reply to Box 32 CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS

ONTARIO.

A Toronto dealer who recently visited Georgian Bay points states that there is much activity in the shipping of lumber. Considerable stock sold some time ago is yet at the mills, but it is being cleared out as speedily as possible to make room for the new cut. The number of inquiries received for stock shows no falling off, and it is expected that a brisk fall trade will be experienced. Larger shipments than usual have been made to Chicago this season, and Michigan dealers have bought quite liberally on account of the decreased supply in that state. Log run white pine on the Georgian Bay brings from $17 to $18. Norway pine is meeting with a good demand, and recent sales have been at satisfactory figures. Local trade throughout the province is a little quiet, the demand from retailers having declined on account of a falling off in the prospective grain crop. In Toronto building lumber is being called for moderately, but retailers report less activity than earlier in the season. The outlook for hardwoods is still uncertain, although manufacturers appear to have every confidence that the demand will improve and that the present prices will be maintained. It is reported that the combine of furniture manufacturers is making a strong effort to depress hardwood prices in the hope of buying at rock-bottom figures.

QUEBEC AND NEW BRUNSWICK.

The shipments of lumber from the St. Lawrence to the United Kingdom during the month of July were comparatively light. Notwithstanding that the low freights are an incentive to send goods forward, it is expected that the exports from now until the close of the season will be limited, as shippers recognize the necessity of giving the British market an opportunity to recover. A few vessels have been chartered for September and October loading at 45 shillings, to Liverpool and London. Quebec spruce deals are a little stronger. A higher market for spruce is expected in the Eastern States this fall. Clapboards are selling quite freely, as is also cedar shingles, but very few sales of the latter have as yet been made above $2.90, on Boston rate of freight, although $3 is generally predicted by the leading manufacturers. Fully twenty million feet of logs are hung up on the St. John river, and cannot be moved before the fall rains, and perhaps not until next spring.

UNITED STATES.

The only conclusion that can be reached from a summary of reports is that the white pine trade of the United States is in a most prosperous condition. Not for many years has the stock of unsold lumber in the Lake Superior district been so small. At Ashland, Wis., the stock of unsold Norway and white pine is but 30,000,000 feet, as compared with 75,000,000 feet at the same time last year. Most of the large mills have contracted for the bulk of their season's cut, Chicago parties having been heavy buyers of late. No. 4 boards are now selling in Duluth at $10.00, short Norway at $10.75, and 6-inch strips at $15.50. The lath market is strong, No. 1 white pine bringing $2.75, and No. 1 Norway $2.10 to $2.25. In the Saginaw valley white pine is moving freely and prices are stiffening, as stocks are somewhat broken. Log run is held at $18 to to $22, box at $15 to $16, and mill culls at $12. The eastern wholesale markets are not as active as they have been, but dealers have enough orders ahead to keep them busy for several weeks. Notwithstanding large receipts, there is still a scarcity of fine common and better at Tonawanda and Buffalo. Prices generally are firm, with the exception of box lumber, which is unsettled. Some dealers are reported to be offering this class of lumber at a reduction of $1 per thousand from late quotations. Such action is believed to be unwarranted, and other dealers have refused to meet the cut and will hold their stock until they can get what they regard as a fair price. The spruce trade is not active, but recent inquiries have developed a scarcity in certain sizes in the hands of New York and Boston dealers. Spruce lath is in good demand. The tone of the hardwood market is stronger. Inquiries are becoming more numerous, which leads to the conclusion that a brisk fall trade will develop. Some dealers report a good trade in birch.

GREAT BRITAIN.

The feeling in British timber circles is a little more hopeful. An average consumption is gradually reducing the heavy stock of lumber, and if shippers do not send forward heavy consignments in the autumn, a partial recovery of prices is confidently looked for. While the London market has not been relieved to any extent and still rules weak, an advance in the price of spruce at Liverpool has brightened the outlook there. During the last two weeks spruce deals have developed a stiffening tendency, and prices, we are advised, have advanced five shillings per standard. A Miramichi cargo has been sold to a Lancashire port at £6 10s per standard c.i.f., and brokers are asking £6 5s for inferior specifications. Holders of spruce seem to have great confidence in the future of that lumber. While the import of pine deals has been comparatively light, prices show little tendency to advance, but this may be explained by the fact that pine prices did not decline during the late period of depression to the same extent as spruce. The lower grades of Canadian lumber generally are in heavy stock and sluggish. Square timber is selling moderately at prices which vary but little from quotations of one month ago. Birch planks are in heavy stock and values have declined. The sale is reported from Liverpool of a large quantity at £5 10s per standard, a price which is almost certain to result in a loss to the shipper. At auction sales in London last week Quebec 3rd white spruce was sold at £6 10s, Miramichi 3x11 1st, 2nd and 3rd white spruce, averaging seconds, £7 10s; 3x9 same price; 3x7 a little better than £6 10s. Montreal 1st bright white pine (dry) for a mixed parcel of 3x10 and 11 to 3x4 sold at £12 5s; a parcel of seconds of better assortment, £15; and thirds, 3x11, same grade, £11 5s.

FIRES

The saw mill of Howes & Leighton at Harriston, Ont., was completely destroyed by fire last week.

STOCKS AND PRICES

The barge Seguin last week loaded 900,000 feet of lumber at Victoria Harbor, Ont., for Chicago.

The city clerk of Montreal is asking for tenders up to August 13th for annual supply of lumber for waterworks purposes.

William Richards, of Boiestown, N. B., has received an order from England for several million feet of maple lumber for furniture stock.

During the six months ended June 30th, 1901, 2,766 car loads of deals were shipped from Halifax, N.S., to trans-Atlantic ports.

The cargo of the steamer Teutonia, which sailed from Montreal for Hamburg last week, included 100,000 feet of lumber and 30 standards of timber.

The Saginaw Lumber & Salt Co., of Saginaw, Mich., is reported to have sold recently 3,000,000 feet of log run lumber at a high figure, the stock to be cut from Canadian logs.

The steamer Daventry is loading a cargo of deals and timber at Quebec for Newcastle, consigned by Sharples & Co. The steamer Gladestry is loading a cargo for the United Kingdom.

It is reported that Demase Parizeau, timber merchant, of Montreal, has received an order from a firm in Bordeaux, France, for 750,000 box shooks, the result of samples of Canadian woods distributed by Mr. Parizeau a short time ago.

The steamer Lake Ontario sailed from Montreal last week for Liverpool, her cargo including 500 standards of deals. The Europa sailed for London with 500 standards of deals and took on 175 standards more at Quebec. The Ramore Head sailed for Dublin with 230 standards of deals and a quantity of timber.

The following prices were realized at a late sale held at Dublin by the Dublin Timber Co.:—Quebec spruce, 3rd quality, 13ft. 6x3, £10 15s per Irish standard; 11ft. 8x3, £12 5s; 12ft. and 13ft. 8x3, £12 10s; 12ft. 9x3, £12 17s 6d, £12 15s, £12 10s; 13ft. 9x3, £12 12s 6d, £12 15s, £12 17s 6d. Unsorted, 12ft. 9x2, £12 10s; 12ft. 9x1 1-2, £11 5s; 16ft. 9x1 1-2, £12 10s, £12 15s. Miramichi spruce, ex. "Corderillera," 14ft. 7x3, £12 2s 6d; 13ft. and 14ft. 9x3, £12 17s 6d; 14ft. and 15ft. 9x3, £12 15s; 15ft. 9x3, £12 12s 6d; 16ft. and 18ft. 9x3, £12 15s; 9ft. to 11ft. 11x3, £12 15s. 1st Quebec pine deals, 12ft. to 15ft. 12in. to 15in. x 1 1-2 in., £40; 12ft. to 16ft. 13in. to 15in. x 3, £45.

Concerning the market in England for spruce deals, the Timber Trades Journal says: "Buyers on this side have a large stock to work upon, and until this is further reduced the lowering tendency of spot goods may be expected to continue. Offers, however, sent out to Quebec for 3x9 2nds, at £8 15s, c.i.f., have been declined, and sellers out there are afraid that, in this size, they will not have enough to complete the contracts already in hand. Regarding lower port spruce stocks, we understand that from some of the outports the entire shipments are completed, and the shipments from St. John are expected to be very much less than last year. The total shipments from the lower ports to the end of June were about 7,000,000 feet less than last year, and during July and August, 1900, about 90,000,000 superficial feet were shipped; but the belief is pretty general that this year's shipments, extending over the period named, will be considerably less. A Cape Hopewell cargo of rather a bad specification, containing a large percentage of 7 and 8 in., has been sold this week to Liverpool at £6 2s 6d. This represents a slight market advance. As the Liverpool importers are among the keenest buyers of spruce, the sale is not without its significance. After the low prices which have been lately accepted, some reaction appears possible."

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Buctouche, N.B.: Schrs Melatus, Bell, L. P. Churchill, Ocean Bride, Richard B., and Beatrice May, for Cape Breton and Prince Edward Island points, total value of cargo $2,700.

From Sackville, N.B.: Str. Petunia, for Manchester, Eng., 1,271,279 ft. deals and battens, value $11,411,284; 894 ft. scantling, value $1,995; 64,420 ft. ends, value $395; 22,766 ft. boards, value $115, by P. G. Mahoney. Schr. Two Sisters, for United States, 108,000 scantling, 50,000 laths, value $927, by John M. Hicks.

From Vancouver, B. C.: Tug St. Clair, for United States, 272,644 ft. for Japan, 262,168 ft. rough fir, value $1,516, by T. Larkin. Str. Athenian, for Japan, 262,168 ft. rough fir, value $4,016, by British Columbia Mills, Timber & Trading Co.; 200,600 ft. rough fir, value $1,602, by Robert Ward & Co. Tug Vulcan, for United States, 400,000 ft. cedar logs, value $2,000, by Hamilton Logging Co. Schr. Angora, for Australia, 5,976 ft. rough fir, value $597, by North Pacific Lumber Co.; 49,863 ft. dressed fir, value $2,000, by B. C. Mills, Timber & Trading Co.

From Montreal, Que.: Str. Tritonia, for Glasgow, 1,304 pcs. deals, etc.,

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. VII. TORONTO, ONT., AUGUST 14, 1901 No 28

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

Mills are fully equipped for running At same time will be sold the entire stock of pine, spruce and hardwoods now in the Company's yards at Newport, and about 1,500 acres of timber lands in the town of Clifton, P.Q.

For particulars apply to
G. N. HODGE, Sherbrooke, Que.
F. M. SHERMAN, Newport, Vt } Trustees.
F. C. DUDLEY, Portland, Me.

Or the property may be examined by applying to O C Miller Manager, at Newport, Vermont.

CURRENT TRADE CONDITIONS

ONTARIO.

The determination of manufacturers of white pine lumber to hold prices firm has met with success. The lists sent out for the month of July show that prices of every grade are being kept up. While there is plenty of lumber for sale, there seems to be no pressure on the part of holders to dispose of their stocks, nor is there any reason why such should be the case if a conservative policy in respect to production is pursued. Very hopeful reports regarding the pine situation come from the Georgian Bay district. A large Michigan concern recently purchased 10,000,000 feet of white pine lumber at Sprague, 10,000,000 feet at Blind River, 20,000,000 feet at Midland, and 4,500,000 feet at John's Island, making a total of 44,500,000 feet. The bulk, and perhaps all, of this lumber will be taken to Saginaw and Bay City to stock the yards there which were formerly supplied by the Michigan mills which cut Canadian logs. The present indications are that there will be a scarcity of long lumber before many months. Retail trade in Toronto has improved within the past week. Shingles and lath continue strong, XXX white pine shingles selling at $2.80 retail, and No. 1 lath about $3. Enquiries for hardwoods have been more numerous, particularly from manufacturing concerns, which suggests that their stocks are getting low.

QUEBEC AND NEW BRUNSWICK.

A better feeling prevails among the spruce manufacturers of the eastern provinces on account of the improvement in spruce in the British market. While this improvement has as yet been confined to Quebec spruce, it is almost certain to extend to the production of the Maritime provinces. The depression in the British market has resulted in increased shipments from New Brunswick and Nova Scotia to France, Spain, Australia and South America, and it is probable that when the shipping season closes the quantity of stock remaining in the hands of Canadian manufacturers and shippers will not be abnormally large. There is no change in the prices of Quebec timber. New Brunswick cedar shingles are firmer, sales having been made at $3 for extras on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

About two hundred carpenters in Winnipeg have gone on strike, and it is feared that building work in that city will be seriously interfered with unless an early settlement is reached. Railway construction is being pushed on several lines in Manitoba and the Territories, particularly the Canadian Northern line through to Lake Superior. The farmers are now busy harvesting the abundant crop, and it is expected that there will be a brisk fall demand for lumber for new buildings and improvements. In British Columbia local trade is rather quiet, but large export shipments are being made. In the first six months of this year eight cargoes of timber were shipped to China, and large orders are on the books.

UNITED STATES

The most optimistic opinions continue to be expressed regarding the white pine market of the United States. The developments of the past week have, with one exception, been favorable to a further hardening of lumber prices. That exception was the publication of the Government crop report, showing an expected yield of corn slightly less than 1,300,000,000 bushels. This is greatly below the average. The demand for lumber from retailers has shown a slight falling off in the principal corn-producing States, but the abundant wheat crop has largely offset the effects of the decreased production of corn. The factors of strength of the past week have been the advance in

the price of piece stuff, strips and No. 1 and 2 boards made by the Wisconsin Valley Lumbermen's Association, and heavy purchases of lumber by Michigan dealers. The concern representing the consolidation of four large Saginaw lumber firms formed about one month ago has since that time purchased 70,000,000 feet of lumber, nearly all of which is white pine. It is said that this concern have lately advanced the price of upper grades of pine $2 per thousand. The market at the head of Lake Superior and in Michigan is quite strong, with every prospect that it will continue so during the fall months at least. In eastern wholesale markets there is a good movement of white and Norway pine, with a marked scarcity of the higher grades. An advance in the price of hemlock has been made by the Northwestern Hemlock Manufacturers' Association, and it is said that hardwoods are also a little firmer and moving more literally. There seems to be a recovery in ash and maple, while basswood, which has been a good seller all the year, is still in urgent request. There is considerable call for inch maple, but the price is low. The spruce trade is rather quiet and unsettled. Fearing a slack demand, some of the mills in the Eastern States are not in operation, while others are closed down owing to a scarcity of logs.

GREAT BRITAIN.

It is somewhat encouraging to learn that some branches of the timber trade in Great Britain are improving. The deliveries from the docks have been heavier of late, and there are indications of a general improvement in the demand for Canadian pine and spruce. Although London is the weakest point, the stock of Quebec spruce deals at that port is light, and it is even said that there will be a shortage of some grades to fill the contracts now made. Prices at Liverpool are considerably better, particularly for the higher grades, and it is believed that this improvement will soon extend to other classes of timber. In first class pine deals, 3x11 in., there is also a scarcity, with the market showing a tendency to harden. While these conditions exist, it is equally true that the public sales of the past week have been characterized by very low prices, and that the total stock of timber, deals, etc., in the public docks is exceptionally large. In London the increase of sawn and plain wood is 6,775,446 pieces over the corresponding period of 1900. Battens and prepared boards represent the heaviest increases, the former being 2,424,399 pieces in excess and the latter 2,888,125 pieces. Almost every class of timber is in increased supply, the decrease in the quantity of Quebec spruce deals being more than offset by the stock of New Brunswick and Nova Scotia spruce. The demand for square and waney timber is quiet. First-class waney and square pine and oak meet with ready sale, but there is little inquiry for elm and birch, and buyers anticipate a further drop in values. A few sales of 13 in. birch have lately been made at 14d to 15 1-2d.

FIRES

The saw and planing mills of John McDonald at Antigonish, N.S., were burned on August 11th. The loss is $10,000, with no insurance.

The shingle mill of the Royal City Planing Mills at New Westminster, B.C., was partially destroyed by fire on July 29th, at a loss of $2,000. The mill is owned by the British Columbia Mills, Timber & Trading Company, of Vancouver.

STOCKS AND PRICES

Red cedar shingles of first quality have been sold recently in Buffalo at $4.

Saginaw dealers quote hemlock boards at $10.50, and piece stuff up to 16 feet at $11.50.

Messrs. Reid & Company, Toronto, are still in the market for 4x4 cedar scantling.

The receipts of lumber at Buffalo by lake this season have been 71,000,000 feet, as against 64,000,000 feet to date last season.

The shipments of lumber from Minneapolis in July of this year were 16,000,000 feet in excess of the same month last year.

The Head line steamer Bray Head is loading a cargo of deals at Montreal for the United Kingdom, the shippers being Dobell, Beckett & Company.

The steamer Auracania sailed last week from St. John, N.B., for Glasgow, with deals. The barque Poscidan is loading a cargo of deals at Quebec for the United Kingdom

Up to the first of August of this year the Fredericton Boom Company had rafted the following quantity of logs on the St. John river: Spruce, 72,675,522 feet; cedar, 5,588,830 feet; pine, 3,106,270 feet; hemlock, 81,519 feet.

The Wisconsin Valley Lumbermen's Association, at a meeting held at Wausau on August 3rd, decided to make the following advances in its price list: No. 1 and No. 2 piece stuff, No. 1 and 2 strips and No. 2 8-in. boards, 50 cents; No. 1 8, 10 and 12 in. boards, $1.

At an auction sale held by Foy, Morgan & Company, London, England, first quality red pine from Montreal brought £15 per standard, second quality £12, and third quality £9 10s. Some unassorted red pine from Quebec sold at an average of £7 5s; birch timber from Quebec at 41s per load of 50 cubic feet; and birch from St. John, N.B., at 7d per cubic foot.

Large purchases of lumber have lately been made by Michigan concerns. Bliss & Van Auken, of Saginaw, purchased 3,000,000 feet of white pine log run from the Saginaw Lumber & Salt Company, the stock to be cut from Canadian logs. Mershon, Schuette, Parker & Company purchased from the Central Lumber Company all of their best white pine lumber to be cut this season, about $250,000 being involved in the deal. Bliss & Van Auken have also secured the entire cut of the mills of Ross Bros., at Beaverton, Mich., representing 12,000,000 feet.

Regarding the condition of the cooperage market at Buffalo the American Lumberman says:

There is a moderate movement of cooperage stock, as the natural demand is quite good, but producers and jobbers are not satisfied with prices and some refuse to accept the figures offered, particularly on hoops, which they declare cannot be replaced for the money. The trade was spoiled by allowing the prices to go so high last year that small mills appeared everywhere and all sorts and conditions of stock were thrown on the market. This being in the hands of people who must sell anyhow there is demoralization everywhere and the only thing for old dealers to do is to wait if they can until it is out of the way. There is next to no sale for second class stock, as the apple crop here is a failure. First class elm staves sell for $7.50 to $7.75, coiled hoops same and basswood heading for 5 1-2 to 5 3-4 cents.

BUSINESS NOTES.

It is reported that C. F. McKendrick, saw miller, of Fredericton, N.B., is in financial difficulties.

The dissolution is announced of J. T. Marchand & Company, lumber dealers, Montreal.

Kildona, for Dundee, 1,595 bundles staves, by Canadian Pacific Railway; 12,000 ft. elm lumber.

THE GLASGOW MARKET.

The monthly report of Messrs. Allison, Cousland & Co., dated July 31st, thus reviews the Glasgow timber market:

Business, as is usual at this time of year, has been quiet owing to the annual holidays. Imports continue to arrive freely, but are not being disposed of and consequently stocks are increasing. Prices are very unstable, and with the rapid fall in freights combined with the present dull trade a further drop in values is not unlikely.

Square pine—There is a better demand and prices are slightly higher.

Red pine—There has been little business during the month. Quotations, are, if anything, weaker.

Oak—There is no business to report. The stock on hand is small.

Birch—There has been a heavy import and prices are weaker. Quotations—17d to 18d for 15 to 16 in. average.

Ash—There has been a considerable import during the month, and fair prices have been realized.

Elm—Stocks have been little reduced during the month; prices are little changed. 45 to 50 feet is quoted at 2s 9d to 3s per c. ft.

Pine—Firsts—There has been but a moderate demand, and prices are considerably easier. Broads are quoted at £24 1s 3d to £27 10s. Undersized, £19 18s 9d to £21 6s 3d. Sidings, £17 17s 6d to £19 5s per St. Pet. Std. Seconds—There is little demand, but quotations are little changed.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., AUGUST 21, 1901 No. 29

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Buildin TORONTO.

B Office:
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canaian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

TO BOX SHOOK MANUFACTURERS

A superintendent of large sawmill and box factory, from Glasgow, desires position; first class references. Box 24, CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS

ONTARIO.

At a meeting of the Lumbermen's Association of Ontario, held in Toronto last week, a resolution was adopted by the members present agreeing to curtail their operations in the woods during the coming winter. This action does not imply that the lumber market is weakening, but is simply an indication that the lumbermen recognize the advantages to be derived, in view of the high cost of labor and supplies, in curtailing the output of lumber next season. Such a course is to be commended, and it is hoped that operators will strictly adhere to the resolution. The statement was made by one large operator present that it was his intention to curtail 50 per cent., as compared with last winter, and by another that he would reduce his output 25 per cent. The pine market continues to show strength, the higher grades being particularly strong. A ready market can be found for 10 and 12 inch boards, and bill stuff is also a good seller. The average price of mill culls is between $10 and $12, depending upon the location of the stock. A quantity of mill culls at John's Island, which would demand a high freight rate, was lately sold for $9.50. The demand for hardwoods is improving, and it is believed that the large consumers are about to enter the market to stock up for their fall and winter requirements. Hemlock is in good demand at an average price of $9.50 to $10, although it is possible to obtain from $11 to $12 for long lengths. Lath are holding up well, the mill price being about $2.50 for No. 1 and $2 for No. 2.

QUEBEC AND NEW BRUNSWICK.

The shipments of lumber from Montreal during the past week have been light, and it appears that the shippers on this side are sending forward only as little lumber as possible. Considering the depression in the British market, the price of spruce deals keeps up remarkably well. Some of the large mills on the St. Lawrence are shut down for want of logs, the drives on the St. Maurice river having become stranded, with the possibility that they may not be gotten out until next spring. It is reported that the Laurentide Pulp Company at Grand Mere has been closed from this cause. A few weeks ago it was predicted in this column that cedar shingles were about to advance. This prediction has been realized, as some of the large manufacturers are now asking $3 for extras, on Boston rate of freight. Clears are quoted at $2.70, and second clears at $2.30.

UNITED STATES.

During the month of July the shipments of lumber by the members of the Mississippi Valley and Wisconsin Valley Lumbermen's Associations were 37 per cent. greater than for the same month in 1900. Crop conditions are more satisfactory than was expected, and as the wheat harvest is practically over farmers are turning their attention to the buying of lumber for new buildings and improvements. Prices of white and Norway pine remain very firm, with an upward tendency, especially in Norway. At Ashland, Wis., short lengths have sold at $11 for 2x4 and 2x8, and $12 for 10 inch stuff. Six inch strips in common grade are selling at $15.50, and 4 inch at $14.50. The conditions in the Saginaw Valley are equally satisfactory. Log run is held at $18 to $24, box at $14 to $16, and mill culls at $12. Several cargoes of piece stuff have been sold to Chicago at $14, while common inch brings $17. Buffalo and Tonawanda dealers are getting in large stocks and are purchasing freely, but the demand is such that they are not able to increase their stocks materially. It is generally believed that while there is not

the great buying that existed in July, there is likely to be a brisk demand throughout the fall. Bill stuff is selling comparatively low and an advance is predicted. The buying of hardwoods has been more noticeable of late. Apparently the large consumers have begun to make purchases in order to replenish their stocks, which are thought to be low. Considerable ash is moving. Satisfactory conditions prevail in the spruce trade, and as the stocks are not heavy, present prices are likely to hold, if they do not advance.

GREAT BRITAIN.

It seems necessary that shippers must make up their minds to carry the balance of their British specifications over till next year, and follow this action by curtailing their production. It is said that there is still half the production of Scandinavia unsold, as well as the entire summer and autumn production from the White Sea. With large stocks unsold and on the docks at London and Liverpool, buyers are of course loath to enter into new contracts, fearing a further drop in prices. There has been more activity of late in spruce, and the improvement referred to in last issue has been continued. The Timber Trades Journal reports the purchase of a large cargo of Quebec spruce at £6 10s, c.i.f. Liverpool. Several large cargoes of spruce have lately arrived, but they have been mostly sold in advance. There is no question as to the better qualities of spruce finding a market at a reasonable price, but it is very advisable not to overstock the market with the lower grades. The white pine market is a little sluggish; however, stocks are held in strong hands and in all probability present prices will be maintained. Waney board pine is in good demand, and birch logs have been moving more freely, but large receipts have removed the possibility of any improvement in price.

Nearly a million feet of lumber was burned last week in the yard of Hon. J. K. Ward at St. Cunegonde, a suburb of Montreal. The loss is placed at $15,000.

STOCKS AND PRICES.

Three cargoes of Oregon pine have left Vancouver, B.C., for the United Kingdom since April 1st.

During the first twelve days of August the receipts of lumber at Tonawanda were 33,000,000 feet.

The Saginaw Lumber & Salt Company, of Saginaw, Mich., last week sold 2,700,000 feet of pine lumber to Buffalo parties.

R. E. LaBlanc is loading a barque at Bonaventure, Que., for the English market. This is the first vessel to be loaded at that point.

Gilmour & Company, of Trenton, Ont., are busy on a large order for 5,000 hardwood doors. They report an increase in demand for their patent doors.

It is reported that Adams, Burns & Company, of Bathurst, N.B., have sold their saw-milling property at Burnsville, including 100 miles of timber limits, to John Robertson, of Bathurst.

C. H. Witthun & Company, of Wiarton, Ont., last week completed the sawing of 3,000,000 feet of pine for Munro & Ebert, of Pembroke. The raft of timber was received late last fall, and about 700,000 feet was cut before the mill was closed down.

Of the Barbadoes lumber market Messrs. S. P. Musson, Son & Company say: "There have been two arrivals of white pine during the fortnight; the "Evelyn," from Liverpool, N.S., with 79,000 feet shipping and 97,000 second quality, which was placed at $24.50 and $17.50 respectively; and the "Kipling," from Liverpool, N.S., with 23,000 feet shipping and 102,000 second quality white pine, 13,000 feet spruce, and 34,000 feet hemlock. The white pine was sold at $24 for shipping and $17.50 for second quality, the spruce at $17.50. The dealers are now fairly well supplied, and lower prices may be expected. Dimension cedar shingles would be saleable at late quotations, but Gaspe shingles would not bring more than $3 to $3.25.

SALE OF TIMBER BERTHS.

The auction sale of timber berths on the north shore of Lake Huron to be held in the Board of Trade building, Toronto, on Friday, November 15th, should bring together a large number of lumbermen. The oroperty is owned by Messrs. Tanner Bros., of Waubaushene, and consists of timber berths No. 60, 61 and 119 and McKinnon townships and a modern saw mill at Sturgeon Bay. Mr. Peter Ryan will be the auctioneer. Further particulars will be found in our advertising pages.

VENEERS WANTED.

Mr. Cuthbert McCollum, of Egremont, Cheshire, England, whose announcement appears in this issue, is in the market to buy car-loads of three-ply built-up veneers, 3-20, 3-16 and 1-4 inch, in birch, maple, elm, basswood and whitewood. To save delay, manufacturers should send samples, accompanied by prices, capacity, nearest ocean port, rail freight rate to port, etc. Shooks for boxes to be packed, hooped only; veneers for furniture purposes and panels to be crated.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., are reported since last issue:

From Yarmouth, N. S.: Barque Egeria, for Buenos Ayres, 768,000 feet lumber, value $9,200, by Parker, Eakins & Co.

From Chatham, N.B.: Barque Blanchetts, for Carthegena, 859,787 ft. deals, etc., by J. B. Snowball Co.

From Halifax, N.S.: Str. Corean, for Glasgow, Scotland, 99,372 ft. lumber, value $1,000. Str. Damara, for Liverpool, Eng., 468,138 ft. deals, etc., value $4,641.

From Montreal: Str. Marina, for Glasgow, 17,052 pieces deals, etc., by Dobell, Beckett & Co.; 11,704 pieces, by R. Cox & Co.; 12,265 pieces, by McArthur Export Co.; 3,993 pieces, by E. H. Lemay; 15,172 pieces, by J. Burstall & Co.; 6,851 pieces, by McLaurin Bros.; 8,956 pieces, by Watson & Todd; 206 doors, by Grand Trunk Railway Co. Str. Gellowa, for Dundee, 3,465 pieces deals, etc., by Dobell, Beckett & Co.; 701 pieces, by Grand Trunk Railway Co.; 29,769 pieces, by J. —CORRESPONDENCE SOLICITED—

LONDON TIMBER IMPORTS.

Messrs. Churchill & Sim, in their last report regarding the imports in to London, say :

Of pine deals from the St. Lawrence the import has been 1,005,000 pieces, against 408,000 pieces in 1900; and of spruce deals 1,443,000 pieces, against 1,159,000 pieces in 1900. From New Brunswick the import of pine deals has been 176,000 pieces, while last year there were no imports. Spruce deals have been imported to the extent of 244,000 pieces, and birch planks to 108,000 pieces, against 404,000 and 51,000 pieces respectively last year.

The stock of pine deals has accumulated somewhat, and while prices of the lower qualities are still high, those obtainable for first quality have greatly fluctuated. The fact is that a great many shipments have found their way to this country which have not been too carefully culled for quality, and much trouble has resulted with buyers in consequence. What is called the new culling of pine deals may eventually be understood by buyers, but meanwhile those shippers who have kept to the recognized standards of quality will have less competition to face than formerly.

Spruce deals have been in good demand, and the importation has been a light one. Hardwoods generally have been slow of sale.

ANNUAL LOG SALE.

The annual sale of mixed and unmarked logs rafted by the Fredericton Boom Company was held at Fredericton, N.B., last week. There was a large attendance of lumbermen.

The Boom Company has rafted about 81,500,000 superficial feet of lumber this season, of which 827,680 feet, about 1 per cent., were not marked or the marks were not recognizable. This is the usual percentage.

The logs sold were made up of 33,640 feet of hemlock, 22,820 feet of pine, 102,750 feet of cedar, and 758,471 feet of spruce, of which 69,922 feet was condemned, 310,948 feet was battens and 377,610 feet was merchantable.

The purchasers were as follows :—

Hemlock, Fredericton Boom Co., at $4.50 a thousand.

Cedar, T. E. Babbitt & Sons, at $6.25 a thousand.

Pine, W. H. Murray, at $8.50 a thousand.

Spruce, J. E. Moore, at $11.90 a thousand.

The price paid by Mr. Moore is the highest known to have been paid for spruce logs. Towage to St. John will cost 60 cents a thousand, so that Mr. Moore's logs will stand him $12.50 a thousand feet at his mill, for merchantable. He gets the battens at two-thirds the price paid for the merchantable, and the condemned for nothing except the cost of towing. Spruce deals are selling at about $10 a thousand feet.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to Aug. 30th, as reported by the Supervisor of Cullers :

	Cu. ft. 1899	Cu. ft. 1900	Cu. ft. 1901
W'n'y w'te pine	1,561,489	1,362,382	953,431
White pine	523,582	504,366	394,847
Red pine	159,541	60,796	66,435
Oak	466,452	380,966	371,305
Elm	446,408	542,077	828,137
Ash	56,514	80,907	127,565
Basswood	....	241	464
Butternut	60	142	850
Tamarac	415	71	22
Birch and Maple	231,946	392,149	298,193

The steamer Cevriana has sailed from Montreal for Antwerp, her cargo including a quantity of deals. The steamer Nyanda is taking on a deckload of deals at Three Rivers, Que.

J. F. SANGSTER,
Real Estate Agent,
Richmond Street, London, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The closing days of August finds the white pine market almost as strong as it was one month ago. The constant operation of the mills has necessarily increased the yard stocks, but shipping has been so active that the accumulation at the mills is not large. Nearly all manufacturers report a larger volume of business than last year. There has been a steady enquiry for all grades of pine, but particularly for the better qualities and 10 and 12 inch boards, of which the supply is very light. Buyers from the United States have been an important factor in the market this year, and have bought extensively in the Ottawa Valley and Georgian Bay districts. If there is any weakening of prices it pertains exclusively to one or two of the lower grades. The future of pine lumber prices depends very largely upon the policy which maunfacturers follow during the coming winter in respect to their logging operations. If a moderate cut only is made, there is no question that present prices will be maintained. The conditions seem to favor light operations in the woods, as the cost of labor and supplies is exceptionally high. While the outlook for hardwood lumber is fair, the actual demand is less than might reasonably be expected. There is, however, a firm undertone to the market, and it may be that the prospective improvement may come earlier than is anticipated. Lath and shingles continue in light supply, with a good demand, and prices are quite firm.

QUEBEC AND NEW BRUNSWICK.

Quite a number of vessels have loaded along the St. Lawrence for the United Kingdom. The market for spruce is looking a little more hopeful, and the opinion is freely expressed that operations in the woods will be curtailed the coming winter, and that next season will witness a marked improvement in spruce prices. The shipments from New Brunswick and Nova Scotia to Great Britain have been light of late, but increased exports have been made to South America and France. The latter country is expected to be a considerable buyer of Canadian lumber within the next few years. Cedar shingles are firmer, practically no extras being offered at less than $3.00 on Boston rate of freight. Clears are selling at $2.70 and second clears at $2.25.

UNITED STATES

The report presented at the semi-annual meeting of the Mississippi Valley Lumbermen's Association makes the very satisfactory showing that stocks on hand are decreasing each year, while the shipments are showing a corresponding increase. This statement has in a measure dispelled any hope which buyers may have had of obtaining lower prices this fall. The white pine market is exceptionally strong, the large mills having either sold ahead or are meeting with a demand for the lumber as fast as it is cut. The effect of the two unfavorable factors, namely, the corn crop failure and the strike of steel workers, has passed off, and indications are promising for a brisk fall trade. The higher grades of lumber are wanted in excess of the supply, while the common and lower grades are moving liberally at good prices. In Chicago there is a pronounced scarcity of No. 1 and No. 2 12-inch boards as well as piece stuff, which ranges from $13.75 to $14 in cargo lots. Norway pine is not as firm as white pine. Our Albany and Buffalo price lists this week show an advance in the higher grades of pine. Reports from these cities tell of a very firm market for uppers and selects. Spruce lumber is also hardening, there being a good demand for building material in New York. The hardwood trade still lacks the snap which is shown by pine, although some dealers give a more satisfactory account of trade and report heavy shipments of basswood, maple and quartered oak. Lath and shingles are not accumulating to any extent, and it is almost certain that the present prices will be sustained throughout the fall.

GREAT BRITAIN.

The course of the British timber market week after week has been so similar as to make a review much of a repetition. The market is still heavy, but with some strong spots. The low price of lumber is stimulating consumption, and there has

been considerable buying of building materials. At recent auction sales prices have been further depressed, especially floorings, scantlings and the lower grades of lumber generally. At a London sale 3x14-24 inch white pine from Quebec brought only £15 9s. per standard. The stock, however, was of poor quality. Spruce prices have not undergone any further advance, but dealers are optimistic that if the fall receipts are not too heavy an upward trend will set in. It is announced that Norwegian shippers contemplate carrying over their summer and autumn production until next spring. Waney board pine has of late shown strength, and Quebec oak of good quality is scarce. Specifications suitable for railway requirements meet with quick sale at firm figures. Red pine is weak, and no improvement can be reported in New Brunswick birch planks.

STOCKS AND PRICES.

The steamer Briardene is about to load a cargo of deals at Tusket Wedge, N.S., for France.

The steamer Adato cleared last week from Victoria, B.C., for Taku, with a cargo of 2,898,000 ft. of lumber.

As a result of low water in the Gatineau river 150,000 saw logs are stranded along the upper reaches of the river.

The Eastern Lumber Company, of Albany, N. Y., have purchased 7,000,000 feet of lumber from the Northrop Lumber Company, of John's Island, Ont.

Vigars & Company, of Port Arthur, Ont., have finished their season's cut. They report an active trade, in addition to the large contract for supplying timber for railroad and bridge construction.

In the Saginaw Valley log run lumber is quoted at $18 to $22, box at $14 to $15, and mill culls at $12. The Norway cut ranges from $14 up, according to dimensions.

The steamer Daventry sailed last week from Montreal for Newcastle with a full cargo of deals. The steamer Verbena cleared last week for Valencia via Three Rivers with deals, and the barque Poseidon sailed for Waterford with deals.

Spruce lath is selling in New York at $2.50 to $2.60. In Chicago white pine is quoted at $3.25, and No. 1 mixed at $2.75. In the Saginaw Valley 18 inch XXXX pine shingles are held at $3.75 and clear butts at $2.50 ; 16-inch at $3.25.

N. & A. Dyment, of Thessalon, Ont., are reported to have sold timber limit No. 168, in the Algoma district, to Moore & Macdonald, for the sum of $105,000. The limit was purchased by Messrs Dyment about three years ago for a sum in the neighborhood of $20,000.

The manufacturers of hemlock in Pennsylvania put into effect a new price list on August 15th, making an advance of 50 cents a thousand. According to the new list, bill timber will range from $15 for 12,14 and 16 feet to $20.50 for 38 and 40 feet ; 2x4 to 3x12, 12, 14 and 16 feet, will be quoted at $14.50.

The schooner John B. Coyle sailed last week from Yarmouth, N.S., for Rosalia, with 657,000 ft. of spruce lumber and scantling, furnished by Parker, Eakins & Company and D. A. & D. R. Saunders. The barque Eberia sailed from same port for Buenos Ayres, with 768.000 ft. of lumber and scantling. The barques Albertina and Argentina are loading at Yarmouth for Buenos Ayres, and the barque Reform at Tusket Wedge for Buenos Ayres.

BRITISH TIMBER SALE.

At an auction sale held by Churchill & Sim, London, England, on August 14th, Canadian deals, etc., brought the following prices :

Pine.—Ex. Huelva, from Quebec.—12-13 ft. 3x11 in. third quality white pine, £15 10s. ; 16 ft. 3x11, £14 5s. ; 13-16 ft. 3x12-21, £15 5s. Ex. Cumeria, from Montreal—15-16 ft. 3 x 12-26 in. fourth quality, £9 5s.; 12-14 ft. 3x12-24, £9 10s.; 10-11 ft. 3x11-21 £9, 10s. Ex. Wildcroft, from Bastican, Que.—8-14 ft. 3x7-15 in. first and second quality, £11 ; 9-11 ft. 3x11 in. third quality, £11 15s. ; 8-14 ft. 3x7-9 £10 15s. ; 7-14 ft. 3x9-11 in. fourth quality, £10. Ex. Yola, from Quebec.—14-16 ft. 3x12-24 in, first quality, £15 5s.; 13 ft. 3x12-23, £15 ; 12 ft. 3x12-23, £15 ; 15-16 ft. 3x11, £14 15s ; 14-16 ft. 3x12-26 in. second quality, £13 5s. ; 12-13 ft. 3x12-21, £13 ; 12-15 ft. 3x11, £13; Ex Ashanti, from Quebec, 12 ft. 3x11 in. first quality, £18 5s.

Spruce.—Ex. Montuak, from Montreal. 12-13 ft. 2½x7 in. unassorted, £7 15s.

Oak Timber. — Ex. Highfield, from Quebec.—4 logs 3-7 cubic ft., 87s. 6d. per load of 50 cubic feet ; 7 logs, 600 ft., 85s.; 13 logs, 725 ft. 75s.

Birch Planks.—Ex. Vreta Holme, from Quebec.—6-15 ft. 3x9-10 in. 1s. 1d. per cubic foot ; 6-16 ft. 2x8-9 in. 1s. 4d.

Elm Timber. — Ex. Carisbrook, from Quebec 32-48 ft. 11-16 in., 90s. per load.

A meeting of the creditors of E. Spraggett, saw miller, Grand Forks, B.C., was called for August 23rd.

Mrs. B. Traversy has registered propritress of the lumber business of . E. Traversy, Montreal.

FIRES.

The box factory of Holmes & Arpin and the sash and door factory of D. Gagne & Co. in Montreal, were destroyed by fire last week. The loss in each case is about $4.000.

The saw mill of the Northern Lumber Company at Garland, Man., which was burned last week, was valued at $8,000, three-quarters of which is covered by insurance. T. A. Burrows, M.P.P., of Winnipeg, is president of the company.

The Harrison River Timber & Trading Co.'s saw mill at Harrison River, B.C., was burned recently at a loss of $12,000. Fulbrook & McKim's mill at same place suffered a small loss.

The planing mill of Robert Stewart at Guelph, Ont., was damaged by fire on August 17th to the extent of $4,000.

The saw mill of E. Esilets at Three Rivers, Que., has been burned ; loss $10,000.

BUSINESS NOTES.

Chestnut & Son and Tabor & O'Neill, wood-working factory and sash and door factory, have amalgamated.

A receiver is announced to have been appointed for the Muskoka Lumber Company, of North Tonawanda, N. Y.

Malone's Three Rivers Hay, Produce and Lumber Company, of Three Rivers, Que., has been dissolved.

CANADIAN LUMBER SHIPMENTS.

Albanian, for Liverpool, 1,546 bales wood pulp, by C.P.R. Str. Daventry, for West Hastlepool, 6,366 pcs. deals, by W. & J. Sharples.

THE BOSTON MARKET.

The spruce lumber market at Boston continues firm, although business is not particularly active. Nothing in spruce frames is being sold below $18, and from that figure up to $20 and even more is being obtained. Merchantable boards are worth $15.50 to $17, and matched boards, $17 to $17.50. Laths are quiet and steady at $2.80 to $2.85 for 1 5-8 in. and $2.70 for 1 1-2 in.

Eastern cedar shingles are firmer for extras, for the reason that the trade has turned to them, under the fact that they are only about 25c. higher than clears, when the acknowledged difference is 50c. Dealers find that they are getting a good demand for extras, with most of the manufacturers declining to ship them for less than $3 to Boston. Most of the dealers ask $3 for extras; clears, $2.60 to $2.70; second clear $2.15 to $2.25; sap, $2; extra No. 1, $1.60 to $1.75; Washington and British Columbia, 16-inch, five butts to 2 inches.

Hardwood lumber continues in only fair request: One inch, whitewood, $38 to to $40; thicker, $26 to $43; 5/8 inch, $30 to $34; saps, inch, $25 to $30; common, $23 to $25; quartered oak, $65 to $70; fancy, $80 to $90; plain oak, $35 to $45; ash, $38 to $45; cherry, $90 to $130; maple, $30 to $40; sycamore, quartered inch, $40 to $50; walnut, $100 to $130.

Clapboards are scarce, with the market largely nominal: Extra spruce, $30 to $32; clear, $28 to $30; second clear, $25 to $27; extra No. 1, $18 to $20; pine, extra, $36 to $38; clear, $36 to $37; second clear, $28 to $39.

From the provinces last week five cargoes of lumber were received, with a total of 1,742,400 feet, 66,000 feet of piling and 10,000 railway ties.

The following charters are reported: Three boats, New Brunswick and Nova Scotia ports to w.c. England, 41s 3d. Steamer Auracania, Riviere du Loup, Que., to w.c. England, deals, 45s.

The M. CAMPBELL FANNING MILL CO., of Chatham (Limited)
CHATHAM, ONT.

FOR SALE

Retiring from Business on account of old age.

Old and well established wholesale hardwood and pine lumber business, both Canadian and export trade with Great Britain and the United States, to steady customers of the highest standard. Several orders now on hand and stock now getting ready. Apply to
J. F. SANGSTER,
Real Estate Agent,
Richmond Street, London, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

From the standpoint of immediate demand, white pine lumber conditions are not as satisfactory as they were one month ago, the volume of business being slightly less. But when this is said nothing more can be added which would give one reason to expect anything but a strong market. The conditions are all favorable to a steady demand at firm prices. The present season has been characterized by extreme dullness in the export of lumber, but next year a season of much greater activity and higher prices may be looked for. As it is the higher grades which most readily find a market in Great Britain, there is likely to develop a great scarcity of these grades in the near future, especially as the supply is now almost inadequate to meet the demands of the trade. Good pine lumber promises to gradually become more valuable. The changes in our Ottawa price list show an appreciation in good strips and shipping culls and better. Lath and shingles are also showing strength, and it is said that the supply is very light. Toronto dealers are looking for still higher prices before the end of the year. Of hardwoods little can be said. The buying is still of a hand-to-mouth character, while manufacturers are holding prices steady. The stock is comparatively large, but this will be offset by restricting the log output next winter. There is a good movement of hemlock.

QUEBEC AND NEW BRUNSWICK.

Lumber market conditions in the eastern provinces are mostly unchanged, although there are indications of strength. Waney pine has been sold in the Quebec market as high as 55 cents for 21 inch average. The other classes of timber are firm, although not in as good demand as pine. Spruce deals are moving moderately, while clapboards are scarce and firm. As high as $32 has been paid for extra quality clapboards delivered at Boston. The cedar shingle market is daily becoming stronger, and several sales of extras are reported at $3 on Boston rate of freight. Clears bring about $2.70 and second clears $2.25. A recent report from Fredericton, N. B., states that there are 26,000,000 feet of logs hung up on the head waters of the St. John river owing to extremely low water. This is about one-fifth of the output of that river.

MANITOBA AND BRITISH COLUMBIA.

The carpenters, strike in Winnipeg is perhaps, the only unfavorable element in the lumber situation of the west. Other conditions favor a large consumption of lumber. Building permits issued in Winnipeg up to August 31st of this year represent an expenditure of $1,300,000, and the total for the year will probably exceed two million dollars. Then there is the abundant harvest to enrich the farmers and make possible the erection of new buildings and improvements. Altogether the outlook for lumber is good, and prices are firm. British Columbia manufacturers report some increase in the demand for shingles for shipment eastward, but the movement of lumber is not very active. A few large orders have lately been placed for railway and bridge timber.

UNITED STATES.

The lumber trade of the United States has been a little quieter during the past week, although prices show no material change. The tendency seems to be towards higher prices for the upper grades of white pine, and a continuation of present prices for the lower qualities. In the Lake Superior district uppers and selects are higher, and in Tonawanda some of the better grades have been marked up two dollars per thousand. The selling price of white pine in the eastern distributing markets has for some time been out of proportion to the prices asked at producing points, and a process

of readjustment is now taking place. There is a marked scarcity of 12 inch boards and long piece stuff. The spruce market continues firm, a report from Boston stating that the list price has been advanced one dollar. It is most difficult to arrive at a definite conclusion regarding the hardwood situation. Indications point to an increased demand, while on the other hand many dealers report a very quiet trade, and basswood, which has been strong all year, has been offered at reduced figures. This has given consumers reason to hope for concessions and consequently they are showing a disposition to keep out of the market as long as possible. Inch maple is inactive, but there is good demand for thicker sizes. White pine shingles are scarce and strong.

GREAT BRITAIN.

The past two weeks has witnessed a falling off in the number of timber cargoes arriving in London, and consequently a more hopeful view is now taken of the timber market of Great Britain. If shipments are curtailed, the market will very soon show signs of recovery. So far as Canadian spruce and pine are concerned, it is significant that they appear to occupy a stronger position than any other class of lumber which is marketed in Great Britain. A quantity of third quality Ottawa pine, 70 per cent. 3x11 and balance narrow, is reportd to have been sold at £11 10s. per standard delivered at Liverpool. Considerable parcels of spruce have also changed hands, and when dealers are enabled to reduce their holdings purchased at the higher level which prevailed in the spring, liberal buying for fall and winter account may be expected. A large line of Quebec spruce battens were sold at a recent sale in London at £6 17s. 6d. per standard for 3x7, and £6 7s. for 3x6. Quebec rock elm boards sold at 9d. per foot and birch planks at 1s., and square elm timber at 60s. to 67s. 6d. per load of 50 cubic feet. Quebec oak is in fair request, and the demand for first-class waney and square pine is good, but second-class is dull of sale. The consumption of wood in London is increasing and is in excess of same time last year.

STOCKS AND PRICES.

W. Caldwell, of Toronto, is announced to have sold within the past fortnight 4,100,000 feet of white pine lumber to W. H. Hogg, of Buffalo.

The Yale-Columbia Lumber Company, of Phœnix, B. C., is supplying about 750,000 feet of lumber for a large tunnel on the new Boundary railway.

A car load of shooks for fruit boxes and berry baskets was shipped last week from New Westminster, B. C., to Adelaide, Australia, by the British Columbia Mfg. Company.

The schooner F. E. Saunders is loading lumber at the Hastings mill, Vancouver, B. C., for a foreign port, and the ship City of Hankow is about to load lumber at Barnet, B. C., for Sydney, Australia.

Messrs. Robinson, Limited, held a sale of wood goods at Dublin, Ireland, on August 15th, at which the following prices were realized: Miramichi spruce, 9 x 3, 10 and 11 ft., £12 15s., per Irish standard; 12 ft., £13 2s. 6d.; 13 ft., £12 15s. to £13 2s. 6d.; 14 ft., £13 5s.; 15 ft., £13 2s. 6d.; 10 ft. to 19 ft., £13 5s.; 20 and 21 ft., £13 7s. 6d. Cape Tormentine spruce, 12 x 3, £12 to £11 5s. 11 x 3, £12 5s.; 8 x 3, £11 17s. 6d.; 7 x 3, £11 12s. 6d.; 5 x 1, £9 2s. 6d. 1st Quebec spruce, 9 to 14 x 3, £14 5s.; 2nd, 11 to 14 x 3, £13 17s. 6d.; 7 x 3, £12; 3rd, 9 x 3, £11 10s.; unsorted, 7 x 3, £11 10s. to £12; 9 x 3, £13. Quebec red pine, 18 ft. 4 x 2, £14 7s. 9d. to £14 15s.; 20 ft. to 24 ft. 4 x 2, £14 10s.; 18 ft. 6 x 2, £15; 12 ft. 9 x 3, £19 18s.

Messrs. Campbell, Meredith & Allan have entered an action in the name of the Collin's Bay Rafting & Forwarding Company to seize and attach in the hands of Messrs. Poupore & Malone, contractors, now doing work in the Montreal harbor, some 1,060 pieces of oak now on board the steamer Saturn or on the wharf, to which the steamer is attached, the whole representing a value of about $13,350. The affidavit of the President of the company plaintiff, which owns the Saturn, sets forth that the timber was shipped at Sandusky, Ohio, consigned to the defendants by Hirk, Christy & Co., of Cleveland, and that on coming to Montreal the ship grounded at Pigeon Island. A tug and lighter had to be secured to release the vessel, and the time lost and repairs needed constituted another source of damage. The plaintiffs claim that the accident is imputable to the cargo, and that they have a lien on the timber.

FIRES.

The saw mill of Thompson & Avery, near Sharbot Lake, Ont., was destroyed by fire on August 29th, at a loss of $4,000.

The saw mill of John Greenlees, at Red Bay, near Wiarton, Ont., was burned recently, together with a quantity of lumber.

THE OTTAWA VALLEY.

[Correspondence of the Canada Lumberman.]

Prices on the local lumber market hold firm, no single line showing a break or tendency to break. The local demand has improved with the passing of the labor troubles. On account of the strikes, however, considerable building planned for the present season has been postponed a year. Culls are now a good feature, as the supply is limited. They are almost entirely in the hands of jobbers, according to a reliable authority.

Opinions differ on the export trade, but the American market from all accounts shows little, if any, improvement. One company has it that the United States buyers are trading from hand to mouth. September, however, promises an improvement, as winter stocks will then begin to receive attention. The British market is dull and according to report overstocked. British exporters, while moving considerable stock from local yards and mills, are holding considerable on the other side.

Quotations show advances in a few lines. Good pine strips have brought from $26 to $32 per thousand. Pine 8 inch shipping culls and better stock finds buyers at $15 to $16. Lath are in demand, No. 1 unchanged at $2.00 to $2.50 and No. 2 advanced to $2.25. Cedar shingles have also reached a higher figure. Clear butts are mentioned at $2.00 to $2.35, and XXX at $2.50 to $2.75. Mill culls are retailing as high as $14.

"Hardwood trade extremely dull," is the situation as described by a local dealer. Buyers are not anxious for business and the mills are holding large stocks. Prices, however, are erratic and what holds good in one sale may not answer in another, although the same stock may be selling. The figure given for basswood is $16 per M., and for mill run ash $17. Maple, birch and elm, which brought $16 a year ago, are running from $10 to $12 now.

Business is brisk at the mills and logs plentiful. Low water in the Gatineau threatened a tie up, but heavy rain has improved the situation.

Over 800 men have gone up to the woods. Some place the figures even higher, and gangs are being hired daily. Wages are even higher than last season, ranging from $20 and board for road-making to $30 and board for axe men.

It is reported that the Bronson & Weston Company will next season erect a saw mill at the Chaudiere, on the site of their old one. They have been out of the business for a couple of years.

When the Duke of York and Cornwall and party arrive in Ottawa they will see lumbering operations in the picturesque

—CORRESPONDENCE SOLICITED—

setting of a quarter of a century back, before work on the limits was modernized. A cabin is to be erected at Rockliffe, near Ottawa, in which no nails or other iron will enter. Bunks and open fire-place will adorn the cabin. At least twenty-five trees will be felled, trimmed and run to the river. The lumbermen will do their own cooking and everything is to be carried out as in the by-gone days. Before visiting the cabin, the Royal party will shoot the slide. The local lumbermen have entered with enthusiasm into the scheme.

Ottawa, August 30, 1901. A. P.

BUSINESS NOTES.

A meeting of the creditors of the Chequasset Lumber Co. was held in New York on August 27th. Representatives of all the banks interested as well as the merchandise creditors were present. The meeting was called at the request of Chas. E. Corkran, president of the Chequasset Lumber Co., who made a proposition to form a new company, of which he was to have control, to take over all the assets and liabilities and continue business. The Chequasset Lumber Co. is a parent organization controlled by fifteen subordinate companies. Mr. Corkran submitted a statement showing that the liabilities of all the concerns amounted to $965,960, and the assets would amount to nearly $500,000.

A committee of three creditors was appointed to examine the books and to report to another meeting, which will be called in about three weeks.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Chatham, N. B.: Schr. Morancy, for New York, 1,106,500 pieces lath, by William Richards Co.

The above is all situated in the village of Chatsworth, and 75 acres hardwood bush a few miles out. Good bargain for right party. Place must be sold, as owner is giving up business. For further particulars apply to
J. TAYLOR, Chatsworth.

CURRENT TRADE CONDITIONS.

ONTARIO.

"The lumber market is steady, and, if anything, inclined to be a little stronger. There is not the slightest indication of weakness, and I look for higher prices this winter." This was the opinion given by a large manufacturer of white pine, and seems to be an expression of the prevailing sentiment in the trade. Considering the quantity of lumber manufactured this season, the stock yet unsold represents but a small percentage, as most of the water mills have made large shipments by vessel to the United States. The opinion of manufacturers on the Georgian Bay regarding the future of the market is very hopefnl, particularly in view of the proposed limited operations in the woods during the coming winter. The manufacturers who have most faith in the market are asking from $14 to $16 for box and common, $12 for 1x10 and 12 mill culls, and corresponding prices for other grades. The higher qualities of pine are held very firm. Owing to a large production of red pine during the past two years, that lumber has declined slightly in price, but it is almost certain that during the coming winter the cut of red pine logs will be small, and in our opinion holders of such stock should make no sacrifice, as all the lumber will find a market at reasonable prices. For No. 1 lath $2.50 is being asked at Georgian Bay mills, and for No. 2 $2, while in the Ottawa valley $2.25 to $2.50 and $1.75 to $2 are the prevailing prices. The scarcity of shingles continues. As much as $2.40 is being asked by some manufacturers for the best grade of pine. The hardwood market is quite featureless, the only noticeable change being some increased buying by the implement and furniture factories. At the mills $13 is asked for inch mill run soft elm, $15 for birch, $13 for maple, and $20 for oak.

QUEBEC AND NEW BRUNSWICK.

The shipments of lumber from the St. Lawrence during the past week have been light. It is hoped that this will continue until the close of navigation, as great precaution on the part of shippers is necessary in order that the British market may not be further depressed. The low freight rates are an inducement to send lumber forward. Quebec spruce deals are quite firm, and shippers on this side are not willing to offer any concessions to buyers. Manufacturers in New Brunswick and Nova Scotia are also showing more confidence, partly owing to the heavy demand from South America and some demand from Australia, France and other countries to which shipments have not usually been large. Clapboards are in better demand for shipment to the United States. Extra cedar shingles are firmly held at $3, but clears are a litte easier at $2.65. It is probable that some of the St. John saw mills will be compelled to close down on account of a scarcity of logs, some of the drives not having arrived.

UNITED STATES.

The past week has been comparatively quiet in lumber circles throughout the United States, shipments showing a falling off on account of a shortage of cars to move the stock. The shipments of white pine so far this season have been very heavy. Up to September 1 there was shipped from Minneapolis 46,000,000 feet more than during the corresponding period of last year. It is reported that fewer buyers are now visiting the Lake Superior district, although several million feet of lumber were sold last week to Chicago and eastern points. At Marinette, Wis., there is practically no pine for sale, but there is considerable hardwoods on the docks unsold. The receipts of lumber at Buffalo and Tonawanda were heavy during August, the former receiving by vessel 63,000,000 feet and the latter 81,000,000 feet. A considerable quantity has yet to come forward from the Upper Lakes. There is a good movement of the higher grades of pine and an improved demand for box lumber, which during the summer months showed

perhaps more weakness than any other grade. It is believed that a strengthening of prices will take place in the immediate future. A ten per cent. advance in the price of sash and doors took place on the 5th instant, this being necessitated by the higher price of factory lumber. Reports from Boston tell of a strong spruce market, an advance of one dollar a thousand above the old price list being the general rule. The larger dimensions of spruce are quite scarce. Hardwoods are still less active than pine. There is a good trade in birch, basswood and oak, but elm in particular lacks activity.

GREAT BRITAIN.

The reports this week from the British timber market are of a more hopeful character. Imports have decreased, while the consumption is quite brisk, and on the whole there is hardening tendency. Of course, the market is still unsettled and the future uncertain, but if the receipts during the fall are not too heavy a recovery in prices seems probable. While recent auction sales have shown no general improvement, the prices realized for Canadian deals showed exceptional strength for this particular class of timber. The spruce market is more active than it has been for many weeks, and it is probable that a shortage of 3x9 second and third quality deals will develop during the winter. For this reason importers have of late shown a disposition to contract for these sizes. The Timber News, referring to the spruce market, says: "Were it not for the low prices of Russian and Scandinavian white, there would be a much more active rise, because the quantity available for shipment is much less than usual, particularly in 3x9 inches. Offers of £6 10s c.i.f. for Lower Port cargoes are being refused by the shippers." For unsorted and lower quality deals the market is still rather weak, as the stock is large. Canadian pine deals are exhibiting strength, and first quality 3x11 brings £28 per standard. There is also a good inquiry for 3x11 fourth quality pine. Plasterers' laths are selling low, 1/4x1 at 8d, and 3/16x1 at 7½d. per bundle. In square timber oak leads in point of demand. Waney pine is in heavy stock at West Hartlepool, and seems to be a drug upon the market. Other classes of timber are firm.

STOCKS AND PRICES.

The steamer Pinemore is loading lumber at the Louise Basin, Quebec, for the United Kingdom.

In the Saginaw valley No. 1 pine lath is quoted at $3.50 and No. 2 at $3.00. Hemlock lath brings $3.00.

The Saginaw Lumber & Salt Company received their first consignment of logs at Sandwich, Ont., last week. There were two rafts, containing 3,500,000 feet.

There is a somewhat firmer feeling in the cooperage trade. At Buffalo elm flour barrel staves are quoted at $7.50 to $7.75 and first-class basswood heading at 5½ and 5¾ cents.

James Oaks, of Presque Isle, Me., will cut 3,000,000 feet of spruce logs the coming winter on Three Brooks stream, in New Brunswick, to be rafted to St. John.

A representative of the Rat Portage Lumber Company states that 76,000,000 feet of logs will have arrived at the mills of the Rat Portage Lumber Company at the close of the season.

At the Crown Lands office, Fredericton, N. B., last week 2¾ square miles of timber lands on the Lower Trout Brook, Magaguadavic river, were sold to F. H. Todd & Sons, at $300 per square mile.

J. A. Gregory, manager for Dunn Bros. at St. John, N.B., has purchased the right to cut logs on the property at Point Le-Preaux, a few miles down the shore from St. John, on which Alexander Gibson began his lumber career. It is said that Mr. Gregory will erect a mill.

An important transaction in timber lands has lately taken place, by which Messrs. Wiliam Power, of Quebec, and Hiram Calvin, of Kingston, became the owners of 500 miles of virgin forest lands on the Metabetchoua river, in the province of Quebec. The consideration is not given.

During the month of August the price of red cedar shingles in Washington steadily declined, the drop being about 40 cents per thousand. The cause in part is said to be an overproduction; consequently a meeting of the shingle manufacturers was called to consider the situation. At this meeting it was decided to close down the mills until prices could be maintained on the basis of $1.80 for clears.

Messrs. Clairmonte, Mann & Co. review the Barbadoes lumber market as follows: There is still a good enquiry for white pine lumber, but the demand for spruce is not so good, our crop season being over. There have been no arrivals with lumber dnring the fortnight. Latest sales for local use are:—White pine, $24 for merchantable and $17.50 for second quality; spruce, last sales $17.26 for merchantable and $13.26 for second quality, and $13 for scantling. Gaspe long cedar shingles are enquired for; last sales at $3.40 to $3.70 per M, now worth more. Cedar laying, in over supply, last sale $1.75. Spruce laying, last sale $1.55.

FIRES.

The stave and hoop mill of Steinhoff & Gordon at Wallaceburg, Ont., was almost totally destroyed by fire last week, at a loss of $8,000.

Fire on September 3rd completely destroyed the saw mill of the Armstrong Thilman Company at Hancock, Mich. The loss is placed at $100,000.

The sash and door factory of J. H. Giguere in Quebec, Que., was partially destroyed by fire recently.

TIMBER LIMIT PURCHASE.

The M. Brennan & Sons Mfg. Company, of Hamilton, are reported to have purchased from the Victoria Harbor Lumber Company, three timber berths in the townships of McCraney and Finlayson, districts of Muskoka and Nipissing. They are virgin berths and the timber will be manufactured at the Huntsville mill of Brennan & Sons. The purchase price, it is said, was in excess of $200,000. The purchasers will take out during the coming winter a large quantity of saw logs and waney timber.

PULP WOOD WANTED.

The Department of Trade and Commerce, Ottawa, is in receipt of an enquiry from an American firm who desire to purchase 500,000 cords of Canadian spruce pulpwood, to be delivered 25,000 cords per year for a period of twenty years. The pulp is to be shipped to Erie, Penn. The price offered is $3.00 per cord free of duty at a lake port.

TIMBER STATEMENT.

Following is a comparative statement for three years of the timber, etc., measured and culled at the port of Quebec up to Sept. 3rd, as reported by the Supervisor of Cullers:

	Cu. ft. 1899	Cu. ft. 1900	Cu. ft, 1901
W'n'y w'te pine	1,747,098	1,366,183	324,723

THE GLASGOW MARKET.

Messrs. Allison, Cousland & Co., in their last monthly timber market report, say :

There has been little improvement in business during the past month. Imports have been heavy, and in some items have been much overdone. Good pine, however, is scarce and should sell well, but the standard of quality generally is not improving, and consequently prices are very unsettled. Shipbuilding continues brisk, but other industries are not too well employed.

YELLOW PINE—Waney—The import has been light and mostly on contract. Prices rule firm. 19 to 20 inch average is quoted at 3s to 3s 4d per cubic ft. Inferior wood is scarce and good prices are obtained. Square.—There has been a fair demand and prices are good. 1st class, 35 to 40 feet, is quoted at 2s 7d to 2s 9d, G. F. A. wood, 20d to 22d per cu. ft.

RED PINE—The stock is ample and little business has been done.

ELM—Business has been brisk and prices keep firm. Quotations—2s 10d to 3s 1d for 45 to 50 feet average. Inferior wood is quoted at 2s to 2s 4d per cu. ft.

OAK—Stocks are small and there has been a good demand. Prices are very firm.

BIRCH—Imports during the month have been light but stocks are heavy and there is little demand. Quotations.—17d to 18d wood.

ASH.—Of good size is in fair demand, but small wood is difficult to dispose of except at low figures.

PINE.—Imports have been heavy, and the bulk of goods landed has had to be stored. The general quality has been very poor. FIRSTS.—Broad are quoted at £24 15s. to £28 17s. 6d. Undersized, £19 18s. 9d. to £21 6s. 3d. Sidings, £17 17s. 6s. to £19 18s. 9d. Boards and strips, £12 7s. 6d. to £16 10s. per St. Pet. Std. SECONDS.—Are in little request and stocks are increasing. QUOTATIONS.—Regulars and Broad, £16 10s. to £18 11s. 3d. Undersized, £13 1s. 3d. to £15 2s. 6d. THIRDS—Are in moderate demand. Regulars are quoted at £11 13s. 9d. to £13 1s. 3d. FOURTHS.—Stocks are small, but sales are limited. Regulars are quoted at £9 12s. 6d. to £10 6s. 3d. Undersized, £8 5s. per St. Pet. Std.

RED PINE—The market is glutted and prices are exceedingly low. QUOTATIONS. —£7 4s. 4d. to £10 6s. 3d., according to specification.

SPRUCE—Is in fair request at £6 10s. 7d. to £8 5s. per St. Pet. Std.

N. B. BIRCH.—Stocks are heavy, and ample for present requirements. Prices are little altered from last quotations.

N. B. SPRUCE.—Stocks are heavy in many sizes, but a large amount of business is being done and prices are considered to be about the bottom. Quotations.—£6 3s. 9d. to £8 18s. 9d. per St. Pet. Std. for 2nd Quality average.

N. B. DEALS, BATTENS AND BOARDS.—There is a fair demand but prices are weaker, stocks are moderate. Quotations.—£6 17s. 6d. to £9 5s. 7d. per St Ptd. Std.

Saw mill, buildings and plant situated at Sturgeon Bay, on the Midland branch of the Grand Trunk Railway.

For further particulars, maps, terms, etc., apply to Tanner Bros., Waubaushene, or to
PETER RYAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

It is very encouraging to find that there are no indications of weakness in the lumber market as the weeks pass by. Most of the mills will continue sawing for another month or six weeks, and with the production perhaps a little heavier than usual, it would not be surprising if a downward tendency of prices were noticeable. However, the reverse is the case, and the mills are certain to close down with the market almost as strong as it has been at any period this year. The stock of unsold lumber will be unusally light, as most grades of pine have been sold close up to the saws. It is predicted that there will be a shortage in pine stocks to supply the winter and early spring trade, and that the result will be a general advance in prices. It is estimated that in the Ottawa valley the stock of pine lumber is little more than half what it was at the corresponding time last year. The usual scarcity of cars for the movement of lumber has developed this fall. To analyze the market, it can be said that the greatest strength pertains to the high grades and stock boards, of which the supply is very light. Prices of these grades are particularly firm. The lower qualities are not active, although during the past week there has been a heavier movement of cheap building lumber and a better demand for box stuff. Manufacturers should as far as possible study the demands of the market and endeavor to curtail the production of the lower grades next season. Hardwood prices are irregular, and in the absence of the expected improvement in demand lower prices are being quoted by a few manufacturers who are anxious to realize. Increased buying by consuming industries is reported, but very little export trade is doing. Lath and shingles continue scarce. It is understood that on the Georgian Bay there is very little No. 2 lath on the market, and that prices of this grade are stiffening.

QUEBEC AND NEW BRUNSWICK.

Nothwithstanding the depression in the British market, the outlook for spruce is becoming brighter. No doubt a considerable quantity of spruce deals will be carried over on this side until next spring, but of specifications cut for other markets the quantity is unusually small. Liberal shipments have been made to France, Australia, South America, and the West Indies, and buyers of these stocks report that the mills are well cleaned out. It is probable that some of the large mills at St. John and Fredericton will be compelled to close down early in October on account of a scarcity of logs, about 38,000,000 feet being hung up on the St. John river and its tributaries. Cedar shingles are selling quite freely at $3, on Boston rate of freight, and some manufacturers are asking even higher prices. Clears are quoted at $2.70 and second clears at $2.25. Laths are strong at $3 for 1⅝ inch and $2.85 for 1½ inch.

UNITED STATES.

White pine is this year the barometer of the United States lumber market, and the degree of strength which that lumber is showing is little less than astonishing. The cutting season will be over in a few weeks, and from present indications the mills will close down with an unusually small stock of unsold lumber on hand to supply the demands of the winter and early spring. In some instances substitutes have been used for white pine, so that there has been a strengthening effect through the entire market. Within the past fortnight advances in price have been made at Ashland, Wis. Six-inch strips have been marked up to $16, Norway to $11, short and wide stuff to $14, while 12-inch boards have been at a premium all summer. Saginaw dealers complain of difficulty in securing the assortments of white pine. A most hopeful report comes from Buffalo and Tonawanda. Dealers in these places are rushed with orders, the higher grades of pine being the strongest, with a good call for the middle grades. A further stiffening in the price of eastern spruce is reported from New York, and at Boston and Bangor the position of manufacturers is said to be growing stronger, 10 and 12 inch dimensions selling at $19 to $20, the highest, except in the fall of 1899, that has been quoted in twenty years. The cloud hanging over the hardwood market has not yet passed away. A slight improvement in the demand is noted in some districts, while as an offset to this it is stated that to effect sales low figures must be given to meet the competition of the weak holder. Birch and maple are showing more strength.

GREAT BRITAIN.

The past week has developed two factors in the British timber market—one unfavorable, the other favorable. Summing up the situation, the tone is a little more cheerful. The unfavorable aspect is that Norwegian and Swedish shippers are showing much anxiety to close contracts, and have offered to accept even lower prices than have been recorded this season. The low freight rates are an inducement to move the timber before the close of navigation. The hopeful outlook is found in the reduced quantity of deals and battens in the public docks on August 31st as compared with one month earlier. At the Surrey Commercial Docks, London, the stock of Baltic deals on August 31st was 1,701,654 pieces, as compared with 1,772,252 pieces on July 31st. Pine deals were represented by 680,000 pieces and spruce deals by 650,-

000 pieces, as against 635,000 pieces and 421,000 pieces respectively on July 31st. The stock of battens represents almost the same proportion, which, in view of the import during the month, shows that the consumption has been quite heavy. Reference to the statistics for the port of Liverpool show that during the month of August the consumption of fifteen of the leading classes of timber exceeded the imports, or in other words, the importation of heavy timber amounted to 642,000 cubic feet, whilst the consumption was 1,185,000 cubic feet. In Quebec square and waney pine, and birch logs and planks, the demand exceeded the import. The quantity of spruce was reduced during the month by 5,150 standards. Pine deals have been imported moderately, but the consumption has been equally small. Reports speak very hopefully of the market for Canadian lumber. Referring to a recent sale the Timber Trades Journal says: "Canadian goods, if we except the common kinds of red pine that this year figure prominently in the stock, seem to make the best prices, though pine is much more plentiful in stock now than it was a year ago, but this applies to almost every class of wood." Of spruce the same journal says: "For some time past we have drawn special attention to the position of the spruce market, the limited quantity abroad for shipment and the increased demand for cargoes round the coast. The import into Liverpool during August was 13,800 standards, just one-half of what it was last year, and with a good demand existing the consumption for the month is put down at 18,950 standards, which has pulled the stock down to 15,760 standards; in 1900 it stood at 28,594 standards and in 1899 at 22,252 standards. The position of spruce is thus made plain for the advance in prices to which we have from time to time referred."

STOCKS AND PRICES.

The head line steamer Teelin Head is loading a cargo of timber and deals at Quebec for Portsmouth, Eng.

R. A. Estey is loading scows at Fredericton, N. B., with spruce deals for shipment to Australia. They will be transferred to a steamer at St. John.

George Moffatt & Co. have just loaded three vessels with lumber at Dalhousie, N. B., for Belfast, Ireland, the combined cargoes totalling about 2,300,00 feet.

Chicago quotations for lath are given as follows: No. 1 white pine, $2.25; No. 1 mixed, $2.75; No. 2 mixed, $3.25. In the Saginaw valley quotations are: No. 1, $3.50; No. 2, $3; hemlock, $3.

Three million feet of logs in charge of D. Cresswell and 4 000,000 feet in charge of D. Little came over the Fort Frances Falls last week for the Rat Portage Lumber Company. There is yet 14,000,000 feet to come to the mill.

M. M. Tingley, of Hopewell Hill, and Freeman Goodwin, of Moncton, N B., have purchased the timber on the Johnson property near Bathurst. There is said to be 6,000,000 feet and it is proposed to take out 2,000,000 feet during the coming winter.

A two-mile berth on Little River, Sunbury county, N. B., was sold at the Crown Lands office, Fredericton, last week to Howard Holland, at $8 per mile. Two berths in Queen's county, each two square miles, were sold to H. B. Hetherington, at the upset price of $8 per mile.

At an auction sale held by Hodson, Mabbs & Co., London, Eng., on September 3rd, third Quebec spruce sold at £5 10s and £8 10s for regulars. Plasterer's laths brought 8½d, an advauce of 2d over the prices which ruled at previous sales. On the following day a sale was held by Foy, Morgan & Company, when some poor quality spruce sold at £5 7s 6d for 3x9.

Under date of August 31st Messrs. S. P. Musson, Son & Co., say of the Barbadoes market: "There have been no arrivals to note during the fortnight. A small cargo of 70,000 feet white pine boards, 20,000 feet plank, and 6,000 feet spruce boards was put in the market, but has not been sold. A small cargo of about 100,000 feet, half each shipping and seconds, could doubtless be placed at about $24 and $18. Spruce is not inquired for yet and will not be much wanted before November. Long Gaspe and dimension shingles are wanted and should command fair rates. Laying cedar are saleable at about $1.80 to $2. There have been some sales of New York shooks for future delivery at $1.45."

A correspondent at West Hartlepool, Eng., writes: "The demand for Quebec pine deals is very quiet just now. There is a fair stock of 1st and 3rd in the port, but 2nd are rather scarce. Round birch does not find a ready sale at the present time. A fair stock is held here, but enquiries are rare." A Gloucester correspondent says: "Spruce is decidedly better, and although there are still some few sellers who do not appear to have realized the fact that the supply to come forward from the other side is far below the average of normal seasons, their number is diminishing, and buyers generally are realising in a substantial manner the very much improved values, particularly in the case of 3x9 in., whilst 3x11 in. and 7x2½ in., consequent upon the small percentages of those sizes now being shipped, are bound to shortly respond to even yet a greater advancement."

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Parrsboro N.S.: Str. Hong Kaakon, for Cardiff, 1,645,590 ft. deals, scantling and ends, by M. L. Tucker and W. M. Mackay.

From Vancouver, B.C.: Tug Bermuda, for United States, boom of fir logs, value $1,318, by W. R. Jones.

From Halifax, N.S.: Schr. Regina B., for St. Pierre, 60,000 ft. lumber, value $540; Barque Trento, for Barcelona, Spain, 804,413 ft. lumber, value $9,648.

From Chatham, N.B.: Schr. Alma, for New York, 834,000 laths, by E. Hutchison. Sch. Sementha, for Liverpool, 2,930,275 ft. deals, etc., by F. E. Neale. Barque Bergshen, for Sharpness, Eng., 829,075 ft. deals, etc., by Fred Dyke. Str. Nether Holme, for Liverpool, 2,152,000 ft. deals, etc., 61 tons timber, by J. B. Snowball Co.; 378,000 ft. deals, etc., by E. Hutchison. Str. M. C. Holm, for Dublin, 2,237,980 ft. deals, etc., by Fred Dyke. Barque Belfast, for Belfast, 776,000 ft. deals, etc., by J. B. Snowball Co. Schr. Arona, for Washington, 3,321,000 laths, by George Watt. Barque Innermick, for Marseilles, 962,000 ft. lumber, by J. B. Snowball Co.

From St. John, N.B.: Str. Loyalist, for London, 40,025 ft. deals, by W. M. Mackay; 160 pcs. birch timber, by J. Wilson; 608,171 ft. deals, by William

GOVERNMENT TIMBER SALE.

The most important sale of Ontario timber limits since the large sale of 1892 took place in the Parliament Buildings, Toronto, in the afternoon of Tuesday, 17th inst. There was an unusually large attendance of lumbermen from Canada and the United States, although most o the limits were purchased by Canadians. About fifteen townships were placed under the hammer by the well known timber limit auctioneer, Mr. Peter Ryan. The bidding was quite brisk, resulting in the sale at good prices of all the limits offered excepting three forfeited berths in the townships of Digby, Sherbourne and Lutterworth, which were withdrawn, the reserve bid not being reached. The total sum realized by the sale was $733,312.50. Following is the result in detail :

Township of Graham. — Area 19¼ square miles, R. A. Grant, Toronto, purchaser, $700 per mile, total $13,475.

Township of Cartier.—Area 33¼ square miles, B. B. Bahnsen, Pembroke, $725 per mile, total $24,106.25.

Township of Levack.—Area 37 square miles, James Playfair, Midland, $4,300 per mile, total $159,100.

Township of Hart. — Area 33 square miles, Brennan & Sons, Hamilton, $300 per mile, total $9,900.

Township of Jarvis.—Berth No. 1, area 11¾ square miles, C. Beck, Penetanguishene, $2,200 per mile, total $25,850 ; Berth No. 2, area 11¼ square miles, $1,125 per mile, John Collins, Sault Ste. Marie, total $12.656.25.

Township of Anderson.—Berth No. 1, area 12¼ square miles, Dr. P. H. Spohn, Penetanguishene, $2,100 per mile, total $25,725 ; Berth No. 2, area 13½ square miles, Dr. Spohn, $2,600 per mile, total $35,100.

Township of Chesley. — Berth No. 1, area 15½ sq. miles, N. Dyment, Barrie, $4,700 per mile, total $72,850 ; Berth No. 2, area 13 square miles, N. Dyment, Barrie, $2,800 per mile, total $36,400.

Township of Whitman.—Berth No. 1, 8¼ square miles, J. W. Munro, Pembroke, $3,200 per mile, total $26,400 ; Berth No. 2, area 8¾ square miles, J. W. Munro, Pembroke, $3,000 per mile, total $26,250 ; Berth No. 3, area 8½ square miles, J. W. Munro, Pembroke, $3,100 per mile, total $26,350 ; Berth No. 4, area 8¼ square miles, J. W. Munro, Pembroke, $3,400 per mile, total $28,050.

Township of Curtis.—Berth No. 1, area 9 square miles, C. Beck, Penetanguishene, $3,000 per mile, total $27,000 ; Berth No. 2, area 9 square miles, C. Beck, $2,300 per mile, total $20,700 ; Berth No. 3, area 9¼ square miles, C. Beck, $1,000 per mile, total $9,250 ; Berth No. 4, area 9¼ square miles, C. Beck, $1,200 per mile, total $11,100.

Township of Gillmor.—Berth No. 1, area 9 square miles, J. S. Gage, Vineland, N. J. $2,200 per mile, total $19,800 ; Berth No. 2, area 9 square miles, A. Barnet, Renfrew, $2,000 per mile, total $18,000 Berth No. 3, area 9¼ square miles, A. Barnet, $2,400 per mile, total $22,200 ; Berth No. 4, area 9 square miles, A. Barnet, $2,700 per mile, total $24,300.

Township of Rutherford.—Area 8¼ sq. miles, P. McDermott, South River, $600 per mile, total $4,950.

District of Thunder Bay.—Block A, area 26 square miles, Alger, Smith & Co., $300 per mile, total $7,800 ; Block B, area 12½ square miles, C. Beck, Penetanguishene, $800 per mile, total $10,000 ; Block C, area 33 square miles, Dr. Spohn, Penetanguishene, $375 per mile, total 12,375 ; Block D, area 13½ square miles, J. E. Murphy, Hepworth, $1,750 per mile, total $23,625.

STOCKS OF TIMBER.

Below is shown a comparison of the stocks of Canadian deals, etc., at the Surrey Commercial Docks, London, Eng., on August 31st for two years :

	1900.	1901.
Pine deals and battens....	794,000 pcs.	1,344,000 pcs.
Spruce deals and battens	1,144,000 pcs.	1,508,000 pcs.
Oak timber..	2,233 loads	1,721 loads
Birch timber and planks.... ..	3,388 "	4,810 "
Elm and ash timber	3,020 "	2,217 "
White pine timber	828 "	1,357 "
Red pine timber	235 "	113 "

The figures for the port of Liverpool are as follows :

	1900.	1901.
Quebec pine deals	7,835 stds.	12,870 stds.
Quebec spruce...	1,019 "	670 "

VIRGIN TIMBER BERTHS

North Shore Lake Huron

AT THE ROTUNDA, BOARD OF TRADE, TORONTO, ON

Wednesday, December 18th, 1901,
at 2 p. m.

The undersigned has been instructed to offer for sale by public auction, at the above time and place (subject to the terms and conditions which will be produced at the time of sale), the following

VALUABLE TIMBER LIMITS IN SINGLE BERTHS

known as Berths "A," "B," "C" and "D," being 33, 13½, 17½ and 28¾ square miles respectively, on the north shore of Lake Huron, being Berth No. 10 of sale of 1885.

The above berths are amongst the best in the Province, very convenient for operating and getting in supplies. The timber is sound, and will be found to contain a large quantity of Long Timber suitable for Special Trade.

For Terms, Maps and other particulars apply to
PETER RYAN,
Toronto.

AUCTION SALE

Timber Berths

NORTH SHORE OF LAKE HURON

Modern Sawmill, Etc.

The undersigned has been instructed to offer by public auction, in the Rotunda of the

BOARD OF TRADE, TORONTO,

AT 2 P.M. ON

FRIDAY, NOV. 15TH, 1901

the following properties:

25,000 feet 1½ inch Maple, 1st and 2nds.
All good, bright stock.
S. B. WILSON & SON, Louise, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Favorable conditions characterize the white pine lumber trade of Ontario. Buying is being conducted with a little more conservatism than earlier in the season, but it is evident by the volume of orders that the stocks of retail dealers are in need of replenishment. The best grades continue to lead in point of strength, and some manufacturers are pursuing a marking-up process in respect to the prices of such of these grades as are unsold. The poorer qualities of pine are a shade weaker. In the Ottawa valley attention is now turning to the prospective purchases of next season's production of deals. The opinion is freely expressed that no reduction from the prices of the past season will be accepted by manufacturers. It is pointed out that very light stocks are being carried in mill yards. A Georgian Bay manufacturer one week ago announced that over 80 per cent. of his season's production had been contracted for. The supply of lath does not seem to increase. It is very scarce on the Georgian Bay, and as a result several car-loads were brought to Toronto last week from Ottawa. No. 2 is particularly strong and brings within 25 cents as much as No. 1. The demand for hemlock has fallen off slightly. The current quotation f. o. b. cars Toronto is $12, with a higher price for long lengths. Hardwoods are beginning to evince signs of improvement, although a noticeable feature of the trade this fall is the call for small lots, apparently showing that buyers are not afraid of higher prices. In maple and birch stocks are comparatively heavy.

QUEBEC AND NEW BRUNSWICK.

The statement of lumber exports from the port of Montreal shows that a policy of contraction is being pursued by shippers. The exports between now and the close of navigation are likely to be light, although the low freight rates offer exceptional opportunities for getting the lumber across the Atlantic at low cost. The timber market at Quebec is unchanged. The quantity of white and red pine timber measured by the Supervisor of Cullers is about the same as last year. Birch and maple show a decrease, while elm and ash are about one-third greater. Manufacturers are taking a much more hopeful view regarding the outlook for spruce deals. As the season draws to a close, it is found that the quantity to be carried over until next spring is smaller than was anticipated. In Nova Scotia, for instance, there will be practically no spruce deals carried over, as the South American and West Indian markets have provided an outlet for a large percentage of the production. Cuban cargoes are selling at $12.50, and South American cargoes at $12 to $12.50. French specifications represent the only class of lumber that has not begun to improve.

MANITOBA AND BRITISH COLUMBIA.

The anticipations of dealers in respect to the volume of fall trade have so far not been realized. The demand is more backward than was expected, due partly to the continuation of the carpenters' strike. Shiplap and granary boards are moving freely, but dimension and common boards, of which manufacturers hold a comparatively heavy stock, are slow of sale. The last revision of the price list of British Columbia lumber, for delivery in Manitoba, made a reduction of $2 on No. 1 edge grain flooring and 2 x 4 and 2 x 6 dimension up to 32 ft. long, a reduction of $1 on 2 x 14 up to 14 x 14 dimension, and of $1.50 on 2 x 8, 2 x 10, 3 x 4 and 3 x 6 up to 32 ft. long. The range of dimensions is now from $18 to $22. No. 1 clear siding was advanced $2.50 to $32.50, and No. 3 ceiling 50c. to $23.50. While trade is a little quiet at present, manufacturers and dealers regard the outlook as bright. The British Columbia mills are fairly busy. Foreign shipments have been quite heavy, as up to the end of August of this year forty-eight vessels have sailed with lumber cargoes for foreign destinations. More lumber has been shipped to Great Britain than last year. It is rumored that a syndicate, headed by Mr. J. J. Hill, is negotiating for the purchase of all the saw mills in British Columbia. The report, however, is not generally believed.

UNITED STATES.

The week under review covers one day when business was entirely suspended out of respect to the obsequies of the late

President. The business of the other five days has lacked the usual activity, as the calamity which has befallen upon the nation has had a depressing effect in commercial circles generally. The anouncement of the new President as to his policy has removed many misgivings in that particular, and no doubt business will now resume its usual course. Lumber transactions of the week have been few, but the market continues firm. The settlement of the gigantic steel strike will doubtless stimulate business operations and assist to an active demand for lumber throughout the fall. It is reported that already the call for building lumber from dealers for stock purposes is becoming heavier. While prices generally have not changed, some shading of quotations for low grade inch pine is reported, due to an accumulation of that grade at northern producing points. Prices of No. 3 and No. 4 boards have also shown slight recessions, although at Ashland, Wis, $25 was las week refused for No. 3 boards and better. Buffalo dealers have discussed the question of making an advance of $1 per thousand on the higher grades, but it is feared that such a step might result in curtailing the volume of orders. Spruce lumber is bringing high prices in Boston for quick delivery, and in New York prices were last week advanced $1. Though some of the mills are sawing to their full capacity, they are unable to keep up with orders. Buying from hand-to-mouth is still the report given by the hardwood trade. Implement, furniture and other factories are using large quantities of hardwoods, but they have drawn largely upon the heavy stocks which they put in last spring. Our Buffalo list shows that maple and black ash are weaker. There is a good demand for elm and white birch. Prices of shingles and laths are firm. The shingle manufacturers of Washington are again putting their mills in operation, prices having stiffened sufficiendy to warrant this action.

GREAT BRITAIN.

Buyers in Great Britain are having tempting offers placed before them by the shippers of Norway and Sweden. These offers are frequently refused, which demonstrates that no immediate recovery in the price of Baltic woods is expected. Turning to Canadian timber we find a contrast which is most encouraging. Very little stock is being offered, and the past month has shown a marked decline in the imports of Canadian pine and spruce deals. The fear is expressed that a shortage in some sizes will develop before the first cargoes arrive next spring. At late auction sales spruce has shown much strength, selling at £14 15s for 1 x 7 to 12 inch. The pine did equally well considering the quality of the stock. Commercial conditions throughout Great Britain are improving, money is more plentiful, and building operations are improving ; the low cost of material being an inducement to carry out building projects. Altogether, it would seem that low water mark in respect to Canadian timber prices has been reached, and that there will be a fall and winter of returning confidence, followed by an active trade next year.

In the London market 3 x 9 and 3 x 11 spruce deals bring almost the same prices. The Irish market still calls for 3 x 9 inch, mostly 12 feet. A fairly large stock of 3 x 7 and 3 x 8 inch thirds and fourths and 2½ x 7 inch is on the market. Birch planks are showing an improvement, and are being offered in very limited quantities.

STOCKS AND PRICES.

J. P. Mosher, of St. Martins, N. B., expects to cut 6,000,000 feet of logs during the next season.

Less than 1,000,000 feet of logs were hung up on the St. John River in New Brunswick this season.

The Sawyer Goodman Company, of Marinette, Wis., last week sold 300,000 feet of birch lumber to eastern parties.

Messrs. Knight, of Musquash, N.B., are reported to have purchased about 20,000 acres of timber lands on the New River in New Brunswick.

B. Lequime & Company, of Midway, B. C., have secured a contract to supply the Granby Smelter and Granby Mine with lumber for the next five years.

D. Fraser & Sons are loading their tenth cargo with deals at Riviere du Loup, Que., for the British market, while two more steamers are under charter. Their trans-Atlantic shipments for the season will aggregate 28,000,000 feet.

The steamer Rufus E. Wood is loading lumber at Chemainus, B.C., for Adelaide, Aus. The market for lumber in Australia is improving. The owners of Rufus E. Wood will receive 42s 6d, or a little over $10.60 per thousand feet, as freight charges.

Four timber berths were sold by the New Brunswick Government last week, as follows : Brisley Creek, western side of Nerepis road, two miles, to David Morrow, at $8 per mile ; East of Nerepis road, at Mountain Brook, two miles, to T. B. Winslow, at $36 a mile ; Western side Madawaska Kiver, at Quebec boundary line, to James Lynch, at $8.50 per mile ; Head of Alward's Brook, Canaan River, two miles, to John E. Moore, at $151 a mile.

Michigan firms who operate in the Georgian Bay district are getting into the woods and expect to put in full stocks. The Saginaw Lumber and Salt Company will bank about 35,000,000, feet a portion of which will probably be manufactured on the Georgian Bay and the balance in their new mill at Sandwich. McArthur & Company, who are operating at Little Current, will put in 30,000,000 feet, Eddy Bros. 25,000,000 feet at Blind River, and the Michigan Lumber Company a full stock at the same place. Edmund Hall will bank about 25,000,000 feet for his Sarnia mill, the William Peter estate, of Parry Sound, will take out a large stock, and the Moulthrop Lumber Company, which operates a mill at John's Island, will secure a full stock. The Spanish River Lumber Company will cut about 20,000,000 feet of logs for the mills at Spanish River, and the plant of the Holland & Graves Lumber Company at Bying Inlet will be stocked to the extent of about 40,000,000 feet.

The Sutherland, Innes Co., of Chatham Ont., thus refer to the cooperage market "Apple barrel stock is moving very slowly

FOR SALE.

—CORRESPONDENCE SOLICITED—

indeed. There has been very little or nothing doing until the last two weeks in apple barrel stock, and while the appearances are there are more apples than people are figuring on, we do not look for any large rush for apple barrel stock. With regard to flour barrel stock, prices are good, and are on the upward tendency. There is not going to be more than enough flour barrel stock to go around ; in fact, this applies to all grades of No. 1 stock. Hoops are plentiful and cheap, but the best grade of hoops are stiffening in price ; the cheaper grade of hoops are plentiful and very low in price. No. 1 heading is scarce, mill-run and No. 2 heading plentiful ; the consequence is, that mannfacturers can obtain strictly their own price for No. 1 heading, whereas they have to accept the buyer's prices for mill-run and No. 2 heading. The outlook is much more favorable than it was a few months ago, and the prospects are, there is going to be a very good trade this fall.

BRITISH TIMBER SALE.

The following prices were realized for Canadian deals, etc., at an auction sale held by Churchill & Sim, London, Eng., on September 12th :

PINE—Ex. Forest Holme, from Quebec —14-15 ft., 2 x 7 in., unassorted red, £7 5s ; 11-16 ft., 2 x 6, £6 5s. Ex. CURRENT TRADE CONDITIONS.

ONTARIO.

The movement of white pine lumber during the month of September was of a satisfactory volume, and judging from the present demand there will be an equally good trade during October. The market cannot be called buoyant, although there is a steady call for nearly every grade of pine. That farmers are making improvements to buildings is evidenced by the report from retail dealers of a heavier sale of low grade stock. While stocks at the mills are comparatively light, the supply of the low grades is the heaviest. There is a scarcity of 12-inch boards and the best qualities of pine generally, and the opinion is frequently expressed that next year all grades of white pine above box will be advanced in price. A factor which will assist to this end is the high price that is being paid for labor, both at the mills and in the woods. Representative shippers to the British market are understood to have been negotiating with some manufacturers for the purchase of next season's cut, and it is probable that sales will take place on about the same basis as this year. Hemlock is a trifle weaker.

Reports from Western Ontario state that the hardwood market is improving from week to week, and that the demand is now quite active. It is believed that the worst has been passed and that there will be liberal buying during the next two months by dealers and consumers. A few manufacturers still report a dull trade, but the consensus of reports is that an improvement has set in. The production of logs during the coming winter is likely to be quite limited, and we would not be surprised if higher prices for hardwoods would be witnessed after the turn of the year, if not before.

QUEBEC AND NEW BRUNSWICK.

Reports regarding the spruce lumber market are of a favorable character. Manufacturers regard the outlook for next season as very hopeful, and expect that there will be a substantial advance in prices. In Montreal, while the consumption of all grades of lumber is quiet, common grades remain firm, and for the better grades an advance is being obtained by retailers. Thick good pine sidings are in good demand and scarce. For spruce and cedar shingles there is a fair demand. In the eastern provinces cedar shingles are very strong, $3 being the ruling quotation for extras on Boston rate of freight. Clapboards are also strong and in very light supply. Laths are well sustained at the recent advance, selling for Boston delivery at $3 for 1⅝ inch, and at $2.80 to $2.85 for 1½ inch.

MANITOBA AND BRITISH COLUMBIA.

The strike of Winnipeg carpenters which was instituted on August 8th has been declared off, the men returning to work upon the same terms as existed previous to the strike. Consequently, building operations are expected to be quite active this fall, but as the carpenters announce that they will make the same demand upon the employers next January, no doubt an indisposition will be shown by speculators to undertake large building projects. Within the past week there has been heavy buying of common boards, dimensions and shiplap, and as soon as threshing is finished low grade boards will commence to move freely. Wheat is yielding from 20 to 35 bushels per acre, and at an average price of 56 cents per bushel farmers should be enabled to make needed improvements. Shipments from British Columbia have been fairly heavy, particularly to Manitoba and the Territories, one mill reporting an increase of 15 per cent. over those of last year. It is probable that there will be an early advance in the price of British Columbia lumber. While export business has been good, present prices leave a small margin of profit.

UNITED STATES.

The statement issued by the secretary of the Mississippi Valley Lumbermen'

Association shows that the shipments of pine lumber by rail within the territory of the Mississippi Valleys and the Wisconsin Valley Associations, from January 1 to August 31, 1901, were 1,428,105,756 feet, as compared with 1,313,219,479 feet for the first eight months of last year. This is an increase of 24 per cent., and proves that the season has been an exceptionally good one for the manufacturer of white pine. The sawing season is drawing to a close with mills carrying a comparatively light stock. At Ashland, Wis., the market is very active, and stocks are being sold as fast as they can be produced. A short supply of No. 1 fencing and dimension is reported. Saginaw valley manufacturers are expected to go into the winter with the smallest stocks of unsold lumber in thirty years. Log run there is quoted at $18 to $24, box at $14 to $15, and mill culls at $12. While the demand is mostly for cutting-up stocks, there is no lack of call for the cheaper grades. A Buffalo dealer has just sold 500,000 feet of box. Stocks of spruce are getting scarce, and a stiffening in price is to be noted. Boston prices are $19 to $20 for 10 and 12 inch dimension ; $18 to $19 for 9 inch and under ; and $17.50 to $19 for 10 and 12 inch random lengths 10 feet and up.

Conditions are favorable to a further improvement in hardwoods, although opinions differ as to whether this will be realized. Advices from mill districts are to the effect that stocks are not heavy and that the output is small. In New York city hardwoods are said to be in splendid shape, all things considered, and in Buffalo there is an excellent demand for maple flooring, and maple and birch lumber is becoming more active. Hemlock is steady, prices ranging from $7 to $11.50 in the Saginaw valley. Shingles are showing further strength. A Michigan firm state that they have manufactured 12,000,000 shingles this year and are now 60 days behind with orders.

GREAT BRITAIN.

The situation in the timber trade of Great Britain is still one of uncertainty. Baltic shippers hold large stocks which they have been endeavoring to sell all season, but even the sharp reduction in price has not been sufficient to tempt buyers to load up to any extent. On the smaller sizes the decline has been quite marked. While in respect to Canadian goods the outlook is more hopeful, prices have been sympathetically affected by the low quotations for deals and battens put forward by the Riga shippers. Were it not for this aspect it is believed that there would be a sharp recovery in prices, as stocks are not excessive and importers are showing a disposition to replenish their supplies. The Timber Trades Journal in referring to the spruce and pine market says : "The improvement in the spruce market has been well maintained, and a distinct advance must be recorded. Agents have very few cargoes unsold and for these full prices are being asked. For a seven hundred standard cargo of unfloated spruce from St. Margaret's Bay, of very poor specification, consisting chiefly of 7-inch, £9, 10s. is being asked, while for a similar cargo of Halifax deals to the west coast, we are told that over £7 is demanded. There are also indications in London of firmness in the better quality of Quebec pine, and there is no doubt that the present stock is inadequate. The mere fact of shippers offering merchants very considerable sums to cancel unfulfilled contracts shows the healthy position. A considerable portion of the stock on hand is composed of red pine, which by no means take the place of white pine from the St. Lawrence." On the other hand, we read in the Timber News that Canadian spruce prices are a shade easier. Third quality deals are procurable at £9 5s per standard in the docks, with seconds at 5s advance, whilst the Quebec and Montreal shippers are accepting £8 5s for October-November shipping.

STOCKS AND PRICES.

The S. Hadley Lumber Company, of Chatham, Ont., recently purchased 400,000 feet of lumber from J. & T. Conlon, of Little Current.

The steamer Kingstonian sailed from Quebec last week for the United Kingdom, with 500 standards of deals and 4,270 bales of wood pulp.

Timber berths were sold at the Crown Lands office, Fredericton, N.B., last week as follows: Two miles on Little River, Sunbury county, to Andre Cushing & Company, at $51 a mile ; two miles in the parishes of Simonds and Wilmot, Carleton county, to the applicant, James K. Fleming, at upset price of $8 a mile.

The Manchester City last week took on 1,000 loads of timber, 150 standards of deals, and 100 tons of pulp, and completed loading at Montreal.

The barque Loreto is loading lumber at St. John, N.B., for Buenos Ayres. The barque Dilbhur is taking in deals at same port for the Mediterranean.

Cochran & Soley have secured an option on the Hatfield and Smith timber property at Fox River, N.S. It consists of about 5,000 acres of timber land, for which $50,000 is asked.

The Bangor Commercial says that there is little chance that the West log drive will reach the booms in time to be rafted this fall. It is feared that 30,000,000 feet will be hung up.

The steamer Glen Head arrived a fortnight ago at Cork, Ireland, with a cargo of lumber from the mills of the Gravel Lumber Company, of Etchemin, Que. It consisted of 500 standards of planed boards and 150 standards of deals.

It is reported that James Playfair, of Midland, Ont., purchased the township of Levack at the recent Ontario timber limit sale for the Saginaw Lumber & Salt Company. The township is estimated to contain about 45,000,000 feet of timber.

A correspondent at Albany, N. Y., writes : All thicknesses of good lumber are very scarce and prices have been advanced from $3 to $5 per thousand. Summer lumber remains about the same. At a meeting of the pine dealers on the 23rd, 1 to 1½-inch uppers were put up to $70 and $5 down, and thick uppers to $75 and

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

MANUFACTURER AND WHOLESALE LUMBER DEALER

Has for sale a quantity of Maple, Beech, Birch, Basswood and Soft Elm in good shipping condition. Cedar Shingles and Bill Stuff a Specialty

—CORRESPONDENCE SOLICITED—

$5 down, showing an advance within six weeks of $10 per thousand feet. All thicknesses of yard picks and Nos. 1 and 2cuts were also advanced from $1 to $3 a housand. This is not a case of merely putting up the figures, but he lumber is being actually held firm at those prices."

Concerning the Barbadoes lumber market Messrs. S. P. Musson, Son & Company say: No arrivals have taken place since September 1st, and one or two dealers are in want of white pine. We could readily place a small cargo of half each of shipping and second quality, at about $24 and $18 respectively. Spruce is not much in demand at this season and will not be much before November. There have been no arrivals of shingles, and Long Gaspe are wanted. A small lot have been placed at $4 and we think first receipts should bring about this figure. Dimension shingles are also wanted and would bring full rates. Cedar laying shingles are in fair stock, but owing to the scarcity of Gaspe are being worked off, and a cargo would bring between $1.80 and $2. Another cargo of Portland shooks has lately been sold at $1.70.

A new price list was put into effect at Cleveland, Ohio, on September 16th, making an advance of from $2 to $3 on some grades of lumber. Dry lumber continues scarce and the amount on hand less than at the beginning of last month. Dry uppers in 1, 1¼, 1½ and 2-inch bring $65 a thousand feet; selects in same thicknesses, $55; fine common, $50; No. 1 shop, 1¼, 1½ and 2-inch, $45. The only change noted in any of the commoner grades was in 1 x 12 No. 3 to $21 and in 1 x 8 No. 3 to $19. Norway is very firm at the list and a slight advance in this may be looked for soon. There is a good demand for hemlock boards and bill stuff and the prices on these are easy. Shingles of all kinds are exceedingly scarce and it does not seem possible to accumulate any. Prices on 18-inch white cedars and red cedars have advanced 25 cents. Lath of all kinds are firm at the new list: No. 1 white pine, $3.50; No. 2 white pine and No. 1 norway, $3.25; No. 2 norway, $2.75, and No. 1 hemlock, $3, and stocks in all yards are exceedingly light for the season.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Chatham, N. B.: Barque Mariadella-Guardia, for Port Mendres, 571 feet deals and ends, by J. B. Snowball Co. Str. Powa, for New York, 1,200,000 laths, by William Richards Co.

From Vancouver, B.C.: Tug St. Clair, for United States, 350,000 feet cedar logs, value $1,750, by T. Larkin. Str. TIMBER PROPERTIES CHANGE HANDS.

Two important transactions in timber properties have taken place within the past week. It is reported that negotiations have been completed for the sale to Robert Hurdman, of Ottawa, of the Klock Bros.' timber limits on the Kippewa, embracing about 100 square miles. They are perhaps the largest limits in the Kippewa district and are located around Ross lake. The purchase price is in the vicinity of $380,000. The Quebec Bank has an interest in the sale, and all that is required to complete the deal is the sanction of the bank to the transfer, which, although withheld, will likely be granted in a few days.

Newton Pugsley, B. L. Tucker, E. R. Reid, P. A. Holmes and Adams Baird, all of Parrsboro, N. S., have purchased from S. P. Benjamin, of Wolfville, his East Avon timber lands, containing 17,000 acres. The price paid was $55,000. The new owners of this valuable property will commence operations at once with a view to getting out a large cut next winter.

TIMBER LIMIT SALE.

Mr. Peter Ryan will offer for sale, at the Board of Trade Building, Toronto, on Wednesday, December 18th, at 2 p. m., another lot of valuable timber limits. The berths are known as A, B, C and D, being 33, 13½, 17½, and 28¾ square miles respectively, on the north shore of Lake Huron, comprising berth No. 10 of the sale of 1885. The limits are virgin timber and are very convenient for operating. Maps and other particulars may be obtained from Mr. Ryan at the Registry office, Richmond street, west, Toronto.

BUSINESS NOTES.

M. L. Jantze, Newton, Ont., is offering his saw mill for sale.

The assignment is announced of Gillespie & Grier, planing mill owners, Parry Sound, Ont.

Robert Kilpatrick, lumber dealer, Ladysmith, B.C., has been suceeded by the Ladysmith Lumber Company.

L. J. Tweedie and A. H. Hannington have been appointed liquidators of the Maritime Sulphite Fibre Company, Chatham, N.B.

The firm of G. Z. Schuyler & Company, corner East 98th street and First Avenue, New York, is announced to have assigned. Established in 1835, a large business in lumber and building materials has since been conducted. The failure is attributed partly to the stringency of the new building and tenement laws in that city which has checked the activity of their customers and delayed them in meeting their obligations. The liabilities are said to be about $100,000 and the assets $75,000.

FOR SALE, OUR SEASON'S CUT OF PINE Slabs. A quantity ready for present shipment Please send tenders. HUNTSVILLE LUMBER COMPANY, Limited Huntsville, Ont.

TIMBER FOR SALE

TENDERS ARE INVITED FOR THE PURCHASE of 125 acres of timber situated on lot 31, 3rd concession, Barrie township, Frontenac county, Ont., comprising basswood, ash, maple and hemlock. Pronounced the best stretch of timber in the district. This timber is in close proximity to the K. & P. Railway. Terms, preferably cash. For further particulars, address BOX 10, CANADA LUMBERMAN.

TO Lumber Manufacturers

We wish to form a connection with a first-class saw mill company, having good planing mill facilities and prepared to execute orders for straight and mixed carloads of White Pine, also a limited amount of Hardwoods. We will pay cash and accept mill inspection. Address with full particulars,

AMERICAN LUMBER & MFG. CO.,
Pittsburg, Pa.

FOR SALE.

Saw Mill, a good business stand, with stock of Pine lumber and Tug, in the village of Port Carling, Muskoka. Apply to

MRS. C. E. WALLIS, Port Carling, Ont.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

By Public Auction

VIRGIN TIMBER BERTHS

North Shore Lake Huron

AT THE ROTUNDA, BOARD OF TRADE, TORONTO, ON

Wednesday, December 18th, 1901,
at 2 p. m.

The undersigned has been instructed to offer for sale by public auction, at the above time and place (subject to the terms and conditions which will be produced at the time of sale), the following

VALUABLE TIMBER LIMITS IN SINGLE BERTHS

known as Berths "A," "B," "C" and "D," being 33, 13½, 17½ and 28¾ square miles respectively, on the north shore of Lake Huron, being Berth No. 10 of sale of 1885.

The above berths are amongst the best in the Province, very convenient for operating and getting in supplies. The timber is sound, and will be found to contain a large quantity of Long Timber suitable for Special Trade.

For Terms, Maps and other particulars apply to

PETER RYAN,
Toronto.

FIRES.

The lumber yard of Arthur Paquet, corner Notre Dame and Harbor streets, Montreal, was partially destroyed by fire last week. The loss is estimated at $7,000.

A saw mill at Terra Nova, Ont,, operated by R. H. Little, of Lisle, was burned recently, together with 75,000 feet of lumber.

CURRENT TRADE CONDITIONS.

ONTARIO.

The demand for lumber has shown a slight falling off during the past week. Considerable building is in progress throughout the province, but as most of the required lumber has been purchased, the demand is largely dependent upon the requirements for consumption during the late fall and winter. There seems to be a disposition on the part of consumers to defer purchasing in the hope that prices may decline. There are some who think that with the cessation of building operations will come a reduction in the price of lumber, but general conditions seem to be against such a result. The white pine mills in the Ottawa valley and Georgian Bay district are carrying comparatively light stocks, while the scarcity and high cost of labor and the possibility of interruption from small-pox is likely to reduce the log production of the coming winter very considerably. When these facts are given consideration, there does not seem to be much ground on which to base a prediction of lower prices. Of course, the market will be governed by the law of supply and demand, but there is no reason to expect any marked falling off in the consumption of lumber. At the present time pine prices are going through a process of adjustment, after which they will settle down to a winter basis. The grades above common are being marked up about $1 per thousand, while a slight reduction is being made in the price of some of the lower grades. For 1x12 mill culls from $11 to $12 at the mills is being asked. No. 1 pine lath range from $2.25 to $2.50, and No. 1 hemlock lath from $1.50 to $2. For best quality pine shingles from $2.25 to $2.40 at the mill is asked.

Hardwoods are moving more freely, and apparently consumers are replenishing their supply for the winter. Prices are steady. Inch mill run elm and maple are held by manufacturers at $13, birch at $16 and oak at $20.

MANITOBA AND BRITISH COLUMBIA.

Wet weather and recent labor troubles in Winnipeg have caused a falling off in the demand for lumber throughout the Northwest Territories. Wholesale dealers and manufacturers report less activity, and while prices are unchanged, it is possible to purchase lumber on terms more favorable to the buyer. Almost any length of time can be had on a good order. Finishing material is being called for quite largely, on account of the number of buildings in Winnipeg nearing completion. British Columbia spruce flooring has been advanced to $31 and $27 for No. 1 and No. 2 respectivdly. In hardwood lumber the only change is an advance of $1.50 per thousand in the price of maple flooring.

UNITED STATES.

The demand for white pine lumber has shown no abatement, although the lumber market as a whole is a trifle unsettled on account of the uncertain conditions governing yellow pine. That lumber has shown evidences of weakness east of the Mississippi river, where the expected demand has not developed, and it is feared that dealers in this lumber may endeavor to get it into the white pine territory and that a policy of price-cutting may follow. The conditions in the Lake Superior district are most favorable to white pine. The shipments from Minneapolis during the month of September were 2,000,000 feet greater than during the same month in 1900, while those from Ashland, Wis., show an increase of 16,000,000 feet. At Duluth it is estimated that there is not over 10,000,000 feet of No. 3 and better lumber unsold on the docks. Prices there are unchanged excepting that No. 4 and No. 5 boards have stiffened up. Piece stuff and No. 1 and 2 boards are in the greatest demand in Chicago. The east is buying very liberally, and there is a dearth of boats to carry lumber from Buffalo and Tonawanda to the eastern market. Dealers at Tonawanda report that orders are being received in comparatively large numbers, and that stocks are still broken, despite the efforts of dealers to get consignments from the west as quickly as possible. Hemlock is showing more strength and one or two Buffalo dealers are making an effort to advance the price owing to the heavy orders. Spruce lumber is firm with light offerings. In Boston 10 and 12-inch dimension is selling at $20, in New York at $18 to $21, and in Bangor the market is strong on the basis of $15 for randoms. There continues to be a good demand for lath and shingles. Lath is scarce and is worth from $2.25 to $2.75 at Duluth. No. 1 18-inch white pine shingles bring $4.25 at Buffalo.

GREAT BRITAIN.

The future course of the timber market of Great Britain is still uncertain, although the prospects are brighter than they have been during the past six months. A disturbing factor is the

possibility of a scarcity of money and the nervousness which is shown at some of the leading financial centres of Europe. In England the consumption of wood continues large, and as the import of the past month has been light, stocks are becoming reduced. There promises to be a very light import during the fall month. Last year at this time there were 101 cargoes afloat for London, but this year the number is only 28. Importers are watching with much interest the action of manufacturers and shippers, as it is admitted that a curtailment of production is necessary in order that prices may move up to a proper basis. The Scandinavian shippers have taken a firm stand and universally agreed to reduce the log production of the coming winter by at least 28 per cent. If this agreement is adhered to it should go a long ways towards restoring confidence. There has been a further improvement in the price of spruce deals. A large cargo from St. John, N. B., has been sold at £6 12s 6d per standard c. i. f. Sharpness, and other contracts at corresponding figures are said to be pending. There is a shortage of the best deals in 9 and 11 inch, and at recent auction sales these sizes have brought high prices. Pine deals have also shown a tendency to advance owing to the strong position taken by shippers.

NEW BRUNSWICK CEDAR SHINGLES.

Owing to the long continued drouth in eastern Quebec and New Brunswick, and resultant closing of a large number of mills from inability to get their logs, shingles are scarce and daily growing scarcer. So far as we can learn there are very light stocks on hand, and the going mills are all loaded with orders. It is absolutely a seller's market, and those manufacturers who are lucky enough to have unsold any shingles in two best grades, and more especially in Extras, can get almost any price in reason. The manufacturers are now asking an almost uniform price of $3.00 for Extras. However, for well and favorably known brands and for immediate shipment sales are being made at 10 and 15 cents above this price. The prospects are for an exceedingly stiff market the balance of the season for both Extras and Clears. While low grades are not comparatively as strong, there is no large amount on hand, and the movement is quite steady.

STOCKS AND PRICES.

The steamer Puelva is loading deals at St. John, N. B., for the United Kingdom.

The steamer Salfordia is loading lumber at the Hastings mill, Vancouver, B.C., for a foreign port.

It is reported that J. A. Ellis, of Fenelon Falls, Ont., has sold his drive of logs to S. Parkin, of Lindsay.

J. J. Thompson and John Leggat, both of Hamilton, have formed a partnership for the purpose of working a large timber limit near Huntsville this winter.

During September two cargoes of lumber were shipped from Ashland, Wis., to Canada, one boat taking 75,502 feet and the other 153,000 feet.

Of the hemlock situation a New York dealer says: "The Pennsylvania mills are sold ahead fully 25,000,000 feet, of which 5,000,000 feet are boards, which are scarce and high. As for our own particular firm, we have sold fully four times as much hemlock this month as we did all September last year."

At an auction sale in London last week Miramichi spruce deals, 2½ x 7 1st, 2nd and 3rd sold at £6 15s. to £7 5s., per standard; Quebec 2nd white, 2 x 7-11 spruce, £7 15s.; 1st white spruce, 3 x 9 to 3 x 11, £11 15 s.; 1st Quebec bright white pine, 3 x 11 and 3 x 12 to 21 in., £19 5s.; Miramichi 4th bright white dry pine, 3 x 11, £9 15s., and other sizes in proportion.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Halifax, N.S.: Barque Basto, for Dublin, Ireland, 757,559 feet deals, value $7,482. Barque Celurea, for Irvin, Scotland, 317,000 feet deals, value $3,000.

From Hillsborough, N.B.: Barque Enterprise, for Preston, 527,853 feet spruce deals, value $4,500, 48,436 feet spruce scantlings, value $250, 10,093 feet spruce deal ends, value $50, 30,294 feet spruce boards, value $200, by John L. Peck.

From Yarmouth, N.S.: Schr. Brenton, for Portland, Me., 58,000 feet hardwood lumber, value $580, by Benjamin LeBlanc. Barque Nor, for Davenport, England, 461,000 spruce deals, value $5,076, by Dickie & McGrath. Schr. Annie, for Boston, 550 pcs. piling, value $270, by Gullson Bros. Schr. Prohibition, for New York, 858,000 feet laths, value $1,500, by Dickie & McGrath.

From St. Jonh, N.B.: Schr. S. A. Fownes, for Vineyard Haven, 806,000 feet laths, by Randolph & Baker. Schr. V. E. C. Gates, for Bridgeport, Conn., 126,241 feet planks, 52,152 feet deals, by A. Cushing & Co. Schr. Hattie Muriel, for Salem, 120,043 feet boards, by Stetson, Cutler & Co. Schr. Fanny, for Boston, 85,380 feet planks, 28,011 feet deals, 14,827 feet scantling, by A. Cushing & Co. Schr. G. H. Perry, for Pawtucket, 1,560 feet boards, 12,823 feet planks, 21,799 feet deals, 115,005 cedar shingles, by A. Cushing & Co. Schr. Tay, for New York, 833,500 feet laths, by A. Cushing & Co. Schr. Riverside, for Boston, 99,992 feet plank, 1,207 feet scantling, by Stetson, Cutler & Co. Schr. Avis, for New Haven, 125,920 feet boards, 100,000 feet laths, by Dunn Bros. Schr. Carlotta, for Bathurst, South Africa, 500,000 feet pine boards. Schr. Kipling, for City Island, 992,900 feet laths, by A. Gibson Railway & Mfg. Co.; 9,000 cedar shingles, by Angus Richard. Schr. C. R. Flint, for City Island, 320,245 feet deals, by Stetson, Cutler & Co.

From Quebec: Schr. Yoruba, for Liverpool, 300 stds. deals, by King Bros. Str. Verdade, for London, 27,648 feet spruce deals, 1,512 ft. deal ends, by Price Bros. & Co. Str. Drummond Head, for Newry, 136 stds. deals, 1 std. deal ends, by Price Bros. & Co.

From Montreal: Str. Bray Head, for Belfast, 820 bundles staves, by C.P.R.; 2,235 pieces deals, by Watson & Todd; 1,361 packages lumber by Charlemange Lumber Co.; 6,406 pieces deals and boards by R. Cox & Co.; 1,765 pcs. deals and boards by Dobell, Beckett & Co.; 105 pcs. oak lumber by G.T.R.

SHIPPING MATTERS.

The freight market is in a demoralized condition and shippers are enabled to effect charters at very low rates. The following are reported: Steamer, 700

—CORRESPONDENCE SOLICITED—

stds., St. John, N. B., to Cardiff, deals 38s., October loading; Str. Carl, Miramichi, N. B., to Dublin, deals 40s.; Str. Huela, St. John, N. B., to w. c. England, 35s.

The following charters are reported: Schr. Siridir, Yarmouth, N. S., to Buenos Ayres, lumber $10, or Rosaria at $11; Str. Loughrigz, Holme, Montreal to w. c. England, deals 40s; barque Culdoon, St. John, N. B., to Buenos Ayres, lumber $9. A barque, 407 tons, Bear River, N. S., to Buenos Ayres, lumber $10, option Rosaria at $11; barque 600,000 ft. of lumber, Hansport, N. S., to Buenos Ayres $10.

ST. JOHN RIVER LOG PRODUCTION.

Men are now well at work in the woods in New Brunswick, and in a few weeks the operators expect to have reasonably large forces at their command. There is much difficulty in getting the required numbsr of men, although wages are higher. The average rate of wages last year was $21 to $22 per month. This year the average is $25 to $26. Supplies too are costing more this year than last. Pork, for instance, which cost $18 a barrel duty paid, last year, is bringing $24 a barrel this year. Beans cost $1.60 per bushel last fall, this year the price is $2.25. Oats brought 35 a bushel last year; this year 40 cents, and hay is more expensive because it is scarcer than last year. The cut on the St. John river last fall and winter was from 140,000,000 to 145,000,000 feet. It is estimated that this winter the cut will be about 125,000,000, and for the following parties:

	FEET.
Cushing & Co.	20,000,000
W. H. Murray	30,000,000
Stetson, Cutler & Co.	12,000,000
N. H. Murchie	5,000,000
Chas. Miller	3,000,000
Dunn Bros	3.000,000
Hale & Murchie	13,000,000
Donald Fraser & Sons	5,000,000
Hilyard Bros.	5,000,000
R. A. Estey	4,000,000
Randolph & Baker	10,000,000
John Morrison	3,500,000
Robt. Aiken	2,000,000
Smaller dealers	9,500,000

THE BOSTON MARKET.

There is a very firm market in Boston for spruce lumber, with offerings small. The building demand is active and prices are very firmly held. The quotations are: Ten and 12 inch dimensions, $20; 9 inch and under, $18 and $19; 10 and 12 inch, random lengths, 10 feet and up, $17.50 and $19; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 feet and up, $16 and $16.50; all other randoms, 9 inch and under, 10 feet and up, $17.50; 5 inch and up, merchantable boards, $15.50 and $16.50; matched boards, $18 and $18.50; out spruce boards, $12.50 and $13; bundle furring, $15 and $15.50.

Hemlock lumber continues steady, with little change; Hemlock boards, 12, 14 and 16 inch, $14 and $14.50 for good eastern; Pennsylvania, No. 1, $16 and $17; No. 2, $14; random, $13 and $13.50.

Western pine is in fair demand at full prices: Uppers, 1 in., $58 and $62; 1¼ to 2 in., $63 and $64; 3 and 4 in., $68 and $72; selects, 1 to 4 in., $52 and $64; fine common, 1 to 3 in., $42 and $60; sheathings, $38 and $54; barn boards, $25 and $30; coffin boards, $2 3 and $25.

Hardwood lumber is in quiet demand at unchanged prices: One inch, whitewood, $38 and $40; thicker, $39 and $42; ⅝ inch, $30 and $34; saps, inch, $25 and $30; common, $23 and $25; quartered oak, $65 and $70; fancy, $80 and $90; plain oak, $35 and $45; ash, $38 and $45; cherry, $90 and $130; maple, $30 and $40.

Eastern cedar shingles are firmer with some grades marked higher: Extra cedar, $3; clear, $2.65 and $2.70; second clears, $2.25 and $2.35; sap, $210 and $2.20; extra, No. 1, $1.75 and $1.80; Washington and British Columbia, 16 inch, five butts to 2 inches, $3.30 and 3.40.

Clapboards are firmer, with offerings limited: Extra spruce, $31 and $32; clear, $29 and $30; second clear, $25 and $27; extra No. 1, $18 and $20; pine, extra, $36 and $38; clear, $36 and $37; second clear, $28 and $29.

Laths are steady, with a good demand: One and five-eighths inch, $3; 1¼ inch, $2.80 and $2.85.

Just the thing for your Office

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE

Situated at Barrys Bay, Ontario, Parry Sound Division Canada Atlantic Ry, small Saw Mill, with Boiler, Engine, Carriage, Saws, etc., complete, together with some 50 acres of land, Railway Siding, etc. The location is a good one for Hardwood Lumber. Will sell cheap. Apply to THE RIDEAU LUMBER CO., Limited, 17 Elgin Street, Ottawa.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

There will be offered for sale by public aution at the Auction Rooms of C. J. Townsend, Esquire, 28 King Street West, Toronto, on SATURDAY, THE 16TH DAY OF NOVEMBER, 1901, at the hour of 12 o'clock, noon, all those certain Timber Berths or Limits known as Berths Numbers 176 and 182, containing together about seventy-two square miles of land situate on the North Shore of Lake Superior, in the District of Algoma, in the Province of Ontario.

The limits will be sold in one parcel en bloc.

The limits will be sold without reserve.

TERMS OF SALE: 20% in cash at time of sale and the balance of the purchase money to be paid within thirty days thereafter without interest.

Estimates which have been heretofore made of the amount of timber upon the limits can be seen at the offices of the solicitors undermentioned, but these estimates are not in any way guaranteed.

Further terms and conditions of sale will be made known on day of sale or can be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington Street East, Toronto, or Messrs. McCarthy, Osler, Hoskin & Creelman, Freehold Loan Building, Toronto.

By Public Auction

VIRGIN TIMBER BERTHS

North Shore Lake Huron

AT THE ROTUNDA, BOARD OF TRADE, TORONTO, ON

Wednesday, December 18th, 1901,

at 2 p. m.

The undersigned has been instructed to offer for sale by public auction, at the above time and place (subject to the terms and conditions which will be produced at the time of sale), the following

VALUABLE TIMBER LIMITS IN SINGLE BERTHS

known as Berths "A," "B," "C" and "D," being 33, 13½, 17½ and 28¾ square miles respectively, on the north shore of Lake Huron, being Berth No. 10 of sale of 1885.

The above berths are amongst the best in the Province, very convenient for operating and getting in supplies. The timber is sound, and will be found to contain a large quantity of Long Timber suitable for Special Trade.

For Terms, Maps and other particulars apply to

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade of Ontario is moving along in a satisfactory manner. There is special activity in the movement of stock by vessel, buyers being anxious to take advantage of the water rate. While few large transactions are reported, a number of small lots have changed hands, and the disposition to buy shown by dealers is an indication that lower prices are not expected. A lot of about 2,000,000 feet, manufactured at an Algoma mill, was sold last week in the Toronto market at a satisfactory figure. Finishing material is moving quite freely, as many buildings are now nearing completion. If the winter should be open, considerable building will likely be done, as there are several large projects in the hands of architects to be carried out as soon as possible. The lumbermen complain of a shortage of cars to move stocks. In some instances it has seriously interfered with trade owing to inability to fill orders. What the log production will be during the coming winter is a matter of some speculation, but the trade is inclined to the opinion that it will be smaller than last year owing to the high cost of labor and supplies and other causes previously referred to. Hardwoods are showing a little more strength on the expectation of an increased demand and a curtailment of production next year.

QUEBEC AND NEW BRUNSWICK.

From the standpoint of demand, spruce lumber has improved. There has been some buying for the United States market, and considerable enquiry regarding stock for shipment next year. Two large cargoes cleared last week from St. John for Australia, and a number of cargoes from other provincial ports for the United Kingdom, while there continues to be the usual shipments to South America and the West Indies. The past season has been very unprofitable for many manufacturers in New Brunswick, inasmuch as many of their logs are still hung up, which has necessitated the closing down of their mills. This circumstance, coupled with the scarcity of labor and high wages, is likely to greatly curtail the logging operations of the coming winter, and some of the best authorities predict that the production of spruce lumber in the season of 1902 will be much smaller than during the season now closing. Numerous enquiries are being received by manufacturers for cedar shingles, which are selling at $3 on Boston rate of freight, and higher prices are predicted. Large shipments of lath have been made to Philadelphia.

UNITED STATES.

The past week has witnessed further favorable developments in the lumber trade of the United States. Yellow pine is showing more strength, and the apprehension that white pine might suffer as a result of price cutting by the manufacturers of yellow pine is now almost dispelled. There is a large current demand and numerous enquiries for future delivery. At the head of the lakes there is a shortage of 12 inch boards and wide 2 inch dimensions. Sales have been made within the past week at $13 for No. 3 boards. From Toledo, Ohio, comes the report of an advance of one dollar on 18 foot Norway joists, making the price $17. The eastern market is quite buoyant. Consumers are buying heavily, and are not so exacting in respect to price and grade as was the case throughout the summer. There is a scarcity of piece stuff and all high grade lumber, and the dealer who has any quantity of this stock is holding out for fancy prices, which he will no doubt be able to obtain. Low grades are selling on a small margin of profit, and are not likely to be advanced in relation to the high grades owing to the available supply. In Northern New England the scarcity of spruce timber is becoming more apparent as the log season advances. The mills are busy filling orders, and the demand is increasing. Prices range about $1.50 above the last established list. No significant change can be reported in the hardwood situation. The market is moving along quietly, but there seems to be no indication of a substantial improvement in the near future. There is a fairly good demand for birch and maple. Lath is more plentiful at Buffalo and Tonawanda, the receipts from the upper lakes having been quite heavy of late. There is a brisk demand for shingles, dealers being unable to keep up with their orders. White cedars are selling in Chicago at $2.65 for 8 inch and $2.75 and up for 10 inch.

GREAT BRITAIN.

Timber importers and dealers in Great Britain are getting more confident that the turning point in the market has been reached and that prices have touched rock bottom. The consumption during the month of September was, almost without exception, greater than the import, and consequently stocks of lumber show a reduction in comparison with one

month earlier. The stock at London is proportionately heavier than at other ports. In the Surrey Commercial Docks there was on September 30th of this year 760,320 pieces of spruce deals, as compared with 598,285 pieces one year ago. At Liverpool the stock of spruce deals is only 15,000 pieces, as against 28,000 pieces one year ago. Quebec pine deals are represented in Liverpool by 13,000 pieces, an increase of 4,000 pieces over the corresponding period in 1900. Trade circulars to hand state that stocks are being held with considerable firmness, and if this policy is continued lower prices may be said to be out of the question. There is a dearth of Canadian deals and timber of the higher grades, but complaint is made that the stock of inferior grades is too heavy. Quebec pine deals range from £22 to £28 per standard for first quality, £17 to £20 for second quality, and £11 to £12 for third quality. Quebec spruce deals are quoted from £6 10s to £8 10s, and New Brunswick spruce deals from £6 to £7 10s. Prices for 7 and 8 x 3 inch deals are weak, but 9 inch are wanted. Waney pine timber has been imported very moderately and is firm in price, while square pine is dull of sale. Best rock elm timber is wanted and brings from 3s 1d to 3s 2d per cubic foot. Birch timber ranges from 15d to 17½d for 13 to 15 inch average.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Halifax, N.S. : Str. Demava, for Liverpool, 81,214 ft. lumber, value $1,218. Barque Active, for White Haven, Eng., 415,819 ft., value $4,140. Barque Nellie Moodie, for Great Britain, 634,582 ft., value $6,315. Schr. Wenola, for Bridgeport, Conn., 319,125 ft., value $3,051. Schr. Monitor, for Boston, 93,350 ft., value $933. Schr. Grecian, for Liverpool, 625,762 ft., value $6,206.

From Chatham, N.B. : Schr. L. Saker, for Gartson, Eng., 1,951,241 ft. deals, etc., by F. E. Neale. Barque Nova Scotia, for Newport, 951,254 ft. deals, etc., by F. Dyke. Schr. Juno, for Belfast, 1,692,000 ft. deals, by J. B. Snowball Co. Schr. McClure, for New York, 1,205,000 lath, by William Richards Co.

From Vancouver, B.C. : Str. Salfordia, for China, 3,000,748 ft. rough lumber, 200,000 laths, 5 spars, value $30,450, by Pacific Export Lumber Co. Tug Albion, for United States, 312,000 ft. cedar logs, value $2,030, by Atkins & Co. Tug Hope, for United States, 316,000 ft. fir logs, value $1,344, by W. R. Jones. Tug Vulcan, for United States, 151,220 ft. cedar logs, value $800, by Hamilton Logging Co.

From St. John, N. B.: Barque Gregorio Padre, for Melbourne, Aus., 1,051,844 ft. deals, 42,319 ft. ends, by George McKean. Barque Favell, for Melbourne, Aus., 1,154,649 ft. deals, 25,036 ft. ends, by W. Mackay. Str. Teressa, for Liverpool, Eng, 2,451,493 ft. deals and battens, 161,002 ft. scantling, 121,761 ft. ends, 131,532 ft. boards, 43,256 ft. birch planks, 3,283 ft. birch ends, 1,398 ft. birch timber, by W. M. Mackay. Schr. Ida May, for New York, 161,744 ft. deals, by A. Cushing & Co. Schr. Carrie Belle, for City Island, 193,629 ft. deals, 676,000 laths, by Stetson, Cutler & Co. Schr. STOCKS AND PRICES.

The steamer Gisland has sailed from Cape Tormentine, N.B., for Bristol, Eng., with a cargo of lumber, supplied by S. Wood & Sons.

The steamer City of Hankow sailed last week from Barnet, B.C., for Sydney, Aus., with 1,000,000 feet of lumber. Several lumber carriers have just sailed from Chemainus, B.C., for foreign destinations.

B. B. Bahnsen and A. Buchholtze, of Pembroke, Ont., who recently formed a partnership, have sent a number of men to their limits in the township of Cartier. These limits were purchased at the recent Government sale and comprise 33 square miles.

J. A. Gregory, of St. John, N.B., has leased for ten years a large block of timber lands at Lepreaux, N.B., paying therefor $10,000.

D. L. Mather, of Rat Portage, Ont. expects to put in seven camps this winter

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

—CORRESPONDENCE SOLICITED—

employing about 250 men. He will get out a large quantity of railroad ties.

Pine piece stuff is selling in Chicago in cargo lots at about $14. The ordinary grade of hemlock brings from $9 to $9.50. Michigan hemlock is selling in Buffalo on the basis of $12.50, and in New York city at $14.50.

During the quarter ended September 30th the total value of lumber shipped from St. John, N.B., to the United States was $509,744.27. Of this sum $174,128.01 represented New Brunswick lumber, as follows: Long lumber, $69,161.46; lath, $48,922.10; shingles, $8,240.90; piling, $9,790.10; staves, $490.83; wood pulp, $26,540.80; kiln wood, $981.12. Maine lumber manufactured at St. John totaled in value $335,616.26, as follows: Long lumber, $273,525.50; lath, $36,260.30; shingles, $23,029.00; clap-boards, $1,877.25; pickets, $663.21; box shooks, $261.00.

THE GLASGOW MARKET.

From Edmiston & Mitchell's monthly timber circular of 30th September we extract the following: We annex the usual comparative statement of stock of timber and deals at this date. In Quebec goods, red pine logs are considerably less than for the last two years, and elm and ash considerably more; while in deals, though there is an increase on the past year of 4,000 standards, it has to be borne in mind that last year's stock was abnormally low, being less than half of the previous year's. The consumption of log timber during the nine months amounts to about 94,500 loads, against 81,300 loads, and 35,400 standards deals, against 38,475 standards last year. Business this past month has been, on the whole, rather quiet, buying being rather of a retail character, and prices have not moved much either way. Scotch shipbuilders have launched during September 17 vessels, representing 40,910 tons, as compared with 16 vessels of 27,000 tons for same month last year. A fair number of new orders have been booked during the month, the aggregate being about 35,000 tons, which is about the same as last month.

BIRCH.—Quebec.—The import for September amounts to 200 loads, and has all gone into store. A few retail sales have been made during the month at prices ranging from 15 to 17½d. for 13 to 15 inch average, but there is only a very languid demand, and prices show no evidence of improvement. Birch Planks.—The stock is unusually heavy, and prices are most unsatisfactory. A small shipment of Halifax planks which arrived recently was sold at £5 10s. c.i.f.

ASH.—The import for the month is about 110 loads, which has gone into store. The stock on hand at this time is heavy compared with recent years, and there is very little demand for it, owing partly to the dullness of the furniture trade, and partly to the fact that other woods are now substituted for ash, such as soft elm, etc. Nominal value of good 14½ inch is about 2s. 2d., but the bulk of the ash on hand is inferior.

WANEY BOARDWOOD.—A noticeable feature is the falling-off in the import of this well-known manufacture of white pine logs, which only amounts to 2,510 loads, while square timber—3,526 loads—makes up the balance of the white pine imports. Sales are anything but lively, and the disappointed consumer who expected to buy cheaper will only buy from hand to mouth. 75 cubic feet average wood is reported sold at 3s. 1d., while some very long timber of about 19 inches average fetched 3s. 3d. Short, girthy wood is scarce, while for good second-class timber we hear 2s. 6d. is being asked. The consumption has been fair, and the stock on hand is exceptionally light.

SQUARE WHITE PINS.—Owing to the scarcity of waney pine, consumers will sooner or later have to resort to square, but in the meantime, as the former can be got, the latter is left severely alone, waney being much preferred by converters. We hear of a sale of freshly-imported timber 24 feet and up, 45 cubic feet average; price, however, has not transpired. Short 16-inch wood is worth 2s. 5d., while 2s. has been paid for fair average.

RED PINE LOGS.—Owing to an abnormally small import, combined with a full average consumption, the stock of 500 loads is exceedingly light. The outlet for this timber in any quantity is exceedingly limited. The present market value is about 1s. 9d. for 45 cubic feet average.

OAK.—There has been a fair demand, and the nine months' consumption compares favourably with previous years. It is gratifying to see this, for our railway companies, who are the chief consumers, have been buying most sparingly. There are several inquiries for long wood 48 or 50 feet and up.

ELM.—This year's imports have, on the whole, not been very satisfactory, and there seems to be a growing difficulty in obtaining the hard rock elm that used to come forward so regular in quality. Now hard grey and soft logs are to be found in all shipments. The stock, which is large, contains a considerable percentage of soft wood. Really first-class rock elm is in demand, and can be sold at 3s. 1d. to 3s. 2d., but soft wood is a drug.

DEALS, &C.—Business during the month has been quiet. Several fair lines were cleared "ex quay," but yarded goods have been difficult to move. The stock of white pine deals, while heavier than at this time last year, is low, and prices of the better qualities are almost certain to harden. Prices of red pine deals, owing to the heavy import, are weak. Current values are as under: Broad first pine deals, £26 to £29; 11-inch, £23 to £25; ends and non-dimensions, £18 to £22. Second pine deals, 11-inch and up, £18 10s. to £21; non-dimensions, £12 10s. to £15. Third pine deals.—11-inch and up, £11 15s. to £12 10s.; ends and narrows, £8 10s. to £10. Fourth pine deals.—11-inch and up, £10 to £10 15s.; narrows, £8 5s. to £8 15s. Red pine deals.—Nine and 11-inch, £8 10s. to £9 10s.; narrows, £7 5s. to £7 15s. First pine sidings and strips.—£14 to £22, according to specification. Spruce deals,—9 inch and up, £8 to £8 15s.; 7 and 8 inch, £6 10s. to £7 5s.

The steamer Loughrigg Holme has sailed from Montreal for London with a full cargo of deals.

It is reported that men are asking as high as $40 per month to go into the woods in the Mississippi Valley this winter.

A quantity of pine from Montreal was sold at an auction sale in London on October 2nd at the following prices: 12-18 ft., 4x9 in., second quality red, £11 10s. per std.; 12-18 ft., 3x8 in., first quality red, £10; 12-18 ft., 3x8 in., 2nd quality red, £7 15s. and £8; 5-18 ft., 1x7-11, first quality red, £18 15s.; 1x6, £10 10s.; 1x4 and 5, £9; 13-18 ft., 4x11 in., third quality red, £9 5s.; 13-18 ft., 4x9 in., £9 15s.; 12-18 ft., 3x8 in., £7 5s.

On the Barbados lumber market Messrs. S. P. Musson, Son & Company say: There have been no arrivals of either white pine or spruce during the fortnight, and our market is in good condition for first receipts. We could place one or two cargoes of white pine with full proportions of second quality at $24.50 and $16 respectively; if no immediate arrivals take place, an advance on these rates may be obtained. In spruce there is some enquiry, and we value a couple of cargoes, each of about 100,000 feet shipping and 50,000 second quality, in the neighborhood of $18.50 and $14.50 respectively. The only arrival of shingles to report is a small lot by a Canadian steamer, which sold as follows: Long Gaspe, $4.21; 8-inch, $8.05; 7-inch, $7.86; 6-inch, $6.96; 5-inch, $5.71; 4-inch, $.31. Laying shingles are wont from $1.80 to $2.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE

Situated at Barrys Bay, Ontario, Parry Sound Division Canada Atlantic Ry, small Saw Mill, with Boiler, Engine, Carriage, Saws, etc., complete, together with some 50 acres of land, Railway Siding, etc. The location is a good one for Hardwood Lumber. Will sell cheap. Apply to
THE RIDEAU LUMBER CO., Limited,
17 Elgin Street, Ottawa.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

There will be offered for sale by public aution at the Auction Rooms of C. J. Townsend, Esquire, 28 King Street West, Toronto, on SATURDAY, THE 16TH DAY OF NOVEMBER, 1901, at the hour of 12 o'clock, noon, all those certain Timber Berths or Limits known as Berths Numbers 176 and 182, containing together about seventy-two square miles of land situate on the North Shore of Lake Huron, in the District of Algoma, in the Province of Ontario.

The limits will be sold in one parcel en bloc.

The limits will be sold without reserve.

TERMS OF SALE: 20% in cash at time of sale and the balance of the purchase money to be paid within thirty days thereafter without interest.

Estimates which have been heretofore made of the amount of timber upon the limits can be seen at the offices of the solicitors undermentioned, but these estimates are not in any way guaranteed.

Further terms and conditions of sale will be made known on day of sale or can be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington Street East, Toronto, or Messrs. McCarthy, Osler, Hoskin & Creelman, Freehold Loan Building, Toronto.

By Public Auction

VIRGIN TIMBER BERTHS

North Shore Lake Huron

AT THE ROTUNDA, BOARD OF TRADE, TORONTO, ON

Wednesday, December 18th, 1901,
at 2 p. m.

The undersigned has been instructed to offer for sale by public auction, at the above time and place (subject to the terms and conditions which will be produced at the time of sale), the following

VALUABLE TIMBER LIMITS IN SINGLE BERTHS

known as Berths "A," "B," "C" and "D," being 33, 13½, 17½ and 28¾ square miles respectively, on the north shore of Lake Huron, being Berth No. 10 of sale of 1885.

The above berths are amongst the best in the Province, very convenient for operating and getting in supplies. The timber is sound, and will be found to contain a large quantity of Long Timber suitable for Special Trade.

For Terms, Maps and other particulars apply to

PETER RYAN,
Toronto.

An Opportunity

to purchase at ⅓ value, in perfect order, one Gang complete, one 56 inch Vulcan Turbine Water Wheel. For full particulars, apply to
E. J. SMITH, Shediac, N. B.

State grade and lowest cash price, delivered F. O. B. cars at Markham Station, to TAYLOR & LOUNT, Markham P. O., Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Influenced by the favorable conditions existing across the border, Canadian white pine is exhibiting a marked degree of strength. When it is considered that the building season will soon draw to a close, that the British demand has been less active than usual, and that there is some uncertainty as to the volume of export trade next year, it is very significant that prices hold so firm. It has been well illustrated this season that our pine is wanted in the United States, as shipments have been made to the Chicago market, Michigan and the Eastern States. The buying for Michigan yards has been a feature of the year. Small lots are still being picked up, and the yards will carry very light stocks at the close of navigation. The Parry Sound mills are shipping heavily by vessel. In the Ottawa district trade is quite brisk and prices unchanged. General complaint is made by operators of the difficulty in securing men for the woods, even though the wages offered are higher than last year. There will likely be a reduced cut of both white and red pine, but particularly of the latter, which was taken out too heavily last season. Furniture and implement factories are buying some hardwoods. From Western Ontario comes the report of an increased number of enquiries. While trade is not brisk, the movement is sufficient to keep prices firm.

QUEBEC AND NEW BRUNSWICK.

Whenever an opinion is expressed regarding the spruce trade, it is that the conditions are favorable to a large volume of business and higher prices next year. Although no figures are available, it is believed that the stock now awaiting shipment is very small, and that the wintering stock at Quebec will be comparatively light. Enquiries received from Great Britain prove that buyers there are anxious to arrange for their supply for next year. While New Brunswick and Nova Scotia spruce does not exhibit the same degree of strength as the Quebec product, recent shipments have greatly curtailed the quantity of stock in the hands of manufactures, and a feeling of confidence is exhibited by the trade. Large shipments are being made to Boston and other eastern points, where 10 and 12-inch dimensions are quoted at $20, and 2 x 3 and 2 x 4, 10 feet and up, at $16. Higher prices are named for cedar shingles. Some small manufacturers are offering extras at $3 on Boston rate of freight, but it is known that sales have been made as high as $3.20. Clears are quoted at $2.75 to $2.85, second clears at $2.35 to $2.40; saps at $2.10 to $2.20; and extra No. 1 at $175 to $1.80.

UNITED STATES.

The reports of the United States lumber market for some weeks past have been largely a repetition, and again this week it must be said that there is a very strong undertone and a liberal distribution of lumber. Freight rates have advanced and are now quoted at $3 from Lake Superior to Buffalo and other eastern points. It is thought that they will go still higher and it seems very probable that a large quantity of lumber purchased by eastern dealers will remain on the docks at the head of the lakes through the winter. There is some doubt whether eastern dealers will have sufficient stock to carry them through until the spring, particularly as the east is expected to buy quite heavily during the next few months. In door and mill work an enormous business is being done, and there is a pronounced scarcity in several items of stock goods. Chicago is one of the strong points, the condition of the white pine market there being similar to that during 1899. If anything, the demand at present is stronger and the scarcity more pronounced. No. 1 12 inch boards are in short supply. At a recent meeting of Chicago dealers short piece stuff was advanced 50 cents, and long piece stuff from $1 to $1.50, while one or two other items were advanced $2. The better grades of white pine continue to be in urgent demand and still higher prices are predicted. Eastern spruce prices are stiffening. Drives that it was feared would be hung up haue now reached the mills, making conditions more satisfactory for the manufacturer. Reports regarding the hardwood trade are somewhat conflicting. Some dealers report an improvement, while others are equally certain that the volume of trade is no greater. Furniture

manufacturers appear to be buying more liberally. Laths are in greater supply, while shingles are scarce and below the demand.

GREAT BRITAIN.

The steady falling off in the volume of imports is imparting a strong tone to the British timber market. The Board of Trade returns show that the import of hewn and sawn timber into the United Kingdom for the first nine months of this year was 7,038,369 loads, against 7,136,769 loads for corresponding months of last year. While the shipping season will not close for a couple of months, the amount of chartering shows that very little stock is likely to be imported into Great Britain during the balance of the season. There is some fear lest the shippers of Norway and Sweden should overstock the market, in which case Canadian timber would be sympathetically affected. The opinion is gaining ground, however, that by next spring the market will again be on a sound footing. The reported improvement in spruce deals has been maintained, although buying is by no means active. Business has been done at £8 per standard for 3 x 9 third quality c. i. f. London, although most agents are asking £8 10s c. i. f., or £9 2s 6d landed. Spruce deals are weaker at Glasgow than at other ports. The Timber Trades Journal says that the position of Quebec spruce in the London market is a strong one, and stocks are light, some sizes being very scarce. It is learned that a merchant accepted compensation for cancelling a transaction for 3 x 11 second spruce, simply because the shippers could not obtain the goods to fill the contract. Canadian pine is likewise stronger. Although the stock of pine deals is heavier than it was at this time last year, it is pointed out that twelve months ago shipments were made much later, whereas this year practically the whole season's import has arrived. First and second qualities are very scarce in first hands.

FIRES.

Arthur Ludlam's sash and door factory at Leamington, Ont., was burned recently, at a loss of $10,000.

A portable saw mill owned by Walter Clendennan, of Wellandport, Ont., was destroyed by fire on the 16th inst.

BRITISH TIMBER SALE.

At recent auction sales in London, England, Canadian deals, etc., brought the following prices :

Pine—18 ft. 3x 11 in. red, £9 10s per std ; 13-20 ft. 3 x 11, £9 15s. Ex. Cora from Miramichi—14-22 ft. 3 x 11 in. fourth quality, £9 5s ; 15-20 ft. 3 x 12-18, £7 10s ; 14 ft. 3 x 7-10, £8 5s ; 15 ft. 3 x 9, £8. Ex. Dahome, from Halifax, N.S.—4-18 ft. 3 x 9 in. unassorted, £7 15s.

Spruce—11-16 ft. 3 x 8 in. third quality, £7 ; 6-8 ft. 3 x 11, £6 15s ; 6 ft. 3 x 9, £6 10s ; 6 ft. 3 x 7-9, £6 10s. Ex. Elsif, from Matane, Que.—10-19 ft. 3 x 9 in. unassorted, £8 5s ; 4 8 ft. 3 x 11, £7 10s ; 4-8 ft. 3 x 9, £7 10s ; 4-8 ft. 3 x 6-7, £6 10s. Ex. THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN

Business in local lumber circles has been brisk during the past six weeks. Quotations show no change. In the better grades the maximum figures are quoted oftener than those ranging towards the minimum. The stock available for first buyers is small. In fact the supply of one line, white pine shingles, has been practically exhausted. Lath prices continue firm. Wholesale quotations given by a leading local firm are as follows: No. 1, $2.00 to $2.25; No. 2, $1.40 to $1.75. From present indications a further advance may be expected.

During the past six weeks shipments have been brisk by rail to Albany, where the lumber was transferred to barges for New York. As the date of the close of navigation approaches, local shippers show an increasing desire to rush stock before the higher winter rates come in force. A scarcity of cars is complained of by several dealers. The rush of North-West grain has created a demand on the rolling stock that has left the local supply short. One shipper stated to-day that he has been waiting on cars over two weeks, and expects to hear daily of the cancellation of the orders owing to delay in delivery.

The local labor market has been depleted to satisfy the demand for men for the limits. Wages have advanced to an unprecedented figure. Road cutters command $24 a month, with free board. Experienced square timber hewers are securing the top-notch figures, $45 a month and board. Fully 3,500 men have been sent out of Ottawa in the last ten weeks. When the mills close next month a large contingent will be forwarded. Skilled labor is scarce. Men have been sent from Ottawa to work in the Adriondacks, as well as on Canadian limits.

The lumber kings are up in arms against the recent increase in assessment, by which the lumber stock is rated as personal property for the first time. The Export Lumber Company's figures have been raised from $20,000 to $100,000, the W. C. Edwards Co.'s from $10,000 to $75,000, and the John R. Booth's from $40,000 to $250,000. An appeal will be made. As much of this lumber has been sold to other parties and is merely piled here during the seasoning process, awaiting shipment to the American and English markets, the local mill-men claim they shouldn't be assessed for it.

The action of Mr. W. C. Edwards, M.P., in securing the services of a doctor in his lumber camps to guard against smallpox is looked on in high favor here. Other lumbermen are considering the advisability of following suit.

The largest lumber deal recorded in Ottawa in several years was that involving the transfer of the Klock limits in the Kippewa district. The limits, which are 228 miles in extent, were sold by R. H. Klock & Co. to Robert Hurdman, of Ottawa, for $385,000. The timber is reported to be plentiful and of a high grade. Klock & Co. still hold a considerable area of timber lands, including some 300 miles on the Temiscamingue and Quinze rivers.

S. L. Brundage, of Windsor, Ont., has secured a contract to supply the Lake Erie and Detroit River Railway with a large quantity of ties, posts and shingles.

No Fish Stories

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 1 9/16 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall, That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

FOR SALE

Situated at Barrys Bay, Ontario, Parry Sound Division Canada Atlantic Ry, small Saw Mill, with Boiler, Engine, Carriage, Saws, etc., complete, together with some 50 acres of land, Railway Siding, etc. The location is a good one for Hardwood Lumber. Will sell cheap. Apply to

THE RIDEAU LUMBER CO., Limited,
17 Elgin Street, Ottawa.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

There will be offered for sale by public aution at the Auction Rooms of C. J. Townsend, Esquire, 28 King Street West, Toronto, on SATURDAY, THE 16TH DAY OF NOVEMBER, 1901, at the hour of 12 o'clock, noon, all those certain Timber Berths or Limits known as Berths Numbers 176 and 182, containing together about seventy-two square miles of land situate on the North Shore of Lake Huron, in the District of Algoma, in the Province of Ontario.

The limits will be sold in one parcel en bloc.

The limits will be sold without reserve.

TERMS OF SALE: 20% in cash at time of sale and the balance of the purchase money to be paid within thirty days thereafter without interest.

Estimates which have been heretofore made of the amount of timber upon the limits can be seen at the offices of the solicitors undermentioned, but these estimates are not in any way guaranteed.

Further terms and conditions of sale will be made known on day of sale or can be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington Street East, Toronto, or Messrs. McCarthy, Osler, Hoskin & Creelman, Freehold Loan Building, Toronto.

By Public Auction

VIRGIN TIMBER BERTHS

North Shore Lake Huron

AT THE ROTUNDA, BOARD OF TRADE, TORONTO, ON

Wednesday, December 18th, 1901,

at 2 p. m.

The undersigned has been instructed to offer for sale by public auction, at the above time and place (subject to the terms and conditions which will be produced at the time of sale), the following

VALUABLE TIMBER LIMITS IN SINGLE BERTHS

known as Berths "A," "B," "C" and "D," being 33, 13¾, 17½ and 28¾ square miles respectively, on the north shore of Lake Huron, being Berth No. 10 of sale of 1885.

The above berths are amongst the best in the Province, very convenient for operating and getting in supplies. The timber is sound, and will be found to contain a large quantity of Long Timber suitable for Special Trade.

For Terms, Maps and other particulars apply to

PETER RYAN,
Toronto.

FOR SALE

A STEAM SAW-MILL

Daily capacity of 25,000 feet, located in one of the very best places of the province of Quebec, near a railroad station; good shipping facilities; can dispose of the whole output right in the local market at highest prices; no capital required for lumbering; can buy all the logs required cheap from the farmers (settlers) at mill door to keep it running all the year round; mill can be seen in operation until Dec. 1st next. Below is the list of machinery contained therein, viz.: One steel boiler, 5x12, 60 h.p., 4 years old; one engine, 12x14, 60 h.p.; one rotary; one gang saw; one double edger; one resaw machine; one planer and matcher, (McGregor make); one trimmer; one shingle machine; one 60-inch cut-off saw; one log haul; one Blake double-action steam pump; shafting, belting, etc. Will be sold cheap, reason party going into other business; a rare chance for the right man. Apply to the undersigned, at Fraserville, P. Q.

GEO. ST. PIERRE & CO.

Yearly logs yield, spruce cedar and birch, 60,000 pieces.

AUCTION SALE

Timber Berths

W NSHIPS & 117

North Shore Lake Huron,

AT THE

Board of Trade Rooms, Toronto,

—ON—

Wednesday, December 18, 1901

AT 2 P. M.

The subscriber has been instructed to offer for sale, BY AUCTION, at the above time and place, and subject to the conditions which will be announced at the time of sale, the licenses for TIMBER BERTHS 111 and 117, on the NORTH SHORE LAKE HURON, and known as the Townships of

GOUGH AND DUNLOP

36 square miles each.

The above berths are licensed under the most favorable conditions, and in addition to a large quantity of pine there are other valuable woods, which are included in the licenses.

Terms of sale—One-third cash, and the balance one, two and three years, with interest at five per cent. per annum.

For maps and other particulars apply to

PETER RYAN,
Toronto.

AN OPPORTUNITY FOR LUMBERMEN.

Lumbermen wishing to increase their holdings of timber will be given an opportunity of securing an excellent limit on December 18th, when Mr. Peter Ryan will offer for sale at the Board of Trade Rooms, Toronto, Townships 111 and 117, known as Gough and Dunlop. These townships are situated on the north shore of Lake Huron and comprise 36 square miles. The purchaser will be permitted to take off not only the pine, but all other varieties of timber, of which there is a considerable quantity.

CURRENT TRADE CONDITIONS.

ONTARIO.

Manufacturers express absolute satisfaction with the volume of orders for white pine lumber, and seem confident that current prices will continue throughout the winter. There is more building in progress than at the corresponding time last year. In Toronto work is about to be started on a large apartment house to cost $150,000, and several other large buildings are projected and will be commenced this fall or early in the spring. Much building is under way in Ottawa, where contractors are finding difficulty in securing workmen.

The remarkable strength of the pine market is no doubt due in part to the almost certainty of a short log crop this winter on account of the many difficulties with which operators in the woods are meeting. Manufacturers are refusing to contract for logs at the prices which jobbers are asking, while it is not likely that those who put in their own camps will operate very heavily. Many reports are heard that the movement of lumber is being curtailed by the scarcity of cars. A Georgian Bay manufacturer writes that he is unable to fill orders, and that he looks for an advance in the price of hemlock and some grades of pine. Hardwoods are moving more liberally, several large shipments having lately been made to the United States. Mill owners are asking $15 for mill run ash, mill culls out, $14 for basswood, and $12 for soft elm. Birch and maple flooring are in good demand. Shingles are particularly active, and there is a moderate enquiry for lath.

QUEBEC AND NEW BRUNSWICK.

There appears to be a further improvement in spruce. The number of enquiries received by mill men shows that there is a strong disposition on the part of shippers to conclude arrangements for next year's supply, and it is believed that prices will show a substantial advance over those of the current year. The United States is buying largely of clapboards, dimensions, and shingles. The supply of clapboards is light. Sales have been made at $31 to $32 for extra spruce, and $29 to $30 for clears, Boston delivery. Some of the largest shippers of cedar shingles are sold out. The price of extras on Boston freight rate is $3.10 to $3.20; clears, $2.75 to $2.85. Higher prices are asked for lath, 1⅝ inch bringing $3.10 and and 1½ inch $2.90. No tran-

sactions are reported in square and waney timber, although several deals are said to be pending for the coming winter's output.

GREAT BRITAIN.

A somewhat pessimistic article appears in one of the British timber trade journals pointing out the fallacy of expecting that the proposed curtailment of the log crop in Norway and Sweden this winter will benefit lumber prices during the early part of next year. It is shown that the logs cut this winter will not reach the mills until the middle of next year, and many of them not until the following season. The first-open-water shipments will be the product of logs now at the mills. While these statements are doubtless correct, the fact remains that if a limited quantity of logs is cut this winter, there must be a corresponding decrease eventually in the quantity of lumber to supply the demand. This is the view taken by the trade generally, and it has inspired a degree of confidence. Speculators have entered the market, believing that purchases made at present prices will show a good profit next year. It is not expected that active buying will commence until towards the close of the year. White pine of best quality is in excellent demand, very little of this class being offered at auction sales. Spruce is also firm. A Liverpool importer is offering £7 per standard c.i.f. for a cargo from Nouvelle, Que. Buying is advised wherever suitable specifications can be obtained. A few lots of 12 feet x 3 x 9 inch first quality spruce, from Quebec, was recently sold in London at £12 per standard. In timber the market is quiet excepting in the case of oak, which is advancing in price owing to the light import.

UNITED STATES.

The log crop of the coming winter is one of the factors tending to strengthen the white pine market. It is estimated that the cost of taking out logs in the Minneapolis district will be 50 per cent. above normal, and that the supply for the Minneapolis mills will be lessened at least 100,000,000 feet by this cause. The scarcity and high cost of labor is the great difficulty. Reports of satisfactory trade come from the Lake Superior district and from the eastern distributing points Buffalo and Tonawanda dealers have recently made large sales throughout the Eastern States and are likely to go into the winter with less stock than last fall. In Cleveland trade is quite brisk. Several sizes of Norway pine have been advanced there one dollar per thousand, and 1¼, 1½ and 2 inch No. 1 shelving has also been marked up. In the Chicago market common inch is in excellent request at $17 for a fair grade. Piece stuff is also wanted, Norway bringing $13.50 to $14 and white pine a little more. There is a good demand in Chicago for white cedar shingles at $2.65 for 8-inch and better and $2.70 to $2.75 for 10-inch. Lath are selling freely at $3.25 for No. 1 white pine, $2.75 for No. 1 mixed pine, and $2.25 for No. 2 mixed pine and hemlock. Spruce prices throughout the Eastern States are firm. At Bangor it is reported that the demand for spruce lumber was never better. The spruce mills are operating to their full capacity, but are unable to meet the demand. A liberal amount of hardwood lumber is going into consumption, but there has been no improvement in prices. Manufacturers do not expect much activity in demand this year, but are looking for a good trade during the early part of 1902. Birch has shown some strength of late, being asked for more than the other woods.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Vancouver, B.C. : Str. Athenian, for Japan, 111,042 feet rough fir, 10,924 feet tongued and grooved flooring, value $1,518, by British Columbia Mills, Timber & Trading Co.

For Chatham, N.B. : Str. Polarstjeren, for Manchester, Eng., 2,930,040 feet deals, etc., by F. E. Neale, str. Selerno, for Dublin, Ireland, 1,731,651 feet deals, etc., by F. E. Neale.

From Montreal : Str. Parisian, for Liverpool, 7,184 pcs. deals, by W. & J. Sharples ; 1,570 pcs. boards, by R. Cox & Co. Str. Aggi, for Leith, 647 pcs. deals and ends, by R. Cox & Co. ; 1,295 pcs. deals and ends, by W. & J. Sharples; 7,703 pcs. deals and ends, by McArthur Export Co. Str. Samatian, for Glasgow, 960 bundles shooks, by Gilmour & Co. Str. Lake Ontario, for Liverpool, 714 pcs. lumber, by Dobell, Beckett & Co. ; 4,535 pcs. lumber, by J. Burstall & Co. ; 3,125 pcs. lumber, by Charlemange Lumber Co. ; 4,,067 pcs. lumber, by Watson & Todd ; 2,608 doors, by C.P.R. Str. Lord Charlemont, for Cardiff, 285 pcs. deals, by Dobell, Beckett & Co. ; 4,922 pcs. deals, by J. Bursfall & Co. ; 4,297 pcs. deals, etc., by Watson & Todd. Str. Montegle, for Bristol, 1,331 pcs. boards, by W. & J. Sharples ; 2,062 pcs. deals, by McArthur Export Co. ; 373 pcs. spruce boards, by Dobell, Beckett & Co. ; 10,097 pcs. deals by J. Burstall & Co. Str. Cebriana, for Antwerp, 300 pcs. deals, by Furness, Withy & Co. Str. Glen Head, for Dublin, 6,776 pcs. deals, by Watson & Todd ; 1,317 pcs. deals, by McArthur Export Co. ; 12 box boards, 706 pcs. lumber, 3,640 bundles staves, 1,196 bundles heading, by G.T.R. ; 1,488 pcs. scantlings, by C.P.R.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

Although the local mills will shut down shortly, shipping, especially by water, continues fairly active. Speaking of the export trade, Mr. J. R. Booth said : "Things look better in the English market. They were rather dull all summer, but there is now a better feeling amongst shippers." Mr. Booth stated that too much talk was made out of the change in the culling regulations, which were held partially responsible for the dull feeling in the English market. "It would take a shrewd, sharp man to detect any marked difference between the old and new order of things," stated Mr. Booth. The readjustment was in the interests of both buyers and sellers.

Speaking about prices, Mr. Booth stated that the market, while showing no advance, is stiff, and not likely to show any decline. The available stock is not a large one.

Mr. Booth still adheres to his decision to remove his mill plant from Ottawa to

(Continued on page 4.)

——CORRESPONDENCE SOLICITED——

some down river point. A site near Rockland where the mills of Mr. Edwards, M.P., are situated will probably be selected, although Hawkesbury and several other points are mentioned. "It is costing me too much money to handle my lumber in Ottawa," he stated. "I would be money in pocket if I established at a down river point."

Mr. H. K. Egan, of the Hawkesbury Lumber Company, who has just returned from his limits, states that operations will be brisk. Fully 2,000,000 feet of square timber alone will be taken out in the Ottawa and Georgian Bay districts. Amongst the firms getting out square timber are Robert Hurdman, Rideau Lumber Company, Ottawa; John Munro, Pembroke; McCool & Munro, J. R. Booth, Mickle, Dyment & Son, McArthur Lumber Company, besides several American concerns.

The sawdust nuisance in Ottawa has apparently been solved. Large quantities are now being shipped to Hawkebury, while more is spoken of for Kemptville, Montreal, and other outside points. The sawdust is being used as fuel. It is stated to be even better than coal for some purposes, while being considerably cheaper. Special cars have been fitted up for the transportation, and a trestle work platform has been erected on Britannia street near Booth's mill to expedite the work of loading the cars. Mr. Booth will erect a burner, but he does not expect to have to dispose of much of the sawdust in this manner.

The Hull Lumber Co. recently closed a contract to supply the General Electric Company, of Schenectady, N. Y., with a considerable quantity of pine lumber at ruling prices.

Ex-Mayor Bingham is busily engaged bringing the last of the Gatineau log drive to the Ottawa and Hull mills. "This has been the most expensive season I have met with in my 31 years experience," stated Mr. Bingham. "The water was very low, and more logs than ever are tied up along the shores. I have had to use large quantities of dynamite." Mr. Bingham states that the drive of logs shows an increase of ten per cent. over last season. On being threatened with prosecution, a number of summer residents and settlers along the Gatineau replaced or made good the value of logs which were unlawfully gathered for firewood.

A prominent lumberman stated last evening that a large sulphite mill will, in all probability, be erected next year at the Chaudiere, near the site of the Hull Lumber Company's mills. The Consumers' Electric Company is making extensive rock excavations and preparing a site for a power house. Mr. W. C. Edwards, M. P., and other prominent lumbermen and capitalists who are interested in the scheme, are said to favor the erection of a mill for the manufacture of sulphite pulp also.

Mr. Alex. Lumsden, M.L.A., the well-known lumberman, will likely contest Ottawa city again in the next provincial elections. Mr. Denis Murphy, also well-known to the trade, is spoken of as a likely Conservative candidate.

The officials of the Ottawa River Transportation Company state that only two-thirds the regular number of barges, or about 50 in all, were engaged in the lumber traffic during the past six months. The shortage in shipments was in the lumber billed for the English market. The unsettled condition of the market caused by the continuance of the Boer war is held in part responsible. A fleet of six barges was run on the Oswego route with American shipments. Shipping is brisk at present, but the lumber is nearly all being forwarded to the Montreal yards. The Transportation Company have a fleet of seventy-five barges and six tugs.

Ottawa, October 25th, 1901.

The steamer Seguin cleared from Parry Sound, Ont., for Ogdensburg, last week, with a cargo of 900,000 feet of lumber.

G. Grenkie, of Rosseau, Ont., has taken a contract to get out 500,000 feet of hemlock for P. Muchenbacker & Sons.

STOCKS AND PRICES.

In the Saginaw valley box lumber is bringing from $14 to $16, and mill culls $12 to $13.

Recent arrivals at Saginaw, Mich., included the following from Canadian points: Steamer Thew, from Midland, 231,475 feet, for Mershon, Schuette, Parker & Company; schr. Lester, from Midland, 381,854 feet, for Mershon, Schuette Parker & Company; schr. Monticello, from Midland, 337,395 feet, for the same firm; str. Langell Boys, from Algoma Mills, 479,101 feet, for the same firm; schr. J. B. Comstock, from Algoma Mills, 479,101 feet, for the same firm; schr. David Ferguson, from Spanish River, 307,056 feet, for the same firm; str. City of Concord, from Spanish River, 132,755 feet of lumber and 388,050 pieces of lath, for E. B. Foss & Co.; schr. J. L. Ketchum, from Spanish Biver, 571,313 feet, for Foss & Co.; str. Benton, from Spanish River, 300,021 feet of lumber, for Foss & Co.; schr. Jackson, from Spanish River, 579,635 feet of lumber, for Foss & Co.

S. L. Brundage, of Windsor, Ont., has secured a contract to supply the Lake Erie & Detroit River Railway with a large quantity of ties, posts and shingles.

The steamer Nether Holme is loading a cargo of deals at Miramichi, N. B., for London.

J. Carew, of Lindsay, Ont., expects to keep his saw mill running until the middle of December.

W. M. McKay, of St. John, N.B., is reported to have purchased from C. W. Robinson, of Moncton, several lots of timber land at Diligent river, paying $20,000 therefor.

J. W. Munro, of Pembroke, Ont., is putting in camps on his limits in the township of Whitman, and this winter will take out 200,000 feet of board timber. In the township of Harty he will take out a similar amount, besides a large quantity of saw mill logs. On his Mattawa limits he has large gangs at work, and expects to take out upwards of 400,000 feet of board timber for the Quebec market.

Two timber berths, totalling 12 square miles, situated on New and Lepreau rivers, Charlotte county, N.B., were sold at the Crown lands office, Fredericton, last week, to J. & L. B. Knight, at $8 per mile.

It is the intention of the Hanbury Manufacturing Company, of Brandon, Man., to take out sufficient logs this winter to keep the mill running for two seasons.

BUSINESS NOTES.

To the buyer of shingles the advertisement of the Hastings Shingle Manufacturing Company in this issue should be of interest. This concern have made a special study of the shingle situation and are in a position to offer an excellent quality of shingles in all of the standard sizes. They have two large mills in British Columbia, and make a specialty of mixed cards. Eastern dealers cannot do better than give them a trial order.

THE SCHULTZ BROS. COMPANY, LIMITED,
Brantford, Ont

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited.)

This company has a large tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads, one of which is about to be extended through the centre of the property. The Company are prepared to sell this timber in blocks ranging from 5,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

Gagnon & L'Heureux have registered partnership as shingle manufacturers at Coaticook, Que.

FOR SALE

Situated at Barrys Bay, Ontario, Parry Sound Division Canada Atlantic Ry, small Saw Mill, with Boiler, Engine, Carriage, Saws, etc., complete, together with some 50 acres of land, Railway Siding, etc. The location is a good one for Hardwood Lumber. Will sell cheap. Apply to THE RIDEAU LUMBER CO., Limited, 17 Elgin Street, Ottawa.

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

There will be offered for sale by public aution at the Auction Rooms of C. J. Townsend, Esquire, 28 King Street West, Toronto, on SATURDAY, THE 16TH DAY OF NOVEMBER, 1901, at the hour of 12 o'clock, noon, all those certain Timber Berths or Limits known as Berths Numbers 176 and 182, containing together about seventy-two square miles of land situate on the North Shore of Lake Huron, in the District of Algoma, in the Province of Ontario.

The limits will be sold in one parcel en bloc.

The limits will be sold without reserve.

TERMS OF SALE: 20% in cash at time of sale and the balance of the purchase money to be paid within thirty days thereafter without interest.

Estimates which have been heretofore made of the amount of timber upon the limits can be seen at the offices of the solicitors undermentioned, but these estimates are not in any way guaranteed.

Further terms and conditions of sale will be made known on day of sale or can be ascertained upon application to Beatty, Blackstock, Nesbitt, Chadwick & Riddell, 58 Wellington Street East, Toronto, or Messrs. McCarthy, Osler, Hoskin & Creelman, Freehold Loan Building, Toronto.

By Public Auction

Wednesday, December 18th, 1901,
at 2 p. m.

The undersigned has been instructed to offer for sale by public auction, at the above time and place (subject to the terms and conditions which will be produced at the time of sale), the following

VALUABLE TIMBER LIMITS IN SINGLE BERTHS

known as Berths "A," "B," "C" and "D," being 33, 13½, 17½ and 28¾ square miles respectively, on the north shore of Lake Huron, being Berth No. 10 of sale of 1885.

The above berths are amongst the best in the Province, very convenient for operating and getting in supplies. The timber is sound, and will be found to contain a large quantity of Long Timber suitable for Special Trade.

For Terms, Maps and other particulars apply to

PETER RYAN,
Toronto.

AUCTION SALE

Timber Berths

TOWNSHIPS 111 & 117 T98

North Shore Lake Huron,

AT THE

Board of Trade Rooms, Toronto,

—ON—

December 18, 1901,

AT 2 P. M.

The subscriber has been instructed to offer for sale, BY AUCTION, at the above time and place, and subject to the conditions which will be announced at the time of sale, the licenses for TIMBER BERTHS 111 and 117, on the NORTH SHORE LAKE HURON, and known as the Townships of

GOUGH AND DUNLOP

36 square miles each.

The above berths are licensed under the most favorable conditions, and in addition to a large quantity of pine there are other valuable woods, which are included in the licenses.

Terms of sale—One-third cash, and the balance one, two and three years, with interest at five per cent. per annum.

For maps and other particulars apply to

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

"There would be a heavy movement of stock if we could secure the necessary cars. As it is, we are doing a fair trade and are constantly receiving orders for both immediate and future delivery." These remarks, by a Georgian Bay manufacturer, express the condition of the trade generally. The situation is most favorable from the point of demand, and prices are firm. Some manufacturers have further advanced the price of uppers and selects, the supply of which is very limited. Box lumber has been enquired for quite largely during the week, and lath and shingles have maintained the strength which they have recently shown; in fact, it is believed that higher prices for them will rule before long on account of the small quantity in the hands of manufacturers. Shipping by vessel is quite active. Large shipments were made last week from Parry Sound, Collingwood and other Georgian Bay points to the Eastern States. The loading of vessels has emphasized the scarcity of men for lumbering operations. Some concerns have found it necessary to close down their mills in order to get a sufficient number of men to load the vessels. The enforcement of the regulations for the prevention of smallpox is interfering with work in the woods, as some men will not submit to the regulations so long as they can go to other camps where they are not imposed. It seems necessary to take steps to enforce the general observance of the regulations. Altogether, the outlook for logging operations this winter is not favorable, and a light cut is predicted.

More inquiries are reported for hardwood lumber, with maple and basswood leading in the improvement. Indications point to a more satisfactory trade during the winter months than was experienced in the summer.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber is gradually improving. Manufacturers on this side have learned with much satisfaction of the apparent turn of the tide in Great Britain. It is not probable, however, that the prospects of a good fair trade next year will cause manufacturers to increase their operations in the woods, as men are scarce and supplies high in price. A large trade has been done this year with the West Indies and South America. Lumber for the United States market is firm and moving moderately. Clapboards are selling $1 higher than last week, $32 to $33 being the quotation for extra spruce, and $30 to $31 for clears. Cedar shingles are firm at $3.10 to $3.20 for extras and $2.75 to $2.85 for clears, on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

Railway construction in Manitoba and the Territories is providing a market for a large quantity of timber. Several jobbers have been given important contracts for ties and poles. Building lumber is moving pretty freely. The value of buildings erected in the city of Winnipeg this year is expected to reach nearly $2,000,000. Most of the buildings have now reached the stage where finishing lumber only is required. Men are wanted for railway construction and to work in lumber camps. Prosperous conditions prevail in the lumber trade of British Columbia. Several large shipments of lumber, pickets and laths have recently been made to Australia. The ship-building industry is consuming considerable lumber. The export of cedar and fir logs to the United States has been very heavy this fall, as there is a prospect that the legislation prohibiting the export of logs from the province will be put into force next spring.

UNITED STATES.

Box manufacturers have lately been heavy buyers of No. 4 and No. 5 boards, and consequently the stock of these grades has become greatly reduced. As the one weak spot in the market was the lower grades, this reduction has given increased strength to white pine. Some manufacturers are buying stock to even up their grades, and some anxiety is expressed that the quantity of white pine lumber will not be sufficient to supply the demand until the cut of next year is ready for shipment. Predictions are made that prices will be advanced during the winter months. Great difficulty is being found in the Lake Superior district in obtaining men for the woods. It is said that not more than 25 per cent. of the men required by the Minnesota operators have been secured. Wages range from $30 to $35.

Values of lumber generally appear to be hardening. At Toledo 2 x 10 bill stuff, 12 to 16 feet, has been advanced to $17 ; 2 x 12, $20 ; and 18 feet and over, $1 higher for every two feet over 16 ft. engths. At Buffalo and Tonawanda the better grades of pine are scarce, and some dealers are asking a fancy price for uppers and selects. The spruce market continues strong, with prices practically unchanged. Mills are unable to keep up with the demand. More encouraging reports are heard concerning the hardwood trade. Maple, oak and basswood are among the best sellers, there being a very satisfactory demand for maple. Prices are still low, and there is a good deal of competition among dealers. The shingle market is exhibiting strength. In Buffalo the call is chiefly for red cedars, which sell on the basis of $4 for Perfections and $3.25 for extra Clears. A stronger tone prevails in the lath market, and some manufacturers are asking slightly advanced prices. It is anticipated that a still firmer tone will rule.

GREAT BRITAIN.

Pine deals are going into consumption quite freely in London and Liverpool. There is an actual scarcity of broad first quality pine deals. Prices, however, although continuing firm, show no material advance. In spruce there has been a marked improvement. From all the leading centres comes the report that spruce deals are in good demand and prices tending upwards. Contracts have recently been closed in London for 3 x 11 third quality at £9 and £9 5s., whilst 3x 9 second quality has brought £9 15s. Several transactions in cargo lots are also reported. A cargo from Nouvelle, Que., has been sold for delivery to Garston, on the Mersey, at £7 c.i.f., and a St. John cargo for the Bristol channel at same figure. Only one or two unsold cargoes are now in the hands of agents, and for these there are many enquiries. A Glasgow report says : "Spruce continues in good demand, and several lines have changed hands during the week at fair prices." From a Liverpool correspondent it is learned that values of spruce deals have advanced there, consequently higher prices have been talked of freely alround. The position is undoubtedly favorable for holders of this class of timber. Belfast also reports that spruce deals have advanced in price. One of the chief reasons why an improvement in spruce deals has taken place is that there is a return of confidence to the timber trade, and it is almost certain that other classes of timber will share in the improvement. Birch timber and planks are in better demand, with a slight improvement in prices.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Halifax, N.S. : Barque Nimrod, for Irvine, Scotland, 401,000 feet, value $4,100. Barque Jupiter, for Conway, England, 502,000 feet, value $5,000.

From Montreal : Str. Fremonia, for London, sailed Oct. 247,537 pieces deals, etc., by the Charlemagne Lumber Co. Str. Marina, for Glasgow, sailed Oct. 24, 2,172 pieces deals, etc., by Dobell, Beckett & Co.; 5,987 pieces deals, by McLaurin Bros. ; 2,517 pieces deals, by Watson & Todd. Str. Lake Champlain, for Liverpool, sailed Oct. 22, 13,576 pieces lumber, by J. Burstall & Co. ; 3,490 pieces lumber, by Dobell, Beckett & Co. ; 26,548 pieces lumber, by Watson & Todd ; 2,580 doors, 1,147 pieces oak lumber, 1,113 bundles wood pulp, by C.P.R. Str. Westphalia, for Hamburg, sailed Oct. 25, 3,249 pieces boards, by Watson & Todd. Str. Etolia, for London, sailed Oct. 23, 11,893 pieces lumber, by R. Cox & Co. ; 11,541 pieces lumber, by Cox, Long & Co. ; 10,284 pieces lumber, by Watson & Todd ; 8,432 pieces lumber, by J. Burstall & Co. ; 1,617 pieces of lumber, by Montreal Lumber Co ; 12,806 pieces lumber, by Charlemagne Lumber Co. ; 22 basswood boards, by M & L. Samuel Benjamin ; 4,429 pieces lumber, by C.P.R. Str. Escalona, for Aberdeen, sailed Oct. 25, 10,611 pieces deals, etc., by Watson & Todd ; 913 pieces oak, by C.P.R. Str. Australasian, for Liverpool, sailed Oct. 25, 2,181 pieces elm lumber, by G.T.R. ; 2,103 bundles pulp, by Laurentide Pulp Co. ; 8,895 pieces deals, by J. Burstall & Co.

From Vancouver, B.C. : Ship Battle Abbey, for Melbourne, Aus., 1,198,144 feet rough fir, 20,000 pickets, 120,000 laths, by British Columbia Mills, Timber & Trading Co. Tug Albion, for United States, 307,000 feet fir logs, value $1,305, by W. R. Jones. Schr. Kailna, for Melbourne, Aus., 764,825 feet rough fir, 30,000 pickets, 180,000 laths, value $6,630, by British Columbia Mills, Timber & Trading Co. Tug

(Continued on page 4.)

Progress, for Hingham, 31,616 feet plank, 80,300 feet scantling, 37,000 shingles, by A. Cushing & Co. Schr. W. Elkins, for Providence, 427,400 laths, 145,589 feet plank, 16,636 feet scantling, by Dunn Bros. Schr. Pardon G. Thompson, for New York, 194,108 feet deals, by A. Cushing & Co. Schr. Walter Miller, for City Island, 186,129 feet deals, by Stetson, Cutler & Co. Str. Ocamo, for Bermuda, 2,788 bundles shooks, by John Galey & Co.; 3 bundles shooks, by G. & G. Flewelling Manufacturing Co.

From Yarmouth, N. S.: Schr. J. H. Orns, for Boston, 90,000 feet lumber, 5,000 laths, value $680, by Dickie & McGrath. Barque Johanna, for Newport, Eng., 440,000 feet deals, value $4,801, by Dickie & McGrath. Schr. D. H. Rivers, for Montevideo, 906,000 feet lumber, value $10,803, by Dickie & McGrath.

Charles Pedwell, of Lion's Head, Ont., recently made a shipment of 250,000 feet of hardwood lumber.

SHIPPING MATTERS.

Recent charters include the steamer Coringa, 1,366 tons, St. John, N.B., to w. c. England, deals, 40s., and the steamer Kronbourg, St. John, N.B., to w. c. England, deals, 36s.

An extraordinary condition now prevails in the shipping world. Freight rates are unprecedently low, and along the Atlantic coast hundreds of ships are idle. It is said that nothing like the present depression has been known in the freight markets since 1890.

TRADE INQUIRIES.

The following were among the enquiries relating to Canadian trade received at the Canadian Government Office in London, Eng., during the two weeks ending October 4th, 1901;

A gentleman in Glasgow conversant with the timber trade desires to represent on commission several well established firms shipping Canadian white pine.

A broker and agent at Durban, Natal, desires to be placed in communication with some good Canadian houses manufacturing goods suitable for the South African market.

An agent at Genoa, Italy, is open to take up the representation of Canadian firms exporting goods such as lumber, etc., suitable for the Italian market. He is also desirous of appointing an agent in Canada for the sale of a well-known brand of olive oil.

The names and addresses of the parties making the above inquiries may be obtained at the office of the CANADA LUMBERMAN.

PERSONAL.

Mr. C. D. Warren, president of the Imperial Lumber Company, has recently been elected president of the Traders Bank.

The friends of Mr. John Donogh, formerly of the firm of Donogh & Oliver, will be pleased to learn that as a result of a considerable stay in Muskoka during the summer, his health has been entirely restored and he is again in harness. Mr. Donogh has connected himself with the Imperial Lumber Company, of Toronto. The company has recently been reorganized and is moving into new offices in the Traders Bank Building.

The amalgamation is announced of the Canada Wood Specialty Company and N. Janes & Sons, of Orillia, Ont., under the name of The Canada Wood Specialty Company, Limited. Mr. J. H. Lavallee is president; Mr. George Thompson, vice-president; and Mr. C. B. Janes, secretary-treasurer and manager.

STOCKS AND PRICES.

Jesse Cook is reported to have purchased a 400 acre timber limit near Orillia, Ont.

Last week the Parry Sound Lumber Company shipped about 5,000,000 feet of lumber by vessel.

In the Saginaw valley log run pine is quoted at $18 to $25, box lumber at $14 to $16, and mill culls at $12.

A report comes from Bangor, Me., that Congressman Powers has sold 107,000 acres of spruce timber lands for $500,000.

Lath are in request in the Chicago market at $3.25 for No. 1 white pine, $2.75 for No. 1 mixed and $2.25 for mixed pine and hemlock.

The call for cooperage stock is light, and there is a weaker tone to the market. In Chicago tierce hoops range from $12 to $12.50, and tierce staves from $21 to $22.

W. M. McKay, of St. John, N.B., is reported to have purchased from C. W. Robinson, of Moncton, several lots of timber land at Diligent river, paying $20,000 therefor.

S. B. Trick, of Oshawa, has purchased a timber limit on the shores of Gull Lake. The timber will be manufactured in the mill at Norland recently purchased from Stephens Argue.

William Anderson, of Quebec, has sold to Champoux Bros., of Disraeli, about 200 square miles of timber limits on Causapscal River and Salmon Lake, in the province of Quebec, at $125 per mile.

R. P. Murphy, of Rat Portage, Ont., has been given a contract to get out a large quantity of ties this winter for the C.P.R., and has commenced work on his limit on Sturgeon Lake.

Eastern capitalists are reported to have purchased 15,000 acres of timber limits near Big Bend, B. C. They have purchased the saw mill across the lake from Arrowhead and intend removing the plant to a new site.

The Manitoulin and North Shore Railway Company, of Sault Ste. Marie, Ont., have just taken tenders for the supply of 55,000 railway ties and 580 telegraph poles, to be used in connection with the construction of the road between Spanish River and White Fish Bay.

The largest timber sale ever recorded in the south was made last week, when the Hayward Timber Company, of Davenport, Iowa, sold 81,000 acres of timber limits situated in Grant, Hot Springs and Dallas counties. The price paid is understood to have been $1,125,000.

J. W. Munro, of Pembroke, Ont., is putting in camps on his limits in the township of Whitman, and this winter will take out 200,000 feet of board timber. In the township of Harty he will take out a similar amount, besides a large quantity of saw mill logs.

AT 2 P. M.

The subscriber has been instructed to offer for sale, BY AUCTION, at the above time and place, and subject to the conditions which will be announced at the time of sale, the licenses for TIMBER BERTHS 111 and 117, on the NORTH SHORE LAKE HURON, and known as the Townships of

GOUGH AND DUNLOP

36 square miles each.

The above berths are licensed under the most favorable conditions, and in addition to a large quantity of pine there are other valuable woods, which are included in the licenses.

Terms of sale—One-third cash, and the balance one, two and three years, with interest at five per cent. per annum.

For maps and other particulars apply to

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Our Ottawa correspondent tells of the feeling of confidence that is exhibited by the lumbermen of that district. It can truly be said that this optimism is not confined to the Ottawa valley, as the trade generally take a hopeful view of the outlook for pine lumber. The market is strong, although, as might be expected at this season of the year, the demand is not particularly active. There has been some searching around for twelve inch boards, which have been bought up for export, partly on account of an improved demand from South America. The buying of box lumber has also been more pronounced, but this has had no effect upon prices, as in this line there is no unusual scarcity o stock. The short supply exists in the upper grades.

Hardwoods are being bought by those who have studied the situation. Prices are now very low, as no advance of consequence has been made for some time. Lower prices, therefore, are not to be looked for, while an increase in consumption would have the effect of raising values. Stocks are not heavy excepting in the lower grades.

QUEBEC AND NEW BRUNSWICK.

Prices of square and waney timber are unchanged. It is reported that a Hamilton firm have sold their coming winter's production of square pine, but prices have not transpired. The trade generally do not expect that higher prices for square and waney timber will rule in the near future. The market for spruce is quite firm, with many enquiries for the best quality. A very satisfactory trade in clapboards and other thin lumber has lately been done with the United States. The upward movement in shingles has continued during the past week, and on Boston rate of freight extra cedars are now quoted at $3.15 to $3.25; clears at $2.85 to $2.95; second clears at $2.35 to $2.45; saps at $2.10 to $2.20, and extra No. 1 at $1.75 to $1.80.

There were shipped from St. John up to the end of September of this year 146,166,604 feet, as compared with 214,648,565 feet for the corresponding period of 1900. This is a decrease for this year of over 68,000,000 feet. Of the above quantity 15,732,729 feet were shipped to Australia, France, Spain, Africa, Italy and Portugal, and the balance to Great Britain.

UNITED STATES.

A slight falling off in demand is reported by wholesalers of northern pine, but when it is considered that the shipments from the Lake Superior district this year will show an increase of 15 per cent. over the previous year, it is not surprising that there should be a slackening up of business. Yet the pine market continues strong, with a probability of higher values for the better grades of pine, of which there is a decided scarcity. In Chicago, New York and other large cities the activity in building operations continues. Buffalo dealers report a very active trade. Our price list this week shows an advance of $3 on uppers and $1 on No. 1 cutting up stock, 1¼ and 1½ inch thick. It has been found that there is a scarcity of both No. 1 and No. 2 cuts, and it is said that as high as $36 and $23 respectively has been offered. Box lumber is in fair demand. The firmness of spruce lumber is the feature of the eastern trade. It is scarce at producing points and manufacturers are finding difficulty in filling orders for immediate requirements. The hardwood trade is about as it has been throughout the fall, with a fair movement of stock but no particular snap to the demand. Common and cull white ash is a little higher in Buffalo. Maple flooring is much inquired for and scarce, and present conditions would warrant an advance in price. Shingles are in excellent request.

GREAT BRITAIN.

The tone of the British timber market is distinctly better. More confidence is shown than for many months past. Although Canadian pine deals are still in heavy stock, a slight improvement in values is reported. For first quality pine deals in 9 and 11 inch, the market is quite firm, while third and fourth qualities are plentiful and somewhat easier. Considerably advanced prices are being asked for spruce deals. A cargo from Cape Tormentine, N.B., has been sold to a Liverpool firm at £7 10s, and still higher prices are looked for before the close of the season. Prices of spruce on the west coast have advanced at least 20s. per standard within the past six weeks, although in the London market and on the east coast the competition from other whitewood has kept prices from advancing in the same proportion. It is thought that next spring will find the market short of 9 and 11 inch spruce deals. In London sales of Quebec deals were made last week at £9 15s for second quality and £9 2s 6d for third quality, and £10 per standard is predicted for February and March, 1902.

The import of square and waney timber during the month of October was light, but in most classes the stock on hand is still heavy. Inferior wood is a drug on the market, while best quality is in fair demand. Birch logs and planks have strengthened of late, as deliveries have been on a moderate scale and consumption very satisfactory.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Victoria, B. C.: Str. Kama Kura, for Hong Kong, rongh lumber, value $353. Str. Braemar, for Hong Kong, rough lumber, value $350. Schr. Forester, for Santa Rosalia, mining props, value $1,398, and rough lumber, value $219.

From Vancouver, B. C.: Ship Benj. Sewell, for Western Australia, 1,001,555 ft. rough fir, 270,000 laths, value $9,487, by Robert Ward & Co. Tug Fearless, for United States, 268,000 feet cedar logs, value $1,340, by M. Moran.

From Montreal, Que.: Str. Pretorian, for Liverpool, sailed November 1st, 99 bundles shooks, 321 bundles shooks, by Canadian Atlantic Railway; 3,507 pieces lumber, by E. H. Lemay; 9,254 pieces boards and deals, by Watson & Todd; 802 pieces boards and deals, by W. and J. Sharples; 2,071 pieces boards and deals, by McArthur Export Co.; 57,267 pieces boards and deals, by Robert Cox & Co Str. Manchester Shipper, for Havre, sailed November 4th, 12,580 pieces pine boards, 6,934 pieces pine boards, by McArthur Export Co.; 29,132 pieces pine

deals by Watson & Todd; 17,257 pieces pine deals, by n J. Burstall & Co.; 562 doors, by G. T. R. Str. Memnon, for Bristol, sailed November 4th, 5,553 pieces lumber, by Watson & Todd; 1,725 pieces lumber, by Montreal Lumber Co.

From St. John, N.B.: Schr. Ina, for Portland, 117,594 ft. scantling, 2,034,000 shingles, by A. Cushing & Co. Barque Dilbur, for Barcelona, Spain, 1,154,246 ft. deals, 29,363 ft. ends by A. Cushing & Co. Schr. E. H. Foster, for Boston, 1,098 ft. scantling, 132,017 ft. plank, by Stetson, Cutler & Co. Schr. Fanny, for Boston, 102,601 ft. scantling, by A. Cushing & Co. Schr. H. A. Holder, for Medford, 64,290 ft. pine boards, 47,903 ft. spruce boards, 267,000 laths, by Murray & Gregory. Schr. Bonnie Doone, for Boston, 161,536 ft. deals and boards, by A. Cushing & Co. Schr. Lotus, for New York, 740,000 laths, by A. Gibson Railway & Mfg. Co. Schr. Domain, for Boston, 65,285 ft. hemlock boards, 5,548 ft. spruce boards, by J. E. Moore. Barque Loreto, for LasPamas, 138,707 ft. spruce boards, 14,327 ft. spruce planks, 17,199 ft. scantling, 357,250 ft. pine boards, 29,901 ft. pine plank, 238,450 ft. spruce laths, by A. Cushing & Co. Schr. Lizzie D. Small, for Bridgeport, 572 pieces piling, by John E. Moore. Schr. W. F. Green, for Barbadoes, 202,000 ft. pine boards, 14,000 ft. plank, 13,000 ft. spruce boards, by L. G. Crosby. Schr. Jos. Hay, for New York, 803 pcs. piling, by James Holly & Son. Schr. W. H. Waters, for Boston, 14,607 ft. boards, 83,476 ft. planks, 49,475 ft, deals, 26,715 ft, spruce scantling, by A. Cushing & Co. Schr. Roger Drury, for Philadelphia, 1,872,500 laths, by A. Cushing & Co.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

The lumber market here continues firm, with no indication of weakening. On the contrary, reliable authorities predict an upward move. Dealers do not complain of difficulty in securing business. Owing to a continued shortage of cars, they find great trouble in filling orders. One leading mill firm is reported as being in need of 300 cars with which to ship stock orders for which were placed weeks ago. The western grain trade has the call on cars, and the lumbermen will have to "bide a wee."

This being the last month of navigation, a rush of lumber for Montreal was witnessed, but this is now over. Future shipments must be made by rail.

As an evidence of the firm tone of the market, it may be stated that a large quantity of prime s. c. strips was recently disposed of by a mill firm at $15 per M. Local dealers who had large holdings in this line, and were feeling shaky, have taken heart. Mention in the same connection may also be made of the wholesale price of lath. Six weeks ago a large quantity was secured by a well-known firm from the mill at $1.75 per M. for No. 1, and $1.25 per M. for No. 2. Today the lath could not be bought in the same way at less than $2.10 for No. 1 and $1.65 for No. 2. The lowest retail figure quoted is $2.25 for No. 1 and $2 for No. 2. In Cleveland, Ottawa high grade lath sold recently as high as $4.00 per M. A considerable quantity has also been shipped by local firms to points in Pennsylvania. This outside demand, if it continues, will in itself have a strong tendency to maintain local prices. This fall Mr. J. R. Booth has made several good sized shipments to Chicago, all being good stock. The Windy City furnishes a comparatively unexplored field for the product of the Ottawa mills.

Speaking about the prospects recently, a local lumberman said: "There is every reason why present prices, if they change, should advance. Labor is much higher, supplies are dearer, and the cost of getting out the logs shows an advance all round. The mill men have to go farther from the mills, and hence have to make a greater financial allowance for bringing the logs to the mills. Ottawa shippers are finding new fields in the United States, and besides expect to cater to an increased local demand next year. Everything indicates that prices for 1902 will be higher than those of 1901.

If negotiations pending reach a satisfactory issue, a new saw mill will be erected this fall or early next spring at Deschenes, near Ottawa. The site spoken of is the one on which the Conroy mill, burned two years ago, stood. The new mill will be operated by steam, and fitted with machinery giving a yearly output of 50,000,000 feet. It is being planned by local limit holders, who at present have no mill at which to cut. Fraser & Company are in the syndicate. It is hoped to have the mill running early next July. As the river is already laid with booms, and the storing and shipping facilities in the yards provided for, there will be no delay in outside work.

J. R. Booth against the world. This apparently is the status in an interesting law suit involving large interests which will soon be fought out in the local courts. It all arises over the manipulation of the water power at the Chaudiere, Ottawa's industrial centre. Mr. Booth is building a new dam in the river, and doing work on the site of the old McKay mill which it is alleged will interfere with the rights of the other companies utilizing the water power below the Booth premises. The lumber king contends that he is well within his rights working on his own property, and interfering with no one else's rights. The companies arrayed against him include the Ottawa Electric Railway Company, Ottawa Electric Company, Ottawa Power Company and Ottawa Carbide Company. The case is looked forward to with great .ntererest.

Davidson & Thackray, the well-known local lumber manufacturers, have again turned an eye on the South African market. A representative has been sent to the country of Boer and bullet to drum up trade. Offices will likely be opened at Cape Town and Johannesburg. Before the war this firm had quite a large trade with South Africa. They did a good business, shipping doors, sashes and interior fittings.

Ottawa, November 11th, 1901.

SHIPPING MATTERS.

The steamer Coringa is about to load deals at Quebec for the w.c. of England, on account of Dobell, Beckett & Co.

The following charters are reported: Selerno, Miramichi, N. B., to w.c. England, deals, 45s, Movember; Mara, same ports and terms.

TRADE INQUIRIES.

The following were among the enquiries relating to Canadian trade received at the Canadian Government office in London, Eng., during the week ending November 1st, 1901:

The makers of lifting machinery, chain pulley-blocks, hoists, cranes, girder work, etc., are making enquiry respecting the opening for a trade for these goods in Canada.

A firm of trunk makers wish to correspond with Canadian exporters of wooden slats in various lengths from 28 to 42 inches.

The names and addresses of the parties making the above inquiries may be obtained at the office of the CANADA LUMBERMAN.

BUSINESS NOTES.

The saw and grist mill of Wm. T. Mace, of Tamworth, Ont., has been sold to L. J. Squair.

A receiver has been appointed for the Standard Agency Company, wholesale lumber dealers, of Montreal and Ottawa.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

FOR SALE.

—CORRESPONDENCE SOLICITED—

A correspondent of Timber, of London, Eng., makes the following reference to the spruce market : "The only feature of interest in the trade of this port at the present time is the firmness of the spruce market. Quotations for this wood are advancing, owing, it is said, to the scarcity of certain sizes. The upward tendency has not affected any other branch, although, with the exception of pine, nearly all woods are steady. No large transactions are reported as taking place, and the orders that are coming to hand are all for small quantities. There appears to be no falling off in the actual number of orders, but they are certainly for much smaller quantities than they were a twelvemonth ago. This would seem to prove, if it proves anything, that country buyers are operating with extreme caution, and working from hand to mouth, with the object, no doubt, of being able to do better later on. But, as already stated in these notes, there are no indications that there will be a further all-round fall in values ; on the contrary, a rise is far more probable. Stocks here of some classes of goods are certainly heavy, but they are strongly held, and are not likely to be sold at any great sacrifice. It certainly looks as if prices had now reached their lowest possible limit, so that buyers will hardly improve their position by holding off their order."

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, in their last monthly circular, thus review the Glasgow market : WANEY BOARDWOOD AND SQUARE WHITE PINE.—The import during the month has been small—about 300 loads. The enquiry during the month has been quiet, and, with the exception of a few retail sales, there has been no business passing. Prices are firm, and the stock is moderate. RED PINE.—There has been an import during the month of about 100 loads. The stock is low, but is ample for all requirements. OAK.—There has been no further import during the month, and general business has been quiet, though the railway companies have fixed a few lines of their special sizes. ELM.—The import during the month has been about 250 loads. The stock is heavy, and the demand during the month has been disappointing. Prices for good quality are firm, but are low for second quality or soft elm. BIRCH.—Quebec.—The import for October consists of about 200 loads, some of which were sold "ex quay" and the balance stored. One lot of indifferent quality 17-inch average was sold at 16d. "ex quay." The demand is very languid, and only retail sales of a trifling description are being effected. In lower port birch there have been a few sales made at unsatisfactory prices, it is reported. There have been no transactions in planks during the month. ASH.—The import for October is comparatively trifling, and it is to be hoped that very little will come in this year, as the market is quite overstocked as it is, and very little is moving off, unfortunately. Until the cabinetmaking trade improves there is no chance of the stock being appreciably reduced. DEALS, &C.—A fairly active business has been transacted during the month, and deliveries from public yards are well maintained. First pine deals, especially broads, are scarce, and prices are firm. Third and fourth qualities are plentiful and somewhat easier. Spruce has been in fair demand, and prices are improving. Current values are as follows : Broad First Pine Deals—£26 to £25 ; 11-inch, £23 to £25 ; ends and non-dimensions, £18 to £22. Second Pine deals—11-inch and gp, £18 10s. to £21 ; non-dimensions, £2 10s. to £15. Third Pine Deals—11-inch and up, £11 7s. 6d. to £12 ; ends and narrows, £8 10s. to £10. Fourth Pine Deals—11-inch and up, £9 to £9 10s. ; narrows, £7 15s. to £8 5s. Red Pine Deals—9 and 11 inch, £8 10s. to £9 10s. ; narrows, £7 5s. to £7 15s.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West ; therefore, orders for straight or mixed cars send us direct or through the above agents will have equal, prompt and careful attention.

STOCKS AND PRICES.

In the Saginaw valley white pine 18 inch XXXX shingles are held at $3.80; clear butts, $260; 18 inch cedar XXXX, $3.45; clear butts, $2.35.

The Saginaw Lumber & Salt Company are this winter taking out square timber in the township of Levack, recently purchased from the Ontario Government.

The Nova Scotia Steel & Coal Company are about to build a large shipping pier at North Sydney, N.S., the construction of which will require 850,000 feet of hard pine, 21,000 lineal feet of creosoted piling and 300,000 feet of spruce planking. The pier, it is said, will cost $100,000.

Receipts of lumber at Buffalo by vessel this season have been 167,258,000 feet, as against 133,320,000 feet last season. Shingles show a decrease, the amount being 87,467,000, as compared with 115,841,000 last year. Of lath 8,000,000 have been received, which is nearly double that of last year.

W. H. Murray, president of the Fredericton Boom Company, states that it has been decided not to endeavor to drive this fall the logs stranded above Grand Falls, N.B., but to concentrate all efforts to bring the logs below the falls into the boom. A despatch from Fredericton, dated October 25th, stated that the water was again falling, and that unless there was an immediate rise the chances of getting the 15,000,000 feet of logs into the booms were very poor.

Of the Barbadoes market the trade circular of Clairmonte, Man & Company says: "There have been no arrivals with lumber during the fortnight ended October 26th and yards are bear of white pine and spruce, especially the former. We value the first arrival of white pine at from $25 to $26 for merchantable, and of spruce at $19 to $20. Long cedar Gaspe shingles are wanted. Last sales have been at $4.05 to $5.30 per M, according to quality. We note the arrival of the James W., from Paspebiac, Que., with 422,000 long and 346,000 dimension shingles. The last sale of cedar laying shingles was at $1.75 and spruce laying at $1.55."

Under date of October 19th, Messrs. S. P. Musson, Son & Company say of the Barbadoes lumber market: "A cargo of about 200,000 feet of white pine, principally second quality, has been contracted for at $25 and $20 respectively, and we have also sold a small cargo to arrive at similar rates. Some dealers are quite bare and first receipts should command about above prices. In spruce we have contracted for a cargo for the dealers, and from next month on there will be the demand setting in for crop requirement, although the quantity wanted will probably be less than last season. A small lot of dimension cedar shingles, ex. Canadian steamer, is the only receipt. They brought $4 for 4 inch, $6.65 for 5 inch, $7.15 for 6 inch, and $8 for 7 inch. Some dealers are bare of laying cedar shingles, but others having stocks laid in at low rates, would preclude anything over our last quotation being paid. We have just placed a million to arrive at $2.

FOR S

Valuable hardwood timber limit. Berth No. 3, Township Nipissing, on which there is basswood, spruce, hemlock, dry pine and other woods. Portions of 9th to 18th Con. Township Nipissing, 17 square miles. Also patented lands 32 and 33' on which there is a mill and buildings worth $3,000. For terms and particulars apply to J. CREIGHTON, Solicitor, Box 56 or 59 Victoria St. Toronto.

AUCTION SALE

Timber Berths

TOWNSHIPS III & 117

North Shore Lake Huron,

AT THE

Board of Trade Rooms, Toronto,

—ON—

Wednesday, December 18, 1901

AT 2 P. M.

The subscriber has been instructed to offer for sale, BY AUCTION, at the above time and place, and subject to the conditions which will be announced at the time of sale, the licenses for TIMBER BERTHS 111 and 117, on the NORTH SHORE LAKE HURON, and known as the Townships of

GOUGH AND DUNLOP

36 square miles each.

The above berths are licensed under the most favorable conditions, and in addition to a large quantity of pine there are other valuable woods, which are included in the licenses.

Terms of sale—One-third cash, and the balance one, two and three years, with interest at five per cent. per annum.

For maps and other particulars apply to

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

Assisted by fine weather, the lumber trade is making a most satisfactory showing for the month of November. Upon the close of navigation, which will take place very soon, the yards will have light stocks to carry into the winter. Some of the mills have been compelled to close down earlier than expected on account of inability to secure workmen. Prices of pine lumber are hardening. While there has been no further advance in the upper grades, the weakness in the lower grades has disappeared. This is particularly the case in respect to box lumber and mill culls, which are selling fully one dollar higher than a month or six weeks ago. The market for these grades is advancing, owing to the light supply, and many predict much higher prices before next spring.

Although no change has been made in prices for lath as quoted on page vi., some sales are being made at higher figures, and the position of stocks warrant a considerable advance, which will doubtless take place within one month. Shingles are higher. XX pine are selling in Toronto at $1.80 to $1.90, and XXX at $2.60 to $2.70. For XX $1.60 is being asked at the mill. There is much speculation as to how far the price of shingles will advance, as the supply is exceptionally light. Inquiries sent out to Georgian Bay millmen reveal the fact that there are very few shingles to be purchased. As an illustration of the scarcity a manufacturer who almost invariably has gone into winter quarters with from 15,000,000 to 20,000,000 shingles, is this winter completely sold out; while others are intimating that $1.70 will be their next quotation for XX.

Hardwood prices are steady. The demand is heavier than a fortnight ago. Soft elm and maple are exhibiting less strength than other hardwoods. Manfuacturers are showing little disposition to cut prices, apparently looking for an early improvement in the demand.

QUEBEC AND NEW BRUNSWICK.

Shipments of spruce lumber from Montreal within the past fortnight have been quite numerous, although mostly of small lots. As the close of navigation is drawing near, interest is turning to the volume of the wintering stock. No figures are yet obtainable, but when they are given out it is possible that they will show a smaller quantity than is generally expected. Quebec shippers who are in touch with that market seem confident of a sharp recovery in prices next season. From the eastern provinces the shipments to Great Britain during the past week have been light, but a considerable quantity of clapboards and shingles has been shipped to the United States. Clapboards are scarce and strong at last quotations. The advance in the price of cedar shingles has been maintained. One or two manufacturers are asking as much as $3.25 for extra cedars, on Boston freight rate.

UNITED STATES.

Taking the lumber market of the United States as a whole, it seems to be in excellent condition. The demand for white pine has fallen off slightly, but the effect of this upon prices has been more than offset by the closing down of the mills in the Mississippi district about one month earlier than last year. The upper grades are particularly strong and are being advanced in many markets. Recent sales at Duluth have been at the highest prices of the season, while still higher figures are predicted before the new year. The large supply of low grade stock will likely prevent any material advance in the price of these grades, although No. 4 and No. 5 boards have lately shown more strength and a better movement. No. 3 boards are selling in the Duluth market at $13.50. The east is buying quite liberally, as the open weather has permitted the continuation of building operations. Thick No. 1 cuts have been sold in the Buffalo market at $43. Box grades are selling at $16 to $19 and mill culls at $15. Stocks at Tonawanda and Buffalo are broken, a condition never known to exist heretofore during the closing weeks of navigation. There is a heavy inquiry for box lumber.

A continuation of the better feeling in the hardwood trade is the only favorable feature. There has been no perceptible improvement in the demand, although furniture factories are buying a good deal of maple. Elm and basswood are holding their own in price and would doubtless improve if the demand should pick up. The high prices for spruce continue. Mills at Bangor, Portland, and other points are being operated to their full capacity to supply requirements. In Boston 10 and 12 inch dimensions are selling at $12; 9 inch and under at $18 to $18.50; and 10 and 12 inch random lengths, 10 feet and up, at $19 to $19.50.

The shingle situation is as favorable for the producer as it well could be. Dealers and manufacturers are unable to find a sufficient quantity to fill orders. Our Albany list shows an advance of 25 cents on lath, which are selling there at from $2.75 to $3.00.

GREAT BRITAIN.

In many respects the outlook in Great Britain is improving. The import season is considered at an end, and the trade are now in a position to estimate the quantity of stock available to supply the requirements of the winter and early spring. The Board of Trade returns show thar the import of sawn lumber has been lighter than last year, although the stock on hand is slightly heavier. Consumption is fairly active, and will no doubt result in reducing the quantity on the market to a normal basis before next season's shipments arrive. Recent auction sales in London have shown an advancing market for pine and spruce, and particularly for 2 x 4 scantlings. Quebec pine deals have not made as great improvement as spruce. As an indication of the trend of the spruce market, it is announced that a cargo from West Bay was last week sold to the Bristol channel at £7 10s., while one month ago such a price would not have been considered by the buyer. A parcel of Halifax spruce is reported to have been sold in London at £7 7s. 6d. c.i.f. Waney board pine is going into consumption freely, a cargo from Quebec lately received at Liverpool having met with a ready sale. A noticeable feature is the reduced stock of birch planks and logs. In August last a parcel of planks was sold at Liverpool at £5 10s. per standard, and it is doubtful that a similar parcel could now be bought under £7 per standard. Birch logs are in strong demand and prices are decidedly firmer. Elm has been inquired for, but the heavy stock of this timber is keeping the price down, and very few sales are made above 3s. per cubic foot.

STOCKS AND PRICES.

The cooperage stock market is quiet, with some activity in slack hoops. Prices at Buffalo are as follows; First-class dry elm flour barrel staves, $7.25 to $7.50; basswood headings, 5¼ to 5½ cents; coiled hoops, $7.75 to $8 for 6 foot, $7.25 to $7.50 for 5½ ft.

Prices for shingles at Tacoma, Wash., continue on the basis of $1.05 for red cedar stars, and $1.80 to $1.85 for clears.

Lath are selling at Duluth at $2.90 for No. 1 and $2.25 for No. 2.

J. W. Cochran, J. N. Cochran, S. J. Soley and G. Kerr have purchased, for about $45,000, the Smith & Hatfield timber lands at Fox River, N. S., and will engage extensively in lumbering at that place.

The barges Porter Chamberlain and H. J. Webb loaded lumber at Little Current,

Ont., about two weeks ago for George Morley & Company, of Detroit. The barges ran aground on Darch Island and it is announced that both have since been burned.

Charles Stone, of Sawyerville, Que., has purchased a timber limit near this place on which he will operate this winter.

C. I. Keith, of St. John, N. B., has taken a contract to cut 2,000,000 feet of lumber for C. M. Bostwick & Co. at Great Salmon river.

The Dominion Government is asking for tenders up to December 3rd for supply of telegraph poles for a line from Alberni to Clayoquot, B. C., a distance of 75 miles.

W. R. Thompson, of Teeswater, Ont., recently purchased 150,000 acres of timber lands near Paisley, Ont., on which he is logging this winter. The timber is mostly maple and elm

Hugh Brown, Paul Brown and George Gordon, of Parrsboro, N. S., have contracted with the Parrsboro Lumber Co. to cut and manufacture the timber on their East Avon property.

Gilmour & Hughson, of Hull, Que., expect to float in a few days about 2,000 logs stranded in McLaren's Bay, about 1,000 at Hamilton's camp, Hull, and 5,000 at the Little Chaudiere.

The estimated log cut on the Restigouche river, in New Brunswick, this winter is 30,000,000 feet, or 5,000,000 feet short of that of last year. The operators find it impossible to get men for the woods.

John Moore, of Blissville, N. B., who purchased the Todd timber land on the south branch of the Oromocto river, has commenced operations with about forty men. Smith Bros. will have four crews lumbering on the Shin creek.

The Department of Indian Affairs, Ottawa, are asking for tenders up to 22nd inst. for purchase of 25,000 cedar railway ties, 10,000 cedar posts, 300 cords pulp wood, and 500 cedar saw logs which it is proposed to have made by the Indians of Manitoulin Island during the ensuing winter.

The lumbermen on the St. Croix river, in New Brunswick, are planning to get out about 22,000,000 feet of logs this winter. H. F. Eaton & Sons will operate largely above Princeton. McLellan will haul 1,000,000 feet for them, the Moore concern another million, and a camp of their own probably another million. About 2,000,000 feet will be put in for them on Tomah stream by Thomas Hill and others. On the east branch George Bubar will put in about 1,000,000 feet for them. F. H. Todd & Sons will cut about five and one-half million feet. Granville Chase will cut about a million feet up and down the river. James Murchie & Sons will cut about 6,000,000 feet, divided among several small operators. The Bonny River Lumber Company will put in about four and one-half million feet. Mercier & Sons will confine their operations to white birch, while Ira Hicks will cut about 1,000 cords of stave wood for his new mill at Vanceboro.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue :

From Halifax, N.S. : Schr. Glynden, for New York, 104,000 feet, value $936. Sch. Ulunda, for Liverpool, Eng., 337,716 feet value $3,265. Brigt. Alrato, for New York, 130,009 feet, value $1,300. Str. Benedict, for Bermuda, 67,612 feet, value $240.

From St. John, N.B. : Schr. Thistle, for Greenwich, 175,898 feet scantling, by A. Cushing & Co. Schr. Susie Prescott, for Bridgeport, 450 pcs. piling, by John E. Moore. Schr. Nimrod, for City Island, 130,755 feet plank, 200,708 feet deals, 13,393 feet scantling, by Stetson, Cutler & Co. Schr. Eric, for Boston, 38,753 feet boards, 47,425 feet plank, 20,484 feet scantling, 50,000 laths, by J. R. Warner & Co. ; 28,400 feet deals, 6,200 feet plank, 8,800 feet scantling, 50,800 cedar shingles, by Charles Miller.

From Montreal : Str. Ontarian, for London, sailed Nov. 6th, 872 pcs. elm lumber, by C.P.R. ; 3,982 pieces deals, by Cox, Long & Co. ; 18,585 pieces deals, by Watson & Todd ; 10,482 pieces deals, by McArthur Export Co. Str. Kastalia, for Glasgow, sailed Nov. 6th, 2,630 pieces deals, by Robert Cox & Co. ; 687 pieces deals, by E. H. Lemay ; 7,460 pieces deals, etc., by Dobell, Beckett & Co ; 4,131 pieces deals, etc., by McLaurin Bros. ; 84 pieces deals and ends, by McArthur Export Co. ; 4,998 pieces deals, by Orillia Export Lumber Co. ; 981 pieces deals by A. McPherson & Co. ; 107 pieces fir lumber, by C.P.R. Str. Hurona, for London, sailed Nov. 6th, 10,769 pieces deals and boards, by Robert Cox & Co. Str. Lake Simcoe, for Liverpool, sailed Nov. 4th, 5,243 pieces deals, by Watson & Todd ; 3,549 pieces deals, by Williams, Edwards & Co. ; 576 pieces deals, by C.P.R. Str. Manchester-Commerce, for Manchester, sailed Nov. 6th, 735 bales pulp boards, by Laurentide Pulp Co. ; 542 pieces deals, by J. Burstall & Co. ; 6,420 pieces deals and ends, by Watson & Todd ; 3,852 pieces deals and ends, by McLaurin Bros. Str. Leander, for Leith, sailed Nov. 10th, 13,655 pieces deals, etc., by McArthur Export Co. ; 170 pieces ends, by W. & J. Sharples ; 2,747 pieces deals, by Dobell, Beckett & Co. ; 1, 359 pieces deals, by Robert Cox & Co. ; 557 pieces lumber, by C.P.R. Str. Alcides, for Glasgow, sailed Nov. 13th, 5,033 pieces deals, etc., by J. Burstall & Co ; 1,388 pieces deals, etc., by McArthur Export Co. ; 430 pieces, etc., by the Robert Reford Co. ; 2,505 pieces deals, etc., by Dobell, Beckett & Co. Str. Belgian, for Antwerp, sailed Nov. 4th, 8,709 pieces boards, by W. & J. Sharples. Str. Tunisian, for Liverpool, sailed Nov. 6th, 759 bundles pulp, by Laurentide Pulp Co. ; 40,138 pieces deals and boards, by Robert Cox & Co. ; 4,342 pieces deals and boards, by McArthur Export Co ; 1,617 pieces boards and squares, by W. & J. Sharples ; 3,608 pieces boards and deals, by E. H. Lemay: 12,900 pieces boards by Watson & Todd.

SHIPPING MATTERS.

During the past week an advance of 25 and 50 cents has been made on the rate on lumber shipped from Green Bay and Georgian Bay districts to Tonawanda and Buffalo, making the prevailing figures $2.50 and $2.75 respectively. The rate from Duluth is $3. Many of the Buffalo firms have a considerable quantity of lumber in the Lake Superior district which they are anxious to move this fall, and they are finding tonnage none too plentiful.

TIMBER LIMIT SALE.

On Saturday, November 16th, timber berths Nos. 176 and 182, situated on the north shore of Lake Huron, in Algoma district, and containing together about 72 square miles, were placed under the hammer at the auction rooms of C. J. Townsend, Toronto. The bidding was quite spirited. The opening bid of $250,000 was made by J. H. Cullen, of Detroit. The next was $255,000 by the Eddy Company. These two parties were rival bidders until the sum of $303,000 was reached, at which figure the limits were knocked down to the Eddy Company.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

—CORRESPONDENCE SOLICITED—

NORTHERN PINE CONDITIONS.

The shipping season on the great lakes is near its end and there is found a great demand for boats, but so scanty a supply that it seems probable that much lumber which should be delivered before the close of navigation will not go forward, while a good deal absolutely contracted to be delivered will remain on the mill docks. There has been a decided falling off in the lumber carrying fleet proper this year and especially is there a lack of this class of vessels for Lake Superior ports. Vessels which have been depended upon to carry lumber now prefer to make their final trips with ore or grain, though the impending blocade in the latter commodity at Buffalo has lessened the demand for boats, but too late in the season to accomplish any good results for the lumber trade. Consequently the mill docks are fairly well filled with lumber, but it is largely sold, with the little remaining in first hands held at high prices.

Recent sales on Lake Superior are at the highest prices of the season. Low grade stock has at last come up to something like the figure which the mill men have been wanting, though it is not to be expected, nor perhaps desired, that the quotations of the latter part of 1899 should again prevail. A good profit is being realized by lumber manufacturers, and even when we take into consideration the high price of stumpage and the extraordinary cost of logging there still remains a margin.

The movement of white pine lumber by rail from the interior mills in Michigan, Wisconsin and Minnesota has not been as active within the last few weeks as a year ago at the corresponding period, but as far as can be observed the cause of this slackening in movement is due mainly to the condition of supplies, added to some shortage of cars. People simply cannot get the lumber they want, for the stocks neither in size nor assortment are adequate to the requirement. Doubtless the demand of the season has been somewhat affected by the partial crop failure in some sections, but as far as the lumbermen are concerned it is fortunate that that should be so, for having difficulty in meeting what demand there is with the available supplies it would have been impossible to have taken care of a larger requirement.

One thing seems certain—that there is to be practically a lumber famine before next year's cut of white pine will be on the market. There is, of course, nowadays no question whatever as to upper grades. The output would have to be considerably larger than it is or than it possibly can be to meet the call for finishing and shop lumber and for other uses which require the better class of white pine.

In the lower grades there is more or less fluctuation. In some sections this year there has been a larger output of inch proportionately than of dimension, and so we have seen prices somewhat out of line; but as the year draws toward a close and as the mills are shutting down we find values adjusting themselves on strong lines. There is no advance to be particularly noted on items which have been strong throughout the season, but those which have been in some sect . or at certain times inclined to we . ss are showing a sympathy with the remainder of the list, and so the white pine industry and trade promises to go into the winter with assurance of a steady market.—American Lumberman.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3⅜ inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars send us direct or through the above agents will have equal, prompt and careful attention.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Company, in their circular of November 9th, thus review the Barbados market :

We have to report the following arrivals : The "G. S. Troop," from Jordan River, N. S., with 16 M. shipping white pine, 19 M. second quality ; 48 M. shipping spruce, and 9 M. second quality ; which arriving to a bare market was placed at $26.10 and $22.10 for white pine, $22.10 and $19.10 for spruce ; and the " Britannia," from Bear River, with 290 M. shipping white pine boards, 25 M. plank, and 25 M. shipping spruce, which was placed at $24 shipping white pine boards, $22.50 plank, and $21 spruce ; and second quality white pine at $20 Other cargoes of white pine and spruce have been contracted for on C. &. F. terms, so that the dealers are now sure of supplies. A cargo of 40 M. white pine and 50 M. spruce was offered yesterday from a neighboring port, but nothing has yet been done with it. Shingles—Nothing further to report under this head. We are expecting a cargo of cedar laying. Shooks and Staves—The Str. Madiana brought 3,500 bdls. former from various consignees ; and we have had the A. C. Wade, from Portland, with 10,400 to selves, and 1,800 bdls. to neighbours ; cargo contracted for some time ago. We are expecting a cargo of staves at the end of this month.

Mr. R. H. Smith has commenced business as a dealer in hardwood lumber at London, Ont. His intention is to buy and sell hardwood in car lots on commission.

The lumber companies in the Lake of the Woods district are getting their camps into the woods. The largest operators are the Rat Portage Lumber Company, Pigeon River Lumber Company, and Vigars & Company.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., NOVEMBER 27, 1901 No 43

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

WANTED AND FOR SALE

FOR SALE — 600,000 FEET GOOD WHITE Pine Mill Culls, Dry. Address "OTTAWA," office CANADA LUMBERMAN.

WANTED—A YOUNG MAN WITH ABILITY and some experience, to take charge of our books general stores and shipping. Must thoroughly understand both French and English. Location in the province of Quebec. Address, "Lumber Manufacturer," care CANADA LUMBERMAN.

WANTED—WHITE PINE LATH.

Quote price f.o.b. shipping point; state weight and size. Address

J. R. WHELER, Pittsburgh, Pa.

FOR SALE

Valuable hardwood timber limit. Berth No. 3, Township Nipissing, on which there is basswood, spruce, hemlock, dry pine and other woods. Portions of 9th to 18th Con. Township Nipissing, 17 square miles. Also patented lands 32 and 33 on which there is a mill and buildings worth $3,000. For terms and particulars apply to J. CREIGHTON, Solicitor, Box 56 or 39 Victoria St. Toronto.

WANTED

Basswood and White Poplar Logs,

18 inches and up long, 10 to 28 inches in diameter. Must be green stock, bark on, and good clear stock. Not for export. Address Room 510, 18 Broadway, New York.

SALE BY AUCTION

OF

SPRUCE AND PINE TIMBER LIMITS

IN OTTAWA DISTRICT.

The undermentioned Timber Limits will be sold by public auction at the office of the undersigned, No. 114 St. James Street, Montreal, on Wednesday, 20th January, 1902, at noon:—

1. 196 square miles on the North East branch of the Lievre River.
2. 100 square miles on the middle branch of the Lievre River.
3. 100 square miles on the North West branch of the Leivre River

Full information respecting the property may be obtained from the Department of Lands, Forests and Fisheries, at Quebec, and on application to the undersigned.

JOHN FAIR,

114 St. James St. Notary for Vendors.

Montreal, 23rd Oct., 1901.

Railway Material for Sale.

Consisting of about four miles of track, (20 lb. rails), 1 Porter Locomotive, 1 Snow Plough, 1 Hand Car, and 35 small cars, all 30 guage, suitable for lumbering, mining, etc. Also a Steel Bridge, 3 spans of 125 feet, and one span of 150 feet—suitable for highway bridges. All in good order. For particulars apply to BACON BROS., 377 St. Paul, Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

White pine lumber continues to show exceptional strength. No sales are heard of at cut prices, while many holders of stock are asking an advance and show no anxiety to effect a sale. The reason for this attitude is found partly in the statistical position of white pine. The stocks at the mills have been pretty well cleaned out. It is difficult to find any quantity of the higher grades, while the movement by rail during the winter months will reduce the quantity of low grade stock to a low basis. The trade seems to be convinced that there will be no weakening in prices this winter, but that there is a good prospect of an advance. Building in Toronto continues quite active, as is shown by the number of permits issued during the month of November. In Ottawa also there is activity in building operations and a good local demand for lumber is reported.

With shingles the question is where to obtain a supply. Some manufacturers on the Georgian Bay who have a few left are quoting $1.60 for XX and $2.40 for XXX, and even at these prices are indifferent about selling. The course of the shingle market is tending directly towards higher prices. This applies with equal truth to lath, which is also in short supply. Predictions of $4 lath this winter have been made.

QUEBEC AND NEW BRUNSWICK.

The last vessel of the season has sailed from Montreal for Great Britain, and in a few days navigation on the St. Lawrence will be closed. No figures are yet available as to the season's total shipments of lumber, but doubtless they have been much lighter than last year. During the past month there has been a marked improvement in the spruce situation, and it is quite probable that purchases of deals for spring shipment will be made at a considerable advance over the prices ruling this fall. The production of the Maritime Provinces has shared in the improvement and has also been benefitted by a strong demand in the eastern states. Sales of clapboards have been made to Boston at $32 to $33 for extra spruce, and $30 to $31 for clears. The supply of cedar shingles is daily growing less, and the market is firm on the basis of $3.20 for extras.

UNITED STATES.

The falling off in lumber shipments has evidenced the approach of winter. Most of the mills in the Duluth district have closed down for the season, with stocks rather lighter than usual. The tone of the market continues strong; in fact, considerable buying is being done for next year's delivery on the belief that there will be an advance in prices before spring. The price list committee of the Mississippi Valley Lumbermen's Association will hold a meeting shortly to consider the question of advancing the price list for white pine before the new year. The lumber dealers of Cleveland last week advanced the retail price of many kinds of lumber by from $1 to $2. Michigan dealers report a decided scarcity of white pine lumber. The American Lumberman states that Saginaw men had options on some stock in Ontario, but allowing them to expire, all the stock but mill culls was sold, nearly 15,000,000 feet being disposed of at about $15 a thousand. E. B. Foss & Company, of Bay City, secured 3,000,000 feet, and the remainder went to Chicago and the east. The stock was cut at Cutler, Victoria Harbor and Collingwood. The situation in Chicago is strong. There is a scarcity of several items, including No. 1 and No. 2 12-inch boards, No. 1 and No. 2 4 and 6-inch fencing, and wide and long dimensions. Buffalo is shipping large quantities of lumber to the east, which is buying quite liberally. The higher grades continue scarce and firm. Twelve-inch barn is selling in the Buffalo market at $21, box at $17, and mill culls at $15.

Dealers speak more cheerfully of hardwood conditions. The manufacturing industries consuming hardwoods are buying to some extent for next season's requirement. Birch, maple and basswood are most inquired for, while elm is less active than usual. Spruce is selling at high prices, 10 and 12-inch dimensions bringing $20 in the Boston market.

GREAT BRITAIN.

The general outlook for timber in Great Britain is growing more satisfactory. There is undoubtedly a much better feeling extant than has been the case for some months past, and stocks are getting within reasonable bounds. Importers seem to fear that if the present improvement is over-estimated, it may result in shippers asking unreasonable prices on contracts for next year's shipment. Nevertheless, reports from practically all the leading cities of Great Britain tell of a more hopeful outlook and a hardening tendency of prices. It is believed that this hardening of prices will increase during the advance of winter. Pine deals keep firm in the face of a large stock on hand, the last auction sale showing a slight improvement over the one held two weeks earlier. Second quality pine deals are rather scarce. Spruce deals continue to attract attention. A few weeks ago 3x9 third quality were selling at £9 per standard under the hammer, or £9 5s. by private treaty. The present price is an advance of 5 shillings on these figures, and £10 is predicted before another month. At Liverpool spruce is reported to be the leading timber in demand, and brokers are talking of £8 per standard c. i. f. for the near future. There is a considerable inquiry for birch planks, and two or three parcels have been sold to arrive at Liverpool at increased prices.

Little business for next season has as yet been transacted. It seems probable, however, that first-open-water prices will be in advance of ruling quotations. The manufacturers of Norway, Sweden and Russia are likely to curtail their output, and as a similar policy is being followed in this country, higher prices for timber should rule next season.

STOCKS AND PRICES.

The Rathbun Company, of Deseronto, are supplying the timber for the extension of locks at Port Carling, Ont.

Heenan & Roderick, of Rat Portage, Ont., have secured a contract to supply the C.P.R. with 175,000 railway ties.

The corporation drive on the St. John river, in New Brunswick, containing about 10,000,000 feet of logs, is hung up at Southampton.

A manufacturer in Eastern Ontario desires to find a market for soft and hard maple flooring, dressed and matched.

Tenders for a license to cut timber on berths 989, 990, and 991, in Manitoba, are invited by the Department of Interior at Ottawa up to December 23rd.

The Dominion Government will award the contract next month for the construction of a breakwater at Ruisseau LeBlanc, Bonaventure County, Quebec.

A. J. Gorrie, of Port Arthur, Ont., is asking for tenders up to November 30th for supply of 20,000 cedar fence posts for the Canadian Northern Railway.

Shingles were never in better demand in the Eastern States. Clear white pine

brings $3.25 in Tonawanda, and Buffalo and hemlock rift sawed $2.90. A Buffalo dealer in white cedar shingles is quoting them at $3.40 to $3.50.

In the Wanted and For Sale Department of this issue will be found an advertisement of a New York lumber merchant who wishes to purchase basswood and poplar logs. The party is in a position to buy a large quantity of such logs.

It is said that the cut of logs on the Restigouche River, in New Brunswick, this winter will be 5,000,000 feet less than a year ago, owing to the difficulty of getting men to work in the woods. The wages offered are from $22 to $26 per month.

Tierce staves are quoted in the Chicago market at from $25 to $26, which is an advance of $3 within the past three weeks. Tierce hoops bring $15 and pork hoops $10. Pork heading is quoted at from 13 to 14 cents, and 20-inch tierce heading at 16 to 16½ cents.

The New Brunswick Coal & Railway Company, of Hampton, N.B., are asking for tenders up to November 30th, for the supply of 90,000 tamarac, white hemlock, princess pine, and cedar ties, with not exceeding 25 per cent. of spruce. The ties are to be delivered along the line of railway between Chipman and Gibson.

The retail dealers of Cleveland, Ohio, last week advanced the price of No. 1 white pine lath from $3.75 to $4 per thousand. The hemlock market is in excellent shape. The price paid at Chicago for an average cargo is $9. Dealers state that they are able to buy carloads at $11.25. Eastern hemlock is selling in Boston at $14 to $14.50. Bill stuff is particularly strong.

Churchill & Sim say of the London market: The arrivals of pine deals during October have been quiet light and the market is steady. Considerable clearances of fragmentary specification and indeterminate quality have been made with some difficulty at low rates, but these leave the more regular market undisturbed. Of spruce deals there have been about three-fourths of a normal supply from the St. Lawrence and practically a total cessation from the lower ports. Prices are steady, but so far they have not risen to meet the reports of short supplies in Canada, enhanced freight rates, and rising prices in Liverpool and other markets. Prices of elm, ash, and white pine timber are a little better by log in the absence of arrivals. Birch keeps out of demand. Oak is unchanged.

BUSINESS NOTES

The Wallaceburg Cooperage Company, Limited, has obtained a charter.

McFaul Bros. Lumber Co., Brownburgh, Que., have dissolved partnership.

Skroder & Piche have registered partnership as lumber dealers at St. Fereol, Que.

The South River Lumber Company, of South River, Ont., are advertising their saw and shingle mills for sale.

BRITISH COLUMBIA PINE. — A large quantity of pine, Ex. Dundee, from Chemainus, B.C., sold at a range from 54s. to 71s. per load of 50 cubic feet, the latter price for sizes 36 to 40 ft.

TRANSFER OF TIMBER LIMITS.

O. N. Janes, of Fernie, B. C., has sold his saw mill and timber limits to D. V. Mott.

The Huntsville Lumber Company is announced to have purchased the saw-mill plant, logs and timber limits at Huntsville of the M. Brennan & Sons Company, of Hamilton. The price is said to be slightly over $225,000.

The building and stock of William McCurdy & Son, planing mill, Windsor, N.S., was damaged by fire last week.

The timber limits, etc., of the Sauble Falls Ranch & Lumber Company, of Sauble Falls, Ont., will be offered for sale by public auction at Wiarton on November 29th.

SHIPPING MATTERS.

The following charters are reported: Barque Wildwood, St. John, N.B., to Santa Cruz Teneriffe, lumber, 45s; steamer Coringa, St. John, N.B., to w.c. England, deals, November loading.

Coasting freights are very high at present, and there is a scarcity of suitable bottoms. Sch. Jessie D., of Parsboro, N. S., is fixed to load lumber at Windsor for Boston, at $3.10 per M., and the Moose River Lumber Co. is offering $3.25 per M. from Moose River for Boston.

The Sch. E. E. Merriam has sailed from Parsboro, N.S., for Boston, with 1,060 pieces of piling, shipped by D. A. Huntley.

The Sch. Belle Wooster loaded at Moose River for New York last week 1,100 pieces of piling, shipped by the Moose River Lumber Co.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

It is understood that Clark, Skillings & Company will not operate in spool wood at Newcastle, N.B., this winter. The mill usually gave employment to about 50 men.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

No Fish Stories

go when it comes to speaking about

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West ; therefore, orders for straight or mixed cars send us direct or through the above agents will have equal, prompt and careful attention.

THE COOPERAGE STOCK MARKET.

The Sutherland Innes Comyany, manufacturers of cooperage stock, Chatham, Ont., give the following review of the cooperage market :

The condition of the slack-barrel market continues to improve from day to day. There has beer an advance in No. 1 staves of 25c. per M during the last month, and while there has not been a advance 'n No. 2 staves, the demand is very much better, and we look for an advance before the end of the month.

No. 1 hoops are very scarce, and prices are from 50c. to $1 per M better than they were from three to four months ago. This, however, is only for strictly No. 1 hoops, not for the lower grade of hoops, and the stocks are being reduced until they have reached the danger point.

No. 1 heading is in good demand, while the demand for mill-run heading and No. 2 heading is better than it has been for some time and quite a little is moving.

Every indication points to a considerable advance in the price of slack barrel stock all around during the next thirty days, and a still further advance later.

Tight-barrel stock is in very good demand at the present time, and prices are better than they have been for some time. Oil-barrel stock is being used just as fast as it can be got ready for the market, while rough staves of every description are extremely scarce, and prices are high.

There is no change in the price of tight-barrel heading, but prices are firm. We do not expect ary change in the tight-barrel stave market for some time to come unless it is an advance in the price of rough staves.

LOGGING CONDITIONS IN THE EAST.

Much difficulty is being encountered in securing men to work in the woods in the Maritime Provinces and Maine. Conditions are not altogether favorable for logging. The early fall of snow which came before the ground had frozen hard and while the swamps were still open, will somewhat delay operations. On the Penobscot river the cut is roughly estimated at 200,000,000 feet, on the Kennebec 150,000,000 feet, on the St. Croix 22,000,000 feet, and on the Aroostook, in Maine, 40,000,000 feet. About 60,000,000 feet will be cut on the St. John river in Maine to be driven down to the New Brunswick mill. The entire log crop of the State of Maine will probably meet 600,000,000 feet, about evenly divided between pulp and lumber.

In Aroostook County operations will be active in both spruce and hardwood. One Fort Kent concern, operating on the St. John, will get out 25,000,000 feet, mostly spruce, and another will cut 15,000,000 feet. On Salmon River the cut of spruce will be about 12,000,000 feet. On the St. Croix river, H. F. Eaton & Sons will bank about 10,000,000 feet of spruce, F. H. Todd & Sons 6,000,000 feet, James Murchie & Sons 6,000,000 feet and Granville Chase 1,500,000 feet. The Augusta Lumber Company, operating on the Kennebec, will get out 10,000,000 feet of spruce. Wages range from $20 to $28 per month.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., DECEMBER 4, 1901 No. 44

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday; Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

CURRENT TRADE CONDITIONS.

ONTARIO.

The business in pine lumber during the month of November reached the expectations of the trade, and December starts in with a firm market and favorable conditions generally. The volume of buying is not likely to be large, although if the weather should continue open, there will be a good demand for building lumber. The value of permits for buildings issued by the City Commissioner of Toronto in November exceeded $400,000. This figure has not been reached in a corresponding month since 1892, when a vast amount of speculative building was done. As the buildings are mostly only commenced, they will call for a good deal of lumber before they are finally completed. The large volume of permits augurs well for the building season of 1902, and it is expected that much activity will be witnessed next spring. Reference is seldom heard to the question of lower prices for pine lumber. Present prices seem to have been established as the basis for the winter, but it is not unlikely that an advance in some grades will be brought about before the spring. It has transpired that some of the Ottawa manufacturers have disposed of their production of 1902. Watson & Todd are said to have purchased the entire cut of the Hull Lumber Company; Cox, Long & Company, the cut of McLaren & Company; and W. & J. Sharples, the cut of the Hawkesbury Lumber Company. Prices have not been made known, but from what can be learned, they differ but little from those paid one year ago for the same stock. As previously pointed out, prices of lath and shingles are strengthening and a sharp advance may be looked for at any moment on account of the short supply. Hardwood conditions are unchanged, manufacturers continuing to show a firm attitude.

QUEBEC AND NEW BRUNSWICK.

Manufacturers of spruce deals are feeling quite encouraged at the hopeful reports which come from Great Britain, where there is evidently a full recognition of the probability of a short supply for next season. Shippers are showing a disposition to contract for mill cuts, and to pay the price asked by the manufacturer. The opinion prevails that with the demand from the United States, South America, the West Indies and Great Britain, a market is certain to be found for all the spruce lumber that will be manufactured next year. The timber market is quiet. Cedar shingles are in good demand and have sold as high as $3.25 for extras, Boston delivery. The large manufacturers apparently control the market and are taking advantage of the conditions that exist to obtain higher prices. Lath is also higher, 1⅝ inch bringing $3.20 to $3.30, and 1½ inch $3 to $3.10.

MANITOBA AND BRITISH COLUMBIA.

Until within the last few days mild weather has prevailed throughout Manitoba and the Territories, and outdoor operations have been carried on without interruption. Lumber for finishing purposes has been in good request, and the market is firm. The building permits issued in Winnipeg this season were 628 in number, representing an aggregate value of $1,616,550, which is about $300,000 in excess of last year. The opinion is quite general that considerable building will be done next year in Winnipeg and throughout the North-West. The shingle industry of British Columbia is suffering from an over-production. It is announced that the combination formed to handle the product of several large mills through one selling agency has been discontinued, owing to a number of small concerns that were not in the combine cutting prices and demoralizing the market. It is hoped that some permanent arrangement will eventually be made to limit the shingle production of British Columbia and maintain prices at a point where they would represent a fair margin of profit.

UNITED STATES.

The lumber market of the United States continues to exhibit satisfactory conditions. The disposition to reduce stocks before taking the annual inventory is lessening the demand in some quarters, but the movement of stock during November was in excess of the corresponding month last year. It is thought that the price list on pine will be advanced by the Lake Superior manufacturers within the next two weeks, as sales are now being made above the list price, and an advance is even being obtained for some of the lower grades. The seller is able to realize almost any reasonable price for the upper grades. At Buffalo and Tonawanda the tendency is towards higher prices, and much more business would be done but for the scarcity of cars. In the Saginaw market no quotations are made on log run below $18. Mill culls are selling at $12 and box at $14 to $16. Hemlock and spruce are both improving in price. Michigan hemlock has been advanced 50 cents at the head of the lakes. The movement of hardwood is not large, inquiries being chiefly for small lots. Quarter-sawed stuff is dull of sale. Elm, basswood, birch and maple are meeting with about an equal call, but in some markets thick maple seems to be sluggish. The firmness of lath and shingles has been maintained, the volume of recent purchases tending to show that buyers recognize the necessity of arranging for their requirements as soon as possible.

GREAT BRITAIN.

We do dot think that the agents of Canadian shippers have as yet closed any important contracts for next year's ship-

ment, for two reasons, first, that there is uncertainty as to what prices should be asked, and second, that importers are still holding quite heavy stocks and are not anxious to enter into new obligations until these have been reduced. There is an almost certainty, however, that purchases will be made in the near future, and that the figures of the transactions will be favorable to shippers. The tone of the British market has greatly improved, spruce deals generally and pine deals in the standard sizes showing a strong upward tendency. Broad dimension pine deals are much asked for at Glasgow and Hartlepool and several sales are reported at satisfactory prices. At West Liverpool second quality pine is exceedingly scarce. A report from Liverpool states that within a short time spruce prices have gone up from £1 to £1 10s. per standard, with every indication of a further advance. The statement has gained some publicity in England that a St. John shipper has "cornered" all the available spruce in the Bay of Fundy district. The report appears to have induced buyers to look around for spruce. A lot of Quebec spruce stored at Belfast by shippers is being held at a stiff advance on prices recently asked. In some of the markets there is a scarcity of waney board pine, and consumers have in some instances substituted square timber, with the result that the latter wood is showing more strength.

STOCKS AND PRICES.

The Harbor Commissioners of Montreal are asking for tenders up to December 17th for supply of timber and planks.

The ship Prince Arthur, which sailed from the Hastings mill, Vancouver, on May 11th, for Cork, Ireland, has not yet reached its destination, although she is now overdue.

The New Brunswick Government will offer for sale on December 11th four timber berths of two square miles each, located in Cumberland district, Carlow Sett, west of Eel river, and Deadwater Brook.

It is reported that Keenan Bros., of Owen Sound, Ont., have secured a contract from an English government contractor for thirty carloads of maple flooring blocks. The blocks are to be delivered within four months.

Heavy sales of lath were made last week by Wisconsin manufacturers. The Francis Beidler Company, of Chicago, purchased 4,000,000 feet from the Kirby-Carpenter Company and Hamilton, Merryman & Company, of Marinette, Wis.

In the Chicago market No. 1 fencing sells at $22, No. 2 at $18 to $18.50, and No. 3 at $15.50 to $16. There is a scarcity there of long and wide piece stuff and 12 inch No. 1 and 2 stock boards. Hemlock is quoted at $9.50.

On November 26th three cargoes of lumber arrived at Saginaw, Mich., from Blind River, Ont., consigned to Bliss & Van-Auken, and three cargoes from Midland, Ont., consigned to Mershon, Schuette, Parker & Company.

There is an indication of still higher prices for hemlock. For some time 12-inch boards have commanded a premium of 50 cents at Buffalo over the regular $13 base price, but it is now said that this price will be made one dollar extra, as boards continue to be scarce.

The lumber dealers at Toledo, Ohio, have put in force a new price list in which several commodities are advanced, as follows: Wide pine common, 13-inches and up, $55; wide No. 1 shelving, 13-inches and up, $48; 1x6 shelving, or C strips, $35; 1x4 No. 1 shelving, $32; 6-4 and 8-4 No. 2 shops, $35; No. 3, $25.

The contract for the supply of cedar scantlings to the city of Toronto for the year 1902 has been awarded to Reid & Company, at $14.24 per thousand feet. The same firm will supply hemlock timbers at the following prices: 12 and 16 feet lengths, $12.96; 20 feet, $15.96; 24 feet, $17.96. Arthur Bryce secured the contract for pine lumber at $16 for 12 and 15 feet lengths, $17 for 20 feet, and $20 for 24 feet.

Timber berths were sold last week at the Crown Lands office, Fredericton, N. B., as follows: Four miles, Bonny River, Charlotte county, to John E. Moore, at $8.25 per mile; two miles, Robertville Settlement, Gloucester county, to T. B. Winslow, at $65 per mile; four miles, North Forks, Canaan river, to E. B. Winslow, at $53 per mile.

At an auction sale held by Foy, Morgan & Company, London, England, on November 20th, a quantity of deals ex. Scottish King, from Quebec, sold at the following prices: 10-30 ft. 4 x 11 in. first quality, red, £14 5s per std; 9-32 ft. 4 x 11, £13; 9-26 ft. 4 x 9, £12 15s; 10-24 ft. 4 x 8, £10 15s; 10-24 ft. 4 x 4-7, £10; 10-18 ft. 3 x 11, £16; 10-18 ft. 3 x 9, £13 15s; 10-18 ft. 3 x 8, £9 15s; 10-18 ft. 3 x 6, £8; 12-31 ft. 4 x 11 in. unassorted, red, £9; 6-25 ft. 4 x 11, £9 5s; 14-30 ft. 4 x 9, £9 10s; 6-26 ft. 4 x 9, £9 15s; 9-26 ft. 4 x 8, £8 15s; 10-26 ft. 4 x 7, £8 10s; 10-26 ft. 4 x 6, £8 5s; 10-24 ft. 4 x 5, £7 10s; 10-18 ft. 4 x 4, £7 15s; 8-24 ft. 3 x 11, £9 10s; 9-30 ft. 3 x 9, £10 5s; 9-24 ft. 3 x 8, £7 15s; 10-18 ft. 3 x 7, £7 10s; 10-18 ft. 3 x 6, £7 5s; 10-18 ft. 3 x4-5, £7 10s; 12-18 ft. 3 x 6-11 in. discolored, £6. Spruce deals, ex. Ashmore, from Quebec, brought from £6 10s to £7 5s for third, fourth and fifth quality. Oak timber, from Quebec, sold at 77s 6d to 85s per load of cub. feet.

Concerning the demand for hardwoods at Chicago the American Lumberman says: "The hardwood market presents about the usual variety of ups and downs, with a substantial volume of trade and irregular prices. It may be said that the market at the present time is not all one-sided, as seemed to be the case up till a few weeks ago. Here and there one hears of a slightly better price being obtained for this or that commodity. Basswood is in fair request. Dealers are asking $27 for firsts and seconds, 12-foot stock, but say that they are not always getting it. Birch moves with about its usual freedom and is in fair inquiry, but prices fail to respond. Maple is quiet and steady at a slightly improved basis.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Reports from dealers indicate that business is quiet in lumber circles at present. The scarcity of cars has still an important bearing in this direction, as it is difficult to get shipments to their destination. At present, however, customers in outside points are engaged or preparing to engage in stock-taking. Little lumber is being bought and business will probably be quiet till after the New Year. Prices are unchanged, with every prospect of maintaining a firm tone and a possibility of advancing.

Although the labor market has become easier, the cost of production of lumber promises to continue high; the scale of wages is as follows: Good choppers, $27 to $30 a month and board; general hands, $18 to $24 and board. In the square timber market wages are higher. Good hewers command $50 a month and board, liners $40, and scorers $35. The all-round advance in produce is placed at ten per cent. by a large operator. Oats are selling here at 50 cents a bushel. Flour and hay show no advance, but pork is decidedly firm. Delivered at the Kippewa river, it is worth $22 per barrel of 200 pounds. Hardware is also at a high figure.

Natural conditions this season are even worse than they were last. The long dry fall has left the swamps without water, and the first snowfall found the ground compartively free from frost. These conditions will make road-making exceedingly difficult task. The work of getting out logs will be no easy task. All the above conditions must be taken into consideration when figuring on future mill and retail prices.

Ottawa's new chief magistrate is well-known in and closely identified with the lumber trade. Mayor Davidson is a member of the firm of Davidson & Thackeray, which operates a large planing mill and sash and door factory in Ottawa. The firm is also building sawmills on its limits above Coulonge. Mayor Davidson's executive ability has also been demonstrated in the success with which as president of the Capitol Lacrosse Club, he has managed its affairs. Ald. R. J. Davidson, the "father" of the council, is a brother of the chief magistrate.

The valuable water-power on the Quebec side of the Chaudiere promises to again be the subject of legation. In the Hull court on Saturday, Mr. Thomas Ahearn, president of the Ottawa Electric Company, fyled an opposition to the improvements in the river being carried forward by the Ottawa and Hull Power Company. W. C. Edwards, M. P., and the Hawkesbury Lumber Company are rated as defendants in the suit. Mr. Ahearn is the owner of valuable water

(Continued on page 4.)

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

lots above the Chuudiere, and he claims the dams being built there will interfere with his rights.

In Bryson, to-day judgment was given in the celebrated Perrault Fraser lumber suit in which over $500,000 was involved. The action was taken by Mrs. Dezouche (nee Perrault), whose first husband, the late John MacCoshen, was a partner of Alexander Fraser, the well known lumber king. Plainitff's action was taken to set aside a sale of timber limits belonging to the firm of MacCoshen & Fraser. Although the limits stood in the latter's name alone, the claim was made that MacCoshen had equal shares. The limits in question comprised about 34 square miles on the Opeongo river in the province of Ontario and about 78 square miles on the Schyan and Black rivers in the province of Quebec. The late Mr. MacCoshen died on August 17, 1885, and the sale was held at the Russell House, Ottawa, on October 20 of the same year. The Ontario limits were sold at this sale for $65,600 and the Quebec limits for $159,600 to Mr. Hiram Robinson, as representing Messrs. J. B. and W. A. H. Fraser. The limits were subsequently sold by the Messrs. Fraser to the other parties, the Quebec limits, the more important of the two, being now owned and operated by Mr. J. R. Booth. By the judgment the sale of the Quebec limits has been annulled as contrary to the law of that province, it being decided that while Mr. Fraser acted in good faith in the sale, the interests of the minor heirs of MacCoshen had not been properly protected. Defendant is ordered to account for the actual value of the limit, and the revenue derived from it since MacCoshen's death. Experts will report on this point. The judgment on the other hand maintains that the sale of the Ontario limits had been a legal one.

Ottawa, December 2nd, 1901.

THE BARBADOS MARKET.

Clairmonte, Man & Company, under date of November 9th, make the following reference to the Barbados lumber market:

Our market was very bare of white pine and spruce lumber when the schooner G. S. Troop arived from Jordan River, N. S., and her cargo, fetched full rates, as given below; the schooner Britannia soon followed with a large cargo which was placed at $24 for white pine boards, $22-50 for planks, and $21 for spruce. There is still a good demand, especially for spruce. Second quality lumber is also wanted.

Shingles.—Gaspe Long Cedar wanted, last sales at $4.05 to $5.30 per M as to quality. Cedar laying—we hear of a sale at $2 per M to arrive. Spruce laying—no recent sale, worth $1.60 per M. November 2nd: Schr. "G. S. Troop," from Jordan River, N. S., with 16 M feet white pine, sold at $26.10; 19 M second quality do $22.10; 48 M spruce $22.10; 9 M second quality do $19.10. November 5th. Schr. "Britannia," from Bear River, N. S., with 290 M feet white pine boards, sold at $24; 25 M do planks $22.50; 25 M feet spruce boards $21.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., DECEMBER 11, 1901 No. 45

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw mill and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED—75 carloads Rock Elm Strips 2½ x 1¼", in lengths 4 ft. 6 in., 4 ft. 9 in. and 5 ft. Must be perfectly free from knots and full size. Apply OTTAWA LUMBER CO., Ottawa.

TO TRADE SEEKERS.

I am open to correspond with a first class Ontario or Quebec firm, manufacturing Lumber and Building Materials, to represent them in Nova Scotia or Maritime Provinces. I am well acquainted with the Building Trades and have a thorough knowledge of the business. The field is practically new and a good opportunity to work up a connection by one constantly in touch with the trade, and posted on local requirements. Can give good references as to character and ability.
Address, "Scotia," care CANADA LUMBERMAN.

AUCTION SALE
OF
VALUABLE TIMBER LIMITS
AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

CURRENT TRADE CONDITIONS.

ONTARIO.

Little has transpired within the past week to change the lumber situation. The strength of white pine is still pronounced and holders of stock are exhibiting a confidence which augurs well for a firm market throughout the winter. Further purchases of Ottawa valley mill cuts by shippers are reported, although the details are not to hand. On every side comment is heard regarding the strength of the upper grades of pine lumber. In this class the seller controls the market and is in a position to dictate terms to the buyer. The outlook for spring trade can scarcely be estimated at this date, but it is certain that a large quantity of Georgian Bay pine will next year be shipped to the Saginaw river district, which is annually becoming more dependent upon Ontario for its lumber supply. One estimate places the amount to be exported to the Saginaw river next year at 100,000,000 feet. The buying of hardwoods is mostly in a small way, but it is sufficient to keep stocks down to a reasonable basis. Basswood is scarce and firm in price.

High prices are being realized for pine shingles. A Georgian Bay manufacturer is reported to have sold a quantity of XXX to a Buffalo dealer at $2.60 at the mill. This, however, is an extreme figure, and is above the current selling price. Nevertheless, the scarcity of shingles brings almost any price within the realm of possibility.

QUEBEC AND NEW BRUNSWICK.

The lumber business is quiet throughout the eastern provinces, as exports have ceased for the season and most of the mills are closed down. The retail demand has shown a falling off during the past week as a result of the cessation of building operations. The figures of the exports of lumber from Montreal, published in another column, show a decrease of about 16,000,000 feet as compared with last year. The total is quite up to expectations, as throughout the entire season the British market was depressed. Shipments of cedar shingles are still being made to the Eastern States. For Boston delivery $3.20 is being obtained for extras, $2.90 for clears, $3.40 for second clears, $2.15 for saps, and $1.75 for extra No. 1. The demand for clapboards seems to have been supplied, although the market remains firm at $32 for extra spruce and $30 for clear. Logging operations are progressing favorably. Of the 31,000,000 feet of logs stranded in the St. John river, a contract has been given at 5 to 12 cents per log to have nearly 10,000,000 feet hauled ashore. The balance of the logs are above Grand Falls and will probably be saved in the spring. Most of the mills at St. John are shut down, and it is probable that only two will be able to operate all winter. Ocean freights are low.

UNITED STATES.

The expected action was taken by the Mississippi valley manufacturers last week, when at a meeting of the price list committee, several grades of white pine were advanced in price. The new list has not been received, but it is understood that changes were made only in the case of certain sizes which are in short supply. It was shown at the meeting that there is a very light stock of dimension in large sizes, and that before next spring manufacturers would be completely sold out. The buying of lumber is not particularly active, the recent advance having checked the demand, but manufacturers are convinced that the condition of stocks throughout the Mississippi and Wisconsin valleys warrants a firm attitude. An improvement in the conditions surrounding the car shortage situation is reported, and as a result lumber is being shipped in large quantities from Buffalo and Tonawanda to the Eastern States. The higher grades of pine are still advancing. In our Buffalo list the price of fine common has been marked up about $2 per thousand, as well as No. 1 and No. 2 cutting up stock in 1¼ and 1½ inch. The feeling in Buffalo and Tonawanda is that dealers are in full command of the situation, and that there will be little good pine lumber in the market by spring. The city of New York is said to be short of lumber, with prospects of a heavy demand for building purposes in the early spring. In the Saginaw valley there is an equally confident feeling. Reference to the price list will show an advance of $3 on nearly all sizes of uppers and selects, and of $2 on fine common. No. 3 barn boards are also slightly higher, selling on the basis of $17.50 for 8 to 10 inch. Box lumber, 7 inch and up, brings $18. Shingles have also been marked up to $3 for clear butts in pine, and $3.50 for XXXX cedar. Lath continues strong at $3 to $3.25 for both pine and spruce in the Albany market.

An improvement is noted in the hardwood market, and although the demand is not active prices are becoming firmer all along the line. Birch is scarce and strong, but there is little doing in maple and basswood. Hemlock lumber has been advanced in New York to the basis of $15.

GREAT BRITAIN.

The timber business of Great Britain is gradually getting into a stronger position. The imports from Canada are almost at an end. This has caused liberal buying for winter stock, as consumers now realize that the market is likely to advance. Canadian spruce is showing unusual firmness. For two cargoes of deals just arrived at Liverpool the ship

pers refused to entertain less than £8 c.i.f., although a cargo from Cape Tormentine, N.B., was recently sold to Liverpool buyers at £7 10s. London dealers have sold third quality spruce, 3 x 9, 12 feet and upwards, at £8 12s 6d, but it is doubtful that this low price will be repeated again this year. Alfred Dobell & Company, of Liverpool, advise that spruce deals and birch timber are in a decidedly stronger position. Prices of pine deals show some improvement. There is a good demand for 11-inch, as well as for siding and strips. Second quality is dull of sale. Waney and square pine has improved, and prices are stiffer. Ash is little inquired for, and stocks are accumulating. As far as can be learned, importers have not placed contracts for next year's delivery, and it is improbable that much will be done until after the turn of the year.

STOCKS AND PRICES.

Tuttle Bros., of Wallace, N. S., have contracted to saw 700,000 feet of lumber at Lansdowne, Pictou county.

Thirty million feet of logs were driven to the boom at Bangor, Me., this year, compared with 58,000,000 feet in 1900.

Thomas Mackie, M. P., of Pembroke, is reported to have purchased, for $100,000, a large timber limit on Garden Island, near Sault Ste. Marie, Ont.

John Wilkinson has been given a contract to get out 1,00,000 feet of logs for Mooney & Company, of St. John, N. B. He has 23 men in the woods at Grand Bay.

The S. P. Benjamin Company, of Wolfville, N. S., have 250 men in the woods at Upper Falmouth. During the past season the company cut 9,000,000 feet of lumber.

The Dominion Government is about to build a wharf at Caraquette, Gloucester county, N. B., which will require a large quantity of timber and will cost upwards of $25,000.

In the Buffalo market hoops are scarce and bring $8.50 to $8.85 for coiled 5½ and 6 foot. Basswood heading is selling at 5¼ to 5¼ cents for first-class, and elm staves at $8.25 to $8.50.

Ernest Marceau, superintending engineer of canals in the province of Quebec, is asking for tenders up to 16th inst. for the supply of timber and lumber required on the canals during next year.

Receipts of lumber at Tonawanda by vessel for the season to December 1st were 433,654,216 feet, far in excess of the amount that arrived during the season of 1900. The shipments from North Tonawanda were 205,838,854 feet.

The Timber Trades Journal of November 23rd says: "It is rumored that a cargo of spruce deals to be loaded in a steamer now about due at St. John, N. B., has been sold at £7, 15s. c. i. f. or better for the Manchester district.

The lumber shipments from the port of Pictou, N. S., for the season of 1901 were as follows:

Shippers	Deals, Boards, etc.
W. M. Mackay	423,000 feet.
P. A. & J. D. McGregor	1,259,000 "
Primrose Bros.	1,709,000 "
Rood & McGregor	1,059,000 "
Geo. Mackay	3,075,000 "
W. J. Kent	769,000 "

P. A. & J. D. McGregor also shipped 1,102 tons of timber.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Sheet Harbor, N.S.: Steamer Ramleh, for Manchester, Eng., 1,394,000 feet deals, value $10,390, 357,000 feet scantling, value $2,456, 26,000 feet deal ends, value $156, by Sheet Harbor Lumber Co.

From Chatham, N.B.: Steamer Salerno, for Liverpool, 1,653,000 feet deals and ends, by J. B. Snowball Co.; Str. Ceylon, for Fleetwood, 1,421,661 feet deals and ends, by J. B. Snowball Co.

From Vancouver, B.C.: Barque Hesper, for Western Australia, 738,361 feet rough fir, value $6,502, by British Columbia Mills, Timber & Trading Co.

From Halifax, N.S.: Schr. Warrior, for St. Pierre, 69,000 feet lumber, value $640; Schr. Urania, for Newfoundland, 4,000 feet, value $40. Schr. Robert Erwing, for New York, 45,000 feet, value $450. Schr. Maclure, for New York, 239,225 feet, value $2,391. Schr. Rambler, for Manchester, Eng., 1,777,000 feet deals, etc., value $13,002. Schr. Concordia, for Glasgow, 394,438 feet, value $3,915. Str. Frascadi, for Jamaica, British West Indies, 28,332 feet lumber, value $315.

From St. John, N.B.: Schr. Harvard H. Hardy, for Boston, 96,417 feet boards, by J. M. Driscoll. Schr. E. C. Gates, for Pawtucket, 175,206 feet plank, by A. Cushing & Co. Schr. Clayola, for New York, 598 pcs. piling, by J. Holly & Sons. Schr. Sarah Potter, for New York, 1,731,500 feet laths, by J. E. Moore. Str. Loyalist, for London, 1,250 bales pulp, by St. John Sulphite Pulp Company, 174,698 feet deals, 6,495 feet ends, 12,385 feet scantling, by George McKean. Schr. Harry Knowlton, for Philadelphia, 1,619,000 feet laths, by A. Cushing & Co. Schr. Ettie Simpson, for City Island, 228,462 feet deals, 755,500 feet laths, by Stetson, Cutler & Co. Schr. William Marshall, for Washington, 1,470,200 feet laths, by J. H. Scammell & Co. Schr. Centennial, for Boston, 90,012 feet plank, 41,000 feet scantling, 241,500 cedar shingles, by A. Cushing & Co. Schr. A. P. Emerson, for City Island, 188,048 feet deals, 483,700 feet laths, by Stetson, Cutler & Co.

From Sorel, Que.: Barque C. White, for United States, spruce lumber, value $1,488, by Tourville Lumber Mills Co. Barque W. G. White, for United States, spruce lumber, value $1,413, by Tourville Lumber Mills Co.

MONTREAL LUMBER SHIPMENTS.

The exports of lumber from the port of Montreal this season show a falling off as compared with last year of 16,398,228 feet. The following are the principal shippers, with the total in feet board measure of their respective shipments:

	Feet B.M.
Watson & Todd	66,107,435
Dobell, Beckett & Co.	36,695,912
Robert Cox & Co.	31,736,125
Cox, Long & Co.	4,653,236
W. & J. Sharples	26,322,102
J. Burstall & Co.	22,521,217
Charlemagne & Lac Ouareau Lumber Company	10,863,809
McArthur Bros., Limited	10,411,035
McLaurin Bros.	4,456,000
E. H. Lemay	3,472,000
Railways, steamship lines, and small shippers	5,185,979
Total to G. B. and continent	222,424,850
Export Lumber Co. to South America	863,067
Grand total	223,287,917
Shipment season 1900	239,686,143
Shortage season 1901	16,398,228

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

The imports of lumber to the Saginaw river this year were 102,939,531 feet, as against 75,000,000 feet last year.

The attention of our readers is directed to the important sale of timber limits, the property of Mr. William Mackey, of Ottawa, advertised in the present issue of the "LUMBERMAN." These limits comprise 129¾ square miles of superior timber on the River Amable du Fond, Ont., and are all well watered. Particulars and plans of the limits can be seen at this office.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

—CORRESPONDENCE SOLICITED—

THE LOGGING SITUATION IN NEW BRUNSWICK.

Last year out of a total cut of about 140,000,000 feet of logs on the St. John river, in New Brunswick, 11,500,000 feet were hung up. This year the cut has been 133,000,000 feet, and of it no less than 31,000,000 feet have failed to come down. The drives which were hung up last year were 5,000,000 feet of Kilburn's logs and 6,500,000 belonging to the Woodman estate. This year the 31,000,000 feet are divided among different lumber operators, nearly every one having some interest in them.

Of the drives which have failed to come down, 25,000,000 is regarded as being in danger, while the other 6,000,000 is safe. On the main river, just below Eel river, are 10,000,000 feet of the lower corporation drive. The tail of this drive is twenty miles below Woodstock and thirty miles from the boom limits. It belongs to Geo. Kilburn, W. H. Murray, Cushing, Stetson, Cutler & Co., Charles Miller, N. H. Murchie, Randolph & Baker, Cunliffe Sons, and Dunn Brothers.

Another 10,000,000 is on the main river above Grand Falls. It is owned chiefly by W. H. Murray and is what is known as Kilburn's drive.

The balance of the 25,000,000 which is regarded as being in danger, consists of 5,000,000 feet at present situated at the head of the Aroostock Falls. It is part of the big drive now below Eel river, which failed to get into the main river. This drive is owned by N. H. Murchie, Dunn Bros. and Robert Aitken.

Besides these drives there are 6,000,000 feet lying in safety at three different points. One drive of 2,000,000 is on the Fish river; another of 3,000,000 on the Northwest river, both of these being owned by W. H. Murray. On the St. Francis river there is a small drive of 1,000,000 feet, owned by Charles Miller.

The 25,000,000 feet are so situated that if in the spring the ice runs out as it does four times out of five all the logs will be saved. It is hoped that there will not be a rise in the water, for if this should occur the logs up river will be liable to be brought into almost certain danger. In the position in which they now lie they will be quite easily saved, but a rise in the water or a sudden running out of the ice in the spring will make their loss almost certain.

The cut this year was estimated at 135,000,000 feet and the returns to date show this estimate to be a very correct one. There have been rafted from the Fredericton booms 35,332 joints, containing a little over 67 tons of timber. This is made up of 119,000 feet hemlock, 6,417,000 feet cedar, 3,768,000 feet pine, 81,093,000 feet spruce, in all 91,997,000 feet.

Above the boom limits there have been rafted 11,497,000 feet, making a total of almost 103,000,000 which has reached safety.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars send us direct or through the above agents will have equal, prompt and careful attention.

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. VII. TORONTO, ONT., DECEMBER 18, 1901 No. 46

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue.

WANTED—75 carloads Rock Elm Strips 2½ x 1¼", in lengths 4 ft. 6 in., 4 ft 9 in. and 5 ft. Must be perfectly free from knots and full size. Apply OTTAWA LUMBER CO., Ottawa.

WANTED.

ONE 14x18 INCH OR 16x16 INCH SAWMILL engine, with suitable boiler, second-hand, in good condition. Apply BOX 13, CANADA LUMBERMAN.

TO TRADE SEEKERS.

I am open to correspond with a first class Ontario or Quebec firm, manufacturing Lumber and Building Materials, to represent them in Nova Scotia or Maritime Provinces. I am well acquainted with the Building Trades and have a thorough knowledge of the business. The field is practically new and a good opportunity to work up a connection by one constantly in touch with the trade, and posted on local requirements. Can give good references as to character and ability.

Address, "Scotia," care CANADA LUMBERMAN.

SALE BY AUCTION

OF

SPRUCE AND PINE TIMBER LIMITS

IN OTTAWA DISTRICT.

The undermentioned Timber Limits will be sold by public auction at the office of the undersigned, No. 114 St. James Street, Montreal, on Wednesday, 20th January, 1902, at noon:—

AUCTION SALE

OF

VALUABLE TIMBER LIMITS

AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY.

Ottawa, 4th Dec., 1901.

LIVERPOOL TIMBER STOCKS.

Following is a table of the stock of Canadian timber, etc., at Liverpool, Eng., on November 30th last:

	1900.	1901.
	Cubic Feet.	
Quebec square pine	95,000	117,000
Quebec waney pine	142,000	59,000
St. John pine	2,000	2,000
Red pine	17,000	9,000
Oak, Canadian and U. S	218,000	87,000
Oak planks	151,000	133,000
Elm	32,000	50,000
Birch	271,000	158,000
Ash	27,000	46,000
	Per Std.	
N.B.,&c., spruce and pine deals	20,810	9,730
Quebec deals	13,030	17,960

CURRENT TRADE CONDITIONS.

ONTARIO.

Each week seems to add strength to the white pine situation. Speaking at a meeting last week of the Saginaw Lumber dealers' Association on the condition of the lumber trade in Ontario, Mr. R. H. Roys, of the Saginaw Lumber & Salt Company, said that he did not know of a single round lot of white pine unsold in the Georgian Bay district. Mr. Roys is familiar with the conditions and his statement may be regarded as indicating the small amount of unsold stock that is held by Georgian Bay manufacturers. Inquiries are being received quite freely for mill culls and for Canada dressing. It is almost certain that prices generally will be fully maintained throughout the winter, while an advance may be made in the price of the upper grades, owing to their scarcity. In the Ottawa valley good shorts, strips and sidings are most in demand. Export shipments from that district have ceased, but a considerable car trade is being done with the Eastern States. As in the Georgian Bay district, stocks there are light and the outlook for next season very encouraging. The scarcity of pine shingles has caused buyers to turn their attention to other varieties, particularly cedars. At Ottawa mills XXXX 18-inch cedar shingles meet with ready sale at $2.75 per thousand. Such changes as have taken place in hardwoods is in the direction of improvement. Manufacturers believe that early in the new year a brisk demand for all kinds of hardwoods will be witnessed.

From present indications a very small stock of hardwood logs will be taken out this winter. It is estimated that in the Wiarton district the stock will not be more than half as great as that taken out last season.

QUEBEC AND NEW BRUNSWICK.

The total exports of lumber from the St. Lawrence river this season were, approximately, 479,000,000 feet. This is almost as great as last year, the falling off from the port of Quebec being almost made up by increased shipments of spruce from Montreal. Prices for next season's production are firm, with no disposition on the part of manufacturers to close contracts except at a reasonable margin of profit. Locally the demand for lumber is quiet. Most of the large corporations are now taking tenders on their timber supply for next year. The city of Montreal will likely require more lumber than usual, as the construction of sidewalks to the value of $153,631 has been recommended. Shipments of clapboards and shingles continue to be made to the United States. For Boston delivery extra cedar shingles bring $3.20; clears, $2.90; second clears, $2.40; saps, $2.15, and extra No. 1, $1.80.

UNITED STATES.

Conditions in the white pine lumber trade of the United States continue very satisfactory. The advance put in effect by the Mississippi valley manufacturers has been sustained, and apparently has not restricted the demand. The new list has been published, and shows an advance of 50 cents a thousand on No. 1, 2 and 3 dimensions; $1 on 12-inch No. 1 and 2 boards; $1 on selects; 50 cents on fencing; $1 on siding in the best grades, and 50 cents on lath. This practically covers all of the advances of importance. In the Saginaw valley it is difficult to buy white pine stocks, and there seems to be a shortage of thick shop and better grades. There is some evidence of improvement in Michigan hardwoods and hemlock, while shingles have never been so scarce as at the present time, no dealer having a supply to meet the requirements of his business. Buffalo and Tonawanda yards are carrying a large quantity of pine, but if the demand keeps up stocks will be badly broken before spring. There is still a tendency on the part of good lumber to advance. Certain dealers are buying all the cutting-up grades that they can find. The cheaper class of lumber is not much asked for, while the supply is large, with barn boards particularly plentiful. A feature of the past week has been the buying for future requirements. A Chicago dealer has closed a contract for the purchase of the entire cut of lumber made next season by the Hamilton & Merryman Company, of Marinette, Wis., which is expected to aggregate 35,000,000 feet. One-half the 1902 cut on the Menominee river is said to have already been sold.

The conservative buying which has been done by consumers of hardwoods is responsible for more activity than usual at the present time. Inquiries for future delivery are becoming more numerous, and prices are reported rather strong, with an upward tendency on some of the items. Birch is selling very satisfactorily, while elm and basswood are

meeting with a moderate sale, and white ash and maple are rather dull.

GREAT BRITAIN.

The figures showing the stocks of timber held at the leading ports of Great Britain at the present time in comparison with one year ago have exerted a good influence upon the market, and have caused importers to be more liberal in their views regarding prices for next season's stock. The stock of timber in the public docks at London on November 30th was 22,240,000 pieces, as against 26,316,000 pieces at the same date in 1900. Pine deals and battens are represented by 1,461,000 pieces, an increase of about 200,000 pieces over 1900. Of spruce deals the quantity is 1,854,000 pieces, a slight decrease from the previous year. Oak, elm, ash and white pine timber are held in smaller quantity, while birch timber and planks show an increase of 4,000 pieces. The stock of pine deals in the Liverpool district is 17,960 standards, an increase of nearly 5,000 standards over 1900. Spruce deals make a much more favorable showing, the quantity being only 9,730 standards, as against 2,180 standards one year ago. This is a decrease of over 50 per cent. and should be sufficient to result in a continuance of the firm tone which has characterized the spruce market for the past month. For spruce cargoes sellers are asking £8 c. i. f., and owing to the shortage there is likely to be no difficulty in closing contracts at this figure. Reports of brokers covering the month of November tell of a hopeful outlook for Canadian lumber.

The quotations for first quality pine deals range from £22 to £28 per standard; second quality, £18 to £21; and third quality, £12 to £13. For first quality in broad sizes from £26 to £28 can be realized. Waney board pine is in good demand and the stock is light, while square is little inquired for excepting when waney cannot be obtained.

STOCKS AND PRICES.

The base price of hemlock at Buffalo is $13.50, and at New York $15.

Capt. R. C. Bacon, Moncton, N. B., is reported to have purchased 800 acres of timber land near Sydney, N. S.

The Dominion Government is taking tenders for the supply of timber required next year for the Welland canal.

O. Tingley, of Hopewell Hill, N. B., has sold the timber on his property at Beaver Brook to Ormand Calhoun, for $2,000.

W. B. McLean, of North Bay, Ont., is preparing to cut 2,000,000 feet of pine this winter for George Gordon & Company, of Cache Bay, Ont.

At Toledo, Ohio, lath continues in active demand. Some dealers are asking $4 for No. 1 white pine and $3.50 for No. 2. No. 1 hemlock is strong at $3.25

Persons having cedar telegraph poles for sale may find a buyer for almost any quantity by communicating with Box 33, CANADA LUMBERMAN. The specifications are given in the Wanted and For Sale Department.

During the month of November the Victoria Lumber & Manufacturing Company, of Chemainus, B.C., made the following foreign shipments of lumber: South America, 771,792 feet; South Africa, 1,317,516 feet; Australia, 730,665 feet; total, 2,819,973 feet.

Gilroy & Hunter, of Southampton, N.S., recently purchased two square miles of timber from the Newville Lumber Company, on which they are operating this winter. A considerable quantity of logs, pit timber and scantling is being taken out in that vicinity.

The Saginaw Lumber & Salt Company, of Saginaw, Mich., are operating five camps for logs in the Georgian Bay district and seven board timber camps. They expect to take out 25,000,000 feet of logs and 200,000 cubic feet of board timber, the latter for the British market.

The Department of Indian affairs at Ottawa is asking for tenders up to the 20th inst. for purchase of 30,000 railway ties to be made this winter by the Indians of Garden River, near Sault Ste. Marie, also 6,000 cedar railway ties to be made by the Indians of the White Fish River Reserve.

The deal shipments from Parrsboro, N. S., this season were 21,835,480 superficial feet, which shows a marked falling off as compared with previous years. W. M. Mackay shipped 14,322,869 feet, George McKean 6,470,794 feet, and the Newville Lumber Company 1,031,817 feet.

Of the Barbadoes lumber market S. P. Musson, Son & Company, under date of November 23rd, say: "The arrivals since our last have been the Blomidon, from Halifax, N.S., with 35,000 feet white pine boards, 21,000 feet plank, and 20,000 feet spruce scantling, which were sold at $25.50 for shipping and $21 for second quality boards, $23 for plank, and $14.50 for scantling; the Herbert Rice, with cargo of 160,000 feet spruce, contracted for on c.i.f. terms; and the schooner Comrade, with white pine, which we sold at $24.25 and $20.25 for shipping and second quality respectively. Other cargoes of white pine and spruce on contract are shortly expected. No arrivals of shingles have taken place, and both long and dimension Gaspe cedar are wanted."

The shingle mill of Harrison & Hawke at Shallow Lake, Ont., was burned on Monday last. It is their intention to rebuild.

THE GLASGOW MARKET.

Messrs. Wright, Graham & Co., in their timber market report of November 30th, say:

Trade continues fairly steady, and prices of most woods are firmer with a hardening tendency. Builders have a moderate amount of work on hand. Shipbuilders still continue busy, but on account of the collapse of the freight market very few contracts have been placed recently, and it is expected that by spring this branch of trade will be in a very depressed condition. Cabinetmakers complain of a scarcity of orders, and look forward to a quiet winter.

WANEY TIMBER.—The stock is light, and higher prices have been realized.

SQUARE WHITE PINE.—The demand has been light, but owing to scarcity of waney logs buyers will likely fall back on the square logs.

OAK.—There has been fair enquiry, especially for long prime wood suitable for railway purposes. Price, 2s. 10d. to 3s. 2d.; second-class wood 2s. 2d. to 2s. 6d. per cubic foot.

ELM.—There is a heavy stock and little demand. Prices, prime wood 3s. to 3s. 2d.

ASH.—The stock is large, and owing to dullness in the furniture trade very little is being consumed. 14 in. average is quoted at 1s. 11d. to 2s.; 15 in. average at 2s. 2d. to 2s. 3d. per cubic.

BIRCH.—Several parcels have changed hands at from 1s. 5d. to 1s. 6d. for 16 in. average; 17 in. at 1s. 6d. to 1s. 7d. Planks are heavily stocked, and any sales made have been in small lines at low figures. Lower port planks sold recently as low as 8d. to 8 1-2d. per cubic foot.

RED PINE DEALS.—The market is heavily stocked, and sales difficult to make. Prices quoted—9 and 11 in. by 3 in., £9 12s. to £11 per std.; 7 to 10 in. by 3 in., £7 11s. 3d to £8 5s.

SPRUCE DEALS.—The demand has been steady and prices have improved. Prices are quoted—9 in. and up by 3 in. at £8 5s to £9 12s 6d per std.; 7 and 8 in. by 3 in. at £6 10s to £7 5s.

QUEBEC WHITE PINE DEALS.—There is more inclination to buy, and sales have been on a fairly large scale. Broad first have been in strong demand, and arrivals have met with ready sale. Prices are firmer. 1st quality, broad, £26 2s. 6d. to £28 17s. 6d per std.; 11 in., £24 to £26; 7 in., to 10 in., £18 10s. to £22. 2nd quality, broad, £20 to £22; 11 in., £18 10s. to £20; 7 in., to 10 in., £13 15s. to £15 2s. 6d. 3rd quality, broad, £13 15s. to £14 8s. 9d.; 11 in., £11 13s. 9d. to £12 7s. 6d.; narrows, £9 5s. to £10 6s. 3d. 4th quality, broad, £10 6s. 3d. to £11; 11 in., £9 12s. 6s. to £10 6s. 3d.; narrows, £7 18s. to £9.

QUEBEC WHITE PINE SIDINGS.—First qualiiy are in demand, and are realizing slightly increased prices. First quality, according to specification, from £16 10s. to £22 per std.; first quality strips, from £15 2s. 6d. to £16 10s.

The new list of the Mississippi Valley Lumbermen's Association places the price of No. 1 white pine lath at $4, and mixed at $3.50.

At a meeting of the representatives of all the mills on Puget Sound and in British Columbia, held in Seattle on November 27th, it was unanimously agreed to advance the price of lumber for foreign shipment to the $10 basis. This advance took effect on December 1st.

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

Priscilla, for Boston, 107,506 feet plank, 23,876 feet deals, 6,935 feet scantling, 22,213 feet boards, 9,240 feet pickets, by A. Cushing & Company. Schr. Rosa Mueller, for Bridgeport, 868 pcs. piling, by John E. Moore. Str. Lake Superior, for Liverpool, 24,340 feet ends, 50 tons pine timber, 245 tons birch timber, by W. M. Mackay; 6,202 bundles shooks, 308,000 feet pine plank, by Troop & Son. Schr. Abbie and Eva Hooper, for City Island 198,930 feet deals, 620,000 feet laths, by Stetson, Cutler & Company. Sch. Winnie Lawry, for New York, 24,795 feet deals, by Stetson, Cutler & Co. Schr. Morancy, for Newport 46,181 feet plank, 3,232 feet boards by J. R. Warner & Co.; 160,603 feet plank, 2,600 feet boards, by Dunn Bros. Schr. Carrie D. Ludlam, for City Island, 259,066 feet deals, by Stetson, Cutler & Co. Str. Ionian, for Liverpool, 1,467,900 feet deals, 52,008 feet scantling, 86,393 feet boards, 253,905 feet birch plank, 25,790 feet ends, 293 tons timber, by W. M. Mackay; 6,479 pcs. maple squares, 5,773 bundles maple squares, 251 pcs. oak timber, by William Thompson & Co.

TIMBER LIMIT TRANSACTION.

Hon. Arthur Hill is reported to have sold the townships of Trill and Cascaden, in the Algoma district, to the Turner Lumber Company. The limit is estimated to contain 100,000,000 feet, and the consideration is said to be better than $4.50 stumpage.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

Additional figures of the lumber exports from the St. Lawrence have come to hand. There was shipped from the port of Quebec 141,757,407 ft. from Three Rivers and Pierreville, 31,988,105 feet; from other ports, 82,929,102 feet; which, with the Montreal shipments published last week, brings the total St. Lawrence river shipments up to 479,099,404 feet.

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

WEEKLY EDITION

The Lumberman Monthly Edition, 20 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. VII. TORONTO, ONT., DECEMBER 25, 1901 No 47

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:

IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday, Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly me ium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 24-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects areespecially valuable to saw m ll and planing mill men and manufacturers of lumber products.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

FOR SALE—One of the largest and best equipped planing mills and lumber yard in Western Ontario; continued ill health of proprietor reason for selling. Answer BOX 24, CANADA LUM ERMAN.

WANTED—75 carloads Rock Elm Strips 2¼ x 1¼", in lengths 4 ft. 6 in., 4 ft. 9 in. and 5 ft. Must be perfectly free from knots and full size. Apply OTTAWA LUMBER CO., Ottawa.

WANTED.

ONE 14x18 INCH OR 16x16 INCH SAWMILL engine, with suitable boiler, second-hand, in good condition. Apply BOX 13, CANADA LUMBERMAN.

Standing and lying timber and a good chance to buy stock. Fine local trade. Address care BOX 17, CANADA LUMBERMAN.

AUCTION SALE
OF
VALUABLE TIMBER LIMITS
AND LANDS.

There will be offered for sale by Public Auction, at the Russell House, in the city of Ottawa, on

Wednesday, the 19th day of February, 1902,

at two o'clock in the afternoon, the Timber Berths and Properties owned by Mr. William Mackey, on the River Amable Du Fond, Province of Ontario. The limits are in one block containing 129¾ square miles, timbered with white and red pine of superior quality, spruce and other woods, and are well watered, making a very short average draw. Part of the block is still a virgin forest containing large board pine of the finest quality with a very short haul.

With above are included deeded lands on which are built slides and dams; and at Eauclaire station, Can. Pac. Ry., a well-equipped saw, planing and shingle mill run by water power.

The whole will be sold in one block. Maps and descriptions of limits may be obtained from

W. MACKEY,

Ottawa, 4th Dec., 1901.

For Sale.

One 54 inch double cant oscillating gang, Wm. Hamilton make, extra strong and in running order. Apply G. B., care CANADA LUMBERMAN.

WANTED

A steady, energetic, thoroughly experienced and competent man as foreman for a large shingle mill, equipped with Dunbar type of machine. Night and day capacity per year, 100 million.

Must be an expert on shingle saw filing and hammering, and thoroughly understand the Dunbar machine, and be able to do mill-wright work, know how to handle men, and write and figure fairly well. None but a strictly temperate man need apply.

Prefer a man not over 40 years old. An excellent salary and steady employment to the right man.

Apply "Shingle," care this paper, for further particulars.

CURRENT TRADE CONDITIONS.

ONTARIO.

At this time of the year dealers are not disposed to add to their stock of lumber, but rather prefer to reduce it as far as possible for the annual stock-taking. Yet during the past week there has been a liberal movement of carload lots, showing that dealers and consumers are in need of the lumber. Very favorable reports are heard on all sides regarding the pine market, while hardwoods are showing a slightly improved tone. Most of the pine mills are almost completely sold out of stock and are not in a position to fill large orders. The advancing tendency of the better grades has not yet ceased, and some of the lower grades are being marked up fifty cents a thousand. Manufacturers are receiving numerous enquiries regarding quotations for next season. A large Georgian Bay firm report that several buyers have made them offers at current quotations for their entire cut for next season, but they have not yet sold, as they believe prices must further advance. A fair trade is doing in hardwoods, the demand being chiefly for 1½ and 2 inch. Basswood leads in point of activity, while maple and beech are quiet and in comparatively heavy stock. The opinion of the trade seems to be that prices will be strong next spring, owing to the small stock of hardwood logs that is being taken out this winter. The shingle market remains firm, with the stock insufficient to supply the demand.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is quite featureless. Local trade is at a standstill and the demand from the United States has slackened perceptibly, but the stock of spruce lumber is limited and prices continue firm. The stock of deals that will be carried through the winter is smaller than was anticipated a couple of months ago, and manufacturers are looking forward to a strong market next spring owing to the small stock that will be available for first-open-water shipment. A further advance has been made in the price of white cedar shingles.

Weather conditions throughout New Brunswick have not been favorable for logging operations. During the first two weeks of this month there was a heavy fall of snow, which made it almost impossible to cut logs and interfered with yarding operations. Later the weather became extremely mild. It is said that the cut on the north shore will be curtailed from this cause at least 25 per cent.

UNITED STATES.

The features of the white pine trade of the United States during the past two months will long be remembered by lumbermen, as the developments have been almost the reverse to what might reasonably be expected. Each week has brought new elements of strength, and in many cases higher prices. A comparison of the prices ruling in the Chicago market shows that at the close of navigation nearly every grade of lumber was considerably higher than at the commencement of the cutting season. Common inch lumber sold early in the season at $15 delivered in Chicago, and the same grade is now quoted at $16.50 to $17. Short piece stuff is selling at $14, an advance of $1. Lath continued firm throughout the season, although there was no sustained advance except for No. 2 mixed, which is now saleable at $2.25, while $2 was the spring quotation. No. 1 white pine lath is quoted at $3, and No. 1 mixed white pine and Norway lath at $2.75. In the Lake Superior district advances continue to be announced. At Ashland, Wis., it is estimated that since the close of navigation all kinds of white pine lumber have advanced 25 per cent. No. 4 boards have reached $10, and No. 5 boards $6. Narrow Norway sides are going at $10, whereas $9 would have bought them one month ago. The buying has been by persons who realize that they will need the lumber before the new cut is ready. The stocks at Ashland make a most favorable showing, the total on hand being 79,000,000 feet, as compared with 132,000,000 feet one year ago. Of the above stock less than one-half is for sale. Eartern dealers report a slight

falling off in demand owing to bad weather, but notwithstanding this fact, the higher grades are being steadily advanced in price, while an improved demand recently for the coarser grades has caused a stiffening in the prices for this class of lumber also. The spruce situation is practically unchanged except that orders are a little less plentiful, and here and there price concessions are made. It is now admitted that the available supply of hardwood lumber is less than was generally believed, and consequently the tone of the market is a little better. The total consumption during the year has been fairly large, while the depression earlier in the season discouraged production. White ash is rather heavy and seems likely to sell at a lower price.

GREAT BRITAIN.

The import season for this year is now closed, and for that reason considerable interest is attached to the Board of Trade returns. These show that the total import of sawn and hewn timber to Great Britain for the eleven months of this year was 8,518,545 loads, and for the same period last year 9,237,243 loads, a difference of 718,698 loads. Although the import was not much lighter than last year, the stocks in the public docks at London on November 30th showed a decrease of 4,000,000 pieces as compared with the same date one year ago. Thus, through a period of depression the consumption appears to have more than have kept pace with the importation, and it is only reasonable to expect an expansion of the timber trade next year. An unfavorable factor is the slight business depression prevailing at the present time throughout most of the countries of Europe. Timber importers have as yet bought very sparingly for next year's requirements. They are showing little disposition to conclude contracts immediately, probably for the reason that an opinion prevails that the prices which shippers are asking are unreasonably high. A meeting of the Importers Section of the Timber Trade Federation was held in London last week to ascertain whether it was not possible to collectively oppose the high prices which it is stated shippers intend asking for next year. The result of this meeting has not been learned. Prices for good quality deals and battens are firm, but for inferior qualities there is very little demand. A cargo of St. John spruce just to hand has been placed to Bristol by Farnworth & Jardine at £7 15s c.i.f. As the cargo contained 60 per cent. of 7 and 8 inch, the price is considered very fair. At recent auction sales in London two lots of first quality 3 x 9 Canadian spruce brought £12 10 and £12 15s, and the 9-11 feet sold at £11 15s.

NEW BRUNSWICK CEDAR SHINGLES.

The market for extras and clears in cedar shingles is very strong. Retailers are generally lightly stocked and the makers are practically all cleaned out of the above grades. In addition to the firm outlook as indicated by the above, it is current trade gossip that certain of the commission houses are quite heavily sold ahead—in other words, that they have taken orders during the last two months for more shingles than their sources of supply could furnish. These orders were generally taken at 15c. to 25c. per thousand less than the present market prices, and the holders of these orders are now beginning to fear that they will be obliged to pay present full quotations in order to place the business. This fear, we believe, is well founded, as the manufacturers seem now to realize the full strength of their position and are unlikely to let down their prices simply to help their commission friends. The winter's production will be no more than normal, and indications are that every shingle that can be produced before May 15th will be needed twice over. Of course, the demand will be light during January and February, but indications are that the manufacturers know their business too well to get frightened because they are not deluged with orders during the frozen up period of the winter. Realizing that the dealers must buy certainly by March, manufacturers will hold their prices at all hazards. We are inclined to believe that extras will sell next May at $3.40 to $3.50. Clear whites, 2nd clears and extra No. 1 are well shipped out also. The demand for all low grades is quiet just now, but these usually commence to move during February. Present market prices are f. o. b. strictly Boston rate of freight, Extras $3.25 to $3.30; clears $2.85 to $2.95; 2nd clears $2.25 to $2.35; clear whites $2.15 to $2.25; extra No. 1 $1.75 to $1.85.

DOORS AND MOULDINGS.

A large buyer of Canadian white pine doors and mouldings is open to contract with a mill for their entire output of No. 3 and 4 qualities of doors and all their mouldings during 1902. Write in the first instance to Empire, care CANADA LUMBERMAN.

STOCKS AND PRICES.

It is reported that Allison & Robertson, of Norton Station, N. B., have been given a contract to get out 1,000,000 feet of pulp wood for the St. John Sulphite Pulp Company.

D. A. Huntley, of Parrsboro, N. S., has recently purchased a tract of timber land on the north shore of Kings county, and will cut about 1,000,000 feet of logs on his own property this season.

J. Buchanan, of Winnipeg, has secured a contract from the Canadian Northern Railway Company to take out a large quantity of railroad ties.

Capt. R. C. Bacon, of Moncton, N.B., has recently purchased a block of timber lands, comprising 800 acres, in the vicinity of Grand Lake. He will probably erect a saw mill on the property.

At the Crown Lands office at Fredericton, N.B., three timber berths were disposed of last week as follows: Salmon River, Kent county, three miles to Daniel Duffy, at $20 a mile; Clear Lake, Parish of Musquash, two miles, to G. K. Hanson, at $42 a mile; Sand Brook, branch of Oromocto, two miles, to W. F. Barnhill, at $8 a mile.

Lumbering on the Black River is brisk this winter. J. R. Booth, of Ottawa, and McLachlan Bros., of Arnprior, have each several camps in operation. Alexander Watt, of Waltham, is jobbing for J. R. Booth on the old Fraser limit.

By a typographical error in our last issue the quantity of spruce deals in stock at Liverpool on November 30, 1900, was given as 2,180 standards, instead of 22,180. The quantity at same date this year is only 9,730 standards.

Concerning cooperage stock the Sutherland, Innes Company, of Chatham, Ont., says: There has been quite a flurry during the past month in the price of cooperage stock. No. 1 staves have taken quite a jump and hoops have advanced all the way from $1 to $1.50 per M. No. 1 heading has also come into great demand, and while there has not been any perceptible advance all along the line, individual parties are asking more for No. 1 heading than they have been doing for some time. The stocks of No. 1 staves at the mills are now very light, and as manufacturing has ceased for the season, and jointing will soon be over, the manufacturers will have to rely upon the stock they have left to

FOR SALE.

A number of very valuable pine and other timber limits on the north shore of Lake Huron and elsewhere for sale. Also limits bought and sold on commission and estimates given. For particulars, apply to

Wiarton, Ont.

MANUFACTURER AND WHOLESALE LUMBER DEALER

Has for sale a quantity of Maple, Beech, Birch, Basswood and Soft Elm in good shipping condition. Cedar Shingles and Bill Stuff a Specialty

—CORRESPONDENCE SOLICITED—

supply their trade, and cannot depend much upon jointing further stock this season Under these circumstances, we look for a further advance in the price of No. 1 staves. There has been quite a demand for sugar barrel stock for the beet sugar refineries, and this trade is going to consume quite a large amount of stock.

The Bradley Lumber Company, of Hamilton, Ont., have closed a contract for 50,000 cubic feet of pine timber to be sent to Boston and New York, from which points it will be shipped to Liverpool and Glasgow for ship-building purposes.

The Harbor Commissioners of Montreal have accepted the following tenders for annual supply of timber: Round hemlock, Owen Bros., at 7½c; flat hemlock, Shearer, Brown & Co., 12 cents; other hemlock, J. B. Grier, 16 cents; round pine, 12 cents, square pine, $22, Smith & McLennan; red pine piles, Bruneau & Leclerc, 16 cents; red pine coping, J. B. Grier, $24; rock elm, Smith & McLennan, 23 cents; pine planks, Montreal Lumber Company, $15.90; hemlock planks, Montreal Lumber Company, for 50 per cent., at $12.90, and J. B. Grier at $13 for 25 per cent.; spruce planks, $14.90, Montreal Lumber Company.

CANADIAN LUMBER SHIPMENTS.

The following shipments of lumber, etc., from Canadian ports are reported since last issue:

From Halifax, N.S.—Str. Danthan Hall, for Liverpool, Eng., 1,265,513 feet deals, etc., value $151,44. Str. Ulunda, for Liverpool, 300,000 feet deals, etc., value $2,981. Str. Ururo, for Bermuda, British West Indies, 7,123 feet boards, value $139. Str. Tunisian, for Liverpool, 314,209 feet deals, etc., value $2,563. Str. Manchester Commerce, for Manchester, Eng., 648,663 feet deals, value $6,462.

From St. John, N.B.:—Str. Amarynthia, for Glasgow, 70,721 feet deals, 6,875 feet planks, 6,803 feet scantling, 2,756 feet ends, 2,283 feet pine deals, by A. Cushing & Co.; 136,292 feet deals and battens, 87,063 feet scantling, 20,256 feet plank, 4,922 feet ends, by J. M. Driscoll; 76,368 feet boards, by Dobell, Beckett & Co. Str. Tunisian, for Liverpool, 132,725 feet birch plank, 2,772 feet birch ends, 1,357,550 feet deals, 8,002 feet scantling, 58,943 feet ends, 821,061 feet boards, by W. M. Mackay; 155 pcs. lumber, 33,903 feet deals, 80,847 feet boards, 214,172 feet deals and ends, by William Thompson & Co. Schr. Ida May, for Boston, 31,909 feet spruce boards, 60,747 feet plank, 28,893 feet deals, 30,799 feet scantling, by A. Cushing & Co. Schr. Nellie Waters, for Boston, 31,948 feet spruce boards, 15,563 feet scantling, 547,132 feet plank, by Stetson, Cutler & Co. Str. Dahome, for London, 171,473 feet deals, 14,331 feet deal ends, by George McKean; 1,703 bundles shooks, by William Thompson & Co.; 1,250 bales pulp, by St. John Sulphite Pulp Co. Schr. Segabo, for Bridgeport, 824 pcs. piling, by J. E. Moore. Schr. Tay, for Boston, 126,-

OUR SHINGLES

FACTS ARE FACTS WHETHER TOLD ABOUT FISH OR SHINGLES

We make a fine 16-inch Shingle.
We make a fine 18-inch Shingle.
We make a fine 24-inch Shingle.
We make all thicknesses from 6-2 inch to 6-3 3/8 inch.

They are going out of our different mills at the rate of 200,000,000 a year. We make more shingles than any one firm in the world. Just think of it!

We claim to be experts. That is not gall. That is a statement which is proven constantly by the testimony of our customers from the Pacific Coast to the Atlantic Coast on the Canadian side, and from Maine to Puget Sound.

Mixed Cars our Specialty. Don't forget that we have all kinds of House Finishing Material in Fir and Cedar, and can load any quantity with shingles.

Come, let us deal together.

CUSTOMERS' ATTENTION.—Please take notice that on and after the 1st day of January, 1902, all arrangements with the Pacific Coast Lumber Co. of New Westminster, B. C., for the handling of any of our shingles will be ended, and until further notice our authorized general agents will be Mr. Jas. Twitchell, Clinton, Ont., for Ontario, and Mr. Samuel Ashfield of Winnipeg, Man., for Manitoba and the North-West; therefore, orders for straight or mixed cars sent through the above agents or direct to us will have equally prompt and careful attention.

Shingle Mill, Hastings, B.C.; Lumber and Shingle Mill, Vancouver, B.C.; Shingle Mill, New Whatcom, Wash.; Shingle Mill, Sumas, Wash.; Shingle Mill, Carroll Siding, Wash.

TIMBER LIMITS WITHDRAWN.

Six parcels of timber limits on the north shore of Lake Huron were offered for sale in the Board of Trade Building, Toronto, on December 18th. The limits comprised Townships 111 and 117, on the north shore of Lake Huron, containing thirty-six miles each, the property of Playfair & White, of Midland, and berths A, B, C and D, on the north shore of Lake Huron, being Berth No. 10 of the sale of 1885, the property of E. W. Sparling, of Lansing, Mich. There was very little competition for the limits, and no satisfactory offers being made all were withdrawn.
